themselves within an enclosure called the Eureka Stockade, which was taken by storm on 3rd December, by Captain Thomas, of the 40th Regiment, after considerable bloodshed on both sides. The practical result of the outbreak was the abolition of the obnoxious tax.

In 1854, the population returns were 205,629 males, 106,678 females, being a total of 312,307 souls, spread over a wide area, for whose religious wants only 187 places of worship were provided; the number of schools, too, exhibited the same disparity, 391 only being enumerated with over 20,000 scholars. The revenue was estimated at £3,087,986; the exports at £11,775,204; the imports at £17,659,051. The gold raised during the year was estimated at 2,392,065 ounces, valued at £9,568,262; 2,596 ships, bringing 83,410 passengers, arrived; 152 manufactories of different kinds were in operation. Land to the extent of 405,679 acres was sold, realizing £1,357,965; 54,905 acres were under cultivation, and the stock was enumerated at 27,038 horses, 481,640 cattle, 5,332,007 sheep, and 9,278 pigs. On 3rd March of this year the electric telegraph was first put in operation by the opening of the line between Melbourne and Williamstown. In November, 1856, responsible Government, as now existing, was initiated in the room of the former representative mode. In this year, too, the railway system was inaugurated, the line from Melbourne to Sandridge being opened. The line to Geelong, though in course of construction, was not available for traffic until 1857. Sir Henry Barkly, after a short interregnum, during which time the Government was administered by Major-General Macarthur, succeeded Sir Charles Hotham on 26th December, 1856, and during his term of office, extending to 10th September 1863, he achieved great popularity, which he retained till his transference to the Mauritius. In 1857 the property qualification of members for the Legislative Assembly was abolished and manhood suffrage became law. In the previous year vote by ballot had been prescribed by Act of 19 Vict., No. 12.

On 11th September, 1863, Sir Charles Darling, K.C.B., was sworn in as Governor of Victoria. His reign was remarkable for a contest between the two Houses of Legislature, which was carried on with great obstinacy on both sides. The Governor's conduct during this trying period was deemed by the Home Government unconstitutional, and led to his recall in April, 1866. He retired from office on 7th May, and died soon after his return to England. Till the arrival of his successor the officer administering the government was Brigadier-General Carey, C.B. On 15th August, 1866, he was relieved by Sir Thomas Henry Manners Sutton (Viscount Canterbury). His term of office expired on the 19th March, 1873, and Sir George Ferguson Bowen, G.C.M.G., was gazetted his successor, sworn into office on the 3rd March, 1873, and administered the government till the 22nd February, 1879, when he was nominated to the Mauritius. Sir Redmond Barry and Sir W. F. Stawell administered the government until the arrival of his successor, the Marquis of Normanby, who assumed office on 27th February, 1879, and resigned it on 18th April, 1884. His governorship will be memorable for the holding of the great International Exhibition, which was opened on 1st October, 1880, and closed on 30th April, 1881. A magnificent collection of works of art and manufactures of many nations was shown—the attendance being enumerated at 1,309,496. Another important event was the settlement—for the present, at any rate—of the question of the reform of the Legislative Council. On the departure of the Marquis of Normanby the government was administered by Sir W. F. Stawell, until the arrival of his successor, Sir Henry Brougham Loch (now Lord Loch), who was sworn in on the 15th of July, 1884. During the period of Sir Henry Loch's governorship, the hundredth anniversary of the first settlement in Australia was celebrated. The weekly mail contract service between Australia and England commenced, and the second Victorian International Exhibition was opened in Melbourne, on August 1, 1888, and closed on January 31, 1889. Sir Henry Loch, being absent on leave, Sir Wm. C. Robinson sustained the position of Acting-Governor from March 9, 1889, retiring on October 17, 1889, Sir Henry Loch having returned to the colony, who finally retired on November 15, 1889, Sir Wm. Robinson again assuming the office of Governor until the arrival of the Right Honorable John Adrian Louis Hope, Earl of Hopetoun, G.C.M.G., who was sworn in on Nov. 28, 1889, and who administered the Government until March 26, 1895, when he departed from the Colony. The Earl of Hopetoun's period of office was marked by the severest commercial and industrial depression known in the colony, and will be long remembered as the period of the great Bank Suspensions. Sir John Madden, the Chief Justice of the Colony, administered the Government of the Colony until the arrival on 25th October, 1895, of his successor, Lord Brassey, who brought a very successful term of office to a close on January 13, 1900, when he returned to England; his departure will be memorable as being synchronous with the departure of the second contingent of Victorian troops for South Africa. Sir John Madden assumed office as Acting-Governor on Lord Brassey's departure.

During June, 1897, the Diamond Jubilee of Queen Victoria was celebrated with great enthusiasm throughout the colony, processions, banquets, illuminations, and school feasts being held in every centre of population. Loyal sentiment was crystallized into great charities; in brief, the 60th year of Her Majesty's reign has stamped itself in enduring characters not merely on the imagination of the colony, but on its social institutions.

During 1897 the question of Federation received considerable public and legislative attention; a Convention sat at Adelaide and at Sydney, and sat also at Melbourne in the early part of 1898. On June 3, 1898, a referendum of the whole colony was held for the rejection or acceptance of the Federal Constitution Bill adopted by the Convention, with the result of a majority of 78,421 votes being recorded in its favour. In July, 1899, a referendum was taken for an Amended Federation Act, and was carried by a great majority. The chief event in the year 1900 was the proclamation by Her Majesty the Queen on September 17 of the "Commonwealth of Australia." Next to this in national importance and significance was the contribution by Victoria—in company with all the Australian Colonies—of several contingents of soldiers to assist in the war against the Boers in South Africa, and a contingent of naval men to fight in conjunction with British troops in China.

Mountains.—A range of mountains traverses the entire length of the colony, dividing it into two unequal parts. This range runs in an eastern and western direction, generally at a distance of 60 or 70 miles from the sea coast. It is part of the Australian Cordillera, and is called the Dividing Range; all the Victorian rivers have their sources in this range or in its spurs, those to the north running towards the Murray, and those to the south flowing into the sea. Its eastern part, which divides the Gippsland district from the Murray, is known as the Australian Alps. It varies in height from 1,000 to 6,508 feet, the principal peaks being Mount Smyth, Mount Selwyn, The Twins, Forest Hill, and the Cobberas. The range dividing the Wimmera district from the county of Ripon is termed the Pyrenees; the principal peaks are the Coorong-Ageering, the Jambour, and Ben Nevis. The Grampians form the west termination of the Great Dividing Range; the principal peak is Mount William, 3,827 feet above sea level. Other mountains are—the Benambras, the Gibbo, Bogong, Buffalo, and Futter ranges; the Delatite, Mount Wellington, Bawbaw, Hoddle, Strzelecki, Dandenong, Victoria, and Sierra ranges. The ranges running at right angles to the main Dividing Range are not very lofty, and consist mostly of heavily-timbered hills, although in the Geelong and Ballarat districts are numerous bald hills, the slopes of some of which are in a high state of cultivation as vineyards and otherwise. The highest peaks of the mountain system of Victoria are the following:—Bogong, 6,508 feet; Feathertop, 6,303 feet; Hotham, 6,100 feet; Cobberas, 6,025 feet; Pilot, 6,020 feet; Cope, 6,015 feet; Buller, 5,934 feet; Gibbo, 5,764 feet; Wills, 5,758 feet; Howitt, 5,715 feet; Buffalo, 5,645 feet; Twins, 5,575 feet; Wellington, 5,363 feet; Tamboritha, 5,381 feet; Cobbler, 5,342 feet; Kent, 5,129 feet; Torbreck, 5,001 feet; Forest Hill, 5,000 feet; Benambra, 4,840 feet; Castle Hill, 4,860 feet; Useful, 4,720 feet; Bald Head, 4,625 feet; Ellery, 4,255 feet. As far as is known there are at least 16 peaks over 5,000 feet high, and 15 between 4,000 and 5,000 feet; there are also many peaks above 4,000 feet, whose actual heights have not yet been determined.

Islands.—The largest islands are French and Phillip in Westernport Bay; others are Snake, Sunday, and Clonmel off Corner Inlet and Port Albert, Gabo Island off Cape Horne, and several small uninhabited islands off Wilson's Promontory.

Capes.—The principal headlands are—Cape Bridgewater, Cape Nelson, and Cape Otway (the last-named is at the south-western extremity of the colony, and usually the first land sighted by the immigrant), Cape Volney, Point Flinders, Port Phillip Heads, and Point Lonsdale on the south, to the west of Port Phillip Bay; and Point Nepean, Cape Schanck, Cape Woolamai, Cape Paterson, Cape Liptrap, Wilson's Promontory (the southernmost point in Victoria as well as of the whole continent), Cape Wellington, Cape Conran, Cape Everard, Ram Head, and Cape Howe (the easternmost point of Victoria), to the east of Port Phillip Bay.

Rivers.—The absence of rivers of any size is one of the greatest obstacles to the opening up of the country. With the exception of the Murray, the Goulburn, the Yarra-Yarra, and the Gippsland streams, none are navigable in the English acceptation of the term. The names of the principal rivers, and their length, according to the corrected figures by Mr. A. J. Skene, are as follows:—The Murray, 1,719 miles, 670 miles of which flow along the Victorian border; it rises in the Australian Alps near Forest Hill; Goulburn, 345 miles, a tributary of the Murray, having its source in the Great Dividing Range; the Snowy, 300 miles, 180 of which are in New South Wales; Glenelg, 281 miles, rising in the Grampians; Wimmera, 228 miles, has its sources in the Pyrenees and Grampians; Loddon, 225 miles, rising in the Dividing Grange; Mitta-Mitta, 175 miles, rising in the Australian Alps near Mount Omeo; Avoca, 163 miles, also rises in the Pyrenees on its eastern side; Hopkins, 155 miles, springs from the Pyrenees; Campaspe, 150 miles, rising in the Dividing Range and flowing into the Murray; Wannon, 150 miles; Yarra-Yarra, 150 miles, has its rise among the southern spurs of the Dividing Range; Ovens, 140 miles, rises in the Australian Alps; Latrobe, 135 miles, springing from Mount Baw Baw, and falling into Lake Wellington. In winter time the rivers of Australia are frequently swollen by the heavy rains into angry torrents, which carry all before them in their resistless course, and, overflowing their banks, devastate the country. Many of the smaller streams, colonially called "creeks," and, indeed, some of the larger rivers in the west, dwindle down into mere threads of water, and occasional pools or water-holes, during the summer heat, and sometimes dry up altogether, a circumstance which, when it occurs, is productive of terrible loss to stockowners, cattle dying in thousands from thirst.

Lakes.—There are numerous salt and fresh water lakes, many of these being dry during the summer months, and all of them more or less shallow; the largest of these is Lake Corangamite, covering 57,700 acres. This lake, with a number of small ones in its neighbourhood, has no visible outlet, and is extremely saline, from the accumulation of salt in solution passed into it by drainage from the basalt rock, the water being

kept down by vaporization, while the quantity of salt continually increases. A few miles distant from this is Lake Colac (fresh water), 6,650 acres in extent. Lake Burrumbeet, in the county of Ripon (fresh water), embraces an area of 5,200 acres. Lake Albacutya, in the Wimmera district, covers 13,000 acres; Bolac, in the same division, 3,500 acres. Lake Connewarre is 3,880 acres in extent; Lake Hindmarsh (salt water), 30,000 acres; Lake Tyrrell (salt), 42,600 acres. The Gippsland lakes, Victoria, King, Reeve, and Wellington, are approachable from the sea at certain times, a belt of sand only separating them therefrom, through which there is a narrow entrance. The largest of them is Lake Wellington, covering an area of 34,500 acres; Lake Victoria occupies 28,500 acres.

Bays and Harbours.—The principal harbours are Port Phillip Bay, 31 miles long, and 20 miles wide at the middle, area about 800 square miles, the head waters of which are called Hobson's Bay, and form the port of Melbourne; the south-western waters of Port Phillip Bay form Corio Bay, on the shores of which Geelong is located; others being Portland Bay, Port Fairy, Lady Bay, Western Port, Venus Bay, Port Albert and Gippsland Lakes.

Divisions. — Prior to April 2, 1871, at which date a census was taken, Victoria was divided into 16 counties and 5so-called unsettled districts. On and since that date it has been divided into 37 counties by the formation of 21 new counties, absorbing the unsettled districts. Th more important districts are GIPPSLAND, MURRAY, WIMMERA, LODDON and WESTERN.

GIPPSLAND, so named after one of the early Governors of Australia, includes Gippsland north and Gippsland south. It was practically discovered by Mr. Angus Macmillan in 1839, though two years previously Andrew Hutton travelled over a portion of the country to the entrance of the lakes. Count Strzelecki (who was one of a party consisting of Mr. James McArthur, who initiated and bore the expenses of the exploration, Mr. Jas. Riley, two other men, and an aborigine) divides the honours with Macmillan of the making known Caledonia Australis, as Gipps Land was at first called by Mr. Macmillan. Strzelecki's exploring party left Ellerslie on 2nd March, 1840, and arrived at Western Port on 12th May. This district occupies the south-eastern portion of the colony, extending from long. 145° 50′ on the west to long. 150° on the east. The area of the tract is about 13,898 square miles, or 8,894,720 acres. Its extreme length from W. to E. is 250 miles, and its mean breadth is about 80 miles. It may be regarded as bounded on the NW. and W. by the Cordillera and on the SE. by the sea. Much of it, to the north and east particularly, is unavailable for agricultural or pastoral purposes, from its rugged and mountainous character, but there are in other parts large tracts of grazing and tillable country, rich deposits of alluvial soil predominating in some parts, rendering large returns for the labour of cultivation. Owing, however, to the heavy timber—gum and ironbark—that grows on it in many places, its clearing is attended with considerable toil and expense. In the south and west portion, a large quantity of land is occupied for farming and cattle grazing, for which its rich and fertile soil peculiarly fits it. A large proportion of the fat cattle supplied to the Melbourne market during the winter months is received from here. Its mineral resources are immense, comprising gold, silver, copper, iron, tin, lead, coal, marble, and limestone. In the north-west portion of the district quartz reefs are very numerous, and these are systematically worked, and in many cases with remunerative results. The climate and soil are well fitted for the growth of oranges, limes, hops, sugar beet, tobacco, and opium, and its rivers abound in fish. The population by the census of 1891 was 34,420, and the railway which now connects Melbourne with its chief towns, Sale, Bairnsdale and Port Albert, is continually increasing that number. The lakes are admittedly the finest in Victoria, and are a great source of attraction to tourists and sportsmen; the fishing and shooting being unsurpassed; the three largest lakes are Wellington, Victoria and King. The first-named is twelve miles in length and six miles wide. The principal rivers are — the Avon, Thompson (connected with the town of Sale by canal), Mitchell, Tarwin, Tambo, Snowy, and Latrobe, all rising in the Dividing Range or its spurs. The mountain ranges are numerous, and most of them are covered with snow for a considerable portion of the year. The Buchan caves are also remarkably beautiful, but little has been done to render them easily accessible to the public. The chief towns are—Sale, Drouin, Bairnsdale, Port Albert, Toongabbie, Heyfield, Morwell, Moe, Mirboo North, Korumbwora, Leongatha, Foster, Orbost, Omeo, Traralgon, Warragul, Yarragon, Maffra, Stratford,, Bruthen, Alberton, Rosedale, Yarram, and Walhalla. Gippsland is a country of colossal mountains, of magnificent streams, and of fertile plains, and "combines in its varied landscapes all that is attractive to the artist and the traveller." The geological formation is chiefly volcanic and lower silurian to the north, with large outcropping beds of granite and trap rock to the north-east. In the south it is carbonaceous and pliocene tertiary; in the centre are large tracts of upper and middle palæozoic, containing lepidodendron and other fossil plants characteristic of the English coal strata, and nearly all over the district auriferous indications have been found. Some very extensive coal measures have been discovered and are being successfully worked.

THE MURRAY DISTRICT is a vast tract of country lying in the north-east, and comprising the Ovens, and Goulburn districts, It is well watered by several streams, which flow through it north and south, the principal of these being the Murray, Goulburn. Mitta-Mitta, Kiewa, Ovens, Broken, and numerous tributary creeks. It is generally a mountainous country, the ranges being lofty, rugged, and thickly covered with fine trees, furnishing valuable timber for mining and building purposes. The principal of these are—the Bogong, Benambras, Buffalo, Strathbogie, and Delatite. The Ovens to the north, the Omeo to the south-east, the Buckland about the centre, and the Woods' Point diggings to the south-west are noted for their auriferous wealth; and mining, both alluvial and quartz, is extensively carried on. Some rich yields have been obtained at Harrietville in the Bright district, and at Eskdale in the Upper Murray district. In the north-east are vast areas of fine agricultural and pastoral lands the great bulk of which is under cultivation, considerable attention being paid to the growth of cereals; and in the Queen, King and Nutta valleys tobacco crops are successfully cultivated. There is also some good agricultural land in the district, which is principally used for the culture of the vine (the "Murray wines" have now a European reputation) and tobacco, and the growth of wheat. An important improvement in the agricultural interest has been effected by the introduction of bacon-curing and butter factories in the principal centres of the rural population, and fruit-growing is rapidly extending. The North Eastern line of railway, with its extension to Bright, Yackandandah and the Upper Murray, cuts through a considerable portion of this district, and the facilities afforded to farmers and others for quickly and cheaply transporting their stock and produce to a market are doing much to develop the fine capabilities of the country. The most important towns are—Avenel, Euroa, Benalla, Wangaratta, Beechworth, Chiltern, Wodonga, Yackandandah, Tallangatta, Corryong, Tarrawingee, Rutherglen, Wahgunyah, Yarrawonga, Tungumah, Numurkah, Nagambie, Myrtleford, Seymour, Buckland, Bright, Nathalia, Shepparton, Tatura, Kyabram, Mansfield, and Jamieson. The geological formation is varied, consisting of lower silurian with recent surface drift, principally of shale and slate, and occasional basaltic plains with vast out-cropping beds of granite. The mountain scenery is of the most majestic and picturesque character, and the district is becoming a favourite field for alpine explorations by tourists.

THE WIMMERA DISTRICT is a large extent of country, occupying the whole of the north-west portion of Victoria, and covering an area of about 21,000 square miles. Since 1872 agriculture has made great strides, and the southern and western pastures of the district have been proved to be eminently suitable not only for wheat but for fruit-growing, which in the Horsham district the Young Bros., Quantong, Burnlea, and Riverside Irrigation colonies are successfully carrying on. In the northern portion of the Wimmera the land was for several years covered with mallee scrub, but with the invention of what are known as "stump-jump implements" many thousands of acres of what was considered useless land are now yielding splendid wheat crops, and every year the area so cultivated is being largely increased. There are some ranges of mountains in the south, but generally the country is flat. The principal rivers are—the Wimmera, Yarriambiack creek, and the Avon and Richardson. For many years the country suffered greatly from drought, but a splendid artificial storage has been made in the Grampian, (at Wartook), and under the control of the Western Wimmera Irrigationand Water Supply Trust at Horsham, supplies of water are distributed by means of channels running through the farming parishes northward. The famous "Mildura Irrigation Colony" is in the northern portion of this district on the Murray river. The most important towns in the Western Wimmera are—Horsham, Dimboola, Nhill, Natimuk, Warracknabeal, Beulah, Hopetoun, Murtoa, Minyip Rupanyup, Noradjuha and Jeparit. Three lines of railway touch on the southern portion of this district—Ararat to Dimboola and Serviceton, with branches to Rupanyup, Warracknabeal, Goroke and Noradjuha, Dimboola to Jeparit, the St. Arnaud and Donald extension, and the Inglewood and Wycheproof extension. The geological formation is pliocene tertiary, with granite and porphyry dykes. Gypsum (alabaster) has been found in a few places.

THE LODDON DISTRICT, occupying the north central part of Victoria, is also principally pastoral, though during recent years much progress has been made in agriculture; and wheat-growing has assumed large proportions; it also contains some auriferous land towards the south. The Loddon, whence the district takes its name, flows from south to north directly through it. The leading towns are—Bendigo (recently known as Sandhurst), Echuca, Dunolly, Inglewood, Wedderburn, Elmore, Rochester, Charlton, Kyneton, Dunolly, and Rheola. The Melbourne and Echuca line, with the extensions to Kerang and Charlton, and branches to Boort and Wedderburn afford railway facilities to the district. The geological formation is generally lower silurian, with sandy beds and shale, recent surface drift.

THE WESTERN DISTRICT occupies the south-west portion of the colony, and has an area of about 3,500 square miles. It contains much agricultural land, and was the first permanently settled district in the colony. The Hopkins a fine expansive stream is the chief river; other streams are the Merri, Wannon, and Glenelg. Among the leading towns may be mentioned Warrnambool (the district being celebrated for its potatoes, butter, cheese, and bacon factories, and agricultural and pastoral industries generally), Belfast, Koroit, Portland, Waranambool, Belfast, or Port Fairy, are the principal shipping ports of produce from the western district. Portland may be looked upon as the cradle of the colony, and the bay upon which it is situated has been described as "one of the loveliest in the world." The Hamilton division of the western district contains some extremely rugged mountain scenery, some of the peaks rising to 5,000 feet in height. The geological formation is upper and middle palæozoic, with outcropping beds of granite. Hamilton is the chief town; other townships are Casterton, Coleraine, Branxholme and Penshurst.

Counties, &c.—The counties with their area, leading towns, and population by the census of 1891 (no later information being available) are — *Mornington* (1,625 sq. miles) — Frankston, Mornington (pop. 19,616); *Evelyn* (1,172 sq. miles)—Lilydale, Eltham, Queenstown, Warrandyte (pop. 9,972); *Bourke* (1,721 sq. miles) pop. 517,009—MELBOURNE (the Metropolis, pop. 490,896), Williamstown, Essendon, Keilor, Gisborne, Lancefield and Brighton; *Grant* (1,834 sq. miles)—Geelong, Queenscliffe, Steiglitz, Buninyong, and Ballarat East (pop. 69,599); *Grenville* (1,465 sq. miles)—Ballarat West, Smythesdale, and Pitfield (pop. 41,975); *Polwarth* (1,225 sq. miles)—Colac (pop. 8,361); *Talbot* (1,621 sq. miles)—Castlemaine, Creswick, Clunes, Talbot, Amherst (Daisy Hill Daylesford, Majorca, Maryborough, Tylden, and Carisbrook (pop. 59,088); *Dalhousie* (1,310 sq. miles)—Kilmore, Kyneton, Heathcote, Carlsruhe, and Woodend (pop. 21,514)—*Anglesea* (1,647 sq. miles)—Seymour and Yea (pop. 8,456); *Rodney* (1,690 sq. miles)—Echuca, Redcastle, Rushworth, Whroo, and Runnymede (pop. 19,155); *Hampden* (1,561 sq. miles)—Skipton, Mortlake, Terang, and Camperdown (pop. 8,169); *Ripon* (1,759 sq. miles)—Ararat, Wickliffe, Beaufort, and Streatham (pop. 11,883); *Dundas* (2,028 sq. miles)—Balmoral, Coleraine, Redruth, and Hamilton (pop. 8,223); *Follett* (1,103 sq. miles)—Casterton, and Lindsay (pop. 2,749); *Normanby* (2,013 sq. miles)—Portland, Heywood, Branxholme, and Merino (pop. 11,618); *Villiers* (1,637 sq. miles)—Belfast, Dunkeld, and Warrnambool (pop. 21,857); *Heytesbury* (920 sq. miles)—Allansford and Cobden (pop. 6,014). —*Benambra* (2,749 sq. miles)—a part of the Murray district —(pop. 6,042); *Bendigo* (1,949 sq. miles)—part of the Loddon district—(pop. 52,756); *Bogong* (3,069 sq. miles)—part of the Murray district—(pop. 24,142); *Borung* (4,282 sq. miles) —part of the Wimmera district—(pop. 30,645); *Buln-Buln* (3,739 sq. miles) (pop. 27,195); *Croajingolong* (3,396 sq. miles) (pop. 1775) and *Dargo* (1,744 sq. miles) (pop. 4,221)—these three counties are part of Gippsland; *Delatite* (3,240 sq. miles) (pop. 19,633)—part of the Murray district; *Gladstone* (1,802 sq. miles) (pop. 18,726); and *Gunbower* (1,348 sq. miles) (pop. 8,706) —both counties part of Loddon district; *Kara-Kara* (2,301 sq. miles) (pop. 16,056); *Karkarooc* (5,933 sq. miles) (pop. 3,433); *Lowan* (4,971 sq. miles) (pop. 16,820); *Milleva* (3,572 sq. miles) (pop. 172) —all four counties part of the Wimmera district; *Moira* (3,104 sq. miles) (pop. 32,723)—part of the Murray district; *Tachera* (3,341 sq. miles) (pop. 5,204)—part of the Wimmera district; *Tambo* (1,958 sq. miles) (pop. 2,262); and *Tanjil* (2,818 sq. miles) (pop. 18,872)—these two counties are part of the Gippsland district; *Weeah* (4,004 sq. miles) (pop. 14)—a wholly unsettled county, part of the Wimmera district, and *Wonnangatta* (2,224 sq. miles) (pop. 2,068)—this county is part of both Murray and Gippsland districts.

Climate.—The Government Astronomer of Victoria supplies the following information concerning the climate of the Colony:—The climate of the Colony of Victoria compares favourably with other countries lying under the same latitudes, and may be regarded as a pleasant, temperate, moderately dry, and healthy one. The mean annual temperature is 57·4; mean rainfall, 26 inches; hours of sunshine 45 per cent. of hours between sun's rising and setting; mean humidity of the air, 71 per cent., saturation being 100. The extremes of temperature at the sea level range from 25° in the frosts of July and August, to 105° or 110° in the hot winds of January and February. These extremes occur occasionally only for a brief period. The Spring months include September, October, and November; Summer—December, January, and February; Autumn—March, April, and May; Winter—June, July, and August.

September, whose average temperature is 53·2, is often marked by heavy rainfall, but is usually a fairly pleasant month, made up of fine and balmy days, followed by clear, frosty nights, or broken by periods of rain and strong winds, especially in the latter part of the month. Average hours of sunshine 153.

October is also subject to broken weather, with occasional heavy rains and cold streaks; the fine days are extremely genial and pleasant. The north winds now bring quite warm days. The average mean temperature of October is 56·6, and the highest temperatures recorded seldom exceed 85°. Hours of sunshine average 185.

November.—This is the Spring month of Victoria. Vegetation is at its best. The mean temperature rises to 60·1, and there are sometimes warm days, when the thermometer reaches to 100°, or even slightly over, for a few hours. This month is generally marked by a good average rainfall, with occasional thunderstorms. It is usually a pleasant month, but subject to occasional cold changes with rain. Average hours of sunshine, 221.

December.—The mean temperature for December is 63·3, and average hours of sunshine 250. Highest temperatures have sometimes reached as high as 110 for short periods in hot winds. This month is usually marked by changeable weather, and very cold periods sometimes supervene.

January and *February* are warm, dry months, and often very pleasant, except on the occurrence of the north winds, when the temperature gets unpleasantly high for short periods, and sometimes even for two or three days. The excessive dryness of these winds, while it increases the actual temperature, renders it much more tolerable, and a dry, hot wind temperature of 100 to 110 is not so trying to most people as a moist temperature of 80 to 90°. The "hot winds" are the worst feature of the climate of the southern parts of Australia. Taking the average of thirty-five years, we find there are likely to be six days of hot wind in January, and five days in February. The mean temperatures of these months are 66·2 and 65·8 respectively. Rainfall is usually small, but sometimes heavy rains occur in January. The hottest period of the year is found about the 22nd January. Average hours of sunshine for January, 260; February 216.

March.—The mean temperature of this month is 63·9. Hot winds are much less frequent, but occasionally occur, especially if the season has been a very dry one. Sultry and thundery weather sometimes prevails during March and early in April. The number of days in March on which the thermometer rises above 80° are 8, above 90°, three days. The mean rainfall is 2·00 inches, and hours of sunshine 176.

April. — This month often constitutes a second Spring, especially if there have been good rains at the beginning of the month, or late in March, and may be considered the most pleasant month of the year; new growth takes place throughout; vegetation, and fruit, and other trees often blossom a second time. The mean temperature is 58·7; hours of sunshine, 143; mean rainfall, 2·38 inches. The highest temperatures seldom exceed 80°.

May.—May is also usually a mild and pleasant month, although the temperature has fallen considerably, the mean temperature being 53·2, and mean rainfall 2·11 inches. Light frosts and fogs often occur at night during the latter part of the month. Sunshine, 112.

June.—The mean temperature falls now to 49·8. The weather is generally fine and mild, though sometimes wet and unsettled, with cold winds. The mean rainfall is 1·99 inches, and hours of sunshine 91.

July.—This is usually the coldest month of the year, the mean temperature being 47·6, and the minimum often falls below freezing for a few hours in the night. Ice sometimes, but seldom, forms at sea level, or near the coast, but not unfrequently inland, or at moderate altitudes. The lowest temperature recorded in July in Melbourne is 27·0, generally about sunrise. The mean rainfall for July is 1·89, and hours of sunshine 104.

August.—August is also a cold month, especially in the early part; fine, frosty nights with bright genial days are frequently experienced, and the first signs of Spring appear after the middle of the month. The mean temperature is 50·3; the rainfall, 1·81; hours of sunshine, 131.

It must be remembered that the characteristics of the climate of Victoria given above apply only to ordinary altitudes, and at altitudes from 800 to 3,000 feet above sea level, which will include a very considerable area of the Colony; the mean temperatures will be proportionally lower, and the rainfall higher, although the hours of sunshine may be greater. From the foregoing it will be seen that the climate of Victoria, if we exclude the "hot winds," is exceedingly temperate and salubrious. The hot winds are uncomfortable, and sometimes depressing, but to those who are careful are seldom injurious. The dry seasons or droughts which sometimes occur are usually marked by more pleasant and healthful weather than wetter seasons. The climate is favourable for wheats and other cereals throughout the Colony, except in the very high lands, while fruits of all except purely tropical kinds can be grown with facility and in abundance by choosing altitude and soil. In Melbourne during 1899 the highest temperature in the shade was 104·2° on December 31st, and the lowest 30·6° on July 20th. Mean temperature in the year was 57·1°, and was 0·4° below the average of the last 44 years. The greatest range of the thermometer in the shade on any one day (52·3°) occurred on December 25th, and the least range (0·8°) on September 9th, the mean daily range being 18·3°. The mean atmospheric pressure was 29·950 inches. Rain fell on 116 days, and the amount was 28·87 inches, the latter being 13·26 inches above that in 1898, and 3·37 below the average of the last 44 years. The number of days on which fog occurred was eighteen.

During the summer of 1898-9 the heat was extreme; the maximum shade temperature being 109·4 on December 8th, 1898.

Death Rate.—The average annual number of deaths per 1,000 of the mean population during the last ten years was as follows: —In 1890 16·10, in 1891 16·24, in 1892 13·63, in 1893 14·11, in 1894 13·14, in 1895 13·25, in 1896 13·35; in 1897 12·90, in 1898, 15·94, in 1889 14·28. The chief causes of death during 1900 in Greater Melbourne were diseases of the digestive system, phthisis, diseases of the brain, nerve, lung and heart. The average death-rate in the United Kingdom is 20·1.

Geological Formation.—Victoria seems to be formed of a great mass of Palæozoic rock, through which protrude large areas of granite and trap, and upon which repose, near the coast, belts of Mesozoic and Tertiary strata, and volcanic products The younger members of the Tertiary or Cainozoic series, and the older members of the primary or Palæozoic series, are by far the most widely distributed, and are in all respects the most prominent and important formations. With their associated granitic and plutonic or igneous and volcanic rocks they occupy nearly nine-tenths of the surface of the country. Devonian sandstone, slates and limestones occur in Gippsland; secondary rocks are found in the Cape Otway district and the country east of Western Port. The extinct volcanoes are remarkable and apparently recent; there are several to be found on the south-western side of the dividing range. Many of the plains are formed by outflows of basalt.

Detailed surface and underground geological surveys are now being carried out by officers of the Mines Department on several important gold-fields, principally Walhalla, Little Bendigo (near Ballarat), and Stawell. A sketch topographical and geological survey is also in progress at the silver lead field of Mount Deddick, East Gippsland, and the work of systematizing and correlating past records of boring for deep alluvial leads has recently been undertaken. In the outlying and as yet unsurveyed districts geological boundaries are being traced and all available information obtained, in order that the new geological sketch map of Victoria, to be issued shortly, shall be as accurate as possible.

Forest Conservation.—The largest trees indigenous to the colony belong to the Eucalyptus tribe—popularly known as the Gum-tree. This tree has been extensively exported, as it is believed to possess great efficacy in correcting the miasmatic influences of swampy land. The varieties known as the red and blue gums are the most useful; as regards size, the species known as the mountain ash or peppermint (*Eucalyptus amygdalina*), though a middle-sized tree in open plains, attains a colossal height in the mountain ravines, and there are reasons for believing that the highest trees in the world are to be found in this colony, overtopping even the celebrated Mammoth trees (*Wellingtonea gigantea*) of the Yosemite valley. In the Dandenong ranges, trees 420 feet in height are said to have been measured. Near Healesville a fallen tree measured 480 feet, being 14 feet higher than the spire of Strasburg Cathedral. Mr. Perrin, F.L.S., F.R.G.S., F.R.H.S. Lond., Conservator of Forests, Victoria, throws doubt upon these measurements, as trees measured by him in Victoria rarely run much over 300 feet, though a blue gum in Tasmania measured by him gave 330 feet; this was the largest ever seen by Mr. Perrin in any of the Colonies. The Casuarina or she-oak, the Banksia or honeysuckle, the native cherry-tree, a bushy, shrub-like tree, having the peculiarity of the stone growing outside the fruit, the Melaleuca (known as the ti-tree, flourishing in marshy districts), and several varieties of the Acacia, of which the wattle is the most common, comprise the most widely distributed of the native trees. Ferns are numerous, particularly in the mountain gullies; the variety known as the Great-nest fern has been found with fronds six-feet in length. As a timber-producing country, Victoria has many advantages. The woods of nearly all the trees are durable, and many of them are beautiful, and admirably fitted for the finer kinds of cabinet work, especially blackwood, myrtle, or beech (*Fagus Cunninghamii*), which bear a very high polish.

The most valuable of all Australian woods is the *Eucalyptus rostrata*, or Red Gum. The timber is hard and dense, with a rather short but handsome and curly grain, and almost free from any tendency to shrink longitudinally. It is next to indestructible in damp ground or in water, salt or fresh, and although not adapted to stand horizontal strain from the shortness of the grain, except in large baulks or stringers, it makes, within reasonable length, the best of all piles for engineering works, in consequence of its resistance to the attacks of the *teredo navalis*. It also makes splendid planking and sleepers for bridges and wharves, and, properly seasoned, knees, and other rigid portions of ships' framing. Next in value is the Blue Gum, *E. Globulus*, red and white ironbark, *E. Leucoxylon*, and the box, *E. Hemiphloia* (white), and *E. Melliodora* (yellow). They are very strong, and are adapted for heavy longitudinal bearers, but not for piles, owing to being pervious to the *teredo*. Blue Gum makes excellent "sawn stuff," and Box is used for the naves of wheels and the cogs of machinery. Stringy-bark and Peppermint are free splitting woods, and are used for shingles, palings, posts, and rails. Ironbark *E. Sideroxylon* (red) is a very heavy hard wood, and is much used by wheelwrights and coachbuilders for wheel spokes. The blackwood and the lightwood species of the Acacia are magnificent woods, largely used by coachbuilders, coopers, cabinet-makers and in the construction of railway carriages and trucks, and the better class of agricultural implements; billiard tables of beechwood are world-renowned, and this wood is specially fitted for all such work, also cabinet work of all kinds. The Wattle is used as staves for casks, and the bark for tanning purposes, the Myall for whip handles and tobacco pipes. There are many other varieties of timber not so well known, but some of them are gradually coming into repute. The late Baron von Mueller's work, "Eucalyptographia: a descriptive Atlas of the Eucalypts of Australia and adjoining islands," is also an invaluable work on Australian timbers, and is considered a masterpiece. Mr. Perrin spent three months in New Zealand towards the close of 1896, and compiled a most important and exhaustive report upon the state of New Zealand forests. This report covers the following subjects:—Management of New Zealand Forests; Examination of New Zealand Forests; Forest Conservation; Industrial and Commercial Use of the Timber Trees of New Zealand; Protection from Fire of State Forests and other Crown Lands; Regeneration of the Kauri Forests; Cultivation of the Wattle and other Trees for Tanning Material; Latest Forest Statistics for New Zealand; Mining Timber Supplies; State Nurseries and Free Tree Distribution, &c.

In January, 1899, Mr. Perrin, at the request of Sir E. Braddon, K.C.M.G., supplied the Tasmanian Government with an exhaustive report on Forestry and Conservation of Timber for the Colony of Tasmania, which resulted in the appointment of a Crown Lands Bailiff to look after the timber and forest interest.

The total area thinned in the State forests for 1891 was 2,830 acres; for 1892, 16,354 acres; for 1895, 8,000 acres; and for the years 1896-99, 26,000 acres; or a total to that date of 50,000 acres. This work was performed by unemployed in the Barmah and Gunbower State forests. The thinning work is carried on by the Department at intervals as money becomes available. The export of timber was attempted in the latter part of 1894, and a number of shipments were made by various firms, and about 470,000 superficial feet of first-class timber was shipped. The rate realised, however, offered such poor encouragement that shipment of timber has practically ceased. The red gum of Victoria is too valuable to be thrown away, and the Colony's own requirements will necessitate the greatest care in the conservation of this most invaluable wood-paving timber. There are 6,358,452 acres of hardwood trees in hitherto inaccessible forests available, and worth about £47,792,937 Melbourne rates.

A Forest Commission commenced sitting on June 17, 1897, under the presidency of the Hon. A. L. Tucker, to inquire into the state of Forest Industry, with a view to placing the Forest Department on a proper basis. It is still sitting, and a good deal of expert evidence is being taken; and it has issued five progress reports dealing with State forests generally. These are—(1) Sleeper hewing in Forest Reserves and Crown Lands; (2) Report on the Victoria Forest and suggestion for future management; (3) Red Gum Forests of Barmah and Gunbower—their resources, management and control; (4) Wombat Forest; (5) Cape Otway Forest; (6) The Stanley and Chiltern Forests—their resources, management and control; (7) the forests of the county of Delatite, being the King River; (8) Genoa River Forests, East Gippsland; (9) Black Range, Upper Glenelg District; (10) Forest Royalties and the Royalty System. These reports generally provide for the general extinction of licences in favour of royalty permits, and for the reservation of large additional areas of forest lands in various parts of the colony. The reforms recommended by the Commissioner are practically those which the Conservator of Forests - Mr. Perrin—has advocated during the past twelve years, and it is most satisfactory to find at last a prospect of better control of the forests (which has been lacking all these years) and consequently better management in the future working.

Animals.—The largest indigenous animal to be met with in Victoria is the kangaroo, some reaching 6 feet high, known by the distinctive names of kangaroo, wallaby, and paddymelon. Rat Kangaroos and mice are very plentifully distributed in various parts. There are several species. Opossums are numerous, and so are the wombat, the porcupine or ant-eating echidna, the bandicoot, the native bear, the native cat, and some others. There are also several species of the bat tribe, the largest of which is known as the flying fox, and causes great destruction among the fruit crops.

The feathered tribe is largely represented; there are several kinds of eagle and hawk; there are also the emu, crane, black swan, wild bustard, pigeon, duck, teal, water-hen, quail, snipe, plover, and many other birds. The parrot tribe are very numerous, and of the most brilliant plumage. Magpies and the great kingfisher, or laughing jackass, may, in the early morning or at sundown, be heard filling the "bush" with their peculiar noise.

Snakes are to be found in most parts of the colony; many of them are of a venomous nature, the black and brown snake and the death adder especially. Others mostly of brighter and more variegated colours, are not so dangerous. The insect world is, perhaps, in no other country so variously and widely distributed. The paucity of animals suitable for game and food, and the scarcity of song and other birds, have led to the introduction of numerous well-known English animals and birds. Hares, rabbits, white swans, foreign ducks, thrushes, etc., are now becoming quite plentiful; and rabbits in some parts have been found a serious pest from their number and destructive tendencies. Deer have been acclimatized, and may be found in some of the scrubs on the mountain ranges. Axis deer, of which about 35 were turned out at the Wimmera some years since, have wonderfully increased, and now are found in numbers in the rugged ranges of the Grampians in the Western district. Sambur deer or Ceylon Elk are numerous in the Koo-wee-Rup Swamp, and Fallow deer equally numerous on the ranges at the heads of the Yarra. Other species of deer have been set free in other parts of the colony. Birds of several kinds have been liberated from one end of the country to the other, and the sweet songsters of the English woods and hedgerows may now be frequently heard. Most of the animals take very kindly to their new home, and have shown a marvellous tendency to increase and multiply. Foxes have also, unfortunately, been introduced by private persons, and do much damage to lambs, poultry, &c.

The Zoological Gardens of Melbourne are situated in the centre of Royal Park, which is a large reserve of over 400 acres in extent. The Gardens comprise an area of fifty acres and contain a large and interesting collection of animals, birds and reptiles of all descriptions which have been brought from almost every country in the world. The orders of the class Mammalia are well filled. Of the order Quadrumana three families are generally represented. The order Lemures is also represented in the collection. There are six families of the order Carnivora, and three of them, namely Felidæ, Canidæ, and Hyœnidæ, are well filled. The Lions, Tigers, Leopards, and other species of Felidæ attain a perfection in the Melbourne Gardens that is rarely seen in confinement. The Indian Elephant represents the order Proboscidæ. The extensive order Rodentia is well represented, as is also the order Ungulata, of which the most numerous families are Cervidæ (Deer family), and Camelidæ (Camel family). The order Marsupiala which includes all the native animals (save one or two) is very complete, there being sixteen species of the family Macropidæ (Kangaroos), whilst the family Phascolomyidæ (Wombats) is complete, all the known species being in the collection. The collection of birds is also a very good one, the most striking examples of which are Ostriches, Emus, Cassowaries. Rheas, Cranes, Curassows, and Pheasants. In the class Reptilia, most of the snakes indigenous to Australia are generally on view, and large Indian Pythons; whilst there are also some of the large tortoises from the island of Aldabra, one of the Seychelles. The following are some of the principal animals that have been successfully bred and reared in the Gardens, Lions, Tigers, Leopards, Pumas, Bears, Lynxes, Wolves, Monkeys, Buffaloes, Zebras, Llamas, Guanacos, Antelopes, and Deer, besides almost all the native animals and many less important ones. There are upwards of one hundred cages, aviaries, and enclosures in the Gardens, and care has been taken in the laying out of the numerous flower beds and shrubberies to combine the useful with the picturesque.

Population.—On the 15th of August, 1835, the white population of Port Phillip was 14; the enumeration of 1836 showed a total population of 224—186 males, 38 females; of 1838, 3,511—3,080 males, 431 females; of 1841, 11,738—8,274 males, 3,464 females; of 1851, 77,345—46,202 males, 31,143 females; of 1861, 540,322—328,651 males, 211,671 females; of 1871, 731,528—401,050 males, 330,478 females. By the census of 1881 the population was shown to be 862,346, of whom 452,083 were males and 410,263 females. The number of inhabited dwellings in the colony was 170,086; uninhabited, 9,049; places building, 681; in all, 179,816. Among the population were 12,128 Chinese, 259 of whom were females. (For census 1891 figures see previous editions of the *Australian Handbook*.)

The Populations of the Six Principal extra-Metropolitan towns, with their suburbs, in 1899, were as follows:—Ballarat, 46,410; Bendigo, 43,112; Geelong, 23,440; and Castlemaine, 7,990; Warrnambool, 6,600; Stawell, 5,400.

The population at the end of 1899 was 1,163,400, 586,060 males, 577,340 females; there being 8,140 marriages, 31,008 births, and 16,578 deaths, or 14,430 births in excess of deaths. The birth rate for 1899 per thousand was 26·71; death rate, 14·28, and marriage rate 7·01.

The estimated population of the colony on 30th June, 1900, was 1,168,136, 581,728 males, 586,408 females; the registered births during half-year were 15,594, deaths 7,479.

The gold-mining population at the beginning of 1900 was estimated at 30,114, of which 14,123 were alluvial miners, 15,991 quartz. No special record of Chinese.

Greater Melbourne numbered 475,380 at the beginning of 1900; the extra-Metropolitan, 197,980; rural districts, 503,990.

Aborigines.—The aboriginal population of Victoria when the colony was first settled numbered about 6,000, according to an official return of the Legislative Council of New South Wales. (Other, and it is said more reliable estimates, state the number at not less than 15,000.) In the ten years from April 1, 1839, to December 31, 1849, Mr. Thomas, the guardian of aborigines, reported of the natives in the Yarra and Western Port districts that there were 158 deaths and only 20 births. These tribes, numbering 350 in 1836, were reduced in 1851 to 76. In 1851 the aborigines were reduced to 2,693; in 1863 they had dwindled down to about 1,908. At the date of the census, in 1871, they numbered 1,330—viz., 784 males and 546 females; on March 15th, 1877, their numbers were reduced to 1,067 (in this were included half-castes)—633 males, 434 females, children 297; those entirely black numbered 774, and those of mixed blood 293. By the census of 1881 the number had still further decreased to 780. In 1886 there were 806 persons on the several Victorian aboriginal stations (of whom 550 are pure blacks, and the remainder half-castes), the census of 1891 showing the number of aborigines, including half-castes, to be 565, males, 325; females, 240 (no births and deaths are calculable). There are now only about 400 blacks on the stations and depots. 250 half-castes have left under the Act of Parliament, and earn their own living on farms, &c. There are ten depots in Victoria.

Soil and Products.—The land available for pastoral and agricultural purposes has been approximately classified thus:—Of rich light loam, generally distributed near the coast, there are approximately 36,000 square miles, generally to be met with on terraced flats along the river valleys, and running in narrow belts along the sea-coast; it is also found in extensive level plains with stunted timber and thickly-grassed undulating forest country. The geological features of these stretches are clay, sand, lime, gravel, tertiary, and superficial deposits, including alluvial: of cold sandy clays and loams, occupying the central, north, north-east, and south-east portions of the country, there are about 28,000 square miles in hilly and undulating country abounding in iron-bark and stringy-bark trees, growing on clay, slate, schist, and sandstone: of rich black and chocolate soils, eminently adapted for purposes of tillage, distributed in the south-western and central districts, there are about 12,000 square miles of volcanic origin: of light and sandy soil of granitic formation, in patches throughout the country, there are about 8,000 square miles: of rich sandy loams, near Geelong, and in the counties of Normanby and Dundas, South Grenville and Polwarth, there are about 3,000 square miles, showing shales and soft sandstone. Variations in soil and climatic conditions give those engaged in agricultural pursuits a wide range of products from which to choose, and enables many of those products to be matured which fail under less favourable conditions. In cereals, wheat, oats, and barley, are the chief articles cultivated. Peas also find favour with most farmers. Beans of all classes, maize and sorghum may be found in most parts of the Colony. Potatoes, beet, mangolds, and grass of all kinds thrive well. The tobacco industry, which has been somewhat languid for the past few years, is now reviving, and extensive areas are being planted under the observation of an expert. Fibre plants, hemp, flax, ramee, and New Zealand flax thrive well, and attention is given to the two first named. Factories have been established for the treatment of the raw product, and fibre is finding its way to the market. Fruits of all kinds give very satisfactory results; special care has been given to the varieties suitable for drying, canning, and export, and fruits in their various forms are now being exported to British and foreign markets. The viticultural industry has made rapid strides, and the area planted with vines has increased more than any other kindred industry. The area under vines on the 31st March, 1900, being 27,550 acres. Wine promises to become one of the staple products of the Colony. The yield varies according to variety and districts, but may be taken at 250 to 300 gallons per acre. Unlike the Continental vineyards, cultivation is done principally by aid of horse labour, and the cost reduced to a minimum. There are a few large vineyards ranging from three to six hundred acres each, but they usually run from 20 to 50 acres, and are carried on in conjunction with other agricultural or horticultural pursuits. Colonial raisins and currants are becoming an important feature in the market. The production of currants is also receiving considerable attention, and it may be reasonably anticipated that at no distant date the imported article will become as rare as the Colonial one has hitherto been. Much of the unoccupied lands of the Colony is now being settled on by what is termed "Village Settlements," by which means it is hoped to develop many of those minor industries with which manual labour alone can deal, such as the cultivation of perfume and medicinal plants, fibre, oil, dye, and many other products which help to increase the national wealth.

The Pigment Industry.—It is worthy of note that the Government has set aside a sum of £1,000 to assist in developing the pigment industry, for it has long been known that Victoria possessed pigments suitable for paints, there being a wealth of ochre at Black Flat; an unlimited supply of pyrites near Bruthen; splendid ochre at Gordons; kaolin at Ringwood; and other pigments, such as cobalt, antimony, oxides, &c., are found in abundance at Bradford, Mooranduck, Bendigo, Ballarat, Brunswick, Sale and Yea. Credit is due to Mr. E. Barnes, of Black Flat, for his enterprise in bringing this matter before the Mines Department. During 1899 the sum of £640 was voted for the purpose of establishing the paint industry, which was successfully done.

Irrigation and Water Supply.—The question of water supply to the colony of Victoria, though of necessarily momentous importance to the prosperity of the State, appears to be but little understood by those outside the Department of Water Supply itself; and there appears to be a general confusion in the minds of the public upon this important subject. The impression seems to prevail that the State has spent millions of money in constructing gigantic works, that have, in most instances, proved gigantic failures. The Yan Yean, or Metropolitan Water Supply, is confused with the up-country supplies, and the latter—their nature, and the objects they were constructed to serve—are a complete enigma to the great mass of the people of the colony. In order clearly to understand the position, it may be noted that the whole expenditure on water supply by the State up to June 30, 1900, has been £8,342,381. Of this amount the State has been credited with the sum of £2,375,152 in consequence of the Yan Yean Waterworks having been transferred to the Metropolitan Board of Works, who have been debited with that amount. In the early days of the colony, 1859–1862, a number of grants were made to mining towns, amounting in all to £152,966; and in or about 1879 a further sum of £97,588 was granted to rural districts, making a total sum granted of £250,554. The amount spent on the construction of the Coliban and Geelong scheme was £1,466,861. The loans to Corporations other than trusts, on June 30th, 1900, as reduced by amounts transferred to trusts, amounts written off by the Water Supply Advances Relief Act, and payments to Redemption, amounted to £467,943, including £50,850 interest capitalized; to waterworks trusts administering town supplies only, as reduced by amounts transferred to other trusts, amounts written off by the Water Supply Advances Relief Act, and payments to Redemption, £469,120; to waterworks trusts administering to rural districts, as reduced by amounts transferred to trusts, amounts written off by the Water Supply Advances Relief Act, and payments to Redemption, £261,362; to irrigation trusts, as reduced by amounts written off and payments to redemption, £384,090. In addition there had been spent in the construction of the Goulburn weir (national work), for works, £320,367, and for land, £172,912. The Laanecoorie weir, for works, £85,568, and for land, £48,218. The Kow swamp works (national) cost £172,245, and the land, £6,846. Works for filling the dry lakes north-west of Kerang, £1,220. The Bridgewater and Kinypanial weirs were also taken over by the State, and cost £17,000. The total State expenditure on national works and land resumed in connection therewith was £838,016. By Act No. 778, passed in 1883, provision was made for the construction of irrigation works. It was proposed to form trusts, the commissioners of which were to be elected by the ratepayers, and they were empowered to borrow money on the security of the rates leviable within their districts. The Water Act, 1890 (54 Vict., No. 1156), repealed all previous Acts for the conservation, management, and distribution of water, and consolidated their provisions. It is divided into seven parts, as follows:—Part I.—Preliminary; Part II.—Water supply by waterworks trusts (these trusts are constituted for the purpose of controlling the stock and domestic supply within the area of their respective districts); Part III.—Water supply for irrigation and manufacturing purposes (the formation of special irrigation and water supply districts of areas limited to 10,000 acres is authorized); Part IV.—Drainage of the land for the purpose of its improvement (the powers of Irrigation and Water Supply Trusts to expend money upon the drainage of land within their district may be extended); Part V.—Deals with supply to town by Board of Land and Works, supply to Melbourne and Geelong, and provides machinery for governing necessary matters; Part VI.—Deals with supply of water by local governing bodies; and Part VII. contains general provisions as to penalties, &c. Amending legislation was before Parliament as we went to press. The Irrigation and Water Supply Trusts now number thirty, twenty-six are practically completed, one in progress, and three have not been commenced. The aggregate area of the Trusts districts is 2,743,449 acres, the total quantity of irrigable land being estimated at 1,843,304 acres, of which 353,662 acres can be irrigated annually. The borrowing powers accorded to these corporations by their con-

stituting Orders in Council amount to £1,551,517, of which the Government has agreed to advance £1,441,399, the balance to be obtained in open market. Up to June 30th, 1900, the Government had advanced a total sum of £1,044,234. The gross value of the irrigable lands in the Trusts districts, estimated upon a low basis of valuation, is £6,888,076; the annual ratable value, according to the municipal assessment, being £295,930.

The contract for the construction of the reservoir at Malmsbury has been let for the sum of £44,704. Capacity 4,093,000,000 gallons. The total estimated cost of the construction of this reservoir and the improvement of the Coleban scheme of works is £100,000.

There were on June 30th, 1900, 69 Waterworks Trusts, consisting of 17 rural and 52 urban trusts, 6 of the former also providing urban supplies to 10 towns. The rural schemes supply an area of 4,034,200 acres, of an annual ratable value of £590,000, the estimated cost of the works being £392,600; the urban works completed have a storage capacity of over 526 million gallons and were estimated to cost £576,402. The waterworks under Government control embrace two schemes, the Coliban Scheme, and Geelong and suburbs, the storage capacity of which is 5,373,859,200 gallons, and the cost £1,466,861. During 1899 a loan of £44,700, additional loan of £4,000 provided under Act 1888, making a total of £48,700, has been granted to the Mildura Irrigation Trust for the purpose of improving pumping machinery, &c., of which £41,100 had been expended to June 30, 1900.

The Melbourne Waterworks are under the control of the Melbourne and Metropolitan Board of Works, the storage capacity is 6,508,000,000 gallons, and the cost of construction from 1853 up to 1899-1900, £3,700,859; maintenance, £296,300; total, £3,997,159. The sources of the Melbourne water supply are the Yan Yean reservoir, in which are stored the waters of the eastern branch of the Plenty river and Jack's creek, from the southern slopes of the Great Dividing range, and those of Wallaby and Silver creeks. These streams are collected in the Toorourrong reservoir, and taken thence to the Yan Yean. The Maroondah aqueduct also conveys water from the Maroondah river, the Graceburn and Donnelly's Creeks to Melbourne. The Yan Yean is an artificial lake situated 22 miles from Melbourne, 602 feet above sea level; it covers an area of 1,360 acres, and has a drainage area of 36,000 acres.

The total storage capacity of the reservoirs of the waterworks under Government, Metropolitan Board of Works, local bodies, and waterworks trusts amount to 14,031,358,750 gallons, the cost of the schemes to £7,517,107.

Sewerage of Greater Melbourne.—A scheme of sewerage for Melbourne and its suburbs is being carried out by the Melbourne and Metropolitan Board of Works, of which Mr. E. G. FitzGibbon is chairman. The Act constituting the Board came into force on December 20, 1890. The Board exercises control over eighteen cities, towns, and boroughs, and six shires, embracing a total area of 83,860 acres, and an estimated population at the beginning of 1900 of 477,790. The annual ratable value of property in 1899-1900 was £3,941,518. The Board is authorized to borrow £5,000,000, exclusive of £2,359,157 Government loans taken over by the Board; up to July 23rd, 1900, the loans contracted by the Board amounted to £4,643,580. The amount chargeable to expenditure on sewerage to June, 1900, was (approximately) £3,201,194. The expenditure on the Metropolitan sewerage system for the year ending June, 1901, is estimated at £364,000—outfall, sewer, and rising mains, £2 000; pumping station, £15,000; main and branch sewers, £70,000; reticulation sewers, £110,000; farm preparations, £10,000; house connections, £145,000.

Up to July 23rd, 1900, 200,319 feet of main and branch sewers, and 1,692,637 feet of reticulation sewers were completed, 28,611 tenements were completed, and 1,279 tenements in progress. The fittings connected numbered 30,710 water-closets; 18,424 baths; 15,017 sinks; 9,110 troughs; 5,680 lavatories; 2,650 urinals; 1,609 stables; 508 cellars; 413 slop-hoppers; 176 paved yards; 511 latrines and 27 dairies.

National Irrigation Works.—The following is a brief outline of the more important works connected with irrigation actually taken in hand, in some form or other, with a statement of the progress made in respect of them during the past year.

Goulburn District.—The Goulburn river weir, 695 feet long, and 19¾ miles of the main western channel are completed. The permanent surveys for the extension of the proposed works in this district have been carried to the Broken river, on the east side of Goulburn river, and to Wanaita creek, to the west of Goulburn river, trial survey having been made thence to the Campaspe river. The Rodney Irrigation and Water Supply Trust and the Echuca and Waranga Waterworks Trust are supplied with water from the portion of the main western channel constructed.

The works still to be carried out to complete the proposed National Works in this district are about 33 miles of main channel on the east side of Goulburn river, 4½ miles of the main western channel, the Waranga reservoir, and about 41 miles of main channel, thence to the Campaspe river. In connection with the channel from Waranga reservoir to the Campaspe river it is proposed to divert flood waters to Lake Cooper, and to embank this lake so as to form it into a storage, if the cost be not prohibitive, in order to relieve the country between the meridians of Moora and Lake Cooper, which is much flooded in the winter season. Cost of works to June 30, 1900, £493,279.

Loddon District.—About half a mile above Laanecoorie is the regulating weir for the Loddon river, which is a compound structure of concrete masonry with automatic tilting gates, the extension on the left bank being in the form of an earthen dam, with a berm or banquette in the rear of materials not liable to scour. The capacity of the reservoir to the full supply level is 610,000,000 of cubic feet, equal to 3,812,000,000 of gallons which makes it rather more than about 12 per cent. greater than the Malmsbury reservoir. The reservoir, up to the masonry crest, and exclusive of the flood-gates, contains about 351,000,000 cubic feet. All the work is completed, and cost, exclusive of land compensation, £85,600. Bridgewater (a work of concrete masonry), and Kinypanial (a timber structure) weirs are in this district.

Kow Swamp.—These works are completed. The reservoir is capable of storing 1,780 millions of cubic feet of water, available for summer use. The total cost has been £179,091.

The Mildura Irrigation Colony.—See also MILDURA in "Towns in Victoria" section. In previous issues of this work appears a description of this colony, from which so much was anticipated, but which resulted in such a financial failure as called for the appointment of a Royal Commission to report on the settlement. The investigation has shown that the failure of the settlement was caused by woeful mismanagement, for which the settlers were in no way to blame, and that the absence of any supervision by the State had been a contributory element in the collapse. The Commission was of opinion that to abandon Mildura in its troubles would be nothing short of a national misfortune, and would for many years to come prevent the utilisation of immense areas of splendid fruit-growing country still in the hands of the Crown, bordering upon the waters of the River Murray, and suitable for irrigation. The members unanimously recommended that a loan of £30,000 should be granted to the Mildura Irrigation Trust, to be expended in lining the existing channels, and in the improvement of the appliances for raising water. It was also recommended that the concession granted to Messrs. Chaffey Brothers should be cancelled, causing 188,000 acres to revert to the Crown; and that to meet requirements, and provide for the distribution of water during the coming season, the existing guarantee should be extended by an advance of £400 per month up to the end of April, 1897. The concession was cancelled.

On September 6, 1897, the *Mildura Trust Loan Amendment Act*, 1897, came into force. It amended the previous Act, and increased the amount which might be advanced to the trust from £34,700 to £44,700. An additional amount of £4,000 has been provided during the year, making the total loan authorized £48,700. Before a grant is made the debenture holders in Chaffrey Bros., Limited, have to give security for the payment of £2,500 to the trust; they must also authorize the expenditure of £7,500 in tree planting, &c., and the mortgagee must contribute £1,500 to the trust, this sum to make an increase of the debts due to them, with interest at 4 per cent. per annum. £41,100 advanced prior to 30th June, 1900. In addition, the trust has had advanced to it the sum of £5,600 as an aid to its revenue.

West Wimmera Works.—By utilizing the Wartook Reservoir the Western Wimmera Irrigation and Water Supply Trust has been able to supply portions of its territory with water for domestic, stock, and irrigation purposes in addition to those fed by the Wimmera.

The other works proposed, but which have not been developed, are the Campaspe, Broken river, East Wimmera, Werribee.

Agriculture.—The returns for the year ending 1st March, 1900, were:—Number of cultivated holdings, 40,160; extent of land under tillage, 3,820,505 acres. Wheat occupied 2,165,693 acres, produce, 15,237,948 bushels; oats, 271,280 acres, produce 6,116,046 bushels, average yield per acre, 21·77 bushels; malting barley, 65,970 acres, produce, 1,197,948 bushels; other barley, 13,603 acres, produce, 268,140 bushels; maize, 11,037 acres, produce, 624,844 bushels; rye, 1,050 acres, produce, 13,896 bushels; peas and beans, 12,243 acres, produce, 164,414 bushels; potatoes, 55,469 acres, produce, 173,381 tons, average per acre, 3·13; mangold wurtzel, 788 acres, produce, 9,597 tons; sugar-beet, 111 acres; carrots, parsnips, and turnips, 473 acres, produce, 3,453 tons; onions, 4,436 acres, produce, 19,905 tons; wheaten hay, 197,777 acres, produce, 218,488 tons; other hay, 252,412 acres, produce, 377,705 tons; green forage, 18,574 acres; artificial grasses, 151,949 acres; grass and clover seeds, 2,283 acres, produce, 5,004 cwt.; hops, 713 acres; tobacco, 155 acres; vines, bearing, 25,126, non-bearing, 2,424; flax, 185 acres; other crops, 2,937 acres; market gardens, 9,598 acres; orchards, growing fruit for sale, 40,714 acres; private use, 4,261 acres; land in fallow, 509,244 acres.

Compared with the previous year the increases in the area under crop were:—Number of cultivated holdings, 283; wheat, 11,530 acres; oats, 5,121 acres; malting barley, 32,386 acres; maize, 390 acres; peas and beans, 1,128 acres; potatoes, 14,217 acres; artificial grasses, 1,792 acres; grass for seed, 63 acres; tobacco, 77 acres; flax, 113 acres; non-bearing vines, 251 acres; market gardens, 525 acres; orchards, 3,681 acres.

The decreases were:—Land under tillage, 57,417 acres; other barley than malting, 672 acres; rye, 1,081 acres; mangold wurtzel, 220 acres; sugar-beet, 1,566 acres; onions, 36 acres; wheaten hay, 9,315 acres; oaten hay, 105.841 acres; green forage, 1,231 acres; vines, non-bearing, 269 acres, hopss, 134 acres; other crops, 202 acres; land in fallow, 7,998 acres.

The increases in the produce were:—Oats, 592,627 bus.; malting barley, 421,163 bus.; maize, 37,780 bus.; carrots, &c., 624 tons; onions, 2,597 tons; grass seeds, 883 acres.

The decreases were:—Wheat, 4,343,356 bus.; barley (other than malting), 67,642 bus.; rye, 17,300 bus.; peas and beans, 41,751 bus.; mangold wurtzel, 104 tons; sugar-beet, 10,840 tons; wheaten hay, 25,100 tons; oaten, 102,006 tons.

The Corn Trade Sectional Committee of the Melbourne Chamber of Commerce obtained samples of Victorian wheat for season 1899-1900, and the committee proclaimed the standard to be 62½ lbs. to the imperial bushel.

The wheat harvest begins at the earliest on November 1, and ends on December 30; and at the latest begins on December 26 and ends March 15; it has an average duration of eight weeks. The area sown in 1899-1900 was 2,165,693 acres; produce, 15,237,948 bushels; yield per acre, 7·04 bushels.

A Viticultural College has been erected near Rutherglen, and placed under the charge of Mr. R. Dubois, who has recently arrived from France under engagement for a term of three years, and a syllabus has been issued and the college is now open for the reception of students.

Live Stock.—The returns of stock in March, 1899 were:—Horses, 431,547 (1895 figures); milch cows, 399,617; other cattle, 1,833,900 (1895 figures); sheep, 12,300,000; pigs, 337,588 (1895 figures.) In 1899-1900 the cows and heifers in milk or in calf on farms numbered 537,722.

Imported Fruit Trees.—With a view to guard against the introduction of insect pests, an Order in Council has been passed making it compulsory to subject imported fruit trees to a process of fumigation, under the supervision of the Agricultural Department: Apple, apricot, currant, cherry, fig, gooseberry, nectarine, pear, plum, peach and persimmon. Imported raspberry and strawberry plants, and plants of the citrus family are required by the order to be similarly treated before being distributed in the colony.

Imported Fruit.—all imported fruit is subject to inspection by officers appointed under the Vegetation Diseases Act, 1896, and all found infected with any of the following diseases, is destroyed:—Codlin Moth (*Carpocapsa pomonella*); Pear Slug (*Selandria Cerasi*); Apple-bark or Mussel Scali (*Mytilaspis pomorum*; Apple Root Borer (*Leptops Hopei*); Red or Orange Scale (*Aspidiotus coccineus*); Queensland Fruit-fly (*Tephritis Tryoni*); European Fruit-fly (*Hutterophora Capitata*); Lemon Scale *Chionaspis Citri* and *Mytalispis citricola*); San José Scale (*Aspidiotus perniciosus*); Black Peach Aphis (*Myzus Persicæ*); White Mussel Scale (*Chionaspis Eugeniæ*); Apple and Pear Scab (*Fusicladium dendriticum* and *Fusicladium pyrinum*); Shot Hole of the Apricot (*Phyllosticta circumscissa*); Leaf Curl of the Peach (*Exoascus deformans*); Peach Freckle (*Cladosporium carpophilum*); Prune Rust (*Puccinia Pruni*); and the fungus disease known as *Melanose*.

Publications.—Among the valuable publications issued by the department may be mentioned the *Handbook of the Destructive Insects of Victoria* (2nd Vol., sold at 2s. 6d.), by the eminent entomologist, Mr. C. French, F.L.S., F.R.H.S. It is a thoroughly practical work, excellently illustrated. Two volumes of this work have been issued, and others will follow as early as practicable. A volume on beneficial insects is also in anticipation. Another important work issued by the department is *Systematic Arrangement of Australian Fungi*, by D. McAlpine, the Government Vegetable Pathologist. The work is issued at 3s. By the same author is issued *Additions to the Fungi on the Vine in Australia*, distributed gratis.

The Dairying Industry in Victoria is making very considerable progress. During the 1899-1900 season the quality of the best Victorian butter was as good as ever before in the history of the export trade; many factories output showed a distinct improvement as compared with previous seasons. This is borne out by the actual prices received. A few factories secured higher average prices in England for last season's butter than for that of the season 1898-99, when only little better than half the quantity was exported thither from Victoria. The highest average price received by factories shipping the whole of last season was 103s. to 104s., whilst quite a large number averaged between 100s. and 104s. per cwt. Against these pleasing facts it cannot be denied that a greater percentage than usual of the total output was of ordinary quality, and it was contended that this had a depressing effect on the reputation of our best butters. The butter exported in 1889-90, the season when the factory system was introduced, was valued at £51,300. For the season 1893-94 it reached £761,273; this amount represented 7,652¼ tons of butter; 1894-95, 11,584¾ tons, value £1,081,243; 1895-6, 9,386 tons, value £876 026; 1896-7, 9,895½, value, £942,247; 1897-8, 7,157 tons, value, £670,000; 1898-9, 8,888 tons, value £888,000; in 1899-1900, £1 604,600; cheese to the value of £22,706, and milk and cream to the value of £18,274 were also exported during 1899-1900.

Other Agricultural Exports through the Government freezing works (the year 1898-99 is shown in parentheses), for 1899-1900 were:—Rabbits (1,210,139 pairs, value £90,760) 1,915,001 pairs, value £140 699; and hares (1,040 pairs, value £208) 938 pairs, value £187; mixed poultry (pairs value £1,857), 7,904 pairs, value £2,028; eggs (11,540 dozen, value £577), 38,780 dozen, value £1,615; mutton and lamb (43,597 carcases, value £21,798), 99,301 carcases, value £49,650; green fruit (15,249 cases, value £7,624), 11,649 cases, value £5,824; beef, (38 quarters, value £76), 2,605 pieces, value £3,907; veal, 1899-1900, 756 sides, value £756; pork 102 carcases, value £153; ox tails, tongues, 2,853 lbs., value £60. Total value, 1899-1900, £1,545,108; 1898-99, £1,015,279.

Agricultural Entomology is now receiving special attention, and the Entomological Branch of the Department of Agriculture, under the direction of Mr. C. French, F.L.S., F.R.H.S., is doing good work. The orders Coleoptera and Lepidoptera have hitherto received most attention; small groups, especially those of a distinctive nature, are being carefully studied.

Attached to the Entomological Branch is a Museum of Economic Entomology and Ornithology, open to the public. This is the only public Museum of the kind in Australasia, and contains very valuable collections.

Tobacco Growing is receiving considerable attention, and Mr. Bondurant, a first-class expert in the culture curing, &c., of the same, has been brought from America, and is likely, with his experience, to do a great deal to further the industry. During 1899 Mr. Bondurant was engaged delivering lectures in different parts of the tobacco-growing districts, also in giving practical instruction in the fields to the growers An experimental tobacco farm has been established at Edi, on the King River under the management of the expert and serves as an object lesson for tobacco-growers as to the best methods of growing and management of the plant. Owing to the instructions already given the growers have made an improvement in their methods of management, and tobacco of much better quality than formerly produced is beginning to get to market. With a view of further encouraging the industry, the Government gives a bonus of 3d. per lb. on tobacco treated under the supervision of the expert and exported; 117,168 lbs. were shipped to London during 1898-99, while during 1899-1900 126,377 lbs. were shipped, and arrangements are being made for further shipments.

Oil.—The oil mill, introduced by the Government during 1895, visited various centres of the colony, for the purpose of demonstrating to farmers and others the benefits to be derived from the cultivation of oil-producing plants. Samples of linseed, colza, hemp, and sunflower oils have been produced of a light quality. A quantity of the linseed oil has been purchased by the railway department at a price profitable to the producers. The oilcake has also found ready sale and should in the future become a valuable means of enabling the dairy farmer to increase his output. The mill has also been of service in instructing the growers as to the best kinds of oil, producing varieties of seeds, much of the sunflower seed treated being very poor in oil yield.

Land.—The estimated area of the colony is 56,245,760 acres, of which 11,572,000 acres are Mallee country. Of these 24,782,700 acres (including Mildura and Mallee land) are either alienated or in process of alienation, 7,236,493 acres are occupied by reserves, &c., 13,929,595 acres are under lease for pastoral purposes, the remaining 10,296,972 acres being available for settlement, and these may be thus classified:—Pastoral lands, 4,483.491 acres; agricultural and grazing lands, 2,628.166 acres; auriferous lands, 1,044.110 acres; swamp lands, 73,814 acres; may be sold by auction, 28,019 acres; Mallee lands (leased for pastoral purposes under a special Act, and is divided into blocks and allotments), 2,039.372 acres, the following areas being still available for occupation—Mallee blocks, 1,331,840 acres; Mallee allotments, 335,217 acres. Agricultural allotments, 372,315 acres.

On 1st January, 1900, the number of licenses and leases for pastoral occupation was 20,823, embracing an area of 19,147,688 acres, the yearly rent being £70,620. Perpetual leases under Mallee Lands Act, 1896, which are 410 for 246,110 acres, £2,051 per annum rental

During 1899, 694,508 acres were alienated from the Crown in fee simple, and realized £727,493; this amount includes payment made in previous years for land selected under the deferred payment system, besides instalments on account of land sold by auction, which under Section 71, Land Act, 1884, may extend over a period of three years from date of sale.

Total extent of land unalienated at the end of 1899 was 32,997,197 acres, in process of alienation by deferred payments, 4,053,769 acres.

Transfer of Land, 1895-99:—Brought under the Act, for 1895, 12,587 acres, valued at £351,182; for 1896, 40,072 acres, valued £443,460; for 1897, 71,092 acres, value £664,384; 1898, 27,301 acres, value £605,427; 1899, 53,847 acres, valued at £668,446.

Settlement on Lands Act, 1893. On June 30, 1900, there were 2,029 settlers, area occupied 48,208 acres, included in area occupied as given above.

Village Settlements.—The necessity of settling the people upon the lands of the colony continues to engage the serious attention of the Victorian Government. On August 31st, 1893, an Act was passed providing for the establishment of Village Communities, Homestead Associations, and Labour Colonies; the Act is cited as the *Settlement on Lands Act* 1893, and it is divided into three parts, dealing with the respective divisions before mentioned. Mr. Martin, the Secretary for Agriculture, has issued a useful little pamphlet, entitled "Hints for the Guidance of Village Settlers."

The total number of applications received and registered during 1899-1900 was 171, of which 50 were approved, 67 refused, and 54 in course of being dealt with. The total amount advanced for 1895-6 was £21,409 7s. 6d.; for 1896-7, £6,527 17s. 4d.; for 1897-8 £2,227 13s. 6d.; for 1898-9, £830 11s.; 1899-1900, £77 16s. 6d.; total since establishment, £67,135 18s. 4d. The total area of settlement occupied 48,208 acres; the number of settlers actually residing at date of inspection in 1900 was 2,029, of which 1,663 were married; the total number, including wives and families, was 9,407; the total value of improvements effected was £177,877; area cultivated, 19,487 acres; value of live stock, £32,517 12s. 6d.

An area of 59,577 acres has been excised from the lands originally proclaimed as available for village settlement purposes; of these 4,399 acres have been added to the Wombat State Forest; 4,176 acres have been excluded under Section 42 of the *Land Act*. 1890; 564 acres under Section 59, and 320 acres have been sold by auction.

On page 92 of the *Australian Handbook* will be found a brief summary of the Act.

The Leongatha Labour Colony continues to do good work, under Mr J. R. Y. Goldstein, and provides the most successful method of assisting the able-bodied unemployed. During 1900 524 men have been enabled to learn the elements of pioneer settlement in heavily timbered country, together with practical instruction in agriculture. The total cost to the State for the

past seven years has been £23,420, that period showing a debit of £3,898.

Religion.—There were on 1st January, 1899, 2,691 churches and chapels, other buildings, 2,331; making a total of 5,022. The denominations are now entirely self-supported—the annual grant of £50,000 provided by the Constitution Act having terminated on 31st December, 1875. The detailed returns to 1st January, 1899 (no later being available) were:—Church of England, 1,098 places of worship, 127,406 sittings, average attendance, 70,675; Roman Catholic, 405 places of worship, 123,000 sittings, average attendance, 131,169; Free Church of England, 1 place of worship, 280 sittings, average attendance 140; Presbyterian, 999 places of worship, 98,200 sittings, average attendance, 81,264; Free Presbyterian, 28 places of worship, 2,470 sittings, average attendance, 655; Free Christian, 6 places of worship, 900 sittings, average attendance, 350; Wesleyan Methodist, 1,033 places of worship, 116,100 sittings, average attendance, 117,100. Primitive Methodist, 169 places of worship, 20,365 sittings, average attendance, 13,087; United Methodist Free Church, 84 places of worship, 13,600 sittings, average attendance, 5,500. Bible Christian, 197 places of worship, 19,000 sittings, average attendance, 12,737; Congregationalists, 176 places of worship, 20,970 sittings, average attendance, 13,100; Baptists, 166 places of worship, 26,080 sittings, average attendance, 14,052; Evangelical Lutheran, 64 places of worship, 6,410 sittings, average attendance, 3,757; Unitarian, 1 place of worship, 500 sittings, average attendance, 150; Welsh Calvinistic Connexion, 2 places of worship, 500 sittings, average attendance, 120; Church of Christ, 95 places of worship, 12,500 sittings, average attendance, 6,250; Society of Friends, 2 places of worship, 175 sittings, average attendance. 65; Moravians or United Brethren, 2 places of worship, 300 sittings, average attendance, 90; Australian Church, 1 place of worship, 1,300 sittings, average attendance, 1,300; Mariners' Church, 1 place of worship, 250 sittings, average attendance, 200; Swedenborgians, 2 places of worship, 250 sittings, average attendance. 48; Catholic Apostolic, 1 place of worship, 350 sittings, average attendance, 258; Christian Israelites, 1 place of worship, 200 sittings, average attendance, 150; Spiritualists, 2 meeting places, 2,000 sittings, average attendance, 800; Jews, 6 synagogues, 2,180 sittings, average attendance, 552: Salvation Army, 292 places of worship, 76,600 sittings, average attendance, 51,500; Seventh Day Adventists, 7 places of worship, 466 sittings, average attendance, 390.

The number of Clergy and ministers by the returns to 1st January, 1899, numbered 1,133, as follows:—Church of England, 242; Victorian Free Church of England, 1; Roman Catholics, 196; Presbyterians, 229; Free Presbyterians, 5; Free Christian, 1; Wesleyans, 153; Primitive Methodists, 39; United Methodist Free Church, 21; Congregationalists, 59; Baptists, 71; Bible Christians, 36; Evangelical Lutherans, 21; Welsh Calvinists, 1; Church of Christ, 19; Moravians, 2; unattached (Mariners' Church), 1; Unitarian, 1; Swedenborgian, 2; Society of Friends, 1; Catholic Apostolic, 4; Christian Israelites, 1; Jews, 9; Salvation Army, 13; (celebrants of marriage) Australian Church, 1; Seventh Day Adventists, 3.

For the census returns of 1891 see previous issues of this work In 1900 the diocese of Sandhurst and Beechworth was created.

Sunday Schools.—There are, as shown by the returns to 1st January, 1899 (the latest available returns), 2,835 Sunday Schools in the colony, with an average attendance of 165,236 scholars and 20,484 teachers. They are thus particularized:—Church of England: 591 schools, 4,416 teachers, 50,890 scholars on roll.—Presbyterians of Victoria: 619 schools, 3,961 teachers, 41,000 scholars.—Free Presbyterians: 5 schools, 18 teachers, 145 scholars.—Wesleyan: 602 schools, 5,473 teachers, and 53,500 scholars.—Primitive Methodist: 120 schools, 999 teachers, 8,874 scholars.—United Methodist Free Church: 60 schools, 393 teachers; 3,555 scholars.—Bible Christians: 105 schools, 809 teachers, 6,548 scholars.—Independent: 72 schools, 821 teachers, 6,317 scholars.—Baptists: 100 schools, 1,002 teachers, and 11,050 scholars.—Evangelical Lutheran: 28 schools, 64 teachers, 907 scholars.—Welsh Calvinistic Connexion: 1 school, 11 teachers, 134 scholars—Church of Christ: 61 schools, 467 teachers, 4,785 scholars.—Unitarians: 1 school, 1 teacher, 14 scholars.—Swedenborgians: 1 school, 5 teachers, 30 scholars.—Roman Catholic Church: 335 schools, 1,469 teachers, 32,277 scholars.—Jews: 6 schools, 15 teachers, 310 scholars.—Spiritualists: 1 school, 12 teachers, and 176 scholars.—Salvation Army: 107 schools, 420 teachers, 4,211 scholars.

Education.—The system of public primary education in Victoria is free, secular, and compulsory, the Act establishing it having come into force on the 1st January, 1873, this being amended by the Education Amendment Act which received the Royal assent, 24th October, 1876, was consolidated by the Education Act, No. 1,086, and further amended by Acts Nos. 1,302, 1,334 and 1,382. The department is under a Minister of Education, who is alone responsible to Parliament and the country, in whom (or his successors) all school properties are vested. Attendance at the schools is compulsory between the ages of 6 and 13 years; the attendance to amount to at least forty days in each quarter of the year, any of the following reasons only being a valid excuse for non-attendance:—Efficient education elsewhere; sickness, fear of infection, or any unavoidable cause; if there be no State school within two miles; if a child be educated up to the standard. This provision of the Act is enforced by "truant officers," whose special business it is to look up defaulting parents and compel them to have their children educated. The instruction imparted is severed from all connection or special arrangement with the religious denominations, is secular in the sense of not being distinctively religious (during 1900 a Royal Commission sat for the purpose of drawing up a series of Scriptural lessons for use in the State Schools), and is free in certain prescribed subjects; any other approved subject, such as Latin, French, or algebra, being allowed to be taught on the payment of a small fee, fixed by regulations. Every school locality is termed a school district, which for local purposes is presided over by a Board of Advice.

According to the census returns of 5th April, 1891, the educational status of the people exclusive of Aborigines and Chinese was—907,588 able to read and write, 32,698 able to read only, 190,177 unable to read. The number of children in the colony of school age—that is, between 6 and 13—was 182,130, of whom 170,473, or 93·6 per cent. were on the rolls of State or private schools.

The number of State schools in operation on the 1st January, 1899, was 1,892, of which 3 were night; children enrolled, 239,732; boys, 123,143; girls, 116,589; average attendance, 143,944; boys, 74,680; girls, 69,164. Teachers comprised 4,808 persons:—1,860 males, 2,948 females.

On 30th June, 1893, the property of the department comprised 1,942 school buildings and 1,381 teachers' residences, the school buildings having accommodation for 193,989 children at ten square feet per child. The gross cost of the State school system last year, including administration and buildings, was £598,859, or £4 2s. 1¼d. for each child in average attendance.

On 1st January, 1899, the private schools of all kinds throughout the colony numbered 901, having 2,417 teachers and 52,318 scholars. In these figures are included the College and Grammar schools, which number 6, with 61 masters and 1,021 students, and are as follows:—The Church of England Grammar School, Melbourne, having 10 masters or professors, and 211 students; the Geelong Grammar School, also connected with the Church of England, having 9 masters and 112 pupils; the Scotch College, Melbourne, in connection with the Presbyterian Church, having 8 masters and 274 pupils; the Wesley College, Melbourne, connected with the Wesleyan body, with 8 masters and 211 students; St. Patrick's College, Melbourne, belonging to the Roman Catholic Church, having 10 masters and 79 students; and St. Francis Xavier's College, Kew, also connected with the Roman Catholic Church, having 13 masters and 135 students. In addition to the foregoing there are, a Presbyterian College at Geelong, a High School at Sandhurst, a college at Ballarat, a college at Hamilton, and three ladies' colleges, the Presbyterian College at Melbourne, the Methodist College at Kew; and the Alexandra College at Hamilton.

In connection with the Melbourne Grammar School there are six foundation scholarships (including the "Witherby Scholarship"), giving exemption from half the tuition fees for boys under 14 for education in the school, and tenable for three years; and several entrance scholarships which are offered by the Council for open competition. The Melbourne Grammar School is now carried on under a new constitution, similar to that of the younger public schools of England and doing away altogether with the farming system so far as intuition fees are concerned.

In connection with the Scotch College, scholarships of the value of 10 or 20 guineas each are given to students who gain satisfactory position in the class honour lists at the Matriculation Examination, such scholarships to be tenable for one year. Several entrance scholarships are also given of the value of 10 or 20 guineas, tenable for two years.

In connection with the Wesley College there is a scholarship called the "Draper," established in memory of the Rev. D. J. Draper, who was lost in the steamship *London*. It is of the value of £25, and is tenable for one year. Two other scholarships have also been founded by Mrs. Powell, called the "Walter Powell Scholarships." They are of the value of £40 each, payable in two annual instalments of £20, and tenable on condition of the scholar pursuing his studies at the "Melbourne University." There are also the "Waugh," the "Watkin," the "Rigg," and the "Dare" (for boys below the fifth form), the "Eggleston," and the "Corrigan" Scholarships, each of the value of 16 guineas, tenable for one year; a strictly commercial side has also been established. Four free scholars were received during 1898.

In connection with the Geelong Grammar School, a scholarship of the value of £60 per annum, tenable for at least two years, has been given by Mrs. F. W. Armytage. The headmaster also gives an annual scholarship valued at 80 guineas per annum for the benefit of the sons of clergymen of the Church of England; and two open scholarships annually of the value of 40 guineas; these scholarships are open to boys under 14 years of age, and are tenable for four years.

The MELBOURNE UNIVERSITY was incorporated by Act of Victorian Parliament (16 Vic., No. 34) in 1853, was begun 3rd July, 1854, and opened 3rd October, 1855; it takes a high rank among kindred institutions. Its degrees and diplomas (by virtue of Royal Letters Patent issued in 1859) entitle the holder to the same rank, precedence, and consideration as those of any University in the United Kingdom, and in British Colonies and Possessions throughout the world. The subjects taught comprise Classics, Mathematics, Modern Languages, History and Political Economy, Mental and Moral Philosophy, Natural Science, Chemistry, Biology, Natural Philosophy, Medicine, Law, and Engineering, each department being under professors or competent masters. It is under the government and control of a Chancellor and Vice-Chancellor, selected out of and assisted by a Council of twenty members, of whom sixteen at least must be laymen, and of a Senate presided over by a Warden. It is endowed to the extent of £9,000 annually out of the General Revenue. A reduction in the endowment by £750 was made by the Government in 1896. Including those who matriculated during the year a total of 4,314 have passed this examination since the establishment of the

University to December 31, 1898. During 1898 there were 152 graduates, 41 took B.A., 17 M.A., 19 M.B., 2 M.D., 22 B.Ch., 0 Ch.M., 19 LL.B., 4 LL.M., 0 LL.D., 8 B.C.E., 8 M.C.E., 5 B.Sc., 0 Mus. Bac., 1 M.Sc; 0 D.Sc. Since the establishment up to December, 1898, 2,758 degrees have been conferred. The expenditure of the year 1898 amounted to £29,915 6s.; the income to £28,648 15s. 3d.; of this £12,750 was the Government grant; £15,171 0s. 3d. was derived from College fees, and £727 15s. 3d. from other sources. Since 22nd March, 1880, the University has been thrown open to females, who are admitted to all the same corporate privileges as male students.

Within its boundaries the Church of England has an affiliated college (Trinity), which was opened for the reception of students in July, 1872. Through the liberality of the late Sir W. Clarke and his brother, the late Mr. Joseph Clarke, who gave nearly £11,000 towards the enlargement, a handsome block, styled the Clarke Buildings, was erected, and was opened during the July term of 1883. Further additions were made in 1887. The existing buildings include apartments for the warden, tutors, and men students; a chapel, dining-hall, chemical laboratory, biological laboratory, lecture room, billiard room, two libraries, museum, students common room, a hotel for women students, &c

The Presbyterian Church have a similar college open to all denominations. It was opened on 8th March, 1881, by His Excellency the Marquis of Normanby, and called the "Ormond," after the munificent founder, the late Mr. F. Ormond, M.L.C., who contributed during his lifetime the sum of £41,780 (and bequeathed in his will an additional £60,000), out of the £65,000 which the college has cost up to the present. The ultimate cost is estimated to total £75,000. This college was extended by the erection of a north-eastern wing, containing students' bedrooms, sitting-rooms, &c., which was formally opened by Mrs. Ormond on the 23rd December, 1885. A handsome dining-hall, intended as a special memorial of the founder, Mr. Ormond, was added to the College in 1893. The College has a sum of £20,000 set apart for endowment. The lectures in connection with the Theological Hall of the Presbyterian Church are delivered in Ormond College by three professors and a lecturer. These professors are appointed by the General Assembly.

Queen's College in connection with the Wesleyan church was opened in 1888. It is open to students of either sex without regard to religious belief. Lectures are delivered on the chief subjects of the University examination. Scholarships to the value of £200 are awarded annually by examination.

The object of these institutions is to afford residence, domestic superintendence and tutorial aid to students attending the University, and also to serve for theological seminaries for students who have matriculated at the University.

The memorial stone of the University Hall, called the "Wilson" Hall, was laid on 2nd October, 1879, and is now completed; it has cost in its erection upwards of £40,000, the whole of which was given by Sir Samuel Wilson.

A Conservatorium of Music, connected with the University of Melbourne, was opened on February 28th, 1895, Sir John Madden, Vice-Chancellor of the University, presiding. The endowment for the Chair of Music (the first occupant of which was Professor M. Hall) was left by the late Mr. F. Ormond.

Technical Schools. — These schools are under the control of the Education Department, and are recognised in certain authorised centres only. In the majority of cases the instruction is given at night. The subjects which may be taught in the schools are :—

LIST A.—(SCIENCE.)

Theoretical chemistry, practical chemistry, metallurgy, assaying, geology, mineralogy, petrography, arithmetic, geometry, algebra, trigonometry, mensuration, applied mechanics, mechanics applied to mining, land surveying, mining surveying, mining, steam and gas engines, dynamics and heat, sound and light, electricity and magnetism, electrical technology, botany, agriculture, fruit growing, veterinary science, sanitation.

LIST B.—(TRADE.)

Photography, wood turning and pattern making, metal-working (including fitting and turning) metal founding, plumbing and gas-fitting, carpentry, joinery, and manual training; coach building, wool sorting, engine driving, graining and marbling, sign writing, tailor's cutting, bootmaking, cookery, dressmaking and needlework.

LIST D.—(ART.)

Practical and plane geometry, practical solid geometry, perspective, mechanical drawing, building construction, architecture, freehand drawing, modelling, pottery, wood carving.

A Royal Commission on Technical Education was appointed by the Government to inquire into the subject of technical education, and they recommend, in a progress report:—1. That the regulations embodying the amended programme of instruction, and the approved courses in kindergarten, and in relation to hand and eye training, or manual instruction, be withdrawn from the schools. 2. That the services of expert educationalists to act as organizers and instructors to teachers in kindergarten, hand and eye training, or manual instruction, be obtained forthwith. 3. That any scheme of kindergarten hand and eye training, and manual instruction should only be carried out on lines approved by experienced and expert organisers and instructors, and under their guidance.

On 1st January, 1900, there were 18 Schools—6 of these were engaged in teaching science, art, and trade subjects; 4 art only; 4 science and art; 2 science; and 2 trade and art subjects. In pursuance of the departmental policy of amalgamation of schools, aid was withdrawn from all the art schools in the suburbs of Melbourne on 31st December, 1895, it being considered that the Working-men's College fulfils all requirements.

The number of students enrolled during the last term of 1899, in the 18 schools which were then in operation, was 2,889, while the number who attended 7 times or more during the term was 4,067 (this number is larger than the number of enrolments, as some of the students attend two or more classes). The number of instructors was 96. The Government grant for the year 1899-1900 amounted to £24,740. New regulations were brought into force from the beginning of 1896, a fixed annual grant taking the place of the former capitation grants and payments on examination results. These grants will be revised annually. The grants for 1899-1900 were as follow :—Ballarat, £2,900; Bairnsdale, £750; Bendigo, £1,600; Castlemaine, £400; Daylesford £275; Geelong, £350; Horsham, £300; Kyneton £200; Maryborough £350; Sale, £600; Stawell, £650; St. Arnaud, £250; Melbourne, W.M. College, £3,525; Ballarat (E.), £350; Ballarat (W.), £700; Echuca, £100; Nhill, £150; Warrnambool, £125.

THE WORKING MEN'S COLLEGE, in Latrobe Street, Melbourne, was opened in 1887. It is a Technical College, giving instruction, chiefly during the evening, in science, art, engineering, mining, commercial and technical subjects, as well as in the leading trades. The founder was the late Hon. Francis Ormond, who gave £5,000, and bequeathed £10,000 towards it. £5,000 more was raised by private subscription, which has been largely supplemented from time to time by Government. The Bowen Street block, opened in 1890, which cost about £15,000, was a gift of the Government. The buildings of the Metallurgical Department were erected in 1898, at a cost of about £1,000. New engineering workshops costing £6,000 were completed in 1900, bringing the total cost of the college buildings and equipment up to about £60,000 sterling. The revenue is derived partly from an annual Government grant and partly from students' fees. During 1899 the revenue amounted to £8,701 sterling, of which Government contributed £4,208; and fees and sundries £4,493 sterling. The fees paid by each student range from 5s. to £12 per term, the average being 10s. 9d. The average enrolment per term for 1899 was 1,943, the number of instructors 47, and number of classes 121. The college is governed by a council consisting of representatives of the Government, the founder, the university, the public library, the trades' hall council, and the subscribers. The President for 1900 was Mr. Joseph Nixon, J.P., and the Secretary and Director, Mr. F. A. Campbell, M.C.E., F.R.G.S.

Charitable and Benevolent Institutions. — A Charity Organisation Society has been established in Melbourne for the past thirteen years, its objects being—(1) promotion of co-operation in charitable work, (2) direction of the stream of charity to the deserving, (3) discouragement of indiscriminate giving, (4) exposure of sturdy beggars and professional impostors, (5) adequate inquiry before relief, and compilation of records, (6) distribution of immediate relief *in kind* pending arrangements with existing charities, (7) inquiring upon the request of any charitable institution, (8) fostering the establishment of provident dispensaries, (9) encouragement of charitable effort in localities where no suitable societies are in existence. The income for the year ending June, 1900, from all sources, was £1,195, the expenditure £1,418. The Society has rendered important service during times of depression, by finding work for about 600 unemployed per year, and was the first agency to advocate the establishment of a labour colony for vagrants and homeless men. It is observable that of the ascertainable nationalities of the 700 cases investigated by this Society for the year ended June, 1900, no less than 210 were Australians and 334 British. Of the causes of distress in 700 cases during the year 80% are set down as due to misfortune and 20% to misconduct, under such headings as drink, laziness, roving disposition, &c.

CHARITABLE INSTITUTIONS.—According to the report of the Inspector of Charitable Institutions, there were on 30th June, 1899, 166 public charities; of these 41 were hospitals, with 2,442 beds and 1,631 inmates; 9 were hospitals and benevolent asylums, with 707 beds and 471 inmates; 6 were benevolent asylums, with 2,432 beds and 2,349 inmates; 7 were orphanages with 983 beds and 869 inmates; 3 were blind, deaf and dumb and infant asylums, with 256 beds and 222 inmates; 9 were refuges, with 604 beds and 508 inmates; 2 were convalescent homes, with 64 beds and 32 inmates. There were 72 ladies' benevolent societies (these during the year assisted 19,277 persons, and 142 aged persons were supported in 92 cottages owned by 18 ladies' societies), 3 medical dispensaries and 14 philanthropic institutions.

The number of persons receiving charitable relief at the several institutions for the year is estimated at 102,647, of whom 74,901 received out-door relief.

The chief sources of income for the support of the public charities, irrespective of the Government grant of £100,000, were:—Municipal grant, £11,371; locally raised contributions, £68,381; interest upon investments, £10,949; paying patients and paying pupils, £10,395; out-patients' fees, £4,248; proceeds of inmates' labour, £11,704; legacies and bequests, £6,184. In addition the revenue of the ladies' benevolent societies and other philanthropic institutions amounted to £29,611.

The out-patient cases cases treated in 6 special and 40 general hospitals during the year amounted to 69,659, the in-patients numbered 18,423, at an expenditure of £147,145, to which the Government contributed £51,109. The total receipts amounted to £155,226. Hospitals and benevolent asylums—out-patient cases treated, 3,539, expenditure, £19,985; benevolent asylums out-patient cases treated, 3,563, expenditure, £42,699; orphanages

—expenditure, £21,838; refuges—expenditure, £17,289; miscellaneous—expenditure, £10,321.

There are eight refuges or homes for fallen women, one at each of the following places—Ballarat, Geelong, Carlton, Abbotsford, Collingwood, South Yarra, and Salvation Army, Elizabeth Fry Retreat, and House of Mercy, Cheltenham. These have in all 604 beds, receiving Government grant £3,065, and from all other sources, including proceeds of inmates' labour, a total of £43,393.

The Salvation Army had 5 Rescue Homes on June 30, 1899, with 137 beds.

At the three free medical dispensaries, one of which, at Geelong, is homœopathic.

During 1899 the Discharged Prisoners' Aid Society relieved 710 persons, at a total expenditure of £1,217.

During 1900 the accumulated deficit of the Melbourne Hospital, £26,500, was paid off by public subscription.

THE VICTORIAN SANATORIUM FOR CONSUMPTIVES was established at Echuca in 1890. The return for 1899 shows 6 dormitories, with 28 beds and a capacity of 39,200 cubic feet. During the year 98 persons were admitted, 47 cured or relieved, and 5 died. On June 30th, 1899, there were 29 persons. Total receipts for 1899–1900 £1,848, of which £250 was received from the Government; total expenditure, including overdraft, £321.

THE BENEVOLENT ASYLUM celebrates the jubilee of its opening on November 27, 1901. On June 30, 1900, there were 677 inmates—433 males and 244 females; most of them being pioneers, and 28 have been in the institution for more than 21 years.

There are two Convalescent Homes in Victoria, one at Cheltenham and one at Clayton, the former with 3 dormitories and 23 beds, the latter with 3 dormitories and 40 beds. There are two night shelters (Dr. Singleton's) in Melbourne, one for women and one for men, the returns for 1899 showing the total number sheltered as 16,019; 8,993 men, 7,026 women and 0 children; for June 30th, 1900, 15,009 persons were sheltered, 8,604 men. 6,368 women, and 37 children.

THE HOMŒOPATHIC HOSPITAL was established in 1869 as a dispensary for out-patients, and opened in 1896 as a hospital for in- and out-patients.

BENEVOLENT SOCIETIES.—There are about seventy Benevolent or Philanthropic societies in the colony. These associations are for the relief of distressed or indigent persons, and are generally managed by ladies. The names of two of these societies indicate their connection with the Jewish body, and one to the Methodist body, but the others have no denominational title. During the year over 13,700 distinct adult individuals were relieved, and 8,000 children, the amount of money expended being about £17,800; the receipts amounted to £19,244, of which £7,145 was from State funds

Neglected Children and Reformatory Schools.—A special Department of State has control of neglected children. The receiving depôt for neglected children at Royal Park is wholly maintained by the State; the Roman Catholic school at Abbotsford, and the Protestant Training Institute at E. Melbourne are partly maintained by the State. The total number of children under the legal control of the State, in January, 1900, was 4,965, located as follows:—3,113 neglected children in foster homes, 135 ditto in institutions. 199 reformatory children in schools, 710 neglected children maintaining themselves at service, 110 reformatory children doing likewise, 629 neglected children with relatives without cost, 60 reformatory children ditto, 7 were in hospital. Total expenses up to June 30, 1900, amounted to £58,883, which, after deducting £1,288 received for maintenance from parents, and £17 11s. 6d. derived from other sources, leaves as the net amount expended by Government £57,534.

The Reformatory Schools are at Pakenham, Bayswater, N. Brighton. Kingsbury Farm, Straight View Farm, Bukawert, Wandin Yallock, Oakleigh, Brookside, and Mt. Paradise. These are all assisted by the State; two are Roman Catholic, and the rest Protestant; the receiving depôt for boys and girls at Royal Park is wholly maintained by the State.

There are thirteen societies dealing with neglected children, and during the year ended December 31, 1899, they had 2,328 children under supervision.

Mining.—The colony of Victoria is justly celebrated for the wealth, extent, and variety of its mineral resources. COPPER ore has been found at St. Arnaud, Bethanga, Specimen Gully, and on the River Thompson; in Gippsland, where native copper is found associated with other ores of copper in the form of carbonates and pyrites; it also occurs in small quantities at Steiglitz, Castlemaine, Bendigo, and other places. Up to the 31st December, 1899, the quantity of COPPER raised in Victoria was 17,444 tons 15 cwt., valued at £206,395. During 1895 there were raised 7 tons, value £210, in 1896–9 *nil*. At St. Arnaud and Bethanga are SILVER mines. Metal raised up to end of 1899, 27,184 ozs., value £7,446. Silver is also found near Casterton and several places in E. Gippsland and at Redbank, near Avrea. TIN occurs in numerous places in the district of Beechworth, in the beds of tributaries of the Yarra, Thompson, Tarwin and Latrobe; also at Taradale, Omeo, Toora, S. Gippsland, and Strathbogie; up to December 31, 1899, the quantiy of tin ore raised amounted to 14,890 ozs., valued at £706,300. This was principally obtained at El Dorado and Foster. QUICKSILVER has been found at Jamieson, and 9 lbs. was got from 3 cwt. of ore during 1896; none in 1897-8-9 ANTIMONY, in the form of sulphuret and oxide, is found at Blackwood, Heathcote, Whroo, Anderson's Creek, Rutherglen, Maryborough, Costerfield, Ringwood, Merton, near Mansfield, and Nunawading, near Melbourne. ZINC has been found at Daylesford also in Gippsland; LEAD at Talbot, Avoca, and Gippsland; lead ore is being worked at Buchan for silver and lead; silver-lead ore raised in 1895, 20 tons, value £100, in 1896-7 *nil*, in 1898, 20 ozs., value £240; in 1899, *nil*. COBALT at Yea; BISMUTH at Omeo near Echuca, and Tarrangower; MANGANESE at Pleasant Creek, Daylesford, and Gippsland; WOLFRAM has been found in Gippsland, and, it is alleged, in large quantities; efforts are being made to develop production; INFUSORIAL EARTH at Lilicur, 100 tons being raised in 1899; COAL at Cape Paterson, Western Port, Coleraine, Hazelwood, Korumburra, and Mirboo, the quantity raised during 1899 being 262,380 tons, valued at the mines at £113,522, a total up to December, 1899, of 1,526,968 tons, valued at £793,568. The Outtrim Howitt Company's mine is now the principal coal-producing mine in the colony, and from it 122,921 tons were obtained in 1899; the other Companies are Jumbunna, 73,652 tons; Coal Creek Proprietary, 56,843 tons; also Korumburra Coal Creek Extended, Coalville Colliery, Moe, and North Coalville. LIGNITE has been found at Lal Lal, near Ballarat, while the vast deposits of Brown Coal of Gippsland have attracted much attention. KAOLIN has been discovered at Bulla Bulla, near Melbourne, Stawell, and at Beechworth; IRON is found at Lal Lal and Nowa Nowa, E. Gippsland (the ore at the latter is high grade); and up to the 31st December, 1891, 5,434 tons 10 cwt. of iron ore was raised; none raised since. PAINT.—During 1899 Parliament voted £640 to develop the manufacture of paint from mineral substances, and the industry has been successfully established. The other chief metals or metallic ores found in Victoria are:—Bismuth, cobalt, cadmium, manganese, molybdenite, osmiridium, and zinc-blende. These metals or ores, have not yet been discovered in payable quantities. Diamonds, sapphires, and other precious stones have been found in the north-eastern parts of the colony, in what is known as the Ovens district, at or near El Dorado, the Woolshed and Pilot Creek, near Beechworth.

During 1899 907 miners were engaged in mining for metals and minerals other than gold, distributed as follows:—Coal, 880; tin, 15; quicksilver, 6; infusorial earth, 6, at Mt. Cameron.

PRINCIPAL METALS AND MINERALS.—Up to 31st December, 1899, the quantities and values of the principal metals and minerals raised since the discovery of the gold-fields were—gold, 63,539,205 ozs., value £254,156,820; silver exported, 27,184 ozs., value £7,446; tin ore raised, 14,890 tons, value £706,300, copper raised, 17,445 tons, value £206,395; antimony ore raised, 22,922 tons, value £177,174; lead, 793 tons of ore raised, producing metal of the value of £5,760; iron, 5,434 tons, value £12,540; coal, 1,526,968 tons, valued at £793,568; lignite 12,923 tons, value £3,086; and brown coal, 42,555 tons, value £16,693; kaolin, 1,983 tons, value £7,504. Infursorial earth, 460 ozs., value, £1,210; brick clay, £204,998; pottery clay, £33,045; building stones, £2,932,271.

Gold.—Victoria is chiefly remarkable for its gold, to which it owes its extraordinarily rapid progression; it has been stated that one-third of the total area of the colony may safely be considered as occupied by gold-bearing rocks. The gold occurs in quartz and alluvium; the latter was, of course, the first worked, surface mining being comparatively easy. This was, however—where discovered—quickly exhausted, and some of the sinkings are now carried on at considerable depths.

Quartz reefing is extensively followed, employing much machinery and a large amount of capital; and owing to the improvements in obtaining gold from the quartz, a yield of a few dwts. to the ton is found remunerative. Some of the quartz mines are now worked to a depth exceeding 3,424 feet.

For the year ending December 31st, 1899, the yield from the Ballarat mining district was alluvial, 106,001 ozs., quartz, 102,918 ozs., total, 208,920 ozs. of gold; from the Beechworth mining district, alluvial, 64,943 ozs., quartz, 39,335 ozs., total 104,278 ozs. of gold; from Bendigo, alluvial, 12,444 ozs., quartz, 223,152 ozs., total, 235,596 ozs. of gold; Maryborough mining district, alluvial, 29,679 ozs., quartz, 26,956 ozs., total, 56,635 ozs.; from the Castlemaine mining district, alluvial, 17,839 ozs., quartz, 59,582; total, 77,421 ozs.; from the Ararat mining district, alluvial, 11,685 ozs., quartz, 17,103 ozs., total, 28,789 ozs. of gold; from the Gippsland mining district, alluvial, 9,232 ozs., quartz, 74,911 ozs., total, 84,143 ozs. The total yield of gold, as estimated by the Mining Registrar, for 1899 was 795,784 ozs. 3 dwts., showing a decrease of 653 ozs. in alluvial on the previous year, and an increase of 12,017 ozs. for quartz, 251,825 ozs. were the produce of alluvial mines, and 543,958 ozs. from quartz reefs. The reports of the Mining Registrars not being considered complete estimates a new formula has been adopted by the Mines Department which shows the yield for 1899 to be 854,500 ozs., or 58,715 ozs. more than the Registrar estimated. This is the highest yield reported from any individual year since 1876.

In the goldfields of Ballarat, Maldon, Walhalla, Chiltern and Rutherglen, Stawell, Orneo and Glen Wills, Matlock and Bullumwaal there were decreases in yield. In all other districts there was an increase compared with the previous year. The average of all the districts was 9 dwts. 13 grs. The average yield to 31st December, 1899, of all the crushings since records have been published, has been 10 dwts. 4 grs. per ton, being 17,125,483 ozs. of gold from 33,745,853 tons of quartz; tailings and mullock, 3,527,722 tons, yielding 430,416 ozs. 19 dwts., average 2 dwts. 10 grs.; from pyrites 188,089 tons 433,014 ozs. 4 dwts., average, 2 ozs. 6 dwts.

The total yield of the goldfields from 1851 to 1899, inclusive, has been 63,539,205 ozs., the value being, at £4 per ounce, £254,156,820.

Nuggets of gold of great size and value have been found at various times in the colony, the largest being the "Welcome Stranger," weighing 2,280 ozs., which was found at Moliagul.

The gold mining returns for the year ending 31st December,

1899, show miners working:—14,123 alluvial, 15,991 quartz, a total of 30,114.

The value of gold per ounce varied from £3 5s. in the Maryborough district to £4 3s. in the Ballarat, Beechworth, and Gippsland districts.

Accidents.—During 1899 there were 30,640 miners employed, 118 accidents, of which 41 were fatal.

In January, 1900, there were seven mines over 3,000 feet deep and 14 over 2,500 feet at Bendigo.

The dividends declared by mining companies during the year 1899 amounted to £566,305, a decrease on 1898 of £49,329. From Ballarat, £129,475; Beechworth, £30,100; Bendigo, £212,337; Maryborough, £30,975; Castlemaine, £85,000; Ararat, £7,137; Gippsland, £71,280.

Value of Machinery employed in 1899:—Alluvial, £511,810; quartz, £1,402,460; total, £1,914,270.

The Acting Secretary for Mines, in his annual report for 1899, says: "While it is recognised that a fairly satisfactory amount of capital has been introduced during the year in connection with mining enterprise, it is to be regretted that it has not in all cases been invested with proper discrimination; that is, if we can judge by the number of companies that have been recently wound up, the outcome, as a rule, of insufficient working capital, through the companies being overloaded with paid-up floaters' shares. Nevertheless, that a strong feeling of confidence in the future mining possibilities of the colony exists is amply proved by the fact that more than 1,000 new gold-mining leases have been issued during the year; and, as illustrating the determination of the department that nothing but legitimate mining shall be encouraged, and that everything in the shape of speculative shepherding shall, as far as possible, be stamped out, no fewer than 964 leases have during 1899 been declared void for non-fulfilment of the covenants."

A list of yields from the various mines in the colony is now published monthly and is distributed gratis on application.

Naval and Military Forces and Defences.—Important changes in the system of Victorian defences were made in 1883 and 1884 by the Discipline Act, 1883, by which the old Volunteer force was practically displaced by the Militia organisation, and the system adopted of obtaining the services of certain officers from the Imperial forces for periods of service in the colony.

Australian Imperial Regiment.—The Australian Imperial Regiment of 2,000 officers and men was organised at the Imperial Government's expense. The cost of the detachment, independently of the expenses of transport, with which the Victorian Government had nothing to do, was £44,844. The following are the items:—Horses, £13,760; provisions, £1,080; forage, £2,090; saddles and accoutrements, £6,763; clothing, £7,260; pay and allowances, £4,100; stores and equipment, £7,273; travelling expenses, £12; freight, £1,016; railway and local transport charges, £560; incidental expenses, £930. The transport charges for the conveyance of the Victorian detachment from Melbourne to Beira are estimated at about £25,000. Landed at Beira the cost of the Victorian detachment to the Imperial Government may therefore be stated at about £70,000. Assessing the expenditure in connection with the 1,350 officers and men raised in the other colonies at the same rate, that would make the cost of the complete regiment landed at Beira fully £210,000. The maintenance of the regiment in the field for twelve months will amount to an additional £500,000, making the total cost close upon £750,000.

Numerous rifle clubs were established during 1900.

The expenditure for the year ended June 30, 1900, was £163,578, of which £2,443 was for Cadet Corps; £6,710 for Mounted Rifles; £6,508 for Victorian Rangers; £1,068 rifle clubs; £23,976 naval forces; £2,284 naval brigade; £38,874 militia; £30,701 Victorian Artillery.

On the 1st July, 1900, the Victorian military forces consisted of a permanent force, a militia force and volunteers—the establishment of these forces is shown under:—

Permanent Forces:	Men.
Head Quarters' Staff	4
Permanent Staff Militia	34
,, ,, V.M. Rifles	12
,, ,, Vict. Rangers	12
,, ,, Cadet Corps	2
Permanent Section, Victorian Engineers	35
Victoria Regiment Royal Australian Artillery	289
Military Staff Clerks	7
Total, Permanent Forces	396
Militia:	
Head-Quarters Staff	7
Field Artillery (A, B, C, Batteries, and Head Quarters)	269
Garrison Artillery (Geelong, 249; Western Artillery, 144; Harbour Trust, 186; North Melbourne, 186; Williamstown, 103)	868
Victorian Engineers Submarine Mining Company	84
,, ,, ,, Queencliff Section	20
,, ,, ,, Field Company	75
1st Battalion Infantry Brigade. Melbourne	456
2nd ,, ,, ,, ,,	455
3rd ,, ,, ,, Ballaarat	456
4th ,, ,, ,, Castlemaine	301
5th ,, ,, ,, Bendigo	301
Army Service Corps	50
Ambulance Corps	46
Medical Staff	16
Total, Militia	3,404

Volunteers:	
Mounted Rifles	1,100
Victorian Rangers	850
Scottish Regiment	452
Senior Cadet Battalion	483
Grand Total	6,085

Note.—Rifle Clubs not included in this return.

Naval:	
The "Victorian Naval Forces" embrace the Permanent Forces	157
Naval Brigade	152
Total	309

The following Contingents have been sent on service to South Africa:—

	Men.	Horses.
1st Contingent	250	142
2nd ,,	264	305
3rd (Bushmen's) Contingent	276	357
4th (Imperial) ,,	629	778

LIST OF SHIPS.

Cerberus.—Double screw iron armour-plated turret ship, 3,480 tons, 1,660 h.p.

Countess of Hopetown.—First class torpedo boat (steel), 120 tons, 1,180 h.p.

Childers.—First class torpedo boat (steel), 63 tons, 800 h.p.

Nepean.—Second class torpedo boat (galvanized steel), 12½ tons, 150 h.p.

Lonsdale.—Second class torpedo boat (galvanized steel), 12½ tons, 150 h.p.

Gordon.—Torpedo launch, 12 tons, 140 h.p.

Customs No. 1 and *Commissioner.*—Torpedo launches.

Note.—The *Nelson* was sold in 1898.

Electric Telegraphs.—During ordinary office hours (8.30 a.m. to 8 p.m., Sundays excepted), messages of nine words or under can be sent to and from any part of Victoria for 9d. Address and signature free. Any additional words are charged at the rate of one penny per word. Press messages are charged—10 words and under, 6d.; extra words up to 34 words, each one halfpenny; from 34 words to 100 words, 1s. 6d., and for every additional 50 words or under, 6d. After office hours private messages are transmitted from 8 p.m. till midnight, at 2s. per 10 words and 2d. for every additional word. After midnight and until 8.30 a.m. at 3s. for ten words, and for every additional word 3d. The tariff for press messages is after 7.30 p.m. to midnight, 100 words and under, 1s. 6d., each additional 50 words, 6d.; after midnight and until 8.30 a.m. at 4s. for 100 words, and 9d. for each additional 50 words. On Sundays, the charge for private messages from 8.30 a.m. until 9.30 p.m. is for ten words 2s., every additional word 2d. After 9.30 p.m. to 8.30 a.m. the charge for ten words is 3s., every additional word 3d. Press messages are transmitted at the following rates:—From 8.30 a.m. to 9.30 p.m., 100 words, 2s. each, additional 50 words 9d.; from 9.30 p.m. to 8.30 a.m., 100 words, 4s., each additional 50 words 9d. Inter-colonial charges are: to Tasmania, 2s. for first ten words, and 2d. for every additional word. Address and signature sent free if they do not exceed ten words; if over that number the extra words are charged as part of the message. To Sydney and the towns of New South Wales, except Border stations, the charge is 1s. for first ten words, and 2d. for each extra word. Address and signature are not charged for. To Adelaide and other South Australian towns (stations on the overland line excepted), 2s. for first ten words, and 2d. for every additional word. Address and signatures are not charged for. To Brisbane and other Queensland towns, 2s. for first ten words, and 3d. per word after. Address and signature are not charged for. To New Zealand, 6d. per word, address and signature forming part of the message and to be paid for. To West Australia, 3s. for first ten words, and 3d. per word after. Address and signature are not charged for. The charges for telegrams to Europe *viâ* India are 4s. 10d. per word; to North Africa *viâ* Bombay, 4s. 10d.; to East Coast of Africa direct 7s. 2d. to 7s. 10d.; Red Sea ports from 4s. 10d. to 6s. 1d.; to North America, 5s. 10d. to 6s. 7d.; to Central America, 8s. 10d. to 10s. 1d.; to South America, 8s. 4d. to 14s. 9d.; to West Indies, 7s. 3d. to 15s. 3d.; and to Asia, 3s. 10d. to 8s. 6d. The cable charges for press telegrams to England are 1s. 10d. per word. To New Caledonia each word 11d.; address and signature charged for.

Telegrams may be posted at any post-office which is not a telegraph office, when they will be forwarded to the nearest telegraph office, and transmitted thence by wire. The telegraph charge, in postage stamps, must be affixed.

Telegrams for places within Victoria must have affixed postage stamps to the value of at least ninepence. Telegrams to stations beyond the colony must be prepaid.

Telegrams, with the necessary stamps affixed, if posted in any letter receiving box or pillar, will be handed to the telegraph branch for transmission.

Telegrams posted as above may be written on plain paper and enclosed in an envelope (which need not be stamped) endorsed "Telegraphic Message only."

Telegrams to post-towns to which there is no telegraphic communication will be transmitted by wire to the telegraph office nearest thereto, and forwarded thence by post without additional charge. Telegrams for any other Australasian colony may

be directed to be sent by post from any telegraphic station in Victoria, without other charge than that for transmission by wire in Victoria, which must be fully prepaid.

The international alphabet was adopted by Victoria on August 1, 1897; this makes the signs uniform with those of most of the countries in the world.

No postage is required on telegrams to be posted from stations in neighbouring colonies.

There were, on 1st January, 1900, 417 stations in the colony, exclusive of 388 railway stations. During the year 1899, 1,813,575 paid messages were transmitted, the value of which was £62,069. This is exclusive of the number 75,477, and value £5,397, of messages O.H.M.S. The total Victorian telegraph business for 1899, exclusive of O.H.M.S., was 1,416,488 telegrams, value £62,069; gross receipts, £109,162. The number of telegrams transmitted and received between the Australian Colonies, Europe and the East was 176,863, value £542,681. There were in operation in the postal department on January 1, 1900, 9,606 miles of telegraph wire, the total pole mileage of existing lines being 3,940½.

Telegraphic Money-orders.—At all towns from which money-orders are issued, and with which the electric telegraph is connected, persons may despatch a post-office order per telegraph, on paying, in addition to the cost of the order, the sum of ninepence for transmission of the message. All that is requisite to do is simply to advise by telegram of the order having been sent, which will cost another ninepence when the receiver may apply at the post-office and get the money.

Telegraph money-orders are issued and paid at all telegraph offices in Victoria upon payment of one shilling and threepence for any sum under £5, and one shilling and ninepence for any sum not over £10; two shillings and ninepence for any sum from £15 to £20.

Pneumatic Tubes.—On the 11th February, 1893, four pneumatic tubes were laid between the Central Telegraph Office and the Stock Exchange of Melbourne; two of these were continued to the Rialto and Spencer Street station on July 25, 1900. It is intended that the system shall be continued to the suburban offices. During 1900 the tubes worked satisfactorily.

Telephone Exchanges.—On the 22nd September, 1887, the Government took over the buildings, plant, &c., of the Victorian Telephone Exchange Company, carrying on operations in Melbourne, Ballaarat, and Bendigo, and the business is being continued by the Post and Telegraph Department. The Exchange is never closed night or day, and special attention is paid to calls for and from the Fire Brigades and Police Stations. The business rates charged for the use of telephone, maintenance of wires, batteries, &c., and connection with the Exchange of one mile or under is £9 per annum; suburban ditto £9; country ditto, £7; private residence rate, £5. The subscriptions to Telephone Exchanges for 1899 amounted to £47,919, the number of subscribers being 4,409. There are also exchanges at Ascot Vale, Ballarat, Bendigo, Geelong, Warrnambool, Brighton, and Hawthorn, Footscray, Malvern, Windsor, Brunswick and Williamtown. At the beginning of 1900 there were 214·828 miles of aërial cable, 28·267 miles underground cable, and 13,591·83 miles of wire. Private telephone lines are provided and maintained for three years for an annual payment of £4 for any distance not exceeding a mile; in excess £1 per half mile. A double wire line (78 miles in length) between Melbourne and Ballarat was opened to the public on January 10, 1899, and is working satisfactorily. A double wire circuit between Geelong and Queenscliff (47 miles of wire) was constructed during 1899.

Automatic Slot Machines.—During 1899 automatic slot machines were erected by the Department, the charge being 6d. a communication. There are 17 of these bureaux.

Public Telephone Bureaux. — The Government have authorised the establishment of Public Telephone Bureaux at such places in the colony where it may be considered necessary, a fee of 6d. for a conversation of three minutes or fraction thereof being charged for trunk lines of 25 miles; 1s. for 50 miles, and 1s. 6d. for 100 miles. Fifty-two bureaux were open in January, 1899.

During 1899 the principal telephone cables in the City of Melbourne were grounded at a cost of about £3,000

Standard Zone Time.—The mean time of the 150th meridian east longitude was adopted on February 1, 1895, as the standard time for Victoria, New South Wales, Queensland, and Tasmania; of the 135th meridian (which is one hour behind the 150th meridian) for South Australia (on May 1, 1899, the standard in South Australia was altered to the 142½ meridian making Adelaide time only half an hour behind Melbourne time); of the 120th meridian (which is two hours behind the 150th meridian) for Western Australia. London time is ten hours behind that of the 150th meridian.

Postal.—The rate of postage for letters in Victoria is 2d. per ounce.* Inter-colonial (including New Zealand, Fiji, New Hebrides, and British New Guinea) letters is 2d. per half ounce. Letter cards are now issued at 2d., and post cards at 1d. between places in the colony of Victoria; reply post cards 2d; they are also available for the other Australian colonies. Post cards to the United Kingdom and foreign countries 1½d.; reply paid letter cards can be sent to New South Wales, New Zealand, South Australia, West Australia, Queensland, Tasmania, Fiji British New Guinea, and New Hebrides. To Europe (including all countries), letters per half ounce 2½d. Books are transmitted within the limits of the colony or the other Australasian colonies at 1d. for every 4 ozs. or under up to 5 lbs.; to Great Britain and all foreign countries the charge is 2 ozs. 1d. (including all countries) up to 5 lbs. Packets to places within Victoria and to the other Australasian colonies are charged, for every 2 ozs. or under, up to 4 lbs (patterns and samples up to 1 lb.), 1d.; to Great Britain and all Foreign countries, commercial papers, 2 ozs. or under, 3d.; exceeding 4 ozs. but not exceeding 6 ozs., 4d.; 6 ozs. to 8 ozs., 4½d.; 8 ozs. to 10 ozs., 5d; every additional 2 ozs. (up to 5 lbs.) 1d.; printed papers (other than newspapers), every 2 ozs. or under (up to 5 lbs.), 1d.; patterns and samples, 2 ozs. or under, 1d. (up to 1lb.) The postage on newspapers to any part of Victoria is ½d.; to the other colonies every 10 ozs., to Queensland every 2 ozs ½d., to Great Britain 1d. up to 4 ozs., every additional 2 ozs. ½d., to Europe (including all countries), each newspaper, for every 4 ozs. or under, 1d., additional 2 ozs. or under ½d. Money-orders are issued as follows:—To any post town in Victoria, sums under £5, sixpence; under £10, one shilling; under £15, one shilling and sixpence; under £20, two shillings. For the neighbouring colonies, sums under £2, sixpence; under £5, one shilling; under £7, one shilling and sixpence; above £7 and not exceeding £10, two shillings; not exceeding £12, two shillings and sixpence; not exceeding £15, three shillings; not exceeding £17, three shillings and sixpence; not exceeding £20, four shillings. Telegraph orders are charged, in addition to above rates, if drawn upon places within Victoria, 9d., if to any of the other colonies the charge for a message of ten words in addition. Orders on the United Kingdom, Canada, Cape of Good Hope, Ceylon, Hawaii, India (and its agency at Aden), Japan, Macao, Mauritius, North Borneo, Orange Free States, Straits Settlements, and United States: 6d. in the £. China, India and U.S.A only—exceeding £10, under £12, six shillings; under £15, seven and sixpence; under £17 eight shillings; under £20, ten shillings. Orders drawn on the following countries will be payable in the currency of those countries, £1 being considered equivalent to each following amount:—Belgium, Italy, and Switzerland, 25 francs 20 cents; Germany, 20 marks 40 pfen; Holland and Dutch East Indies, 12 florins; Denmark, Iceland, Norway, and Danish West Indies, 18 kroner 15 ore; Sweden, 18 kroner 12 ore; Portugal, 4,570 reis; Egypt, 97 piastres 20 paras, United States and Canada, 4 dollars 87 cents. No single order will be issued to places in Victoria, New South Wales, Qeensland, South Australia, Tasmania, New Zealand, Western Australia, China, India, and the United States of America for a larger sum than £20, and to other places for a larger sum than £10.

List of places upon which orders will be issued subject to deductions upon payment.*—Foreign countries and places:—Austria, Belgium, Bosnia, Bulgaria, Chili, Congo Free State, Denmark, Danish West Indies, Dutch East Indies, Finland, France (with Algeria), German Protected Territory, Herzevina, Holland, Hungary, Iceland, Luxemburg, Norway, Portugal (including Azores and Madeira), Roumania, Salvador, Siam, Sweden, Switzerland, Tunis, Uruguay. The German Empire includes the undermentioned States:—Anhalt, Schwartzburgh Rudolstadt, Schwartzburgh Sonderhausen, Waldeck, Reuss, Schauenburg Lippe, Lippe, Lubeck, Bremen, Hamburg, Prussia, Saxony, Heligoland, Mecklenburg Schwerin, Mecklenburg Strelitz, Hesse, Oldenburg, Brunswick, Saxe Weimar, Saxe Meiningen, Saxe Altenburg, Saxe Coburg Gotha. Foreign Cities and Towns:—Adrianople, Beyrout, Candia, Canea, Chios, Constantinople, Dardanelles, Durazzo, Gallipoli, Ineboli, Jaffa, Janina, Jerusalem, Kaiffa, Kavalla, Kerassonde, Lagos, Mitylene, Panama, Philippopolis, Prevesa, Retimo, Rhodes, Salonica, Samsoun, Santi Quaranta, Smyrna, Tangier, Trebizond Valona, Vathy, Samos. British Possessions and Colonies:—Bermuda, British Guiana, British Honduras, Cyprus, Falkland Islands, Gambia, Gibraltar, Gold Coast, Lagos, Labuan, Malta, Natal, Niger Coast Protectorate, Newfoundland, St. Helena, Seychelles, Sierra Leone, Sarawak, Zululand, Zanzibar, and West Indies, including:—Antigua, Bahamas, Barbados, British Guiana, Dominica, Grenada, Honduras, Jamaica, Montserrat, Nevis, St. Kitts, St. Lucia, St. Vincent, Tobago, Trinidad, Turks Island.*

Inland postal notes may now be obtained for sums from one shilling to twenty shillings, the fee varying according to the value of the note, from halfpenny to threepence. Postal notes are payable at all money-order offices in New South Wales, South Australia, Queensland and Tasmania.

On the 1st January, 1900, there were 1,593 post-offices. Staff of Department—2,319 persons, not on staff, 2,072. During 1899 letters and cards posted in Victoria numbered 66,436,307; newspapers, packets, and parcels, not recorded.

There were 459 money-order offices. During the year 1899 there were issued 223,335 money-orders, of the value of £681,972 an increase of £3,356 13s. 8d., or 0·49 per cent., and there were paid 280,139, of the value of £942,684, a decrease of £120,495 7s. 10d., or 11·32 per cent. There were also paid 1,228,386 postal notes, of the value of £480,214 4s. 1½d., an increase of £19,100 12s. 11d., or 4·14 per cent.; Victorian postal notes paid in other Colonies numbered 40,848; value £17,550 6s.

The commission on money-orders and postal notes amounted to £19,781 16s. 4d., a decrease of £128 16s. 6d. on 1898.

At the end of 1899 a convention was entered into between Victoria and Natal for the exchange of money-orders.

* On April 1st the Inland Penny Postage Act will come into force.

* As orders on these places cannot be paid without passing through the London office, new orders will be there issued and forwarded to the addresses of the payees, less the following charges:—For any sum not exceeding £2, 3d.; exceeding £2 but not exceeding £5, 6d.; exceeding £5 but not exceeding £7, 9d.; exceeding £7 but not exceeding £10, 1s. The full addresses of the payees must be given so that there may be no difficulty in delivery of the orders.

The total receipts of post and telegraph department were £606,957. The total expenditure of the department for 1899 was £612,855.

During 1899 257 stamp licenses were issued and 110 revoked, total number in force Jan., 1900, 2,260. The total number of adhesive stamps sold during 1899 was 76,590,247, value £598,097.

Dead letters numbering 562,996 were dealt with by the Dead Letter branch during 1899; these letters contained cash, cheques, &c., amounting to £4,899, and 233 articles of intrinsic value.

Impressed stamps issued during 1899, 10,540,070, value £75,230.

The cost of the Ocean Mail Services to Victoria in 1899 was £30,611, the receipts during the year being £30,233, showing a deficit of £378; on the San Francisco line the colony paid £1,247 3s. 4d., and received £915 18s. 8d.; (the Torres Straits Service terminated on December 31st, 1897), on the Canadian service £708 9s. 4d.

The number of letters received by the contract steamers during 1899 was P. and O., 832,621; Orient, 848,335; registers, P. and O., 29,570; Orient, 29,527; packets, P. and O., 304,433; Orient, 340,724; newspapers. P. and O., 1,285,532; Orient, 1,308,357. Despatched letters, P. and O., 769,465; Orient, 794,263; registers, P. and O. 16,287; Orient, 16,504; packets, P. and O., 316,177; Orient, 242,016; newspapers, P. and O., 1,140,493; Orient, 1,129,681. The quickest outward delivery was made by the Messageries Maritimes, Melbourne to London in 28 days 3 hours 21 minutes; the quickest inward was made by the P. & O., London to Melbourne in 29 days 13 hours 50 minutes.

During 1900 Fremantle was substituted for Albany as a port of call for the mail steamers.

On the 14th November, 1900, a conference of the permanent heads of the Australian Post-offices was held for the purpose of making arrangements for federating the Postal departments.

Victorian Inland Parcel Post.—Limit of weight of parcel 7 lbs., and of size 3 ft. 6 in. in length, or 6 ft. in girth and length combined. Postage: 2 lbs. or under 9d., each extra lb. 3d. All parcels must be prepaid by stamps affixed to label.

The postage on parcels for 1899 amounted to £9,737; the number of parcels was 192,716.

Inter-Colonial and Foreign Parcel Posts.—Limit of weight of parcel 11 lbs., of size 3 ft. 6 in. in length, or 6 ft. in girth and length combined. All postage must be prepaid by stamps affixed to the parcels. To the United Kingdom the rate is 1s. for 1 lb. and under, and for each additional pound 6d., and to other countries at varying rates. Parcel-post came into operation in New South Wales on the 1st October, 1893, and the rate is the same as to all other colonies, namely, 8d. per lb. and 6d. per additional lb. up to 11 lbs. For 1899, 90,710 British, Foreign, and Inter-colonial parcels were received and despatched, from which the Customs collected in duty £7,877.

Direct exchange of parcels between France and Victoria was established on July 1, 1900, the rates being: not exceeding 1 lb. 3s. 6d.; to Algiers and Corsica, 3s. 11d; and thence up to 11 lb. at the rate of 3d. per lb. extra.

A system of parcels insurance was brought into operation by the Postal Department on the 1st April, 1899, as between Great Britain, and certain foreign countries, New South Wales, South Australia, Tasmania, New Zealand and Victoria. Parcels passing by post between the contracting colonies will be insured against loss or damage. Particulars of the contents must be declared at the time of insuring, and the parcels must also contain an accurate copy of these particulars. The insurance rates will be according to the value of the parcels. The classification of the parcels in this respect will be as follows:—Not exceeding £10; exceeding £10 and not exceeding £20; exceeding £20 and not exceeding £30; exceeding £30 and not exceeding £40; and exceeding £40 and not exceeding £50. The inland rates for these classifications will be respectively 4d., 6d., 8d., 10d., and 1s.; the inter-colonial rates will be 5d., 7½d., 10d., 1s. 0½d. and 1s. 3d.; and the rates to the United Kingdom 6d., 9d., 1s., 1s. 3d. and 1s. 6d.

An agreement was entered into between the Postmaster-General and the Melbourne Tramway and Omnibus Company, Limited, in May, 1898, for a term of seven years, whereby for an annual payment to the company, the officers of the Department engaged in the delivery of letters and telegrams shall be allowed to travel on any of the cars of the company. The arrangement is working satisfactorily, and has enabled a speedier delivery of letters and telegrams to be effected in Melbourne and suburbs.

Railways.—All the railways in Victoria now belong to the State. The railways are comprised under the names of NORTHERN, MIDLAND, NORTH-EASTERN, EASTERN, SOUTH-EASTERN, and NORTH and SOUTH-WESTERN SYSTEMS, and in addition to them, the SUBURBAN LINES. Spencer St. and Flinders are connected by viaduct.

NORTHERN AND MIDLAND SYSTEMS (953 miles).—A line from Melbourne to Echuca (a double line as far as Bendigo), a distance of 156 miles, with the following stations: North Melbourne, Middle Footscray, Footscray W., Braybrook Junction, St. Albans, Sydenham, Diggersrest, Sunbury, Lancefield Junction, Riddell's Creek, Gisborne, Macedon, Woodend, Carlsruhe, Kyneton, Redesdale Junction, Malmsbury, Taradale, Elphinstone, Chewton, Castlemaine, Harcourt, Ravenswood, Kangaroo Flat, Golden Square, Bendigo, Huntly, Bagshot, Wellsford, Goornong, South Elmore, Elmore, Rochester, and Echuca; trains run twice a day from terminus to terminus Melbourne to Echuca, the journey occupying about six hours, by express to Bendigo 3¼ hours; the through fare is 28s. first class, and 18s. 7d. second class; return, first class, 41s. 11d., second class, 28s. This line has been extended to Deniliquin, New South Wales (45 miles), and a train connects with the morning train from Melbourne. To and from Melbourne and Bendigo there are four trains daily, which, with the exception of the express, stop at all stations. The fares are, first class, 18s.; second class, 12s. 1d.; return, first class, 27s. second class, 18s. 3d. To Castlemaine the fare is 14s. first class, 9s. 5d. second class; return, first class, 21s., second class, 14s. 3d.—A line from Bendigo to Sea Lake (137 miles), with stations at Eaglehawk, Marong, Leichhardt, Derby, Bridgewater, Inglewood, Kurting, Glenalbyn, Wedderburn Junction, Korong Vale, Wychitella, Buckrabanyule, Barrakee, Charlton, Teddywaddy, Glenloth, and Fairview, Wycheproof, Tyrrell Creek, Nullawil, Kaneira, Berriwillock and Boigbeat. There are two trains daily to Korong Vale, one through train to Wycheproof and one train from thence on Monday, Wednesday, and Friday. There is a short branch line of 4¾ miles from Wedderburn Junction to Wedderburn. A line from Bendigo to Kerang and Swan Hill (113½ miles), with stations at Eaglehawk, Myer's Flat, Sydney Flat, Sebastian, Raywood, Tandarra, Dingee, Prairie, Mitiamo, Mologa, Pyramid Hill, Mincha, Macorna, Tragowel, South Kerang, Kerang, Reedy Lake, Lake Charm, Mystic Park, and Lake Boga. A branch line from Korong Vale to Ultima (70¾ miles), with stations at Borung, Mysia, Boort, Barraport, Gredgwin, Oakvale, Quambatook, Cannie, Lalbert, and Meatian.—A branch line from Castlemaine to Maldon and Shelbourne (21½ miles), with stations at Muckleford, Maldon, and Bradford.—A branch line from Castlemaine to Maryborough, a distance of 34 miles, with stations at Campbell's Creek, Guildford, Strangways, Newstead, Joyce's Creek, Moolort, and Carisbrook. The fares from Castlemaine to Maryborough are, single, first class, 6s. 1d.; second class, 4s. 1d.; return, first class, 9s. 2d.; second class, 6s. 2d. Trains run three times daily. This line is now extended to Woomelang, a distance in all of 163 miles from Castlemaine. The stations are Simsons, Havelock, Bet Bet, Dunolly, Goldsborough, Bealiba, Emu, Carapooee, St. Arnaud, Sutherland, Swanwater, Cope Cope, Donald, Lake Buloke, Litchfield, Massey, Watchem, Morton Plains, Birchip, Kargrie, Kinnabulla, Cudjo, Watchupga and Woomelang.—A branch line from Dunolly to Inglewood, 24¾ miles, with stations at Painswick, Laurie, Tarnagulla, Llanelly, Arnold's Bridge, and Bullabul.—A branch line from Maryborough to Ararat (54½ miles), with stations at Adelaide Lead, Bung Bong, Homebush, Avoca, Amphitheatre, Elmhurst, Eversley, Crowlands, Dunneworthy, and Warra-Yadin.—A branch line from Ballarat to Maryborough, 42⅞ miles, with stations at Waubra Junction, Sulky, Bald Hills, Creswick, North Creswick, Tourello, Clunes, Talbot, and Daisy Hill. A branch line from Carlsruhe to Daylesford and North Creswick (46¾ miles), thence to Ballarat, with stations at Carlsruhe, Tylden, Fernhill, Trentham, Lyonville, Bullarto, Musk Creek, Daylesford, Sailor's Falls, Leonard's Hill, Wombat, Rocky Lead, Newlyn, Kingston, Allendale, Broomfield, North Creswick, Creswick, Bald Hills, Sulky and Waubra Junction.—A branch line from Lancefield Junction to Lancefield (14½ miles), with stations at Bolinda, Monegetta, North Monegetta, Romsey, Lancefield, with an extension to Kilmore of 18½ miles, with stations at Mount William, Goldie, Springfield High Park, and Forbes.—A branch line from Kyneton (Redesdale Junction) to Redesdale (16¼ miles), with stations at Redesdale Junction, De Graves, Edgecombe, Green Hill, East Metcalfe, Emberton, and Barfold.—A branch line from Kilmore Junction to Bendigo (69¼ miles), with stations at Leslie, Bylands, Kilmore, Willowmavin, Moranding, High Camp Plains, Pyalong, Tooborac, McIvor Road, South Heathcote, Heathcote, Derrinal, Knowsley, Axedale, Axe Creek and Strathfieldsaye.

NORTH-EASTERN SYSTEM (647¼ miles).—The North-Eastern line from Melbourne to Wodonga, 187 miles, with stations at North Melbourne, Newmarket, Essendon, North Essendon, Pascoe Vale, Glenroy, Broadmeadows, Somerton, Craigieburn, Donnybrook, Beveridge, Wallan, Kilmore Junction, Wandong, Kilmore East, Broadford, Tallarook, Seymour, Mangalore, Avenel, Monea, Burnt creek, Longwood, Creighton, Euroa, Balmattum, Violet Town, Baddaginnie, Benalla, Winton, Glenrowan, Wangaratta, Springhurst, Chiltern, and Barnawartha. The through single fares are 33s. 7d. and 22s. 4d.; the return fares are, first, 50s. 6d.; second, 33s. 7d. To Benalla, there are four trains daily, but to Wodonga only two, which connect with the New South Wales lines, extended 3½ miles to Albury on the New South Wales side of the Murray, thus placing Sydney and Melbourne in railway communication. The journey from Melbourne to Sydney by express, a distance of 576½ miles, occupies about 17¼ hours. (The connecting link between Wodonga and Albury was completed and opened in June, 1883.)—A branch line from Wangaratta to Beechworth and Yackandandah, 38¾ miles, with stations at Beechworth Junction, Londrigans, Tarrawingee, Everton, Lee's Crossing, Beechworth, and Woorragee. From Everton there is a line to Bright (35 miles), with stations at Brookfield, Bowman's Forest, Palmerston, Myrtleford, Ovens Vale, Eurobin, and Porepunkah.—A line from Springhurst to Wahgunyah (14 miles), with stations at Lilliput and Rutherglen.—A branch line from Wodonga to Tallangatta (25¼ miles), with stations at E. Wodonga, Bonegilla, Bethanga Road, Huon Lane, and Bolga.—A branch line from Benalla to Yarrawonga (40¼ miles), with stations at Goorambat, Nooramunga, Devenish, St. James, Tungamah, and Telford.—A branch line of the North-Eastern line, from Mangalore to Cobram (87¼ miles), called the Goulburn Valley and Cobram line, with stations at Tabilk, Nagambie, Wahring, Murchison East, Arcadia, Toolamba, Mooroopna, Shepparton, Congupna Road, Tallygaroopna, Wunghnu, Numurkah, Katunga, Strathmerton and Yarroweyah.—A branch line from Numurkah to Picola (20¾ miles), with station at Waaia, Nathalia and Barwo.—A branch line from Shepparton to Dookie (17 miles), and Katamatite by tramway (17 miles), with stations at Pine Lodge, Cosgrove, Dookie, Yabba South, Yabba North, and Youanmite.—A branch line from Too-

lauba to Echuca (41¾ miles), with stations at Tatura, Byrneside, Merrigum, Kyabram, Tongala, and Koyuga; one train goes on to Deniliquin.—A branch line from Murchison East to Rushworth, 13¼ miles, with stations at Murchison, Whroo Road Siding, and Waranga.—A branch line from Tallarook to Mansfield (75¼ miles), with stations at Traawool, Kerrisdale, Homewood, Yea, Cheviot, Molesworth, Cathkin, Yarck, Kanumbra, Merton, Woodfield, Bonnie Doon and Maindample.—A branch line from Cathkin to Alexandra Road (4¼ miles).—A narrow gauge (2 ft. 6 in.) branch line from Wangaratta to Whitfield (30¼ miles), with stations at Oxley, Dockers, Moyhu, and Edi, and stopping places at short distances between stations.

EASTERN AND SOUTH-EASTERN SYSTEMS (486 miles).—A line from Melbourne to Bairnsdale (170¾ miles), with stations at Richmond, South Yarra, Hawksburn, Toorak, Armadale, Malvern, Caulfield, Rosstown, Murrumbeena, Oakleigh, Clayton, Spring Vale, Dandenong, Hallam's Road, Narre Warren, Berwick, Beaconsfield, Officer, Pakenham, Nar-Nar-Goon, Tynong, Garfield, Bunyip, Longwarry, Drouin, Warragul, Bloomfield, Darnum, Yarragon, Trafalgar, Moe, Morwell, Traralgon, Loy Yang, Flynn's Creek, Rosedale. Fulham, Sale, Montgomery, Stratford, Munro, Fernbank, Lindenow and Hillside. Fares, single, 30s. 5d. and 20s. 5d.; return, 45s. 8d., and 30s. 8d.—A line from Caulfield, to Stony Point (39 miles), with stations at Glen Huntly, Ormond, McKinnon, East Brighton, South Brighton, Highett, Cheltenham, Mentone, Mordialloc, Carrum, Frankston, Langwarrin, Mornington Junction, Somerville, Tyabb, Hastings, Bittern, and Crib Point. Fares, from Melbourne, single, 7s. 10d. and 5s. 3d., return, 11s. 8d. and 7s. 10d.—A branch line from Mornington Junction to Mornington (7¾ miles), with a station at Moorooduc; fares from Melbourne, 6s. 6d. and 4s. 4d., return 9s. 9d. and 6s. 6d.—A line from Melbourne to Healesville (38¾ miles), with stations at Richmond, East Richmond, Burnley, Hawthorn, Glenferrie, Auburn, Camberwell, Canterbury, Surrey Hills, Mont Albert, Box Hill, Blackburn, Tunstall, Mitcham, Ringwood, Croydon, Mooroolbark, Lilydale, Coldstream, Yering, Yarra Glen and Tarrawarra; fares, 6s. 6d. and 4s. 4d., return, 9s. 9d. and 6s 6d.—A branch line from Hawthorn to Kew (1¼ miles), with a station at Barker's Road.—A branch line from Ringwood to Upper Fern Tree Gully (7½ miles), with stations at Bayswater and Lower Fern Tree Gully; fares, from Melbourne, single, 2s. 6d. and 1s. 10d.; return, 3s. 9d. and 2s. 9d.—A branch line from Morwell to North Mirboo (20 miles), with stations at Hazelwood, Yinnar, Boolarra and Darlimurla.—A branch line from Traralgon to Stratford (40¼ miles), with stations at Glengarry, Toongabbie, Cowwarr, Dawson, Heyfield, Tinamba, and Maffra.—A branch line from Maffra to Briagolong (12¼ miles), with stations at Boisdale and Bushy Park.—A branch line from Moe to Thorpdale (11½ miles), with stations at Coalville and Narracan.—A branch line from Warragul to Neerim South (13¼ miles), with stations at Lillico, Buln Buln, Bravington, Rokeby, and Crossover.—A line from Dandenong to Port Albert (118¼ miles), with stations at Lyndhurst, Cranbourne, Clyde, Tooradin, Koo-Wee-Rup West, Koo-Wee-Rup, Monomeith, Caldermeade, Lang Lang, Nyora, Loch, Jeetho, Bena, Whitelaw, Korumburra, Kardella, Ruby, Leongatha, Koonwarra, Tarwin, Meeniyan, Stony Creek, Buffalo Creek, Boys, Fish Creek, Hoddle Range, Foster, Franklin River, Toora, Agnes River, Welshpool, Hedley, Gelliondale, and Alberton. Fares, from Melbourne, single, 24s. 6d. and 16s. 5d.; return, 36s. 10d. and 24s. 9d.—A branch line from Korumburra to Outtrim, 6¾ miles.

NORTH-WESTERN AND SOUTH-WESTERN SYSTEMS (1,052¾ miles).—A line from Melbourne to Ballarat (74 miles), with stations at North Melbourne, Middle Footscray, Footscray West, Tottenham, Braybrook Junction, Deer Park, Rockbank, Melton, Parwan, Bacchus Marsh, Rowsley, Ingliston, Ballan, Bradshaw's Creek, Gordons, Millbrook, Wallace, Bungaree, Dunnstown, Warrenheip, and Ballarat East. There are three trains daily between Melbourne and Ballarat, *viâ* Bacchus Marsh. Fares, single, 13s. 2d. and 8s. 11d.; return, 19s. 11d. and 13s. 5d.—A line between Ballarat and Serviceton (212½ miles), where it connects with the South Australian railway, having stations at Dowling Forest, Windermere, Burrumbeet, Trawalla, Beaufort, Middle Creek, Buangor, Dobies, Ararat, Armstrongs, Great Western, Stawell, Deep Lead, Glenorchy, Walwal, Lubeck, Hopefield, Murtoa, Jung Jung, Dooen, Horsham, Pimpinio, Wail, Dimboola, Gerang Gerung, Kiata, Salisbury, Nhill, Tarranginnie, Diapur, Miram Piram, Kaniva, Lillimur, and Leeor; there are two trains daily between Ballarat and Serviceton. A line from Melbourne to Geelong (45 miles), with stations at North Melbourne, Footscray, Yarraville, Spottiswoode, Newport, Laverton, Werribee, Little River, Lara, Cowies Creek, North Shore, North Geelong; four trains daily. Fares, single, 7s. 10d. and 5s. 3d.; return, 11s. 8d. and 7s. 10d.—A line from Geelong to Port Fairy (141½ miles), with stations at South Geelong, Connewarre, Germantown, Pettavel Road, Mount Moriac, Buckley's Road, Winchelsea, Birregurra, Warncoort, Irrewarra, Colac, Larpent, Pirron Yallock, Stoneyford, Pomborneit, Weerite, Camperdown, Boorcan, Terang, Garvoc, Panmure, Cudgee, Allansford, Warrnambool, Dennington, Illowa, Koroit, Crossley, Kirkstall, and Rosebrook, two trains daily.—A branch line from Camperdown (Curdies River Junction) to Timboon (26 miles) with stations at Naroghid, Cobden, and Glenfyne.—A branch line from Birregurra to Forrest (19¾ miles), with stations at Whoorel, Dean's Marsh, Pennyroyal, Murroon, Barwon Downs, Gerangamete, and Yaugher.—A line from Geelong to Ballarat (53¼ miles), with stations at North Geelong, Moorabool, Gheringhap, Leigh Road, Lethbridge, Meredith, Elaine, Lal-Lal, Yendon, Navigators, Warrenheip and Ballarat East, 4 trains daily.—A line from Terang to Mortlake (13 miles).—A line from Irrewarra to Beeac (8¾ miles), with stations at Ondit and Kerr's Lane.—A line from Geelong (Queenscliff Junction) to Queenscliff (20¾ miles), with stations at South Geelong, Moolap, Leopold, Scarborough, Drysdale, Mannerim, and Marcus Hill; two trains daily.—A branch line from Dimboola to Rainbow (41¼ miles), with stations at Antwerp, Tarranyurk, Jeparit, Ellam, Pullut, and Rainbow.—A line from Murtoa to Hopetoun (69¼ miles), two trains each way daily to Warracknabeal, one daily to Hopetoun, with stations at Coromby, Minyip, Nullan, Sheep Hills, Kellalac, Warracknabeal, Lah, Brim, Galaquil, Beulah, Rosebery, and Goyura.—A branch line from Lubeck to Rupanyup (9½ miles), with a station at Jackson.—A branch line from Horsham to Noradjuha (20½ miles), with stations at Vectis East, Quantong, East Natimuk; a branch line from East Natimuk to Goroke (28¾ miles), with stations at Natimuk, Arapiles, St. Mary's, and Gymbowen.—A line from Ararat to Hamilton and Portland (120½ miles), with stations at Maroona, Wickliffe Road, Glen Thompson, Dunkeld, Moutajup, Hamilton, Branxholme, Condah, Myamyn, Milltown, Heywood, and Portland; there is one through train from Melbourne daily to Portland Pier. Fares, single, 45s. 2d. and 30s. 1d.; return, 67s. 9d. and 45s. 2d.—A line from Koroit to Hamilton (52 miles), with stations at Warrong, Woolsthorpe, Hawkesdale, Minhamite, Purdeet, Penshurst, Croxton East, and Yatchaw.—A branch line from Hamilton to Coleraine (23¾ miles), with stations at Bochara, Wannon, and Gritjurk.—A branch line from Branxholme to Casterton (32 miles), with stations at Miakite, Grassdale, Merino, Henty, and Sandford.—A line from Ballarat (Scarsdale Junction) to Linton (22 miles), with stations at Cardigan, Trunk Lead, Haddon, Nintingbool, Smythesdale, Scarsdale, Newtown, and Happy Valley; trains twice daily.—A line from Ballarat (Waubra Junction) to Waubra (15½ miles), with stations at Pisgah, Midas, Mount Blowhard, Learmonth, N. Learmonth, and Addington.—A line from Ballarat East to Buninyong (7½ miles), with stations at Ballarat East, Eureka, Spencer Crossing, Canadian, Mount Clear, and Mount Helen.

NORTH AND SOUTH SUBURBAN LINES.—A line from MELBOURNE to SOMERTON (14¾ miles), with stations at North Melbourne, Macaulay Road, Flemington Bridge, Royal Park, South Brunswick, Brunswick, Moreland, Coburg, Bell Park, North Coburg, Fawkner, Campbellfield, Campbellfield North, and Somerton. Fares, 1s. 3d. and 1s. 0d.; return, 1s. 10d. and 1s. 6d.—From MELBOURNE to SOUTH MORANG (19¼ miles), with stations at North Melbourne, Macaulay Road, Flemington Bridge, Royal Park, North Carlton, North Fitzroy Northcote, Middle Northcote, Croxton, Thornbury, Preston (Bell Street), Preston (Murray Road), Preston (Regent Street), Preston (Reservoir), Thomastown, and Epping. Fares: first, 1s. 8d., return, 2s. 6d.; second, 1s. 3d., return, 1s. 10d.—There is an extension of the line from South Morang to Whittlesea (9 miles), with stations at South Yan Yean, and Yan Yean. Fares from Melbourne, single, 3s. 6d. and 2s. 6d.; return, 5s. 3d. and 3s. 9d.—From MELBOURNE (Flinders Street) to WILLIAMSTOWN (10¾ miles), with stations at Spencer Street, North Melbourne, South Kensington, Footscray, Yarraville, Spottiswoode, Newport, North Williamstown, Beach, Williamstown, and Williamstown Pier. Trains run at intervals of about twenty minutes, accomplishing the distance in about forty minutes; fares are 9d. first class single, 1s. return; 6d. second class, 9d. return; monthly tickets are charged 20s. first class, 15s. second.—From MELBOURNE (Flinders Street) to PORT MELBOURNE (2¼ miles) with stations at Montague, Port Melbourne North, and Graham Street; trains leave every fifteen minutes; the fares are, first class 3d., return 4½d.; second class, 2d., return 3d.—From MELBOURNE (Flinders Street) to SANDRINGHAM (11 miles), with stations at Richmond, South Yarra, Prahran, Windsor, Balaclava, Elsternwick, North Brighton, Middle Brighton, Brighton Beach, and Hampton; through fares (Melbourne to Sandringham), 11d. single, 1s. 4½d. return, first class; 8d. single 1s. return, second class; trains run every few minutes to Balaclava during busier portions of the day, and less frequently to stations beyond.—From MELBOURNE to ST. KILDA (3½ miles) with stations at South Melbourne, Albert Park, and Middle Park; trains run every twelve minutes in the morning, every fifteen minutes in the evening, and every twenty minutes at night; fares, first class, 3½d. single, and 5½d. return; second class, 2½d. single, and 4d. return.—From MELBOURNE (Prince's Bridge) to CROYDON, 18¾ miles, with stations at Richmond, East, Richmond, Burnley, Hawthorn, Glenferrie, Auburn, Camberwell, East Camberwell, Canterbury, Surrey Hills, Mont Albert, Box Hill, Blackburn, Tunstall, Mitcham, and Ringwood. Through fares, first class, 1s. 8d., return, 2s. 6d.; second class, 1s. 3d., return, 1s. 10d. From MELBOURNE (Prince's Bridge) to KEW, which branches off at Hawthorn; station at Barker's Road; fares, first class, 5d., return, 7½d.; second class, 4d., return, 6d. From MELBOURNE (Spencer Street) to ESSENDON, BROADMEADOWS, SOMERTON, and CRAIGIEBURN, with stations at North Melbourne, Kensington, Newmarket, Ascot Vale, Moonee Ponds, Essendon, North Essendon, Pascoe Vale, and Glenroy. Fares, single, 5½d. and 4½d.; return, 8½d. and 7d. to Essendon; single, 11½d. and 8½d.; return, 1s. 5½d. and 1s. 1d. to Broadmeadows. From MELBOURNE (Spencer Street) to DIGGER'S REST, 20¼ miles, with stations at North Melbourne, South Kensington, Middle Footscray, Footscray West, Tottenham, Braybrook Junction, Albion, St. Albans, and Sydenham; fares, single, 1s. 9d. and 1s. 4d.; return, 2s. 8d. and 2s. From MELBOURNE to DANDENONG, 18¼ miles in length (being the first part of the Gippsland Line), with stations at Richmond, South Yarra, Hawksburn, Toorak, Armadale, Malvern, Caulfield, Rosstown, Murrumbeena, Oakleigh, Clayton, and Spring Vale. Fares, single, 1s. 7d. and 1s. 2d.; return, 2s. 5d. and 1s. 9d. From MELBOURNE to DARLING (*viâ* Burnley), 7¼ miles, with stations at Heyington, Kooyong,

Tooronga, Gardiner, and Glen Iris. Fares, single, 7½d. and 5½d.; return, 11½d. and 8½d. DEEPDENE TO ASHBURTON, with stations at Stanley, Henley, Riversdale, and Hartwell, connects at E. Camberwell. The Stony Point line as far as Aspendale Park is also within the suburban railway area.

A line from MELBOURNE (Spencer Street) to HEIDELBERG (12 miles), with stations at North Melbourne, Macaulay Road, Flemington Bridge, Royal Park, North Carlton, North Fitzroy, Clifton Hill, Collingwood, Northcote South, Fairfield Park, Alphington, and Ivanhoe. Fares, single, 8½d. and 6½d.; return, 1s. 1d. and 10d.

THE COMMISSIONER'S REPORT:—From the Railway Report for the year ending 30th June, 1900, it appears there were 3,218 miles of line open; 75 miles being opened during the year. The total spent on construction, including rolling stock, was £39,658,819. The amount spent in construction, &c., for the year ending June, 1900, was £602,868, being an average of £12,327 per mile of line open. The net revenue paid on the capital cost was 3·07 per cent., and on the total loan moneys expended 3·32 per cent. Total amount raised for construction from current loans, £37,665,152; the yearly interest payable on this being £1,436,413. The gross earnings were £3,025,162; working expenditure, £1,807,301; profit on working, £1,217,861. The number of passengers conveyed was 49,332,899. The weight of goods carried was 2,791,650 tons, and of live stock, 206,653 tons. The train mileage was 10,107,549 miles. The gross earnings per train mile were 5s. 11·83d., and expenditure, 3s. 6·91d. The unspent balance of loan moneys was £383,655; percentage of working expenses to revenue 59·74; revenue per average mile open, £950; expenditure ditto, £567; total number of employees in 1894-5, 10,169; in 1895-6, 9,958; in 1896-7, 9,877; in 1897-8, 10,460; 1899, 10,955; 1900, 11,665.

During the year 1899-1900 there were 38 persons killed on the railways, of whom 2 met their death by want of caution or misconduct on their own part, and 14 through trespassing on the lines, while 538 were injured. Since 1859, 1,011 persons have been killed on the railways, and 6,224 injured.

On July 1, 1896, Mr. J. Mathieson assumed duty as Railway Commissioner for Victoria.

During 1897 the last of the Melbourne and Hobson's Bay United Railway Company's Debentures, amounting to £31,900, were redeemed.

There was an increase in the total revenue for the year ending June 30, 1900, the total being £151,433 more than the previous year. The total working expenses showed an increase of £90,859 over 1898-9.

On March 14th, 1899, the Wangaratta to Whitfield narrow gauge line (30½ miles) was opened for traffic.

During 1899 the Melbourne to Collingwood line was started, and the following were opened for traffic: Birchip to Woomelang (26½ miles) on September 18th, 1899; Quambatook to Ultima (30½ miles), March 1st, 1900; Jeparit to Rainbow (18½ miles), on November 2nd, 1899. Authority having been obtained to proceed with the construction of the new passenger station at Flinders Street, the rearrangement of the station yard, platforms, &c., have been taken in hand.

Tramways.—The Melbourne cable tramway system is complete, and forms one of the largest and most perfect systems of this description of tramway in the world. In the streets of Melbourne and suburbs there are now in operation 43⅝ miles of double track for cable-power, worked by stationary steam engines located at the intersections of Bridge Road and Hoddle Street, Richmond; Brunswick Street and Victoria Parade, Nicholson and Gertrude Streets, Fitzroy; Sydney and Brunswick Roads; St. Kilda Road and Bromby Street; Chapel Street and Toorak Road; Abbotsford and Queensberry Streets, North Melbourne; Clarendon Street and City Road, South Melbourne; Johnston and Brunswick Streets, Fitzroy; Rathdown and Parkside Streets, Carlton; and 4½ miles of double track for horse-power. The total passengers carried for year ended June, 1900, was 41,661,580, and the receipts £415,024. Miles run—by omnibuses, 285,927; tramcars, 8,125,232. The amount of dividends paid was £38,400, and the balance carried forward £29,185.

The following are the tramway routes now opened for traffic: From Spencer Street to Richmond, and Hawthorn *viâ* Flinders Street, also Fitzroy, Collingwood, Clifton Hill, connecting with the Preston and Northcote Company's lines, *viâ* Bourke Street, and to Victoria Street, Kew and Collingwood and North Fitzroy *viâ* Collins Street; and to Nicholson Street *viâ* Bourke Street; from Flinders Street *viâ* Swanston Street to Carlton, and Abbotsford, also North Carlton; from Flinders Street *viâ* Elizabeth Street to Brunswick, Royal Park, Coburg, also to North Melbourne, and West Melbourne to Flemington Bridge; from Collins Street *viâ* Market Street to Port Melbourne, and South Melbourne; from corner of Lonsdale Street *viâ* Swanston Street to South Yarra, Prahran, Windsor, Balaclava, and St. Kilda; and from Queensberry Street, South Carlton, *viâ* Madeline and Swanston Streets to Toorak. Fare on one line is 2d., on all others 3d. Tram cars on the various lines are painted different colours, and show lights at night to match.

Revenue and Expenditure.—The net revenue for the year ending 30th June, 1900, was £7,450,676. The customs contributed £1,972,238; excise and inland revenue, £815,686; territorial, £375,267; public works (railways, water supply, &c.), £3,050,639; ports and harbours £24,763; general post and telegraph (does not include sale of stamps), £78,193; fees (including sale of stamps), £769,569; fines, £8,907; miscellaneous, £355,414; increase on 1898-9, £66,775. The expenditure for the year ending 30th June, 1900, was (approximate) £7,318,945. The chief items were interest and expenses of debt, £1,852,701; railways, £1,820,960; post and telegraph, £483,087; public works, £196,052; public instruction, £584,729; endowment to municipalities, £100,000; charitable institutions, £110,000; special appropriations (exclusive of interest and endowment to municipalities) £708,896; defences (local), £165,374.

The estimated revenue for 1900-1901 is £7,482,350. The estimated expenditure for the same period, £7,481,263.

Public Debt.—On the 30th June, 1900, the public debt of the colony was £49,324,884. Of this sum £37,467,278 was borrowed for the construction of railways: £5,359,649 for country water-works; £2,359,157 for Yan Yean Water-works; £1,132,013 for State school buildings; £2,756,788 for other public works, and £250,000 for revenue purposes. The payment of both principal and interest of this debt is made a primary charge on the revenue of the colony. The yearly interest on the debt varies from 3 to 4½ per cent. The interest payable during 1900-1901 is £1,864,409.

Income Tax.—This tax was levied by Act 58, Vic. No. 1374, for the first time during the year ended June 30, 1895. The number of taxpayers on June 30th, 1900, for 1900, was 30,126; 1899, 33,095; 1898, 33,051; 1897, 26,498; 1896, 27,125; 1895, 31,068. Net revenue to June 30th, 1900, for 1894-5, £179,855; 1895-6, £171,240; 1896-7, £172,501; 1897-8, £179,798; 1898-9, £173,269; 1899-1900, £192,405. The rates of tax are as follows:—Personal exertion, first £1,200, 4d. in the £; next £1,000, 6d. in the £; above £2,201, 8d. in the £. Produce of property, first £1,200, 8d. in the £; next £1,000, 1s. in the £; above £2,201, 1s. 4d. in the £.

Land Tax.—In 1900 there were 1,130 estates, having an area of 7,064,611 acres, and capital value of £11,255,222 (the municipal valuation is estimated at about £22,000,000); value of exemptions, £2,207,500; net taxable value, £9,047,722; half year's tax payable, £56,548. The tax imposed is at the rate of 1¼ per cent. per annum on taxable value.

Pensions.—The total pensions and superannuation allowances paid in 1898-9 were 2,558, and the amount paid £268,494. Special appropriations numbering 107, amount £13,020. Annual votes 84, amount £10,998. The number of police pensioners was 337, and the amount paid £39,630; gratuities 13, amount £5,095. There were 23 pilot pensions, amounting to £1,612.

Trust Funds.—For the year ending June 30, 1899, the amount at credit of trust funds was £7,159,287, invested as follows:—In debentures or inscribed stock, £1,494,277; deposited in banks, £198,851; held otherwise, £5,466,159.

Imports and Exports.—1899-1898. The Imports for the year 1899 were £17,952,894; for 1898, £16,768,904; the Exports for 1899, £18,567,780; for 1898, amounted to £15,872,246.

The principal Imports and their value during 1899 were—Apparel and slops, £186,015; arms and ammunition and explosives, £110,502; bread, biscuit and dough, £798; bags and sacks (including wool-packs), £208,731; beer, cider and perry, £102,204; bicycles, £147,489; books, £205,498; boots and shoes, £34,422; butter, £65,610; candles, £5,967; carpeting and druggeting, £64,326; coal, £276,137; coffee, £41,018; cottons piece goods and manufactured, £985,931; cutlery, £33,640; drugs and chemicals, £122,313; earthenware, brown-ware, chinaware and porcelain, £72,455; fancy goods, £78,446; fish (fresh), £14,463; preserved, £86,029; fruit, fresh, £78,833, preserved and dried, £68,875; furniture and upholstery, £82,568; glass and glassware, £77,963; gloves, £95,947; gold (exclusive of specie), £2,625,525; grain-oats, £8,600; grain-wheat, £20,332; grain, other, £7,786; haberdashery, £275,242; hats, caps and bonnets, £50,451; hides, skins and pelts, £335,899; hops, £29,362; hosiery, £158,775; iron and steel (raw or partly manufactured), £359,696; rails, £89,911; jewellery, £41,370; leather, £120,437; leatherware (including saddlery and harness), £19,273; linen piece goods, £46,769; cattle, £144,238; horses, £181,919; sheep, £439,530; pigs, £1,529; machinery (agricultural and implements), £129,212; matches and vestas, £18,327; frozen mutton, £47,565; musical instruments, £62,093; oil of all kinds, £245,152; oilmen's stores (including pickles, sauces, &c.), £44,921; opium, £12,697; paints and colours, £80,895; paper (including paper bags), £254,404; sewing machines, £36,491; silks, £334,037; specie, £61,849; spirits £263,017; stationery, £44,451; sugar and molasses, £683,717; tea, £335,942; timber, £441,298; tobacco, cigars, snuff, £226,554; tools and utensils, £52,945; watches, clocks and watchmakers' materials, £55,596; wine, £41,871; wool, £2,357,059; woollens and woollen piece goods, £609,689.

The leading exports during 1899 were—Apparel and slops, £149,800; bark, £22,772; bones and bone-dust, £9,743; books, £89,023; boots and shoes, £51,929; butter, £1,404,830; cheese, £15,717 candles, £4,612; coffee, £12,746; biscuit and bread, £44,947; gold (exclusive of specie), £197,642; grain-oats £38,230; grain-wheat, £1,252,131; gram, other, £25,438; hay, straw and chaff, £257,526; hides, £13,135; horns and hoofs, £1,851; leather, £314,283; live stock, £352,137; machinery (agricultural and implements), £116,962; meats, fresh beef and mutton, £1,063, frozen beef, £22,002, frozen mutton, £229,534, frozen rabbits and hares, £116,726, preserved rabbits, £35,452; oil of all kinds, £108,515; potatoes, £33,639; skins—sheep, £406,213, rabbit, £65,625; soap, £14,548; spirits, £76,948; stationery, £37,104; sugar and molasses, £154,970; tallow, £141,334; tea, £160,929; timber, £23,602; tobacco, cigars and snuff, £84,649; wine, £57,492; wool, £5,701,410; woollen and woollen piece goods, £53,972.

The total value of the products of the colony, comprising gold wool, tallow, hides, breadstuffs, minerals, bark, and timber, manufactures, &c., exported in 1899 was £14,038,600; in 1898, £11,778,833.

Primage duties were abolished in 1896-7.

The value of goods exported for drawback during 1899 was £508,560, and the amount paid as drawback was £97,962.

The total net customs duties and revenue collected in 1899 amounted to £2,305,781; in 1898, £2,293,338.

Stock Tax.—1897-1898-1899. During 1897 the stock imported number 731,586, on which duty was paid 313,386; revenue £60,360. In 1898 the figures were, stock imported 979,610: number on which duty was paid 607,557, revenue £101,726. In 1899 the figures were, stock imported 1,083,478, on which duty paid 678,309, revenue £90,019.

Coins and Accounts.—The coins in circulation are in all respects the same as those used in the United Kingdom, though the farthing is very rarely used. Accounts are kept in sterling money, £ s. d.

Weights and Measures.—The weights and measures used in the Colony of Victoria are the same as those used in the United Kingdom.

Explosives.—The Annual Report of the Chief Inspector of Explosives shows that in 1899 there were 116 private magazines under license for storage of gunpowder and detonators, and 21 Government magazines. The number of premises licensed to sell explosives in 1899 was 2,251. There were 8 licenses in force for factories for explosives, and 2 fireworks factories. The importations of explosives for 1899 are stated as follows:—Dynamite, 4,900 lb., value, £193; gelatine dynamite, 968,730 lb., value, £71,320; sporting powder, 90,115 lb., value, £4,111; blasting gelatine, 90,350 lb., value, £8,647; blasting powder, 236,435 lb., value, £3,741; mealed powder, *nil*—an increase of 58,050 lbs. on the previous year's importation; caps, cartridges, detonators, and fuses amounted to £12,153. Amorces is being manufactured in the colony. Total revenue from licenses, &c., amounted to £3,320.

Shipping.—During the year 1899 there were entered inwards 2,024 vessels, of 2,662,792 tons, manned by crews of 92,397, of which 1,969 vessels of 2,296,679 tons were British and British Possessions; outward clearances, 2,031 vessels, of 2,678,663 tons, with crews numbering 93.196; of which 1,879 vessels of 2,319,007 tons were British and British Possessions.

In 1899 there were 5 vessels built; the vessels registered numbered 12, of 8,711 tonnage, and 140 men. The vessels on the register at the end of 1899 numbered 381, viz.—148 steamers and 233 sailing vessels. The former measured 60,964 net tons, and the latter 37,837. Total men employed thereon, 2,942.

In 1899 108 licenses were issued to lighters and 870 to boats. The former were to be employed in the conveyance of goods, and the latter for ferry, passenger, and other purposes.

Vid Suez Canal, to and from the Colony, 88 vessels of 300,181 tonnage were entered, and 106 vessels of 344,149 tonnage cleared.

Public Libraries, &c.—The Public Library in Melbourne is the finest institution of its kind in Australia. Among interesting historical documents are Batman's Journal, Log Book of the *Lady Nelson* (1801), MS. Letter Book and Log of Captain Flinders, the MS. newspapers published by Fawkner, the deed between Batman and the Port Phillip natives, and charts, maps, La Trobe MSS. and prints belonging to Captain Cook. It was patronized during the year 1899 by 352,419 readers. The reading room is illuminated with the electric light. The total cost of erection of building to the end of 1899 was £188,191; the amount of aid received from Government, £690,458, and the estimated value of total contents, £253,000. The Public Library was founded in 1853 and the management was from the first placed in the hands of Trustees appointed by the Governor in Council. The Trustees were incorporated by an Act of Parliament passed in 1869, which, amongst other things, provided that there should not be less than fifteen at any time, and gave the Trustees the power to make rules and regulations for the management of the Institution. The Institution comprises a Library, National Gallery (including Picture and Sculpture Galleries and Art and Ethnotypical Museums), Technological Museum and National Museum of Natural History. Each section is under the management of a Committee subject to the control of the Trustees. The whole funds are provided by the Government. The Reference Library contained, at the end of 1899, 545,852 volumes, pamphlets, and parts (volumes only 147,479). Every department of literature, science and art is represented, and in the number and character of its works the library stands foremost amongst similar institutions in the Southern Hemisphere.

A Lending Branch was opened on August 8, 1892. The books (of which there are over 16,000 volumes) are lent out for fourteen days to any person who is a ratepayer in any municipality in Victoria, or to any person who is not a ratepayer on furnishing a guarantee by two ratepayers. The Lending Library was opened under what is known as the Indicator system, and borrowers were not allowed access to the shelves. This system has now been altered, and borrowers are given access to the books, which have been classified on the Dewey Decimal system. In January, 1900, there were 5,474 active borrowers on the rolls, and the number of issues during 1900 was considerably over 100,000.

The National Gallery collection, under the same roof, was commenced in 1864, and in that year consisted of seventeen paintings, which were exhibited in the northern end of the reading-room. From that time the collection has gradually increased till it now contains 440 oil paintings, besides large collections of water-colour drawings, engravings, photographs (1,351), statuary and other works of Art (3,455). The number of students during 1899 was—School of Painting, 12 males, 15 females; School of Design, 25 males, 53 females.

A system of inter-colonial exchange of pictures was inaugurated on Sept. 1, 1894, through the instrumentality of the Trustees of the Melbourne National Gallery. Each loan collection consisted of six of the best pictures belonging to the galleries of Sydney, Adelaide and Melbourne, and remained on exhibition for a few months, and was then replaced by a similar collection. The system of exchange has been discontinued for a time, but it is anticipated that it will be renewed as the different Galleries make additions to their collections.

The Ethnological Museum is one of the most attractive features of the institution, and contains a fine collection of specimens from the South Sea Islands. The collection of weapons, articles used in tribal ceremonies, and other objects illustrative of the customs of the Australian aborigines has recently been very largely increased, and has been re-classified and described.

The Technological Museum contains some 50,000 specimens, but it has been found impossible from lack of space to display the whole of this valuable collection. During the year 1899 the contents of the Natural History Museum were removed from the University to the Public Library buildings, and were re-classified and arranged under the direction of Professor Baldwin Spencer, the Honorary Director of the Museum. Additional buildings for this Museum are now in course of erection in Russell Street and it is hoped that these will be ready for occupation during the present year.

The number of visits to the Institution, exclusive of the Lending Library, during the year 1899 was 506,769.

The Patent Office has a free library of over 7,000 volumes. About 400 models of patented inventions may also be seen.

The Supreme Court Library, free to members of the legal profession, contains 53,326 volumes, and the expenditure from the commencement has amounted to £43,150. This library has 18 branches in the assize towns of the colony.

All the leading towns have either a public library or a mechanics' institute. On 1st January, 1898, these numbered 419. The total number of volumes in the various libraries on Jan. 1, 1898, exclusive of those in the Public Library in Melbourne, was nearly 597,608; to several of these local libraries books are periodically lent from the Public Library.

In April, 1896, meetings were held in Melbourne of those interested in the formation of a Library Association of Australasia. A constitution was adopted and the Association formed, with the Hon. James Norton, LL.D., M.L.C., New South Wales, as President, and Mr. H. C. L. Anderson, principal librarian, Public Library, N.S.W., as Secretary. Branches of the Association have been formed in Victoria, New South Wales and South Australia. The first meeting of the Association was held in Melbourne. The second meeting of the Association was held in Sydney in October, 1898. Representatives from nearly all the colonies were present. A Loan Exhibition of rare books and literary curios was held in the Great Hall of the University. The constitution was amended, and it was decided to hold the next meeting of the Association in Adelaide in the year 1900. Mr. J. R. G. Adams, Public Librarian of South Australia, was elected honorary secretary.

Manufactures.—On October 1, 1896, there came into force probably the most advanced Factories and Shops Acts in the world. In it, for the first time, a determined effort was made to cope with the "sweating" evil in various manufacturing industries. Some important features of the Act are that provision is made for the appointment of special boards to fix the lowest price or wage to be paid; these boards (with the exception of the Furniture Board appointed by the Governor in Council) are elected by the employers and *employés*; no person can be employed at less than 2s. 6d. a week (the taking of premiums, directly or indirectly, to evade the law is prohibited); inspectors can prosecute occupiers of insanitary factories; no boy under 16, or woman or girl, can be employed in a factory more than ten hours on any day; sitting accommodation must be provided by shopkeepers; no boy under 16 and no woman or girl can be employed in a shop for more than five hours without a meal; every *employé* in a shop must be allowed a half-holiday on some day of the week; all furniture made in Victoria has to be stamped with the maker's name and address, and whether made by Chinese or European labour; delivery of milk is prohibited after the hour of twelve noon on Sunday. The Chief Inspector of factories reports that "On the whole there can be little doubt that the advantages far outweigh the disadvantages, the most serious of the latter being, in fact, due to the want of piece-work rates, based on the minimum wage, were determinations of Special Boards are in force, so that slow, old and infirm workers can obtain work."

The Chief Inspector of Factories reports a large increase in the number of persons employed in factories and work-rooms. He also indicates the necessity of some form of Workmen's Compensation Act to meet the case of workers injured through no fault of their own.

The number of manufactories, large and small, according to the returns issued in July, 1900, including flour mills, breweries, distilleries, woollen mills, brickyards, potteries, soap and candle works, tobacco and cigar factories, tanneries, fellmongeries, and wool-washing establishments, was 3,027, employing 44,041 males, and 16,029 females, and 1,267 steam, and 633 gas and oil engines, 10 electric engines, 18 water, 6 wind, 101 horse, and 1,022 manual: of 33,046 h.p., actually used, the machinery and plant being of the value of £4,632,629; the land (purchased), £2,867,413; and the buildings, £4,471,698. Among the industries may be enumerated the following manufactories, foundries, &c.:—Malt, 16; bone-milling, &c., 18; tanning, fellmongering, wool-washing, 92; chaff-cutting, corn-crushing, 173; saw-milling, forest, including 1 timber seasoning, 109; boiling down, &c., 19; bacon curing, 26; butter, cheese, including one butterine, 213;

creameries, 382; confectionery, 15; flour, 76; jam, pickle, sauce, vinegar, 21; aërated waters, &c., 127; brewing, 52; distilling, 9; coffee, chicory, cocoa, chocolate, spice, &c., 11; tobacco, cigar, snuff, 15; clothing, tailoring, 206; dress-making, millinery, 177; underclothing, shirt, 40; hat, cap, 20; boot, shoe, 105; upholstery, bedding, flock, 19; cabinet, including billiard table, 60; looking-glass, &c., 10; brush, broom, 12; brick, pottery, 100; stone and marble sawing, &c., 29; coach, carriage, waggon, &c., 170; saddle, harness, 45; saw-moulding, joinery, &c., 56; wood-carving, turnery, 17; cooperage, 18; soap, candle, 22; agricultural implement, 57; engine, machine, iron foundries, 177; sheet iron, tin, 41; brass, copper, including gasalier, &c., 27; goldsmithing, gold-beating, &c., 40; electric light, 10; gas, coke, 46; printing, lithographing, paper bag, 193; account-book, stationery, including india-rubber stamp, 14; chemical, 19; blacking, blue, washing-powder, &c., 10. The foregoing list only includes factories which run into double figures. There were 92 establishments used as tanneries, fellmongeries, and for wool-washing, employing 64 steam engines of 869 h.p. and 1,693 hands; the number of hides tanned during the year was 415,249—sheep-skins 1,172,756, calf-skins 180,345; the approximate value of machinery and plant was £87,220, of lands £43,040, and of buildings £111,160. Breweries 52, employing 1,139 males and 4 females, 50 steam-engines, 2 horse, of 833 h.p., brewing 15,311,957 gallons of beer; value of machinery and brewing plant £189,590, of lands £447,885, and of buildings, £281,265. Woollen mills 8, with 8 engines, steam, 1,150 h.p., number of hands employed, 483 males and 434 females; value of machinery and plant, £164,070, lands £5,960, and buildings £61,880. The cloth and tweed and flannel produced during the year was 1,051,832 yards and 1,108.183 yards respectively, 33,427 pairs of blankets, and 3,200 shawls, from 2,867,884 lbs. of wool, and 154,388 lbs. cotton. Brickyards and potteries 100, employing 28 steam engines (1 gas engine) of 874 h.p., and 66 h.p. machines, and employing 1,288 males and 17 females. There were made 80,898,700 bricks, and pottery to the value of £27,515; value of machinery and plant £82,420, lands £64,250 and buildings £83,280. There were 22 soap and candle works, employing 17 engines of 570 h.p. and 438 hands, the value of machinery and plant being £105,145, lands £48,950, and buildings £67,590. There were produced during the year 125,082 cwt. of soap, and 45,848 cwt. of candles. There were 15 tobacco, cigar and snuff factories, with 5 steam engines and 3 gas of 118 h.p., employing 547 males and 494 females, value of machinery and plant being £76,550, and lands £47,555; the year's produce was 1,191,327 lbs. of tobacco, 9,279,920 cigars (including 2,336,960 cigars made by £5 licensees), 85,496,880 cigarettes (including 535,080 cigarettes made by £5 licensees), and 782 lbs. of snuff; 1,309,067 lbs. imported leaf and 306,728 colonial leaf was used. There were 9 distilleries, employing 6 steam engines, of 163 h.p., and 134 hands, the approximate value of machinery and plant being £64,030, lands £24,540, and buildings £56,820. During the year there were distilled 448,680 gallons of spirits, 27.297 gallons of wine brandy were manufactured, and 387,420 gallons of other spirits.

The number of Stone Quarries was 67, giving employment to 415 hands. There were 15 steam engines used, of 182 h.p. The approximate value of machinery and plant was £17,125, of lands £14,375, and of buildings £525.

Collieries 3, h.p. 370, hands 914 (510 miners), value of machinery and plant £31,850; coal raised 243,657 tons, value at pit's mouth £103,680.

The number of Butter and Cheese Factories was 195, steam engines in use 182, gas 7, water 1, horse 5, of 1,302 h.p., employing 859 males, 17 females; value of plant £192,310, of lands £17,080, of buildings £105,560. The butter made amounted to 29,676,097 lbs.; cheese to 2,170,405 lbs. In addition to the butter and cheese made in factories there were 7,193,450 lbs. of butter and 2,108,199 lbs. of cheese made on farms throughout the colony.

The Bacon Cured amounted to 6,898,711 lbs. in factories, 1,795,372 lbs. on farms; total 8,694,083 lbs.

Frozen Meat works froze 215,639 sheep, 398 cattle, 3,014,240 rabbits, and 22,962 poultry in 1898. Meat preserved: 349 cwt. beef, 2,790 cwt. mutton, and 22,687 cwt. rabbits.

Timber sawn from Victoria logs only, 37,698,486 super feet, value £104,734.

Description of Hands Employed.—4,652 working proprietors, managers, and overseers; 1,777 accountants, clerks, collectors, and travellers; 41,511 workers in the factory; 418 workers at home; 1,238 engine-drivers and firemen; 1,902 carters; 2,701 labourers; and 579 others.

The Minimum Rate of Wages has been fixed by 5 out of the 6 Special Boards appointed as follows: For Baking Bread 1s. per hour. For persons employed in Making Men's and Boys' Clothing 7s. 6d. per day for males, and 3s. 4d. for females; there is also a comprehensive log of piece-work rates. For making Boots and Shoes 7s. per day for males; 3s. 4d. per day for females; there is also an extensive log of piece-work rates. For females making Shirts, Pyjamas, &c., 4d. per hour; also a scale of piece-work rates For making Furniture 1s. per hour or 8s. per day of eight hours for males and 3s. 4d. per day for females. For making Underclothing 4d. per hour or 16s. per week of 48 hours, with piece-work fixed by employers, provided it allows an average worker to earn 4d. per hour.

Fisheries.—As an industry fishing employed during the year 1899 1,090 men with 702 boats, which with nets and other gear were valued at £28,275. During the year the quantity of fish delivered at the markets in Melbourne and Ballaarat was 5,028 tons, and the approximate value, £53,757. The Gippsland Lakes, Port Albert, Queenscliff, Western Port, Port Melbourne, Portland, and Port Fairy provided the greater portion of the supply. The quantity of crayfish delivered at the above markets was 14,251 dozen, of the approximate value of £4,819. Fishing was carried on in vicinity of Bass Strait islands, the quantities of fish received therefrom being 92 tons, of the value of £1,018. The quantity of fish imported which passed through the above markets amounted to 952,504 lbs., which was valued approximately at £15,875.

Patents, &c.—The patent term is limited to fourteen years from date of application. The Government fees are as follows:—On filing provisional specification, £1; on filing complete specification, £3 (including £1 fee for letters patent); on giving notice of objection (two fees), £1 5s.; at or before expiration of third year, £2 10s.; do., seventh year, £2 10s.; on presenting petition for extension or confirmation, £1; for all searches, &c., 1s.; entry of assignment or license, 10s.; filing memorandum of alteration, &c., £1; entering any caveat, £2 10s.; on giving notice of appeal, £2 2s.; copies, 6d. per folio; summons to witness, 1s.

Trade-Marks.—On application, 5s.; on registration, £1; certificate, 5s.; renewal fee, fourteenth year, £1.

Copyrights.—Registration fees: Designs, 10s.; book, 2s. 6d.; sculpture, painting, or drawing, 5s.; engraving or photograph, 1s.

In 1899, 1,012 applications for patents were filed, also 384 copyrights were registered, of which 49 were designs, 252 literary, dramatic, and musical; and 83 works of sculpture, paintings, drawings and photographs. There were registered during 1899 399 trade marks out of 497 submitted for registration.

Reciprocal arrangements have been entered into between the Victorian and New Zealand Governments for the protection of patents taken out in either colony. Under the provisions of the Act in question any person taking out a patent in the one colony will be entitled to protection in the other colony in priority to other persons. The patentee is required, however, within six months to make good his protection by applying for a patent for his invention in the other colony.

Mint.—A branch of the Royal Mint was opened on 12th June, 1872. Up to 31st December, 1899, 22,413,389·12 ozs. of gold, valued (at £3 17s. 10½d. per oz. standard) at £88,708,701 10s. 10d. had been received at the Mint, and gold coin and bullion issued of the value of £88,705,676 4s. 3d. During the year 1899 872,741·89 ozs. of Victorian gold, and 507,071·70 ozs. of West Australian gold were received at the Mint, the total received for the year from all countries being 1,520,739·04 ozs. The revenue for the year 1899 was £25,145 5s. 7d. No silver or bronze coin is struck at the Melbourne Mint, though negotiations have been proceeding to enable Victoria to strike silver coin. At present the Melbourne branch receives supplies of the other coinage from the Royal Mint, London, as required, which is delivered to the public free of all charge for coinage, freight, &c. During 1899 the Royal Mint, London, issued £8,520,311 in gold coin, £1,615,850 in silver, and £139,065 in bronze, and also a very large issue of coloured subsidiary coin. During the eight years 1892-99 withdrawals of light gold have amounted to £38,862,212, and the new issues to £53,550,881, a net addition to the gold currency for the period of £14,668,069.

Banking.—The liabilities of the eleven Banks doing business in Victoria on June 30, 1900, were £31,818,272, including £939,242 notes in circulation; deposits bearing interest, Government £2,690,778, others £14,469,122; assets amounted to £41,375,224, including £6,117,484 coined metal, and £2,871,031 in landed and other property. The rate of interest allowed depositors for twelve months was 3 per cent.

Savings Banks.—Prior to 1st October, 1897, there were two classes of Savings Banks in Victoria—the Commissioners' Savings Banks and the Post Office Savings Banks; the former were established in 1841 and the latter in 1865. These two institutions have now been amalgamated by Act of Parliament passed in December, 1896, and are now under the management of the Commissioners, all deposits being guaranteed by the Government. The total deposits and depositors in the banks, according to the latest published figures, were as follows, at 30th June, 1900:—Amount of deposits, £9,110,792 16s. 8d.; number of depositors, 375,070. Interest is allowed at 2½ per cent. on sums up to £100, and 2 per cent. for excess over £100 up to £250.

Loans to Farmers.—The Act of 1896 also provided for the Commissioners making advances to farmers on the "Credit Foncier" system, repayable by annuities spread over 31½ years at 6 per cent., including interest at 4½ per cent.; business is to be conducted by a separate department called the "Advances Department," and the money for the advances must be raised by selling mortgage bonds bearing interest not exceeding 3½ per cent., and guaranteed by the Government. The total amount of bonds sold up to 30th June, 1900, was £990,475 at 3 per cent. £84,550 has been redeemed, leaving £905,925 worth of bonds current, of which Savings Bank Department holds £760,850, the balance being held by the public. The number of loans granted to 30th June, 1900, was 2,516, for a total sum of £1,106,905, or an average of £439 18s. 11d. each, and of this £973,485 had been actually paid over to borrowers, the balance being in course of settlement. The system had been tested by the Commissioners before the Act was passed in 1896, as they had been lending to farmers since 1894 under the old Act, the balance of amount so lent being £117,418 2s. 11d., on 30th June, 1900. The new Act limits the "Credit Foncier" loans to £2,000,000, and as the amount of Bonds issued must not at any time exceed the loans by more than £25,000, the Commissioners issue on the second Monday of each month a sufficient amount of Bonds to cover the advances made to farmers in the same period.

Lighthouses on the Coast of Victoria.—Cape Nelson, a fixed red and white light, a first order dioptric, visible 19 miles; Portland on Whaler's Point, a fixed green

fourth order catadioptric, visible 12 miles; Port Fairy a fixed and flashing fourth order dioptric light, exhibits a red flash every three minutes, visible 9 miles; Warrnambool, two lights, upper one fixed white, fourth order dioptric, visible 14 miles, lower fixed red, visible 5 miles; Cape Otway, a first order dioptric light showing white flashes in groups of three every minute, visible in clear weather 24 nautical miles; there is also a red danger light shown 48 feet below existing light; this light is cut downwards, and is obscured when approaching from seaward until 4 miles distant from the lighthouse, the light bearing N. by W., and will be visible until run out at 8 miles distant on a course bearing W. by S., or E. by N. In hazy or misty weather mariners should not rely upon sighting the red light, but should keep a good offing; Point Lonsdale, a fixed red and green light, fifth order dioptric, visible at 10 miles; Queenscliff (high lighthouse), a fixed white light, catadioptric, second order, visible 17 miles: Queenscliff (low lighthouse), a fixed red and white light, third order dioptric, white light visible 14 miles, and red light visible 10 miles; Cape Schanck, a fixed and flashing white light, catadioptric, first order, showing a bright flash of ten seconds duration, every two minutes, visible 23 miles; Wilson's Promontory, a fixed white light, first order catoptric, visible 24 miles; Cliffy Island, a third order dioptric flashing light, showing red, and giving five flashes and eclipses alternately in every minute, visible 15 miles; Gabo Island, a first order catadioptric fixed white light, visible 20 miles. Cape Everard, a first order holophotal double flashing white and red light, showing a double flash every thirty seconds, the white light visible in clear weather 21 nautical miles; an auxiliary red light, to cover outlying dangers, also is exhibited from a lower portion of the main lighthouse tower, and will illuminate an arc of 188 degrees to seaward. Such light will be invisible to an observer, 14 feet above the level of the sea, from seaward until within about two miles distance from the shore. Eagle Nest or Split Point, a first order dioptric fixed red light, visible in clear weather 18 nautical miles, and an auxiliary white light invisible to an observer 14 feet above the level of the sea until within about 3 miles distance from the lighthouse. A red auxiliary light illuminating an arc of 180 degrees seaward is also exhibited from the base of the main lighthouse tower at Cape Nelson, Cape Schanck, and Gabo Island. Such lights will be invisible to an observer 14 feet above the level of the sea until about three miles distant from the respective lighthouses. In hazy or misty weather mariners should not rely upon sighting the red light, but should keep a good offing.

Lighthouses and Lightships inside Port Phillip Bay.—West Channel Pile Light, a fixed red and white light, third order dioptric, visible 11 miles; the Swan Spit Lightship was removed in 1894, and a gas buoy painted black, showing red occulting light, elevated above the water; 22 ft. 6 in. has been placed in lieu thereof; gas-buoys, exhibiting lights elevated 10 feet above the water, have also been established at Nos. 2 and 12 buoys, West Channel, No. 2 buoy showing an occulting white light, visible five miles, and No. 12 buoy, a fixed white light, visible five miles; South Channel (land light) a fixed red and white light, third order dioptric, visible 13 miles; South Channel (pile light), a fixed red and white light, fourth order dioptric, visible 10 miles; two gas-buoys, painted red and moored 5½ cables apart, have been placed north of the South Channel pile light to mark the south side of the dredged channel; the westernmost buoy shows a fixed white light visible five miles, and the easternmost a fixed green light visible three miles. No. 15 South Channel buoy has been replaced by a gas-buoy showing an occulting white light visible five miles; Point Gellibrand's light vessel consists of a circular vessel painted red, and surmounted by a round iron tower painted white, fourth order dioptric fixed red light, 37 feet above sea level, visible ten nautical miles. In foggy weather a fog-horn will be sounded, and a fog-rocket fired alternately every five minutes. Schnapper Point, a dioptric fixed white light, visible ten miles. To facilitate night traffic to and from Geelong, gas-buoys and beacons have been established as follows:—Prince George's Bank (gas-buoy showing occulting white light, visible six miles); Point Richards (gas-buoy showing occulting red light, visible four miles); Wilson Spit (gas-buoy showing occulting white light, visible six miles); Hopetoun Channel, seven gas beacons, four on north side, showing white lights, visible six miles, and three on south side, showing red lights, visible four miles.

Trade Unions.—On January 1, 1899, there were seven Trade Unions, of which six furnished returns, showing a membership of 10,329 and funds amounting to £964. In 1890 there were seven Unions, with 49,613 members, and funds amounting to £38,650.

Friendly Societies.—On 1st January, 1899, there were 31 societies, having, in various parts of the colony, 1,088 branches, with average number of 86,365 members. The aggregate amount to the credit of these societies, including the Sick and Funeral Fund, and the Incidental Fund, was £1,221,210, or an average of £13 13s. per member. Total amount invested £1,173,960; the total income was £323,554, and the total expenditure £293,227. During the year 13,814 members were admitted, 9,100 left, of whom 931 died. An increase in membership of 4,714. The number of sick members was 18,693, or at the rate of 255·5 per thousand effective members, and the sick pay per effective member averaged £1 10s. 5d.; per sick member, £5 18s. 10d.

Building Societies.—At the close of the financial year, 1899-1900, later statistics not available, there were 35 building societies which furnished returns to the Government, on the Permanent and Terminating principles, having 6,645 shareholders, with a paid-up capital of £1,374,445 and the moneys on deposit were £669,797; number of borrowers 5,019. The rate of interest allowed to depositors varied from 2½ per cent. to 4½ per cent.; the total amount of advances to members during the year was £94,117. Very little building society business is being done in Victoria at present, many of the societies being in a state of virtual liquidation. During 1900 building society business showed decided improvement.

Administration of Justice.—The machinery for administering the law and hearing and decision of disputes is comprised in a Supreme Court, having a Chief Justice and five puisne judges. This court has also jurisdiction in criminal cases, in divorce and matrimonial causes, and in ecclesiastical and vice-admiralty matters. There are Courts of General and Courts of Petty Sessions; County Courts; Courts of Insolvency, Courts of Mines, Wardens' Courts for the goldfields and Courts for Licensing. Courts of General Sessions have jurisdiction in criminal cases within certain limitations, and have also appellate jurisdiction in civil cases from Petty Sessions; County Courts have jurisdiction in civil cases up to £500; Courts of Mines have jurisdiction concerning all questions or disputes which may arise out of mining on Crown lands; Courts of Petty Sessions have jurisdiction in ordinary civil cases, up to £50.

Law, Crime, Lunacy, etc.—During 1899 there were 2,355 probates issued, the property being sworn under £4,727,698; 1,286 letters of administration; property sworn under £1,192,406; duties on estates of deceased persons collected, £192,863; fees in equity, £37; fees in probate, £4,926; total collected, £197,826.

The petitions for dissolution of marriage during 1899 numbered 160; for judicial separation, 3; nullity of marriage, 1; of the first-named 105 were granted.

The insolvencies for 1899 were as follows:—Voluntary, 322; compulsory, 36; liquidation by arrangement, 0; compositions, 2; total failures, 510 (the lowest number since 1888). The total liabilities of the failures as shown by schedule amounted to £531,084; the total assets as shown by schedule, £335,164, the total deficiency being £195,920.

The Curator of Intestate Estates dealt with 223 fresh estates in 1899; 403 remained from former years; representing a total of £37,603 receipts, and £31,266 payments.

Undetected crime in 1899, 6,032; 1898, 5,899 cases. Criminals executed in 1899, 0; in 1898, 1.

Criminal cases tried during 1899, 457—felonies 322, misdemeanours, 135; convictions: 222 felonies; 86 misdemeanours; total, 308.

PENAL.—Reporting upon the penal establishments and gaols of the colony for 1899 the Inspector-General, Captain Evans, R.N., says that since 1891 there has been a decrease of the prison population from a daily average of 1,886 to 1,197 in December, 1899. The proportion of prisoners to the population at the end of 1899 was:—Males, 1·62; females, 0·32 per 1,000. Cost of maintenance and control of prisoners, and for stores, was £51,218 12s. 11d., the cash earnings of the prisoners amounting to £4 14s. 5d. per head, so that the net cost of each prisoner was £38 1s. 3d.

LUNACY.—The Inspector of Lunatic Asylums in his report for 1899, states that there was during the year a total of 4,398 lunatics under treatment, an increase of 4 on the previous year. The persons admitted numbered 785, being an increase of 65 on 1898. On January 1, 1899, the estimated population of the colony being 1,180,878, the admissions were 1 in 1,504; at the end of 1898 the proportion was 1 in 1,653. At the end of 1898 the proportion of insane to sane was 1 to every 268; at the end of 1899, 1 to 268, although there was no abnormal increase in insanity. The weekly maintenance rate per patient is 8s. 4d. Total receipts for 1899, £16,975; expenditure, 112,746.

The Public Service—The report of the Public Service Board for 1899 shows that the number of officers in the service proper was 4,946 Since 1891, when a maximum of 6,046 was reached, there has been a gradual reduction until 1898, as follows:—1892, 209; 1893, 280; 1894, 327; 1895, 277; 1896, 125; and 1897, 126; or a total reduction since 1891 of 1,344, or a little over 22 per cent. During 1899 the staffs were increased by 78. There were, exclusive of teachers, 73 officers over 60 years of age in the service on January 1, 1900, as compared with 56 on the same date of 1899. A Reclassification Board, appointed under the "Public Service Reclassification Act, 1897," submitted a voluminous report to Parliament in 1900.

Constitution.—Victoria is under the control of a Governor appointed by the British Government, whose term of office is six years, of an Executive Council, and two Houses of Legislature. The Executive consists of the Governor of the Colony, and all past and present Ministers of the Crown, but only ten members holding paid offices attend.

The Legislative Authority is vested in a Parliament of two Chambers: the Legislative Council composed of forty-eight members, returned in fourteen provinces, and the Legislative Assembly, composed of ninety-five members, returned in 84 electorates.

In the Legislative Council a property qualification is required of *members*; by The Constitution Act Amendment Act, 1890, they must for at least a year previous to election be possessed of an estate of the annual value of £100; they must also be males, 30 years of age, and either natural-born subjects or naturalized and resident for ten years; no person being a member of the Legislative Assembly, Victorian judge, minister of religion, uncertificated bankrupt or insolvent, or who has been convicted of felony or any infamous offence in British dominions, or attainted of treason, or being insane, or who is a Government contractor (except in a partnership exceeding twenty persons), or holding an office of profit under the Crown (except political officers, the President, and Chairman of Committees), is capable of becoming a member of the Council. The

tenure of seats is six years, and by the retirement of one member in each province every other year and of an additional member every sixth year in the case of six provinces a complete change in the personnel may be effected in the period of six years. No payment is received by Council members as such; the President and the Chairman of Committees, however, receive salaries as officers of the Council, and two members receive payment as responsible ministers. A member vacates his seat by resignation or loss of property qualification, absence for a session without leave, becoming foreign subject, insolvent, public defaulter, felon, being attainted of treason, becoming insane, Government contractor (except as above), or accepting an office of profit under the Crown, except the President and Chairman of Committees. *Electors* must be (*a*) possessed of property (or in receipt of profits of same) of the annual value of £10 in one province, or (*b*) lessees (or assignees) for a term originally created for five years or occupiers of property rated at £25 annually, or (*c*) joint owners, lessees, or assignees, or occupiers of property sufficient to give each the foregoing qualification, or (*d*) (resident) graduates, legal or medical practitioners, ministers, certificated schoolmasters, naval and military officers, or Melbourne matriculated students. All voters must be males, 21 years of age, and not subject to any legal incapacity, natural-born subjects or naturalized three years and resident one year previous to 1st January or 1st July in any year; only one vote is allowed in the same province. Paupers are disqualified from voting. The number of electors on the rolls for 1898–99 was 129,895, of whom 1,049 were non-ratepayers.

In the Legislative Assembly the only qualifications required of members are that they may be 21 years of age, and natural born subjects or naturalized five and resident two years; no person is eligible being a member of the Legislative Council, Victorian Judge, minister of religion, an uncertificated bankrupt, a felon convicted in British dominions, attainted of treason, insane, a Government contractor (except in a partnership exceeding twenty persons), or who is holding an office of profit under the Crown (except the Speaker, Chairman of Committees, and political officers). By an Act passed in December, 1870, Members are paid £300 per annum for "reimbursing them their expenses." In 1892-3 this was reduced to £285 for the purpose of retrenchment; it was still further reduced in 1893-4 to £270; in 1895 to £240; in the new Parliament of 1897 the members were again paid £300 per year. Seat is held for one Parliament, which is limited to three years, and is vacated by member's resignation, being absent for a session without leave, becoming foreign subject, insolvent, public defaulter or convicted of felony, being attainted of treason, becoming insane, Government contractor (except as above), or accepting an office of profit under the Crown, except the Speaker and Chairman of Committees. Manhood suffrage is the basis on which electors vote; they must be males, 21 years of age (not subject to any legal incapacity), natural-born subjects or naturalized and resident for one year prior to 1st January or 1st July in any year, and a vote is also exercisable in respect of any other electoral district in which one of the following qualifications is held: (*a* being on roll of ratepayers, or (*b*) owning land or tenements of £50 clear value or £5 clear yearly value, or (*c*) being joint owners or occupiers of property sufficient to give each the qualification. The number of the electors on the roll for 1898-99 was 252,582, of whom 44,695 were non-ratepayers.

Women are not eligible as members of, or electors for, either House of Parliament.

The Commonwealth.—The following gentlemen were elected under the provisions of the Australasian Federation Enabling Act, 1896, on March 4, 1897, to represent Victoria at the Convention, which held meetings at Adelaide, Sydney, and Melbourne, and which was charged with the duty of framing a Federal Constitution for Australasia:—George Turner, solicitor, 84,048 votes; John Quick, barrister, 72,352; Alfred Deakin, barrister, 62,654; Alfred J. Peacock, legal manager, 61,941; Isaac A. Isaacs, barrister, 56,981; William A. Trenwith, bootmaker, 55,693; Graham Berry, Speaker Legislative Assembly, 52,664; Simon Fraser, gentleman, 49,886; William A. Zeal, civil engineer, 48,119; Henry B. Higgins, barrister, 44,105. The total number of electors, including holders of electors' rights, who recorded their votes was 103,932, or about 44 per cent. of the number of electors on the rolls. The voting for the acceptance or rejection of Australasian Federal Constitution was taken on June 3, 1898. The total votes recorded numbered 123,627, out of 252,499 on the rolls; 100,520 recorded in favour of the Bill, 22,099 against, and 1,008 informal, or 48·94 per cent. of the electors on the rolls.

On July 27, 1899, a poll was taken of the electors of Victoria for the acceptance or rejection of the Federal Constitution as amended by the Australasian Federation Enabling Act, 1899, the result being for acceptance, 152 653; for rejection, 9,805.

The statutory majority required by the New South Wales Enabling Act not having been secured in that colony, the Premiers of the colonies who had been represented at the Convention, namely, New South Wales, Victoria, South Australia, Tasmania and Western Australia, with the Premier of Queensland, met in Melbourne in February, 1899, with the object of further considering and suggesting such amendments in the Commonwealth Bill as it had been passed by the Convention as seemed desirable. The Conference arrived at an agreement upon certain improvements which might be made in the proposed Constitution, and the Premiers determined to bring the Draft Bill, as now amended, before their respective Parliaments to obtain power to refer it again to the electors generally for acceptance or rejection. Enabling Bills having according been passed by the several legislatures in all the colonies except Western Australia (where the Legislative Council negatived the reference of the Bill to the people), a referendum was taken. In Victoria the voting (27th July, 1899) resulted as follows:—For acceptance, 152,635; for rejection, 9,804.

Addresses to the Queen for the adoption of the Bill in its ultimate form were carried in the several Parliaments, and, the Imperial Government having expressed a hope that delegates would be sent by the Colonial Governments to assist Her Majesty's Government in considering the Bill, the Hon. A. Deakin was sent to act with delegates from the other colonies as the representative of Victoria.

The delegates were received by the Secretary of State for the Colonies, and, after prolonged consideration on certain points in the proposed Constitution, Her Majesty's Government introduced into Parliament a Bill practically identical with that which had been accepted in Australia. The Imperial measure passed the House of Commons on the 25th June, and the House of Lords on 5th July, receiving the Queen's assent on 9th July.

A Royal Proclamation, dated from Balmoral, United Kingdom, was issued on September 17th declaring that on and after January 1, 1901, the six federating colonies—Victoria, New South Wales, Queensland, South Australia, Western Australia and Tasmania—shall bear the united name of "Commonwealth of Australia." The Right Honourable the Earl of Hopetoun, K.T., G.C.M.G., formerly Governor of Victoria, has been nominated by Her Majesty as the first Governor-General. The Federal Council of Australasia is, by the enactment of the Commonwealth Bill, abolished.

The approximate capital values of certain properties proposed to be handed over to the Federal Government is as follows:—Under customs and excise, £434,028; post and telegraphs, £1,600,717; defences, £801,868; existing lighthouses and lightships, buoys, beacons, £223,635; quarantine, £27,000; mint, £113,172; grand total, £3,200,420.

Municipal Government.—All but about 1 per cent. of the whole area of Victoria is divided into urban or rural municipalities; the former are called *cities, towns,* and *boroughs*, the latter *shires*. The municipalities have power to levy rates, and are also subsidized by the State. Their peculiar functions are to make, maintain, and control all streets, roads, bridges, ferries, culverts, water courses, and jetties within their respective boundaries; also to regulate the markets, pounds, abattoirs, baths, places of recreation, charitable institutions, sewerage, lighting, water supply, prevention of fire, and noxious trades. By the "Municipal Endowment Reduction Act, 1895," the total amount available for distribution is fixed at £100,000 per annum.

For the purposes of local self-government there were in 1900 58 cities, towns, and boroughs, and 150 shires. These municipal bodies are incorporated under the Local Government Act, 1890, and under this Act. Any district containing ratable property yielding on a 1s. rate £500 may be constituted a shire. Under the Amending Act, 1896, a district must in the same rate yield £1,500 to be constituted a shire. A borough must contain a population of inhabitants householders not less than 300 A borough with a revenue of £10,000 per annum becomes a town and with a revenue of £20,000 per annum becomes a city. The constitution and powers of these bodies are nearly identical. Every ratepayer has one or more votes, according to the amount at which he is rated. The councils may strike rates, which must not be less than 6d. in the pound, nor more than 2s. 6d.

Cities, Towns, and Boroughs.—On June 30, 1900, the estimated value of the ratable property in 58 cities, towns, and boroughs was £67,113,600; annual value, £4,670,200; estimated area, 217,561 acres; estimated population, 605,944; number of inhabited dwellings, 133,825; number of ratepayers, both sexes, 153,285. Outstanding loans from Government at end of financial year 1898, £328,596; other loans, £2,985,650; total, £3,314,246. Interest rate varies from 5 to 7 per cent. Total assets as at September, 1898, £3,039,082; total liabilities (including loans outstanding, £3,314,579), £3,840,622.

Shires.—In 150 shires the estimated value of ratable property was £102,798,300; annual value, £5,613,300. Outstanding loans from Government, at end of financial year 1898, £120,454; others, £550,614; total, £671,068; estimated area, 87,002¼ acres. Population, 577,660; ratepayers, both sexes, 154,662. Total assets as in September, 1898, £735,244; total liabilities (including loan outstanding, £671,177), £905,716.

Ratable Properties.—In 1874 there were 191,042 ratable properties in the municipal districts of Victoria, ranging from under £50 in value to £500 and upwards; in 1899 these had increased to £372,329. The total value of properties in 1874 amounted to £62,221,639; in 1899 it had reached £169,911,900. The annual value of ratable properties in 1874 amounted to £5,995,477; in 1899 it amounted to £10,283,500. From the information available it may be noted that in 25 years the number of properties with a ratable value under £50 increased by 166,418, their total value by £53,685,580, annual value by £2,282,194; £50 to £100 increased by 9,426, total value £17,842,927 annual value, £640,002; £100 to £200 increased by 3,694, total value by £12,972,659, annual value by £498,359; £200 and upwards increased by 1,749, total value by £23,189,095, annual value by £867,468. A total increase in 25 years in the number of properties by £181,287; in total value £107,690,261; and in annual value, £4,288,023.

Other Corporations.—Other functions of a special character have been delegated to boards or trusts, of which the following are the more important:—Melbourne Harbour Trust, Melbourne and Metropolitan Board of Works (water supply and sewerage of metropolis); Melbourne Tramways Trust (construction on behalf of the municipalities of cable and other tramways to Melbourne and suburbs, which have been leased to a company for a term of years); two Fire Brigade Boards; and Irrigation and Water Supply Trusts.

GOVERNMENT OF VICTORIA.

Lieut.-Governor, His Excellency Sir John Madden, K.C.M.G., LL.D., Chief Justice of Victoria, Chancellor of the University of Melbourne.

Private Secretary, Colonel F. S. Campbell.
Aide-de-Camp, Lord Richard Nevill.

MINISTRY.

Premier, Treasurer and Commissioner of Customs, The Right Hon. Sir G. Turner, P.C., K.C.M.G., M.L.A.
Attorney-General, Hon. I. A. Isaacs, M.L.A.
Chief Secretary and Minister of Labour, Hon. A. J. Peacock, M.L.A.
Postmaster-General and Minister of Public Instruction, Hon. W. Gurr.
Minister of Lands, Hon. D. J. Duggan, M.L.A.
Minister of Railways and Public Works, Hon. A. Trenwith, M.L.A.
Minister of Agriculture, Hon. J. Morrissey, M.L.A.
Minister of Mines and Water Supply, Hon. J. Burton, M.L.A.
Minister of Defence and Vice-President of Land and Works Board, Hon. W. McCulloch, M.L.C.

WITHOUT OFFICE.

Hon. E. J. Crooke, M.L.C., P. Phillips, M.L.C., Hon. S. Gillott, M.L.A., and Hon. R. McGregor.

PARLIAMENT OF VICTORIA.

LEGISLATIVE COUNCIL.

PRESIDENT—Hon. Sir W. Austin Zeal, K.C.M.G. £750.
CHAIRMAN OF COMMITTEES—Hon. Frederick Brown. £400.

Forty-eight Members. Each elected for six years. Fourteen Provinces. 129,363 Electors, including 365 non-ratepayers.

Members take the title of Honourable.

A lighter, completely equipped with the latest salvage appliances and gear.

CHAMBER OF MINES OF VICTORIA.

60, Market Street (incorporated).

President	Hon. Wm. Knox, M.L.C.
Secretary	Capt. Chas. Hallett.
Assist.-Sec. and Librarian ...	D. L. Stirling.

Objects:—To advance the mining industry of the Colony of Victoria. To direct attention to and spread information upon the mining resources of the colony in Europe and elsewhere. To support legislation beneficial to the mining industry. A branch of the Chamber of Mines has just been formed entitled, "The Legal Managers and Secretaries of Mining Companies, Victoria," and is represented on the Council of the Chamber of Mines by the chairman of the Committee, the Hon. A. J. Peacock, and the vice-chairmen, Messrs. W. Grant Mendell and W. Hay Dickson. To improve the status of Legal Managers and Secretaries of Mining Companies by combined action and exchange of opinion. To establish a representative body devoted to the mining industry, with which the Government may communicate when framing legislation affecting mining or mining companies.

GEOLOGICAL SOCIETY OF AUSTRALASIA.

60, Market Street.

President	J. Stirling, F.A.I.M.E.
Secretary	D. L. Stirling.

The objects of the Society are:—The cultivation and advancement of the study of Geology, more especially as it relates to the Australasian Colonies, and the collection of information for the compilation of a complete and reliable Geology of Australasia. For the purpose of promoting a Geological Library and Museum. To help Geologists to explore unknown parts.

AUSTRALASIAN INSTITUTE OF MINING ENGINEERS.

60, Market Street.

President	Hon. W. Knox, M.L.C.
Secretary	A. S. Kenyon.

Objects:—The objects of the Institute are to promote the arts and sciences connected with the production and utilization of minerals and metals, and the welfare of those employed in connection therewith, by means of meetings for the reading and discussion of papers and for social intercourse, and by means of publications for circulating amongst its members the information thus obtained. *Meetings*: Annual and one or more ordinary meetings. Ordinary meetings are held alternately in the different Colonies at least once a year, when papers are read and discussed, and excursions take place. This meeting lasts about one week. *Publications*:—(1) *Transactions*, one volume published annually containing papers read before the Institute, with discussion thereon; (2) Proceedings. *Note*.—The members of the New Zealand Institute of Mining Engineers have during 1900 wound up that Institute and joined the above Institute in a body.

Machinery, not otherwise enumerated, ad val. ...	25 per ct.
Engines, of all kinds, not otherwise enumerated, ad val.	30 per ct.
Metals—Manufactures of machines and machinery, viz. :— Anchors, anvils, balances (spring, to weigh up to 3 cwt.); bands, curtain; bar, not machined and in the rough; bell fittings, bells, 6 inches and under; bits (for harness); blocks and types, printers'; blowers, for ventilating mines; metal foundry used in the manufacture of furniture; breast drills; bucket and kettle ears; bushes, patent roller, for blockmaking; buttons; caps, percussion; carriage bolts ⅝ths of an inch in diameter and under, and 4 inches in length and under; holloware, iron, being oval boilers, camp ovens, digesters, kettles: brazing, fry, maslin, preserving, sauce, and stew pans: Danish, French, glue, oval, plumbers', stock, and three-legged pots: tea kitcheners or fountains, and gridirons; chains; chains, curtain; cloth, wire, over 36 mesh; concentrators for mining purposes; copper and copperware, being prepared plates for engravers and lithographers, silver-plated sheet, perforated sheet, rivets, washers, cornices in piece; crucibles; detonators; door-fittings (except handles and plates); engines (traction); firearms; fittings, electric, viz., arc lamps without globes, carbons, incandescent lamps, automatical resisters, transmitters or transformers, and storage batteries; gate fittings (except hook-and-eye, strap and T hinges); hames, handles (trunk); hinges, except hook-and-eye, strap, and T; hooks (brass); hooks, cornice; hooks, curtain; hoop, not machined and in the rough; instruments (optical, scientific); iron, angle and T; iron, sheet, corrugated; irons, box and sad; irons, stirrup; knives, chaffcutter; knives, reaping-machine; latches; lightning conductors; locks; machinery for carding, spinning, weaving, and finishing the manufacture of fibrous material, and cards for such machinery; machinery for telegraphic purposes; machinery used in the manufacture of paper and for felting, including wire cloth and felts; machines, printing, and printing presses; machines, sewing; machines, viz., button making, eyelet, knitting, sheep-shearing, stitching, dairy refrigerators and separators; machines known as centrifugal cream separators (NOTE.—Exemption of machines does not apply to the motive power thereof, if any); meters, gas, internal fittings of, when imported in parts not put together; mortars and pestles; netting, wire, galvanized, machine-made; pig; pins, gimp; pipes and tubes, viz., brass-cased, brazed, solid-drawn, welded, and fittings—iron, screwed for wrought-iron pipes; plates, not machined and in the rough; plates, circular, for the manufacture of saws; plates, prepared for engravers and lithographers; pneumatic tyres, parts of, being valves, wires, and rims; pneumatic tyres, inflators for; primers; pulleys under 4 inches; rails, tram and railway; reaping-machine knives; rings, curtain; rivets; rod, not machined and in the rough; saws of all kinds, but not the machinery connected therewith (if any); scales, to weigh up to 3 cwt.; scrap; screwhooks, eyes and rings; screws, cork, galvanized, hand, table, wood; sheet, not machined and in the rough; sheet (copper), silver plated; sheet (copper), perforated; sheet, viz., copper, brass, zinc, muntz and other mixed metals in circles not less than 24 inches in diameter sheet (zinc), perforated; slides, cornice; spokes, not machined and in the rough; spoons, iron or steel; springs, buffer; steelyards, to weigh up to 3 cwt.; tacks, 1 inch and under; tyres of steel, in the rough; tools of trade, not being machinery (except napping, spalling, and quartz hammers, picks, mattocks, gas and blacksmiths' tongs, mauls, wedges, crowbars, soldering irons); trace hooks, water conductors, seat fasteners, axle clips and spring clips, malleable rim bands, hood springs, shaft couplings, roller bolts, king bolts, iron washers, pole and shaft eyes, iron rivets, step pads, tubular bows, break rolls for roller flour mills; traps, vermin; types, printers' and brass; washers (copper); window fittings (except shutters, blinds, poles, and cornices); wire not machined and in the rough	Free
Metal furniture (including second-hand), ad val. ...	30 per ct.
Metal ware, plated and mixed (except furniture otherwise dutiable), ad val.	25 per ct.
Metal ware, plated and mixed, being door-handles, locks, shaft tips, stump and finger joints, and slot irons used in carriage building, harness mountings, and hames	Free
Meters, gas—internal fittings of, when imported in parts not put together	Free
Methylated spirits, per liquid gallon	0 1 0
Military socks	Free
Milk, preserved, per pint or lb.	0 0 2
Millboard (including grey millboard)	Free
Millet, broom corn, ad val.	10 per ct.
Milling, stones for	Free
Mills, grape and stemmers	Free
Mineral oil in bulk, refined, of which the point of ignition is below 80 degrees Fahr.	Free
Mineral waters, ad val.	10 per ct.
Miners' safety hats	Free
,, safety lamps	Free
Minor articles used in the manufacture of any dutiable article when stamped in gold, silver, or in blind, ad val	30 per ct.
Minor articles of mixed or undescribed materials used in the manufacture of any dutiable article; provided that such minor articles are enumerated in any order of the Commissioner, and published in the *Government Gazette*	Free
Mixed metalware (except furniture otherwise dutiable), ad val.	25 per ct.
Mixed metals, in circles not less than 24 inches in diameter	Free
Molasses, refined, per cwt.	0 6 0
,, refined in bond, per cwt.	0 5 0
,, unrefined, per cwt.	0 2 0
Monumental wrought stone, per cubic foot*	0 7 6
Morphia	Free
Mortars and pestles, (metal)	Free
Mouldings of all sorts (except picture frame mouldings), wholly or partly prepared, under 3 inches in width. per 100 lineal feet	0 4 0
Mouldings of all sorts (except picture frame mouldings), wholly or partly prepared, 3 inches and over in width, per 100 lineal feet	0 7 0
Mouldings, picture frame—not mitred, ad val.	15 per ct.
,, picture frame—mitred, ad val.	35 per ct.
Mountings, harness and hames (plated or mixed metal)	Free
Mounts or stands for pictures, ad val.	20 per ct
Mungo fur, being hatters'	Free
Muntz metal, in circles not less than 24 inches in diameter	Free
Muriatic acid, per cwt.	0 5 0
Musical instruments, including second-hand—pipe organs and all parts thereof, including pianoforte action, made up, ad val.	25 per ct.
Pianos, upright, each	5 0 0
,, square, grand, or semi-grand, each	15 0 0
Harmoniums and cabinet organs, not otherwise enumerated, each	3 0 0
Musical instruments, being action work in separate pieces, including rails and keys	Free
Mustard, per lb.	0 0 2
Mustard seed, per lb.	0 0 0½
Mutton, per 100 lbs.	0 7 0
Nails—	
Iron and steel, per cwt.	0 7 6
Horseshoe, per cwt.	0 14 0
Nails (being nails for trunks and grindery)	Free
Napping hammers (metal), ad val.	30 per ct.
Naps for women's and girls' wear, being woollen manufactures or manufactures containing wool, being	

* For purposes of measurement each stone shall be considered as a rectangular solid corresponding in measurements to the extreme length, width, and height of the stone measured.

	£ s. d.
piece goods and all portions of piece goods not made up, ad val.	15 per ct.
Neckties, silks, for, cut up into sizes or lengths for making, under regulations to be made by the Commissioner of Trade and Customs	Free
Nets—hammocks and hammock netting, lawn tennis, nets and netting, cricket nets and netting, hat nets, ad val.	25 per ct.
Netting wire, galvanized, machine made	Free
Nipples for bicycles, tricycles, and similar vehicles, not being brazed or joined with any other part	Free
Nitrate of silver	Free
Nitric acid, per cwt.	0 5 0
Nuts, per lb.	0 0 2
Nuts (being candle-nuts and cocoanuts)	Free
Nux vomica	Free
Oars, ash.	Free
Oatmeal, per cental	0 9 0
Oats, per cental	0 3 0
Oil and Paste—Furniture, ad val.	20 per ct.
Oil and other floorcloths (except coir and jute matting otherwise dutiable), ad val.	15 per ct.
Oils, in bulk (being cocoanut, fish of all sorts, mineral refined of which the point of ignition is below 80° Fahr.; kerosene, palm, lubricating of which the chief component part is mineral; and resin	Free
Oil silk	Free
Oilmen's stores packed in bottles or jars not exceeding one reputed quart in size, or in canisters or vessels not exceeding one quart in size, ad val.	20 per ct.
Oilmen's stores, not otherwise enumerated, ad val.	10 per ct.
Oilmen's stores, being essential oils and essences not containing alcohol, and isinglass uncut	Free
Oils, in bulk, per gal.	0 0 6
Oils, packed in bottles, jars, or other vessels, not exceeding one gallon in size, as under :—	
Quarts and over a pint, per doz.	0 4 0
Pints and over half-a-pint, per doz.	0 2 0
Half-pints and over a quarter-pint, per doz.	0 1 0
Quarter-pints and smaller sizes, per doz.	0 0 6
Over a quart and not exceeding a gallon, per doz.	0 12 0
Oleomargarine and butterine, per lb.	0 1 0
Olives, green	Free
Omnibuses and coaches (including second-hand), for carrying mails or passengers, each	25 0 0
Onions, per ton	1 0 0
Opium, including all goods, wares, and merchandise (except medical preparations) mixed or saturated with opium, or with any preparation or solution thereof, or steeped therein respectively, per lb.	1 0 0
Medical preparations (of opium contained therein, when not dutiable at a higher rate under the heading of medicines liable to 25 per cent., ad val., per lb.	1 0 0
Optical, surgical, and scientific instruments (glassware)	Free
Optical and scientific instruments (metal)	Free
Oranges, green, per bushel	0 0 9
Organs, pipe (including second-hand), and all parts thereof, ad val.	25 per ct.
Organs, cabinet (including second-hand), not otherwise enumerated, each	3 0 0
Ovens, camp (hollowware, iron)	Free
Oval boilers (hollowware, iron)	Free
Oval pots (hollowware, iron)	Free
Oregon, timber known as, of sizes less than 7 inches by 2½ inches, per 100 sup. ft.	0 4 0
Oregon, timber known as, of the sizes of 7 inches by 2½ inches and upwards, and less than 12 inches by 6 inches, per 100 sup. feet	0 2 0
Oregon, timber known as, of the sizes of 12 inches by 6 inches and upwards, per 100 sup. feet	0 1 0
Oregon, timber known as, undressed logs of any size	Free
Overshoes or goloshes, per dozen pairs	0 4 0
Packages, second-hand, in which ships' stores have been imported	Free
Packages in which goods are ordinarily imported, not otherwise enumerated	Free
Packing, engiue (not being sheet), per cwt.	0 12 0
Pads—	
Blotting. (*See* Stationery.)	
Side (articles of artificial human hair, manufactured), ad val.	25 per ct.
Step (metal)	Free
Paddy, per cental	0 2 0
Painters' brushes, ad val.	25 per ct.
Paints and colours :—	
Ground in oil, including patent dryers and putty, per ton	2 0 0
Mixed ready for use, from or of any substance, per ton	4 0 0
Paint, dry white lead, per ton	2 0 0
Palings, per 100	0 0 9
Palm oil, in bulk	Free
Pans—brazing, fry, maslin, preserving, sauce, stew (hollowware, iron)	Free
Paper—	
Cut, per lb.	0 0 2
Advertising matter, printed or lithographed, or any printed plates, lithographs, pictures, cards, calendars, almanacs, or matter of a similar description used or designed for use for advertising purposes, per lb.	0 0 4
Paper, other, per cwt.	0 6 0
,, bags, per cwt.	0 10 0
Paper boxes, including paper or cardboard (with or without printing), cut into shapes for wrapping or boxing, ad val.	25 per ct.
Paper, cardboard, pasteboard, per cwt.	0 4 0
Paper, being printing and writing, in original wrappers and uncut edges, as it leaves the mill; paper-hangings and millboard (including grey millboard)	Free
Paper specially prepared for making gun or blasting cartridges	Free
Paper, vegetable parchment (used for packing and wrapping butter)	Free
Paper, writing, fancy wrappers for, ad val.	35 per ct.
Paper all printed, ruled, or engraved forms of, bound or unbound, ad val.	35 per ct.
Paper or cardboard (with or without printing) cut into shapes for wrapping or boxing, ad val.	25 per ct.
Paper, machinery. (*See* Metals.)	
Paperhangings	Free
Paraffin wax	1d. per lb.
Parasols, sunshades, and umbrellas, with or without covers, made up wholly or in part, viz. :—	
From materials not containing silk, each	0 1 0
From materials containing silk, each	0 2 6
Parasol, sunshade, and umbrella sticks, when wholly or partly fitted with frames, each	0 1 0
Parchment, cut, ad val.	20 per ct.
Parchment, vegetable (used for packing or wrapping butter)	Free
Parts of carriages as under :—	
Sets of wheels (unbored and untired), per set	1 12 0
Sets of wheels (bored and tired), per set	2 8 0
Poles, each	0 4 0
Shafts and bars, per set	0 0 10
Under gear, including axles and arms, per set	3 4 0
Buggy tops, if composed principally of leather, each	4 0 0
Buggy tops, if of any other material, each	2 8 0
Carriage bodies in the white, each	4 0 0
Partly boiled fruits, per lb.	0 0 3
Passengers' baggage, being cabin furniture and personal luggage	Free
Paste and oil—furniture, ad val.	20 per ct.
Paste and polishing—harness, ad val.	25 per ct.
Pasteboard, per cwt.	0 4 0
Patent safety oil engines used as portable or stationary engines, ad val.	15 per ct.
Patent dryers, per ton	2 0 0
Pattens and clogs, ad val.	20 per ct.
Paw paw apples, green	Free
Pearl barley, per cental	0 7 6
Peas, per cental	0 2 11
Peel, candied, drained or preserved, per lb.	0 0 2
Pedals for bicycles, tricycles, and similar vehicles, not being brazed or joined with any other part	Free
Pencil cases, ad val. (*See* Jewellery.)	
Perambulators (including second-hand), whether wholly or partly made up, or parts of the same, ad val.	35 per ct.
Percussion caps (metal)	Free
Perforated sheet copper	Free
Perforated sheet zinc	Free
Perfumed spirits, per gallon	1 4 0
Perfumery, ad val.	20 per ct.
Perry, in bottles, per gallon, or for six reputed quart bottles, or for twelve reputed pint bottles	0 1 3
Perry, not otherwise enumerated, per gallon	0 0 10
Personal luggage	Free
Persimmons, green (Japanese date plums)	Free
Pestles and mortars (metal)	Free
Phaetons, mail, including second-hand	40 0 0
Photographic materials, being chinaware, earthenware, glassware, and porcelain	Free
Pianos, upright, including second-hand, each	5 0 0
Pianos, square, grand, or semi-grand, including second-hand, each	15 0 0
Pianoforte action, including second-hand, made up, ad val.	25 per ct.
Pickets, dressed, per 100	0 6 6
Pickets, undressed, per 100	0 0 6
Pickles (packed in bottles, jars, or other vessels, not exceeding one gallon in size) as under :—	
Quarts and over a pint, per doz.	0 3 0
Pints and over a half-pint, per doz.	0 2 6
Half-pints and smaller sizes ,,	0 1 0
Over a quart and not exceeding a gallon, per doz.	0 12 0
Pickles, all other, ad val.	20 per ct.
Picks (metal), ad val.	30 per ct.
Picture frame mouldings, not mitred, ad val.	15 per ct.
Picture frame mouldings, mitred, ad val.	35 per ct.
Pictures—Mounts or stands for, ad val.	20 per ct.
Pictures, used or designed for use, for advertising purposes, per lb.	0 0 4
Picture frames, wooden, ad val.	25 per ct.

Vessels forced back within 48 hours after having been piloted to sea, one-half of these rates.

TOWNS IN VICTORIA.

ABERFELDY (Mount Lookout) (37° 35′ S. lat., 146° 20′ E. long.), a post town, county of Tanjil, electorate of Gippsland, shire of Walhalla, 20 miles from Wood's Point, and 141 postal miles from Melbourne E. (*viâ* Matlock, 125½ miles, *viâ* Walhalla, 146 miles), situated on the Dividing Range between the Aberfeldy and Thompson rivers. Communication is by rail to Toongabbie, Traralgon or Moe, coach to Walhalla, fare, 7s. 6d., horse thence, 10s. Hotel : the Royal Mail ; a State school (No. 1,224)—Church service is held at the school—and two stores. It is a mining district, but is also adapted for farming and grazing. Formation : slate and sandstone ; the igneous rocks and basaltic soil of the summit of the mount pointing to volcanic origin. Population 75, inclusive of neighbourhood, 200.

ACHERON (37° 15′ S. lat., 145° 43′ E. long.), a post station 75 miles (84 postal) NE. of Melbourne, in the county and electorate of Anglesey, shire Alexandra, situated on the left bank of the Acheron, a tributary of the Goulburn. Communication is by rail to Alexandra, 11 miles distant N., thence by coach. State school (No. 1,449), which is used as a place of worship. Chief industries of the district are butter- and cheese- making. The principal ranges are the Cathedral (2,200 feet high), and the Blue Range, both carrying snow for a short time occasionally in winter. Population about 80.

ADDINGTON (county Ripon, shire Ballarat), post town and railway station, 92½ postal miles W. of Melbourne. Has one hotel and State school (No. 226). Mount Bolton is in the vicinity. Chaff-cutting works. Agricultural and pastoral district. Formation : granite and volcanic. Population about 120.

ADELAIDE LEAD (37° 5′ S. lat., 143° 45′ E. long.), a post town, county of Talbot, electorate of Talbot and Avoca, police district Maryborough, shire Tullaroop, on Timor creek, 1 mile from Adelaide Lead Railway Station, fares, 20s. 8d. and 14s., 4 miles from Maryborough, 12 from Avoca, and 108 (115 postal) miles NW. of Melbourne. Contains post-office, State school (No. 25), and a few private houses. It is an agricultural and mining district. Formation : lower silurian. Population, 117, including neighbourhood, about 400.

AIREY'S INLET (County Grant, electoral district Polwarth), a watering township on coast. Has post-office and telephone. Agricultural and pastoral district. Rail to Wensleydale, 71½ miles, coach thence. Coach runs to Geelong. Has hotel, State school, and Anglican church. Population, about 80.

ALBERTON (38° 37′ S. lat., 146° 40′ E. long.) a township with post, money-order, telegraph office, commissioners' savings bank, and railway station ; fares, 23s. 11d. and 15s. 10d., on the Albert river, about 3 miles above its mouth. It is a rapidly growing town, in the county of Buln Buln, and gives its name to an extensive shire in South Gippsland. It lies 132½ railway miles SE. of Melbourne, and is reached by rail direct or by steamer to Port Albert, 4 miles distant, coach thence, fare 1s. ; also by coach from Sale every second day : fare, 17s. 6d. Hotel : Victoria ; State school (No. 1). Bank of Victoria (weekly, Thursday), mechanics' institute and free library containing 500 volumes, Oddfellows' lodge, Anglican church, also Presbyterians, and court-house. The surrounding picturesque country is mainly agricultural ; artificial grasses, wheat, oats, hay, peas, and potatoes being principally grown. Country well adapted for grazing and farming. The country is covered with dense forest. Area of shire 898 square miles, 850 dwellings, 1,006 ratepayers on roll ; rate 1s., net annual value of property, £37,824. Population, 500, of the shire, 5,140. Sandstone formation.

ALBERT PARK, an electorate within the City of South Melbourne, with a telegraph station and money-order office, on the Melbourne and St. Kilda Railway Line, 1¾ miles distant S., frequent trains, fares 3d. and 2d. Bank : English, Scottish, and Australian. There are Church of England, Roman Catholic, Presbyterian, Baptist, Independent and Wesleyan places of worship ; two State schools, Nos. 1,181 and 2,815. St. Vincent de Paul's R.C. Orphanage. There are also Temperance hall, seating 400 persons, large drill rooms, and elegant fire brigade station ; several hotels and a coffee palace afford accommodation to summer visitors. Loretto convent and Convent of the Good Shepherd and Magdalen Asylum. Trams from Melbourne direct to the beach (fare 3d.), from Albert Park to the beach 1d. ; from Melbourne to Albert Park 2d. Good jetty, and excellent baths for seabathing. The park here has a fine sheet of ornamental water used for boating and yachting, also South Melbourne cricket and football grounds, and is much frequented. St. Vincent Gardens are beautifully laid out, and contain bowling-green and lawn tennis grounds. Population of district, about 13,000.

ALEXANDER MOUNT. *See* CASTLEMAINE.

ALEXANDRA (37° 12′ S. lat., 145° 43′ E. long.), a postal township with savings bank, telegraph and money-order office in the county and electorate of Anglesey, police district Alexandra, on U.T. creek, near Goulburn river, 90 miles (102½ postal) NE. of Melbourne. It is a terminal station on the branch line from Tallarook ; fares 17s. 6d. and 11s. 10d. Coach runs from station to town, four miles ; also to Jameson *via* Darlingford, 54 miles, on Mondays, Wednesdays and Fridays, fare, 10s., return 17s. 6d., being the cheapest and best route to Jamieson and Wood's Point, to Marysville, Tuesday, Thursday and Saturday, 28 miles, fare, 8s. 6d. Hotels : Corner, Shamrock, Miners' Exchange, and Mount Pleasant. Banks : Union and National. The Mechanics' Institute and Free Library has nearly 2,000 volumes. Churches : Episcopal, Presbyterian, Wesleyan Roman Catholic (fortnightly). State school (No. 912), hospital, with 12 beds, shire hall, police and county court, and a steam flour mill are here. The Freemasons, Oddfellows, and Rechabites have lodges here. The diggings are in the Beechworth mining district. A very large quantity of gold has been obtained in this neighbourhood, the yield for 1899 being 5,300 ozs. Wheat, oats, peas, beans, and potatoes are largely grown in the district, which is of a mountainous character. Abounds in sport for gun and rod. The Alexandra Falls are stated by travellers to be the highest and best in the colony, and the whole district abounds in picturesque scenery, to be seen by making the round tour from Melbourne *viâ* Healesville, over the Black Spur to Marysville, thence on to Alexandra, and returninig *viâ* Yea and Tallorook. In the shire is ratable property of the annual value of £28,983, area 766 square miles, 640 dwellings, 800 ratepayers ; 1s. rate. 4,900 acres under cultivation. Lighted by kerosene. Formation : schistoze. Population of town, 500 ; of shire, 2,100. Newspaper : *Alexandra Standard*, published on Friday.

ALFREDTON (37° 33′ S. lat., 143° 49′ 30″ E. long.) (county of Grenville, electorate of Ballarat West) lies 98¼ miles (76¾ postal) W. of Melbourne. Suburban to Ballarat. It has post-office, a State school (No. 1,091), a Wesleyan church, three hotels, the Ballarat cattle yards. In the vicinity are—the hospital for the insane, the botanical gardens, and Lake Wendouree. Population about 150.

ALLANS FLAT (36° 14′ S. lat., 146° 15′ E. long.), a post town (county of Bogong, electorate district of Benambra), police district Beechworth, 203 miles (194½ postal) NE. of Melbourne, on the Yackandandah creek. Yackandandah, 4½ miles away, is the shire and has nearest telegraph and savings bank office. Yackandandah to Melbourne, train, 33s. 1d. and 22s. 1d. Railway fares, 28s. 9d. and 19s. 8d. Hotels : Albion and Bird's Head ; Anglican church, State school (No. 11), is used for Presbyterian and Wesleyan service. Allans Flat is of an undulating surface, and is extensively cultivated for the vine and fruit trees. Potatoes and other root crops, as well as the cereals, grow well here, tobacco is also successfully cultivated. Hydraulic sluicing claims at work in this district. Population of district about 300.

ALLANSFORD (38° 24′ 17″ S. lat., 142° 29′ 26″ E. long.), a postal township with telegraph, money-order office and savings bank (county of Heytesbury, electorate and shire of Warrnambool), on the east side of the river Hopkins, about six miles from its mouth, and six miles E. from Warrnambool. It is a railway station on the Warrnambool line, 166 miles WSW. of Melbourne ; fares 28s. 6d. and 19s. 1d. Coaches run to Nirranda, Monday, Wednesday and Friday, 7s. 6d. and 5s. Steamer to Warrnambool, six miles west. Hotels : Allansford, Junction, and Crown. There are three places of worship in the town, Anglican, Roman Catholic and Presbyterian, a State school (No. 3) ; a Mechanics' Institute (454 volumes) and Reading Room, various Friendly Societies, and two bacon factories. Town lighted with kerosene. Agricultural and pastoral district, with several first-class dairies, where superior cheese is made. A fellmongery, fruit and vegetable evaporating works, preserved milk factory, boiling-down works, butter factory, are in the neighbourhood. The butter factory is one of the largest in the colony, and has three creameries in connection. The township, and, in fact, the entire district, is liable to be flooded by the overflow of the Hopkins. There are guano caves at Gillear. Formation : rotten sandstone and limestone. Population of town and district, about 900.

ALLENDALE (37° 21′ S. lat., 143° 50′ E. long.), a post town, with money-order and savings bank office and telegraph station, in co. Talbot, electorate of Clunes and Allendale, police district of Ballarat (Central), 96 miles rail NW. of Melbourne. There is direct railway communication with Melbourne, Allendale being a station on the Daylesford line ; fares, 17s. 4d. and 11s. 7d. The principal hotels are the Speculation, Ristori, Commercial, Durham Ox, Cosmopolitan, and Miners' Association. The public buildings comprise post-office, police-station, court-house, and electoral registrar's office and dramatic hall. A branch of the National Bank of Australasia, a State school (No. 2,420), and a Roman Catholic school, also a Mechanics' Institute with 1,890 vols., a brick and tile factory, and a Museum containing many geological and mineralogical specimens, are here. The town is the principal centre of the Spring Hill alluvial leads, nine mines being in operation. There are places of worship belonging to the Anglican, Roman Catholic, Presbyterian, Wesleyan and Primitive Methodist bodies, and a Salvation Army barracks. Friendly societies are represented by I.O.O.F., A.N.A. and I.O.G.T. There is a Fire Brigade. A line of coach runs four times daily to Smeaton and Clementston. The water supply is derived from a reservoir on the road to Spring Hill. Mining, agricultural and pastoral pursuits are engaged in. Population 1,600. Newspaper : *Recorder*.

ALMA (37° 2′ S. lat., 143° 41′ E. long.), a post town in the county of Talbot, electoral district of Talbot and Avoca, police district of Maryborough, shire Tullaroop, on the Timor creek, 112 miles NW. of Melbourne. Rail to Maryborough, thence conveyance 4 miles, are the means of travelling from Melbourne. Hotel and store. State school (No. 848) ; Anglican church, lighted with kerosene. Water from springs. The district is a mining one, the diggings being alluvial ; vine growing and farming are also carried on ; other diggings known as Adelaide Lead, Moonlight Flat, and Chinaman's Flat, are in the immediate neighbourhood. Population, 100, including district, about 3,800.

ALPHINGTON (37° 46′ S. lat., 145° 4′ E. long.), a suburb, with post and telephone station, 5 miles NE. of Melbourne, in the county of Bourke, and East Bourke boroughs electorate, police district of Melbourne, shire of Heidelberg, on Darebin creek and the River Yarra, on the road to Heidelberg. There is railway communication with Melbourne: fares, 9½d. and 6½d. Lighted with gas. There are two hotels, Wesleyan and Church of England places of worship; State school and private school. There are in the neighbourhood many market gardens and vineyards, all in a high state of cultivation, and dairying is also carried on. Lighted with gas. Water from Yan Yean. Population, 1,114.

AMHERST (lat. S. 37° 8′, long. E. 143° 40′), post, telephone, and money-order station (county of Talbot, electorate of Talbot and Avoca, and police district of Ballarat), formerly known under the name of Daisy Hill, is a portion of the Talbot Borough municipality on Daisy Hill creek, 114 miles (110½ postal) NW. of Melbourne. Rail to Talbot, thence coach, 2½ miles, are the means of conveyance from Melbourne; coach fare, 6d., through fares, 20s. 9d and 13s. 3d. A coach (fare 6d.) runs daily to Talbot. Principal hotels: the Amherst, and Horse and Jockey. The town is well built, pleasantly situated, and possesses a good hospital (58 beds). There are three places of worship, Anglican, Wesleyan, and Presbyterian; a town-hall, Foresters' Society; a State school (No. 1,459); a mechanics' institute, with a library of 500 volumes. Agricultural and mining district. The diggings are both alluvial and quartz, and are known as Blacksmith's Gully, Daisy Hill, Mia-Mia Flat, Adelaide Lead, all famous for their yields in the early days of gold mining. During 1899 the yield was 4,726 ozs. Population about 200.

AMPHITHEATRE (37° 19′ S. lat., 143° 21′ E. long.), a postal township, in the counties of Kara Kara and Gladstone, electorate of Talbot and Avoca, shire of Lexton, on the Avoca river, 136¼ postal miles NW. of Melbourne. It is a railway-station on the Maryborough to Ararat line, fares, 24s. 6d. and 16s. 5d., 905 feet above sea-level. Hotels: Amphitheatre and Criterion. There are orchards and vineyards in the neighbourhood. State school (No. 1,637). Churches: Presbyterian and Roman Catholic. Amphitheatre is completely shut in by lofty ranges on every hand, and is principally an alluvial mining district. On the flats the formation is a light sandy alluvium, with red clay subsoil; on the ranges it is sandstone, slate, and quartz. Population 250, with neighbourhood, 1,030.

ANGUSTOWN. *See* REEDY CREEK.

ANTWERP (co. Lowan, shire Dimboola), postal district and railway station (flag) on Wimmera river, 235¼ miles from Melbourne, fares, 42s. 4d. and 28s. 3d. Has aboriginal mission station, school (No. 3,104) in which Anglican and Wesleyan services are held), and two eucalyptus factories.

APOLLO BAY. *See* KRAMBRUK.

APSLEY (37° S. lat., 141° E. long.), a township with post office, savings bank, money-order and telegraph office (county Lowan, Normanby electorate, shire Kowree), on a north branch of the Mosquito creek, to the NW. of the Cannu Lake, on the border of South Australia, 317 miles NW. of Melbourne. There is coach communication with Hamilton on the SE., Horsham on the E., Casterton on the S. and Narracoorte (South Australia) on the W. The nearest places are Edenhope, 14 miles; Casterton, 56 miles; Harrow, 34 miles; and Hamilton, 96 miles. Hotel: the Border Inn. There are salt lakes and a salt works. The Mount is sandstone, and the soil is marly, in some parts loamy. There are irrigation channels for Wimmera river for establishing an irrigation colony. Area of shire 769 square miles with 470 dwellings and 700 ratepayers on book, rate 1s. Annual value of property £21,403. In the shire there are 40,029 acres under tillage, 27,915 wheat, 2,754 oats and 3,079 under wheaten hay. 144 bearing and 18 non-bearing vines. Population of shire, 2,630.

ARARAT (37° 17′ S. lat., 142° 57′ E. long.) is an important municipal town, 131½ postal miles NW. from Melbourne, with post, money-order, savings bank, telegraph office, and railway station, at the northern extremity of the county of Ripon, in the electoral district of Ararat and police district of Wimmera, near the river Hopkins, and almost in a direct line between Mount Cole and Mount William, two of the highest peaks in that part of the colony. It is 1,028 feet above sea level. Besides the quartz and alluvial mines, for which the district is famed, the agricultural, pastoral, and wine-making interests are well established, and, indeed, form the principal source of its revenue. Ararat is the commercial centre of the great grain and wool producing district of the north-west. It is the metropolis of the shire bearing its name. The area of the municipality is 3,840 acres, with about 615 dwellings, 426 ratepayers on roll, and property of the annual value of £18,500 rate 1s. in the £. In the neighbourhood are never-failing supplies of the best timber, of which immense quantities are annually sent over a large area. Hotels: Commercial, Ararat, Victoria, Scott's and twelve others. Ararat contains one of the Government lunatic asylums, having accommodation for between six and seven hundred patients, a gaol (will hold 42 prisoners), now temporarily used as an asylum for criminal lunatics, a hospital (56 beds), and benevolent asylum—capable of accommodating 66 inmates, supported by voluntary subscriptions,—a mechanics' institute, with a library of nearly 4,500 volumes, a State school (No. 800), as well as private schools, an assize court, which is also used as a court of petty sessions, and a court of mines (county courts held quarterly, and petty sessions daily); it has also a town-hall with excellent stage and fittings, where dramatic performances, concerts, &c., can be given, while the shire hall is one of the finest in the colony. There are Anglican, Presbyterian, Wesleyan and Roman Catholic Churches,—in connection with the latter there is a convent—and a Salvation Army Barracks. There are three well-built banks—Victoria, N. S. Wales, and London; and a number of substantial mercantile establishments, Protestant hall, a large flour-mill, brick, soap and candle, gas and leather works. The Freemasons, Foresters, Oddfellows, A.N.A. and H.A.C.B.S. have lodges here, and the Rechabites a tent (Royal Alfred). A coach runs to Moyston, distance 10 miles. In the neighbourhood are a number of vineyards producing excellent wines, the famous wine village of Great Western being distant 10½ miles. Water from a reservoir in Oliver's gully has been laid on to the town for several years, and a further supply is obtainable from a reservoir at Mount Langi Ghiran, supplied from Mount Cole, the storage capacity of the two reservoirs being 45,000,000 gallons. A service reservoir has been constructed to the west of the town with a storage capacity of 2,500,000 gallons. Cost of waterworks, £65,000. The town is lighted with gas. The shire of Ararat comprises 1,556 square miles, net annual value of ratable property £83,246, 920 dwellings, ratepayers on roll, 799, rate 1s. The mining district, of which Ararat is the centre, gives employment to 1,666 miners; total yield, 28,788 ozs. Four trains run daily to and from Melbourne, 131 miles SE.; fares, 23s. 5d. and 15s. 7d. The nearest towns are Ballarat, 56 miles; Beaufort, 28; Hamilton, 60; Stawell, 18; Horsham, 58 miles. The shire agricultural returns to March 1, 1900, are as follows:—28,789 acres of land under cultivation, the chief crops grown being, 8 925 acres of wheat, 6,736 of oats; 233 wheaten and 3,336 other hay, 499 of gardens and orchards, 905 of bearing vines. Lines extend from Ararat to Dimboola and Serviceton; also to Hamilton, Casterton, and to Portland on the coast, and a line to Avoca has been opened. The geological formation is basaltic. Granite, bluestone, limestone, and slate are obtainable in abundance in the neighbourhood. Population 4,084, and of district 8,450. Two papers are published: *Ararat Advertiser*, Tuesdays and Fridays, and *Ararat Chronicle*, Wednesdays and Saturdays.

ARCADIA (36° 27′ S. lat., 145° 24′ E. long.), a village in the county of Moira, and electoral district of Euroa and Shepparton on the Goulburn Valley Railway Line, fares, 17s. 9d. and 11s. 10d., with post and telegraph office, 98 miles NE. of Melbourne, and is situated on the River Goulburn. There are Anglican, Presbyterian and Roman Catholic churches, one hotel, State school (No. 1,880). The district is chiefly pastoral and agricultural. There are two creameries and large foundry. Good fishing and shooting. Population, about 100.

ARCHDALE (36° 8′ S. lat., 133° 5′ E. long.) (co. Kara Kara, shire St. Armand), post town, 141¾ postal miles NW. of Melbourne, on Avoca river. Reached by rail to Bealiba, coach thence. Has Wesleyan church, wine shop and State school (No. 1983). Water from Government dam. Three mining companies at work. Industries: sawmills, spoke and rim factory. Formation: Devonian, highly auriferous. Mining and agricultural district. With a population 200.

ARMADALE (37° 51′ S. lat., 145° 3′ E. long.) (county of Bourke, electoral district of Toorak municipality of Prahran), 4½ miles SE. of Melbourne on the Gippsland Line; fares, 5d. and 4d. It is 141 feet above the sea-level, and prettily situated. There are three churches, Episcopalian, Presbyterian and Wesleyan, a State School, several private schools, as well as many fine business establishments along High Street, which is the chief thoroughfare. Population, about 2,000.

ARMSTRONGS (37° 13′ S. lat., 142° 54′ E. long.), a post, telegraph and mining township, 136¼ miles NW. of Melbourne between Stawell and Ararat, on the Cuncungella creek, 955 feet above sea level. It is in the county of Borung, electorate of Ararat, and Great Western police district, and has direct railway communication with the capital; fares, 24s. 9d. and 16s. 5d. Hotels: Junction, and Armstrongs. State school here (No. 784). Divine service is held in the schoolroom. Business premises comprise two stores and a brewery. Vineyards and orchards. The district is a mining, agricultural, and pastoral one. Shooting and mountain scenery. Alluvial gold in gullies. Population, 140.

ARNOLDS BRIDGE (36° S. lat, 144° E. long.) (county Gladstone, electoral district Dunolly, police district Tarnagulla), is a post town with telegraph and railway stations, 139¼ miles NW. of Melbourne on the Kangderaar creek. Has Junction and Half-way hotels. There is a State school, eucalyptus and cheese factories, Wesleyan and Church of England services held in the Mechanics' Institute, with free library of 271 volumes. It is a mining and agricultural district with volcanic formation. Population about 400.

ARTHURS CREEK (co. Evelyn, shire Whittlesea), post town, 28½ postal miles NE. of Melbourne, which is reached by private conveyance to Yan Yean, thence rail. Has Primitive Methodist church, Mechanics' Institute and Free Library, and State school (1666). Large fruit-growing district Formation: silurian.

ARUNDEL. *See* LAANG.

ASCOT (37° 24′ S. lat., 143° 50′ E. long.), an agricultural parish, with a small village near its centre, lies 13 miles NW. by N. distant from Ballarat, and 7 miles nearly due S. from Clunes on the coach road, between these two places and Maryborough, and 92 postal miles NW. of Melbourne. The town of Creswick lies 6 miles to the E., and Learmonth 5 miles to the SW. The nearest railway stations are Mount Blowhard, 2¼ miles, and Tourello 3½ miles. The village of Ascot, which is in the county of Talbot, electorate of Clunes and Allendale, and police district of Learmonth, has a post-office, shops, hotel and store, State school (No. 2,507), and schoolmaster's residence. The nearest places of worship—Presbyterian, Roman Catholic, and Wesleyan Chapels—are at Coghill's creek, 2 miles off. Agricultural and pastoral. Lighted with kerosene. Formation: Volcanic, granite outcrops in the north-west, auriferous silurian spurs in the east, with rich chocolate soil. Population 110.

ASCOT VALE (37° 47′ S. lat., 144° 59′ E. long.) (county of Bourke, electoral district of Essendon and Flemington, police district of Essendon), a suburb of Melbourne, and a ward of the Town of Essendon, a post town with money order office, telegraph and telephone station, savings bank, and station, 4½ miles N. from the city on the Melbourne and Essendon Railway; fares, 1st. 3½d. and 2nd, 2½d. There is also omnibus communication; fare 4d. This picturesque suburb, is situated on the Saltwater River. In the vicinity are several racecourses and agricultural grounds. In Queen's Park, near the Town Hall, a fine lake has been constructed; there is also a fine rosery. There is one bank—the English, Scottish and Australian, a State and several private schools. The places of worship are Independent, Church of England (St. Paul's), and Roman Catholic. The streets are lighted with gas. The hotels are the Laurel, Prince of Wales, Ascot Vale, Waldock's, Union, and Lang's. Formation: Basaltic and schistose. Local paper, the *Essendon Gazette* on Thursday. Population 8,000.

ASHENS (co. Borung, shire Dunmunkle), is 205 miles NW. of Melbourne. Rail to Lubeck (where is post office), conveyance thence. Agricultural and pastoral district.

AUBREY (36° 30′ S. lat., 142° 30′ E. long.), is in county and electoral district Borung, police district Warracknabeal. It is a post town in the Mallee district, 228 miles NW., and communication is by train to Warrackbeal, thence coach 2s. It has a State school (No. 2,349), Wesleyan and Church of England denominations, a public library (500 volumes), a wine shop, creamery, blacksmiths' and carpenters' shops, and store. District agricultural and pastoral. Lighted with kerosene. Water supplied by trust. Population about 100.

AVENEL (36° 52′ S. lat., 145° 17′ E. long., 491 feet above sea-level), county and electoral district of Anglesey, and police district of Bourke, a township on Hughes creek, on the Sydney road, and on the North-Eastern line, 73 miles NE. of Melbourne, and 10½ miles from Seymour. Hughes creek runs through the centre, dividing the town into two counties, Anglesey and Delatite, and emptying itself into the Goulburn. The railway station in the new township is about a mile distant from the old township. Fares, to Melbourne, 12s. 11d. and 8s. 7d. Hotels: the Imperial, Harvest Home, Plough, and Royal Mail. The public buildings comprise post, telegraph, savings bank and money-order offices, court house, and a State school (No. 8). Agency Commercial Bank open weekly. The town is situated on a flat nearly surrounded by lofty hills, on the slopes of which are some extensive vineyards, notably the Tabilk (10 miles NW.), and the Goulburn Valley. The places of worship are Episcopalian, Wesleyan, Presbyterian, and Roman Catholic. There are several stores, a steam flour-mill and several saw-mills, and Oddfellows' and Good Templars' hall. Court of petty sessions is held here. The township, which is well reticulated, derives its water-supply from a spring at the foot of Mount Bernard. Has a creamery. A large fire-wood trade is carried on with Melbourne. Formation, sandstone. The land is eminently fitted for gardens and vineyards. Population 450.

AVOCA (37° 6′ S. lat., 143° 29′ E. long.), county of Gladstone, electorate of Talbot and Avoca, and police district of Maryborough, is prettily situated on the river of the same name, about 12 miles from its source, and 6 miles E. of the Pyrenees ranges, on the main roads from Castlemaine and Ballarat to the NW. parts of the colony, 794 feet above sea level. Avoca is the principal town in the Avoca shire, a municipal district of 453 square miles, containing several other goldfields and townships, having 900 dwellings, 663 ratepayers on roll, 1s. rate, and ratable property of the annual value of £24,542. The shire is locally ruled by a shire council, consisting of nine councillors, under the Local Government Act. Avoca has a police and warden's court, and post savings bank, money-order, telegraph, and sub-treasury offices. It is a railway-station on the Maryborough to Ararat line, 128 miles NW. of Melbourne, fares, 22s. 10d. and 15s. 4d. Coaches run to Percydale, St. Arnaud, Landsborough, Redbank, Lamplough, Lexton, Waubra, and Moonambel, Frenchman's and Stuart Mill. Hotels: the Avoca, Royal Oak, Victoria, Railway, Bull and Mouth, and Albion. Bank: Victoria. There are lodges of the Australian Natives, Oddfellows (M.U.), Foresters, Rechabites, a detachment of mounted rifles, one brass band, and a fire brigade. State school (No. 4), ladies' school, English, Roman Catholic Wesleyan and Presbyterian churches, and a mechanics' institute, with library of 1,600 vols. The water supply is derived from wells and the flats of the Avoca River. Both alluvial and quartz mining are carried on in the district, particularly in that portion lying at the foot of the Pyrenees ranges, which is also very well adapted for farming operations, growing wheat of unusually good quality. The Working Miners Homebush has been one of the most successful mines in the district. A mining revival is taking place in the district. An important discovery of slate in the ranges about 7 miles from the railway station was made a few years ago, but the quarries are now at a standstill. The slate found here is said to be the best of its kind yet discovered in the Australian Colonies, and the supply appears to be inexhaustible. Several vineyards are making good progress. The land under tillage on the 1st March, 1900, was 10,475 acres. The gold yield for 1899 was 1,410 ozs. Recent discoveries of alluvial gold have led to a mining revival. The formation of the district geologically is Silurian. The population of the town alone is 1,100; the number of residents in the entire shire is 4,227. Local newspapers, the *Avoca Mail*, Tuesdays and Fridays, and the *Avoca Free Press*, Wednesdays and Saturdays.

AVON PLAINS (36° 15′ S. lat., 142° 51′ E. long.), a postal township, in the county and electorate of Kara-Kara, police district of Donald, about 5 miles E. of the junction of the rivers Richardson and Avon, 175 miles (175¾ postal) NW. of Melbourne, situated in the midst of an agricultural and pastoral district, Coach from Avon Plains to St. Arnaud or Rupanyup; fare. 4s. 6d., whence the train can be taken for Melbourne. State school (No. 1,701). Church: Wesleyan. The soil is well adapted for wheat and oat growing, which forms the principal industry. Formation: alluvial, on limestone bottom. The country is undulating, and lightly timbered with bull oak and box. Population of district, 200.

AVON SHIRE. *See* STRATFORD.

AXEDALE (36° 47′ S. lat., 144° 30′ E. long.) (county of Bendigo, shire of Strathfieldsaye and electorate of East Sandhurst, police district Bendigo), a small township, with post, telegraph and money-order office, on the banks of the Campaspe, 13 miles E. of Sandhurst, and 90 miles N. of Melbourne. The railway line between Bendigo and Wallan passes through Axedale, 1¼ miles from township, fares from Melbourne, *via* Sandhurst, 16s. 2d. and 10s. 9d. Hotels: Campaspe, Raglan, and Quarry Arms. State school here (No.1,008), also one private school, a Presbyterian church, and a Roman Catholic chapel (St. Mary's). Farming, dairying, quarrying, and gardening are the principal industries of the locality, also some mining is done. There are some good vineyards in the vicinity. Formation: basaltic and silurian. Population 150.

BAARMUTHA (co. Bogong, shire Beechworth), a postal station on Three-mile Creek, 174¾ postal miles NE. from Melbourne, 3 miles from Beechworth, has State school (No. 736) and free library of 1,560 volumes, three hotels, Congregational church. Buckland Gap is in the vicinity. Cab (5s.) to Beechworth, rail to Melbourne. Mining pursuits. Population, about 200.

BACCHUS MARSH (32° 40′ S. lat., 144° 27′ E. long.), (county of Bourke, police district of Bourke, and electorate of West Bourke), a municipality with post, telegraph, money-order office, and savings bank, in the neighbourhood of the Lerderderg and Werribee rivers, 32¾ miles W. of Melbourne. Cabs run to Bacchus Marsh railway station, three-quarters of a mile S. of the township, and connect with the trains; fare 6d., railway fares, 5s. 9d. and 3s. 10d. A coach also runs to Myrinong. It is also connected by the direct railway to Ballaarat. The National Bank has a branch here. Net annual value of ratable property in shire, £25,339, area 210 square miles, 452 dwellings and 497 ratepayers on roll, rate 1s. The hotels are the Border Inn, Court House, Royal, Commercial, Bridge Inn, Harvest Home, and Railway Hotel. Local Institutions: Mechanics' Institute and library of 2,400 vols.; Masonic, A.N.A., Oddfellows, Free Gardeners, Druids and Rechabite Societies; Farmers' Society, with extensive show yards, horticultural society; racecourse with grand stand. State school (No. 28), also Convent School, a Court-house, Police Station, and Post Office. The churches are Episcopalian, Roman Catholic (St. Bernard), Presbyterian, Baptist and Wesleyan. A county court is held every six months, and a court of petty sessions monthly. The shire council hold their meetings here on the second Monday in every month. The town is lighted with gas. There are some diggings in the neighbourhood of small extent; farming and dairying is, however, the characteristic of the district, the land being very fertile. The water supply is obtained from the Werribee River. The Bacchus Marsh Irrigation Trust and Concentrated Milk Factory contribute to the importance of the town, while extensive lime works are in full operation at Coimadai, about five miles distant. The rich alluvial flats in the valleys of the Werribee and Lerderderg Rivers are of excellent quality, and suitable for the production of almost any kind of crops. Bacchus Marsh possesses a splendid winter climate. By the return for the year ending March 1st, 1900, there were 5,971 acres under cultivation. There are excellent free-stone quarries in the neighbourhood, whence Melbourne and other places are supplied. A portion of this district was formerly settled on by the late Captain Bacchus, whose name it bears. The scenery here is pretty, and the country around is much frequented by sportsmen, but irrigation is needed. There are good mineral springs in the district, and the park situated between the railway station and the town is admitted to be equal to any outside of Melbourne. A large portion of the milk supply of the metropolis is obtained from Bacchus Marsh. Stud farms have also been established here. Population of

town, 750; of shire, 2,500. Local newspaper, the *Bacchus Marsh Express*, published every Saturday.

BADDAGINNIE (county Delatite, shire Benalla), post town, telegraph and railway station, on Folly Creek, 113¾ postal miles NE. from Melbourne. Mining and grazing pursuits. It has one hotel, one butter factory, creamery and wood-cutting machines. A State school, hall, and a Methodist church. Lighted with kerosene. Quartz reefs not prospected. Population about 350.

BAGSHOT (36° 37′ S. lat., 144° 21′ E. long.), a postal receiving station, with telephones, in the county of Bendigo, electoral district of Mandurang, police district of Huntly, on Bendigo Creek, 111¾ rail miles N. from Melbourne, and 11¾ miles from Sandhurst. It is a railway station on the Echuca Line, fares, 20s. 2d., and 13s. 5d. Hotel. Churches: Church of England and Wesleyan. State school (No. 852). In the district agricultural and pastoral interests are followed. Population, about 600.

BAILLIESTON. *See* COY'S DIGGINGS.

BAIRNSDALE (37° 49′ S. lat., 147° 35′ E. long.), county of Tanjil, electoral district of Gippsland North, police district Gippsland—native name Wy Yung, meaning Young Duck—a mining, agricultural, and pastoral township, with money-order and savings bank office, and telegraph station; on the Mitchell river, 170¾ miles by rail E. of Melbourne, and 43 from Sale NE.; fares 30s. 5d. and 20s. 5d. Coaches run to Bruthen, Bullumwaal, Deptford, Swan Reach, Johnsonville, Metung, Buchan, Omeo, Lakes Entrance and Orbost; steamers to Paynesville, Metung, and Lake Entrance, daily. Banks: Australasia, Colonial, Victoria, National, and New South Wales, also Commissioners Savings Bank. The principal hotels are the Main, Commercial, Meredith's Club, Bairnsdale Club, Victoria, Grand Terminus, Albion, and Imperial. There is Theatre Royal, Mechanics' Institute and Free Library of about 2,057 vols., a School of Mines, a shire hall, masonic hall, rowing club, Oddfellows Hall, a State school (No. 754), St. Andrew's College, and four private schools, and Anglican, Wesleyan, Presbyterian, Church of Christ, and Roman Catholic churches. The public buildings are post, telegraph, receipt, and pay-offices, court-house, and land offices. Mining, alluvial and reefing, is carried on extensively in the Bullumwaal and Deptford districts. Tannery and cheese factories. Hop-growing is carried on at Bairnsdale, on the low-lying banks of the Mitchell, there being several extensive gardens. Maize and broom-corn is also cultivated. Steamers regularly trade with Melbourne. The town is lighted with gas, and the water supply is obtained from the river, the water being pumped into a reservoir. The inhabitants are chiefly dependent upon mining and agricultural and pastoral pursuits, but a considerable quantity of land has been selected and settled on under the Agricultural Settlement Act, and a large area is still available, orchard planting, vegetable gardening, and butter manufacturing, assuming large dimensions. By the returns for the year ending 1st March, 1900, there were 6,961 acres under cultivation. The townships in the Bairnsdale district are Lucknow (2 miles), Lindenow (12 miles), Bullumwaal (17 miles), Paynesville (12 miles), Forge Creek (6 miles), Bengworden (16 miles), Sarsfield (8 miles), Bruthen (15 miles), Deptford (18 miles), Omeo (80 miles), Swift's Creek (64 miles), Bendoc (170 miles), Bonang (180 miles), Crooked River (90 miles) some of which are mining townships. Area of shire 1,118 square miles, 1,900 dwellings, 3,000 ratepayers, rate 1s. Limestone formation. Annual value of ratable property in the shire, £55,852. Population of town about 4,000; shire, 7,700, and of the whole district about 15,000. Newspapers, the *Bairnsdale Advertiser*, Tuesday, Thursday and Saturday; and the *Gippsland News*, Friday; *Bairnsdale Courier*, Monday, Wednesday, and Friday.

BALACLAVA, or E. St. Kilda (37° 53′ S. lat., 145° 0′ E. long.), a part of the city of St. Kilda, and station on the Melbourne and Brighton Railway, 5 miles E. of Melbourne. Fares, 5d. and 4d. Two tram lines also connect Balaclava with Melbourne; fare, 3d. It is one of the most thickly populated of the suburbs, and nearly all the available space is covered with residences.

BALLAARAT, or BALLARAT and BALLAARAT of county and town) (37° 33′ S. lat., 143° 52′ E. long.), EAST (city Grenville and, electoral district of Ballaarat West, Southern Bailiwick police district, has for some time been the leading goldfield town of Victoria, and is the next city in importance to Melbourne. It lies 74 miles by rail WNW. of Melbourne, fares 13s. 2d. and 8s. 11d., at an elevation of 1,437 feet above the sea, and consists of Ballaarat East and Ballaarat West, the Yarrowee creek dividing them. Each is a distinct municipality, under the government of a mayor and councillors, since December, 1855. Ballaarat West has an area of 4,090 acres, 5,528 dwellings, with a length of made streets of over 50 miles; net annual value of ratable property, £159,126; rate, 2s. in the pound; ratepayers on the roll, 4,565. It is divided into three wards—South, Central, and North. Ballaarat East has an area of 4,331 acres, 4,705 dwellings, with a length of made streets of over 50 miles; net annual value, £78,403; rate, 2s. in the pound; ratepayers 4,502. Area of shire 182 square miles. Total value of ratable property £48,531. Six lines of railways branch from here, one extending from Ballaarat to Ararat, 57 miles—opened in 1875, and since then extended to Horsham. 203½ miles—and Serviceton on the South Australian border, 286½ miles from Melbourne, and another from Ballaarat to Maryborough, 42½ miles, and the third from Ballaarat to Linton, opened in 1884, the fourth, a short line of railway to Buninyong, 8½ miles, opened Sept., 1889, the fifth from Ballarat to Daylesford, 36¾ miles, which further extends to Woodend, and the sixth a line from Ballaarat to Waubra 20¾ miles in length. The line from Ballaarat to Maryborough was opened in March, 1875, and is now extended to Avoca on the west, and Donald on the north. Ballaarat is also connected with all the other railways in the colony. Coaches run to Allendale, Cape Clear, Illabrook, Pitfield, Rokewood Junction, Carngham, Corindhap, Rokewood, Creswick, Lexton, Miners' Rest, Napoleons, Newtown, Scarsdale. Tramways and cabs also run throughout the city. The principal hotels in Ballaarat West are Craig's, Lester's, George, Phillips, Club, Town Hall, Palace, Union, and Unicorn; in Ballaarat East, North Grant, Earl of Zetland, Buck's Head, &c. The town has for some years been lighted with gas and electricity, and is also well supplied with water from reservoirs in Bullarook forest, which cost £362,000 in their construction—the storage capacity being estimated at 638,960,000 gallons. It has most of the improvements of large towns of much older growth. There are numerous handsome shops and public buildings in the streets, also Her Majesty's Theatre, Alfred Hall (seating 3,000 people), an art gallery well stocked with valuable paintings, museum, and other places of amusement. The banks are located in substantial buildings, and there are in fact, nearly all the accompaniments of a metropolitan city. The School of Mines, with some 400 students, is the most important in Australia, and is attended by young men from all parts of Australia, several from S. Africa, and even from England. The banks comprise branches of the following—Australasia, New South Wales, Victoria, Colonial, Commercial, London, National, Savings Bank, Union, English, Scottish, and Australian, and Ballaarat Banking Co.; also branches or agencies of the principal insurance companies. The mining and stock exchange is in Lydiard Street, near the post office. The public buildings comprise a spacious hospital erected on high ground, an orphan asylum, a benevolent asylum, lying-in-hospital, and refuge, two public baths, a gaol, Exhibition building, a mechanics' institute, with a library of 22,000 volumes, a public library, with 14,500 vols., three other free libraries — the Ballarat (City) with 5,340 volumes, and the German Association, with 2,100 volumes, Ballaarat Ironworkers Association, 1,162 volumes—a city hall, and a municipal council chamber, extensive railway premises, town hall, forty churches, as follows:—Baptist two, Bible Christian four, Church of England eight, Congregational two, Disciples of Christ two, Hebrew one, Lutheran one, Presbyterian five, Primitive Methodist four, Roman Catholic two, Town Mission one, United Methodist one, Welsh Presbyterian one, and Wesleyan eleven. The Roman Catholic Bishop's palace is at the top of Sturt Street, and the Anglican Bishop's palace at Wendouree North. The educational establishments comprise several colleges, and grammar schools, State schools (Nos. 33, 34, 35, 2,022, 695, 1,256, 1,919, 2,043, 1,493, 1,436, 1,998, 2,103, 1,813); five denominational schools. There are in Ballaarat two volunteer fire brigades, having thirteen stations, roomy law courts, a treasury, and post, money-order, savings bank, telephone, and telegraph offices. There are several iron foundries, breweries and distilleries, flour-mills, woollen-mills and other factories. The principal of these are the establishments of the Ballaarat Woollen Co., the Doveton Woollen Cloth Co., the Phœnix and Union Foundries. Among the reserves for the public are the Town Hall Gardens and the City, Eastern and Western Ovals, the public park, and the Botanical Gardens which, with Lake Wendouree, cover about 750 acres. The specially attractive features of the gardens are the fernery, statuary, and great variety of well-grown trees from all climates. The lake covering 600 acres is well stocked with imported fish, trout, perch, carp, tench, and eels, affording good angling six months of the year. Pisciculture is carried on with wonderful results, fish being annually distributed in all directions. Gold was first discovered at Ballaarat in June, 1851. The extraordinary richness of the ground rapidly attracted a large concourse of diggers and followers, who laid the foundation of a wealthy and prosperous town. As the surface digging became exhausted it was found that richer deposits of the metal could be obtained at lower depths. At the present time there are mines as deep as some of the coal-pits of England, worked by extensive steam pumping and other machinery. Ballaarat is somewhat celebrated as the place where the miners made a stand against an arbitrary and unjust tax in 1854. The mining population rose in arms against the authorities, and the result was a conflict in which many lives were lost, and much property destroyed. The principal collision between the troops and the miners occurred at the Eureka stockade, situated at Eureka and Stawell Streets, Ballaarat East. It was carried by storm on Sunday, December 3; of the miners some thirty or forty were killed and a large number wounded; of the troops three privates and Captain Wise were killed and several wounded. The site of the stockade has been enclosed and a suitable monument erected. A monument in the cemetery has been erected to the memory of the diggers who fell; hard by is one also to the officers and soldiers who were slain. One of the largest pieces of natural gold in the world was taken here from Bakery Hill; it was found at a depth of 180 feet, weighed 2,217oz. 16 dwt., and was called the "Welcome Nugget;" it was sold for £10,500. The "Lady Hotham" nugget, found near Canadian Gully, at a depth of 135 feet, weighed 1,158 oz. 2 dwt. The number of miners employed during 1899 in alluvial mining was 3,094; quartz mining, 3,640; a grand total of 6,734. The total gold yield in the Ballaarat mining district for the year ending December 31, 1899, was 208,920 ozs. Quartz mining at deep levels is now giving fair return. The deepest mine is the South Star, 2,520 feet, and several others are below the 2,000 feet level. In addition to its mining advantages the district around Ballaarat is well suited for farming purposes. The statistics, of the district for the year ending March 1, 1900, show that 36,497

acres were under tillage; wheat occupied 1,050 acres; oats, 5,246 acres; potatoes, 1,609 acres; hay, wheaten, 6,308, other 15,274 acres; peas and beans, 134 acres. It is also adapted for sheep breeding, the finest and highest-priced wool in the world being grown in the immediate neighbourhood, on the Ercildoun and other estates. Ballaarat West, in September, 1870, was proclaimed a city. The Bishopric became vacant in July by the resignation of the Right Rev. Dr. Samuel Thornton, who was appointed in November, 1874: he has been succeeded by the Right Rev. Dr. Green, translated from Grafton and Armidale, New South Wales, and who was formerly Archdeacon of Ballaarat. Rev. N. L. Parkyn was installed Dean of Ballaarat in 1897. A Roman Catholic bishop, Rt. Rev. Dr. Moore, has his head-quarters here. The geological formation of the district is basaltic and schistose. Population: Ballaarat 21,492; Ballaarat East, 17,500. Leading newspapers: the *Ballaarat Courier*, *Star*, and *Evening Echo*, daily.

BALLAN, (37° 36′ 19″ S. lat. and 144° 13′ 57″ E. long.), a postal, telegraph, savings bank, and money-order township, situated on the Werribee river, on the main line of road between Melbourne and Ballaarat (counties of Grant and Bourke, electorate of Grant and West Bourke). It lies 49½ miles W. of the metropolis, access to which is by direct line of railway from Melbourne to Ballarat, fares, 8s. 11d. and 5s. 11d. Hotels: The Ballan, Commercial, Hanrahan's, Orwell, Shannon, Victoria, and Railway Hotel. Coaches run between Ballan and Blackwood daily, and between Ballan and Korweinguboora three times a week. The neighbourhood abounds in valuable timber, and farming is extensively carried on. Mining, both quartz and alluvial, is in operation at Egerton and Gordon, a few miles distant, and at Blakeville and Greendale. Bank: Commercial. There is a State school (No. 1,435), a mechanics' institute, with a library of 2,000 volumes, Church of England, Presbyterian, Wesleyan, and Catholic churches; monthly cattle market, a shire hall, court house, a racecourse, cricket and recreation reserve, several saw-mills, creameries and flour-mill. By the returns for the year ending March 1, 1900, it is shown that 6,771 acres of land were under cultivation, the principal crops being—oats, wheat, peas and beans, hay and potatoes; gold yield, 1899, 145 ozs. Water is supplied from weir about 7 miles distant. Formation: volcanic lower silurian, and basaltic beds. Annual value of ratable property in the shire, £32,411, area 359 square miles, 1,227 dwellings, 1,301 ratepayers on roll, 1s. rate. About 8 miles NW. from here is a mineral spring of a highly medicinal character, containing magnesia, carbonate of iron, sodium, &c. The climate is very mild in summer, making it an excellent resort. Population, 565; of the shire, 6,512. *Ballan Times*, Thursday.

BALLANGEICH (38° 10′ S. lat., 142° 37′ E. long.), a postal and telegraphic station (county of Villiers, and electorate of Ripon and Hampden, shire Mortlake), 151 miles (162¾ postal) W. from Melbourne, and 16 miles N. from Warrnambool, on the main Mortlake road. A good metalled road connects Mortlake and Warrnambool. Hotel: Halfway House. The nearest streams are the Hopkins river on the east, with Lyall's creek and Drysdale creek running through the area; on the banks of these is some good agricultural land. The chief industry of the district is dairying and grazing. Auction sales of stock, &c., are held monthly. The communication is by alternate daily coach *viâ* Warrnambool and Mortlake; coach fare, 3s. 6d. Ballangeich has a general store, two State schools (Nos. 1,118, 1,926), and one church (Roman Catholic). Good building bluestone is found in the district. A creamery is in operation. Population of town and neighbourhood about 463.

BALLY-SHANASSY. *See* BURWOOD.

BALMATTUM (county Delatiteshire, electoral and police district Euroa), is a post town and railway station on Faithful's Creek, 98¼ miles NE. of Melbourne. There is one hotel, a State school (No. 743), butter factory, creamery, and a Presbyterian church, in which Anglican services are also held. Lighted with kerosene, water from tanks, wells, and dams. The district is chiefly devoted to fruit growing and dairying. Strathbogie ranges in vicinity. The formation is granite. Population of town and district about 1,000.

BALMORAL (37° 15′ S. lat., 141° 51′ E. long.), a postal, telegraph, savings bank and money-order village (county and electorate of Dundas, police district Hamilton, shire Wannon), on the Glenelg river, at the junction of Mathers' creek, 204 miles (238½ postal) W. by N. of Melbourne, 41 from Hamilton N., 30 from Coleraine NW., and about 40 from Ararat W. A coach runs from Hamilton railway station, carrying the mails; coach fare, 10s. Hotels: Lang's and the Western Hotel. Goods are carried by steamer and rail *viâ* Portland and Hamilton, thence by carrier. State school (No. 29), places of worship—Presbyterian, Anglican and Roman Catholic, and a mechanics' institute and free library with 1,006 volumes; also post office, court house, police barracks, tanner, wool scourer and general stores. Town lighted with kerosene. The surrounding country is principally adapted for grazing purposes. Pastoral and agricultural show yards are here. About 12 miles distant are the Dundas Ranges. Population, about 300.

BALNARRING (co. Mornington, shire Flinders and Kangerong), post township, with telephone office, 53 miles S. of Melbourne. Has State school (No. 1,698), Roman Catholic, Wesleyan, and Anglican churches. Mechanics' institute with library (500 vols.). Rail to Bittern, 41¾ miles, coach thence (4 miles), fare 1s. 6d. Population, 140.

BALWYN is in co. Bourke, shire Boroondara, on the Lilydale line, about a mile from Canterbury, 7¾ postal miles NE. from Melbourne. Has hotel, a State school (1,026), and Anglican church. It is about 7 miles from Melbourne, and has a population of about 600.

BANGERANG (co. and shire Borung), post town, 231½ miles N.W. of Melbourne. Reached by rail to Warracknabeal, thence horse, 10 miles. Has hotel, State school (No. 2,262), public library, Anglican church, in which Presbyterian and Baptist services are held. Agricultural and dairying district.

BANNOCKBURNSHIRE. (*See* LEIGH ROAD.)

BANYENA (36° 23′ S. lat., 142° 58′ E. long.), a post town, county of Borung, Shire Dunmunkle, police district of Rupanyup), one mail daily, 176½ (183¾ postal) miles NW. of Melbourne, situated at junction of Richardson and Avon Rivers, on the main line of road between Rupanyup and St. Arnaud. Hotels: Victoria and Junction. There are a state school, Roman Catholic place of worship, a mechanics' institute and free library containing 530 volumes, two stores, creamery, saddler's brassfounder's and blacksmith's shop. There is tri-weekly coach communication with St. Arnaud 25 miles; fare, 5s., and Rupanyup, 14 miles, fare 3s. 6d. The water supply is obtained from the Richardson river. The district is mainly agricultural. English perch with other fish abound in the river. Population, 47.

BARBER'S CREEK (37° 35′ S. lat., 145° E. 12′ long.), county Bourke East, shire Whittlesea, a post town, 23¾ miles NE. of Melbourne, bearing this name to distinguish it from the Yan-Yean office, though it is properly the Yan-Yean post-office. Barber's Creek runs near the school and post-office across the road into the Plenty river. Communication with Melbourne by Whittlesea railway, which passes through Yan-Yean. Has hotel, State school (No. 6,657). Rabbit-trapping industry. Formation: basaltic. Population of district about 100.

BARFOLD (co. Dalhousie, shire Metcalfe), post town with telephone and railway station, 72 postal miles N. from Melbourne fares, 12s. 11d., 8s 7d. Has Union and Roman Catholic churches, hotel, and mechanics' institute. Lighted with kerosene. Campaspe Falls in district. Industries: Farming and mining. Social: Mechanics' Institute. Population, town and district, about 200.

BARINGHUP (37° S. lat., 143° 55′ E. long.) (county of Talbot, shire of Maldon), township with post-bag, on the River Loddon, 96 miles NNW. of Melbourne, and 7 miles from Maldon. Hotels: the Loddon, Bridge, and Farmers' Arms. The district is an agricultural and pastoral one. The nearest mines are at Charlotte Plains, three miles W. on the road to Carisbrook. Four other mines are also in work in the district. An electric transmission works has also been erected. There are three State schools (Nos. 1,687 and 941); Presbyterian, and Bible Christian places of worship, a library, and several shops and stores. A coach from Dunolly (to and fro) passes daily through the town, and connects with the railway at Maldon (fare 1s.) for Melbourne. Formation: granite on right side of the river, basalt on the left. Population about 150, with neighbourhood about 550.

BARKER'S CREEK (37° 2′ S. lat., 144° 8′ E. long.), a mining village with post office (county of Talbot, and electorate of Castlemaine), 83 miles N. by W. of Melbourne, and 3 miles from Castlemaine, situated on the creek whence it takes its name. Communication with Melbourne is by car fortnightly to Castlemaine, distant 3 miles, fare, 6d.; thence the railway, fares, 14s. and 9s. 5d. Hotels: Quarry, Live and Let Live, and Old England. State school (No. 1,607), and Wesleyan and Church of Christ. Rechabite Lodge, in the hall of which Anglican services are held. Pastoral, mining, and agricultural district. The famous "Specimen Gully" forms a part of the Barker's Creek diggings. Here are located the quarries of the Castlemaine Paving Company, where the fine slabs of slate for paving, billiard tables, tombstones, and hearths are procured. The Malmsbury reservoir furnishes the water supply. Population of neighbourhood, 300.

BARKLY (36° 58′ S. lat., 143° 7′ E. long.), a mining township, with post-office (county KaraKara, electorate of Stawell, police district Ararat) on the Heifer station creek, 146 miles (148 postal) NW. of Melbourne, and about 40 miles W. from Maryborough. The nearest railway station is Avoca (22 miles distant SE.), with which there is coach communication daily; from Frenchman's, 5s., coach to Landsborough 2s. 6d. State school (No. 899). Water from springs. The Barkly lead extends about 3 miles, and although quartz is found in the neighbourhood, it has not, as yet, been much prospected; 401 ozs. of gold were won in 1899. "Devil's Punchbowl" is in the district. Vine and fruit culture is extending. Population, about 230.

BARKSTEAD (37° 30′ S. lat., 144° 10′ E. long.), a postal village (county of Grant and electorate of Warrenheip, shire of Bungaree, police district of Dean), is situated on the most western branch of the Eastern Moorabool, and about equidistant between the Eastern and Western Moorabool, 86 rail miles NW. of Melbourne. *viâ* Ballan, from which it is distant 14 miles NW. The nearest railway station is Wombat, on the Daylesford and Creswick line, 2 miles distant. It has a hotel, store, State school (No. 985), and post-office. Mining operations are carried on to a small extent. Timber industry. Sodawater springs in district. Formation: sandstone, slate and quartz. Population, about 100.

BARNAWARTHA (36° 5′ S. lat., 146° 42′ E. long., county and electoral district of Bogong), a post-town, with telegraph and money-order office, on Indigo creek, 174 miles NE. of Melbourne, on the North-Eastern line of railway. Trains twice a day; fares, 31s. 2d. and 20s. 8d. It lies 589 feet above sea-level, at the base of Lady Franklin Hill. Wodonga is distant 13 miles NE.

There are alluvial and quartz mines in the district, and agricultural operations are pretty extensively carried on. Wine and tobacco are produced in the district. Two State schools in the locality (Nos. 1,489 and 1,202), three hotels, and Roman Catholic and Presbyterian churches. Population, 200.

BARNEDOWN (co. Bendigo, shire Huntly), post township on Campaspe river, 126 miles N. of Melbourne. Rail to Goornong, cab thence. Has hotel, State school (1,087), and Presbyterian church. Mining and agricultural district. Population, about 50.

BARRABOOL SHIRE. (*See* MOUNT MORIAC.)

BARRAKEE (co. Gladstone, shire Charlton), post township with telephone office and railway station, 168¼ miles NW. of Melbourne. Has hotel and State school (1,894). Wesleyan church. Agricultural district.

BARRY'S REEF (37° 5′ S. lat., 144° 20′ E. long., co. Bourke, shire Ballan), a post town with money-order office, near Mount Blackwood, 72 miles NW. of Melbourne, which is reached by coach to Trentham, thence rail, on the main road from Ballaarat to Kyneton. Quartz mining district. State school here (No. 885), eucalyptus oil works, sawmill, M.U.O.O.F. lodge, and Mechanics' Institute with Free Library of 1,143 vols. Two places of worship (Anglican and Wesleyan), and three hotels. Mount Nelson and mineral springs in vicinity. Town lighted with kerosene. Water from reservoir. Quartz mining district. Formation: sandstone, slate, basalt. Population, 250.

BARUNAH PLAIN. (*See* HESSE.)

BARWON DOWNS (co. Grant, electoral district Polwarth, shire Winchelsea), postal village, 98¾ miles from Melbourne, with which connected by rail; fare, 17s. 9d., and 11s.10d. Has State school (2,866), Bible Christian church, store and creamery. Agricultural and pastoral.

BARWON HEADS (county Grant, electoral district Barwon, police district Geelong, shire South Barwon), is a post-town, with telephone to Drysdale, on the Barwon river. It is 14 miles from Geelong, and 61¼ postal miles SW. from Melbourne, which is reached by coach to Geelong, thence steamer or rail. Coaches run to Dysdale, Portarlington, Queenscliff and Geelong; 5s. return. There are here coffee palace, with well-appointed billiard-room and tennis court. State school, Wesleyan church. The district is agricultural and dairying; the formation volcanic and limestone. Fishing is a growing industry, large quantities of fish being sent to Melbourne. It is a favourite seaside resort, there being caves, hard sandy beach, &c. Population, 100.

BASS (38° 25′ S. lat., 145° 25′ E. long.), a post town, with money-order, savings-bank and telegraph office, 67¼ miles SE. of Melbourne. It is in the county and electorate of Mornington, police district of Grantville, shire Phillip Island, and is situated on the Bass river (about two miles from its mouth), which empties itself into Western Port. There are a Church of England and a State school (No. 847), and Bass Hotel. There is a Government jetty and a goods shed here. Social institutions: Mechanics' institute and free library. Industries: Sawmill and butter factory. The district is pastoral, ranking among the best grazing districts in Victoria, and is also adapted for fruit growing. Coal is found in the vicinity. Communication is by railway to Stony Point, fare, 8s. 1d. and 5s. 5d., thence by steamer to San Remo, 5s., or 8s., return or rail to Lang Lang, fare 8s. 4d. and 5s. 8d., coach to Grantville. Good accommodation for tourists and cyclists, few valleys and gorges, beautiful scenery. Population, over 200.

BATESFORD (38° 6′ S. lat., 144° 20′ E. long.), a post town (county of Grant, shire Corio, electorate of Moorpanyal, and police district of Geelong), 51¼ postal miles SW. of Melbourne, and about 6 miles from Geelong, on the River Moorabool. Rail to Moorabool station or steamboat to Geelong, thence conveyance, are the means of travelling from Melbourne. Hotel: Derwent Inn. Much fruit is grown in the neighbourhood. There is one State school (No. 1,845), and recreation hall. Presbyterian and Roman Catholic churches in the town. Population, 180.

BATHUMI (36° S. lat., 146° E long.) (co. Moira, shire Yarrawonga), post township on Wangaratta road, 161½ miles from Melbourne, which is reached by a conveyance to Yarrawonga, thence rail. Has hotel and school (No. 1,850). Agricultural and pastoral district. Population about 50.

BAYNTON (37° 10′ S. lat., 144° 40′ E. long., county of Dalhousie, Shire Kyneton and electoral district of Kilmore, Dalhousie, and Lancefield), post village, lies 62 miles (89¾ postal distance) due N. of Melbourne; Pohlman's creek is 3 miles distant, and the Campaspe about 5 miles. Baynton East State school (No. 2,038), and at Baynton (No. 1,643). There is a Presbyterian church and a creamery. It is a pastoral, dairying, and extensive rabbiting district. The communication is from Kyneton (14 miles) railway station along a good road by private conveyance. A little alluvial mining at Jews Harp Creek. Formation: Granite, volcanic and sandy loam. Population about 100.

BAYSWATER (37° 45′ S. lat., 145° 20′ E long.), is a post-town with telephone and railway station on the Dandenong Creek, and on the Ferntree Gully line. Co. Mornington, shire Ferntree Gully, 18½ postal miles E. from Melbourne. There are here two wine halls, Lutheran Church of Christ and Wesleyan churches, a recreation hall, and a State school (No. 2,163). Sassafras Gully and Dandenny Ranges in district. Water from tanks. Agricultural and fruit growing district. Population, about 400.

BEACONSFIELD (38° 5′ S. lat., 145° 31′ E. long.), a post town, with telephone office, in the county of Mornington, shire Berwick. It is a railway station on the Gippsland line, 28 miles SE. of Melbourne; fare, 3s. 9d. and 2s. 8d.; return, 5s. 8d. and 4s. The station is about 4½ miles from the township, conveyances running from railway station to Beaconsfield Hill, fare 2s. The public library, in connection with the mechanics' institute, contains over 650 volumes. There is an hotel, two stores, and State school (No. 2,560). Presbyterian and Anglican services are held in the Assembly Hall. Fruit-growing district. Population, 512.

BEALIBA (36° 46′ S. lat., 143° 33′ E. long.) (county of Gladstone, electorate Dunolly, shire Bet-Bet), a post-town with money-order, telegraph, and railway station, on Cochrane's creek, 137½ miles NW. of Melbourne. It lies 688 feet above sea-level. A passenger station and goods shed are here. Fares, 23s. 0d. and 15s. 3d. Coaches run to Archdale, Burke's Flat, to Wehla, Kurracca, Wedderburn, and Logan. Hotels: Evan's, Bealiba, and Commercial. There are a few runs in the district, and mining is carried on to some extent. Has cyanide plant. State school (No. 749). Land is largely taken up along Cochrane's creek and its junction with the Avoca, under the Agricultural Settlement Act. Several flourishing vineyards in the district. Bealiba has a branch of the London Bank of Australia, four churches—Episcopalian, Wesleyan, Presbyterian, and Roman Catholic; Free Library with 846 volumes. Town lighted with kerosene. Water from town reservoir. Healthy district. Population, 400.

BEAUFORT (37° 27′ S. lat., 143° 21′ E. long.), formerly known as Fiery Creek Diggings, is situated on the Yam Hole creek, 104 miles WNW. of Melbourne (county and shire Ripon and electoral district of Ripon and Hampden, police district Ballarat). The town, which has a money-order, savings bank, telegraph office, police station, and railway station, lies high, being 1,272 feet above the sea-level. Trains to and from Ballaarat and Melbourne four times daily. Fares to the metropolis, 18s. 7d. and 12s. 4d. Leading hotels the Golden Age, Railway, Camp, and Beaufort. Bank: Victoria. The country around Beaufort is very hilly, and in parts heavily timbered. The district is a mining one, the diggings being alluvial. The indications show that leads would be rich in gold at deep levels. A constant supply of water is brought along a race from Mount Cole. Some of the spots on Mount Cole are celebrated for their beauty, and that part known as Fern Tree Gully is remarkable for its romantic and picturesque appearance. There are some splendid sheep-runs in the district. Area of shire 588 square miles, with 950 dwellings, 1,012 ratepayers, 1s. rate, and net annual value of ratable property £58,627. Land under cultivation 6,856 acres. A considerable trade in firewood is also done. The district institutions include an Agricultural Society, Athletic Club, Rifle Club, Jockey Club; Tennis, Football and Cricket clubs. Fire Brigade, Mechanics' Institutewith library of 3,522 volumes, Masonic, Oddfellows', A.N.A. and Rechabites' lodges. The Riponshire Council and School Board meet here monthly. The Anglicans, Primitive Methodists, Presbyterians, and Roman Catholics (St. John Baptist), have churches, and the Salvation Army a barrack, and there is a State school (No. 60). Formation: Schist, tertiary, and silurian, in places granite, and a large area of basaltic plain. Population, 850; district, 2,000. Local paper: *Riponshire Advocate.*

BEAUMARIS is a postal township (in shire Moorabbin), with telegraph station, money-order office, and savings bank, near Cheltenham (connected by telephone), with which and Sandringham it is connected by horse tram. Cheltenham is distant 2¼ miles and Sandringham 4½ miles along the beach. There is one hotel and public hall. It is a popular picnic resort, and has a population of about 250.

BEAZLEY'S BRIDGE (co. and shire Kara Kara), a post township on the Avon river, 167¾ postal miles NW. of Melbourne. Communication is by coach to St. Arnaud, thence train. Coach runs to St. Arnaud and Stawell. There is a State school (No. 2121). Grazing pursuits. Population, about 100.

BEEAC (38° 12′ S. lat., 143° 40′ E. Long.) (Co. Grenville, shire Colac), a post town, on Lake Beeac, with money-order, savings bank, and telegraph office, 101¾ miles W. of Melbourne, and 55¾ from Geelong. It is the terminal railway station on the branch line from Irrewarra. One train daily; fares, from Melbourne, 18s. and 12s. 1d.; return, 27s. and 18s. 3d. Coaches run to Cressy, 2s., and Weering, 1s., daily. In the locality are Anglican, Presbyterian, Wesleyan, and Roman Catholic places of worship, free Public Library (500 volumes), Oddfellows' hall, police station, creameries, and two hotels. The London Bank has a branch here. State school (No. 482). Mining, farming, and grazing district. Salt manufacturing is also carried on here. Town is lighted with kerosene. Population about 230.

BEECHWORTH (36° 22′ S. lat., 146° 41′ E. long.) (county and electorate of Bogong), is an important town, the chief one of the united shire of Beechworth, 171¾ (postal miles) by rail NE. of Melbourne, on Spring Creek and the main Sydney road, about 25 miles S. from the Murray river. Wangaratta, on the North-Eastern line of railway, is 22 miles distant W., and from there the branch line to Beechworth is formed. Fares, to and from Melbourne, 30s. 11d. and 20s. 8d. Hotels: the Star, Imperial, Albion, Commercial, Empire, London Tavern, Post Office, Central, and others. It is the principal town of the Murray district and of the celebrated Ovens gold-fields. It is situated on the May Day Hills, being 1,805 feet above the sea-level. The town possesses numerous business premises of considerable pretensions, and has also many public buildings, of which the town hall, the churches (seven in number) belonging to the Church of England, Roman Catholic, Presbyterian, Wesleyan, Baptist, and Independent denominations, also Salvation Army. Masonic, Oddfellows', Foresters, Druids, Rechabites and

A.N.A. societies. Athenæum, the State (No. 1,560), and other schools, and the hospital (88 beds) Benevolent and Lunatic Asylums (the latter 444 beds), the Gaol (will hold 79 prisoners), Oddfellows' Hall, Freemasons' Hall, Post and Telegraph Office, and Court-House, are the most prominent. At the latter courts of assize, general, and petty sessions are held. The Presbyterian Church is an imposing edifice, in the Gothic style, with a lofty spire. The stone churches, belonging to the Roman Catholics and Episcopalians, are also notable buildings. Banks: New South Wales, Victoria, Australasia and Government Savings bank. The Public Library and Burke Museum, which is the best out of Melbourne, has a library of over 10,000 volumes, and the museum is replete with curiosities. The town is lighted with gas, and is surrounded by many natural points of interest, the principal being Ingram's Rock, Flat Rock, The Sphynx and Mount Stanley (3,444 feet). The Botanic Gardens are a popular resort, and Baarmutha Park is largely used for recreation purposes. Net annual value of ratable property in shire £34,455, area 314 square miles, 1,950 dwellings, 1,900 ratepayers, rate 1s. Agricultural returns to March 1, 1900—5,017 acres under cultivation, wheat being principal crop. Much fruit is also extensively grown. The district is essentially a mining one, formerly alluvial, but now much more of the reef character, and likely, therefore, to be permanent. Alluvial mining is, however, still carried on, and sluicing is employed. According to the mining report of December 31, 1899, the total yield of the mining district was 104,278 ozs. Employment is given to 5,340 miners. Principal industries: tannery, foundry, coach building and two breweries. Coaches run daily from Beechworth to Yackandandah, Chiltern, and Palmerston railway station. Cabs run to and from the railway station on the arrival and departure of each train. The water supply is derived from Lake Kerferd (estimated storage capacity 191,360,000 gallons), which has become a favourite pleasure resort of city people and holiday seekers, the scenery around the town being unsurpassed. Population of the town is about 3,000 persons; of the shire, 9,000. The geological formation is primary, granite, and silurian. Newspapers: the *Ovens and Murray Advertiser*, and the *Ovens Register*.

BELFAST SHIRE. *See* PORT FAIRY.

BELLARINE SHIRE. *See* DRYSDALE.

BELMONT (38° 11′ S. lat., 144° 20′ E. long.) (co. Grant, South Barwon shire, police district Geelong South), a small postal township about 2 miles S. of Geelong, and 47 miles SW. of Melbourne, near the Barwon River. Hotel: the Belmont. Wesleyan and Baptist Churches have been established. Has one State school (No. 26), one Roman Catholic school, tannery, shire hall and offices, with free library and reading-room containing over 800 volumes. Omnibuses and cabs run hourly between Geelong and Belmont, fare 3d. Splendid view of Geelong and Barrabool hills. The water supply is derived from Lovely Banks. Agricultural district. Population about 690.

BENA, a post-town in the county and electorate of Mornington, police district of Gippsland, shire Poowong and Jeetho, 65 miles SSE. of Melbourne. It is a station (with telegraph) on the Great Southern Railway; fares, 11s. 7d. and 7s. 10d. Hotel: The Cromwell. There is a State school (No. 3,062), mechanics' institute, in which Presbyterian and Baptist services are held, large butter factory and store. Lighted with kerosene. The district is both agricultural and pastoral, and is well suited for dairying, which has been very successful, and root crops. There are good coal prospects. Formation: Sandstone, grey, black, and chocolate soils. Population of town, 70; of district, 750.

BENALLA (36° 33′ S. lat., 145° 59′ E. long.) (county of Delatite, electorate of Benalla and Yarrawonga, and police district of Benalla) is a township on the Broken river, 121¼ miles NE. of Melbourne. Height above sea level 558 feet. It is the centre of an important agricultural and pastoral district, has a post, savings bank, telegraph, and money-order office, subtreasury and lands office, and is the capital of the shire bearing the same name. Communication with Melbourne is by the North-Eastern Railway; fares, 21s. 9d. and 14s. 6d. Has seventeen hotels. It is the head-quarters of the north-eastern police district. A court of assize is held half yearly, and general sessions, county, insolvency, and mines courts every three months, police-court daily. In 1900 48,859 acres were under cultivation, the chief crops being wheat, oats, hay, and vines. The town was laid out in 1846, but was of small account until 1854, when it sprang into importance as the centre of a district admirably suited to the growth of grain, and of most of the fruits of the temperate zone. A little gold is won, 490 ozs. in 1899. There is an agricultural society, which has held several very successful exhibitions. Cattle sales, which are well attended, are held fortnightly. All fruits of the *citrus* family flourish well, and raisins and currants of good quality have been successfully manufactured. There are here five churches, Rechabite hall, Protestant hall, theatre, mechanics' institute, with library of 2,102 volumes, three banks (Colonial, National, and New South Wales), court-house, and a shire hall with offices. There are two State schools, college, Roman Catholic and private schools. The town is lighted with gas. The water is supplied by being pumped from the Broken River above the township. The population of the town is 3,000, and the shire, 9,200. The annual value of ratable property in the shire is £76,500, area 1,074 square miles, 2,520 dwellings, 3,000 ratepayers, 1s. rate. Newspapers: *Benalla Standard*, published on Tuesdays and Fridays, and *North-Eastern Ensign*, published on Fridays.

BENAMBRA (co. Benambra, shire Omeo), post township on Omeo plains. Has State school, two churches, cheese and butter factory, store, cooperage, public hall and library. It stands on large lake teeming with water-fowl. Rail to Bairnsdale, coach thence. Population, about 100.

BENDIGO (City) (36° 46′ S. lat., 144° 17′ E. long.) (formerly called Sandhurst), is in the county of Bendigo, and electoral, police, and mining district of Bendigo. The electoral district comprises Bendigo proper and its suburbs, and is represented in Parliament by three members. Bendigo lies 758 feet above sea-level, on the Bendigo Creek and on the main line of railway between Melbourne and Echuca, 101¼ postal (100¾ rail) miles NNW. of the former, and 56 S. of the latter. Fares, 18s. and 12s. 1d. The branch railway lines to Wycheproof, Boort, Swan Hill, and Heathcote now render Bendigo a most important railway centre. Hotels are very numerous: the leading ones are the City Family, Shamrock, Metropolitan, Court-house, Albert, Black Swan, Albion, Royal, Commercial, Sandhurst, City Club, Athenæum, and others. It ranks among the leading cities of Victoria. It is the head-quarters of a rich auriferous country, consisting principally of quartz ranges, which, from their almost inexhaustible character, will doubtless be a source of revenue for years to come. It has since the celebrated spurt given to quartz reefing enterprise in 1872, greatly extended in every direction, and deep sinking is receiving a far greater share of attention than heretofore. The discovery of rich alluvial deposits of gold in 1851 was the first cause of the peopling of the district, but it was not until the opening up of the quartz reefs that it began to develop into a town of some dimensions; gold to the value of over £66,000,000 has been raised in the district since the discovery of the field. The city of Bendigo is divided into three wards—Sutton, Darling, and Barkly; the municipality having an area of 7,900 acres, 7,294 dwellings, 6,872 ratepayers, ratable property of the annual value of £188,929, rate 1s. 3d. in the pound, and is traversed by over 100 miles of streets. Bendigo was proclaimed a municipality April 24, 1855; a borough September 11, 1863, and a city 18th July, 1871. The main street, named Pall Mall, abounds on one side with fine, handsome, and imposing brick and stone shops and stores, the opposite side being a reserve known as Rosalind Park, in which is a handsome pile of public buildings, erected by Government at a cost of £44,000, with clock and Winchester chimes; and Law Courts of similar design to the last-named buildings, also erected by Government, at a cost of £35,000. The Town Hall, which is situated in Market Square, is a very handsome building, and the hall itself is superior to anything of the kind in the colony out of Melbourne. The other important buildings are the banks—the Australasia, Commercial, Union, London, National, New South Wales, Victoria, Colonial, and Savings bank; the hospital, benevolent asylum, mechanics' institute, with a library of 14,500 vols.—(in connection with this is the School of Mines and Industries), free library 2,055 vols., the Princess's Theatre, Oddfellows, Temperance, Masonic, A.N.A. halls, Art gallery, Bendigo arcade, the gaol (with accommodation for 100 prisoners), the numerous places of worship, and the Government and municipal offices. The city is well lighted with gas and electricity, and supplied with water from the Victoria Water-supply, the principal reservoir being the Crusoe reservoir, situated about 6 miles distant S. The mains with which the streets are reticulated have a total length of 100 miles. Besides the Crusoe, with a capacity for 320,000,000 gallons, there are four other large reservoirs—the Big Hill 68,000,000 gallons, Spring Gully 150,000,000 gallons, and two at Grassy Flat with capacity for 58,860,000 and 26,800,000 gallons respectively—all in connection with what is called the "Coliban scheme." There are four recreation reserves in the city, the Rosaland Park (which includes the Bendigo lawn tennis ground and bowling green), the Back Creek Cricket Ground, the Agricultural Show Grounds (also used for sports), and the Botanical Gardens, the latter beautifully laid out and planted with choice and rare shrubs. The industries of Bendigo, besides that of gold mining, are numerous, the most important being the Epsom Pottery, several extensive breweries, large iron-foundries, stone-cutting, and granite polishing works, tanning, brick and tile making works, cordial manufacture, and in addition farming and vine-growing. The wines from the Axe Creek district more especially have attracted great attention in the foreign markets, and the export is considerable, while apples, etc., may now be catalogued as an additional export, these fruits having reached London in excellent marketable condition, and commanded a good price. The churches are mostly of stone and brick, and are large and substantially built. The places of worship within the municipality are five Church of England (All Saints, St. Paul's, St. Mary's, St. Luke's, and St. Mark's), three Presbyterian (St. Andrew's, Golden Square and West Sandhurst), one Roman Catholic (St. Kilian's), five Wesleyan, two Baptist, one Congregational (Forest Street), one German Lutheran (Mackenzie Street), one United Methodist, one Bible Christian, three Primitive Methodist, and one Jewish. A Roman Catholic cathedral is in course of erection, and is estimated to cost £80,000. Convent of our Lady of Mercy, with day school for young ladies. St. Paul's (Church of England) has an excellent peal of bells, and St. Kilian's (Roman Catholic) has a bell of unusually large dimensions. There are several State schools (Nos. 1,165, 1,189, 1,551, 1,566, 1,267, 1,316, 877, 323, 1,976), and others. The district has been created a bishopric in connection with the Roman Catholic denomination, the Right Rev. Martin Crane, D.D., having been appointed the first bishop. Several of the principal insurance companies have agents in Bendigo. There are five Fire Brigades, No. 1, City, Temperance, Golden Square, and Long Gully, each well manned and equipped. The first three are connected with

lookout tower day and night by telephone. There are also several street alarms in the city. Among Societies and Lodges are Bendigo Agricultural Society, Foresters, Oddfellows, Rechabites, Sons of Temperance, Orange, Masonic, Australian Natives, Buffaloes, Druids, Catholic Benefit, St. Andrew's, St. Vincent de Paul's, Dorcas, and St. Paul's Societies. The Bendigo Philosophical Society, established in 1897 by the poet Gay, gives a course of free lectures annually in the Town Hall. Mining operations in the entire Bendigo district give employment to 4,864 miners. Some of the mines are working 3,400 feet deep with good results. The greatest depth of any shaft in the colony is the Lazarus, in Bendigo, which has already sunk over 3,424 feet, and is still being sunk. Gold yield, 1899, of district, 235,596 ozs. Coaches leave Bendigo Union Hotel daily for Lockwood, East Shelbourne, Woodstock, Newbridge and Tarnagulla. Of late the area of land under cultivation has extended; wheat is the principal crop. Population 30,199. The newspapers are the *Bendigo Advertiser*, the *Bendigonian* (weekly), the *Bendigo Independent*, and the *Bendigo Evening Mail*.

BENDOC (37° 10′ S. lat., 148° 54′ E. long) (co. Croajingolong, shire Orbost, electoral district Gippsland E., police district Bendoc), a post town on Bendoc river, lying 303 miles ENE. Melbourne is reached by horse to Orbost, coach to Cunninghame (14s.), steamer to Bairnsdale or Sale, rail thence. There is one hotel, and a State school (No. 1,166). Gold yield 1899, 1,081 ounces. Water from tanks and wells and Bendoc Creek. Formation: Granite, sandstone, and slate. Population of district about 500.

BENGWORDEN (co. Tangil, shire Bairnsdale), post town, 161 postal miles E. of Melbourne. Reached by rail to Stratford, coach thence Tuesdays, Thursdays, and Saturdays, 3s. 6d., return 5s. Has Roman Catholic church, State school, Mechanics' Institute. Lake Victoria is 4 miles distant. Tertiary formation. Agricultural and pastoral district.

BEREMBOKE (37° 47′ S. lat., 144° 15′ E. long.) is situated in the south Riding, shire of Ballan, county and electoral district of Grant, at a distance of 46 (87 postal) miles W. from Melbourne. Easiest access from Melbourne, by rail to Ballan (16 miles), thence by conveyance, residents must take Meredith route. It is situated on Swallow Tail Creek. It is a purely agricultural and pastoral district, not a township, having only a post office, State school (No. 1,017), and a Presbyterian church. To the east of it, at a distance of about two miles, are the Brisbane ranges, in which are a few wild deer and hares. Population about 90.

BERRINGA (county and electoral district of Grenville, police district Cape Clear), is a post town near Mount Misery, 100 miles from Melbourne, to which communication is by coach to Newtown, 1s., and thence rail. Hotel: Kangaroo. Mechanics Institute. Police station. Water from reservoir. A mining and pastoral district, with a population of about 200.

BERRINGAMA (56° 25′ S. lat. 147° 50′ E. long.) on Junction Cudgerwa and Betomba creeks (co. Benambra, shire Towong), small post township. 245 miles N. from Melbourne. Rail to Tallangatta, tri-weekly coach thence. Hotel (3 miles distant), State school (2,967), cheese factory. Picturesque mountain scenery. Pastoral district. Granitic formation. Sparsely populated.

BERWICK (38° 1′ S. lat., 145° 21′ E. long.), a small post town and shire, savings-bank, money-order and telegraph station, on the Cardinia creek, 26¾ miles SE. of Melbourne, and 8 miles from Dandenong (co. of Mornington and electoral district of Dandenong and Berwick, police district of Bourke). Height above sea-level 165 feet. It is a railway station on the Gippsland line; fares, 3s. 6d. and 2s. 6d., return, 5s. 3d. and 3s. 9d. There are numerous farms in the neighbourhood; dairy farming is principally followed. Oats, peas and beans, potatoes, artificial grasses, and hay are principally grown. There are also many large gardens and orchards. The Mechanics' Institute has a library of 1,100 volumes. Bank: Commercial. There are I.O.O.F. and Agricultural Societies, Anglican, Presbyterian, and Roman Catholic churches and Christian meeting-house. A post-office, court-house, State school (No. 40), two girls' schools, and grammar school for boys. The hotel is Bain's, and there are two large stores, a resident doctor, and a chemist. Lighted with kerosene. Net annual value of ratable property in shire, £43,780, area 387 square miles, dwellings 950, ratepayers 1,595, rate 1s., 7,968 acres under cultivation. The railway station is on the south side of the township. Mountain scenery. Geological formation: volcanic, and sandstone overlying granite. Population of town, 636; of shire, about 6,500.

BET-BET (36° 55′ S. lat., 143° 45′ E. long.), a postal township, in the counties of Talbot and Gladstone, electorate of Dunolly, police district of Maryborough and Dunolly, and shire of Tullaroop, on the Bet-Bet creek, between Dunolly and Maryborough, 121 rail miles NW. of Melbourne, and about 25 miles from Castlemaine. Height above sea-level, 580 feet. Bet-Bet is a railway station on the line from Castlemaine to Donald. Two trains daily to Melbourne; fares, 21s. 9d. and 14s. 6d. Golden Valley Hotel. State school (No. 1,661) in the township. Places of worship belonging to Presbyterians and Christian Disciples. There are numerous alluvial diggings in the vicinity, and many rich quartz reefs; farming, too, is largely followed. Annual value of ratable property in shire, £21,450, area 345 square miles, dwellings 1,800, ratepayers 897, rate 1s., 75,621 acres under cultivation. Population of the town, 200; of shire, 3,500.

BETHANGA (36° 7′ S lat., 147° 10′ E. long) is a post town with a money-order office, savings bank and telegraph office, near the Mitta river, 201 miles NE. of Melbourne. It is in the county and electorate of Benambra, shire of Towong, and police district of Beechworth, 201 miles from Melbourne, and 638 feet above sea level, and is reached by train to Bethanga Road, a station on on the branch line, from Wodonga to Tallangatta; fares, 32s. 9d. and 21s. 9d.; a coach running between the railway station and Bethanga; fare, 1s. Hotels: Star, and Albion, in Bethanga; Commercial and Court House in Lower Bethanga. Bank of Australasia. It also has a State school (No. 1,883), Anglican, Wesleyan, and R. C. churches. Athenæum and free library, having 210 vols. Court of petty sessions is held here. Grazing and farming are carried on in the district, and the climate is mild. Formation: granite. Auriferous ore very refractory. Silver and copper have been found. Gold yield for 1899, 9,300 ozs. Population about 950, of district, 1,200.

BEULAH (36° S. lat., 142° 30′ E. long.) co. and shire Karkarooc, electoral district Swan Hill and Donald, and police district Stawell. It is a railway station on the Yarriambiack Creek, 240½ postal miles NW., and has a post and money-order office, telephone, and telegraph station and savings bank. Fares from Melbourne £2 2s. 11d. and £1 8s. 8d. It has two hotels, National and Commercial banks, State school (No. 3,109), Wesleyan, Church of England, Baptist, Presbyterian, and Roman Catholic denominations and Salvation Army. Water from creek and tanks. Lighted with kerosene. District is agricultural, and the soil is a productive sandy loam. Chief industry is wheat-growing, also excellent fruit is grown; there are three implement manufactories. Social institutions: Mechanics' Institute, M.U.I.O.O.F., A.N.A., I.O.R., Christian Endeavour Society, and various sport clubs. It is a new settlement in the mallee country. Area of shire 1,778 square miles; area under cultivation 187,299; in wheat 184,100 acres; population 3,700, valuation £31,807, rate 1s., ratepayers 844. Population, town 400, district about 1,300. Newspaper: *Record* (J. P. Murphy, proprietor), every Thursday.

BEVERIDGE (37° 39′ S. lat., 144° E. long.) is a post-town on the Sydney road, in the county of Bourke, electorate of East Bourke, police district of Wallan Wallan, riding and shire of Merriang. It is a railway station, 27 miles NE. from Melbourne. Fares, 4s. 8d. and 3s. 2d. There are the Shire Arms hotel, a State school (No. 1,476), Wesleyan, Presbyterian and Roman Catholic churches, and shire hall. It is situated on the slope of an extinct volcano, locally known as Mount Fraser. Height above sea level, 989 feet. The nearest streams are Deep creek, about 4 miles to the west, and Merri Creek, 3½ miles to the east, water from springs. It is an agricultural and grazing district, area of shire 121 sq. miles, population 776, ratepayers 304, rate 9d., net annual value ratable property, £15,174, acres under cultivation 1,787. Formation: Basaltic. Population, about 105 (in township 90).

BIRCHIP (136° S. lat., 142° 30′ E. long.), a post-town (214½ postal miles NW.), and shire, with money-order, telegraph offices, and savings bank, in the county of Karkarooc, electoral district of Donald and Swan Hill, police district Wirmbirchip, on Dunmunkle Creek. Communication with Melbourne is by rail *viâ* Donald, St. Arnaud, and Maryborough. State school, Commercial and National Banks, Roman Catholic, Wesleyan, Presbyterian and Anglican churches, mechanics' institute and free library (500 volumes), A.N.A. and Agricultural Society, also two coffee palaces. Birchip, Commercial, and Shamrock hotels. Court of Petty Sessions held fortnightly. Town lighted with kerosene. A coach runs to Wycheproof twice a week, to Beulah once a week. The district, which is both agricultural and pastoral, is famous for its wheat and for raising of stock. It is centrally situated in best agricultural area of mallee country, and is divided into allotments varying from 320 to 640 acres, 124,851 acres, chiefly in wheat, being under cultivation. Area of shire, 572 sq. miles; rate 1s.; valuation £27,790. Population of town and district, 3,000. Newspaper: *Birchip Advertiser and Mallee Agriculturist*, published on Wednesdays.

BIRREGURRA (38° 18′ S. lat., 143° 50′ E. long.) (county Polwarth, shire Winchelsea, southern division police district, on the Barwon river), a post-town, with savings bank, telegraph, and money-order office, Sherren's Creek running through the township, 83¼ miles SW. of Melbourne, and 12 miles from Winchelsea. Height above sea level, 389 feet. It is a station on the Melbourne and Port Fairy Railway. Fares, 15s. 1d. and 9s. 11d. It is the junction of the Otway Forest line. Hotels: Commercial, Native Youth, and Royal Mail. State school here (No. 723); another State school at Gerangamete East (No. 1,581). Places of worship: Episcopal, Wesleyan, Presbyterian, and Catholic. Industries: a brickfield. Bank: Colonial. Free Library (1,500 vols.). Lodge No. 30, I.O.O.F. It is a place of petty sessions. The country to the N. consists of plains, broken by the Volcanic Hill, Mount Gellibrand; to the S. of heavily timbered ranges; and to the W. and SW. of undulating well-grassed rises. The district is a farming and grazing one, and is famous for cattle and dairy produce. It is described as a pretty locality, and is the nearest road to the watering place Lorne (Loutit Bay), also to Murroon, Deans Marsh, Bambra, Middleton, Apollo Bay and Cape Otway. At the back of the township may be seen the Otway ranges, with Warrion Hill showing in the distance. The Barwon river furnishes the water supply. Formation: volcanic to N., carbonaceous rocks, and recent surface drift. Population of district about 600.

BISMARCK. *See* CALLAWADDA.

BLACKBURN (co. Bourke, shire Nunawading), is a rising township on the Blackburn Creek, and is picturesquely situated. It is a railway and telegraph station and post town, 10¾ miles NE. from Melbourne. Has hotel, eucalyptus factory, school, Wesleyan, Anglican and Congregational churches, and public hall. Fruit-growing district. Population about 600.

BLACKWOOD (37° 29′ S. lat., 144° 21′ E. long.) lies 56 miles (72 postal) WNW. of Melbourne, on the river Lerderderg, county Bourke, shire Ballan, electorate Bourke West, central bailiwick police district. It is a postal, money-order, savings bank and telegraph township, the telegraph office being at Red Hill, the centre of the locality. The surrounding country is hilly and heavily timbered, and is not well adapted for tillage. It is reached by the coach from Trentham Railway Station; coach fare 2s. 6d. Hotels: Prince of Wales, Cann's Family at Red Hill, and Royal Mail at Golden Point. Blackwood is divided into three small townships, named respectively Golden Point, Red Hill, and Simmons' Reef, all within an area of three miles; of these Red Hill is the leading one. The mechanics' institute has a library of 1,800 vols. There is a court-house for holding petty sessions, warden's and revision courts, Rechabites and Oddfellow's lodges, and a State school at Golden Point (No. 1,074). The water supply is derived from the Lerderderg river. A reservoir at the head of the river stores water in case of scarcity. Quartz mining, yield 1899, 3,473 ozs., and saw-milling are carried on. The scenery of Blackwood attracts many visitors. A mineral spring, which is growing in favour with invalids, is here; its waters are said to be beneficial. Eight miles distant is Mount Blackwood. Population about 1,050.

BLAKEVILLE (co. Bourke, electoral district W. Bourke, shire and police district Ballan), post town on Korweinguboora Creek, 53 postal miles NW. from Melbourne. Rail to Ballan (8 miles), coach thence Tuesday, Thursday and Saturday, 2s. 6d. return. There is one hotel, a State school (No. 1,247), a church used by all denominations, a mechanics' institute, and free library (900 vols.). I.O.R. Society. Saw-milling, lath-splitting, and firewood industries. Formation: volcanic and silurian. Population about 400.

BLOOMFIELD (co. Buln-Buln, shire Warragul), a railway station, with post-office on the Sale Line, 2 miles from Warragul, 63 postal miles E. from Melbourne on Hazel creek. It has hotel, mechanics' institute (in which Anglican and Wesleyan services are held), free library (900 vols.), State school (No. 2,712), stores and creamery. Industries: Agriculture, dairy produce, &c. Population about 350.

BOLAC. *See* LAKE BOLAC.

BOLWARRAH (37½° S. lat., 144° E. long.), co. Grant, electoral district Warrenheip, police district Gordon, shire Bungaree, 50 miles WNW. It is reached by rail to Ballaarat, coach thence, 2s. 6d. return, tri-weekly; also train to Wallace, thence ordered conveyance. It is on the Moorabool river. Has post-office, Walker's and Fern Tree hotels; State schools (Nos. 840 and 1,454); Wesleyan church, Church of England at Musk Creek, 3 miles, and Roman Catholic at Ormond, 3 miles. Water from springs. Fern gullies and mineral springs in district. District is mining and agricultural. Formation: partly volcanic, partly silurian. Population about 400.

BONANG (co. Croajingalong, shire Orbost), on Bonang River, postal township near NSW. border, 292 miles from Melbourne. Reached by rail to Bairnsdale, boat to Cunningham, coach to Orbost, horse thence. Has hotel, State school (2,808). Mining and pastoral locality. Population 150.

BONNIE DOON (37° S. lat., 145° 50′ W. long.), co. Anglesey, electoral district Anglesey, and shire of Mansfield, north eastern police district, is a post town, and telegraph and railway station on the Mansfield line, 118¾ miles NE. on the Brankeet Creek, fares 21s. 3d. and 14s. 3d. There is a butter factory here. Hotels: Commercial and Junction. State school (2,098), Roman Catholic Church, Anglican and Wesleyan, services in Protestant Hall. Orange lodge, No. 72. Town lighted with kerosene; water from creek and tanks. District is principally mining and pastoral. Formation: volcanic; sedimentary and conglomerate. Granite on tableland. Population about 300.

BONTHERAMBO (36° 30′ S. lat., 146° 30′ E. long.), a post-town, the post office taking the name of Boralma, in the county of Bogong, electoral district of Wangaratta and Rutherglen, police district of Rutherglen, central riding of N. Ovens-shire, 165 miles NE. of Melbourne. It is reached by rail to Springhurst, thence coach five miles. State school (No. 2,574). It is an agricultural district, undulating country, the soil being clayey, well adapted for cereals. Bontherambo is 12 miles from Wangaratta, and 12 from Rutherglen. Population of district, 200.

BOOLARRA (co. Buln Buln, shire Morwell), a railway and telegraph station and post-town on the Morwell line, 101 postal miles E. from Melbourne. Has Wesleyan church, three hotels, and State school. Streets lighted with kerosene. Timber industry. Agricultural and pastoral district. Coal has been found in locality. Population nearly 300.

BOOMAHNOOMOONAH (co. Moira, shire Yarrawonga), 162½ postal miles NE. of Melbourne. Reached by rail to Telford, thence conveyance 10 miles. Has post-office, and two State schools (Nos. 2,249, 2081). Anglican church, creamery. Agricultural, viticultural, and pastoral district

BOORHAMAN (36° 30′ S. lat., 147° E. long.), county Bogong, shire and electoral district North Ovens, police district Wangarratta, is a post-township (delivery Monday, Wednesday, and Friday), on the river Ovens, 163 miles NE. from Melbourne, which is reached by coach to Wangaratta, tri-weekly (2s 6d.), thence rail. It has two hotels, creameries, two State schools (1,996)(3317), hall, Roman Catholic and Wesleyan churches. Water from wells. Lighted with kerosene. District is agricultural, and formation alluvial. Population of district about 200.

BOOROOPKI (36° 48′ S. lat., 141° 10′ E. long.), a post-town, with money-order office, county Lowan, shire Kowree, police district Apsley, 268 miles W. of Melbourne, and 22 miles NE. from Edenhope. It is reached by rail to Goroke, thence coach. A fine lake (Charlegark) of fresh water is here, with good fishing. Lake Booroopki is about two miles distant, and has also good fishing. The district is principally occupied by farmers and selectors. Has temperance hotel. The land south of the township is stated to be very poor; to the N. and W. it is medium grazing country. Good fox-hunting.

BOORT (36° 10′ S. lat., 143° 43′ E. long.), a postal centre with money-order office, savings bank, and telegraph station in the county of Gladstone, electorate of Korong, and police district of Sandhurst, 169 miles NW. of Melbourne, on shores of Lake Boort. It is a railway station on the Korong Vale and Quambatook extension, being 18 miles from Korong Vale. Railway fare from Melbourne, 30s. 5d. and 20s. 2d. Hotels: Commercial, Royal Exchange, Railway Terminus, and Boort. Churches: Anglican, Presbyterian, Roman Catholic, and Wesleyan. Has coach factory, implement factory, and foundry. A flour-mill, three stores, and numerous tradesmen's places of business. State school (No. 1,796), Mechanics' Institute, with library of 1,050 volumes; I.O.R., M.U.I.O.O.F. and A.N.A. societies; a branch of the National Bank of Australasia, brick court-house, post-office, creamery, an Agricultural Society, are among the chief institutions of the town. A large storage tank on the hill supplies water to the town. Splendid lake in the vicinity. A coach runs to Kerang twice a week; fare, 10s. The surrounding country is rich pastoral, agricultural, horticultural and viticultural land, well grassed and watered, and heavily timbered, large belts of mallee scrub being interspersed, found to be excellent wheat land. Excellent gypsum deposits have been found. Formation: Limestone and clay. Population, 500; with neighbourhood, 1,200. Newspaper: *The Boort Standard*, published every Friday.

BORONGAROOK (co. Polwarth, shire Colac), postal township, 6 miles south of Colac. Population 50.

BOROONDARA SHIRE. *See* CAMBERWELL.

BORUNG (co. Gladstone, shire Korong Vale), a post town with telegraph and railway station, 156¼ miles N.W. of Melbourne. Has Presbyterian church, State school, Mechanics' Institute, hotel, creamery, and various stores. Streets lighted with kerosene. Water from dam. Agricultural and pastoral district. Population about 50.

BORUNG SHIRE *See* WARRACKNABEAL.

BOWEN (41° S lat, 146° 17′ E. long.) (co. Buln Buln, shire South Gippsland), a township (with postal bag) on River Franklin, with tramway communication to Franklin River railway station, thence train to Melbourne, 112 miles SE. There is a public hall where Church of England and Wesleyan services are held, and Government wharf. River and bay fishing, also shooting in neighbourhood. It is the principal depôt for Corner Inlet fish. Population about 60. Agricultural district.

BOWENVALE, county Talbot, shire Tullaroop, police district Maryborough; a post town with telegraph, money-order, and savings bank offices, 117 miles NW. of Melbourne. Maryborough, 5 miles distant, is the nearest railway station. Reached by coach, 6d. There are here 10 hotels, State school (No. 1,207), Roman Catholic, Wesleyan, and Anglican churches, Mechanics' Institute, public library, A.N.A. Society, and police-station. It is chiefly a mining locality, and is mainly dependent on the Duke mine in the neighbourhood. Water from local reservoirs. Population of district, 700.

BOWMAN'S FOREST (36° 28′ S. lat., 146° 38′ E. long.) is a postal centre, in the county of Bogong, Ovens electoral district, and police district of Everton, shire Beechworth. 171¾ postal miles NE. of Melbourne, situated on the Ovens river. It is a railway station on the Myrtleford line, fares, 30s. 5d. and 20s. 2d. Agriculture extends over the north half of the district, and alluvial and quartz mining over the east. State school (No. 822). Grazing in the chief industry. Hop and tobacco growing, dairying and creamery. Population, inclusive of vicinity, is stated at 400.

BOX HILL (37° 49′ S. lat., 145° 17′ E. long.), a post-town, with money-order, savings bank, and telegraph office. It is a Suburban railway station (fare, 9d. and 6d.), 9¼ miles NE. of Melbourne, county of Bourke, shire Nunawading, electorate Dandenong and Berwick, Nunawading division, police district of Bourke. Hotels: White Horse and Railway. State school, college, and girls' high school. It is about 5 miles from Kew, on the Three Chain Road to Healesville. Churches: Anglican, Presbyterian, Wesleyan, United Methodist, Plymouth Brethren, and Salvation Army. Bank: Branch English and Scottish. Masonic and Oddfellow (M.U.) lodges, and I.O.R. tent. The town is lighted with gas, and water is laid on. The area of the shire is 23½ square miles, and the net annual value of ratable property £35,033, dwellings 1,011, ratepayers on roll 840, rate 2s., 2,548 acres under cultivation, 1,652 acres being orchards and market gardens. Newspaper: *Reporter*, published on Friday. Population, 1,420; shire, 4,218.

BRANDY CREEK. *See* BULN BULN.

BRANXHOLME (37° 50′ S. lat., 141° 48′ E. long.) (county of Normanby and electorate of Portland), on the Arrandoovong creek, 213¼ postal miles W. of Melbourne. A post-town, money-order office, and telegraph station, with savings bank. It is a railway station on the Ararat and Portland line, being 38 miles from Portland and 16 miles from Hamilton. Fares from Melbourne, 38s. 2d. and 25s. 7d. Height above sea level, 411 feet. Hotels: Branxholme, Junction. There are three places of worship, belonging to the United and Free Church Presbyterians and Primitive Methodists; Episcopal and Roman Catholic services held weekly; State school (No. 1,978), at South Branxholme (No. 906), police station, A.N.A. association, Mounted Rifles, and Improvement Society. Industry: cheese factory. Mechanics' Institute and free library (1,300 vols.). Court of Petty

Sessions is held here every Friday. Splendid caves about 12 miles E. Famous Condah swamp about 2 miles. Good cycling roads. Pastoral district, famous for potatoes, onions, etc. Population of town about 400; with vicinity, about 2,000.

BRAYBROOK (37° 48′ S. lat., 144° 53′ E. long.), shire and post town, with telegraph office at Braybrook Junction, situated on the Saltwater river, in the county of Bourke, electoral district of Footscray, and police district of Footscray, 7½ rail miles W. of Melbourne, with which there is railway communication: fares, 8½d. and 6½d. Braybrook is becoming an important manufacturing centre, and from its position at the junction of the Northern and Western railway systems and its proximity to the city and shipping no more suitable spot for factories could be selected. The water supply is from the Yan Yean. The Braybrook Hotel. State schools (Nos. 1,102—3,113). Anglican and Wesleyan churches. The Australian Explosive and Chemical Company (Limited), have extensive works near here at Deer Park, manufacturing nitro-glycerine explosives, dynamite, blasting powder, acids, and other chemicals; also Cooper and M'Kenzie's "Rendite" factory The Braybrook Implement Company have large works; there is also a large smelting and testing establishment; and there are boiling-down establishments under Custom House supervision. The Phœnix fireworks factory is here. Blue-stone is extensively quarried in the locality. Maribyrning race course, of about 130 acres, in the immediate neighbourhood. Annual value of ratable property in the shire £28,655, area 92 square miles, dwellings 307, ratepayers 1,360, on voters' roll 327, rate 1s., 4,716 acres under cultivation, chiefly hay. Population of the shire, about 1,380.

BREAK O'DAY. *See* CORINDHAP.

BRIAGOLONG (37° 54′ S. lat., 147° 0′ E. long.), a post-town with telegraph, money-order, and savings bank office, in the county of Tanjil, electorate of N. Gippsland, and police district of Briagolong, foot of Australian Alps, 10 miles N. of the township of Stratford, and 11½ miles NE. of Maffra, in a rich agricultural district on Feestone Creek. It is a terminal station on the branch line from Maffra, 143¼ miles E. of Melbourne. Hop, maize, potato, and sugar beet grown. Gold has been discovered in the immediate vicinity. There are here Briagolong Hotel, wine hall, Presbyterian and Roman Catholic churches, coffee palace, a State school (No. 1,117), a Mechanics' Institute and free library, with 1,242 vols., a creamery, wine and cider industries, three stores, two bee farms, and police station; water derived from wells. Lighted with kerosene. Population, 125, of district 2,000.

BRIDGEWATER ON LODDON is a small post-town, with telegraph, money-order office and savings bank, and railway station in the co. and police district of Bendigo, shire of Marong, electorate of Mandurang, 126¼ miles NW. from Melbourne on the Loddon. Fares, 22s. 7d. and 15s.1d. Height above sea level, 456 feet. It has five hotels. A branch of the National Bank; four churches—Wesleyan, Presbyterian, Episcopalian, and Roman Catholic; mechanics' institute and free library (910 vols.), a flour mill, manufacturing the well-known "Roller brand," creamery and a cheese factory. State school (Nos. 1,097); water from wells. Lighted with kerosene. Good roads for cyclists. Agricultural district. River Loddon passes through township. Population about 200.

BRIGHT (36° 44′ S. lat., 146° 58′ E. long.), a post and mining township, with money-order office, savings bank and telegraph station, and centre of the shire of that name, at the junction of Morse's creek with the Ovens river; 196¼ miles NE. of Melbourne (counties Delatite and Bogong, Ovens electorate, and Beechworth police district). It is a terminal station on the railway extension from Everton; fares, 35s. 3d. and 23s. 5d. Coaches run daily to Wandilgong and Harriettville. The Bright Water-works Trust supplies the township with water from Baker's Creek. It is lighted with kerosene. Easy ascents of the Buffalo mountains are made from here, also of Bogong, Feathertop, St. Bernard, &c. The district is largely patronized by tourists during summer months. There is snow on the surrounding mountains from May to December. Hotels: the Chalet, Alpine, and Star. Banks: Australasia and National. Bright has a State school (No. 776), Anglican, Presbyterian, Roman Catholic, and Wesleyan churches; Salvation Army, an Athenæum with 2,000 volumes, police buildings, fire brigade, and a court-house, and in the vicinity a brewery and saw mill. Chief industry is gold mining. Has Masonic, Rechabite and A.N.A. societies. Oats, wheat, maize hay, tobacco, and hops are the chief crops under cultivation; of wheat there were in 1900, 1,727 acres. Ratable property in shire assessed at annual value of £22,838, area 2,000 square miles, dwellings 1,037, ratepayers 1,210, rate 1s. Population of town, 500; of shire, 4,500. Formation: slate and sandstone, with belts of granite. The local journal is *The Alpine Observer*, published each Friday.

BRIGHTON (37° 57′ S. lat., 145° 0′ E. long.) (county of Bourke, electorate of Brighton), police district of Bourke, a watering-place on the east shore of Port Phillip Bay, is 7½ miles SE. from Melbourne, of which it may almost be considered a suburb, as it is in direct railway communication with it, trains running at intervals of thirty minutes. There are stations at North Brighton (7¼ miles), Middle Brighton (8¼ miles), and at Brighton Beach (9 miles), fares, 8d. and 6d.; the line is extended to Sandringham (Picnic Point), from whence horse trams run round the beach (affording visitors some beautiful views) through Beaumaris and on to Cheltenham railway station, fares for round trip from Melbourne, 2s. On the Mordialloc line there are stations at Mackmain East and South Brighton. Hotels: Terminus, Council, Devonshire, Grimbley's, Marine, Higgins' Railway, Brighton Club, Exchange, and Rankin's Railway. There is a fine coffee palace, the Oriental, at North Brighton. It is a favourite residence for the citizens of Melbourne, and abounds with handsome villas. Market gardening, to a limited extent, is carried on in the outlying parts of East and South Brighton. Area, 3,288 acres, 2,208 dwellings, and property of the net annual ratable value of £71,200; rate 2s. in the pound; revenue over £10,000, ratepayers on roll 2,198. There is a coast line of about 4 miles, extending from the boundary of St. Kilda to South Road. There are two baths Kenny's, for ladies and gentlemen opposite the Brighton Beach Railway Station, and the Corporation at the foot of Park Street. Middle Brighton. There are two fine piers and a long sandy beach, for enjoying the invigorating breezes that blow across the bay. Branches of the Commercial, and English and Scottish Banks are here. The Melbourne Orphanage is an important institution, and is situated in Dendy Street in the midst of extensive and well-kept grounds. There are several schools—among others, Brighton Grammar School, Hailey bury College, State schools (Nos. 2,083 and 1,542), and a number of private schools; a free library, containing upwards of 7,500 volumes, numerous places of worship of all denominations, and Town Hall and public offices, erected in 1886. Among local institutions are two Masonic lodges, two Reading Rooms, Sailing Club, two Bowling Clubs, Tennis, Football, Cycling, and Cricket Clubs, and various benefit societies. The principal streets are lighted with gas and asphalted, and it has a post, telegraph, savings bank, and money-order office. Formation: pliocene tertiary. Population, 9,824. Newspapers: *Brighton Southern Cross*, and *Leader*, published weekly.

BRIM (co. and shire Borung), post town with telegraph and railway station, 231 (229 rail) miles NW. of Melbourne; fares, 41s. 2d and 27s. 5d. Has Wesleyan and Baptist churches, State school (2,995), coffee palace, wine shop, hotel, and various stores. Lighted with kerosene. Agricultural district, with a population about 500.

BROADFORD (37° 14′ S. lat., 145° 5′ E. long.) (county Dalhousie, electorate Anglesey, shire Broadford, police district Bourke), a post-town with money-order, telegraph and savings bank office, on the Melbourne and Sydney Road and Sunday Creek, and a railway station on the North-Eastern Railway (main Melbourne to Sydney line), 46¾ miles N. of the metropolis. Height above sea level, 725 feet; fares, 8s. 4d. and 5s. 8d. Hotels: Railway, and Broadford. Churches: Presbyterian, Episcopal, Methodist and Roman Catholic, and Salvation Army. Branch Colonial Bank of Australasia is here. There are numerous business places, a private school, free library (1,000 volumes), a paper mill, Automatic Skim Milk Distributor factory, two sawmills of the Australian Seasoned Timber Co. are in full work in the Plenty Ranges, butter factory, a coffee palace, a tannery, and a large mechanics' hall, capable of holding 500 people. Freemasons', M.U.I.O.O.F., Sons of Temperance, and A.N.A. societies. Broadford is in the heart of an agricultural, pastoral, and mining district, and is a fine health resort; 1,221 acres are under cultivation, chiefly hay, wheat, and oats. State school here (No. 1,125). Ratable property in shire assessed at £14,000, area 218 square miles, dwellings 448, ratepayers on roll 390, rate 1s. A coach runs daily to Reedy Creek, where mining has revived. Mining is also brisk at Upper Sunday Creek, the Golden Dyke mine being a large producer. Sunday Creek, which passes through the town, abounds with fish, and its source being a spring, it runs all the year round. The geological formation on N. and W. is basaltic; on S. and E. silurian. Large beds of Kaolin clay are being worked. Mount Piper, about 2 miles SW., is a volcanic cone about 1,300 feet high, and many mineral rarities are found on it. Strath Creek falls, Talarook and Plenty Ranges, and Wild Man's Cave in the district. Population of township, 700, and of the shire 1,600. Newspapers: The *Broadford Courier*, and *Reedy Creek Times*, published every Friday morning.

BROADMEADOWS (37° 49′ S. lat, 144° 52′ E. long.), post town and shire, with money-order office, county Bourke, electorate of Bourke East on the Moonee ponds, 12 miles N. of Melbourne. It has also a railway station (2 miles distant) on the NE. line (fares, 1l½d. and 8½d.), and a place of petty sessions. Height, 408 feet above sea level. There are numerous dairy farms in the district, and two good quarries, the building stone of which was used in the construction of the old Prince's Bridge, the Chief Secretary's Office, and the old Town Hall in Melbourne. State school (No. 982). A shire hall, several stores, and hotels. Places of worship: English, Presbyterian, Roman Catholic (St. Anne's), and Christian. Ratable property in shire assessed at £24,169, area 70 square miles, dwellings 444, ratepayers 470, rate 1s., 6,612 acres under cultivation, chiefly hay. Population of town, 292; of shire, 1,300.

BROADWATER or DEEP CREEK (38° S. lat., 142° E. long.), co. Villiers, shire Minhamite. A post town, with Wesleyan church, State school (1,250), and M.U.I.O.O.F. lodge; daily mail to Port Fairy, 23 miles, thence train Melbourne. Bi-weekly mail to Bessiebelle. Mount Eccles, caves, and lakes in district. The district known as Squattleseamere swamp, 2 miles distant, contains some splendid agricultural land. Fine agricultural district, with a population of about 700. Volcanic formation.

BROMLEY (36° 53′ S. lat., 143° 43′ E. long.) (BURNT CREEK), a post town in county Gladstone, shire Bet-Bet, electoral district of Dunolly, and north-western police district. The communication with Melbourne, 120 miles SE., is by coach to Dunolly (3 miles) or Maldon, and rail thence. The Burnt creek runs through the township. Hotel: The Man of Kent. A State school (No. 55), and a Wesleyan church. There is a little agriculture, but mining is the chief industry. The land is highly suitable for fruit-growing, and for viticulture. Lighted with

kerosene. Formation: volcanic sandstone, quartz, and trap rock. Population, about 150.

BROOKLYN (co. Bourke, shire Braybrook), township on Kororoit creek and Geelong road 9 miles S.W. from Melbourne. Has hotel and State school (3,465). Rail to Footscray, thence cab. Standard quarries in district. Farming district, rich, agricultural soil. Population of district, 100.

BROOMFIELD (37° 24′ S. lat., 143° 53′ E. long.), a post town, with money-order office, 97 rail miles NW. of Melbourne. It is in the county of Talbot, shire and electorate of Creswick, on Ryrie's Creek, and is distant about 3½ miles NW. from the town of Creswick. It is a railway station on the Daylesford line, fares, 17s. 6d. and 11s. 8d. There are here a Mechanics' Institute, with library of 900 volumes, a Primitive Methodist chapel, a State school (No. 1,719), and a hotel. Farming, pastoral, and mining district. Mostly plains, surrounded by silurian and basaltic hills, the chief of which is Spring Hill. Population of district about 1,000.

BROWNS. *See* SCARSDALE.

BRUNSWICK (37° 45′ S. lat., 144° 59′ E. long.) (county of Bourke, electorate of E. Bourke boroughs) is a town, 3½ miles N. of Melbourne, with post, money-order, savings bank and telegraph offices. There is communication by railway from Brunswick and South Brunswick stations; fares, 4d. and 3d.; also by tram-cars, fares, single 2d., return 3d. There are twenty-three hotels. Brunswick is essentially one of the industrial suburbs of Melbourne, containing factories of various kinds; especially brick, terra-cotta potteries, foundries, saw-mills, horse nail factory, and quarries for raising and dressing bluestone for building and other purposes. There are four banks (Commercial, Colonial, Union, and Savings), mechanics' institute, with 3,500 vols., and several insurance agencies. Five State schools, 2 Catholic schools, 1 college and 20 private schools. Also a town hall, court-house, and places of worship of all denominations. The borough was incorporated on October 20th, 1857, and created a town April 13, 1888, and has an area of 2,722 acres, 5,044 dwellings, net annual value of ratable property being £103,000; rate 2s. 4d. in the pound; ratepayers 7,800. It is lighted with locally made gas and Metropolitan; water from Yan Yean. The population is 24,000. Newspapers: *Brunswick Medium*, weekly, and *The Reformer*, weekly.

BRUTHEN (38° 31′ S. lat., 146° 49′ E. long.), a postal town in the county of Dargo and Tambo, electorate of East Gippsland, Shire Tambo), 189 miles E. of Melbourne. The River Tambo is the nearest water. Communication with Melbourne is by coach to Bairnsdale (15½ miles), rail thence. Coaches run to Buchan tri-weekly, fare, 10s.; to Orbost once a week, fare 12s., and to Omeo daily, fare 35s. Hotels: Bruthen Inn, Royal Mail, and Star. Bank: Victoria. State school here (No. 1,141). Anglican, R.C., and Congregational churches. It has a money-order, savings bank and telegraph offices, Court of Petty Sessions, warden's office and police-station, Mechanics' Institute and Free Library (792 vols.), Oddfellows' lodge, hall, and three general stores. Shire council of Tambo meets here. Lighted with kerosene. A pastoral and agricultural district. Area of shire 1,295 square miles, with 652 ratepayers, rate 1s. 3d.; net annual value of ratable property £15,514. Land under cultivation, 2,672 acres. Formation: NE. and NW., silurian; SW. and SE., tertiary. Silver lodes at Gelantipy and Buchan attracting attention. Population about 350, shire 2,090. Local paper: the *Tambo* and *Orbost Times*.

BUANGOR (37° 18′ S. lat., 143° 8′ E. long.), a post town with money-order and telegraph office, savings bank and railway station on the Melbourne and Ararat line, fares 21s. and 14s. (county of Ripon, electorate of Ararat, and south-western police district). It lies 116¾ miles W. by N. of Melbourne, on Billy-Billy creek, where a reservoir has been constructed to supply the town with water. Height above sea-level, 1,110 feet. Two hotels, a State school (No. 2,072), public hall, Roman Catholic (St. Joseph) church, police-station, and two stores. The district is an agricultural and pastoral one, and has a population of about 1,800 persons.

BUCHAN (county and shire Tambo, police district Buchan), on the river Buchan. There are here post and money-order office, telegraph station, savings bank, cricket club, hotel, State school, Anglican and Roman Catholic churches, police station. It is 225 postal miles E. of Melbourne, which is reached by coach to Bairnsdale, 15s.; thence rail. Caves and mountain scenery. Formation: limestone. District is mining, agricultural, and pastoral. Population, 250.

BUCKLAND (36° 52′ S. lat., 146° 56′ E. long.) (county of Delatite, electorate of Ovens, police district of Bright), a series of mining settlements embracing Brookside, Lower Buckland, Camp, Upper Buckland, and Junction, Miners Right, and the Nelson, with post and money-order offices. Telegrams are received *viâ* Beechworth or Bright; on the Buckland river, 210 miles NE. of Melbourne. Communication from Melbourne is by rail to Porepunkah, coach thence to Upper Buckland, fare 5s.; to Lower Buckland, fare 3s. Hotels: Buckland and Dunphy's at Lower Buckland. There are four State schools (Nos. 917, 1,029, and 1,703), and one (No.1,663) at Brookside; Episcopal and Catholic churches, and general store at Lower Buckland. Both quartz and alluvial mining are carried on. The Buckland diggings were discovered in 1853, and have ever since been worked more or less successfully: the yield in 1899 was 12,916 ozs. Some attention is also given to farming, and a little to tobacco and hop growing. Beautiful river and mountain scenery abounds. Easy ascents of the Buffalo made from Lower Buckland. Formation: sandstone. Newspaper: the *Alpine Observer*.

BUCKRABANYULE (county Gladstone, shire Charlton, police district Charlton), is a railway station and post-town, with telegraph station, about 164¾ miles NW. of Melbourne. It has one hotel: Gladstone, store, creamery, and butter factory, State school (No. 2,783), Church of England (St. Peter's). District is agricultural and pastoral.

BULLA (37° 38′ S. lat., 144° 49′ E. long.) is a post town and a shire in county Bourke, electoral district of East Bourke, and police district of Sunbury. It lies 15½ postal miles N. of Melbourne, and is reached by mail trap from Broadmeadows, meeting Wodonga express. A line of railway has been surveyed to Bulla. The Saltwater river runs through the township, which has four hotels, a State school (No. 46), a shire hall, Episcopalian, Presbyterian and Roman Catholic (St. Michael's) churches, and an agricultural implement works. The district is an agricultural one. There are large deposits of kaolin, iron, bluestone and quartz, some of the last being auriferous. Net annual value of ratable property in the shire, £22,240, area 112 square miles, dwellings 322, ratepayers 250, rate 1s., 5,655 acres under cultivation, chiefly hay. Population, 306; of shire, 2,175.

BULLARTO (37° 22′ S. lat., 144° 18′ E. long.), a post-town (co. Talbot, electoral district of Daylesford), situated on Kangaroo creek, 69¾ miles N.W. of Melbourne, and with telegraph office, railway station on the Carlsruhe and Daylesford line; fares, 12s. 8d. and 8s. 4d. It is 2,452 feet above the sea level, and the highest railway station in Victoria. Has five hotels. It has a Mechanics' Institute, with library of 730 vols., Roman Catholic, Presbyterian, and Wesleyan places of worship, a State school, police camp, four stores and two saw-mills. Mineral springs, reputed to be of medicinal value, are here. The district is agricultural. Population, 360; of district, 750.

BULLENGAROOK (county Bourke, electoral and police district Gisborne), is a post-town 51 postal miles north from Melbourne, on Goodman's Creek. There is an hotel: Harp of Erin, State School (1,947), and Roman Catholic church. Sawmill. Good hard timber is obtained. Nearest railway station is Gisborne, 9 miles away, thence rail to Melbourne; fares, 7s. 3d. and 4s. 10d. Water supply from wells and dams. The district is mining and agricultural. Population about 300. Bullengarook East, about 4 miles away, has a post-office and a State school (No. 1,947) and the people are engaged in farming and dairying.

BULN-BULN (138° 2′ S. lat., 146° 55′ E. long.). County Buln-Buln, electorate Gippsland W., and shire of Warragul. The township is situated on the Brandy Creek, hence the name Brandy Creek, by which Buln-Buln was formerly known. It is a railway station on the line branching from Warragul to Neerim South, 66½ miles E. from Melbourne; fares, 12s. 1d. and 8s. 1d. The old township of Brandy Creek is 1¾ miles distant. The post-office and State school (No. 2,017) have been removed to the new township. Hotels: the Buln-Buln and the Turf Club Hotel. There is a post and telegraph office, a money-order office, and savings bank, also butter factory, turns out 1½ tons per week. The Roman Catholics and the Church of England have each a church. The Eden and Dwyerstead Nurseries are extensive gardens, the former at the new township. All land is taken up, and is equally suitable for agriculture or dairy purposes. All kinds of roots grow to perfection, while the luxuriant grass produces the finest dairy produced in Gippsland. The districts of Jindivick and Neerim are close, and are celebrated for their immense forests of blue gum and black butt trees. The Buln-Buln Agricultural Society in autumn hold a how, and in each spring a ploughing-match. A cattle sale is held fortnightly. Annual value of ratable property in the shire is £33,869, area 472 square miles; dwellings 980, ratepayers on roll 712, rate 1s., 20,029 acres under cultivation, chiefly in wheat, potatoes and artificial grasses. Population of town, 100; and of shire, 4,500.

BULUMWAAL (37° 40′ S. lat., 147° 32′ E. long.), postal township, with money-order office, telephone office, and savings bank, on Prospect creek (co. Dargo, shire Bairnsdale). Coach to Bairnsdale (17 miles), rail to Melbourne, 187 miles east. Coaches run north to Brookville, Cassilis and Omeo. Has two wine halls, State school (1,794), A.O.F. Court (7,950) and A.M.A., Presbyterian church, Rifle Club, and a mechanics' institute. Mining industry; yield, 1899, 7,055 ozs. Formation: silurian. Population of district 1,200.

BUNDALONG (co. Moira, shire Yarrawonga), village settlement on Wangaratta road. Has Congregational church. Rail to Yarra-wonga, 161½ miles coach, thence. Agricultural. Population about 90.

BUNGAREE (37° 37′ S. lat., 143° 55′ E. long.) a postal township with savings bank, and money-order office, telegraph and railway station, in the county of Grant, electoral district Warrenheip, Bungaree and Gong Gong divisions, and police district of Ballaarat, shire Bungaree and Buninyong, 1,845 feet above sea-level, on the Lal Lal and Two Mile creeks. It is 64 miles NW. from Melbourne, on the railway line to Ballaarat, fares 11s. 7d. and 7s. 10d. Hotels: Morning Star and Bridge. A State (No. 1,960), and a Catholic school, a court-house, mechanics' institute, and free library, Mutual Improvement Society, H.A.C.B. Society, chaff cutting works, and a police station; two churches—Episcopal (a stone building), and a wooden Roman Catholic chapel. Mount Warrenheip is 2 miles distant, and commands extensive views of surrounding country. Lal Lal and Moorabool falls are also in the district, while the soda-water springs near Eastern Moorabool is a favourite spot for picknickers. Land in the neighbourhood is very valuable, and heavy crops of hay and potatoes are raised. Net annual value of ratable property in shire, £30,326, area 88 square miles, dwellings 1,050, ratepayers 1,250, rate 1s. 6d., 18,416 acres under cultivation, in wheat, oats, peas and beans, potatoes, wheaten and other hay. Formation: volcanic. Population, 850; of shire, 5,500.

BUNG BONG (37° 45′ S. lat. 143° 30′ E. long.) (county and shire Talbot), is a post-town with railway station (119½ postal miles NW.) on Bet Bet Creek. Has Anglican church, Agricultural district. Formation: Schistose and basaltic. Diamond drill has proved the existence of a deep lead, and the Madame Hopkins mine has been sunk in it. Population of district about 500.

BUNINYONG (37° 39′ S. lat., 143° 53′ E. long.), a mining and agricultural township, with post, money-order, telegraph office and savings bank, under municipal government, in the vicinity of the mountain of the same name (an extinct volcano), on the main road between Geelong and Ballaarat (county Grant, Grenville electorate). It lies 96 miles W. by N. from Melbourne. Height above sea level, 1,471 feet. Railway communication with Ballaarat, 7½ miles; fares, 8½d. and 6½d. single; return, 1s. 1d. and 10d.; to Melbourne, 14s. 6d. and 9s. 8d. The principal hotels are—the Buninyong, Crown, Royal, Exchange, Caledonian, Eagle, and Princess Royal. In the borough (area, 3,424 acres), are 280 dwellings; the net annual value of ratable property is £6,140; rate 1s. 3d. in the pound; in the shire the assessment is £49,523, area of shire 296 square miles, dwellings 1,370, ratepayers 1,470, rate 1s. Bank: National. There is a State school (No. 1,270), and five places of worship belonging to the Church of England, Presbyterian, Catholic, Wesleyan, and Disciples of Christ communities; also a Public Library of 2,000 vols., and a court-house. Freemasons', Oddfellows', Rechabites', A.N.A. and Foresters' lodges. The mining is both alluvial and quartz, now principally the latter (the yield for 1899 being 4,750 ozs.) and gives employment to over 300 miners. The country in the neighbourhood of Buninyong is in some parts well adapted for farming operations, and the soil is very productive; but the town has been principally famous for the gold-fields in the vicinity. According to the statistics for the year ending March 1, 1900, there were 12,410 acres under cultivation, principally wheat, oats, barley, potatoes, peas and beans, and hay. About 1¼ miles distant from Buninyong is the celebrated Hiscock's reef, named after Hiscock, who is said to have been the discoverer of gold in Victoria, and to have found it in this place. Industries: Butter factory, brewery and tannery. Mount Buninyong (4,600 feet) is in the district; also monument where gold was first discovered in Victoria. Formation: basaltic lava on the west and on the east silurian, with recent surface drift. The population is 1,250; of the entire shire, 6,800. Local paper: *Buninyong Telegraph*, published Friday morning.

BUNYIP (38° 1′ S. lat., 145° 45′ E. long.), a small postal village, with telegraph and money-order office, in the county of Mornington, electoral district of Pakenham, 48 miles E. from Melbourne, and a railway and telegraph station on the Gippsland line, lying 145 feet above sea level; fares, 8s. 7d. and 5s. 8d. Has State school (No. 2,229), at Bunyip South (No. 3,201), public hall, Mechanics' Institute, at Bunyip South, Wesleyan church and Anglican services fortnightly, one or two stores, the Gippsland and Railway hotels, and several shops. The river Bunyip joins the main drain about a mile from station, and runs for 17 miles through Koo-Wee-Rup into Western Port Bay. Excellent fishing. Splendid view of Koo-Wee-Rup settlement from the township. Agricultural and pastoral district. Population of district about 1,000.

BURKE'S FLAT (36° 38′ S. lat., 143° 31′ E. long.), a post town with money-order office, 147½ miles NW. of Melbourne, in shire Korong, co. Gladstone, electorate Dunolly, police district of Rheola. Coaches run to the Bealiba Railway Station; fare, 2s. 6d.; coaches also run three days a week to Emu. Hotels: Burke's Flat and Commercial. State school (No. 1,668), one place of worship, used jointly by Episcopalians and Wesleyans, and a Mechanics' Institute, with library of 1,145 volumes. Cyanide works. Lighted with kerosene. It is a good farming and grazing district. Water from springs. Formation: silurian. Population, in town 60; district, about 650.

BURNT CREEK. *See* BROMLEY.

BURRABUNNIA (co. Bogong, shire Yackandandah), postal township, 203 miles NE. of Melbourne, a mile from the River Murray, and near "The Hermit," a rocky eminence discovered by Hamilton. Rail to Barnawartha, coach thence 4 miles. Pastoral, agricultural, and viticultural district. One of the earliest vineyards planted in the NE. district was in the parish of North Barnawartha.

BURRAMINE (36° S. lat., 145° E. long.) (Co. MOIRA, shire Yarrawonga), post town, 157½ miles NE. of Melbourne, on the Murray river. Reached by rail to Yarrawonga, thence 10 miles. Presbyterian and Roman Catholic churches, State (Nos. 2,712, 1,766) and Roman Catholic schools, two hotels, creamery, sundry stores. Burramine E. is 4 miles distant. District is agricultural, viticultural and dairying. Vast red gum forests in vicinity. Loamy soil with sand hills and scattered swamps. Population, of town and district, about 690.

BURRereo (co. Borung, shire Dunmunkle), postal village 224 miles NW. of Melbourne. Rail to Minyip, coach thence 7 miles; or rail to Donald, coach thence 24 miles. Has State school (No. 2,180), Free Presbyterian church, Mechanics' Institute. Agricultural and pastoral district. Soil is black, with clay subsoil.

BURRUMBEET (37° 28′ S. lat., 143° 4′ E. long.), a small post town (county and electorate of Windermere), on the north shore of Lake Burrumbeet, 87 postal miles W. by N. from Melbourne, and lying 1,315 feet above the sea-level. Burrumbeet is a telegraph and railway station on the line between Ballaarat and Ararat. Fares, 15s. 7d. and 10s. 6d; return, 23s. 5d. and 15s. 10d. Has two hotels, Presbyterian church, Rifle Club, State school (No. 368), and one between Burrumbeet and Windermere (No. 1,856). Also large training stables, and racecourse with well-furnished grand stand. Farming and pastoral district. The district is flat, with volcanic cones of very fertile soil at intervals, and occasional quartz ranges. Population about 100.

BURWOOD (late BALLY-SHANASSY) (37° 50′ S. lat., 145° 27′ E. long.), a postal village with money-order and savings bank office, in the county of Bourke, electoral district of Berwick, police district of Bourke, 8 miles E. of Melbourne. Cabs run from Hartwell railway station; fare, 3d. Hotels: Burwood, Tyrone. It is environed by farms and market-gardens and has a State school (No. 461). There are four places of worship, Church of England, Wesleyan, Primitive Methodist, and Presbyterian. There are villa residences in the neighbourhood. The Sherwood Park races are held here. The country is undulating, and of sandy and clayey formation. Population, 400.

BUTTLEJORRK (co. Bourke, shire Melton), postal township, 27 miles N. of Melbourne, on Mount Alexander Road. Rail to Sunbury, coach thence 9½ miles. Has hotel, State school (No. 7). Farming district, with a population of about 80.

BUXTON (37° 26′ S. lat., 145° 44′ E. long.) is a post town in the county and electoral district of Anglesey, lies 64 miles NE. of Melbourne. It is on the River Taggarty, has one hotel—the Buxton, an Anglican church, and a mechanics' institute with free library (250 vols.), State school (No. 1,669). Rail to Healesville, 4s. 6d., and 6s. 6d.; coach to Buxton, Monday, Wednesday, Friday, 7s. 6d.; coach to Alexandra, Tuesday, Thursday, Saturday, 5s. Cathedral Mount in district. A pastoral and agricultural district. Population about 60.

BYADUK (37° 53′ S. lat., 142° 58′ E. long.), a postal village with money-order office, telegraph station and savings bank, in the county Normanby, and electorate of Portland, shire Dundas, situated on Scott's creek, about 15 miles from Hamilton, to which a daily coach runs, fare, 3s. 6d., and 214 postal miles W. from Melbourne. A State school (No. 855), one flour-mill (Holmes), one store, and hotel, V. M. Rifles. Oddfellows' Lodge. Wesleyan and Presbyterian services are held weekly. State school (No. 1,418) at North Byaduk. Byaduk is chiefly noted for its remarkable caves, which are very extensive, and owing to the mephitic vapours they contain are but partially explored. Inside these caves are large deposits of guano. It is an agricultural and grazing district. A creamery and two butter factories are in operation. Mount Napier, an extinct volcano, is 8 miles NE.; Lake Condah is 12 miles SW. Population of village, 156; with neighbourhood, about 500.

CALLAWADDA (36° 40′ S. lat., 142° 5′ E. long.), postal township, a parish of Stawellshire, on Dogtrap Creek, in the county of Borung, electoral district of Kara Kara, and police district of Stawell and Glenorchy, distant from Melbourne 186 miles NW. (166 postal). Glenorchy and Rupanyup are the nearest railway stations. A mail coach from Stawell passes through Callawadda South, fare 3s. 6d. It has a State school (No. 2,750). Mechanics' institute, with free library, in which divine service is held. There are several farms, orchards and vineyards in the locality. Agricultural and pastoral district. Population about 100. BISMARCK, formerly known as Callawadda, is now deserted.

CALLAWADDA SOUTH is a postal village about 4 miles S. of Bismarck, and is situated on Dogtrap Creek, in the co. Borung, district Kara Kara, parish of Callawadda. Shire Stawell, about 186 postal miles N.W. from Melbourne, reached by coach to Stawell, 3s. 6d., rail thence. It has a State school (No. 2,750), public hall, with free library, in which Church services are held. District agricultural and pastoral; several orchards and vineyards in locality. A little fishing and shooting. The soil is rich, with clayey bottom and slatey reef Population, with vicinity, about 100.

CALLIGNEE (co. Buln Buln, shire Traralgon), postal centre 97 miles from Melbourne. Agricultural and pastoral district. Creamery and butter factory, public hall, school (No. 2,649). Rail from Melbourne to Traralgon, horse thence 13 miles to Callignee, thence 8 miles to Bulga. Population 120.

CAMBERWELL (37° 45′ S. lat., 145° 4′ E. long.) (county Bourke, electoral district of Eastern Suburbs, shire Boroondara, police district Camberwell), is suburban to Melbourne about 5½ miles E., with frequent rail communication, being a station on the Box Hill line; fares, 6d. and 5d. It has post, money-order, telegraph and savings bank offices, court-house, a State school, Grammar school and private schools, Anglican, Wesleyan, Presbyterian, Congregational, and Roman Catholic places of worship, a shire hall; two hotels: Camberwell and Sherwood. Banks: English and Scottish and Commercial Bank. Freemason and M.U.I.O.O.F. lodges. It is lighted with gas. Area of shire, 13 square miles. Dwellings, 1,660; ratepayers, 2,200; rate, 1s. 8d.; annual value of ratable property, £84,645; 950 acres under cultivation. *Camberwell and Hawthorn Advertiser* and *Eastern Suburbs Gazette* are the local papers. Population, town, 2,755; shire, 7,350.

CAMBRIAN HILL (co. Grenville, shire Buninyong), a post town, 84½ postal miles NW. of Melbourne, on the Yarrowee river, 5½ miles from Ballaarat. It has a post office, State school (No. 920), hotel, Wesleyan church and store. Mining, agricultural and pastoral district. Communication rail to Ballaarat, thence conveyance. Coach runs to Rokewood. Population about 300.

CAMPASPE. *See* RUNNYMEDE.

CAMPBELLFIELD (37° 41′ S. lat., 145° 0′ E. long.), (county Bourke, electorate of East Bourke, shire of Broadmeadows), a postal village on the Merrimerri creek. It is a railway station on the line to Somerton, 10¼ miles N. of Melbourne; fares, 10½d. and 8½d.; return, 1s. 4d. and 1s. 1d. Hotels: Cyclist's and Campbellfield. State school (No. 143); Presbyterian and Primitive Methodist chapels, potteries. The sur-

rounding country is undulating, well grassed, slightly timbered, and well adapted for farming and grazing. Population, 213.

CAMPBELLTOWN (co. Talbot, shire Creswick), post town 102¾ miles N. of Melbourne. Reached by rail to Newstead, thence coach 11 miles. Has State school (No. 1,129), one hotel, and creamery. Agricultural and mining district. Formation: Basaltic. Population about 60.

CAMPBELL'S CREEK (37° 4′ S. lat., 144° 12′ E. long.) (co. Talbot), a money-order, and post town on the creek of the same name, the east side being in Castlemaine, and the west side in Maldon electorate, shire Mount Alexander. It is a railway station on the line from Castlemaine to Maryborough, 80¾ miles NW. of Melbourne; fares, 27s. 7d. and 17s. 8d. Hotels: the Five Flags, Bennett's, Times, and the Standard. The district is a gold-mining one, the creek being marked along its course by rich workings on lower silurian formation. Some of the reefs have produced rich yields, and there should be good dredging in the creek. Large quantities of fruit grown, as much as 200 tons a season produced. The surrounding country is hilly and broken. Campbell's Creek has a brewery, a police station, and a State school (No. 120). Episcopalian, Wesleyan and Methodist places of worship. The G.U.O. Oddfellows have a lodge and the Rechabites a tent here, with brick halls. Cabs run to Castlemaine, fare 6d. Two fine bridges span the creek—Princess at the north end, and Alexandra at the south. Castlemaine general cemetery, a spacious area of about 25 acres on the west side, is tastefully laid out. The Malmsbury Reservoir furnishes the water supply. Town lighted with gas. Population, 822.

CAMPERDOWN (38° 15′ S. lat., 143° 9′ E. long.) the chief town of the county of Hampden, and electoral district of Ripon and Hampden, shire of Hampden, is situate at the foot of Mount Leura, on the main road from Geelong to Warrnambool. It is distant from Melbourne 123½ miles WSW., from Geelong 78½ W., and from Warrnambool, 42 miles NE. It is connected with the metropolis by railway, being a station on the Melbourne and Port Fairy line, fares, 22s. 4d. and 14s. 10d. The hotels are the Leura, Hampden, and Commercial. Banks: Colonial, Union and Victoria. The Shire Council offices are in Manifold Street. Courts of petty sessions are held every Thursday, and county courts sit twice a year. The town has the facilities of a post and money-order office, savings bank and telegraph station, a receipt and pay office and land office; it has also a mechanics' institute, with library of 2,521 volumes, State school (No. 114), and Roman Catholic school. Temperance, Masonic, Oddfellows', A.N.A., and Rechabites' lodges, and places of worship belonging to the Church of England, Presbyterians, Roman Catholics, Methodists, and Baptists. There is one of the largest butter factories in the colony. The Camperdown Turf Club hold their annual meeting on the Camperdown course, and the Hampden and Heytesbury Pastoral and Agricultural Association have show-grounds, where important exhibitions of stock and produce are held every spring. Horticultural Society holds two shows annually. There are also many successful butter factories and creameries in the district. Coaches run daily to Cobden, Lismore, and Darlington. The district around Camperdown is a pastoral, dairying, and agricultural one, and there is a considerable amount of country occupied for farming, fruit growing and dairying purposes in the Heytesbury Forest to the south of the town. In the shire, which is 1,030 square miles in area, are 1,090 dwellings, 1,187 ratepayers, 1s. rate, and ratable property of net annual value of £145,617; acres under cultivation 2,884. Formation: volcanic. Population, town, 1,800; shire, 5,750. Local newspaper: *Camperdown Chronicle*, an old-established journal, published on Tuesday, Thursday, and Saturday.

CANTERBURY (co. Bourke, shire Boroondara), postal suburb, 6¾ miles E. of Melbourne. Has post, money-order office, savings bank, railway station, telephone bureau and telegraph office, Presbyterian, Anglican, Baptist, Congregational and Wesleyan churches, Oddfellows, Rechabite and Debating societies, public library, State school (No. 1,026), brickworks, bicycle rubber factory, and hotel. Gas and water laid on. Rail to Melbourne. Population, over 1,000.

CAPE CLEAR (57° S. lat., 135° E. long.) post town, co. and shire Grenville, with telephone, 97 postal miles W. *viâ* Rokewood, 120 miles *viâ* Ballaarat from Melbourne, on Illabrook Creek. There are two churches, Church of England and Wesleyan; branch A.M.A.; State school (No. 1,484); two hotels—McTaggart's Cape Clear Hotel, and Conroy's Globe Hotel—police station. About 1 mile from here is the Brookside Girls' Reformatory School. There is a mechanics' institute with 400 volumes. Water from reservoir. Communication is by coach to Newtown, thence rail to Melbourne. Pitfield Plains gold mines are about 3 miles off. The district is mining, agricultural, and pastoral. Population about 350.

CARAMUT (37° 50′ S. lat., 142° 30′ E. long.), a postal, money-order, telegraph, and savings bank township on Muston's creek, in the county and electorate of Villiers and Heytesbury, police district of Warrnambool, 35 miles from Warrnambool, and 170 miles SW. from Melbourne. Coaches run to Penshurst, fare 3s. 6d.; Mortlake, fare 5s. The capital is reached by coach to Mortlake, train thence, fares 26s. 11d. and 18s. Hotel: the Western. It is situated on the main road from the seaboard northwards, about midway between Warrnambool and Hamilton. There are a State school (No. 728), a mechanics' institute with 652 volumes, police-station, court-house, and several tradesmen's premises. Presbyterian and Episcopal services are held on alternate Sundays in the Church of England. Pastoral district. The water supply is obtained from a reservoir. Formation: bluestone is abundant, and the surface is apparently volcanic. Population, 204.

CARAPOOEE (county and shire of Karakara), postal village with railway station on the Donald line, 152¼ postal miles NW. Has post-bag, hotel, two schools, and a Anglican church. Agricultural, mining and pastoral pursuits. Population about 100.

CARDIGAN (37° 35′ S. lat., and 143° 42′ E. long.) is a parish, county Grenville, electorate Windermere, shire Ballaarat, with the post-office of Cardigan, on the N. boundary, 79 miles (80¾ postal) NW. of Melbourne. The railway station on the Ballaarat to Linton line is within 1½ miles from the post-office, fares, 14s. 3d. and 9s. 5d. It is 1,409 feet above sea-level. Hotel, the Crown and Sceptre, in Dowling Forest, about half a mile away. It is almost on the highest point of the Watershed, the nearest water, Burrumbeet Creek, being at Miner's Rest, 3 miles to the N. A State school (No. 668), and a Presbyterian Gothic church are within half a mile of the post-office. The district is agricultural in the N., dairy farming in centre of parish, and mining to SW., where is the township of Haddon (4 miles). Formation: chiefly basaltic, with some quartz.

CARDINIA CREEK (38° S. Lat., 145° 5′ E. long.) (co. Mornington, shire Berwick; postal township 40 miles SE. of Melbourne, on creek of name. Has State school (No. 2,139) and public hall. Rail to Beaconsfield, cab thence; or rail to Officer on Gippsland line, or Clyde on Great Southern line. Part of Koo-Wee-Rup swamp. Population, 75.

CARGARIE (37° 48′ S. lat., 144° 0′ E. long.), a small postal station in the county of Grenville, police district of Meredith, and shire Buninyong, 85¾ miles W. of Melbourne, on the creek of the same name. State school (No. 1,151), in which religious services are held. Elaine is the nearest railway station. A pastoral and agricultural district. Formation: basaltic. Population, with vicinity, about 180.

CARISBROOK (37° 2′ S. lat., 143° 51′ E. long.), in the county of Talbot, electoral district of Maryborough, a municipal town with post and money-order office, post-office savings bank, and telegraph station, on Tullaroop, and Deep creeks. It is a railway station on the Castlemaine and Maryborough line, 108¼ miles NW. of Melbourne; fares, 19s. 3d. and 12s. 3d. The hotels are the Carisbrook, Railway, Nag's Head, and Britannia. Height above sea evel 634 feet. The municipality has an area of 5,395 acres, 276 dwellings, and ratable property of annual value £6,018; rate 1s. in the pound. There is a mechanics' institute, with library of 1,360 volumes, in the town, and an agency of the London Bank. Carisbrook has a court-house, police quarters, town hall, market hall, and weighbridge, botanical gardens and park, court of petty sessions, four churches (Episcopal, Presbyterian, Wesleyan, and Roman Catholic), State school (No. 1,030) M.U.I.O.O.F. and A.N.A. lodges, and race-course. Waterworks Trust. Lighted with kerosene. Omnibuses run to and from Maryborough, fare 6d. The district is an agricultural and mining one, gold yield 1899, 13,549 ozs. Formation: silurian and trap rock. Population town and district about 2,000.

CARLSRUHE (37° 18′ S. lat., 144° 32′ E. long.), county of Dalhousie, electoral district of Lancefield and Dalhousie, shire of Kyneton, is a post town, 53 rail miles N. by W. of Melbourne, 48½ by road, on the Campaspe river. Height above sea level 1,800 feet. The railway station on the Melbourne and Echuca Railway is about 2 miles distant; fares, 9s. 5d. and 6s. 6d. There is a State school (No. 115) Hughes' hotel, Carlsruhe, and a Presbyterian church. It lies in the midst of a farming and pastoral country, and produces some good building stone, which is easily dressed. Population, town, 150, district, 600.

CARLTON (37° 48′ S. lat., 144° 59′ E. long.), a part of Melbourne, to the north, in the co. of Bourke, about 1½ miles N. from the Post-office, bounded on the E. by Fitzroy, on the N. by Brunswick, and on the SW. by North Melbourne. Tramcars and cabs run at frequent intervals fare, 3d. It contains the University, a fine pile of buildings, and affiliated colleges in connection with the Church of England, Presbyterian and Wesleyan Churches (there is also a site for a Roman Catholic College), adjoining which is the building containing the nucleus of the National Museum, situated in extensive grounds; Children's Hospital, Women's Hospital, fine brick police court and watch-house, a female refuge, the Trades' hall, 5 State schools (Nos. 112, 1,073, 1,252, 2,365, 2,605), University High School, foundries, flour mills, timber yards, a brewery, boot and cordial factories, Episcopal, Roman Catholic, Presbyterian, Congregational, Baptist Wesleyan, Wesleyan Primitive Methodist, Catholic Apostolic, and Bible Christian churches; Masonic, A.N.A., M.U.I.O.O.F., Foresters and Druids Societies, branches of the Victoria, Commercial, Colonial, London, and Savings banks; and an extensive park, called the Carlton (sometimes Exhibition) Gardens, neatly laid out (in which is the Exhibition Building, where the International Exhibitions of 1880, and the Centennial of 1888, were held), and the Prince's Park, near the University, a very fine reserve, largely used by Sports clubs, and the General Cemetery. The last-named is situated on high ground, and tastefully laid out. The column to the memory of Sir Charles Hotham, a former Governor, is a notable monument, as is also the massive monolith erected over the remains of the unfortunate explorers Burke and Wills. As an historical record the tombstone to the memory of Derrimut has considerable interest. He was chief of the Melbourne tribe at the time of the first settlement, and, owing to the timely notice given by him, the party were preserved from assassination. There is here a post office, telegraph, savings bank, and money-order office. The railway line to Heidelberg runs along the northern boundary; there is a station at Wilson Street, Princes Hill, lighted with electricity. Population of district about 34,000. Local paper: *Carlton Advertiser*.

CARNGHAM (37° 35′ S. lat., 143° 35′ E. long.) (shire Ripon, county and electorate of Grenville), post town, 119 (98 postal) miles W. by N. of Melbourne, on Baillie's creek. The goldfields of Smythesdale and Lintons are within 8 miles of the town. Stations and farms occupy a great portion of the district. Coaches run to Ballaarat, 16 miles distant, three days a week, fare 1s. 6d., a coach twice daily to Smythesdale, 8 miles, fare 1s., where the railway is met. Hotel: The Carngham. There is a State school (No. 146). It is claimed that Carngham is one of the oldest townships in Victoria, having been settled before Ballaarat; Lake Burrumbeet is 6 miles distant, and Mount Emu 10 miles. District chiefly pastoral. Formation: silurian. Population, about 100. (See also SNAKE VALLEY.)

CASHEL (DOOKIE SOUTH) (36° 22′ S. lat., 145° 40′ E. long.), a postal township, with money-order and telephone office, and savings bank, in the county of Moira, electorate of Benalla, North-Eastern police district, 156 postal miles NE. of Melbourne. Communication is by rail to Dookie, thence ordered conveyance. It is an agricultural district; vine and olive growing are also rapidly extending; water from springs. It is rich in all classes of minerals. One of the Government experimental farms is here. There is accommodation for 40 students, who receive a thorough practical agricultural education. Distillery in vicinity. Geological formation: silurian (diorite rocks through the hills), limonite in vast quantities, patches of fresh-water limestone here and there. Population of district, 637.

CASSILIS (co. Dargo, shire Omeo), postal and mining township, with money-order office and telephone bureau, 214 miles E. from Melbourne, which is reached by coach to Bairnsdale, thence rail. Has State school, two hotels, Roman Catholic and Wesleyan churches, Mechanics' Institute, Oddfellows' lodge; water from wells and tanks; mining district, metamorphic formation. Population about 400.

CASTERTON (37° 36′ S. lat., 141° 25′ E. long.), a post town, money-order, savings bank, and telegraph station, counties of Follett and Dundas, electoral district Normanby, shire Glenelg, on the W. bank of the river Glenelg, 3 miles distant from its junction with the Wannon, on the main road from Melbourne to Adelaide. It is a railway station, 245¼ miles W. of Melbourne, being the terminus of the line from Branxholme. Fares, 43s. 10d., 29s. 4d. The hotels are the Glenelg, Albion, Casterton, Bridge, and Traveller's Rest. There are places of worship belonging to the Church of England, Wesleyan, Roman Catholic, Salvation Army, and Presbyterian bodies; State school (No. 2,058), Casterton College, a mechanics' institute and free library with large hall (3 665 volumes); branches of National, Victoria, and Colonial Banks, Freemasons', Foresters', Rechabites', A.N.A., Sons of Temperance and W.C.T.U. societies, eight stores, a foundry and implement works, and a fine post and telegraph office. Lighted with kerosene. There are numerous stations in the district, most of the available land has been taken up by selectors, being suitable for agricultural pursuits, particularly along the course of the river, the soil being rich, with an abundance of water in all seasons. There is a splendid quarry of granite in Wando Vale, and a steam flour-mill has been erected at the entrance to the town, between the two bridges. During 1900 the Government purchased the Wando Vale Estate of 10,500 acres (close to the town), to subdivide into farms; of these there are 66, ranging in value up to £1,250. This is the first estate of the kind purchased by the Government, and the experiment is being closely watched. There were over 300 applicants for the 66 blocks. Silver, gold, and coal have been proved to exist in the district. Casterton is situated in the shire of Glenelg, in the centre of a rich agricultural district, the area of which is 1,456 square miles, population 4,302, and the annual value of ratable property £81,712, 830 dwellings, 1,333 ratepayers, 1s. rate. Wheat, oats, hay, and artificial grasses are chiefly cultivated, 10,992 acres being under cultivation. Newspaper: *Casterton News* (E. F. Hughes, Proprietor), published every Monday and Thursday evening. Population, 1,250, including district, 4,000.

CASTLE DONNINGTONSHIRE. *See* SWAN HILL.

CASTLEMAINE (37° 4′ S. lat., 144° 14′ E. long.), county of Talbot, electoral and police district of Castlemaine, is located at the junction of the Barker's and Forest creeks, 78 rail miles NNW. of Melbourne, and is an important station on the railway from Melbourne to Echuca, is also connected with a branch line to Maryborough, and by that route with Ballaarat and the western districts. Five trains run daily to and from the metropolis. Fares, 13s. and 8s. 9d. The hotels are the Criterion, Castlemaine, Imperial, Cumberland, Royal, Corner, Bedford, Goldsmith's, Supreme Court, and many others. The town, which is under municipal government, is pleasantly situated, the streets are well laid out and planted with trees, and the buildings, both public and private, are such as befit a town of considerable magnitude. Height above sea level 919 feet. It has an area of 5,760 acres, 1,100 dwellings, 1,150 ratepayers, and the net annual value of ratable property is £31,616; rate 1s. in the pound. The most notable of the public edifices are the Benevolent Asylum, public offices containing the post, savings bank, and telegraph, land and survey, water supply and treasury departments, town hall (with fine stage and scenery) and municipal offices; the hospital, the Supreme Court, the mechanics' institute, which has a library of 7,902 volumes, school of mines, orderly rooms, and the churches: there are several schools (two State, Nos. 119 and 2,051, and Roman Catholic) and a theatre—the Royal. The Australasia, Victoria, New South Wales, National, Savings and Colonial Banks have branches here, and the principal insurance companies have agencies. The gaol has accommodation for 120 prisoners. The town is lighted with gas, and supplied with water from the Malmsbury and Expedition Pass reservoirs. A coach runs to Fryerstown daily, fare, 2s. The diggings in the neighbourhood were once very numerous, and were among the first discovered in Australia. The number of miners in the district is 5,121. Total yield of the district for 1899, 77,421 ozs. There has been a great revival in mining in the district; hydraulic dredging is firmly established with satisfactory results; one plant is at work within the borough itself. The quarrying of slate and flagging is also largely carried on in the district. Vine and fruit growing are carried on to a considerable extent in the neighbourhood of the town, the apples grown have commanded high prices in London, but it is on the mining capabilities and agricultural resources of the district that the prosperity of the town depends. Several minerals beside gold have been found. A large woollen mill, two breweries, and two tanneries do a considerable business. In and round Castlemaine there is a large area of land under cultivation. A handsome market is erected in the principal part of the town. Castlemaine is strongly recommended by the medical faculty for consumptive, asthmatical, and other invalids. The estimated population of the town is 5,103. Newspapers: The *Mount Alexander Mail*, published daily; *Leader*, daily.

CAULFIELD (37° 51′ S. lat., 143° 54′ E. long.), a postal shire with telegraph and money-order office and savings bank, in the county of Bourke, and electoral districts of Eastern Suburbs, Toorak and Brighton, 7½ postal miles E. of Melbourne, lying 169 feet above sea level, and connected to Melbourne by railway; fares, 6½d. and 5½d. Hotels: Caulfield Club, Ross Town, and London Tavern. It has numerous places of worship, including Church of England, Wesleyan, Congregational, Presbyterian, Baptist Union, Church of Christ, Primitive Methodist, and Free Church of England. Court house, concert hall, two State schools, grammar school, and a shire hall. Caulfield contains many large business places and private residences. The streets are lighted with gas. The water supply is from the Yan Yean. There is a splendidly-equipped race-course here, which is the headquarters of the Victorian Amateur Turf Club, and the races run for are only second in value and importance to those of the V.R.C. Annual value of ratable property of shire, £102,607, area, 9½ square miles; dwellings, 1,915; ratepayers, 4,000; rate 2s. 0d. 635 acres under cultivation, chiefly market gardens. Population of town and district about 8,700. Local newspapers: *Caulfield and Elsternwick Times*, *Caulfield and Elsternwick Leader*, published on Saturdays, and *Recorder*, Wednesdays.

CAVENDISH (37° 30′ S. lat., 142° 1′ E. long.), a post town, with money-order, savings bank, and telegraph offices, in the county and electorate of Dundas, on the river Wannon, 193 miles (214 postal) W. of Melbourne, and 17 miles N. from Hamilton, the nearest railway station, to which place coaches run three times a week. There is an hotel—the Bunyip, library and reading-room (702 vols.), and one store. The Presbyterians, Primitive Methodists, and Roman Catholics hold services here, and there is a State school (No. 116). The district is mainly occupied for grazing purposes. Population about 210.

CERES (38° 11′ S. lat., 144° 19′ E. long.), a post town, in the county of Grant, electoral district of Grant, police division Mount Moriac, situated on one of the most prominent hills of the Barrabool, about 6 miles nearly W. of Geelong, and 51 miles SW. of Melbourne. Rail to Geelong, special cab thence, 10s. The river Barwon runs from W. to E., 2 miles N. of the village. The Waurn Pond chain of ponds lies about 2 miles S. One inn, the Barrabool, a State school, Church of England, Wesleyan chapel, Temperance hall, and two stores. Formation principally of sandstone covered with yellow clay, with black and chocolate soils. Immediately surrounding Ceres is beautiful undulating country, commanding a view of a vast landscape of plains and forest, with Mounts Moriac, Pollock, and other elevated land, and also an extended view of Bass Straits. Freestone quarry here. Population, 194; with vicinity, 280.

CHARLTON (36° 2′ S. lat., 143° 1′ E. long.), shire Charlton, county of Gladstone, is situated upon the Avoca river, 173 miles NNW. of Melbourne. It is connected by railway. Fares, 31s. 2d. and 20s. 8d. The leading hotels are the East Charlton, Globe, Cricket Club, Golden Fleece, and Vale of Avoca. It has a money-order, post, and telegraph offices, also a subtreasury and savings bank in connection with the post office. The district institutions include Agricultural Society, Turf Club, Cricket Club, Mechanics' Institute (with library of 1,600 volumes). The Masons, Oddfellows, Druids, Hibernians, A.N.A. & Rechabites have lodges, and there are several Insurance agencies, and a branch of the Australian Natives Association. The Anglicans, Presbyterians, Free Presbyterians, Wesleyans and Roman Catholics have churches, and there is a State school (No. 1,480). There is a coach daily to St. Arnaud railway station (28 miles); fare, 5s.; and to Wooroonooke, Granite Flat, Cherrup, Jeffcott and Donald, on Wednesdays and Saturdays. The district is essentially a wheat growing one (of the 81,215 acres under cultivation 51,246 were in wheat), and in addition to the large amount of grain annually sent to Melbourne, two large steam flour-mills are continually kept at work during the whole of the year; a foundry and coach factory in full work, and an implement factory on the opposite side of the river. A county court is held half-yearly. Large auction sales of stock are held fortnightly at Charlton, making it the market town for the agricultural areas of Wychitella, Wooroonooke, Wycheproof, Woosang, Buckrabanyule, Yeungroen, Conoor, Jeffcott, Banyenong, Teddywaddy, Dooboobetic, West Charlton, Glenloth, Lake Marmal, Bungeluke, Ninyeunook, Cooroopajerrup, Towaninnie, Quambatook, and Wedderburn. Local banks: Victoria, Australasia, and Commercial. Forma-

tion : limestone. Area of shire, 455 square miles ; dwellings, 800 ; ratepayers on roll, 635 ; rate, 1s. ; net annual value of ratable property, £36,381. Population : town, 1,000 ; shire, 2,600. Local journal : *East Charlton Tribune*, Wednesday and Saturday mornings.

CHATSWORTH (37° 50′ S. lat., 142° 38′ E. long.), post town, situated on the west side of the river Hopkins, in the county of Villiers, and electorate of Villiers and Heytesbury, shire Mt. Rouse, 167 miles (177¼ postal) due W. of Melbourne, on the Great Northern road from Warrnambool to Ararat. Tri-weekly mail to Wickliffe. Chatsworth Hotel. There is a State school (No. 1,382), in which Presbyterian services are held. Pastoral district. In the neighbourhood is the Hopkins Hill estate. Population about 80.

CHELTENHAM (37° 57′ S. lat., 145° 6′ E. long.), (county Bourke, electorate of Brighton), postal township, with savings bank, telegraph and money-order office, telephone exchange and bureau, 13¾ miles SE. of Melbourne, and 5 miles from Brighton. It is a station on the Mordialloc line ; fares, 1s. 9d. and 1s. 4d. The hotels are the Exchange, Cheltenham, and Royal Oak, with several private boarding-houses near the beach (1½ miles W.). The land is of a very sandy nature, well suited for market gardens. State schools, at Cheltenham (No. 84), at Heatherton (No. 938). Churches : Episcopal, Wesleyan, Presbyterian, and Disciples of Christ. Bank : English and Scottish. A court-house and mechanics' institute, with a library of 2,260 volumes ; a creamery, and a Protestant hall, which is used for large public gatherings. Lighted with gas. A Convalescent Home for men, Home of Mercy, and a Rescued Children's (Livingstone) Home. Government experimental scent farm here. Population, 310, or, including Beaumaris on the W., and Heatherton on the E., both joining, about 1,500. A horse tram runs at intervals to Sandringham ; fare, 9d.

CHEPSTOWE (37° 35′ S. lat., 143° 30′ E. long.), a post town, in the county of Ripon and electoral district of Grenville and police district of Carngham, situated on Baillie's creek. It lies 125 (104¾ postal) miles W. of Melbourne, and is reached by rail to Smythesdale, and coach thence ; coach fare, 2s. Agricultural and pastoral district. There is a State school (No. 867). Formation : basaltic. Population, about 80.

CHETWYND (37° 17′ S. lat., 141° E. long.), a post town, in the county and electorate of Dundas, and police district of Harrow, Shire of Glenelg, on Chetwynd Creek, 275 miles (266½ postal) W. of Melbourne, on the road from Casterton to Harrow, distant from the former 25 miles, and from Harrow 14 miles. A coach runs to Harrow, fare 5s. and to Casterton, fare 10s., thence by rail to capital. Hotel : the Chetwynd. State school (No. 2,738). Places of worship : Roman Catholic (St. Michael), Church of England (visited). Two stores. Water from tanks. The district is a grazing and farming one. Formation : sandstone. Population, 60 ; of district about 300.

CHEWTON (37° 5′ S. lat., 144° 15′ E. long.), formerly FOREST CREEK, is a municipal town, with post money-order office, savings bank, and telegraph station in the county of Talbot, and electoral and police district of Castlemaine, situated on Forest creek, 1,093 feet above the sea level, on the main road between Melbourne and Castlemaine, 75 rail miles N. by W. of Melbourne, and 3 miles from Castlemaine, to which conveyances run every hour. The railway passes through Chewton, fares, 13s. 5d. and 8s. 11d. Hotels : Red Hill, Commercial, Mount Alexander, Chewton, and others. There are two State schools (Nos. 1,928 and 1,054), Anglican, Roman Catholic, Wesleyan, Congregational, and Primitive Methodist churches. Mechanics' Institute (850 volumes). M.U.I.O.O.F. & I.O.R. societies. It is supplied with water from the Expedition Pass Reservoir, and lighted with kerosene. There is a tannery in the town. The district is essentially a mining one. The area of the municipality is 5,760 acres ; there are 296 dwellings, and ratable property of the net annual value of £5,902 ; rate 1s. in the £. Formation : lower Silurian. Population, 1,400.

CHILTERN (36° 9′ S. lat., 146° 37′ E. long.), the central town of the shire of Chiltern, is 168½ miles by rail NE. of Melbourne, 691 feet above sea-level on the main Melbourne and Sydney road and North-Eastern Railway, in the county and electorate of Bogong, police district of Beechworth. Chiltern has been settled about 40 years. There is communication twice daily with Melbourne by the North-Eastern Railway ; fares, 30s. 5d. and 20s. 2d. Coaches also run daily from Chiltern to Beechworth, Howlong, Brown's Plains, Indigo, and the Claims. Hotels : the Star, Royal Mail, Council Club, Hotel de Paris, Exchange, Commercial, Empire, Telegraph, and others. It contains several good shops and business places. The Government buildings are : court-house, post, money-order, savings bank, and telegraph offices, railway station, fire brigade station, police-station, and State school, all commodious, well-built brick buildings. Net annual value of property in the shire is £11,960. Area, 89 square miles ; dwellings, 650 ; ratepayers, 705 ; on roll, 291 ; rate 1s. The Black Dog or Doma-Mungi Creek flows within a mile of the township, and forms a junction with the Murray at about 20 miles distant. The nearest point of the Murray is about 8 miles away. The town is supplied with water brought in pipes from springs in the Barambogie ranges, 4 miles distant. Banks : New South Wales and Australasia. The churches are Anglican, Roman Catholic, Presbyterian, and Wesleyan, with resident ministers. Societies : A.M.A, H.A.C.B.S., A.O.F., and A.N.A. There is an excellent swimming bath. The Athenæum has a library of 2,400 volumes. State schools (Nos. 327, 1,984, and 2,804). Local affairs are under the control of the Shire Council, who have offices in the town-hall. The district is mining, agricultural, and viticultural. Wheat, oats, and grapes are the principal crops. Geological formation : schist and sandstone. The population of the township, covering an area of about 2 square miles, is 1,365, of the shire 2,700 ; 1,698 acres under cultivation. Newspaper : *Federal Standard* (Friday).

CHINAMAN'S FLAT (37° 0′ S. lat., 143° 43′ E. long.) is a postal township in the county of Talbot and electorate of Talbot and Avoca, Shire Tullaroop. It lies 115½ miles NW. of Melbourne, and within 2 miles of Maryborough to which coach fare, 6d. State school (No. 714), and a Wesleyan chapel. Population about 200, chiefly engaged in alluvial and quartz mining pursuits.

CHRISTMAS HILL (37° 40′ S. lat., 145° 20′ E. long.) a farming district (with a post-office), county Evelyn, shire Eltham, and police district of Yarra Glen. It lies 35½ postal miles NE. of Melbourne, on Watson's creek, and adjoins the mining district of One Tree Hill, and a part of the Caledonia gold-fields. Rail to Yarra Glen, thence coach, 4 miles distant ; fare, 3s. There are a mechanics' institute and library (900 volumes), a State school (No. 1,362), and Anglican church. The land generally is of poor quality. Dairying and vine-growing industries. Christmas Hill is an excellent health resort. Slate and gold have been found at Watson's Creek. Population about 250.

CHUTE (county Ripon, shire Hampden, electoral district of Hampden, police district Beaufort), is a post-town on Emu Creek, 118 miles NW. from Melbourne. Rail to Beaufort, 10 miles, conveyance thence. There is a store, a school (No. 902), and Primitive Methodist church. The district is mining and agricultural. Populaion about 100.

CLARENDON (or CORDUROY) (37° 45′ S. lat., 144° E. long). is in the county of Grant, electoral district of Grenville, and police district of Buninyong, 83 (91 postal) miles WNW. of Melbourne. Nearest water, Williamson's creek. Lal-Lal, 3 miles distant, is the nearest Railway Station. Hotels : Clarendon and Corduroy. It has a State school (No. 2,081), Wesleyan, Roman Catholic, and Presbyterian churches. Agricultural district. Population, 120 ; of the district, 1,239.

CLAYTON (county Bourke, shire Mulgrave), post and railway station, 12 miles from Melbourne. Has three hotels, Church of England, tennis court, State school. Agricultural district. Population, 50.

CLEMENTSTON (county Talbot), post-town with money-order office, 93¼ miles NW. of Melbourne. Reached by rail to Allendale, thence 3 miles, and has a Wesleyan church, State school, mechanics' institution, police station, hotel, various stores, Mining district. Population about 600.

CLIFTON HILL (37° 47′ S. lat., 145° E. long.), county Bourke, electoral district East Bourke Boroughs, within the boundaries of the Collingwood city, 3 miles NNE. of Melbourne, with which it is connected by cable tramway ; fare, 3d. A station is also here on the Melbourne to Collingwood and Heidelberg railway ; fares, 6d. and 5d. Cabs also run to Northcote and Preston ; 3d. Two substantial bridges span Merri Creek, on which Clifton Hill is situated. Branches of the Commissioners, Savings Bank, National, and London Banks are here, and one of the largest State schools (No. 1,360), also King's College, Girls' High School, School of Music, and other educational buildings. Has post, money-order and savings bank offices and telegraph station. There are Freemasons, G.U.O.O.F., I.O.O.F., U.A.O.D., and I.O.R. Societies. Old Colonists Homes are here. Principal hotels : United Kingdom, Normandy, Royal, and Clifton, last having bowling-green. All religious denominations are represented. Has large hall, with stage, and several large boot manufactories. It has two reserves, the Mayor's Park, and Darling Gardens (15 acres), pleasantly situated ; it stands very high, and the inhabitants have a good view of the surrounding country. Lighted with gas. Population, 6,000. Newspaper : *Tribune*.

CLUNES (37° 18′ S. lat., 143° 47′ E. long.), an important borough with post, money-order, savings bank, and telegraph office and railway station on Creswick and Tullurоop creeks (county Talbot), Clunes and Allendale electorate, 97¼ postal miles NW. of Melbourne. The communication with Melbourne is by rail, three times daily ; fares, 17s. 6d. and 11s. 7d. Principal hotels : The Club, National, Town Hall, and Court House, and numerous others. The municipal area is 5,760 acres, with 675 dwellings, net annual value of ratable property £10,418. Rate, 1s. 4d. in the £ ; with about 30 miles of streets formed. It lies 1,081 feet above sea-level. Gold was first discovered here on July 1, 1851. The mining yield for 1899 was 11,938 ozs. Work of a progressive character being done the North Port Phillip mine by a London syndicate. Efforts are being made in London to float other mines. Banks : Union, and London, and the principal Insurance Companies have agencies in the town. There are Anglican, Roman Catholic, Presbyterian, Wesleyan, Bible Christian, Primitive Methodist United, and Salvation Army places of worship ; also at North Clunes there is an Anglican Mission chapel. The town, which is picturesque and considered very healthy, possesses a hospital, butter factory, free library and reading room, with 3,450 vols., State schools (Nos. 136 and 1,552), Masonic, I.O.R., A.N.A. and M.U.I.O.O.F., lodges, one Roman Catholic and two private schools, and a court house. The streets are partly lighted with gas, while the town and mines are well supplied with water from the Bullarook forest. Cattle sales are held at the market each Wednesday. The Clunes Agricultural Society holds its exhibitions here. A hospital fête is held annually. The waterworks, which are the most perfect of their kind in the colony, cost £70,195 ; the reservoir at Newlyn has a capacity of 255,000,000 gallons. There are 15 miles of reticulation in the town, mining, agricultural and pastoral. Formation : basaltic. Population, 2,900. Local paper, the *Clunes Guardian*, published Tuesdays and Fridays (Wallis and Giddings, Proprietors).

CLYDE (31° 5′ S. lat , 145° 20′ E. long.) is a township with railway station and post-office, in the county of Mornington, electoral district Mornington, police district Bourke. The soil is loamy, and of medium quality. Clyde is on the Creek Clyde, 32½ miles SE. from Melbourne by rail, fares, 5s. 2d. and 3s. 5d. It has a Church of England, public hall and free library (330 vols.), State school (No. 118), and a general store. Population, 267.

CLYDEBANK (38° 5′ S. lat., 147° 10′ E. long.) a postal district in the county of Tanjil, electorate of Central Gippsland, police district of Sale, shire, South Avon; and lies to the NE. of Sale, and 139 miles SSE. of Melbourne. The soil is in general fertile. Hares are plentiful, and there is good snipe, duck, and swan shooting in the season. Anglican church, Wesleyan chapel, State school (No. 1,304) in which postal business is transacted, are on the main road, and distant about 11 miles from Sale, and 3 miles from Lake Wellington. Milk condensing and butter factory. Horse to Sale, rail to Melbourne. Agricultural and pastoral pursuits are followed. Population about 200.

CLYDESDALE (36° 10′ S. lat., 144° E. long.), a postal station, on Jim Crow creek, 90 miles (97¼ postal) N. by W. of Melbourne, in the county of Talbot, electoral district Daylesford, shire, Mount Franklin. There is a railway siding at Strangways, about 2 miles distant. State school (No. 900), Wesleyan church. There are diggings and numerous farms in the district. Formation: volcanic. Population, 250.

COALVILLE (county Buln-Buln, shire Narracan), is a postal station on the Moe railway line, and Narracan Creek, with money-order office, telegraph station and savings bank, about 85½ miles from Melbourne. It has a State school, hotel, and Wesleyan places of worship. Coal has been found. Population, about 100.

COBDEN (38° 19′ S. lat., 143° 6′ E. long.), a post town, with telegraph, savings bank and money-order office on Cobden Creek, tributary of Curdie river, in the county and shire of Heytesbury, and electoral district of Villiers and Heytesbury, police district Geelong, 136½ miles SW. of Melbourne. Shire Council meets here. It is a station on the Curdie River line; fares, 24s. 6d. and 16s. 5d.; coach to Camperdown twice daily, 2s. 6d. return. Hotel: Cobden. Agency of the National Bank, a State (No. 864) and private schools; Oddfellows', Rechabite, H.A.C.B., and Orange societies. Episcopal, Presbyterian, Roman Catholic, and United Methodist places of worship, Temperance and Oddfellows halls, three stores and about twenty other business places, police station, and monthly Court of Sessions, cheese and butter factories, with creameries at Port Campbell, Scott's Creek, South Purrumbete, Bostock's Creek, and Dixie. It is a pastoral district of volcanic formation. The country to the north is undulating and very fertile. Deep gullies to the S. and W., with the "most lovely fern and musk trees," while Heytesbury forest is being rapidly opened up. The water supply of Cobden is derived from house tanks and wells, also a reservoir, which was constructed by the Hampden shire. Town lighted with kerosene. Area of shire, 708 square miles; dwellings, 753; ratepayers, 914; rate, 1s; net annual value of ratable property, £43,814. Acres under cultivation 1,611. Population, township, 450; of shire, 3,250. Local papers: *Cobden Times and Heytesbury Advertiser* and *Reformer*, published Wednesdays and Saturdays.

COBRAM (36° S. lat., 145° E. long.), a post town, with telegraph, money-order and savings bank office, on the Murray River, in the county of Moira, electoral district of Yarrawonga and Benalla, and police district of Benalla, Shire of Tungamah. It is a terminal station on the Numurkah and Cobram line, 155 miles NE. of Melbourne; fares, 27s. 8d. and 18s. 7d., return, 41s. 8d. 28s. A coach runs to Berrigan (NSW.) every day. Hotels: Cobram and Victoria. Banks: National and Australasia. There are in the township I.O.O.F., A.N.A. societies, Presbyterian, Anglican, Roman Catholic, and Wesleyan churches, a State school (No. 2,881), police station, Court of Petty Sessions, chemist, sawmills, foundry, sundry stores and tradesmen's shops, resident physician, Racing, Rowing, Rifle, Football, Tennis, and Bicycle Clubs, mechanics' institute and public hall, capable of seating 400 persons. It is an agricultural district. Vine, dairying, fruit, and wine industries. The local race club holds its meetings, and shows are held annually under the auspices of the Cobram Agricultural and Pastoral Association. Shooting, fishing, and boating. Lighted with kerosene. Formation: clay and sand. Newspaper: *Cobram Courier*, published every Thursday. Population of district about 2,000.

COBUNGRA, a mining site, in the county of Bogong, electorate of Omeo, 246 miles NE. of Melbourne. The route from Melbourne is by rail to Bright, coach thence to Harriettville (25 miles), horse or conveyance thence. Formation: basaltic.

COBURG (51° 44′ S. lat., 144° 59′ E. long.) (county and police district of Bourke, electoral district of East Bourke Boroughs), a shire and suburb of Melbourne, with post, money-order, savings bank, and telegraph office, 5 miles distant N., on the Merri and Moonee Ponds Creeks. There is also railway communication; fares, 4d. and 3d. Tram cars run frequently from the terminus of the Melbourne Tram Company at Moreland Road; fare, 2d. (with 1d. sections) the fare from Melbourne to Moreland Road also being 2d. Hotels: Corner, Golden Fleece, Nugget and Woolpack, Post Office, Coburg, Commercial. It derives its importance from being the locale of a large gaol, called Pentridge, in which over 700 convicts can be accommodated. Newlands and Bolingbroke are within the district of Coburg. There are two State schools, mechanics' institute, Freemasons' and Oddfellows' lodges, Anglican, Wesleyan, Presbyterian, Primitive Methodist, Baptist, and Roman Catholic churches. Bank: Commercial. Police station, flock and weaving factories. The streets are lighted with gas. The Yan Yean affords the water supply. It is a place of petty sessions. In Coburg shire annual value of property is £36,557; area, 7½ square miles; dwellings, 1,117; ratepayers, 3,557; rate, 2s. 3d.; 583 acres under cultivation. The local newspapers are the *Coburg Leader* and the *Coburg Advertiser*, weekly. The geological formation is basaltic. Population of shire, 6,000.

CODRINGTON (county Villiers, shire Belfast), postal township (loose bag), 200 miles W. of Melbourne, which is reached by rail to Port Fairy, coach thence. Has State school (No. 1,613). Agricultural and pastoral district, with a population of about 300.

COGHILL'S CREEK (37° 22′ S. lat., 143° 40′ E. long.), county of Talbot, electoral district of Clunes and Allendale, and police district of Ballaarat; a post town, on the creek after which it is called, 114 miles (96¾ postal) WNW. of Melbourne. It is 10 miles from Creswick, and 6 from Clunes, from both of which towns there is railway communication with Melbourne *viâ* Ballarat, or by Mount Blowhard (4 miles S.) on the Wanbra line. In the township are three churches—Catholic, Wesleyan, and Presbyterian, creamery, implement works, a hotel (Farmers') and a State school (No. 1,523). Agricultural district. Population, about 600.

COHUNA (county Gunbower, shire Kerang), a post-town, with telegraph station, and telephone to Kerang on the Gunbower Creek, 205 postal miles N. Communication is by rail to Edmea, coach thence. Has State school (2,502), Bible Christian church; water from tanks. District is agricultural, and pastoral.

COIMADAI (36° 20′ S. lat., 145° 5′ E. long.) is a post town, in the county of Bourke, electoral district of W. Bourke, and shire of Bacchus Marsh. It lies on the Coimadai creek, 34 miles (37½ postal) NW. from Melbourne, which is reached by hired conveyance to Bacchus Marsh thence rail. There is one hotel, the Coimadai, a State school (No. 716). The country is agricultural and pastoral, and there are lime works, mineral water springs and freestone quarries in the vicinity. Antimony mines are being worked. Population 80, with vicinity, about 200.

COLAC (38° 31′ S. lat., 145° 36′ E. long.), shire and post town, with money-order and savings bank office, and telegraph station on Lake Colac, 95½ miles W. of Melbourne, on the Barongarook creek. It is a railway station on the line from Geelong to Warrnambool; fares, 17s. 3d. and 11s. 7d., 436 feet above sea-level. It is in the county of Polwarth, electoral district of Polwarth and police district of Geelong. The Victoria, Commercial, Union Club, and Prince of Wales are among the leading hotels. Net annual value of ratable property in the shire (1,094 square miles) is £113,276; dwellings 1,680; ratepayers, 2,050; rate 1s. The National, Victoria, Colonial and Commercial Banks have branches, and the principal Insurance Companies have agencies. Colac has a public library, with 1,562 volumes, Victoria hall, hospital, two State schools (Nos. 117 and 2,028), besides a Catholic and High school and Church of England, Presbyterian, Wesleyan, Bible Christian, and Catholic churches, Salvation Army, and police court and station, county courts and courts of insolvency being held quarterly. Among societies and lodges are the Masonic, Oddfellows (M.U.), Hibernians and Sons of Temperance. The town is lighted with gas. Colac has a beautifully situated and admirably kept Botanic Gardens upon the banks of the lake, a fine sheet of water covering some 20 square miles, which is well stocked with English perch and carp, and also swarms with wildfowl. The annual regatta, held in December, is an extensive affair. The district is partly taken up by freehold stations, and in part by farms. By the returns of March 1, 1900, there were under cultivation 10,822 acres, the chief crops being oats, hay, potatoes, wheat, and barley. Considerable dairying. Formation: volcanic, carbonaceous rocks the north, with recent surface drift. Coal has been discovered in the district, and large deposits of iron ore and limestone exist in close proximity to the town. The Otway Forest forms part of the shire, and abounds in valuable timber. Population, 2,800; of the shire, 9,500. Local papers: *Colac Herald*, Tuesday and Friday, and the *Colac Reformer*, published Tuesday, Thursday, and Saturday.

COLBINABBIN (36° 35′ S. lat., 144° 53′ E. long.), the postal centre of a farming and pastoral district, on Cornella Creek, on the main road from Rushworth to Elmore, 17 miles W. of the former place and 11 miles E. of the latter. It is in the county and electorate of Rodney, police district of Corop, Shire Waranga, lies 121¾ postal miles N. of Melbourne, from which the rail to Rushworth, thence coach, are the means of communication. Coach fare, 6s. A coach also runs from Elmore on the Echuca line, fare, 4s. Junction Hotel. A State school (No. 1,218), and two stores. Churches: Church of England and United Methodist. The soil is a rich chocolate, very good for grain crops and vine growing. Fine landscape scenery, and fishing near. Gold has been found. Water from tanks, &c. Population 40, district 250.

COLBROOK (county Bourke, shire Ballan), postal district (loose bag) on Blakeville road, 52 miles NW. of Melbourne. It is reached by rail to Ballan, horse thence. Water from creeks and tanks. Farming, dairying, wood cutting, and mining industries. Volcanic soil. Population about 80.

COLERAINE (37° 36′ S. lat., 141° 40′ E. long.), a post town, with savings bank, money-order office, and telegraph station, in the county of Dundas, electorate of Normanby, shire of Wannon, situated on the Bryant creek, on the main road to Adelaide. It is a terminal station on the branch line from Hamilton, 221¼ miles NW. of Melbourne; fares from Melbourne, 39s. 6d. and 26s. 4d. Communication can be also had with Melbourne, *viâ* Hamilton, to Portland, and thence by steamer. The Koroit is the principal hotel, others being Coleraine, Commercial, Criterion, and National. The places of worship com-

prise churches belonging to the Episcopalians, Presbyterians, Wesleyans, and Roman Catholics. The National and Victoria Banks have branches here, and there are 8 stores. There is also a mechanics' institute and free library, possessed of about 3,600 volumes, State (No. 2,118) and private schools, butter factory, court house and council chambers. The Masons, Oddfellows, Sons of Temperance and Hibernians have each a lodge here. Portland lies 57 miles S.; Hamilton, 22 miles SE.; Casterton, 18 miles W.; Merino, 13 miles SW. The Coleraine Racing Club holds its annual meeting on May 24; a race meeting is also held on New Year's day, and Coleraine is the *locale* of the once famous Great Western steeplechases. Agricultural, pastoral, and horticultural societies hold annual exhibitions. There are numerous stations in the district, including Muntham, Konongwootong, Konongwootong Creek, Hilgay, Mount Koroit, Winninburn, Tahara, and many others. The low death rate indicates healthy locality. Most of the neighbourhood is covered with volcanic tufaceous lava; the underlie is of schistose formation, with veins of crystalline limestone. Coal has been found in small thin broken veins in the hills south of the township. Some of the hills are capped with tertiary gravel and rounded quartz, interspersed with granite detritus and ironstone nodules, sand, and clay. The town presents a picturesque appearance, being surrounded by hills. Wannon Falls about ten miles distant. It is an agricultural, dairying and pastoral district. Two reservoirs are situated near township. Village township of twenty-eight families adjoins the town. Population, 1,060. Local paper: *Coleraine Albion*, published on Friday.

COLLINGWOOD (37° 48′ S. lat., 145° E. long.), a city and suburb of Melbourne, lying between the city and the Yarra-Yarra 2 miles to the NE., county Bourke. There is a magnificent town hall (embracing post, money order, savings bank, and telegraph offices, police court, free library (6,300 vols., annual attendance over 55,000) at a cost of over £40,000, also Australasian, National, Colonial, New South Wales, and Commercial banks; 2 branches of the Melbourne Savings bank, and agencies of the principal Insurance Companies; numerous churches, and public buildings, many business premises, factories, and private residences. It is known as the pioneer municipality of Victoria, having been the first local body incorporated after Melbourne and Geelong. The city has a frontage to the Yarra river of about five miles, the entire area being 1,139 acres. Number of inhabited dwellings, 6,993; and 7,650 ratepayers. The ratable property is of the annual value of £162,001; rate 1s. 9d. in the £. Smith and Victoria Streets are the principal business thoroughfares. Collingwood is connected with Melbourne by three lines of tramways and cabs; fare, 3d. The population is principally of the industrial class. The many pleasant outlets in the neighbourhood and its nearness to Melbourne render it a suitable place for the residence of persons of moderate means. Being well drained by means of large underground sewers, Collingwood is one of the healthiest places of all the metropolitan suburbs. Gas and electricity light the city. Four bridges span the Yarra, and connect Collingwood with Kew and Hawthorn. There are six State schools (Nos. 1,886, 1,895, 2,462, 2,957, 1,360, 3,146). Population: 32,715. Local papers: the *Observer*, *Mercury*, and *Tribune*.

CONDAH (37° 57′ S. lat., 141° 35′ E. long.) is a post town with money-order, post and telegraph office, 221¼ miles W. of Melbourne, lying 401 feet above sea level. Condah is in the county of Normanby, electorate of Portland, police district of Branxholme, on the main road between Branxholme and Portland, and has a railway station, fares, 39s. 6d. and 26s. 4d. The Condah swamp has been drained and leased out in blocks of from ten to fifty acres. Good fishing and shooting in and around Lake Condah. Near to it is the aboriginal reserve, comprising 3,700 acres, known as the "Lake Condah" station, where efforts are being made in domiciling and civilizing the blacks. Hotel: Green Hills. There are two stores, cheese factory and creamery, Mechanics' Institute, parish hall. A State school (No. 1,019), and one at Spring creek and at Condah South. A Church of England (St. Thomas'), a Primitive Methodist, and a Roman Catholic church (St. Patrick's), are here. Colonial Bank open Thursdays. Coaches run to Hotspur, fare, 10s. Formation: upper volcanic, consisting of basaltic plains with trap rises. Principally a grazing district. Population of town 400, and district about 2,000.

CONDAH SWAMP (Wallacedale) (co. Normanby, shire Portland), an area of 8,000 acres, has been drained by Government. There is a post-office, store, two State schools (Nos. 3,217, and 3,332), Mechanics' Institute, in which church services are held; two cheese factories and creamery. Water from springs and tanks. Part is leased, part sold, and part is occupied as village settlement, extending for a distance of about 10 miles to Lake Condah. Population of district, about 1,000.

COONGULMERANG (county Tanjil, W. riding, shire Bairnsdale), post town, on the Mitchell river, with money-order office, telephone, and savings bank offices, 161 miles E. of Melbourne. Reached by rail to Lindenow, thence 3 miles. Has mechanics' institute and public library, M.U.I.O.O.F., court of petty sessions, police station, three State schools, eucalyptus distillery, two cheese and two creameries, insurance agencies, two hotels, Presbyterian and Anglican churches. District is agricultural and pastoral. Coongulmerang Upper is 2 miles further west.

COONOOER BRIDGE (county Gladstone, shire Charlton), postal township, 170½ NW. of Melbourne. Rail to St. Arnaud, thence coach. Has hotel, school and Wesleyan church. Agricultural and pastoral.

COOPER'S CREEK (21° 25′ S. lat., 148° 29′ E. long.), a small town (with post-bag) in the county of Tanjil, and electorate of Gippsland, central shire Walhalla, at the junction of Cooper's Creek with the river Thomson, 116 miles E. of Melbourne; communication being by coach to the Moe railway station. Hotel: Copper Mine. Episcopalians and Wesleyans use the same building as a place of worship. State schools (No. 3,007). It is an agricultural district. Formation: slate and granite. Population about 40; district about 140.

COPE COPE (36° 30′ S. lat., 143° 6′ E. long.), a post town, with money-order office, telegraph, and railway station, 175 miles NW. of Melbourne. Fares, 31s. 5d. and 21s. Farming and pastoral district. It has State school (No. 1,756); Coffee palace; Church of England, visited also by Presbyterian clergymen, and butter factory. It is in the county and electorate of Kara Kara, and is situated near the Lake of the same name. Cope Cope is dotted all over with fresh water lakes, which are frequented by numerous waterfowl. There are some salt lakes about 5 miles distant. Donald, distant 8 miles NW., is the nearest town. Population of district about 1,500

CORACK (county Kara Kara, shire Donald), is an agricultural and grazing village, with a post office, about 198½ postal miles NW. of Melbourne. Railway to Donald, coach thence 15 miles. Two boarding houses with wine licenses. A State school (No. 2,196), and No. 1,784 at Corack North, Wesleyan and Roman Catholic churches, mechanics' institute with 300 vols., and creamery. Population, township, 60; of district, which is agricultural and pastoral, 300.

CORINDHAP (Break o' Day) (37° 53′ S. lat., 143° 45′ E. long.), a postal centre, in the county and electoral district of Grenville, 92 miles W. of Melbourne on the Break O'Day Creek. Mining and agricultural district, forming part of that of Rokewood. The communication with Melbourne is by rail to Leigh Road station; fares, 9s. 11d. and 6s. 9d., and coach thence 5s.; also coach to Ballaarat on Mondays, Tuesdays, Thursdays, and Saturdays, fare, 3s. 6d. There are two hotels, a State school (No. 1,906), a Presbyterian and Anglican church, and Mechanics' Institute and Free Library, 1,400 vols. The geological formation of the district is lower silurian, consisting of schist, slate, and sandstone underlying auriferous alluvial deposit. Population: township 157, vicinity, 300.

CORINELLA (county Mornington, shire Phillip Island), a pretty seaport village on Western Port Bay, 61¼ postal miles SE. There is a post-office, State school (No. 1,392), Anglican church, and artesian wells. District agricultural and grazing. Population about 130.

CORIO SHIRE. *See* Lara.

COROMBY (county Borung, shire Dunmunkle), postal district, telephone and railway station, 190¾ miles NW. of Melbourne, on Warracknabeal. Has hotel and State school (No. 2,082). Agricultural district.

COROP (36° 27′ S. lat., 144° 48′ E. long.), a post, savings bank, telegraph, and money-order town, in the county and electorate of Rodney, shire Waranga 140 miles N. of Melbourne, on the N. bank of Lake Cooper. The Waranga Waterworks Canal passes through the township. Coach runs daily to the Elmore railway station, 12 miles distant, fare, 2s 6d. Rochester is 10 miles distant. There are three hotels. Episcopal, Catholic (St. James'), Presbyterian, and Bible Christian churches; a State school (No. 1,021), and one at Corop West (No. 1,651), a police camp, an assembly hall, mechanics' institute, with free library, having 3,056 volumes, one store, wine cellars, two blacksmiths' shops, and a creamery. Lighted with kerosene. Water from irrigation through town. It is an agricultural and pastoral district. There is a lake five miles long and two miles broad, where boating fishing, and duck shooting afford recreation; hares and rabbits are plentiful. Population, 100; district, 180.

COROROOKE (co. Polwarth, shire Colac), post township 4 miles from Colac. Has State school and two churches.

CORRYONG (36° 9′ S. lat., 149° E. long.) a post town, with money-order and telegraph office, in the county and electorate of Benambra, shire Towong, and lies about 250 miles NE. of Melbourne, and 50 from Tallangatta railway station, to which a coach runs thrice weekly, fare 15s. Hotels: Corryong and Courthouse. Presbyterian church and Church of England, in which services are also held by the Wesleyans. It has two hotels, a public hall, four stores, Athenæum (700 vols.), State school (No. 1,309), coffee palace, three wine saloons, Bank of Australasia, district and police station lighted with kerosene, branches of M.U.I.O.O.F., and several clubs. There are three large sale yards. It is in a pastoral district; local butter factory has four attached creameries, and turns out about five tons of butter a week in summer. Rich gold-mining reefs have been found at Mount Elliot and Towong about 3 miles off. Considerable dredging is done at Thongla Creek (old alluvial diggings about 15 miles south). Yield for 1899 1,608 ozs. Corryong is the nearest township on the Victorian side to Mount Kosciusko, which can be reached in one day by horse. Local guides can be obtained. Mount Kosciusko is a prominent object from the surrounding hills. Yarran-go-Billy caves can also be reached in less than two days. Formation: granite. Population of town and district 2,000. Newspaper: *Corryong Courier*, published every Thursday.

COSTERFIELD (36° 54′ S. lat., 144° 47′ E. long.), a small township, with money-order office, in the county of Dalhousie and electorate of Rodney, shire Melvor, near Major's Creek, 79¾ miles N. of Melbourne. Communication with the metropolis is by coach to Heathcote, Tuesday, Thursday, and Saturday; fare 1s., thence by rail. The antimony mines here were discovered in 1861, State school (No. 1,187), Wesleyan chapel, Roman Catholic church, and a store. The Mechanics' Institute has a library of 400 vols. Two hotels: Antimony and Golden's. Water from reservoir. Agricultural and mining

district. Two saw mills are also at work in the district. Formation: quartz and sandstone. Population, 200, with district, about 1,350.

COWES (38° 27′ S. lat., 145° 24′ E. long.), a seaport, with post-telegraph, savings bank, and money-order office, on Phillip Island in Westernport Bay (county and electorate of Mornington, shire of Phillip Island, and police district of Bourke), 55 miles SE. of Melbourne. The means of communication being by rail to Stony Point, thence small steamer; inclusive return fares, 10s. 6d. and 8s. 6d., available for three months. It is a splendid watering-place, with a fine sandy beach, and for the sportsman there is excellent fishing and shooting. There are two hotels—Isle of Wight and Phillip Island, also several boarding houses, a State school (No. 1,282) and 3,132 at Rhyll, Anglican and Presbyterian churches, free public library (870 vols.), I.O.R. tent, a store, and four chicory kilns. Mustard is also grown. It is an agricultural and pastoral district. Formation: volcanic. Population of Cowes, 130; of the riding of Phillip Island about 350; shire of Phillip Island and Woolamai, 2,000.

COWIE'S CREEK (38° 5′ S. lat., 144° 20′ E. long.) is the post town of the district of the same name, about 40 (39¼ postal) miles from Melbourne SW., and a railway station on the Geelong line. It is in the county and electoral district of Grant; in the midst of a farming district. There are in the district two hotels, the Ocean Child, and the Corioshire, a State school (No. 124). The post-office is at the railway station.

COWWARR (Upper Heyfield) (37° 54′ S. lat., 146° 48′ E. long.), a post town, with money order and telegraph office, in the county of Tanjil, electorate of central Gippsland, police district of Rosedale. It is a railway station on the Traralgon and Stratford line, 114½ miles E. from Melbourne; fares, 20s. 5d. and 13s. 9d. Hotels: Cowwarr, Prince of Wales, and Cricket Club. Has agency Colonial Bank of Australasia. Post-office, State school (No. 1,967), English and Roman Catholic churches, and mechanics' institute and free library, 829 vols. The river Thomson flows in the neighbourhood. Gravel is obtained in large quantities, and a successful creamery is in operation. The land is rich black soil, in some places many feet deep. The district is both agricultural and pastoral. Population about 500.

COY'S DIGGINGS (Bailieston), (36° 30′ S. lat., 145° 10′ E. long.), a post town, on river Goulburn, in the county and electoral district of Rodney, police district of Nagambie, shire of Waranga, 85 miles NE. of Melbourne. United Free Methodist church. Wine shop. State school (No. 870). A coach runs Monday, Wednesday and Friday to and from Rushworth railway station (12 miles); fare, 2s. 6d.; also rail to Nagambie (8 miles), thence conveyance. Quartz mining, farming, and obtaining railway sleepers from surrounding iron bark forest are the chief industries. A reservoir constructed by the shire of Waranga supplies water to the town. Population 200, and of district 400.

CRAIGIE (37° 6′ S. lat., 143° 45′ E. long.) is a postal town in the county of Talbot, electoral district of Maryborough, and police district of Majorca. It lies 109 miles (118 postal) NW. of Melbourne, on McCullum's Creek, the communication being by coach from Maryborough railway station. Coach fare, 6d. There are three hotels, creamery, one State school (No. 1,062), a Wesleyan and a Presbyterian church. The district is both a farming and grazing one, with quartz and alluvial mining. Population of district about 150.

CRANBOURNE (38° 6′ S. lat., 145° 19′ E. long.), shire, a post town, with telegraph, money-order and savings bank office, in the county and electoral district of Mornington, 28¼ miles SSE. of Melbourne. It is a railway station on the Dandenong to Port Albert line; return fares, 3s. 9d. and 5s. 3d. Hotels: Cranbourne and Mornington. It has a State school (No. 2,068), four churches, Rechabite tent, a shire hall, and a temperance hall, available for public meetings, in the township. Lighted with kerosene. Net annual value of ratable property in shire £40,420, area 290 square miles, dwellings 550, ratepayers 1,115, rate 1s.; 4,589 acres under cultivation. Population, 220, with vicinity 422; of shire 3,045. Newspaper: *Cranbourne and County Herald*.

CRAVENVILLE (county Benambra, shire Towong), small township on Tallangatta Creek, with loose mail bag. Has hotel, school, and store, and is coach terminus. Horses to Dark River, Zulu, Saltpeter, &c. Mount Benambra in vicinity. Rail to Tallangatta, coach thence. Farming district. Population about 40.

CRESSY (38° 1′ S. lat., 143° 36′ E. long.), (county Grenville, electorate of Polwarth, police district of Geelong), a post town, with money-order office, on the Woady Yallock creek, 87 miles (114¾ postal) SW. of Melbourne, on the road between Geelong and Warrnambool. Beeac is the nearest railway station, to which a coach runs daily; fare, 2s. Frenchman's Inn. State school (No. 731), also Presbyterian chapel. It is a pastoral district. Population, 140.

CRESWICK (37° 25′ S. lat., 143° 54′ E. long.), county of Talbot, electoral district and shire of Creswick, an important gold-fields township, under municipal government, on the Tullaroop creek, 85½ rail miles NW. of Melbourne, and 11 miles N. from Ballaarat, lying 1,438 feet above sea level. It is connected by rail with Melbourne, fares, 15s. 4d. and 10s. 3d.; also with Daylesford, the line passing through Broomfield, Allandale, Kingston, Newlyn, Rocky Lead, and Leonard's Hill. A mail coach runs daily from Newlyn railway station to Daylesford (17 miles E.), passing through Mount Prospect, Blampied and Egans-town, with post-offices at each place. A mail coach also runs daily to Castlemaine (46 miles NE.), passing through Springmount, Kingston, Smeaton, Moorookyle, Powlett Hill, Campbell-town, and Newstead, each place having a post-office, and money-order office at Kingston, Newstead, and Smeaton. Coach also daily to Ballaarat and to Allendale. The principal hotels are the British, American, Bull and Mouth, Bridge, Farmers' Arms, Star, Town Hall, Railway, and Commercial. Creswick possesses a good hospital, a large town-hall, capable of holding 400 persons, with stage and scenic adjuncts, mechanics' institute and free library with 3,256 volumes, post, money-order, savings bank, and telegraph office, court-house, police barracks, railway station, many well-built business premises, brick kilns, and a cordial manufactory; there are also branches of the Australasia, New South Wales, and National of Australasia Banks, and agencies of the leading insurance companies. There is a commodious State school (No. 122, to seat 800 children), with an infant school (2,041) at North Creswick, also grammar and private schools, and six substantial churches—Church of England, Wesleyan, Presbyterian, Roman Catholic, Primitive Methodist, Bible Christian, and a Salvation Army barracks. Among other social institutions is a well-equipped fire brigade, also Masonic Hall, School of Mines, lodges of the M.U.I.O.O.F., A O F., Australian Natives, and Sons of Temperance, Rechabite Tent, a Miners' Association, and a ladies' benevolent society. The town is lighted with gas. Miners at work in the Creswick division number about 1,300. Annual ratable value £9,661, and area 4,760 acres, 666 dwellings, 669 ratepayers; 1s. 6d. rate; the shire has property of the ratable value of £60,354, area of shire 198 square miles, dwellings 1,779, ratepayers 1,730, rate 1s. The diggings in the neighbourhood are of great extent and richness; they were discovered early in 1852. The district is impregnated with quartz reefs, some of which have been wonderfully rich in the cap, notably Nuggety Gully and Alice Maud. The yield for 1899 was 45,006 ozs. The agricultural statistics for the year ending March 1, 1900, show that there are 28,379 acres under cultivation: chiefly in wheat, oats, peas and beans, potatoes and hay. The town is supplied with water from four reservoirs, one with a capacity of 45,000,000 gallons, at Dean; the second with 8,000,000 gallons, at Ashwell's Gully; the third at Adekate Creek, 18,000,000, and the fourthat White Hills, with 680,000 gallons. Total 71,680,000 gallons. There is a racecourse about four miles from the town, recreation ground in the centre of the township, and a botanical reserve; also Government plantation and nursery connected with State forest. The surrounding country is elevated and has timbered land on the SE., pastoral land on the N. and W. The land to the E. and N. is fine agricultural, and under settled cultivation. The land generally is alluvial, of a fertile character, and well watered by numerous creeks. Population about 4,700, and of the shire 8,300. Local paper, the *Creswick Advertiser*.

CROAJINGOLONG was constituted a shire on May 30, 1892, but the name was subsequently changed to Orbost, which *see*.

CROSSLEY (38° 8′ S. lat.,'142° 17′ E. long.), a post town, on Jessie's Creek, county of Villiers, electorate and shire Port Fairy, police district Koroit, 177¾ miles W. of Melbourne, and 12 miles from Warrnambool, situated in a rich agricultural district. It is a railway station (one mile distant) on the Warrnambool and Port Fairy line; fares, 32s. 0d. and 21s. 3d. Has Shamrock hotel, one store, wheelwright, blacksmiths' and bootmakers' shops, butter factory and creamery and steam chaff mills. Roman Catholic school; Roman Catholic church (St. Bridgid's), butter factory. Town lighted with kerosene. Tower Hill Lake and Hanging Rock in the vicinity. It is said that Armstrong Bay, a short distance off, was the scene of the wreck of a Spanish galleon laden with "rix dollars." The Terang and Belfast coach passes twice daily. Formation: basaltic. Population of district about 700.

CROSSOVER (38° 3′ S. lat., 145° 54′ E. long.), a post town, county Buln-Buln, shire Drouin, electorate Gippsland West, police district of Buln-Buln, is in West Gippsland, distant 72 miles E. from Melbourne, with which it has communication by rail. Has hotel, school (No. 3,131), in which Anglican and Wesleyan services are held. About seven miles NW. a seam of coal has been discovered. Mining district. Farming and saw-mills industry. Population about 400.

CROWLANDS (37° 9′ S. lat., 143° 6′ E. long.), a post town, on river Wimmera, county Kara Kara, shire Avoca, electorate Stawell, and police district of Wimmera, 151¾ miles NW. of Melbourne. A coach runs to the railway station twice a day, 1s. Hotel: Noonan's. State school (No. 756). Wesleyan church. Free library, 1,016 vols., public hall. District is agricultural and pastoral. Soil is light loam and sands one bedrock. Population, 80.

CROYDON (county Evelyn, shire Lilydale), postal township with railway station, Lilydale line, 18½ miles from Melbourne. Timber industry. Has State school (No. 2,900), Anglican and Church of Christ churches. Lighted with kerosene. Agricultural and fruit-growing district; having a population of about 100.

CUDGEE (38° 25′ S. lat., 142° 40′ E. long.), a postal township, with money-order, savings bank and telegraph office, 156 miles SW. of Melbourne, 11 miles from Warrnambool, in the county of Heytesbury, on Cudgee Creek and the main Geelong road. It has railway communication with the metropolis, being a station on the Warrnambool line; fares, 27s. 8d. and 18s. 7d. Visitors to Framlingham Aboriginal station alight here. It has hotel, one store, a State school, and Baptist church, excellent hall, creamery, also a first class nursery. Dairying, wood-cutting and grazing are the principal occupations carried on in the district. The beautiful Dwarroon and Warren estates are in the vicinity. The Hopkins (45 feet), and Black River Falls (30 feet), are in the neighbourhood. Cudgee is a favourite picnic resort. Population, 300.

CUDGEWA (36° 2′ S. lat., 147° 59′ E. long.), a postal village, with money-order office, telephone, savings bank, in the county

of Benambra, shire of Towong, police district of Corryong, on Cudgewa Creek, 252½ miles NE. of Melbourne. Wesleyan church (used also by Anglicans) and Presbyterian church, State school (No. 1,956), public library, Rechabite tent, two stores, wheelwright, and cordial factory, creamery, and flour mill. Communication from Melbourne is by rail to Tallangatta, thence coach (40 miles); coach fare, 12s. 6d. Agricultural and pastoral and dairying pursuits are carried on in the district. Water from wells. Formation: granite on hills, alluvial flats. Population about 220.

CUNNINGHAME (37° 54′ S. lat., 147° 58′ E. long.) (co. Tambo, West riding, shire Orbost), is a post, money-order and savings bank office, and telegraph (telephone to Lake Tyers) station, on the River Reeve, 201 postal miles E., and is a popular watering place at the entrance to the Gippsland lakes, 201 miles E. of Melbourne, which is reached by steamer *viâ* Bairnsdale and Sale, thence rail; also three steamers direct to Melbourne. Coach runs to Orbost and Lake Tyers daily. There are four hotels and other accommodation for visitors. Good schnapper, fishing, farming and timber getting industries. The last-named is making rapid strides. The district is becoming an important trans-shipping centre, over 40,000 bags of maize being brought here from Snowy River district for trans-shipment during the year. Enormous quantities of wallaby and kangaroo skins are sent away every winter. The chief points of interest are the North Arm, a fine piece of water winding among the hills for six miles, with several splendid fern-tree gullies; Jimmy's Point, and Roadknight's hill, both commanding magnificent views of the lakes and the Southern Ocean, the Red Bluff, facing the ocean, where heavy catches of schnapper are made between May and September, and the New Entrance Works, designed by the late Mr. Steel and approved by Sir John Coode, which have involved an outlay of about £130,000, and are a splendid and most successful specimen of engineering. A good road along the main frontage of the lake is now under construction. There are here two J.P.'s., Petty Sessions held second Saturday in month; Commissioner of Affidavits and Electoral Registrar (J. S. Lester), a State school (No. 2,672), two half-time schools, three stores, Anglican and Wesleyan churches, pilot's house, hall, and Inspector of Works house. Formation: miocene tertiary. Population, 600.

DABYMINGA (also known as TALLAROOK), 37° 3′ S. lat., 145° 12′ E. long., county Dalhousie, shire Seymour, electorate Anglesey, north-eastern police district, is a post village, with money-order, savings bank, and telegraph office on the Sydney road and Reedy creek, 56 miles N. of Melbourne, and a station on the North-Eastern railway. Fares, 9s. 11d. and 6s. 9d. The line here branches to Alexander road and Mansfield. Height above sea-level 585 feet. The hotels are the Railway and Junction. The surrounding country has some fair agricultural land, and is well fitted for grazing purposes. Church of England (St. Stephen's) and a Roman Catholic church (St. Joseph's) and school, a State school (No. 1,488), and a mechanics' institute (230 vols.) are here. There is also a large trade doing in timber. Large granite quarries have been established. Good shooting and fishing is to be had in the district: rabbits, hares foxes, and wallabys are plentiful. Tallarook is considered very healthy, the adjacent mountains affording beautiful scenery; the Tranool Falls are about 7 miles distant. Township lighted with kerosene. Formation: sandstone and granite hills, rich alluvial soil in valleys. Water from Reedy Creek, well, and tanks. Population of village and district about 500.

DAISY HILL (37° 6′ S. lat., 143° 40′ E. long.) (co. and shire Talbot), post (loose bag) and railway (flag) station, 111¼ miles from Melbourne. Has hotel, State school (No. 1,206), in which Primitive Methodist services are held. Agricultural and mining district. Water from Maryborough Trust. Population of district about 100.

DANDENONG (38° S. lat., 145° 14′ E. long.) (counties of Bourke and Mornington, electoral district of Dandenong and Berwick) is a shire and a pretty town, with money-order office, savings bank and telegraph station, on the creek of the same name, about 69 feet above sea level, 18¼ miles SE. of Melbourne, a good road, three chains in width, connecting the two places. It is a railway station on the Gippsland Railway, fares, 1s. 6½d. and 1s. 1½d. Royal, Albion, Bridge, and Shamrock are the hotels. The Commercial and Colonial Banks have branches here. There is also an Episcopal church, a Roman Catholic church (St. Mary's), Wesleyan, and Presbyterian churches, a State school (No. 1,403), a mechanics' institute, with library of 2,000 volumes, a court-house, a fire brigade, Masonic, Foresters', Oddfellows', and Rechabites' lodges, bowling green, and a police station. Annual ratable value of property in shire, £27,519, area 60 square miles, dwellings 534, ratepayers on roll 478, rate 1s. 6d.; 3,888 acres under cultivation, chiefly market gardens. The land in the vicinity is well adapted for farming and market gardening. The Dandenong and South Bourke Agricultural Society hold their shows here annually, and there is a market every Tuesday, with a large attendance of buyers and sellers. It has a Shire Council, Petty Sessions every alternate Tuesday; the township is lighted with gas. Water from spring in Fern-tree Gully ranges. The State forest, close by, is full of the choicest timber, of immense growth. The land all round is well adapted for sheep, cattle, and dairy farming. Visitors to the renowned Fern Tree Gully, which is 9 miles N. from Dandenong, may alight from the Gippsland train, and proceed to it by vehicle. Population, 1,134, and of shire, 2,623. Local papers are the *Dandenong Advertiser*, published every Thursday, and *South Bourke and Mornington Journal*, every Thursday.

DARGALONG, or MOORILIM (36° 42′ S. lat., 145° 15′ E. long.), a post town, with money-order office, on the Goulburn river (county of Moira, electorate of Shepparton and Euroa, police district of Nagambie, 87 miles N. of Melbourne. Hotels: Perseverance, Railway, Bridge, Rising Sun, Wahring, and Terminus. State schools (No. 1,440), Bunganail. Wesleyan church. The river Goulburn is about 2 miles distant, and the town of Murchison 5 miles. Goulburn Weir, 3 miles from Wahring railway station, is an object of interest. Murchison East and Wahring are the nearest railway stations. Firewood industry. Pastoral and agricultural district. Population, with neighbourhood, about 600.

DARGO (co. Dargo, shire Avon), is a post town, with money-order office, telegraph station, and savings bank, on the river Dargo, 184 postal miles ENE. Agricultural and mining district. Gold yield, 1899, 458 ozs. Hop growing and cattle breeding are also carried on. Has a free library and mechanics' institute, with 450 volumes, Roman Catholic church and school, and State school. Formation: granite, slate and sandstone. Population, 300; 163 miners.

DARLIMURLA (co. Buln-Buln, shire Morwell), is a small village on Stony Creek, with railway station, 80 miles S.E. from Melbourne. It has a post office, State school (No. 2,243), Anglican church, mechanics' institute, and one hotel, and is about 105½ miles E. of Melbourne. Timber cutting and grazing are the chief industries. Formation: basaltic. Population 220.

DARLINGFORD (37° 15′ S. lat., 145° 8′ E. long.) is a postal township at junction of Big River and River Goulburn, in the county of Wonnangatta, electoral district of Anglesey, and police district of Jamieson, about 122 miles NE. of Melbourne. Height above sea level, 800 feet. Hotel: the Darlingford. Coach to Alexandra Road, fare, 7s 6d, and train thence. A coach also runs to Jamieson. It is chiefly an agricultural and pastoral district; but alluvial and quartz mining are carried on. There is a State school (No. 1,229). Water from Big River. Lighted with kerosene. Becoming a tourists' and cyclists' resort, the mountain scenery being much admired, and there is plenty of fishing and shooting. Formation: lower silurian. Population of township 30; and district, 100.

DARLINGTON (38° 0′ S. lat., 143° 1′ E. long.), a post town with telephone office, on Emu creek, 123 miles (142 postal) W. by S. of Melbourne, county and shire Hampden, electorate of Ripon and Hampden. It is 14 miles from Mortlake NE., and 18 from Camperdown, to which a coach runs daily, fare 5s.; also coach daily to Dundonnell, 2s. 6d. Hotel: Elephant Bridge. State school (No. 777). Presbyterian church is here, also a mechanics' institute, in which there is a public library. There are numerous stations in the district. Formation: basaltic volcanic, principally open plains slightly timbered with honeysuckle. A large acreage to the N. and W. has been ploughed and planted with blue gums. Lighted with kerosene. Population, 75.

DARNUM (38° 2′ S. lat., 146° 10′ E. long.), a post town, with money-order, telegraph, and savings bank office, in county Buln Buln, electorate West Gippsland, and police district and shire Warragul, on Little Moe river. It is a railway station on the Gippsland line, 65 miles E. of Melbourne; fares, 11s. 7d. and 7s. 10d. Darnum lies 375 feet above sea level. Hotel: Commercial. State school (No. 2,319), Episcopal church, saw-mills (steam tram runs out 7 miles for timber), mechanics' institute (in which Roman Catholic services are held), and free library, 155 volumes. The district is agricultural. Population about 500.

DARRAWEIT GUIM (co. Bourke, shire Merriang), postal township, near Wallan Wallan. Has three churches, State school, store, hotel and blacksmith's shop. Rail to Wallan coach thence. Pastoral and agricultural district

DART (co. Benambra, shire Towong), postal and mining township, on Dart river. Rail to Wodonga, coach thence.

DARTMOOR (co. Normanby, shire Portland), postal township, on Glenelg river, 298 miles W. of Melbourne. Rail to Heywood, coach thence 26 miles. Has hotel, State school (No. 1,035), Anglican, Roman Catholic, and Presbyterian churches. Grazing and farming district. Sandstone formation. Population, 56.

DAYLESFORD (37° 20′ S. lat., 144° 13′ E. long.), formerly known as Jim Crow, an important town, with money-order, and telegraph office, and savings bank, in the county of Talbot, electoral district of Daylesford, and police district of Daylesford, on the Wombat creek, seven miles from the river Loddon, 75¾ miles by rail NW. of Melbourne. Daylesford is connected by rail with the metropolis, three trains daily; fares, 13s. 9d. and 9s. 2d.; and with Ballarat, five trains daily: fares, 6s. 9d. and 4s. 0d. Coaches run daily to Castlemaine, Guildford, Shepherd's Flat, Franklinford, Yandoit, Eganstown, Mount Prospect, Newlyn, Comoora, Glenlyon, Half Way House, Drummond, Malmsbury, Spring Creek, and Hepburn. Principal hotels: Commercial, Victoria, Royal, Albert, Raglan, and Terminus, and a large coffee palace. The town, which is a comparatively large one, situated on a spur of the dividing range, 2,030 feet above sea-level, contains a post-office, mechanics' institute, with a library of over 3,000 volumes, a school of mines, fitted up with the latest appliances for art, chemical, and metallurgical classes, a county court, court of general sessions, a branch of the Insolvency Court, a hospital, and benevolent asylum, branches of the Colonial, Victoria, Union banks, treasury, police station, and Commissioners' Savings bank, a fine town hall, containing an assembly room capable of accommodating 1,000 people, and many well-built stores. It is lighted with gas. There is also a Masonic hall, with two Masonic lodges, and branches of Oddfellows, Foresters, H.A.C.B.S., I.O.R., and A.N.A. The Church of England, Wesleyan, and Roman Catholic (St. Peter's) bodies have roomy and substantial buildings, while the Presbyterians, Baptists, Bible Christians, and Salvation Army have places of worship. A presentation convent has been

opened on the slopes of Wombat Hill. There is a State school (No. 1,609), and Daylesford Grammar School. A magnificent view is obtainable from the public gardens on Wombat Hill, 2,300 feet above sea level. Within a short distance of the town are the celebrated Hepburn mineral springs, Loddon Falls, Sailor Creek Falls, Kangaroo Creek Rapids, and Coliban Falls, while at Mount Franklin, 6 miles distant, is to be seen an extinct volcano, with one of the most perfectly defined craters in the colony. In the town are 820 dwellings, 800 ratepayers, 1s. 9d. rate, and ratable property of annual net value about £16,000. The district has many farms, and the amount of land under cultivation is rapidly increasing, the crops being principally wheat, oats, peas, and potatoes. The diggings are both quartz and alluvial, and give employment to nearly 1,000 miners. There is also a large pyrites works for treating pyrites on the Newberry-Vautin process, which is kept fully employed: the yield for the district in 1899 was 8,232 ozs. The water supply comes from a reservoir at Bullarto, holding 31,284,413 gallons. Population numbering, within the municipal precincts (area 4,062 acres), 3,700. Formation: volcanic. Newspapers: *Daylesford Advocate* (published Tuesday, Thursday, and Saturday) and *Daylesford Herald* published Monday, Wednesday, and Friday).

DEAKIN SHIRE. (*See* TONGALA).

DEAN (37° 48′ S. lat., 143° 50′ E. long.), a post town, with telephone, in the county of Talbot, electorate of Creswick, 92¾ postal miles NW. of Melbourne, 4 miles from Newlyn, and 8 from Creswick railway stations. It is situated in the basins of the Bullarook and Adekate creeks, has one hotel, a State school (No. 87), Anglican, Wesleyan, Presbyterian, Primitive Methodist, and Roman Catholic churches, a police station, a mechanics' institute, and free library (432 volumes), general stores, and two blacksmiths' shops. Good farming district. Population of district about 500.

It is a railway station on the branch line from Birregurra; fares, 16s. 5d. and 11s. 0d. A coach runs to Lorne; fare, 5s. Hotel; Dean's Marsh. The chief buildings are Church of England, Presbyterian church, State School (No. 1,642), free library containing 230 vols., creamery, one store, a blacksmith, a coach builder, and two butchers. It is a mining, agricultural and pastoral district. Coal mine in district. Formation: sandstone. Population of district of Bambra about 600.

DEDERANG (37° S. lat. 147° E long.) (co. Bogong, shire Yackandandah), post town, 196¼ postal miles NE. from Melbourne. Coach to Yackandandah, 18 miles distant, rail thence. Has mechanics' institute and free library with 80 volumes, police station, Roman Catholic church, two State schools (1,772 and 2,818), flour mill, and hotel. Good shooting and fishing. Grazing pursuits. Population about 200.

DEEP LEAD (co. Borung, shire Stawell), is a railway station (¼ mile from township), about 154 miles NW. of Melbourne. It has a post office, Congregational church, two hotels, State school (No. 721), Lake Lonsdale is 3 miles distant. Water from underground tanks. Mining pursuits. Population, 250.

DEER PARK (co. Bourke, shire Braybrook), a post town, on Kororoit Creek, with railway station (at which telegraph office), 11 miles W of Melbourne; fares 11½d. and 8½d. Main Ballarat road runs through township. Has Shire hall, Anglican church and Wesleyan services in State school, No. 1,434), public hall, two hotels. Lighted with kerosene. Water from Creek and Yan Yean standpipe. Australian Explosives Co.'s Works. Agricultural and pastoral district. Mount Derrimut, an extinct volcano, in district. Formation: volcanic. Population, 200.

DENNINGTON (38° 21′ S. lat., 142° 25′ E. long.), a post town in the county of Villiers, electorate and shire of Warrnambool, Western police district, 169 miles W. of Melbourne, 3 miles NW. of Warrnambool, 7 miles SE. of Koroit, and 15 miles E. of Belfast, a railway station on the Warrnambool and Port Fairy line; fares, 30s. 5d. and 20s. 2d., also steamer communication. It is situated on the Merri river, which nearly surrounds it. It has Shamrock Hotel, a Wesleyan church State school (No. 182), a butter factory, Farming and dairying district principally. In the vicinity are the estates known as Farnham, Survey, and Yangery park. Formation: limestone. Population, about 250.

DERBY (co. Bendigo, shire Marong), postal and railway township, 121¼ miles NW. of Melbourne. Has State school and hotel. Population, 130.

DEREEL (37° 45′ S. lat., 143° 45′ E. long.) (co. Grenville, shire Leigh), a postal township, on Spring Creek, 98 miles W. of Melbourne. Reached by rail to Ballarat, coach thence: single fare 3s., return 4s. There is a State school (No. 748). Primitive Methodist and Roman Catholic places of worship. Good rabbit shooting. Mining and farming pursuits. Population of district about 400.

DERGHOLM (37° 30′ S. lat., 141° E. long.) (co. Follett, shire Glenelg), postal township on Glenelg river, 298 miles W. of Melbourne. Rail to Casterton, coach thence. Has Presbyterian church, State school (1,729) store and hotel. Pastoral and agricultural. Population, 50.

DERRIMUT (co. Bourke, shire Braybrook), postal township, 14 miles W. of Melbourne. Rail to Deer Park, conveyance thence, 2 miles.

DERRINALLUM (38° S. lat., 143° E. long.) (co. Hampden, shire Hampden). Postal township, with telephone station, 110 miles W. of Melbourne Rail to Camperdown, coach thence, 23 miles. State school (2,050), Presbyterian church. Grazing district. Mount Elephant, extinct volcano, in district. Water from tanks. Formation: volcanic. Population, 85.

DEVENISH (36 40′ S. lat., 146° 10′ E. long.), a post-town, with savings bank, money order, and telegraph office, in county of Moira, electorate of Yarrawonga, police district of St. James's, on Broken Creek. It is a station on the Benalla and Yarrawonga Railway, 137½ miles NE. of Melbourne, fares, 24s. 9d. and 16s. 5d. Hotels: Railway and Farmers' Arms. State school (No. 1,764). Churches: Episcopal, Bible Christian, and Roman Catholic. A butter factory and foundry is established here. Streets lighted with kerosene. Water from tanks. Agriculture is carried on in the district. Population, 200.

DIAMOND CREEK (37° 44′ S. lat., 145° 8′ E. long.), in the county and electorate of Evelyn, Heidelberg shire, and police district of Bourke, a mining village, with post, money-order, savings bank, and telegraph office, 15½ miles NE. from Melbourne, pleasantly situated on a creek of the same name, on the western slope and foot of a mountain range. Hotel: Royal Mail. It has two fine brick churches, St. John's Episcopal, Catholic (Sacred Heart), 2 Primitive Methodist chapels, a commodious school-house and literary institution, with library of 1,500 volumes, a post-office, agency of the Commercial Bank, Lodges of I.O.R. and M.U.I.O.O.F., 6 stores, State school (No. 1,003), and a police station. There are two coaches a day to and from Heidelberg railway station. Mining, agricultural, and horticultural operations are carried on in the district. Beautiful scenery exists around Diamond creek, and it is a healthy resort. Formation: slate with a dyke of elvine, on which occur the principal quartz reefs. Population, 300.

DIAMOND HILL (36° 48′ S. lat., 144° 20′ E. long.), a post town, county Bendigo, shire Strathfieldsaye, police and electoral district of South Bendigo, police district of Bendigo, 96 miles (105 postal) N. of Melbourne, and 4½ miles S. of Bendigo City, whence there is frequent communication by cab; fare, 6d. Mining is principally followed in the district. There are four quartz-crushing mills, and three licensed hotels. These last are within a half-mile radius of the post-office; and there is a State school (No. 1,241) and a Wesleyan place of worship. Water from Coliban (Malmsbury reservoir). Population about 250.

DIAPUR (co. and shire Lowan), post town, with telegraph and railway station on Adelaide line, 259 miles NW. from Melbourne. Has mechanics' institute, one hotel, State school (No. 2,826), Anglican and Bible Christian churches, and free library with 350 volumes. Water from Trust wells and dams. Agricultural pursuits. Population, about 100.

DIGBY (37° 47′ S. lat., 141° 31′ E. long.), a post town, with savings bank, and money-order office, on the river Stokes, or Emu creek, in the county and electorate of Normanby, police district of Merino, on the main road from Casterton to Portland, 244 miles (237½ postal) W. of Melbourne, 19 from Casterton, 30 from Hamilton, and 41 miles from Portland. Communication is by railway to Merino, thence coach, 6 miles to Digby, fare, 2s. Hotel: the Digby. There are three stores, State school (No. 2,047), an A.O.F. lodge, and rifle and cricket clubs. The Episcopalians, Roman Catholics, and Wesleyans have churches here, and the Presbyterians hold service fortnightly in the Church of England. The mechanics' institute has a library of 441 volumes. Digby is under the control of the Portland Shire Council. Agricultural and pastoral district. Formation: light loamy soil with ridges of ironstone gravel. Population about 200.

DIGGER'S REST (37° 38′ S. lat., 144° 46′ E. long.), a post town, and railway station on the Melbourne and Sandhurst railway, 653 feet above sea-level, 20¼ rail miles N. by W. of Melbourne, on Jackson's Creek. Return fares, 2s. 8d. and 2s. It is in the county of West Bourke, electorate of Keilor, and shire Bulla and Melton. Hotels: The Oval and Monmouthshire. State school (No. 2,479). Lighted with kerosene. The land in the district is best suited for sheep and cattle farming. Good fishing and shooting in the district, English trout having been successfully acclimatised in Jackson's Creek. Population, town and district, about 250.

DIMBOOLA (NINE CREEKS) (36° 26′ S. lat., 142° 4′ E. long.), shire and township, with post, money-order, savings bank, receipt and pay and telegraph offices, in the counties of Borung and Lowan, electoral district of Lowan, on the river Wimmera, which here widens out to a considerable breadth. It is a railway station on the line which extends to the South Australian border, 250 miles NW. from Melbourne, fares, 40s. 4d. and 26s. 11d. Train to Jeparit, Tuesday, Thursday, Saturday, return same day. Hotels: Camp, Commercial, Dimboola and Victoria; a State school (No. 1,372), a mechanics' institute and free library (2,000 volumes), branch of the National Bank, Racing, Coursing and other Clubs, &c. Presbyterian, Wesleyan, Lutheran, Episcopalian and Roman Catholic (service in shire hall) churches, court-house, shire-hall, several stores, Agricultural and Pastoral Society, Free Trade Association, Farmers' Union, Masonic, Oddfellows', and A.N.A. lodges. Has flour mill and eucalyptus factory. Petty sessions are held every Wednesday. The area of the shire is 3,253 square miles, and annual value of ratable property is £33,891, dwellings 1,000, ratepayers 1,008, rate 1s. The Antwerp Mallee Oil Distillery, initiated by Mr. Bosisto, is about 12 miles from here. About 12 miles NW. from here is the Ebenezer Aboriginal station. Agricultural and pastoral operations are carried on in the district. Water pumped from Wimmera River into reservoir. Channels run from reservoir several miles into country, and farmers in the vicinity are then supplied with water during the dry seasons of the year. The Mallee land is rapidly being taken up, and from the excellence of the soil this is one of the chief grain-producing districts of the colony. On March 1, 1900, there were 150,632 acres under cultivation, of which wheat occupied 111,340 acres. The mildness of the climate renders this district especially suitable

for persons suffering from pulmonary complaints. Formation: limestone. Population 600; of the shire, 4,950. Newspapers: *Dimboola Banner*, published on Friday; *Jeparit Leader*.

DOCKER'S PLAINS (co. Bogong, shire North Ovens), postal township, 148 miles NE. of Melbourne. Rail to Wangarratta, coach thence.

DONALD (36° 29′ S. lat., 143° 1′ E. long.), shire and township, with post, money-order, savings bank, and telegraph offices, in the county of Kara-Kara, and electorate of Donald and Swan Hill, 175 miles (182¼ by rail) NW. of Melbourne on the Avon River. It is a station on the line *viâ* Castlemaine or Ballarat, fares, 32s. 6d. and 21s. 9d. Hotels: Royal George, Royal Jeffcott, Shamrock, and Cricket Club, and others. Banks: Victoria, Colonial, and Commercial. State and Roman Catholic schools. Church of England, Roman Catholic, Wesleyan and Presbyterian churches. Foresters', Freemasons', Oddfellows', and A.N.A. societies. Agricultural show grounds, flour mills. The Mechanics' Institute has 1,873 volumes. Shire-hall, court-house, and land offices. Farming district; in the shire 93,590 acres under cultivation, 59,620 being wheat. Loam surface and rich brown clay. Area 475 square miles. Population 4,000, valuation £38,398, rate 1s. Coaches run to Charlton, Chirrup, Wooroonooka, Corack, Jeffcott, Minyip and Sheep Hills. Lake Buloke, Cope Cope Lake and Guthrie's Salt Lakes are in the vicinity. Population, about 1,000. Newspapers: *Donald Times* and *Donald Despatch*.

DONCASTER (37° 46′ S. lat., 145° 10′ E. long.), a shire and post town, with telegraph office, in the county of South Bourke, and Evelyn electoral district, 10 miles NE. of Melbourne, lying between the Yarra river and the Koonong creek. Train to Box Hill. Hotels: Doncaster, Morning Star, and Tower, with a tower 200 feet high, from which there is a splendid view of the surrounding country. There are churches of the Anglican, Primitive Methodist, and Lutheran denominations, and a Disciples' meeting-house, also two State schools, an Athenæum, with 1,554 volumes, police station, shire-hall, and three stores. Bank: English and Scottish. Fruit is largely grown in the district. Area of shire 13½ square miles. Ratable value of shire £11,748, dwellings 190, ratepayers 302, rate 1s.; 3,594 under cultivation, chiefly orchards and gardens. Population of shire, 1,000.

DONNELLY'S CREEK (37° 40′ S. lat., 146° 40′ E. long.), in the county of Tanjil, electorate of Gippsland Central, police shire Maffra, a mining village with post and money-order offices in the Gippsland district, 20 miles N. of Walhalla, 119 postal miles E. of Melbourne. The best route is by rail to Heyfield, thence horse, or conveyance, for 31 miles. Through fare, about 25s. There is a State school, (No. 2,102), hotel and one store; religious services are held in State school. Mining district. Gold yield 1899, 299 ounces. Formation: silurian. Population of district, about 350.

DONNYBROOK, now KALKALLO (37° 31′ S. lat., 144° 59′ E. long.) (county of Bourke, electoral district of E. Bourke, and police district of Kalkallo, shire Merriang), a post town, with telegraph station, on the Beechworth road, and station on the North-Eastern Railway, which is about 2 miles from the town, 20¾ miles N. of Melbourne. Fares, 2s. and 1s. 6d.; return, 3s. and 2s. 3d. It lies 731 feet above sea-level. Hotels: the Donnybrook, Railway, and Cyclists Rest. Police quarters and court-house. Places of worship: Church of England and Presbyterian churches. There is also a State school (No. 195). The land is utilized for grazing and dairying purposes. Bluestone abounds in the district. Population of district, about 200.

DOOEN (36° 40′ S. lat., 142° 14′ E. long.), a post town, with money-order and telegraph office, in the county of Borung, electoral and police district of Horsham, shire Wimmera, 5 miles NE. of Horsham, 198¼ postal miles NW. from Melbourne, having a State school, a Presbyterian place of worship, free library (having 700 vols.), and a store. There are good cattle and sheep yards here. It is a railway station on the Dimboola and Serviceton line, 198¼ miles NW. of Melbourne; fares, 35s. 6d. and 23s. 8d. Hotel: The Dooen. Has Mechanics' institute (in which Presbyterian services are held). The headquarters of the Western Wimmera Irrigation Trust are here. Vine and fruit planting industries. About 3 miles distant is the Longerenong Agricultural College. The soil is principally clay loam with free intermixture of lime. It is an agricultural and pastoral district. Population, town and district, 125.

DOOKIE SOUTH. *See* CASHEL.

DOON. *See* BONNIE DOON.

DROMANA (38° 22′ S. lat., 144° 5′ E. long.) (county and electoral district of Mornington, police district of Bourke) is a post town, savings bank, money-order, and telegraph station (telephone to Cape Schanck and Flinders) on the shores of Port Phillip Bay, 45 miles SE. of Melbourne, at the base of the eminence called Arthur's Seat. Daily coach to Mornington, rail thence or steamer is the means of conveyance to the metropolis. Coach daily to Sorrento and Portsea. Dromana Hotel. Mount Martha lies 4 miles NE., and Sorrento, another watering-place, is distant about 13 miles. There is a mechanics' institute (with convenient public hall) and free library, containing 600 vols., a State school (No. 184), a court-house, Church of England, Presbyterian and Wesleyan churches, I.O.R. society, and a jetty 1,400 ft. long, which forms a pleasant promenade, and affords facilities for communication by water. The meetings of the shires of Flinders and Kangerong are held here monthly. Water supply from springs. The district is agricultural and pastoral. Gold has been found in the ranges. Population, 272.

DROUIN (38° 6′ S. lat., 145° 4′ E. long.), a postal township, with money-order, savings-bank, and telegraph office, 444 feet above sea-level, county and shire of Buln-Buln, electoral district of West Gippsland, police district of Sale, 56¾ miles E. from Melbourne and a railway station on the Gippsland line; fares, 9s. 11d. and 6s. 9d. There are four good hotels. The Buln-Buln shire offices, a police-station, court of petty sessions, a State school (No. 1,924), branch of the Australasia Bank, and a large mechanics' hall with a library of 1,598 vols., Masonic, Oddfellows', A.N.A. and Rechabite lodges are here, also section of "H" company of Victorian Rangers, and Rifle Club. The Roman Catholic, Anglican, Presbyterian, and Wesleyan bodies have churches. Large recreation reserve with oval shaped and banked cycle track. Lighted with kerosene. Numerous saw-mills are at work in the vicinity. One weekly produce and two cattle markets. Fruit growing, agriculture and grazing are carried on in the district. Fern gullies in neighbourhood. Population, 600. Formation: volcanic. Newspapers: the *Gippsland Independent*, and *West Gippsland Express*.

DRUMMOND (37° 30′ S. lat., 146° 4′ E. long.), a post town, in the county of Talbot, electoral district of Talbot, police district of Glenlyon, 68 miles NW. of Melbourne. The communication is rail to Malmsbury, coach thence (3 miles) 9.30 a.m., fare 1s. each way. Hotel: The Junction. The Coliban river and the Back and Kangaroo creeks are the nearest streams. State schools here (No. 937 and No. 1,848) at Jim Crow Road. Churches, Episcopal, Church of Christ, and Wesleyan. Oddfellows' Lodge, meeting monthly in the Oddfellows' Hall. Agricultural and mining district.

DRY CREEK (37° 0′ S. lat., 146° 0′ E. long.), a gold-field producing both alluvial and reef gold in small quantities. It is in the county and electorate of Delatite, shire Mansfield, 125¼ postal miles NE. of Melbourne. Doon, 7 miles distant, is the nearest railway station, to which hired conveyance. It has a post office, and a State school (No. 1,321) an inn and a store. Tableland about 2½ miles distant from Dry Creek post office, and produces reef gold in considerable quantities. Yield 1899, 1,239 ozs. Formation: sandstone, slate, and granite. Population of district about 100.

DRY DIGGINGS (co. Talbot, shire Mount Franklin), postal township 80 miles NW. of Melbourne. Rail to Daylesford 75¾ miles, conveyance thence 4 miles. Has hotel, State school (1,095), Anglican and Welsh churches. Mount Franklin, extinct volcano, in district, with fine views. Mining and fruit growing industries. Formation: auriferous and basaltic. Population, 100.

DRYSDALE (38° 10′ S. lat., 144° 33′ E. long.) is a postal, savings bank, telegraph, and money-order station, in the county of Grant, electorate of Barwon, shire of Bellarine, and police district of Drysdale. It lies 212 feet above sea-level, 58 miles SW. of Melbourne (34 miles direct across Port Phillip Bay), on Port Phillip Bay, and is connected by railway with Geelong, 12½ miles distant, fares from Melbourne 10s. 6d. and 7s., coach to Geelong 1s., return 2s., coach to Port Arlington, thence boat to Melbourne. Hotel: Buck's Head. It has a State school (No. 1,645), private school, butter factory, a free library of 1,362 volumes, branch of Colonial Bank, Episcopal, Roman Catholic, Free Presbyterian, and Wesleyan churches, police-station, racecourse and detachment of the Geelong Battery of Garrison Artillery, Foresters' and Sons of Temperance lodges. Town is lighted with kerosene. There is a jetty about 1¼ miles NW. from the post-office. About 1 mile N. of the township is the celebrated Clifton spa. The springs are strongly impregnated with iron, magnesia, and sulphur and seltzer. Near the springs is a good hotel, also private boarding-houses. Near Drysdale there is an extinct volcano, the crater of which is partially filled with water. The Mornington Mountains, the Three Sisters, Station Peak, Mount Atkinson, and the hills W. of Melbourne are discernible, besides the greater portion of Port Phillip Bay. A Court of Petty Sessions is held here every alternate Monday. The United Service Home, with accommodation for 16 old veterans, was erected at a cost of £2,000, and opened by the Governor on the 27th April, 1891. The Bellarine Shire Council meets here on the second Wednesday of each month. The district is an agricultural and pastoral one, and the land is very fertile. The chief industry is onion and potato growing, this first-named vegetable being of specially good quality, also hay for chaff; 14,845 acres are under tillage, hay, peas and beans, potatoes, onions, &c.; area of shire 128 square miles; ratepayers 2,025, dwellings 1,060, rate 1s., net annual value of ratable property £38,691. The formation is sand over clay with foundation of kaolin. There are indications of coal. Population of town 600, and that of the shire 4,260.

DUCKPONDS. *See* LARA.

DUNACH (co. Talbot, shire Talbot), postal township, on Macallum's creek, 125 miles NW. of Melbourne. Rail to Talbot, coach thence. Shire council meets here. Has hotel, State school (No. 1,412) and shire hall. Robert Nichol G. M. Co. Mining, agricultural and pastoral district. Population, 100.

DUNDAS SHIRE. *See* HAMILTON.

DUNKELD (37° 39′ S. lat., 142° 20′ E. long.), a postal, telegraph, savings bank, and money-order township, on the Wannon, 833 feet above sea-level, county Villiers, shire Mount Rouse, electoral district of Dundas, 178½ W. of Melbourne, 104 miles from Ballarat, and a station on the Ararat and Hamilton Railway. Fares from Melbourne, 32s. and 21s. 6d. Hotels: Railway and Royal Mail. The Anglicans, Wesleyans, Roman Catholics, and Presbyterians have places of worship. There is also a State school (No. 183), Mechanics' institute and free library (298 vols.), M.U. Oddfellows' lodge, and two stores. Branch Colonial Bank, open Tuesday and Friday. Large wool scouring

and boiling down works. Eucalyptus works. It is a place of petty sessions. At Mount Abrupt, within three miles of the railway station, freestone can be obtained for building purposes. Very healthy and recuperative district, popular with tourists visiting Mounts Sturgeon and Abrupt. Agricultural and pastoral. Population in town about 300, district 500.

DUNNSTOWN (county of Grant, electorate and police district of Warrenheip, shire of Buninyong) post, telegraph and railway station on the Bacchus Marsh line, 67½ miles WNW. from Melbourne, to which rail fares are 12s. 1d. and 8s. 1d. Hotels : Shamrock and Olive Branch. There are here State (No. 2,010), and Roman Catholic schools, Church of England and Roman Catholic services, Warrenheip distillery, creamery, and chaff mill. Lighted with kerosene. Water from Warrenheip springs. The town is named after Robert Dunn, the original promoter of the distillery. Mount Warrenheip is in easy distance. The district is agricultural, and the formation volcanic, with a rich chocolate soil. Population about 500.

DUNMUNKLE SHIRE. *See* RUPANYUP.

DUNOLLY (36° 52′ S. lat., 143°44′ E. long.) (county of Gladstone, Dunolly electorate), a borough town, money-order, savings bank, and telegraph station on Burnt Creek, 126 postal miles (125¼ by rail) NW. of Melbourne, and about 35 miles from Castlemaine. Fares from Melbourne, 22s. 7d. and 15s. 1d. It lies 631 feet above sea-level. The borough has an area of 5,760 acres, 334 dwellings, 387 ratepayers, 1s. 6d. rate, and ratable property of the net annual value of £7,392. The London and Victoria Banks have branches; and there are agencies of several Insurance Companies; the hotels include the Bendigo, Commercial, Windsor Castle, Railway, Red Lion, and others. The Dunolly Hospital has 52 beds. There is a public library of 1,512 volumes; and there are churches belonging to the Congregationalists, Wesleyans, Episcopalians, Presbyterians, Baptists, and Roman Catholics, Masonic, A.N.A., and Oddfellows' lodges; a State school (No. 1,582), and a flour-mill. The soil and climate are particularly adapted for growing fruits of various kinds. Dunolly is a gold-field. Antimony, kaolin, and slate have been found. One of the largest nuggets in the world was found near here in 1869 : it weighed 2,280 ounces, its value being £9,534. The yield for 1899 was 2,338 ozs. Dunolly is the centre of an agricultural district ; which appears to be extending, and a large area is being laid down in English grasses. The reservoir whence the town water supply is derived has 7,500,000 gallons storage capacity, and another 2½ miles distant, has a capacity of storing 17,200,000 gallons. Population, about 1,410. Local newspapers : The *Dunolly Express* and *Progress*.

DURDIDWARRAH (co. Grant, shire Meredith), on Stoney Creek, postal township, 82 miles W. of Melbourne. Rail to Meredith (9 miles), coach thence. Good water supply. Mining district. Population about 15.

DURHAM LEAD (37° 44′ S. lat., 143° 50′ E. long.), a postal township, in the county of Grant, electorate of North Grenville, shire of Buninyong, on the Yarrowee river, 84½ postal miles NW. of Melbourne. Communication is by train to Buninyong, thence to Durham Lead ; a coach runs to Ballarat Monday, Wednesday, and Saturday, 1s. Pioneer hotel. The district is chiefly of a mining and agricultural nature. It has a State school (No. 280), and three places of worship—Presbyterian, Free Church of Scotland, and Primitive Methodist. Formation : lower silurian, with recent surface drift. Population, about 100.

DURHAM OX (TOWANGURR) (36° 36′ S. lat., 147° 15′ E. long.) is on Serpentine Creek, in the county of Gunbower, electorate of Gunbower, 172⅜ postal miles NW. of Melbourne. Communication by daily coach from Pyramid Hill railway station, 11 miles distant ; coach fare, 5s. Hotel: Durham Ox. State school (No. 1,483) ; also a money-order, telegraph, and savings bank office, Presbyterian, and Wesleyan places of worship, The offices of Gordon Shire are here. There is a large extent of land under cultivation : according to the returns to March 1, 1903, 34,870 acres were utilised for farming purposes, of which 53,574 acres were wheat. Population of the shire 3,850. Area of shire 772 square miles, 750 dwellings, 1,031 ratepayers 1s. rate; annual value of ratable property, £46,000. Pastoral and agricultural country, principally flat and open. Population, 136.

EAGLEHAWK (36° 50′ S. lat., 144° 20′ E. long.), in the county of Bendigo, electorate of Eaglehawk, police district of Bendigo, is a municipal borough, with post, money-order, savings bank and telegraph office, 4 miles from Bendigo City, with which it is connected by steam tramway, and 105¼ miles from Melbourne, NW. Fares, 19s. 1d. and 12s. 8d. There are thirty-nine hotels. Height above sea-level is 737 feet. The district is very hilly, and abounds in golden quartz lodes ; the principal reefs of Bendigo district traversing whole borough. Some of the richest and most profitable mines in the Colony are situated here ; such as the Johnson's Reef, Princess Dagmar, New Argus, McDuff, New Moon, &c. The yield during 1899 was 76,788 ozs. Three State schools (Nos. 210, 123, and 1,428), two private schools, nine churches, Episcopal (St. Peter's), Presbyterian, Catholic (and school), Wesleyan, Primitive Methodist, Baptist, and two Welsh ; three banks, N.S. Wales, Commercial, Victoria, and savings bank, court of petty sessions, and police station, two mechanics' institutes with libraries ; Masonic, Oddfellow (M.U. and G.U.), Hibernian, A.N.A., Druid and Forester lodges ; also a park (Canterbury), formed and handsomely laid out with flower-beds and shrubs, and a lake about 40 acres in extent. The "model borough," as it is called, has 1,862 dwellings, 1,853 ratepayers, 1s. 6d. rate, and ratable property of the annual value of £35,265, area 3,640 acres. The town is lighted partly with gas and partly kerosene. Formation : quartz and schistose. The borough is reticulated by the main of the Victoria water supply. Population, 8,270.

EAST LODDON SHIRE. *See* SERPENTINE.

EAST TRENTHAM. *See* TRENTHAM.

EASTVILLE (36° 52′ S lat., 144° 0′ E. long.) is the postal centre of a district, which comprises portions of the parishes of Laanecoorie, Woodstock, and Neereman. It is situated on the Bradford Creek, and was formerly known by that general name ; county Bendigo, shire Marong, electorate Maldon, and police district of Eddington, 90 miles (102 postal) NW. of Melbourne. Shelbourne is the nearest railway station, to and from which a conveyance runs daily ; also one to Maldon. Hotel : Criterion. State school (No. 1,245). It is an agricultural and pastoral district. Population of locality about 100.

ECHUCA (36° 8′ S. lat., 144° 46′ E. long.) (county and electoral districts of Rodney and Gunbower), police district and borough of Echuca, formerly HOPWOOD'S FERRY, so called after the late Mr. Hopwood, who made it a principal crossing place for stock, is a border and borough town of Victoria, and is situated on a peninsula formed by the Murray and Campaspe rivers, 156 rail miles N. of Melbourne. Height above sea-level 320 feet. It is the terminus of the Murray River Railway, and the entrepot of the overland intercolonial trade. Fares, 28s. and 18s. 7d. Coaches carrying mails and passengers ply from Stewart Bridge, Barmah, Narioka, Patho, Gunbower, Kow Swamp, Leitchville, Wee Wee Rup, and Kerang, Mondays, Wednesdays, and Fridays, 9 A.M. Among the hotels may be mentioned Martin's Commercial, Palace, Caledonian, the Farmers Arms, Union Club, Riverine, Bridge, and at Echuca East the Pastoral and Tara's hall, in all twenty-two. In the borough (area 4,308 acres) are 925 dwellings, 915 ratepayers, 1s. 3d. rate, ratable property of the yearly value of £24,137, and a population of 4,272. In the shire, having 1,397 ratepayers, property is rated at £59,260, rate 9d. The leading insurance companies have offices in the town ; Commissioners' Savings Bank, London, Commercial, Colonial, and New South Wales Banks also have branches. There is one well-supported rowing club, State schools (Nos. 208, 1,780, Echuca North), a grammar school, and several ladies' schools. Places of worship, Episcopal, Catholic (St. Mary's), Presbyterian, Bible Christian, Baptist, Wesleyan, Salvation Army and Church of Christ ; there is a temperance hall ; also mechanics' institute, with a free library of 4,030 vols. Leading friendly societies have branches. It has a telegraph station, and money-order office, with post-office buildings. The Government Offices comprise Treasury, Land and Survey, Custom House and Supreme Court Buildings. The E Company Victorian Rangers has one of the finest orderly rooms in the colony. The borough is supplied with water from the Murray by means of steam pump and two fine tower tanks, each containing 70,000 gallons. The town is lighted with gas. The area under cultivation on March 1, 1900, was 96,383 acres, 62,143 acres of wheat, also oats, malting and other barley, and wheaten and other hay. There is one large red-gum sawmill, three coach factories, soap works, brewery, gas works, Agricultural Association, Vine Hospital, and Benevolent Society. The Echuca vineyard is one of the sights of the place. There are large wool stores in the town. Besides railway communication, steamers ply during the winter months to South Australia and the New South Wales ports on the Murrumbidgee and Darling rivers. By arrangement with, and at the part cost of, the New South Wales Government, a bridge connects Echuca with Moama, on the New South Wales side of the Murray. This bridge, which carries a railway and roadway, is 1,905 feet long, and cost £124,000, upwards of 4,000 tons of iron being used in its construction. A railway, constructed principally by Victorian capitalists, extends from Moama to Deniliquin. Formation : lower silurian, with recent surface drift. Population 4,272, in the shire, 5,000. The *Riverine Herald* (daily) and the *Echuca* and *Moama Advertiser* (tri-weekly) are the local newspapers.

ECHUNGA. *See* WEE WEE RUP (Gunbower).

EDDINGTON (36° 53′ S. lat., 143° 54′ E. long.), a post town, with money-order and telephone office, on the Loddon river, in the county of Talbot, shire Tullaroop, and electoral district of Maryborough, 106 postal miles NW. of Melbourne. Communication is by coach daily to Maldon, coach fare, 3s. ; or to Dunolly, fare, 2s. ; thence rail. Hotels : Eddington, Commercial, Bridge and Farmers' Arms. There are Episcopal, Presbyterian, Primitive Methodist, and Roman Catholic churches, a commodious State school (No. 793), creamery, Mechanics' Institute and library (300 vols.), police camp and three stores in the town. Water from Loddon. Good wheat-growing district. Population, 191.

EDENHOPE (37° 2′ S. lat., 141° 19′ E. long.), a post town, with money-order, and telegraph offices, and savings bank (shire of Kowree, county Lowan, and electoral district of Normanby) on lake Wallace (a large sheet of deep water, about four miles in circumference), 260 miles (279 postal) W. of Melbourne, 21 miles from Harrow, 13 miles from Apsley, and 81 miles from Hamilton Railway station, to which coaches run three times a week, 22s. 6d. Hotel : Lake Wallace. Presbyterian and Roman Catholic (St. Malachi's) churches, State school (No. 817), Mechanics' Institute (1,600 vols.), and M.U.I.O.O.F. lodge. Pastoral and Agricultural Society, a Shire Hall, and two stores. Petty sessions held on the first and third Tuesday of every month. Kowree shire is 2,114 square miles in area ; population, 5,280 ; ratepayers, 1,223, dwellings 1,160, rate 1s. ; net annual value of ratable property, £55,063 ; acres under tillage, 22,871. Pastoral district. Formation : Paleozoic. Population of town, about 375.

EGANSTOWN (co. Talbot, shire Mount Franklin), postal township 80 miles NW. of Melbourne on Deep Creek. Has also police station, Foresters' hall, State school (No. 185), Wesleyan and Bible Christian churches and four hotels. Rail to Daylesford, coach thence. Formation: volcanic and auriferous alluvial. Population of district, 300.

EGERTON. *See* MOUNT EGERTON.

ELAINE (37° 46′ S. lat., 144° 4′ E. long.), a postal township, with telegraph, money-order offices, and savings bank, in the county of Grant, electoral district of Grenville, and police district of Meredith. It lies at an elevation of 1,300 feet, 80¾ miles NW. of Melbourne, and is a railway station on the Ballarat line. Fares, 13s. 9d. and 9s. 2d. Has three hotels, State school (No. 1,810) Anglican, Roman Catholic, Wesleyan and Presbyterian churches, a free public library, a quartz-crushing plant and pyrites works. Formation: ironstone and sandstone. The water supply comes from the reservoir at Lal Lal, which can store 90,000,000 gallons. Population about 350.

ELDORADO (36° 18′ S. lat., 146° 30′ E. long.), a post town, with money-order, savings bank, and telephone office, on Reedy Creek, 162 miles NE. of Melbourne. It is in the county of Bogong, and electorate of Wangaratta and Rutherglen, north-eastern police district. The Ovens river is 8 miles away. The surrounding country is mountainous, and principally adapted for mining purposes, though some tillage is carried on. Coach plies to Tarrawingee (5 miles), fare, 1s. 6d., to meet first train from Melbourne; other trains met when advised, fare 4s. per trip. Hotels: Albion and Star. State school (No. 246), Anglican, Wesleyan, and Catholic churches; a good public park, a Public Library (278 vols.), Police quarters, several stores, court-house, rifle club, Oddfellows' Lodge. The M'Evoy Gold Mining Company, Spread Eagle and Jennings Consols, Hydraulic Sluicing and Cock's Electric Pioneer Gold and Tin Sluicing Companies are working; a terrible accident happened in the first named in July, 1895, by which six men lost their lives. In North Ovens shire 24,705 acres are under tillage in wheat, oats, and bearing vines; area of shire, 220 square miles; 408 dwellings, 882 ratepayers, 1s. rate; £18,981 net annual value of ratable property. Formation: lower silurian. Oranges, lemons, peaches, and grapes mature here to perfection. Water from wells and springs. Population 300; shire, 2,000.

ELLERSLIE (38° 6′ S. lat., 142° 44′ E. long.), a postal township, in the county of Hampden, electoral district of Ripon and Hampden, and police district of Mortlake. It is 142½ (159¾ postal) miles SW. of Melbourne, whence it is reached by rail to Mortlake, and coach thence. It is on the Hopkins river and on the road to Warrnambool, being 9 miles from Mortlake and 6 from Ballangeich. A State school (No. 1,461), Presbyterian church, a butter factory, two stores, and a blacksmith's shop. A reservoir is in the township for water supply. The district is mostly pastoral. Population of district about 150.

ELMHURST (37° 0′ S. lat., 143° E. long.) (county Kara Kara, shire Ararat), is a post town and railway station with money-order and telegraph office, on the Wimmera about 145 NW. Fares 26s. 1d. and 17s. 6d. Agricultural, pastoral, and mining pursuits. It has two hotels: Commercial and Victoria; one State school (No. 959), mechanics' institute and free library (1,060 vols.). Debating society and brass band. Church of England, Presbyterian, Wesleyan, and Roman Catholic places of worship, A.N.A. society, creamery, and police station. The district is rough, hilly, and sandy, with black loamy flats. Population about 1,000.

ELMORE (37° 55′ S. lat., 145° 1′ E. long.) is a postal, savings bank, money-order, and telegraph town within ¼ mile of west bank of the Campaspe river, in the county of Bendigo, electoral district of Mandurang, shire of Huntly, and police district of Sandhurst, lying 428 feet above sea level. It is a station on the Echuca railway line, and is 128¾ rail miles N. of Melbourne. Fares, 22s. 10d. and 15s. 4d. A coach runs daily to Corop, and tri-weekly to Rushworth. Hotels are Victoria, Commercial, Runnymede, Bridge, Railway, Shamrock, and Elmore. It has branches of the N.S. Wales and Victoria Banks, a State school (No. 1,515), Episcopalian, Presbyterian, Roman Catholic, and Bible Christian places of worship, Athenæum, and a public library of 1,200 vols., and A.N.A. and M.U.I.O.O.F. societies. Court of petty sessions held here. The Elmore Waterworks Trust supplies the township and railway department with water. The neighbourhood is agricultural and pastoral. The Campaspe river, in which there is an abundance of fish, flows between Runnymede and Elmore. An agricultural show is held annually. Population about 2,000, mostly engaged in farming pursuits, of whom 800 live in the township. Newspaper, *Elmore Standard*, published on Friday.

ELPHINSTONE (38° S. lat., 145° E. long.), in the county of Talbot, electorate of Castlemaine, police district of Taradale, a small postal township, telegraph and railway station, on Sawpit Gully creek, 70¼ rail miles NNW. of Melbourne, and 8 miles from Castlemaine. Fares, 12s. 8d. and 8s. 4d. Hotel: Lonsdale's. Churches: Church of England and Church of Christ. State school (No. 220). It is near the Coliban waterfalls, where there is good fishing to be got, and the scenery is beautifully picturesque, while the locality is noted for its salubrious character. It lies 1,365 feet above sea-level. District is agricultural and pastoral. Formation: granite. Population, town 125, with vicinity 275.

ELSTERNWICK (37° 54′ S. lat., 145° 2′ E. long.), a suburb of Melbourne, on the Brighton Railway (fares, 9d. and 7½d.), in the county of Bourke, electorate of Caulfield and police district of Brighton, about 7 miles S. of the city. A favourite place of residence for wealthy citizens. A State and several private schools, Episcopalian, Presbyterian, Wesleyan, Primitive Methodist, and Congregational churches, also two R.C. churches (St. Joseph's and St. James's), a presentation convent, and a post, savings bank, money-order and telegraph office, telephone bureau, two large public halls, also two hop beer breweries, rifle club and butts. Has A.N.A., I.O.R., U.A.O.D., and I.O.O.F.G. societies. Lighted with gas. Newspaper: *Caulfield and Elsternwick Leader*.

ELTHAM (37° 44′ S. lat., 145° 10′ E. long.) (county and electoral district of Evelyn), a post town, telegraph, telephone, and money-order station, 14 miles ENE. of Melbourne on the Yarra. There is daily coach communication to Heidelberg, fare, 1s. Hotels: Eltham and Evelyn. Grazing and orcharding district. On March 1, 1900, the agricultural returns were 4,586 acres under cultivation, of which 2,036 acres were orchards and gardens. Gold has been found in the vicinity, but not in large quantities. Area of shire, 216 square miles, ratepayers 1034, dwellings 612, rate 1s.; annual value of ratable property in shire £28,442. State school here (No. 209). Bank: Commercial, opens Tuesdays 10 to 12. R.C. Church (St. Mary's), also Episcopal, Wesleyan, and Primitive Methodist churches. I.O.R. (with hall) and Druid lodges. Population of town, 377; of shire, 3,200.

ELWOOD (37° 51½′ S. lat., 145° 0′ E. long.) is a part of the city of St. Kilda, about 3½ miles from Melbourne, beautifully located on the shores of Hobson's Bay. Here is situated the celebrated Red Bluff or Point Ormond, a popular resort for picnic parties. A shaft was sunk here to find coal, at the suggestion of certain spiritists, but without result. Population about 100.

EMERALD (co. Mornington, shire Ferntree Gully), postal township (loose bag), at SE. corner Dandenong forest, 35 miles from Melbourne. Train to Narre Warren, coach thence. Has State school and Christian chapel. Raspberry gardens.

EMERALD HILL. *See* SOUTH MELBOURNE.

EMU CREEK (36° 48′ S. lat., 144° 23′ E. long.), part of the shire of Strathfieldsaye in the county of Bendigo, electoral district of Sandhurst South, and police district of Strathfieldsaye, on Emu Creek, 96¾ miles NW. of Melbourne and 8 miles distant from Bendigo. Hotel: United Kingdom. There are two State schools (No. 935, at Sedgwick, about 5 miles distant, No. 228 at Emu Creek), a post office, Church of England and Bible Christian churches (at Sedgwick and Upper Emu). All the vines in the district have been grubbed out on account of Phylloxera, and vignerons have to take to bad agricultural land. A little gold is found. Formation: silurian. Population about 300.

ENSAY (37° 13′ S. lat., 147° 45′ E. long.) is a postal township with telephone station, on the Howitt's or Little River, in North Gippsland, county Tambo, shire Omeo, electoral district Gippsland East, lying 223 miles (224 postal) E. of Melbourne, from which place communication is by the railway to Bairnsdale; coach thence *viâ* Bruthen daily, £1 4s., coach to Omeo, 10s. Hotels: Little River and Albion. Two State schools and a mechanics' institute with free library (451 vols.). There is a scattered agricultural and mining population of about 250 persons.

EPPING (37° 39′ S. lat., 145° 2′ E. long.) is a postal township, with telegraph office and railway station, in the county and police district of Bourke, and electoral district of E. Bourke, shire Epping. It lies on Darebin Creek 14½ miles N. of Melbourne, with which place there is communication by railway; fares, 1s. 9d. and 1s. 5d. There are three hotels: Victoria, Epping, and Council Club. Has H.A.C.B.S. and St. Andrew Societies. A State school (No. 1,477), a denominational school, Anglican, Roman Catholic (St. Peter's), and Presbyterian churches, bone mills, stone quarries and a shire hall in the town; mechanics' institute has 530 vols. Lighted with kerosene. In the shire of Epping, 1900, 3,441 acres are under tillage; area of shire, 81 square miles, population 1,071, ratepayers 380, dwellings 300, rate 1s.; annual ratable property, £19,132. A court of petty sessions is held here. Population about 350, and of the district about 1,000, engaged mainly in farming.

EPSOM (36° 43′ S. lat., 144° 20′ E. long.), a post town, with money-order office and savings bank, on Bendigo creek, county Bendigo, in the electoral district of Eaglehawk and Mandurang, 105¾ miles NW. of Melbourne. In the centre of the town is the Bendigo pottery, iron foundry, and Goyne's steam stamper grating factory. There are Anglican and Wesleyan places of worship, three hotels, iron foundry, and a State school (No. 2,367). Sandhurst, the nearest railway station, is 4½ miles distant, and is reached by cars, which run frequently during the day, fare, 6d. Population, 250.

ESKDALE (co. Bogong, shire Towong), postal township, with money-order office and telephone station, 233 miles from Melbourne, from which it is reached by rail to Tallangatta, coach thence. Coaches run to Nutta Nutta and Granite Flat. Has hotel and two schools (Nos. 3,027 and 2,318). Industries: dairying and gold mining. Formation: sandstone and slate. Population of district about 600.

ESSENDON (37° 45′ S. lat., 144° 58′ E. long.), a municipal town, situated on the Saltwater River, with post, telegraph, savings bank, and money-order offices, 5 miles NE. of Melbourne, and a station on the North-Eastern Railway. Fares, 5½d. and 4½d. It is in the county of Bourke, electoral district of Essendon and Flemington, and police district of Essendon, and lies 146 feet above sea-level. Principal hotels are: Lincolnshire Arms, Royal, Farmers' Arms, and Essendon. There are three State and several private schools, and a denominational school; also Anglican, Presbyterian, Roman Catholic and Wesleyan places of worship, court-house, Mechanics' Institute with library (2,280 vols.). Masonic and all Friendly Societies, Town hall, branches National and English and

Scottish Banks. Convent Sisters of Charity. Industries: Meat-preserving and rope works. The town is lighted with gas. Annual value of ratable property, £110,000, area 4,000 acres, 2,520 dwellings, 8,300 ratepayers, 2s. 0d. rate. First camping place Burke and Wills' expedition. Population 15,200. Newspaper: The *Essendon Gazette*, published on Thursday.

EUROA (36° 45′ S. lat., 145° 34′ E. long.), a shire and post town, with money-order, telegraph office, and savings bank, on the Seven Creeks, 93¾ miles by rail N. by E. of Melbourne, in the counties of Moira and Delatite and electorates of Shepparton, and Euroa, and Delatite. Height above sea-level 574 feet. It is on the main line of road between the metropolis and Wodonga, and is reached by the North-Eastern Railway, and has a station and a goods shed. Railway fares, 16s. 11d. and 11s. 4d. Hotels: Euroa, North Eastern, Farmers' Arms, Seven Creeks, and Garrett's. The land in the neighbourhood is principally of a pastoral character, but 24,537 acres are under cultivation, principally for wheat, oats, barley, and potatoes. Churches: Episcopal, Presbyterian, Wesleyan, Roman Catholic, and Salvation Army. There is a flour-mill in the township, a sawmill, branches of the National and Colonial Banks, a State school (No. 1,706), also mechanics' institute and free library, containing 700 volumes, Druids' and A.N.A. societies and debating society, shire hall and offices, police court, several restaurants, seven stores, large public hall, annual agricultural show, mounted rifles, and police station. Butter is one of the leading products of the district, and many creameries have been erected. It is a place of petty sessions. Lighted with kerosene. The water supply is from a concrete weir formed on the Mountain Hut Creek in the Strathbogie Ranges, and conducted about 7 miles in iron pipes to the town. Area of shire 564 square miles, ratepayers 1,472, dwellings 1,230, rate 1s.; property is annually assessed at £45,377. Population about 1,200; of the shire, 5,750. Newspapers: The *Advertiser* and *Gazette*.

EVANSFORD (37° 13′ S. lat., 143° 46′ E. long.), 116 postal miles NW. of Melbourne, in the county of Talbot, shire of Lexton, is the site of the Talbot Borough reservoir, and is located on the Stony Creek, which runs through the township. The nearest railway stations are Talbot, 8 miles NE., Clunes, 9 miles SE., and Waubra, 7 miles S. It is distant 8 miles E. of Lexton. There is an hotel, State school (No. 801), Wesleyan and Presbyterian religious services are held, a creamery, and a public hall. Agricultural and pastoral district. Formation: principally volcanic. Population 183, within the postal district about 200.

EVERTON (36° 25′ S. lat., 146° 35′ E. long.), a postal township, on Ovens river; with telegraph and money-order office, and railway station at Upper Everton; on the Beechworth branch of the North-Eastern line, in the county of Bogong, electoral district of Ovens, and police district and shire of Beechworth. It is divided into Upper and Lower Everton (2 miles apart), and lies 161 miles by rail NE. of Melbourne, at an elevation of 780 feet above sea-level. Fares, 28s. 8d. and 19s. 4d. There are three hotels, two schools (Nos. 2,031 and 1,198), I.O.R. tent, and Wesleyan church. Town lighted with kerosene. Water from wells and tanks. The district is partly agricultural and partly pastoral. Dairy industry is progressing. The geological formation is principally granite and slate, the railway station being placed at the junction of the two formations; river flats are alluvial, hills volcanic. There is some lovely scenery in the district. Hops and tobacco are grown. Population 190; district 700.

FAIRFIELD (37° 46′ S. lat., 145° 4′ E. long.), a suburb, 4½ postal miles NE. of Melbourne, in the county of Bourke, electoral district of East Bourke boroughs, police district, and shire Heidelberg, is situated on the River Yarra. It is a post town, with telegraph office, and has railway communication with Melbourne, being a station on the Heidelberg line; or train can be taken to Collingwood, thence tram to Melbourne. There are a Church of England, a Wesleyan church, and Church of Christ, a State (No. 2,711) and private school, five stores, Rechabite tent, and saddle-tree factories, asphalte works, large public hall, and the Grandview Hotel. Fever hospital in course of erection. The town is lighted with gas and kerosene, and, standing on elevated land, is regarded as a very healthy locality. Excellent river boating. The water supply is from the Yan Yean. Population over 800. The geological formation is volcanic.

FAWKNER. *See* GLENROY.

FENTON'S CREEK (co. Gladstone, shire Korong), postal township, 166 miles N.W. from Melbourne, reached by rail to Wedderburn, coach thence. Has State school and Anglican church. Agricultural district. Population about 100 in district.

FERNHILL (co. Dalhousie, shire Tylden), post town, with telegraph and railway station, 59¾ miles NW. of Melbourne, fares, 10s. 9d. and 7s. 3d. Has Mechanics' Institute, Wesleyan church, State school (No. 1,671), sawmills, and one hotel. District agricultural and dairying. Population of district about 500.

FERNIHURST (co. Gladstone, shire Korong), on Kinypaniel Creek, postal township, reached by rail to Mysia, coach thence 7 miles, 168¾ miles N.W. from Melbourne. Has State school (No. 1,791), Anglican church, and creamery. Pastoral. Population of township and district about 70.

FERNSHAWE (37° 16′ S. lat., 145° 38′ E. long.), on Watts River, in the county and electoral district of Evelyn, 45 miles NE. of Melbourne. The Healesville railway station is distant 7 miles. Coaches run to Marysville. The surrounding country is famed for the beauty of its scenery, there being numerous fern-tree gullies, lofty water-falls, and extensive mountain views, and the timber is reported to be among the largest in the world, the mountain ash attaining the height of 420 ft. There is also much valuable wood, such as the myrtle, sassafras, &c. There is no township, the Crown having reserved the land for water supply purposes.

FERN-TREE GULLY (38° 3′ S. lat., 145° 15′ E. long.), a shire and post town, with money-order office, county of Mornington. There is railway communication with Melbourne, Upper Fern-Tree Gully being the terminal station (it is anticipated that during 1901 the line will be open to Gembrook, 18 miles), 24¾ postal miles SE. of the metropolis, 414 feet above sea-level; fares, 2s. 8½d. and 1s. 11½d. Hotels: Royal, Club, and Fern-Tree Gully. State school (No. 1,307). Churches: Anglican, Wesleyan and Roman Catholic. There is a police station. About half a mile from the Upper station is the celebrated Fern-Tree Gully, abounding in ferns and mosses, a well-known resort for excursionists and lovers of picturesque scenery. The surrounding country is of a pastoral and agricultural character. The statistics for the year ending March 1, 1900, show that 4,370 acres were under cultivation. Area of shire, 121 square miles, ratepayers 1,033, dwellings 818, rate 1s. 6d.; annual value of ratable property in the shire, £28,494; population, 3,491.

FITZROY (37° 48′ S. lat., 145° 0′ E. long.), county of Bourke, electoral district of Fitzroy, one of the most important of the metropolitan suburban cities, is situated (2 miles distant) on the NE. side of Melbourne, to the west of the city of Collingwood. It is a distinct city, under the government of a mayor and fourteen councillors. The city has been divided into five wards, each returning three councillors. The jurisdiction of the city of Fitzroy extends over 923 acres, upon which are erected 7,000 dwellings, including many fine terraces and palatial residences. The ratable property is of the net annual value of £216,978; 7,703 ratepayers, 1s. 10d. rate. Churches are numerous and all sects are represented. The more notable of these are St. Mark's and St. Luke's (Anglican); St. Brigid's (Roman Catholic); Wesleyan (3); Presbyterian (2); Baptist, Independent, United Methodist, &c. There is a scholastic convent, Salvation Army Maternity Home, St. Vincent's Hospital, &c. There are nine branch banks, including the N.S. Wales, Colonial, English and Scottish, Victoria, Australasia, Union (two), two Savings (Commissioners), and the London (two); local gasworks of the Metropolitan Company supply a large portion of the Northern suburbs. A town-hall, in the Corinthian style, in Napier Street, is a commanding and ornamental addition to the town. There are also post, money-order, savings bank, and telegraph offices, a police-court and barracks. State schools (Nos. 111, 450, 1,490, and 3,110) Five tramway lines run through the city, it being in this respect the most liberally provided of the suburbs, and cars run every few minutes. Fitzroy is also connected by rail with Melbourne, with stations at Queen's Parade Road and Nicholson Street. The chief public reserve is the Edinburgh Gardens. In the town-hall a free library has been opened, containing over 4,000 volumes. Extensive building improvements are continually being made in the city, which is a manufacturing one. Population, 30,021. Local papers: *Observer*, Wednesday; *City Press*, published Thursday; and *Mercury*, Thursday.

FLEMINGTON (37° 46′ S. lat., 144° 59′ E. long.), a suburb of Melbourne, 3 miles distant, NW., in the county of Bourke and electoral district of West Bourke. Flemington, Newmarket, South Kensington, and Kensington, are in one borough, the cattle market, city abattoirs (erected at a cost of about £60,000) are situated in the district. Flemington is bounded on the SW. by the Saltwater river. It has a railway station, fares 4½d. and 3d., post, telegraph and money-order office, Mechanics' Institute, and all the Friendly societies, eleven hotels, Union and Colonial Banks, Commissioners' Savings Bank, two State and several private schools (Nos. 250, 258), seven places of worship, fire station, police station, and court-house. Omnibuses run every quarter of an hour, fare, 4d. The racecourse here (area, 316 acres) is considered one of the finest in the world; at the Cup race 200,000 people have been present, while some of the prizes run for are superior in value to any offered in Great Britain. Flemington and Kensington combined have an area of 1,088 acres, 2,250 dwellings, 22,300 ratepayers, property annually rated at £64,955, rate in £ 2s. Gas laid on, also water. Population 10,600. Local papers: the *Flemington and Essendon Spectator* and *West Bourke Times*.

FLINDERS (38° 29′ S. lat., 145° 3′ E. long.) shire of Flinders and Kangerong, lies 56¾ miles SE. of Melbourne, at the western entrance to Western Port Bay, having telegraph money-order, and savings' bank facilities, a State school, Mechanics' Institute with library (1,500 vols.), three stores, one hotel, and several large boarding houses. Flinders is rapidly becoming a favourite watering-place owing to its splendid climate and picturesque scenery. There is a fine jetty, 350 feet in length. A coach runs from Bittern daily, fare 4s. The Tasmanian cable starts from here. "Devil's Punch Bowl," an extinct volcano. Cape Schanck Lighthouse in district. The shire comprises an area of 184 square miles, and has a population of 2,540,620 dwellings, 900 ratepayers, 1s. rate; annual value of ratable property £24,727. There are 2,693 acres under cultivation, principally with artificial grasses, hay and potatoes. Population 123.

FLINNSTEAD (late FLYNN'S CREEK), a post township, in the county of Buln-Buln and electoral district of Gippsland Central, police district and shire Traralgon, 5 miles from Rosedale, 9 miles from Traralgon, and 106 miles ESE. from Melbourne, on Flynn's creek, which runs into the Latrobe river. It is a station on the Gippsland Railway, fares, 19s. 1d. and 12s. 8d. Height above sea-level 173 feet. Fair crops of oats, wheat, peas, potatoes, and English grass are grown. Sheep are also kept in small numbers by the settlers and prove remunera-

tive. There is one State school (No. 2,944), and Red Gum hotel. Population consists of about 100 land selectors and graziers.

FOOTSCRAY (37° 28′ S. lat., 144° 56′ E. long.) (county of Bourke, electorate of Footscray and police district of West Bourke) is a municipal city suburban to Melbourne, about 4 miles W., with post, money-order, and savings bank office and telegraph station, on the Saltwater river, which is well provided with wharfage. Much bluestone is quarried here, and used for building purposes in the neighbourhood and the city; and several important manufactories have been established in the city—the principal of which are a sugar refinery, candle and soap works, jute factory, woollen mills, rope works, foundries, gas works, meat-preserving works, two chemical works, glue factory, stone-cutting works, potteries, saw mills, marble works, tanneries, carriage and blasting powder factory. Footscray is specially adapted for manufactories, having good drainage, and being easy of access by land and water. The town is lighted with gas. Water is supplied from the Yan Yean. The mechanics' institute has a library of 3,300 volumes. Masonic, M.U.I.O.O.F., and other friendly societies. Among the hotels may be mentioned the Commercial, Bridge, Ship, Junction, Barkly, Royal, Courthouse, Railway, Belgravia, Plough, and the Station. There are three banks, National, Commercial, and Colonial; four State schools (Nos 253, 1,912, 1,501, 2,832), and several private schools; fourteen places of worship, and a town hall built of bluestone. In the neighbourhood are Yarraville Maidstone, and Maribyrnong. Trains at forty-five minute intervals; fares, 4½d. and 3½d. The area of the municipality is 2,577 acres, and it contains 3,843 dwellings, 6,891 ratepayers, and ratable property of the yearly assessment of £83,189, rate 2s. 3d. Latest population 16,732. Local papers: The *Footscray Advertiser* and the *Independent*.

FORREST (co. Polwarth, shire Colac), postal, telegraph, and railway station, 103¼ miles from Melbourne. Has hotel and saw-mills. Agricultural hop, and potato district. School and Anglican church at Yangher, one mile distant.

FOSTER (Stockyard Creek) (38° 35′ S. lat., 146° 15′ E. long.), a post town, with money-order and telegraph office, and railway station (107¼ miles), fare 19s. 1d. and 12s. 11d., on the creek of the same name, which is navigable for small vessels to within 2½ miles of the township. It is in the county of Buln-Buln, and electoral district and shire of South Gippsland. It lies about 180 miles SE. of Melbourne by water, and 52 miles S. of Sale. It has savings bank, State school (No. 1,172), Roman Catholic, Anglican and Wesleyan churches; branch Bank of Australasia, M.U.I.O.O.F. lodge, and a courthouse. It is in the midst of a large auriferous district, comparatively speaking untried country, difficult to penetrate from the dense scrub. Coal has been found. The buildings comprise two hotels, four stores, and a mechanics' institute (with library of 1,300 vols.), in which Wesleyan services are held. Town is lighted with kerosene. All available land has been already selected within a 25 miles radius of the township. The soil is excellent, but the scrub and timber are in most cases very dense. Butter, saw-milling, and cheese-making industries. Area of shire 512 square miles, 590 dwellings, 916 ratepayers, 1s. rate, £22,546 net annual value of ratable property. Land under cultivation 1,013 acres, 221 being artificial grasses, and 165 potatoes. Foster is the shire town of South Gippslandshire. Population about 450, of shire 2,300. Local papers: *Foster and Toora Mirror* and *Echo*.

FOSTERVILLE (co. Bendigo, shire Huntly), postal, money-order, and mining township, 118 miles N.E. from Melbourne. It is reached by rail to Goornong or Axedale, thence coach. Has Anglican and Bible Christian Churches, and State school (3,312), Hibernian and Foresters' societies. Cheese factory; Mining industry. Population of district about 1,000.

FRAMLINGHAM (38° 15′ S. lat., 142° 40′ E. long.), a post town, with telephone station, in the county of Villiers, police district of Warrnambool, on the River Hopkins, 155 miles (165¾ postal) W. by S. of Melbourne, and 18 miles NE. from Warrnambool, whence the steamer can be taken to Melbourne, or the traveller can go to Panmure, 8 miles distant, or Garvoc, 9 miles, thence rail to Melbourne. One hotel, State school (No. 1,082), two churches, Presbyterian (with manse) and Episcopal (Christ Church), a butter factory, and a general store. Saw-mill on Agricultural College Reserve. Coach runs from Warrnambool to Mortlake, passing through Ballangeich, 3 miles distant. The soil is loamy, with much wood. At East Framlingham there are some fine dairies. In the neighbourhood, between the township and Purnim, is the Aboriginal station, where the remnant of the tribe of the Western District is sheltered. Panmure Caves are 7 miles distant. Formation: volcanic. Population about 350.

FRANKLINFORD (37° 14′ S. lat., 144° 7′ E. long.), a post town, in the county of Talbot, electorate of Daylesford, police district of Castlemaine, 85 miles NW. of Melbourne, 10 miles N. of Daylesford, 15 miles SW. of Castlemaine, situated on Jim Crow Creek. Was formerly the Aboriginal station, and was visited and named by Sir John Franklin, when Governor of Tasmania, not very long before his departure on the fatal Polar Expedition. Mount Franklin, which is an extinct volcano, is now reserved as a public park, and is being improved. State school (No. 257). Churches: Wesleyan, Presbyterian and Catholic (St. Francis Xavier). Coaches run daily to Guildford and Daylesford, fare 2s. 6d., thence to Melbourne by train. The district is both agricultural and pastoral. Formation: basaltic. Population, 120, with district, 200.

FRANKSTON (38° 11′ S. lat., 145° 7′ E. long.), a post town, with money-order office, Commissioners' savings bank, and telegraph station, in the county and electorate of Mornington, police district Bourke, shire Frankston and Hastings, situated on the eastern shores of Port Phillip Bay, on the Kannanook creek, and on the main road to Point Nepean. It is a railway station on the line to Stony Point, 26¼ miles SSE. of Melbourne. Fares, 4s. 10½d. and 3s. 7½d. Nearest townships Mornington, 8 miles SW., Mordialloc, 10 miles N., Hastings, 13 miles S., Cranbourne, 10 miles NE. Frankston contains three hotels—The Pier, Bay View, and Prince of Wales, six stores, two ironmongers, Temperance hall, one Wesleyan chapel, a Church of England and Roman Catholic Church and State school (No. 1,464), Agency Colonial Bank, Masons', M.U.I.O.O.F., G.U.O.O.F. and Rechabite lodges, fire brigade, and a public library of 2,000 volumes. It has a very long and fine jetty, extending a quarter of a mile into the bay, affording a convenient promenade, and is the centre of a large fishing trade. It is particularly remarkable for the salubrity of its climate. The town is lighted with gas. Has good picnic park, bicycle track, &c. Frankston is situated at the foot of Mount Eliza on the N., and is divided from Mordialloc by eleven miles of upheaved estuary of sand and clay. The town stands on red tertiary sandstone and clay, with upheavals of basalt and granite, with deposits of silicate of alumina, magnesian clay, blue clay, containing fossils of nautilus, corals, &c., with limestone and titaniferous iron sand. Area of shire 83 square miles, ratepayers 1,117, annual value £20,259, 1s. rates; area under cultivation 2,640 acres. Population, 800; of shire, 2,350. Newspaper: *Mornington Standard*, published on Thursday.

FREEBURGH (36° 45′ S. lat., 147° 5′ E. long.), a post town (county of Delatite, Ovens electorate, and shire Bright), 203¼ miles NE. of Melbourne and 5 miles SE. of Bright, on the Ovens river. A large area of the land is now under cultivation. It is reached by coach to Bright, fare, 1s., thence train, 35s. 3d. and 23s. 5d. Hotel: Freeburgh. Public library has 100 vols. State school here (No. 895). Lighted with kerosene, water from wells. Formation: silurian. The district is of a mining character, alluvial and quartz. Tobacco and hops are grown. Formation: Silurian. Population about 200.

FRENCHMAN'S (co. Gladstone, shire Avoca), postal township, reached by rail to Avoca, coach thence. Mining and agricultural.

FRESHWATER CREEK (38° 15′ S. lat., 144° 20′ E. long.), a post town (county of Grant, electorate of Barwon, shire Barrabool, and police district of Moriac), 57 miles SW. from Melbourne, and about 7 miles from the river Barwon. It is on the Anglesea Road, about 9 miles SW. from Geelong, and is reached by tri-weekly mail, Tuesday, Thursday and Saturday, from Pettavel, 3½ miles distant. A State school is here (No. 256), in which Anglican services are held. Pastoral and timber industries. Formation: tertiary sand on clay bed. Population of district about 100.

FRYERSTOWN (37° 9′ S. lat., 144° 15′ E. long.) (county of Talbot, and electoral district of Castlemaine, shire Mount Alexander) is a post, money-order, savings bank and telegraph station on Fryer's Creek, 86 miles N. by W. of Melbourne. It was the scene of one of the earliest gold-field "rushes," and large returns of gold rewarded the first diggers. The district is still a mining one, the diggings being both alluvial and quartz. The yield for 1899 was 10,239 ozs. The communication with Melbourne is by coach, twice daily, 8 A.M. and 6 P.M., to Castlemaine, 7 miles distant, thence the railway; coach fare, 1s., through fares, 14s. and 9s. 9d. Principal hotels are the Bridge, Fryerstown, and Corner. A Mechanics' Institute, with a library of 1,200 volumes, Oddfellows' and Foresters' societies, and a commodious hall capable of holding 300 persons; also three State schools (Nos. 121, 252, 1,063), Anglican, Wesleyan, Presbyterian, Catholic and Bible Christian churches, a parsonage and court-house, police station, powder magazine, and two large general stores. Mining prospects improving. The water supply of the town is derived from the Crocodile and Spring Gullies, fed from the Coliban scheme. In Mount Alexander shire there are 1,529 acres under tillage. Area, 50 square miles. Population 2,700, ratepayers 597, rate 1s. Net annual value ratable property, £10,635. Formation: silurian. The population is 500, that of the district within a radius of two miles being about 1,500.

FYANSFORD (38° 9′ S. lat., 144° 19′ E. long.), named after Captain Fyans, a post town, in the county and electoral district of Grant, situated at the junction of the Barwon and Moorabool rivers, 48 miles SW. of Melbourne, and 3 miles from Geelong, on the road to Ballaarat. Hotel: Fyansford. There are Episcopalian and Wesleyan churches, and a State school here (No. 1,691). Farming, and gardening district. One of the largest paper mills in Australia is here (at Buckley's Falls). A starch factory and cement works are also here. An omnibus runs to Geelong, fare, 3d. Population, 106.

GAFFNEY'S CREEK, or Lauraville (37° 30′ S. lat., 146° 4′ E. long.) (co. Wonnangatta, shire Howqua, electoral district of Anglesey), a post town, with savings bank, telegraph station, and money-order office, on the creek after which it is named, 162 miles ENE. of Melbourne. The best means of communication from Melbourne is from Mansfield Railway Station to Jamieson by coach, thence by hired conveyance, 25 miles. Hotels: Albion and Commercial. State school (No. 1,049). Church of England and Roman Catholic places of worship, police station, four stores. The land in the neighbourhood is of an auriferous character. Gold yield 1899, 1,546 ozs. Population about 300.

GALAQUIL (co. Karkarooc, shire Karakarooc, on Yarriambiac Creek), postal and railway township, with telegraph station, 235 miles NW. from Melbourne. Has coffee palace, State school (3,083), Christian Disciples' church, and store. Agricultural district. Population, 60; district, 400.

GARFIELD (38° 125′ S. lat. 145° 75′ E. long.) (co. Mornington, shire Berwick) is a railway station, with telephone and post-office, about 45¼ miles ESE. of Melbourne. Grazing and timber cutting are the principal industries. There is a State school (No. 2,724), in which Wesleyan services are held. Progressive and A.N.A. Societies. Industries: Timber mills, brick kilns, eucalyptus distillery, fruit growing (for this purpose land is pecularily adapted), and there are some extensive and flourishing orchards. Flats principally under cereals, potatoes, &c. Fern gullies in district (said to rival the famed beauty of Dandenong), which is agricultural and pastoral. Mount View is a curious conical formation about 3 miles north of township; it rises abruptly from the plain to a height of 600 feet, from which there are splendid views of Westernport Bay, the entrance to Port Phillip, &c. Population in town and district, 500.

GARLICKS (co. Dalhousie, shire Kyneton), postal township near the Blue Mountains, 68 miles NW. of Melbourne; reached by rail to Trentham, coach thence. Coach also to Blackwood. Two hotels, State school (No. 1,287), Anglican and Wesleyan churches, assembly hall. Mining, pastoral and agricultural. Population, about 250.

GARVOC (38° 16′ S. lat., 142° 46′ E. long.), a post town, with telegraph station, money-order office and savings bank, county of Hampden, shire Warrnambool, 144¾ miles W. of Melbourne, 21 miles NE. of Warrnambool, and 8 miles SW. of Terang, on the main Warrnambool road and Yallock Creek. It is a railway station on the Warrnambool line, fares 26s. 1d. and 17s. 6d. There are Roman Catholic and Presbyterian churches, and the Plymouth Brethren have a meeting house, a State school (No. 996), Roman Catholic school, mechanics' institute, free library (700 vols.), two stores, five tradesmen, and one inn, the Yallock. Lighted with kerosene. Cheese is extensively made, also a creamery. A race meeting is held annually. The country consists of alluvial flats, heavily timbered. A beautiful plantation of pinus insignis extends for about two miles along the Warrnambool road, fronting the old Yallock station. Population about 250.

GEELONG (38° 10′ S. lat., 144° 21′ 17″ E. long.), money order, savings bank and telegraph station (county of Grant), is one of the leading towns of Victoria. Incorporated as a town Oct. 12, 1849. It lies 45 miles SW. of Melbourne, with which it is connected by railway (fares, 8s. 1d. and 5s. 5d.), and is pleasantly situated on Corio Bay, an extensive arm of Port Phillip. Three passenger steamers run daily between Geelong and Melbourne, fares, 1s. and 2s., return, 3s. The principal hotels, of which there are 45, are Victoria, Prince of Wales, Union, Olive Branch, the Royal Mail, Terminus, Sydney, and National. The well-known hostelry—Mac's Hotel—has been enlarged, and converted into a coffee palace. The town is well laid out, on ground sloping to the bay on the north side, and to the Barwon river on the south; and its streets abound with attractive shops, fine stores, and other business premises. Among the larger buildings may be mentioned the Post-office, Town Hall, the Hospital and Benevolent Asylum, Mamre Homes, the free library (with 5,059 volumes) in Moorabool Street, the Mechanics' Institute (a hall seating 1,500 people) having 25,000 volumes, in Great Ryrie Street, Gordon Technical College, the premises occupied by the numerous banks, of which there are branches of the Banks of Australasia, New South Wales, Victoria, Colonial, Commercial, London, National, Savings and Union; branches of Insurance Companies; the Volunteer Fire Brigade Station; Volunteer Artillery Rooms; the churches, of which there are three Episcopal (Christ church, St. Paul's, and All Saints), a Free Church (Trinity), two Roman Catholic (St. Mary's and St. Peter's and Paul's), six Wesleyan, six Presbyterian (High, St. Andrew's St. George's, Ryrie Street, Fenwick Street, and Gaelic), four Baptist, two Primitive Methodist, two Congregational, United Methodist, and a Synagogue; the Grammar School, Geelong College, Roman Catholic and a number of private schools, and several State schools in town and suburbs (Nos. 260, 541, 1,094, 1,492, 1,887, 1,889, 2,143), the St. Augustine R.C. Orphan Asylum on an elevated site on Newtown Hill, the Protestant Orphan Asylum at Herne Hill, the Austin Almshouses in South Geelong, and the Convent of the Sisters of Mercy at Newtown. The Gordon College, an institution of some magnitude, is devoted to technical education. The Government buildings comprise the Supreme Court, Customs House, Post-office, Police Court, and Gaol (accommodation for 167 prisoners). In the centre of the market square stands the Exhibition hall, formerly used as a general produce exchange, theatre, and assembly-rooms combined. There are numerous handsome and substantial private residences in the town and out-lying suburbs. There is an extensive and well laid-out botanical garden (Eastern Park) on the banks of Corio Bay, besides two parks (Johnstone, facing the railway station, and Kardinia) attached to the town. Queen's Park is about two miles distant from the town centre, and is situated in a valley at the junction of the Barwon and Moorabool Rivers. Geelong is lighted with gas, and is at present supplied with water from Stony Creek reservoirs and the river Moorabool; there are 5 reservoirs with a storage capacity of 504,400,000 gallons. There are 4 jetties in Corio Bay (which is nearly landlocked), alongside which ships of large tonnage can load and discharge. Wharf frontage, Yarra street jetty, 1,420 feet; railway jetty, 1,360 feet. Depth of water alongside at low water, 17 to 20 feet. One crane to lift three tons. Old Customs jetty, 200 feet. Depth of water alongside, 18 feet. One crane to lift two tons. The harbour is approached by two channels cut through the bar with the following depths of water at low tides—Old channel, 18 feet, New channel, 23 feet 6 inches. The new channel is lighted on each side at intervals by gas beacons. Rise of tide; average, 1 ft. 9 in., and in summer with prevailing easterly winds, tides fall 10 inches to 12 inches below low water given; westerly winds gives better tides at neaps than full and change with easterly winds. Trains leave three times daily for Queenscliff and as often for Warrnambool. The town has the credit of establishing the first woollen mill in Victoria, and received the Government award of £1,500. There are now four mills in operation, the products of its looms being found all over Australia. The paper mill at Fyansford is one of the largest establishments of its kind in the colony. Corio Bay is well sheltered and two public companies have erected four very capacious bathing establishments, which are well supported by the town and by a large number of up-country residents, who, for many weeks during the summer season, are visitors. The increased facilities given for shipping wool direct to England from the wharves have led many growers and buyers to avail themselves of the saving thus effected. There are several wool brokers, most of whom have very extensive accommodation. One of the largest tanneries in the colony is carried on at the south bank at the river Barwon, below the breakwater. There are several others, the principal being at East Geelong and at Marshalltown, and several fellmongeries and wool-washing works, &c., on the banks of the Barwon. The rope works of Donaghy & Sons, in West Geelong, are of a very extensive character, employing a large number of operatives; also cement works. The country surrounding Geelong is essentially agricultural, and is taken up by farms and orchards. Formerly vineyards were numerous, but under the Phylloxera Act they have been destroyed. However, the replanting of vines has again commenced in all parts of the district. The Barrabool hills, on the west bank of the Barwon, are of a very fertile character, and have also the advantage of being most picturesquely situated. The geological formation of the district is newer pliocene. There are extensive quarries of limestone at the eastern boundary of the town, on the shores of Corio Bay. In the municipality of Geelong, which comprises an area of 3,012 acres, there are 2,708 inhabited dwellings, 4,338 ratepayers, 1s 9d. general and 3d. special rate, and ratable property of the annual value of £87,000. West Geelong borough has an area of 859 acres, has 1,974 ratepayers, 1,329 dwellings, and ratable property of the annual value of £26,268, rate 1s. 7d., population 5,570. Newtown and Chilwell have an area of 1,422 acres, 1,416 ratepayers, 1,086 dwellings, and the annual rateable property is £26,691; rate 1s. 9d., population, 4,887. Geelong comprises four wards, Barwon, Bellerine, Kardinia, and Villamanta. There are two cemeteries—the Eastern and the new general cemetery at Herne Hill. The population within the corporate boundary is 11,483, a total, including the boroughs of Geelong West, and Newtown and Chilwell, of 21,927. Newspapers: the *Geelong Advertiser*, established in 1840, and the oldest paper published in Victoria, *Times*, daily, and *Evening Star*, daily evening.

GELANTIPY (co. Tambo, shire Tambo), postal district; 240 miles from Melbourne; reached by rail to Bairnsdale, horse to Buchan, coach thence. Stands 2,000 feet above sea-level. Has hotel, two schools, club, blacksmith's shop, and store. Anglican, Roman Catholic and Presbyterian services are held quarterly; Wesleyan fortnightly. Mining and grazing district. Formation: basalt. Population, 40.

GEMBROOK (co. and electoral district Evelyn, police district Pakenham, shire Berwick) is a post district, 51 miles SE. of Melbourne. Rail to Pakenham, thence coach to S. N. and W. Gembrook; fare, 3s. 6d. The line is being extended from Fern-Tree Gully to Gembrook, and will probably open up timber and firewood industries. There is a State school (No. 2,506), butter factory, and a church. Free library of 300 volumes at Gembrook South. Geological formation: volcanic, overlying granite. District is mining, agricultural and pastoral in character. There are also post-offices at Gembrook South, West and North. Acclimatisation Society has a reserve here. Population in district 1,500.

GERANGAMETE (co. Polwarth, shire Colac), railway and postal township, on Barwon River, 100 miles SW. of Melbourne. Pastoral district. Population about 50.

GERANG GERUNG (36° 26′ S. long., 141° 57′ E. lat.) (co. Lowan, shire Dimboola), post town, with telegraph office at railway station, 234¾ rail miles NW. of Melbourne; single fares, 63s. 5d. and 42s. 6d.; excursion fares, 47s. 5d. and 31s. 10d.; about 5 miles W. of Wimmera Road, and has Mechanics' Institute, Orange Lodge, Methodist church, State school (No. 2,618), hotel, three eucalyptus oil distilleries (2 miles out of township), and various stores. Water from dam and tanks. Agricultural and pastoral district. Population of district 350.

GERMANTOWN (38° 15′ S. lat., 144° 21′ E. long.), a post town, in the county of Grant, electorate of Barwon, and police district of Geelong, shire of S. Barwon, 50½ miles SW. of Melbourne, and 3 miles S. of Geelong. Coaches to Torquay, Anglesea, and Airey's Inlet. It has hotel, a State school (No. 283), I.O.F. Society, and three churches, two Lutheran and one Wesleyan. The district is largely covered with orchards and farms. Area of shire, 63 square miles; Population, 1,980; Net annual value of property, £17,535; dwellings, 373; ratepayers, 1,037; rate, 1s. 3d. Land under cultivation 4,534 acres. The Connewarra Railway Station, on the Geelong and Camperdown Railway line, and the Germantown are close to the township. Water pipes are laid down in most of the streets in connection with the Geelong scheme. Population, 250.

GHERINGHAP (38° 10′ S. lat., 144° 20′ E. long.), a post town, telegraph and railway station, in the county and electorate of Grant, police district, Leigh Road, shire Bannockburn; lying 250 feet above sea-level, in the fork formed by the junction of the Moorabool and Barwon rivers. The district

is an agricultural one. Gheringhap lies 55½ miles SW. of Melbourne, fares to which 9s. 5d. and 6s. 2d., or rail to Geelong, thence coach. It has a State school (No. 261), and a Wesleyan chapel. Industry: creamery.

GISBORNE (37° 29′ S. lat., 144° 37′ E. long.), shire, and a post town, with money-order, telegraph office, and savings bank, on the west branch of the Saltwater river and the Mount Alexander road 31 miles, rail 42 miles, from Melbourne, NW. It is in the county and police district of Bourke, and electoral district of West Bourke, and lies 1,526 feet above sea-level. Cabs run to and from Gisborne on arrival and departure of trains, railway fares to Melbourne 7s. 3d. and 4s. 10d. The hotels are Hurst's Family Hotel, the Telegraph, Victoria, and Gaythorne. The Commercial Bank has a branch; there is a Mechanics' Institute, with a library of 2,000 volumes, a Foresters' society, mechanics' club, a State school (No. 262), Catholic school, and four places of worship—Episcopal, Presbyterian, Catholic (St. Brigid), and Wesleyan, Government Rifle Club, and Gisborne Racing Club, butter factories and creameries, eucalyptus oil factory, and churn factory. Town is lighted with kerosene. The surrounding land is principally of an agricultural character, in some parts heavily timbered, the chief crops are oats, hay, and potatoes, peas and beans, 2,379 acres being under cultivation. New Gisborne, which dates from the opening of the line, is located at the railway station, about 2 miles from Gisborne, and has a population of about 200. Chief hotel: Railway, and three others; free library 1,000 vols.), a State school (No. 467), and a telegraph office. Area of shire, 100 square miles. Annual value of ratable property in shire £19,722, dwellings 424, ratepayers 560, rate 1s. The water supply is obtained from Barringo Creek. Prospecting is being steadily prosecuted. English trout fishing in Saltwater river. Formation: newer volcanic, lower silurian. Newspaper: *Gisborne Gazette*, published Friday. Population, town 600; and shire, 1,900.

GLENDARUEL (37° 20′ S. lat., 143° 43′ E. long.) (county of Talbot, electoral district of Creswick,) is a township on Mount Beckworth creek, about 118 miles (101 postal) NW. of Melbourne, and 18 miles from Ballaarat. There is a State school (No. 281), where a Wesleyan service is held, and a loose post bag is left. Glendaruel is 6 miles from Clunes Railway Station, and 4½ miles from Tourello Railway Station; the most direct is to Mount Blowhard. Mount Bolton gives fine prospect of Lakes Learmonth and Burrumbeet. The district is agricultural. Formation: partly volcanic.

GLENGARRY (co. Buln Buln, shire Rosedale), post town, with money-order office, telegraph office, and railway station, 103¼ miles E. of Melbourne; fares, 18s. 7d. and 12s. 4d. Has Anglican, Roman Catholic and Wesleyan churches, State school (2,888), Mechanics' Institute and free library and hall, three hotels, butter factory, saw-mills, and several shops and stores. Lighted with kerosene. Agricultural and pastoral district. Population about 100.

GLENELG SHIRE. *See* CASTERTON.

GLENGOWER (37° 11′ S. lat., 144° E. long.) (in the county of Talbot, electoral district of Clunes and Allendale), police district of Clunes, a small postal village on Middle Creek, 93¼ miles (106½ postal) NNW. of Melbourne, 16 miles from Newstead, 26 miles from Castlemaine, and 8 miles from Clunes railway station. It has a State school (No. 927), and a Bible Christian chapel. Grazing is the principal industry. Formation: on the east of Middle Creek, quartz reefs and quartz ranges; on the west, basaltic rocks and plains. Population, about 100.

GLEN HUNTLY (co. Bourke, shire Caulfield), outlying suburb of Melbourne, reached by rail *via* Elsternwick. Has post, money-order, telegraph, telephone, and savings bank offices, hotel, two State schools, Roman Catholic and Anglican churches, shire hall. Societies: St. Andrew's, Foresters, Druids, and H.A.C.B.S. Gas and water laid on. Gardening district. A picturesque locality.

GLEN IRIS (co. Bourke, shire Boroondara) is a railway station and post-town on the Kooyong Koot Creek, and is a suburb of Melbourne 8½ postal miles, E. It is a favourite picnic spot, and has a Wesleyan church, State school (No. 1,148), and ladies' high school, numerous market gardens and villa residences. Lighted with kerosene. Population, about 200.

GLENLOGIE (co. Kara Kara and Gladstone, shire Lexton), a mining township on the Avoca, about 110 miles NW. of Melbourne. There are two churches, a State school, and an hotel. Population, about 25.

GLENLUCE (37° 11′ S. lat., 144° 14′ E. long.), the postal centre of an agricultural district on the Loddon, in the county of Talbot, electoral district of Castlemaine, police district of Fryers, 90 miles NW. of Melbourne, and 4 miles from Fryerstown. There is a State school (No. 771). It is an agricultural district, and abounds in quartz reefs. Coach from Fryers Creek to Castlemaine, fare 1s., thence train to Melbourne. Formation: volcanic. Population, 76.

GLENLYON (37° 15′ S. lat., 144° 15′ E. long.) (county of Talbot, electoral district of Daylesford, and police district of Ballaarat) is a shire and post town, and police station the Loddon river, 75 miles NNW. of Melbourne. A coach runs daily to Malmsbury (fare, 2s. 6d.), where the train can be met, also to Daylesford (fare, 1s.). There are three hotels, police station, shire hall, State school (No. 266), Roman Catholic church (St. Paul's), and school, Church of England and Wesleyan churches, debating society. Town is not lighted. It is principally a farming district, the chief crops being wheat, oats, hay, peas, and potatoes, 9,131 acres being under cultivation. Area of shire 121 square miles, 750 dwellings, 714 ratepayers on roll, 1s. rate. Annual value of ratable property £15,899. The shire council meets here. Loddon Falls is a very romantic spot, about one mile below the township. Formation: chiefly basaltic. Abundant supply of water from mineral springs. Population, 300; of shire, 3,060.

GLENMAGGIE (37° 54′ S. lat., 146° 45′ E. long.), a post-town, with money-order office, 128 miles E. of Melbourne, in the county of Tanjil, electorate of North Gippsland police district of Sale, shire of Maffra, on Glenmaggie creek. Reached by train to Heyfield, thence conveyance. The district, which is very hilly, is a grazing and dairying one. Hotel, Glenmaggie. Two State schools (Nos. 1,576, 1,949). Churches: Episcopal Presbyterian and Roman Catholic. Mechanics' institute and free library (750 volumes). There is a creamery here. Glenmaggie is on the best route to the famous lake at Mount Wellington. Town lighted with kerosene. Formation is volcanic, with alluvial flats. Population of town, 120; district, 500.

GLENORCHY (37° S., lat., 142° 40 E. long.), county of Borung, electorate of Stawell, a township, with money-order, savings bank and telegraph office, on the Wimmera river, about 14 miles NW. of Stawell, and 162½ miles NW. of Melbourne, from which the railway is the means of access, fares, 29s. 4d. and 19s. 8d. Glenorchy is Marcus Clark's "Bullock Town." Hotels: Royal, Royal Mail. It lies 567 feet above the level of the sea. There are a State school (No. 263); Presbyterian and Roman Catholic churches. Episcopalian and Wesleyan services also being held, and a Mechanics' Institute with library of 607 volumes. The district is a pastoral, fruit growing, and agricultural one. Water is pumped from the Wimmera river, and laid on from railway water tower. Population, 219.

GLENPARK (37° 37′ S. lat., 144° 2′ E. long.), a postal township, in the county of Grenville, shire, electoral and police district of Bungaree, 83¼ miles W. of Melbourne, near Yarrawee Creek. There is a good road to Ballaarat, 6 miles distant, to which coach runs, also to Dean. Hotel: White Swan. Church of England and Wesleyan chapel here. State school (1,135). The land in the vicinity is very fertile, lightly timbered, with a constant supply of springs of pure water every mile or so. Agricultural district.

GLENROWAN (36° 28′ S. lat., 146° 15′ E. long.), a post township, with a telegraph and money-order office, savings bank, and station on the North-Eastern line of railway, 135¾ miles NE. of Melbourne; fares, single, 24s. 6d. and 16s. 5d. It is situated in a gap of the Futter's Ranges which extend in a NW. and SE. course, 747 feet above sea-level, and is in the county of Delatite, electorate of Delatite, police district and shire of Benalla. The nearest places are Wangaratta, 9 miles NE., Beechworth, 36 miles NE., Greta, 6 miles SSE., and Winton, 9 miles SW. There are Anglican and Roman Catholic churches, a State school (No. 1,742), the Railway Hotel, three general stores, butter factory and creamery, several tradesmen's shops, and a public park. The water supply is from a reservoir constructed by the Benalla shire, and carried by pipes to the township. The district is a farming and grazing one. Fruit culture and vine planting are also receiving much attention. This little township gained a world-wide notoriety by the desperate encounter that took place here on June 27 and 28, 1880, between the four members of the Kelly Gang and the police. "Morgan's Look-Out" is a point of interest. Population, 159; district, 500.

GLENROY (co. Bourke, shire Broadmeadows), and FAWKNER, about 9 miles NE. Suburban to Melbourne. It has a railway station (fares 9½d. and 6d.), post and telegraph office, State school (No. 3,118), and ladies' college, creamery, public hall, in which Anglican services are held. Agricultural pursuits. Population about 250.

GLENTHOMPSON (37° 41′ S. lat., 142° 30′ E. long.), a railway and postal township, with telegraph and money-order office, on the Yuppeckiar Creek, in the county of Villiers, and electoral district of Villiers and Heytesbury, shire Mount Rouse, 167¼ postal miles W. of Melbourne, and 30 miles from Hamilton. Railway fares, 29s. 10d. and 19s. 11d. Hotel: Glenthompson. The River Wannon is about 8 miles distant. Height above sea-level 891 feet. The larger buildings comprise Presbyterian and Wesleyan churches. State school (No. 947). Branch A.N.A (156). The district is principally of a pastoral character, with a little farming. Brickmaking industry. Population, 130, and 300 in the vicinity.

GLENVALE (37° 29′ S. lat., 145° 9′ E. long.), a prettily situated township on the Plenty River and Bruce's Creek, in the county of Bourke, electoral and police district of East Bourke, commanding fine views of the Plenty ranges, 30½ miles NE. of Melbourne. Agricultural and grazing district. Water is obtained from the Plenty ranges.

GLEN WILLS (36° 40′ S. lat., 147° 30′ E. long.) (co. Bogong, shire Omeo), post town with money-order office, telephone station and savings bank, is a mining district, about 275 miles E. from Melbourne, reached by rail to Bairnsdale, thence coach to Omeo, and thence coach to Glen Wills, also by rail to Tallangatta (65 miles), thence horse. Has hotel, State school, Wesleyan church, mechanics' institute, A.M.A. and M.U.I.O.O.F. societies. Fine waterfalls and fern gullies in district. Sunnyside is an offshoot township of Glen Wills. Population of both townships, about 1,000.

GNARWARRE (co. Grant, shire Barrabool), on main Barrabool road, postal township, 58 miles from Melbourne. It is reached by rail to Mount Moriac, thence conveyance 6½ miles. Has hotel, State school, and Roman Catholic church. Pastoral and agricultural district. Population, 200.

GOBUR (GODFREY'S CREEK) (37° S. lat., 145° 35′ E. long.) is a postal and money-order township, with savings bank, in the county and electoral district of Anglesey, and police district and shire of Alexandra. It lies 90 (104 postal) miles NE. of Melbourne, on Godfrey's creek; daily coach to Yarck. It

has one hotel—the Commercial, a State school (No. 1,047), and church, Wesleyan, a mechanics' institute and free library (700 vols.). The district is agricultural, pastoral, and mining. Nearest railway station is Yarck, to which tri-weekly coach. Population, about 300.

GOLDEN POINT (73 postal miles NW. from Melbourne). *See* BLACKWOOD.

GOLDSBOROUGH, or GOLDSBOROUGH REEF (36° 47′ S. lat., 143° 50′ E. long.), a post and money-order town, in the county Gladstone, electorate Dunolly, shire Bet Bet, and police district Maryborough, on Burnt Creek, 130⅛ miles NW. of Melbourne. It is a station on the Maryborough and St. Arnaud line, fares, 23s. 5d. and 15s. 7d., and lies 722 feet above sea-level. Coach, to and from Dunolly, daily, 1s., Rheola 3s. Has three hotels, Wesleyan and Anglican churches. Free library (1,260 vols.), State school (No. 321), and three stores. Mount Moliagul only 5 miles distant. It is a mining and agricultural district. Formation: slate and sandstone. Water supply from tanks. Population, 236.

GOORAMADDA (co. Bogong, shire Rutherglen), postal township, reached by rail to Chiltern, coach thence 12 miles. Has State school.

GOORAMBAT (co. Delatite, shire Benalla), post, money-order, telegraph office, and savings bank, and railway station on Benalla line, 132 miles NE. from Melbourne. Has mechanics' institute, store, State school (3,123), Anglican church, flour-mill, hotel, and butter factory. Wine industry. Agricultural and pastoral district. Population, 150.

GOORNONG (36° 36′ S. lat., 144° 31′ E. long.), a postal town, with telegraph and money-order offices, in the county of Bendigo, electoral district of Mandurang and police district of Goornong, lying 117⅜ rail miles N. of Melbourne. It is a railway station on the Melbourne and Echuca line; fares, 21s. 3d. and 14s. 3d. It lies 472 feet above sea-level. Hotels: Drovers Arms, Railway, Black Swan, Commercial. A coach runs to Barnedown thrice weekly; fare, 1s., and to Muskerry and Toolleen thrice weekly; fare 2s. and 3s. Daily mail to Fosterville; fare, 1s. 6d. single, 2s. 6d. return. There is a State school (No. 1,598), a Church of England, and a police station. The population of the district, who are mainly engaged in agricultural pursuits, numbers 1,500 persons; that of the township, about 100.

GORDON (37° 32′ S. lat., 144° 10′ E. long.), county of Grant and electorate of Warrenheip, shire Ballan, is a mining and agricultural township on the road from Melbourne to Ballaarat, 17¼ rail miles from the latter place, 15 by road, and 58 miles W. of Melbourne. The Gordon railway station, on the direct line from Melbourne to Ballaarat, is about a mile from the township. Fares, 10s. 3d. and 6s. 9d. Principal Hotels: Mount Hope, Commercial, Williams', Unicorn, Farmers', and Parkers' United. Bank: London of Australia. There are a post, telegraph, and money-order office and savings bank in the town, A.N.A. Society, a mechanics' institute, with library of 900 volumes, St. Patrick's hall, a State school (No. 755), and Roman Catholic school, Anglican, Wesleyan, and Roman Catholic churches. It is situated at an elevation of 1,879 feet above sea-level. The mines' yield for 1899 was 7,928 ozs. Local paper: *Gordon, Egerton, and Ballan Advertiser*, published every Friday evening, (branch office at Egerton), P. F. Sullivan, proprietor. Population in town and district, about 1,000.

GORDONSHIRE. *See* DURHAM OX.

GOROKE, (36° 50′ S. lat., 141° 40′ E. long.), a post town, with telegraph and telephone, money-order office and savings bank, 249¾ miles NW. of Melbourne, in the county Lowan, and shire of Kowree, electorate of Lowan, police district of W. Wimmera. It is 28 miles from Natimuk, and 35 miles from Apsley, fare, 15s., and is in the heart of a large farming and grazing district. Hotel: Goroke. Coaches run to Apsley *viâ* Moira, Booroopki and Bringalbert; also to Edenhope *viâ* Karnak. It has a State school (No. 2,680), mechanics' institute (415 vols.), Wesleyan and Roman Catholic places of worship, Church of England and Presbyterian services also being held; two stores, a flour mill, and a police station. Court of petty sessions held monthly. There is also an Oddfellows' lodge, agricultural society, and a racing club. Water from well. Formation: limestone. Population 250, district 500.

GOULBURN SHIRE. *See* NAGAMBIE.

GOWAR (co. Talbot, shire Maldon), postal township on Muckleford Creek, issuing postal notes, reached by rail to Muckleford, coach thence 4 miles. Has two hotels, State schools (149). Water from wells. Agricultural and mining. Population about 100.

GRANITE FLAT (37° S. lat., 148° E. long.) (co. Benambra, shire Toowong), postal township, on Snowy Creek, reached by rail to Tallangatta, coach and horse thence. It is 242 miles NE. from Melbourne. Has hotel and Roman Catholic church. Mount Benambra in district. Mining and pastoral district. Population about 50.

GRANT (37° 10′ S. lat., 147° 3′ E. long.), a post town, with money-order office, in the Gippsland district, in the county of Dargo, North Riding, Avon shire, electoral district E. Gippsland, police district of Bairnsdale, situated on the Dividing Range, 194 miles E. of Melbourne. The surrounding country is very rugged and mountainous, and intersected by deep gullies. The mode of conveyance to Melbourne is by horse or buggy to Stratford, thence by rail. Church of England services are held at intervals. One hotel. The district is chiefly a mining one. Formation: basaltic. Water supply from tanks. Population, 31: inclusive of district, 8,706.

GRANTVILLE (38° 29′ S. lat., 145° 25′ E. long.), a post town, with money-order, savings bank and telegraph office, county and electorate of Mornington, police district of Bourke, shire Phillip Island and Woolamai, 61 miles SE. of Melbourne, on Western Port Bay. Communication daily with Melbourne, *viâ* Lang-Lang Railway Station. A coach runs to Lang-Lang; fares 3s., 5s. 6d. return Hotel: Grantville. A police station, Agricultural society and show ground, State school (No. 1,414), a mechanics' institute (in which religious services are held), free library (659 vols.), and M.U.I.O.O F. lodge are in the place. The land has been all taken up within a 12 miles radius for grazing and root crops. Dairying industry. Formation: carbonaceous. Population 200; with district, about 1,150.

GRANYA (36° 15′ S. lat., 147° 20′ E. long.), a post town with money-order and savings bank office, in the county and electorate of Benambra, police district of Beechworth, 226 miles NE. of Melbourne, on the Cotton Tree creek, 3 miles S. of the Murray river, and 36 miles from Wodonga, from which place a coach runs twice a week, fare, 8s. The metropolis is also reached *viâ* Tallangatta, 9 miles by bridle track, or 14 miles by vehicle, thence train. Hotels: Broune's, Central and Club. State school, mechanics' institute with library of 500 volumes, and police station, two quartz crushing mills, and two stores. Mining, grazing, farming, and fruit-growing district. The coach running from here to Tintaldra forms the most direct route to the grand Kosciusko scenery. Formation: metamorphic and old silurian. Population, 260; district, 600.

GRAYTOWN (36° 45′ S. lat., 144° 59′ E. long.), a post town, with savings bank and money-order office, about 80 miles (90¼ postal) N. of Melbourne, in the county Dalhousie and electoral district of Rodney, shire Melvor, on Spring creek. There is coach communication with Heathcote: fare 6s., thence train to Melbourne. There are two hotels: Bendigo and Post Office, a State school (No. 1,005), Free Methodist church, two stores, and a saw-mill. Mining, agricultural and pastoral operations are carried on in the district. Formation: granite, upper silurian. Population, town about 50, and district, 200.

GREAT NORTHERN (co. Moira, shire Rutherglen), post town, with money-order office, 179 miles NE. of Melbourne. Reached by rail to Chiltern or Rutherglen (4 miles), thence cab. Has Presbyterian church, State and private schools, hotel, store and wine depot. Viticulture and mining district. Population of district, about 300.

GREAT WESTERN (37° 10′ S. lat., 142° 52′ E. long.), a postal village and railway station, with money-order office and savings bank, on the Concongella creek (co. Borung, electorate of Ararat and Stawell), 141⅜ postal miles WNW. of Melbourne, 783 feet above sea-level, situated between Ararat and Stawell, on the main line of road and railway (fares, 25s. 7d. and 16s. 11d.), 10½ miles from Ararat, 7½ from Stawell, 16 miles W. from Crowlands, and 12 miles NE. of Moyston. The Grampians, with beautiful scenery, is about 18 miles distant and about 6 miles from Moyston. Hotel: Shakespeare. Great Western is famed for its wine and fruit produce. Two large champagne cellars have been excavated for Hans Irvine's vineyard wines; also has distillery. There is a police station, State school (No. 860). Churches: Roman Catholic, Wesleyan, and Church of England. Literary Institute, with library of 685 volumes, and large hall and A.N.A. There are alluvial mines immediately at the back of the township, with several quartz reefs within 3 miles. Formation: granite. The water supply is derived from the Great Western Dam, which can store 1,211,662 gallons. Population about 500.

GREENDALE (37° 32′ S. lat., 144° 19′ E. long.), a postal township, on Dale's Creek in the county of Bourke, shire Ballan, and electoral district of West Bourke 55 miles W. of Melbourne. Bacchus Marsh and Ballan are the nearest railway stations. Mail arrives by horseback from Myrniong. The Werribee river is about 5 miles distant. The township is in the jurisdiction of the Ballan Shire Council, to which it sends two members. It contains one hotel—the Medway, a State school (No. 918), and Roman Catholic and Anglican places of worship. The township is on a flat, surrounded by hills. The district is of a farming, mining, and grazing character. Population, 140.

GREENSBOROUGH (37° 30′ S. lat., 145° E long.) (co. Bourke, shire of Heidelberg), is a pretty little village, with postal and telegraph station, on the river Plenty. 13 miles NE. of Melbourne. It is largely patronized by excursionists, and is reached by rail *viâ* Heidelberg, thence coach, twice daily. There are two hotels, a State school (No. 2,062), Church of England and Wesleyan Methodist places of worship, U.A.O.D. and Rechabite societies. It is lighted with kerosene. The district is agricultural, pastoral and horticultural. Mining is attracting much attention. Population about 250.

GREEN'S CREEK (co. Borung, shire Stawell), postal township, reached by rail to Stawell or St. Arnaud, coach thence. Has hotel, State school (No. 1,381), in which services are held. Good fishing and shooting. Agricultural district.

GRENVILLE (37° 40′ S. lat., 143° 54′ E. long.) is a pleasant township, situated in a bend of the Leigh river (county of Grenville, and electorate of Grenville, and shire of Buninyong). It lies 70 miles distant W. from Melbourne in a straight line (115 postal), and is 17 miles S. of Ballaarat. There is coach communication between Buninyong and Garibaldi, 3 miles away; also between Grenville and Ballarat. Grenville is on the direct line of the proposed railway from Beeac to Ballaarat *viâ* Buninyong. In the township is one store, hotel, a post-office, a State school (1,153), and a number of private residences. The Church of England, Presbyterians and Wesleyans hold services in the Protestant Union church. There is a Recreation Reserve in the centre of the township. There is a little alluvial gold mining. Large quantities of firewood are taken from Grenville to Buninyong

and Ballaarat, and the Ballaarat furnaces are supplied with charcoal from the district. Adjoining the township is a timber reserve of 13,000 acres. The dairying industry is growing, and a creamery is established. Formation: Schistose, quartzose, and volcanic. Population about 150.

GRENVILLESHIRE. *See* LINTON.

GRETA (36° 30′ S. lat., 146° 17′ E. long.) (county and electorate Delatite, shire Oxley, police district Ovens) is the postal centre of an agricultural and pastoral district, with money order office, on the Fifteen Mile Creek, 145 miles NE. of Melbourne. The old township, commonly called Greta Township, is 6 miles from Glenrowan, and contains an hotel, State school, and Roman Catholic Church. The more recent township is 3 miles from the old, and 9 miles from Glenrowan, where there are a post-office, State school, police station, and store. Churches: Episcopal and Primitive Methodist. The cemetery is located here. A coach runs to Glenrowan, fare, 2s. 6d., thence train to Melbourne. Has a butter factory and creamery. Population of township, 73; of district about 400.

GUILDFORD (37° 15′ S. lat., 144° 15′ E. long.), a corporate town and riding, in the county of Talbot, and electoral- and police district of Castlemaine in Mount Alexandershire, with post and money-order office, savings bank, and telegraph office, on the south bank of the river Loddon, 84½ miles NW. by N. of Melbourne. It is a railway station on the Melbourne and Maryborough line; fares, 15s. 4d. and 10s. 3d. Hotels: Family, Commercial, and Farmer's Arms. Coaches run daily to Yandoit, Franklinford, and Daylesford. The district is an agricultural, pastoral, and a mining one; the soil is very fertile. Dredging plant at work. There is a State school (No. 264), Church of England, Roman Catholic, Presbyterian, and Bible Christian places of worship, soap factory, Oddfellows' lodge, and two stores. Water from wells and Loddon. Mount Franklin, extinct volcano, 7 miles south. Formation: basaltic. The population of the town is 180, that of the district about 400.

GUNDOWRING (co. Bogong, shire Yackandandah), postal centre, on Kiewa River, reached by rail to Huon Lane, coach to Kiewa, thence horse 15 miles. Anglican church. Agricultural. Population of district, about 250.

GYMBOWEN (co. Lowan, shire Kowree), a post town, telephone and railway station, 35 miles W. from Horsham, and 243¾ miles NW. of Melbourne. Has hotel (Gymbowen), school (2,556), stores, mechanics' institute (in which Anglican and Salvation Army services are held), and free library (550 vols.), North Kowree Racing Club, &c. Agricultural and pastoral. Population about 40; district, 400.

HADDON (37° 31′ S. lat., 143° 47′ E. long.), a postal township, with money-order office, 84½ miles W. of Melbourne, situated on Smythe's creek or the Woady Yallock river, in the county of Grenville, and electoral district of Windermere. The communication with Melbourne is by rail, Haddon being a station on the Ballaarat and Linton line, fares, 15s. 1d. and 9s. 11d. Ballaarat is 10 miles distant. Hotels: Reform, George, and British Queen. Places of worship: Roman Catholic and Primitive Methodists. A State school (No. 1,076). Several shops and store. The characteristic of the district is mining. A small reservoir, about a quarter of a mile distant, furnishes the township with water. Formation: stringy bark ranges all round, schist, a thin layer of trap running north and west and north-east: auriferous quartz lode on the west. Population of district about 200.

HAMILTON (37° 44′ 53″ S. lat., 142° 1′ 7″ E. long.), the inland metropolis of the western district, is situated on the Grange Burn creek, in the counties of Dundas and Normanby, electoral district and shire Dundas; 197½ miles W. of Melbourne, 576 feet above sea-level. The River Wannon flows about 12 miles distant W. Hamilton is connected with Melbourne by railway, *viâ* Ararat; also by direct line with Casterton, Portland, Coleraine, Penshurst, Koroit, and Warrnambool. Fares direct from Melbourne, 40s. 10d. and 27s. 2d. There are ten hotels, of which the Victoria (Cobb and Co.'s booking office), the Commercial, Grange, Caledonian, Prince of Wales, Argyle, and the Hamilton Inn are the principal. The municipal area is 5,100 acres, with 742 dwellings, 1,162 ratepayers, 1s. 9d. rate, and ratable property of the annual value of £23,424. It contains a fine hospital and benevolent asylum, and fever ward, a shire office, a mechanics' institute, with a library of 3,000 volumes, town-hall, the usual Government buildings, including court-house and Treasury, Foresters' and Temperance halls, a fire brigade and station, and a private club house. The public gardens are beautifully and picturesquely situated. The Hamilton and Western District College, founded 1871, is an institution largely patronized, and the building is one of the finest in the district or colony. The Hamilton Academy is also a first-class school, and there are, besides, the Alexandra College for Young Ladies, and a State school (No. 295), a Catholic school, and several private schools for young children. A large building has been erected on the site of the old post-office, accommodating the Land Office, and Post and Telegraph offices. The Hamilton Gas Company has been very successful in its operations. New water supply works have been completed at a cost of £25,000, giving an unsurpassed supply. The reservoir can store 30,000,000 gallons. Hamilton has eight churches, Episcopalian, Presbyterian, Wesleyan, Baptist, Primitive Methdoist, Roman Catholic, Salvation Army, Lutheran, and Free Presbyterian. The National, Colonial, Bank of Victoria and Commercial Bank have branches in the town, and occupy substantial premises. The Ballaarat Banking Company and the Land Mortgage Bank have also agencies here, and there is a savings bank. Several insurance companies also have branches. The Pastoral and Agricultural Society hold exhibitions of stock and produce three times a year; the Horticultural Improvement Society holds periodical shows; and the Hamilton Racing Club, having a fine course of 120 acres (oval left-handed), furnishes three meetings (2 Flat and 1 Steeplechase) a year, with occasional programmes of bye-races. The Western District Coursing Club has its headquarters here. There is also a hunt club, polo club, golf links, bicycle track, rifle club, cricket club, &c. The Grange Lodge of Freemasons (No. 45) meet in the town, while the friendly societies are represented by the Foresters, Oddfellows, Sons of Temperance, Rechabites, Australian Natives Association, and Hibernian Australian Catholic Benefit Society. There are numerous first-class stores, a butter factory, freezing works, soap works, and other business establishments. The district is a pastoral (principally sheep-grazing) and agricultural one. Hamilton Preserving Co.'s factory is about 3 miles out of town. Dundas shire surrounds the town, its area is 1,364 sq. miles; population, 2,323; ratepayers, 791; dwellings, 454; rate, 1s.; net annual value of ratable property, £81,961; 5,793 acres under cultivation, chiefly hay and oats. Courts of Petty Sessions are held daily at 10 A.M., County Courts, Courts of General Sessions quarterly, and Supreme Court five times a year. Formation: pliocene and newer volcanic. One of the most interesting fossil beds in the world is at Muddy Creek. Population, 3,500. Newspaper: The *Hamilton Spectator*, published three times a week.

HAMPDEN SHIRE. *See* CAMPERDOWN.

HAMPTON (co. Bourke, shire Moorabbin), a seaside township, connected by rail (11 miles S.E.) with Melbourne. Has post, money order office, telegraph station, three hotels, wine and tea gardens, one State and two private schools, Anglican and Presbyterian churches, silk farm, boat pier, and baths. Lighted with gas and kerosene. Geological formation: ferruginous, with sandstone.

HAPPY VALLEY (38° 2′ S. lat., 143° 30′ E. long.), a post town, with money-order office, 98¾ miles NW. of Melbourne, having a daily mail. It is in the county, shire, and electorate of Grenville, police district of Ballaarat, and lies near the Springdallah Creek. Picturesque scenery. It is a railway station (two miles from township) on the Ballaarat and Linton line, 1,070 feet above sea-level; fares, 17s. 6d. and 11s. 10d. Hotels: Prince of Wales and Happy Valley. There is a State school here (No. 376), part of which is used as a public hall and library. Churches: Church of England and Wesleyan. Oddfellows lodge and Mechanics' Institute. The town is reticulated and supplied with water from reservoir. Mining district of lower silurian formation. Population, about 250.

HARCOURT (37° 0′ S. lat., 144° 37′ E. long.), a post town, with telegraph office at railway station, in the county of Talbot, and electoral district of Castlemaine, west riding Metcalfeshire, 82¾ miles N. of Melbourne, on Barker's creek. It lies 1,096 feet above sea-level. Harcourt is a railway station on the Melbourne and Sandhurst line; fares, 14s. 10d. and 9s. 11d. It has a State school (No. 299), cricket club, a Temperance hotel, Rechabite Tent and Hall, a Wesleyan church and several fine nurseries and orchards. There are fine granite quarries here near the reservoir, and granite polishing works. The features of the district are grazing for dairy purposes, fruit growing, with some mining and agricultural industries. The locality is regarded as healthy. A reservoir supplies the town with water. Formation: granite. Population of town about 200, and neighbourhood about 300.

HARKAWAY (co. Mornington, shire Berwick), postal township, reached by rail to Berwick, 2¾ miles NW. buggy thence. Has State school (No. 1,697). Agricultural and dairy district. Mountain scenery, shooting and fishing. Population of district about 150.

HARRIETVILLE (36° 50′ S. lat., 147° 10′ E. long.) is a postal town, with telegraph, savings bank, and money-order office, in the county of Delatite, electoral district of the Ovens, North-Eastern police district, shire of Bright, on the Ovens river. It is 216 miles NE. of Melbourne. Three coaches run to Bright (16 miles) daily; fare, 2s. 6d., thence train to Melbourne. Is a tourists' district. The coach to Omeo stops one night in summer months (going and returning) at Mount St. Bernard hospice, 12 miles from Harrietville, passes over Mount Hotham, 6,000 feet high. There are three hotels (Harrietville the principal), Wesleyan and Catholic churches, receiving house for the Bank of Australasia, Insurance Agency, mining registrar, and collector of imposts, rifle and other clubs, State school, School of Mines (with a well-selected collection of minerals, books, and curios), Athenæum, with free library of 1,350 vols., public hall, I.O.R. and I.O.G.T. societies, and a police camp. Streets lighted with kerosene. Mining district (there being extensive quartz mines and hydraulic sluicing works), with some farming; hops are also cultivated. Formation: Sandstone and slate. Population of district, about 1,000.

HARROW (37° 12′ S. lat., 141° 38′ E. long.), a postal, telegraph, savings bank, and money-order township, in the counties of Dundas and Lowan, electorate of Dundas and police district of Hamilton, on the north bank of the river Glenelg, about 250 miles (258 postal) W. by N. of Melbourne, and 61 miles from Hamilton. The rail to Hamilton, coach thence from Hamilton (Tuesdays, Thursdays, and Saturdays), is the travellers' route, or from Noradjuha (Wednesdays, Fridays, and Sundays); from Coleraine (Mondays, Wednesdays, and Fridays, and from Casterton (Tuesdays and Fridays), Railway Stations. Hotels: Hermitage and Harrow. There are two churches, on belonging to the Presbyterians, Episcopalians, Wesleyans, and the other to the Roman Catholics, and a State school (No. 2,049), mechanics' institute, with public hall and library of 2,100

vols., also a branch of the Bank of Victoria, and racing, cricket, football, rifle, golf, and other clubs. Court of petty sessions is held here every Thursday; police magistrate visits every alternate month. The surrounding district is principally of a pastoral character. Population, 260.

HARTWELL (co. Bourke, shire Boroondara), small posta suburb of Melbourne, with which it is connected by rail. Cab runs to Burwood. Has one hotel. Streets lighted with gas; water from Yan Yean.

HASTINGS (38° 16′ S. lat., 145° 13′ E. long.), a post town, with money-order office, telegraph station, and savings bank, on the north-western extremity of Western Port Bay, in the county and electorate of Mornington, police district of Bourke, 40 miles SE. of Melbourne. It is a railway station on the Stony Point line; fare, 7s. and 4s. 7d. The chief hotels are the Royal and Westernport. It has a State school (No. 1,098), reading-room and library of 1,000 volumes, and Anglican, Roman Catholic, and Wesleyan churches, and Latter Day Saints. Town lighted by kerosene. Hastings is an extensive fishing and oyster station. There is a 40-lb. Siege Battery and Rifle Club here. The neighbourhood is also noted for its orchards. Formation: sandstone. Population, 388; with district, 771.

HAVELOCK (37° 10′ S. lat., 143° 40′ E. long.), a post town (county of Talbot, electorate of Maryborough, shire Tullarup, and police district of Maryborough), situated at the junction of the Dunolly, Carisbrook, Maryborough, and Eddington roads, 118 miles NW. of Melbourne, and 616 feet above sea-level. The railway from Maryborough and Dunolly passes through the township, where there is a station; fares, 21s. 3d. and 14s. 3d. There are two hotels, Junction and White Hills, State school (No. 1,264), and Wesleyan chapel. The nearest waters are the Four Mile creek and the Bet-Bet river. Agricultural and mining district. Population, 150.

HAWKESDALE (38° 2′ S. lat., 142° 18′ E. long.), a postal village, with telephone, on Tea Tree creek, 192 miles W. of Melbourne. 30 from Warrnambool, 23 from Belfast, and 18 from Penshurst, in the shire of Minhamite, county of Villiers, electorate of Port Fairy, police district Warrnambool. It has railway communication with Melbourne *viâ* Koroit; fares, 34s. 2d. and 22s. 10d.; station is two miles from township. The district is heavily timbered, and principally adapted for pastoral pursuits. Hotel: The Hawkesdale. Annual meetings are held here by the local Turf Club. The village is under the control of the Minhamite shire council, which holds its meetings at Hawkesdale the first Monday of each month. It possesses a State school (No. 766), Wesleyan, Presbyterian, and Catholic places of worship, mechanics' institute, shops, and general stores. Population, 190.

HAWTHORN (37° 49′ S. lat., 145° 3′ E. long.), a city suburban to Melbourne, 4¼ postal miles E., with which it is connected by a good road. Cable and horse tramways connect with Spencer Street Station, and cars run frequently, fare, 3d.; there is also railway communication. Fares, 4d. and 3d. Hotels: Palace, Ormond's Glenferrie Hotel and Coffee Palace, Langham, Auburn, Riversdale, Terminus, Sir Robert Nichol, Tower, Beehive, Hawthorn, Red Lion, Governor Hotham, and Railway. It is in the county of Bourke, electoral district of Hawthorn. Numerous villa residences are here. The Literary Association has a library of over 3,000 volumes. Banks: English, Scottish, and Australian, Commercial, Bank of Victoria, National, Savings (Commissioners). There are three State schools, two Catholic, and numerous private schools, Hawthorn Grammar School, and Methodist Ladies' College, one of the largest institutions in Victoria, which has cost £12,000. The churches are: Church of England (2), Roman Catholic (2), Wesleyan (2), Congregational, Presbyterian (3), United Free Methodist, and Baptist. The municipal buildings, completed at a cost of £17,000, comprise, beside the Town Hall and offices, a post, money-order and telegraph office, savings bank, court-house, and police station. There is a post and telegraph office at Auburn, a thickly populated portion of the city. There is a large and commodious coffee palace, and a telephone exchange. Industries: leather-dressing factory and Hawthorn Brickmaking Company. The residents are chiefly professional and business men engaged in the city, and retired business men, with a necessary accompaniment of tradesmen. Local institutions: Masonic, Oddfellows', and Druids' lodges, social club for workmen, and free library. The river Yarra is spanned by three bridges connecting it with Richmond. Nearest places are Kew, on the N., Malvern on the S., and Camberwell on the E. To the last there is railway communication. The municipality has an area of 2,400 acres, 4,600 inhabited dwellings, 5,750 ratepayers, 1s. 9d. rate, and ratable property of the net annual value of £174,356. Latest population, 21,090. Town is lighted with gas, water from Yan Yean. Local newspapers: *Hawthorn and Kew Express* and *Hawthorn Citizen*.

HEALESVILLE (37° 35′ S. lat., 145° 38′ E. long.), a shire and postal township, with savings bank, and money-order office, in the county and electorate of Evelyn, 39 miles ENE. from Melbourne, at the junction of Graceburn and Watts rivers. Communication from Melbourne is by rail; single ordinary fares, 6s. 6d. and 4s. 4d. Friday to Monday excursions 7s. 4d. and 4s. 11d. return. Sunday excursions 4s. 11d. and 3s. 3d. return. Coaches run to Maripville daily, and Yarra Track tri-weekly. Has three hotels, branch Colonial Bank, Anglican, Presbyterian, Roman Catholic, and Wesleyan churches. Court of petty sessions held here. State school (No. 849) and private school, mechanics' institute and library (400 vols.), M.U.I.O.O.F. lodge and I.O.R. tent. Streets lighted with kerosene. Splendid water supply. In the district are the Coranderrk aboriginal station, a reserve of 4,400 acres, Maroondah, Graceburn and Donnelly's weirs, Mathinna, Malleson's Look-out, and Condon's Falls. Saw-mill industry. Annual value of ratable property in shire £11,112, area 283 sq. miles, ratepayers on roll 290, dwellings 227, rate 1s., population 1,350; acres under cultivation, 755. Formation: grey sandstone, verging on granite. Population of town, 700. Newspaper: *Healesville Guardian*.

HEATHCOTE (36° 55′ S. lat., 144° 45′ E. long.) (county of Dalhousie and electorate of Rodney), central riding of McIvor shire, money-order and savings bank, and telegraph station, in the centre of the McIvor gold-field, 73½ miles N. of Melbourne, 29 miles E. of Sandhurst, and 7 miles W. of the Costerfield gold and antimony mine. Heathcote is a railway station on the Wallan to Sandhurst line, 787 feet above sea-level; fares, 13s. 2d. and 8s. 11d. Coaches run to Graytown, Costerfield, Redcastle, and Toolleen. The town is situated in a pretty valley at the foot of Mount Ida, and on the McIvor creek, which flows into the Wild Duck creek 4 miles from its junction with the Campaspe. The town is scattered over a large area, the length of the township from north to south being 5 miles. There are in the town numerous hotels, two steam flour mills, numerous stores, five churches and chapels, belonging to the Anglican, Wesleyan, Presbyterian, Roman Catholic, and the United Methodist bodies. Is lighted with kerosene. Banks: Victoria and Commercial, and there are agencies of several insurance offices. Also a hospital, mechanics' institute, with a library of 2,359 volumes, three private halls, Shire Hall, Masonic Hall (used by Masons and Foresters); Oddfellows, Hibernians, Rechabites, A.N.A., and Good Templars meet at Federal Hall. Police Camp, Sub-Treasury and Land offices. The district is an agricultural, pastoral and mining one, and the McIvor goldfield formerly bore a high reputation. Gold yield for 1899, 2,835 ozs. Area of shire, 705 sq. miles; dwellings, 923; ratepayers 1,336; rate, 1s.; net annual value of ratable property, £32,496. Land under cultivation, 6,691 acres. Population 4,100. Courts of petty sessions and warden's court are held on Friday, and every quarter courts of mines, insolvency, and county courts are held. Good reticulated water supply. There are two State schools (Nos. 300 and 1,520). Heathcote rests chiefly on a greenish slate. Local paper: The *McIvor Times and Rodney Advertiser*. Population 1,090.

HEDI (co. Delatite, shire Oxley), postal township, on King river, reached by rail to Wangaratta, coach thence. Has store and hotel. Industries: hops and tobacco gr owing.

HEIDELBERG (37° 45′ S. lat., 145° 3′ E. long.) (county of Bourke, electorate of East Bourke) is a pretty township and shire, with post, telegraph, savings bank and money-order office, on the Heidelberg road and the Yarra river, about 7½ miles ENE. of Melbourne. It is a pleasant resort for picnic parties from the city, and has many of the characteristics of an English hamlet. There is a public park of 27 acres prettily laid out. The hotels are the Old England and Sir H. Barkly. The district is principally cultivated for market gardens and the growth of grapes and other fruits, agricultural and pastoral interests also being represented. There is railway communication with Melbourne: fares, 11½d. and 8½d. Rail can also be taken to Collingwood or Clifton Hill, thence to the metropolis by tramcars. There are Oddfellow, Rechabite and Masonic lodges, a State (No. 294) and a Roman Catholic school. Churches: Church of England (St. John's), Presbyterian, Wesleyan, and Roman Catholic. Church of England services are also held at Diamond Creek, St. Helena, Greensborough, Ivanhoe, Alphington, and Fairfield. There is a court-house and shire offices, a branch of Commercial Bank. Coaches, morning and evening, run to Greensborough, and Diamond Creek, and afternoon to Eltham, Templestowe, Anderson's Creek, and Kangaroo Ground. The town is lighted with gas. The water supply is from the Yan Yean. Mining is carried on in the neighbourhood of Diamond Creek and Templestowe. A Hospital for Incurables has been erected in this village, principally at the personal expense of a lady, Mrs. Thomas Austin. Annual value of ratable property in shire £35,051, area 42 sq. miles, dwellings 944, ratepayers 2,800, rate 1s. 4d., acres under cultivation, 2,243. Population of the town about 713, of the shire 4,000. Geological formation: Argillaceous slate highly inclined.

HEPBURN (37° 20′ S. lat., 144° 10′ E. long.) (county Talbot, electorate of Daylesford), shire Mount Franklin, is a post town, 79 miles (79 postal) NW. of Melbourne, distant 3 miles from Daylesford Railway Station. Cabs run from Daylesford to Hepburn; fare, 6d. Hotels: American, Old Race Course, Mineral Springs, and Spring Creek. It lies on a point between the Sailor and Spring creeks. The town has considerable celebrity from a mineral spring in the vicinity, which is a great resort for excursionists. A comfortable boarding-house is in the town. There are numerous vineyards in the district. Area of shire 107 sq. miles, 660 dwellings, 853 ratepayers, 1s. rate; net annual value of ratable property, £14,368; population of shire, 2,931. 3,203 acres under cultivation. Mining is carried on. Macaroni factory. Situation healthy and picturesque. A favourite picnic ground is the crater of the extinct volcano Mount Franklin. State school (No. 767) and Anglican church. Formation: volcanic. Population, 160.

HESKET (37° 21′ S. lat., 145° 40′ E. long.), a post town, in the co. of Bourke, electorate of Lancefield, Dalhousie, and Kilmore, police district Romsey, on a tributary of Monument Creek, 57 miles (55 postal) NW. of Melbourne, and 7 from Woodend Railway Station, from which a coach (fare 1s.), runs daily to Hanging Rock Hotel, 3 miles distant from Hesket, fare as arranged. Also train from Melbourne to Romsey, thence a conveyance six miles. Two hotels, principal one the Mountain Home. A State school (No. 1,004), sawmill, and Episcopal place of worship, district is agricultural. Soil suited for growth of

chicory, water supply mostly from springs. Formation: volcanic. Population about 150.

HESSE (co. Grant, shire Leigh), township (with post bag), 75 miles SW. of Melbourne, on Warrambine Creek, reached by rail to Leigh Road, coach thence 18 miles. Has school (No. 1,376). Pastoral and agricultural district. Formation: trap rock and swamps.

HEXHAM (38° S. lat., 142° 41′ E. long.), a post town, with telegraph station and savings bank and money-order office, in the county of Villiers, shire Mortlake, electorate of Ripon and Hampden on the Hopkins river, 45 miles from Hamilton, 35 miles N. of Warrnambool, 10 miles from Mortlake, 130 miles (160 postal) W. by S. of Melbourne, and is reached by train to Mortlake thence by coach, or by steamer to Warrnambool, thence coach, a coach running between Caramut and Mortlake passes through Hexham daily. Hotel: the Woolshed. State school (No. 296), Anglican and Presbyterian churches, and a Temperance hall are here. The surrounding country is mostly of a pastoral character. Population, 90; with district, 360.

HEYFIELD (38° 1′ S. lat., 146° 49′ E. long.), a post town, with money-order office, and telegraph office (at railway station), in the county of Tanjil, electoral district and shire of Maffra, and police district of Sale, situated on Thompson river, 120¼ miles E. of Melbourne. It is a station on the main line to Melbourne. 21s. 6d. and 14s. 3d. Hotels: Commercial, Railway and Heyfield. Pastoral pursuits are largely carried on. There are Anglican, Primitive Methodist and Roman Catholic churches, a State school (No. 1,108), a branch of the Bank of Victoria, mechanics' institute and library containing 1,042 vols., a tannery, a butter factory and creamery. Lighted with kerosene. Formation: sandy loam, and gravel. Population, 200.

HEYTESBURYSHIRE *See* COBDEN.

HEYWOOD (38° 5′ S. lat., 141° 40′ E. long.), a post town, with telegraph station, savings bank and money-order office, in the county of Normanby and electorate of Portland, 88 feet above sea-level, situated on Fitzroy river, 235¾ miles W. by S. of Melbourne, and 38 miles from Hamilton. It is a railway station on the line to Portland; fares from Melbourne, 42s. 2d. and 28s. 3d. Portland is 16 miles distant. There are two hotels, the Heywood and the Commercial, and churches of the Church of England, Wesleyan, Presbyterian, and Roman Catholic (St. Gregory's) bodies, and Salvation Army barracks. The public buildings consist of a mechanics' institute (with library of 1 030 vols.), a State school (No. 297), and a Temperance hall. Three general stores, several saw mills, bark mill, and other business premises. Petty Sessions are held every fortnight. The Portland Shire Council meets here on second Thursday in the month. The O.S.T. has lodge in the township. Water by private tanks. Coaches run to and from Dartmoor twice a week; fare, 9s. Limestone formation. Population, 420; district, 1,500.

HIGHTON (38° 10′ S. lat., 144° 10′ E. long.) (co. Grant), a postal village, in the shire of South Barwon, parish of Moorpanyal and electorate of Barwon, 48½ miles SW. from Melbourne, 3½ miles from Geelong. It is situated in a valley terminating in the Barwon river. It has a Temperance hall, Sons of Temperance Society, State school (No. 304), average attendance 75, and about 84 dwellings. There are two churches, Anglican and Wesleyan. Cabs run from Geelong. The surrounding country is hilly, and picturesque, with beautiful valleys intervening, and magnificent soil. Farming, fruit-growing and grazing are extensively carried on. The township is prettily situated amongst the Barrabool Hills, and is a favourite place of residence for numbers of Geelong business people. The Kardinia Nursery, one of the oldest in the colony, is in the neighbourhood. Fyansford Manufacturing Co.'s mills (driven by water power) manufacture Price's starch, tomato sauce, etc. The Barrabool cemetery is at Highton. Population, 430.

HILL END (late RUSSELL'S CREEK) (38° S. lat., 146° 7′ E. long.), in the county Bulu Bulu, police district of Moe, shire Narracan, between Russell and Camp Creeks, 101¼ miles SE. of Melbourne, and 17 miles from the Moe Railway Station, to which place a coach runs on Tuesdays; fare, 3s. A coach runs to Willow Grove, 6 miles distant, Tuesdays, Thursdays and Saturdays; fare, 2s. 6d. State school (No. 3,054). The district is described as mining (gold yield, 1899, 791 ozs.), agricultural, and pastoral. It is very picturesquely situated, being about 15 miles from the Baw Baw Mountains. Population of district about 200.

HILLSBOROUGH (36° 15′ S. lat.; 146° 50′ E. long.), a post town, 183¾ miles NE. of Melbourne. It is in the county of Bogong, electorate of Benambra, police district of Yackandandah, and is reached by train to Beechworth, coach to Stanley, 6 miles, fare, 1s., horse thence. One place of worship, used by Anglicans and Presbyterians. The district is principally a quartz mining one, and there are two quartz mills here, which are kept constantly employed. Formation: volcanic. Population, 49.

HINNO-MUNJIE (37° S. lat., 148° E. long.) (co. Benambra, shire Omeo), postal township, with telephone, 269 miles E. of Melbourne, reached by rail to Bairnsdale, coach to Omeo, thence by horse. Has hotel, State school (No. 1,995), Wesleyan church. Water from tanks and wells. Formation, granite. Population, about 100.

HIT OR MISS. *See* KOOROOCHEANG.

HOCHKIRCH (37° 42′ S. lat., 142° 6′ E long.), a postal village, with money-order office (county of Normanby and electorate of Dundas), police district of Hamilton, situated between the Grange Burn and Muddy Creeks and between Croxton and Hamilton, *viâ* Geelong, Warrnambool, Penshurst, 225 miles W. of Melbourne; *viâ* Ballarat and Hamilton, 202½ miles from Melbourne. Most of the traffic is *viâ* Hamilton, which is about 5 miles from Hochkirch. A mail daily between Hamilton and Hochkirch; fare, 2s. 6d.; through fares to Melbourne, 34s. 6d. and 23s. 6d. It is inhabited principally by Germans. The places of worship comprise a Lutheran (St. Michael's), and a German Evangelical church. There is a German Lutheran school, a State school (No. 1,908), German printing office, German bookseller. Population about 100. Newspapers, *Der Lutherische Kirchenbote* (fortnightly), and *Kinderfreund* (monthly).

HODDLE'S CREEK (37° 45′ S. lat., 145° 48′ E. long.), a post town, in the county and electoral district of Evelyn, police district of Bourke, 42½ (39½ postal) miles NE. of Melbourne, on the creek after which it is named, which is 5 miles from the river Yarra (Upper). Coach daily to Launching Place (which is much visited by tourists during the summer months, fare, 4s 6d., thence by horse. Hoddle's Creek is reached by train to Lilydale, thence conveyance. The mining and pastoral interests here are of importance. Bush fires destroyed mechanics' institute. Eucalyptus distillery in operation about two miles west. Population, about 60.

HOMEBUSH (UPPER) (37° 2′ S. lat., 143° 29′ E. long.), a post town, in the county of Gladstone, electoral district of Talbot and Avoca, 805 feet above sea-level. It is a railway station on the Maryborough and Ararat line, 123¾ miles NW. of Melbourne, fares, 22s. 4d. and 14s. 10d. Coach runs to Lower Homebush, 2½ miles, 6d. It has a State school (No. 1,579), a Wesleyan chapel, and a Disciples' chapel, teacher's residence, post office and one store. Alluvial mining locality.

HOMEBUSH (LOWER) is a post town, with money-order office and savings bank. Three stores, two hotels: Working Miners and Homebush. State school (No. 2,258). Two churches—Wesleyan and Union, police station, reservoir. Mining, agricultural, and pastoral district. Population of district about 500.

HOPETOUN (co. Karkarooc, shire Karkarooc), a post town, on Lake Corrong, with money-order, telegraph and savings bank office and railway station, 255 miles NW. from Melbourne. Has three hotels, State school, Commercial Bank, and shire offices. Baptist and Wesleyan churches, Golf links, police barracks, mechanics' institute (in which Roman Catholic, Presbyterian, and Anglican services and local court (every Wednesday) are held), Oddfellows', A.N.A and Rechabite lodges, sports club, turf club, agricultural implement works, and agricultural and pastoral society. Experimental orchard. Lake Lascelles (from which water supply is obtained) supplies good duck shooting. It is a magnificent climate, and the district, which is thickly populated, is agricultural and pastoral. Formation: Tertiary or supracretaceous, red, sandy loam, outcroppings limestone in places. Population, 400, with district 2,000. Newspaper: *Hopetoun Courier and Mallee Pioneer*, established 1892, published Fridays.

HORSHAM (36° 45′ S. lat., 142° 15′ E. long.), a municipal borough, with post, telegraph, savings bank, and money-order office, on the right bank of the Wimmera river, 203½ miles WNW. of Melbourne, in the county of Borung, electoral district of Horsham, police district and shire Wimmera, and a station about midway on the main railway line from Melbourne to Adelaide. Fares, from Melbourne, 36s. 7d. and 24s. 6d. Cabs run to and from the railway. It lies 434 feet above sea-level. Has thirteen hotels and railway refreshment-rooms. There is a State school (No. 298), R.C. school, working-men's college, Freemasons', Oddfellows, Orange, Rechabite, and A.N.A. societies, a mechanics' institute with 3,000 volumes, a hospital (a brick building, divided into three wards), Masonic hall, town hall, shire hall, court-house, receipt and pay office, police station, two flour-mills, two foundries, two breweries, two large coach building establishments, two cordial manufactories, and other business premises. The principal Government building comprises receipt and pay offices, post and telegraph offices and land and survey offices. Town Hall, court-house, West Wimmera irrigation trust offices, orderly room, and working-men's college. Churches: Anglican (St. John's), Presbyterian, Wesleyan, Bible Christian, and Roman Catholic (St. Michael's), Disciples of Christ. Banks: Colonial, Victoria, National, London, Commercial, and Savings Bank. The borough area is 5,760 acres, and the annual value of ratable property is £13,575; 518 dwellings, 601 ratepayers, 2s. 3d. rate. The district is principally an agricultural one. Gas and water are laid on. The water supply is obtained by pumping from the Wimmera river. It is becoming metropolitan almost in its appearance, and is the stock market, Assize Court, and Lands office centre, and chief town of the Wimmera. In Wimmera shire 132,214 acres are under tillage, 73,745 wheat, also vines, oats, orchards and gardens. The shire area is 1,043 sq. miles, and the annual value of ratable property £50,339, population 4,760, ratepayers 952, rate 1s. A tramway has been formed to the McKenzie quarries, distant 7 miles, where an inexhaustible supply of stone is obtainable for making the district roads. In the Grampians, about 30 miles from Horsham, is the Wartook water storage, the headworks of the Western Wimmera irrigation scheme. The one drawback to the district hitherto having been the uncertain rainfall, irrigation will become a prominent feature in the prosperity of this locality. Irrigation farming is being proceeded with, and large areas have been successfully planted with vines, oranges, lemons, apples, &c. The Botanical Gardens, on the banks of the river, are tastefully laid out, and are much resorted to. From Mt. Arapiles, and the Grampians, within easy driving distance of the town, excellent views of the surrounding country can be obtained. Formation: tertiary. The local newspapers are the *Horsham Times* (the oldest-established in the Wimmera district) and *Wimmera Star*. Population of borough, 2,445, district, 9,000.

HOTHAM. *See* NORTH MELBOURNE.

HOTSPUR (37° 55′ S. lat 141° 30′ E. long.), a postal township, in the county of Normanby, shire of Portland, police district of Merino, on the south bank of the Smoky or Crawford river, 32 miles from Hamilton, SW., and 213 miles (237¼ postal) W. from Melbourne. A mail conveyance runs twice a week to and from Condah, 10 miles distant, the nearest railway station, fare, 3s. It contains a store, mechanics' institute (200 vols.), a State school (No. 1,260); a Free Presbyterian Church, in which Wesleyan services are held monthly. Grazing district. Timber abounds in the neighbouring Smoky Forest, and much splitting is carried on. Population about 100.

HOWQUA SHIRE. *See* JAMIESON.

HUNTLY (36° 39′ S. lat., 144° 20′ E. long.), county of Bendigo, electorate of Mandurang, police district Bendigo, is a post town, and shire on Bendigo creek, 108 rail (110¼ postal) miles NW. of Melbourne. It is a railway flag station on the Bendigo line, fares 19s. 4d., 12s. 11d. Cabs run to Bendigo, fare 9d. Hotels: Camp, Victoria and Corner. There is a State school (No. 306), three churches, Anglican, Wesleyan, and Roman Catholic, a police camp, and a shire hall. Anglican services are held in the Presbyterian Church. The district is principally a gold-mining one, though farming operations, fruit growing, and wine producing are carried on to some extent. In 1900, 24,242 acres were under cultivation, the chief crops being wheat, oats, hay, and vines. Net annual value of property in the shire is £30,306, area 335 sq. miles, ratepayers 900, dwellings 920, rate 1s. Population of town, 200; of shire, 4,100.

ILLABAROOK, late BULL DOG (37° 44′ S. lat., 143° 40′ E. long.), is a postal town, on the creek of the same name, in the county, and electorate of Grenville, and police district of Scarsdale, 97 miles W. of Melbourne. A coach runs to Newtown, fare 1s., thence rail *viâ* Ballaarat to Melbourne; also coach to Ballaarat, fare, 2s., thence rail; two coaches from Scarsdale daily, fare, 1s. Hotel, the Illabarook; State school (No. 722), mechanics institute and free library containing 501 volumes. Divine service is held in the Mechanics' Institute by the Salvation Army weekly. Roman Catholic and Presbyterian churches. Pitsfield Plain goldfield 1½ miles SW. Water from reservoir. Gold mining district. Formation: Silurian overlaid by (supposed) Miocene sand; trap rock (recent) on plains. Population, about 300.

INDIGO (36° 3′ 2″ S. lat., 46° 35′ 1″ E. long.), a post town, in the Ovens district, in the county and electorate of Bogong, and police district of Chiltern, about 6 miles to the southward of the river Murray, and 175 miles NE. of Melbourne, on the road between Chiltern and Rutherglen. Chiltern, a station on the North-Eastern Railway, is six miles distant, to and from which a buggy runs daily, fare, 2s. Hotels: Commercial and Star. Wine making industry. The district is a mining one, 1,200 miners being at work; yield, 1899, 35,049 ozs. The "Great Northern Extended" and "North Prentice" group of alluvial mines in the neighbourhood. State school (No. 802). The geological formation is silurian. Population, scattered, about 1,500. Newspapers: *Federal Standard* and *Rutherglen Sun*.

INGLEWOOD (36° 35′ S. lat., 143° 53′ E. long.), in the county of Gladstone, electoral district of Dunolly, North Western police district, is a municipal mining town, with money-order and savings bank office, and telegraph station in the neighbourhood of the river Loddon, 130¾ miles NNW. of Melbourne; fares, 23s. 5d. and 15s. 7d. It is also connected by rail with Dunolly, East Charlton, Wedderburn, Boort and Wycheproof. The hotels are the Royal, Adelphi, Harp of Erin, Pelican, Empire State, Shamrock, Charlie Napier, Exchange, Bank, Robert Burns, and Railway. It lies 499 feet above sea-level. Sandhurst, with which it is in railway communication, is distant 30 miles SE. The Victoria and New South Wales Banks have branches, and several insurance companies are represented by agents. Inglewood has a good hospital, a mechanics' institute, with a library of 1,700 volumes, a State school (No. 1,052), a court-house, town-hall, and places of worship belonging to the Church of England, Wesleyan, Presbyterian, and Catholic and Salvation Army bodies. The gold is principally found in quartz reefs. The mineral resources of Inglewood, both alluvial and reefs, have been exceedingly rich. The reefs have scarcely been prospected below the water level. Yield for 1899, 3,733 ozs. The town is well supplied with water. The area of the municipality is 2,560 acres, with 340 dwellings, 350 ratepayers, 1s. 6d. rate, and ratable property of annual value of £6,953. Much land settlement has taken place throughout the district, which is one of the foremost of the wheat-producing localities in Victoria. Coaches run to Jarklin and Rheola daily. The geological formation is quartz and slate. The population numbers 1,309. The local newspaper is the *Inglewood Advertiser*, published Tuesdays and Fridays.

INVERLEIGH (38° 5′ S. lat., 144° 2′ E. long.), a township with a post, telephone, money-order and savings bank office, is situated near the junction of the Leigh and Barwon rivers, on the main road between Geelong and Mortlake (county Grant, electorate of Grenville, shire Bannockburn), 61 miles (69 postal) W. by S. of Melbourne. Leigh Road, 9 miles distant, is the nearest railway station. A coach meets midday train, fare, 1s. 6d. Geelong is 18 miles distant E., to which town a coach runs on Thursdays, and Saturdays, fare, 2s. There are Anglican, Presbyterian, Roman Catholic and Primitive Methodist churches, two hotels, police station, three stores, creamery, two blacksmiths', two butchers', and one baker's shop. The mechanics' institute has a library of 740 volumes. State school (No. 1,147). Good farming and grazing. Population, about 400.

INVERLOCH (co. Buln-Buln, shire Woorayl) is a summer resort, postal (tri-weekly) and fishing village, on Anderson's Inlet, about 87 miles SE. of Melbourne. Rail to Outtrim, 10 miles, coach thence; coaches run to San Remo, Outtrim, Leongatha, and Koonwarra; two hotels, State school (No. 2,776), mechanics' institute with free library of 500 vols. (in which religious services are held); police station is here. Coal is found. Butter factory. Venus Bay, with caves on coast. Grazing and agricultural district. Formation: Carboniferous sandstone; some basaltic flows. Population about 200.

IRREWILLIPE (co. Polwarth, shire Colac), postal township, 107 miles SW. of Melbourne, reached by rail to Pirron Yallaak, coach thence, 3 miles. Pastoral and agricultural district. Has State school (No. 1,039). Anglican and Bible Christian places of worship; also Oddfellows' lodge. Population, about 180.

IVANHOE (37° 46′ S. lat., 145° 4′ E. long.), a post town with telegraph office, in the county and electorate of East Bourke, and police district of Heidelberg, 6 miles ENE. of Melbourne, on the main road to Heidelberg. Communication is by rail; fares, 10½d. and 8½d. Hotel: Fritz Heines'. There is a State school (No. 2,436), in which Wesleyans hold service; also a Church of England. The district is agricultural and dairying, but is becoming residential. The town is lighted with gas, while the water supply is from the Yan Yean. The geological formation is volcanic. It lies between the Darebin creek and river Yarra. Population, 348.

JAMIESON (37° 17′ S. lat., 146° 9′ E. long.), a post town, with money-order, and savings bank office, and telegraph station, situated at the junction of the Goulburn and Jamieson rivers (county Wonnangatta, electoral district Anglesey, and police district Upper Goulburn, shire Howqua) about 142 miles by nearest coach road, 156¾ miles postal, ENE. of Melbourne. There is a daily coach from Mansfield railway station, 7s. 6d. The hotels are Courthouse, Diggers' Rest, and Junction. The district is a mining one, principally quartz; some of the reefs have proved to be of great richness; the yield for 1899 was 714 ozs. The area is 806 sq. miles, population 2,300, ratepayers 560, dwellings 409, rate 1s., annual value of ratable property £30,200, acres under cultivation 652. There are in the town a branch of the Colonial Bank of Australia, a Freemasons' lodge, a State school (No. 814), Anglican and Roman Catholic churches; also one brewery, police station, gaol, mechanics' institute with 450 vols. in library, a powder magazine, and a court of petty sessions and mines. Lighted with kerosene. Formation: lower silurian, with thin cappings of tertiary on the older rocks. Population 223. The *Jamieson Chronicle* is the local journal.

JANIEMBER. *See* SERPENTINE.

JAN JUC (31° 32′ S. lat., 144° 20′ E. long.) (county of Grantshire Barrabool, and police district of Mount Moriac), a post town on Spring creek, 62¼ postal miles SW. of Melbourne. Communication is by conveyance from Geelong; thence rail or boat. There are here a Wesleyan chapel, also a Mechanics' Institute and Free Library with 464 volumes. State school (No. 319). Pastoral and agricultural district, which consists of low-lying flats and round hills, limestone, marl, gypsum, porcelain clay. Population, 130.

JARKLIN (co. Bendigo, shire E. Loddon), postal district, on Serpentine creek, reached by rail to Inglewood, coach thence daily, 5s., 145 miles from Melbourne. Has hotel and creamery. Water from Loddon Trust. Formation: sandstone, and subsoil clay. Agricultural and pastoral district, with population of about 200.

JEETHO (38° 30′ S. lat., 145° 40′ E. long.) (co. Mornington, shire Poowong and Jeetho, electoral district Mornington and Gippsland West), a postal township, telegraph and railway station, on the Port Albert line, 61¼ miles SE. from Melbourne, on Alsop Creek. There is a shire hall, State school, and Wesleyan church. Dairying and grazing district. Area of shire 230 miles, population 7,600, 1,200 dwellings, 1,985 ratepayers, 1s. rate, annual value of ratable property £41,429, acres under cultivation, 618. Formation: carbonaceous sandstone. Population township, 80.

JEPARIT (36° 10′ S. lat., 141° 59′ E. long.) (LAKE HINDMARSH), a postal township with telegraph and railway station, on Wimmera river, near Lake Hindmarsh, 23 miles from Dimboola, and 247¾ postal miles NW. from Melbourne, co. Lowan, shire Dimboola, electorate Lowan. It has Anglican, Wesleyan and Roman Catholic churches. Oddfellows' lodge, two hotels, brick kilns, implement makers, coffee palace, receiving house National Bank of Australasia, State school (No. 2,988), various stores, public hall, mechanics' institute and free library (429 vols.), Agricultural and pastoral society, and several clubs. Industries: agricultural implement making, fruit-growing, dairying, &c. Lakes Hindmarsh and Albacutya in vicinity. Formation: alluvial, with limestone in patches. Population of town, 250, and district about 700. Local paper: *Jeparit Leader*.

JERICHO (37° 37′ S. lat., 146° 20′ E. long.), a post town, in the county of Tanjil, electoral district of Gippsland, police district of Benalla, 112 miles NE. of Melbourne, situated at the junction of B. B. Creek and the river Jordan. The rugged character of the country renders travelling difficult; it can, however, be reached either by the Yarra track to Marysville, or by rail to Moe, thence coach to Walhalla or rail to Mansfield, coach to Wood's-Point *viâ* Jamieson and conveyance. From Moe a coach runs to Walhalla (fare, 10s.), thence by horse to Jericho (£1). Hotels: Hibernia and Jordan. Roman Catholic place of worship. The water supply is derived from the B. B. Creek and Jordan River. Jericho, which is ten miles from Wood's Point, is in the midst of splendid mountain scenery, and affords a most salubrious climate. Mining district. By the returns to Dec. 31st, 1899, the yield was 11,809 ozs. Formation: slate, with belt dykes of granite. Population of town 55.

JINDIVICK (county and shire Buln-Buln), a post township, nine miles N. from Drouin, and 69 miles E. from Melbourne; from which rail to Rokeby. Mountain scenery. It is rich agricultural and timber district. Has mechanics' institute (525 vols.), Oddfellows' lodge, creamery, store, blacksmith's shop, Anglican church, State school (No. 1,951).

JOYCE'S CREEK (37° 2′ S. lat., 143° 58′ E. long.), a post town, situated 671 feet above sea-level, on the creek from which it derives its name, in the county of Talbot, electoral district of Maldon and police district of Newstead, 95½ miles NW. of Melbourne. There is a State school (No. 1,053) and a store. It is a railway station on the Melbourne, Castlemaine, and Dunolly line; fares, 17s. 3d. and 11s. 7d. Agriculture and grazing are carried on in the district. Population 68.

JUMBUNNA (co. Buln-Buln, shire Poowong and Jeetho), a post town, with money-order, savings bank, and telephone bureau at railway station 73 miles E. of Melbourne, fares 13s 1d. and 8s. 10d. Coaches run to Inverloch and Kongwah. Has public hall (in which Anglican and Wesleyan services and State school (No. 2,954) are held), coffee palace, cordial factory, hotel and mechanics' institute. Coal mining largely carried on, and fields are developing rapidly, the output of the local company in 1899 being 73,652 tons. Population about 1,000.

JUNG JUNG (36° 42′ S. lat., 142° 33′ E. long.), a post town, with money-order, savings-bank, and telegraph-office, in the county of Borung, electoral district of Horsham, police district of Murtoa, shire Wimmera, on the Yarriambiack creek. It is a railway station on the line between Stawell and Horsham, 12 miles from Horsham, and 191¼ miles NW. of Melbourne; fares, 34s. 5d. and 22s. 10d. single. It has one hotel, two stores, and several tradesmen's shops, Rechabite tent, mechanics' institute and Free library (508 vols.), and a State school (No. 1,728). Places of worship: Anglican and Wesleyan. Lighted with kerosene. Water from creek. Good fishing and shooting. Agricultural and pastoral. Population about 150.

KAARIMBA (36° 5′ S. lat., 145° 20′ E. long.), a post town, 142 miles (138¼ postal) NE. of Melbourne. It is in the county of Moira, and electorate of Numurkah and Nathalia, between the Broken Creek and the Goulburn River. Bible Christian church and public hall. The State school (No. 1,775) (at which Presbyterian service is held) is at Waaia South, 3 miles, and Mundoona West, 3½ miles distant. Communication is *viâ* Wunghnu (tri-weekly mail), 9 miles, Waaia, 5 miles, Nathalia, 8 miles, Numurkah, 11 miles, and Echuca, 38 miles. Nearly the whole district consists of rich chocolate loam, and produces magnificent crops of wheat, oats and barley; it is rich grazing land. Vines and fruit-trees grow luxuriantly, and yield heavily. Average annual rainfall, 20·90 inches. Population, 60.

KALKALLO. *See* DONNYBROOK.

KAMAROOKA (co. Bendigo, shire Huntly), postal township, 134 NW. of Melbourne, reached by rail to Raywood, coach thence. Has hotel, general store, blacksmith's, State school (No. 3,182), and Wesleyan church. Mining, agricultural, and pastoral district.

KANEIRA (co. Tachera, shire Wycheproof), on Tyrrell creek, postal township, with telegraph and railway station, 217 miles N.W. from Melbourne. Has hotel, State school (No. 3,246), and mechanics' institute. Mallee. Agricultural district. Population of town, 100; of district, 500.

KANGAROO FLAT (36° 49′ S. lat., 144° 16′ E. long.), a post town, with money-order and telephone office, on Bendigo creek, in the county of Bendigo, electoral district of Sandhurst South, 97¾ rail miles NW. of Melbourne, and in railway connection with it, fares, 17s. 6d. and 11s. 10d. Mining district. There is a State school (No. 981), also Anglican (with Vicarage), Presbyterian, Wesleyan, and Roman Catholic churches, Oddfellows', Foresters' and Rechabite Societies, cordial factory, and several hotels. It lies 841 feet above sea-level. Lighted with kerosene. The water-supply is from the Coliban scheme. Formation: lower silurian. Population, about 800.

KANGAROO GROUND (37° 43′ S. lat., 145° 17′ E. long.) is the name of a postal township, with telegraph station, money-order office and savings bank, county and electorate of Evelyn, and police district of Eltham, on the Yarra river. It lies 19½ miles NE. of Melbourne by road, and is reached by coach to Heidelberg, which runs daily, fare, 3s., thence rail to Melbourne. There are two hotels (Kangaroo Ground and Weller's), a State school (No. 2,105), and a church (Presbyterian). Coaches run to Panton Hill, fare, 1s., Queenstown, fare, 2s., Eltham, fare, 1s. Mining and grazing are carried on, but agricultural and horticultural pursuits are chiefly followed. The soil is a rich black, yielding heavy crops of hay. From Garden Hill there is an extensive view of beautiful scenery. Formation: volcanic. The population numbers about 400 persons, mostly small farmers and their families. Local paper, *Evelyn Observer*.

KANIVA (36° 40′ S. lat., 141° 30′ E. long.) is a postal township with money-order, savings bank, and telegraph office, in the county of Lowan, shire of Lawloit, 272¼ miles NW. of Melbourne, and 25 miles W. of Nhill, on the railway line between Horsham and Adelaide (212 miles), on which it has a station and goods shed; fares, 48s. 8d. and 32s. 6d. It is a place of Petty Sessions, has new shire offices, branches of the Commercial and Victoria Banks, two hotels: Commercial and Club, three general stores, a flour-mill, Anglican, Presbyterian, Wesleyan, and Disciples of Christ churches, Salvation Army, mechanics' institute (in which R.C. services are held), with free library (1,200 vols.), State school (No. 2,531), Oddfellows, Orange, and Rechabite societies, medical practitioner, and several tradesmen's premises. Lighted with kerosene. Water from Government tanks and dams. It is a wheat-growing district. The shire has an area of 2,265 square miles; 510 dwellings, 519 ratepayers, 1s. rate, and net annual value of ratable property of £28,777. Land under cultivation, 46,402 acres, under wheat and oats. Population 400.

KARABEAL (37° 30′ S. lat., 142° 13′ E. long.), a postal village, in the county and electorate of Dundas, 18 miles from Hamilton and 188½ postal miles W. from Melbourne. The river Wannon flows about two miles distant. Presbyterian Church. Moutajup, on the Portland line, is four miles distant. Karabeal is reached by taking train to Dunkeld. Sheep farming is the chief industry of the district. Formation: basaltic. Stiff yellow clay on surface.

KARA KARA SHIRE. *See* ST. ARNAUD.

KARKAROOC SHIRE. *See* BEULAH.

KARYRIE (co. Tatchera, shire Wycheproof), post town, 211 miles NW. of Melbourne. Reached by rail to Birchip, thence coach 21 miles. Has mechanics' institute Roman Catholic and Wesleyan churches, and State school (No. 3,130). Agricultural and pastoral district.

KATAMATITE (co. Moira, and electoral district Numurkah and Nathalia, police district Katamatite, shire Tungamah) is a post town with, telegraph, money-order office and railway station on Boosey Creek, about 147½ miles NE. Coaches run to Yarrawonga, Mon., Wedn., and Fri., 5. p.m., and to Numurkah Tues., Thur., and Sat., 11.30. a.m. It has a branch of the Bank of Australasia, Katamatite and Commercial hotels and state school, (No. 2,069), Mechanics' Institute and Free Library with 300 vols., M.U.I.O.O.F., Wesleyan church, and creamery. Lighted with kerosene. District is agricultural. Population, town 230; district 450.

KEILOR (37° 44′ S. lat., 144° 51′ E. long.), a shire and township, with money-order office, on the Saltwater river, 10 miles W. of Melbourne, 3 miles from St. Albans on Bendigo line, and about 5 miles from Essendon, station (nearest telegraph) on the N. Eastern line, with which there is coach communication twice a day; fare, 1s., return 1s. 6d. It is in the county of Bourke, and electoral district of W. Bourke. Hotels: Keilor and Race-course. The neighbouring country is known as Keilor Plains; good cycling roads. There are in the district 3 State schools, also Anglican, Weslevan, and Roman Catholic (St. Augustine's) churches. Net annual value of ratable property in shire £11,480, area 53 sq. miles. ratepayers 464, dwellings 139, rate 1s. Land under cultivation, 1,844 acres. Chiefly hay, pastoral and dairying district. Formation: basaltic. Population, 160; shire, 680.

KELLALAC (co. and shire Borung, postal centre, 212½ miles from Melbourne. Has State school (No. 2,358), and Roman Catholic church. Agricultural district.

KENSINGTON (37° 47′ S. lat., 144° 59′ E. long.), a railway station adjoining Flemington, with which it forms a borough, 2 miles N. of and suburban to Melbourne, on the North-Eastern line. Trains run at frequent intervals. Railway fares, 4½d. and 3d.

KENSINGTON. *See* LEOPOLD.

KERANG (35° 40′ S. lat., 143° 55′ E. long.), a post town, with money-order, savings bank, and telegraph and telephone office, on the Loddon river (county Gunbower, electoral districts of Donald, Swan Hill, and Gunbower, shire of Kerang), 179¼ miles NNW. of Melbourne, 35 miles from Swan Hill, 14 miles from Koondrook (connected by tram with Kerang), the nearest point of the Murray, and 50 miles NW. from Echuca. It is a station on the railway line from Sandhurst to Swan Hill; fares, 32s. and 21s. 6d. There are three lines of coaches running respectively to Murrabit, Boort, and Echuca. Hotels: Kerang, Commercial, Gilbert Club, Exchange, Royal, and Shire Hall. Banks: National, Victoria and London. State school (No. 1,410), private school, court-house, and police-station. Places of worship: Episcopal, Presbyterian, Wesleyan, Baptist, and Catholic. Mechanics' institute has a library of nearly 3,000 vols. Government buildings: lands office, treasury, and railway station, Masonic, A.N.A., Oddfellows' and Druids' lodges. Irrigation trusts have been formed throughout the district, and the farmers are now independent of the uncertain rainfall; town is reticulated. There are twelve lakes within as many miles. The town is the market for a large area of mallee country. Fruit-growing and intense culture is receiving great attention, with good results. There is also an ostrich farm. The general formation of the country is limestone, with alluvial drift and clay. A court of petty sessions is held twice weekly, and county-court three times a year. Town is lighted with kerosene. Population 1,400; shire 7,300. In 1900 the area of shire was 1,465 sq. miles, with 1,440 dwellings, 2,000 ratepayers, 1s. rate, and net annual value of ratable property £75,650: acres under tillage 160,308, of which 133.248 were wheat. Newspapers: *Kerang Times*, published Tuesday and Friday, and *Kerang Observer*, published Wednesday and Saturday.

KERGUNYAH (36° 20′ S. lat., 147 E. long.) (co. Bogong, shire Yackandandah), postal township, 207 miles NE. of Melbourne, reached by rail to Huon Lane, coach thence. One Presbyterian church, and Wesleyan and Church of England combined; State school (1,345). Population of district, 200.

KEW (37° 48′ S. lat., 145° 3′ E. long.), a prettily-situated borough, with money-order, savings bank, and telegraph office (county Bourke and electorate of Eastern Suburbs), suburban to Melbourne, about 5 miles E., and is divided into five wards. It is a very favourite place of residence for the merchants and upper tradesmen of the city, and is dotted with their elegant mansions, villas, and well-kept gardens. Some parts of the locality are elevated about 200 feet above the sea-level, from which fine views can be obtained. The

town is under municipal government. It has 1,656 dwellings, 1,829 ratepayers, 1s. 2d. rate, and ratable property of annual value of £79,563 (area 3,553 acres). The borough is lighted with electricity and gas. The Metropolitan Lunatic Asylum, supplementing the establishment at Yarra Bend, is here, having 884 beds; also a Roman Catholic college, dedicated to St. Francis Xavier, with grounds of 80 acres, under the control of the Jesuit Fathers; the Genazzano convent in the Cotham Road belongs to the same denomination. Horse tram connects with tramway at Victoria Bridge; fare, to Melbourne, 4d. There is railway communication with Melbourne, fares, 5½d. and 4½d., the line branching off from the Hawthorn station one mile distant. Coaches run to Glenferrie railway station, fare, 3d. Hotels: Greyhound, Clifton, Prospect Hill. Kew, Council, Harp of Erin. Banks: English and Scottish, and National. State schools (Nos. 1,075 and 3,161), Kew High School, Methodist Ladies' College, Roman Catholic Ladies' College, and several private schools. Church of England, with parsonage, Congregational, Presbyterian, Catholic, Baptist, and Wesleyan Methodist churches; a town hall, police station, a court house where sessions are held every Wednesday; also a literary and scientific institute, with library of 5,500 vols. The surrounding country is undulating, well timbered and grassed; the soil is sandy, with rich flats near the river. The Boroondara Cemetery is well laid out. Studley Park, a reserve of about 200 acres, is situated W. of the borough, and commands pretty and extensive views, having the river Yarra meandering through it. Estimated population, 8,900. Local paper: *Kew Mercury*, published weekly, on Friday.

KEVINGTON (co. Wonnangatta, shire Howqua), postal township, NE. from Melbourne 161 miles. It is reached by rail to Mansfield, coach thence. Has three hotels and State school (No. 1,133). Main road lighted with kerosene. Water from Goulburn river. Mining, agricultural, and slightly pastoral district. Formation: slate and sandstone.

KEWELL (32° S. lat., 142° E. long.), a postal township, in the county and electorate of Borung, police district of Minyip, on Yarriambiac creek, 21 miles NE. of Horsham, and 197 postal miles NW. of Melbourne, from which rail to Murtoa, thence conveyance. Hotel—Coffey's. There are four State schools, Kewell, (No. 2,116), Kewell West (No. 1,858), Kewell East and Kewell North. Churches: Episcopal, Presbyterian, and Wesleyan. A Free Library is here, containing 150 volumes. Coaches run to Murtoa, 12 miles, fare, 5s. Farming and pastoral district.

KEYSBOROUGH (co. Bourke, shire Dandenong), dairying and market gardening district near Dandenong, about 20 miles S.E. of Melbourne. Has State school (1466) and Wesleyan Methodist church. Pastoral and agricultural district.

KIALLA (36° 23′ S. lat., 145° 30′ E. long.), an agricultural and farming district or parish, situated in Euroa shire, county of Moira, 113 postal miles NE. of Melbourne. The Broken river forms its northern and the Goulburn river its western boundary. The main roads from Murchison to Shepparton and from Violet Town to Shepparton run through it. There are in the vicinity two hotels, two State schools (Nos. 1,366, 1,727), and Catholic school, and United Methodist and Roman Catholic places of worship. Communication is by rail to Shepparton, thence conveyance.

KIATA (36° S. lat., 142° E. long.), a post town, with telegraph office, county and shire of Lowan, electorate of Dimboola, police district of Nhill, 239¾ miles NW. of Melbourne, and a station on the railway from Dimboola to Adelaide; fares, 43s. and 28s. 9d. Adelaide and Melbourne express stops here. It has Wesleyan church, a State school, (2,769) sundry shops and stores, a hotel—the Railway. Wheat is largely grown here, and it is a large grain depôt in Lowan county. During the year ended March, 1900, 104,158 acres were under cultivation in the shire, 67,219 acres under wheat. Population of town, about 100.

KIEWA (36° 6′ S. lat., 146° 55′ E. long.) is a postal township, on Kiewa River, in the county of Bogong, shire Yackandandah, and police district of Kiewa. It lies 201 miles NE. of Melbourne, in the centre of a pastoral, agricultural and mining district. The communication with Melbourne is by coach from the Huon Lane railway station, 4½ miles distant, train thence. Yackandandah is 15 miles distant. There are two hotels—Lagoon and Union, church (in which Anglican Wesleyan and Presbyterian services are held), debating club, Oddfellows' lodge, hunt club, police camp, two stores, butter factory, public hall, two blacksmiths' and boot shops, and two State schools (Nos. 1,472, 2,682), also private school. Kiewa is sheltered on the west by Mount Murrangbong. Kiewa River Valley on the road to Bright has some beautiful scenery. Population about 200.

KILCUNDA (38° 30′ S. lat., 145° 30′ E. long., co. Mornington, shire Phillip Island) is a postal township, 72 miles SE. of Melbourne, situated on Bass Straits. It is remarkable for the coal mines which are in the vicinity. There is a state school (No. 2,307). It is reached from Melbourne by rail to Stony Point, thence steamer *via* San Remo. Population about 250 in the district, which is pastoral and mining.

KILFEERA (36° S. lat., 146° E. long) is a village settlement and parish, on Ryan's Creek, in co. and electoral district of Delatite, police district Benalla, 120 miles from Melbourne, from which rail to Benalla, horse thence. Postal facilities at Benalla, 14 miles distant. There are State schools (Nos. 2,130, 2,446) 1½ miles distant, Wesleyan church, Progressive Association, also creameries. The land is swampy, and residents get the land for the draining. Agricultural and pastoral district. Population about 60.

KILLARNEY (co. Villiers, shire Belfast) is a postal township, 179¼ miles W. of Melbourne and 6 miles from Port Fairy on Armstrong's Bay. Rail to Port Fairy or Crossley, coach thence, or by steamer. Has hotel. Lighted with kerosene. Agricultural and pastoral; potato and onion growing is chief industry. Population, 500.

KILMORE (37° 19′ S. lat., 144° 58′ E. long.), a municipal town and shire (county of Dalhousie, electoral district of Kilmore, Dalhousie and Lancefield, and police district of Bourke). It is situated 1,213 feet above sea-level, on the creek of the same name, on the Sydney road, and is a station on the Kilmore branch railway to Heathcote and Bendigo, 42¾ miles N. of Melbourne; fares, 7s. 10d. and 5s. 1d. The town can also be reached from Kilmore East, a station on the North-East, Railway line, from which it is distant 2½ miles. A coach runs to Lancefield. The leading hotels are the Royal Oak, Railway, Courthouse and Red Lion. The district is an agricultural one the land being rich volcanic soil, very fertile, and producing large crops of wheat, oats, barley and potatoes; the principal crops being oats, hay, peas, beans, and potatoes. The town contains a mechanics' institute, with a library of over 3,000 volumes, Freemasons', Oddfellows', H.A.C.B.S, A.N.A., and I.O.R. have societies, a hospital, a Convent of Mercy, situated on high land near St. Patrick's church, and the usual official buildings. The Church of England, Presbyterians, Wesleyans, and Roman Catholics have places of worship. There are State (No. 1,568) and Roman Catholic schools, and there is a college for the Marist Brothers. There are branches of the Victoria and Colonial Banks, and agencies of the principal Insurance Companies, a number of stores, a tannery, a brewery, Masonic and Oddfellows' halls. It is chiefly an agricultural and pastoral district, dairying being an important industry. Mining also carried on, yield 1899, 1,548 ozs. A money-order, savings bank, and telegraph office is here, and it is a place of petty and general sessions. Net annual value of property in the shire, £18,882, area 92 square miles, ratepayers, 684; dwellings 450, rate 1s., land under cultivation, 3,539 acres. The water supply is derived from the Hazel and Myrtle Creeks in the Plenty ranges, at a cost of about £15,000, said to be one of the best water supply schemes in the colony. In consequence of so great an elevation above sea level Kilmore always enjoys a cool climate. Population of town, 1,922; of shire, 2,450. Local newspapers: the *Kilmore Free Press*, Thursdays, and *Kilmore Advertiser*, Saturdays.

KINGLAKE (co. Evelyn, shire Eltham), post township on Great Dividing Range reached by rail to Lilydale, conveyance thence. Good orchards and picturesque scenery in district. Mining industry. Population 100.

KINGOWER (36° 35′ S. lat., 143° 44′ E. long.), a township, with post and money-order office, in the county of Gladstone, electoral district of Dunolly and Korong, police district of Inglewood, on the creek of the same name, 138 miles NNW. of Melbourne. Rail to Inglewood, thence coach (fare 1s.), also conveyance from Dunolly, are the means of reaching the township, which is the centre of a gold-mining district. Coaches run to Inglewood and Rheola, fare 1s. Hotel: The Bridge. Two places of worship (Episcopal and Catholic); a Presbyterian service is also held here; there are in addition a mechanics' institute, with library of 1,379 volumes, and a State school (No. 351). In 1857 the "Blanche Barkley" nugget, weighing 1,740 ounces, was found here. In the neighbourhood are granite hills with intervening flats, which yield good crops. The climate is warm and dry, the average annual rainfall being 22 inches. Formation is sandstone against a belt of granite. Population about 300.

KINGSTON (37° 21′ S. lat., 144° 8′ E. long.), a post town, with post-office, telegraph, savings bank, and money-order office, in the county of Talbot, electoral district and shire Creswick, and police district of Ballaarat, 93½ rail miles NW. of Melbourne, and 1,770 feet above the sea-level. Coaches to Creswick and Newstead. It is a railway station on the Ballaarat to Daylesford line; fare, 17s. and 11s. 4d. Hotels: Commercial, Kingston, and Victoria. Mining, farming, and grazing are the chief industries. The land in and around Kingston is very rich, and suited to the growth of all cereals and root crops. The town, which is prettily situated on the northern slope of Forest Hill, on high ground, near Birdie's creek, is considered very healthy and very picturesque, and is on the main road from Ballaarat to Castlemaine. It contains two churches (Church of England and Wesleyan), Bank of Australasia, a State school (No. 759), a shire hall, and a mechanics' institute, with a library of 800 vols., and A.N.A. association. Council chambers, police station, three general stores, and other business premises. Water supply from wells. Coach runs to Newstead and Creswick. The geological formation is volcanic, basaltic, and lower silurian. Population of town 460, of town and district about 2,800.

KINYPANIEL (co. Gladstone, shire Korong), postal and telegraph station near Loddon river, 157 miles NW. of Melbourne, reached by rail to Inglewood, coach thence. Has State school (No. 2,299). Agricultural and pastoral district. Population 40.

KIRKSTALL (30° 15′ S. lat., 142° 17′ E. long.) (county Villiers, shire Belfast), electoral district of Port Fairy, a post town, on the main road between Belfast and Penshurst, about 4 miles from Koroit, the nearest township, 10 from Belfast, 13 from Warrnambool, and 179 miles W. of Melbourne. It is a railway station on the Port Fairy line; fares, 29s. 9d. and 20s. There are 2 stores, one inn, the Kirkstall, and a State school (No. 344). Good agricultural and pastoral country in the vicinity. Population 171.

KNOWSLEY (co. Rodney, shire McIvor), post and railway (with telegraph office) township 83 miles from Melbourne. Has two hotels, State school (2,519), Roman Catholic church.

Timber cutting industry. Granitic formation. Population in town and district 500.

KOETONG (36° 0′ S. lat., 147° 51′ E. long.), a postal township, in the county and electorate of Benambra, shire Towong, police district of Beechworth, situated on the Koetong Creek, 235 postal miles NE. of Melbourne, on the Koetong creek. Hotels: Koetong and Welcome. State school (No. 3,068). Koetong is reached by train to Tallangatta, thence coach 17 miles, fare 7s. 6d.; coach also runs to Corryong. Lighted with kerosene. Water from creeks and wells. Tin mining and grazing are the industries followed. Formation: granite. Population of district, about 200.

KOONDROOK (35° 37′ S. lat., 143° 50′ E. long.), a postal township with money-order, savings bank, telephone and telegraph offices, on the Murray river, in the county and electorate of Gunbower, police district of Kerang, shire Kerang, 195 miles N. of Melbourne. Communication is by rail to Kerang, steam tramway thence. Hotels: Royal, Mayer's, and Lawler's. There are Anglican, Roman Catholic, and Baptist churches, State school (No. 2,265), a police station, irrigation works, cordial factory, saw-mills, and trucking yards. It is in the centre of an agricultural district. Crossing place for stock. Population of town and vicinity, 450.

KOONWARRA (38° 30′ S. lat. 146° E. long.), (co. Buln-Buln, shire Woorayl), postal township 83 miles SE. from Melbourne. Has railway station (Great Southern line), mechanics' hall, two stores, church, and State school (3,117). Agricultural district. Population 20.

KOOREH (co. and shire Kara Kara), village, 169¾ miles NW. of Melbourne. Reached by rail to Carapooee, thence coach 3 miles. Has State school, Wesleyan church, mechanics' institute. Major Nutchell's landmark on Flagstaff Hill. Agricultural district with population of 200.

KOOROOCHEANG (Hit or Miss), (37° 4′ S. lat., 144° 10′ E. long.) a small agricultural village on the Kooroocheang creek, 98 miles (98 postal) NW. of Melbourne, in the county of Talbot, and electoral and police district of Creswick. There are two hotels here, Hit or Miss, whence the original name of the place was derived, and Pewley Hill, a State school (No. 1,055), a Wesleyan chapel, a creamery, and two stores. Kingston and Allendale are the nearest railway stations. It is an agricultural and pastoral district of basaltic formation, with an underlie of sandstone and slate. Population, 100.

KOO-WEE-RUP (co. Mornington, shire Cranbourne), post, money-order and savings bank, and telegraph offices at railway station on Great Southern railway, 41 miles from Melbourne. Once a great swamp, now drained, and is divided into blocks for sale. Has two State schools (2,629, 3,198), Presbyterian church, cheese-making industry. Pastoral and agricultural district.

KOROBEIT (37° S. lat., 144° E. long., co. Bourke, shire Ballan), a postal district, 43¾ miles NW. from Melbourne, on creek of same name, reached by train to Bacchus Marsh, coach to Myrniong, private conveyance thence 3 miles. Has State school (No. 787), and Roman Catholic chapel. A fine view of Mount Blackwood. Dairying industry. Volcanic formation.

KOROIT (38° 17′ S. lat., 142° 24′ E long.), (county Villiers, electoral district of Port Fairy, police district Warrnambool), a municipal township, telegraph station, post-office, savings bank, and money-order office, 10 miles distant from Warrnambool, 12 from Port Fairy, and 175¼ miles SW. of Melbourne, a railway station on the Warrnambool and Port Fairy lines; fares, 31s. 5d. and 21s. Hotels: Koroit, Western Star, Court House, Victoria, and Commercial. There are branches of the National and Colonial Banks, places of worship for Anglican, Roman Catholics (Church of Infant Jesus), Presbyterians, Baptists, and Wesleyans. There are also a number of stores and tradesmen's premises, police barracks, a handsome and commodious town-hall, built at a cost of £700, a mechanics' institute, with library of 2,500 volumes, M.U.I.O.O.F., A.N.A., Rechabites' societies, various sport clubs, court-house, and a large hall and a few other minor buildings. Town is lighted with kerosene. There are also three schools—a Catholic, State (No. 618), and one private. In the municipality are 309 dwellings and ratable property of yearly value £11,281 (area 5,599 acres), 1s. 4d. rate. A spacious area of land, nearly twenty acres in extent, in the centre of the town, is reserved for gardens, cricket and recreation grounds. The Botanical Gardens are highly spoken of. The water supply is derived from springs issuing from the Tower Hill Lake bank, 250 feet below the top of the bank and 75 feet above the margin of the lake. The water is pumped by means of a Tangye engine and pump into a basin of 90,000 gallons capacity, constructed on the top of the lake bank, whence the town is reticulated by gravitation. The water is excellent in quality and the supply copious. The district is an agricultural one, and is studded with farms, the soil being of a rich chocolate character. In the immediate neighbourhood is the celebrated Tower Hill Lake, a favourite resort for holiday and picnic parties. The island itself (Tower Hill) has an area of nearly 2,000 acres, and is permanently reserved as a national park on account of the unequalled beauty of its scenery. Court of Petty Sessions is held every Thursday. Formation, volcanic. Population, about 1,840; of district, about 6,000. Newspaper: *Koroit Sentinel*, published thrice a week.

KORONG SHIRE. *See* Wedderburn.

KORONG VALE (36° 27′ S. lat., 143° 36′ E. long.), a post town with telegraph, money-order office, and savings bank, in the county of Gladstone, shire and electorate of Korong, police district of Sandhurst. It is a railway station and junction of Quambatook and Sea Lake lines, 460 feet above sea level, and 151 miles NW. of Melbourne; fare, 27s. 2d. and 18s. Hotels: Junction and Railway. Railway refreshment rooms. Bank: Australasia. Mechanics' Institute and library (1,177 vols.). Orange lodge, cricket and football clubs. State school. Churches: Church of England, Wesleyan, and Roman Catholic. The railway reservoir supplies the town with water. Lighted with kerosene. Farming, agricultural, and mining district. Formation, partly granite and alluvial. Population, of town, 300; of district, 2,000. Newspaper: *Korong Vale Lance*.

KORUMBURRA (38° 30′ S. lat., 145° 50′ E. long.), a post-town, with money-order, telegraph office, and savings bank, in the county of Buln-Buln, electorate of Mornington and West Gippsland, shire Poowong, and Jeetho, 68¾ miles SSE. of Melbourne, on Coal Creek. It is a station on the Great Southern Railway, fares 12s. 4d. and 8s. 4d., and junction for Jumbunna and Outtrim line. Hotels: Korumburra and Austral. There is a State school (No. 3,077), court-house, National Bank, Bank of Australasia, Mechanics' Institute with good lending library, three coffee palaces, and a number of tradesmen. There are Wesleyan, Church of England, Presbyterian, Baptist places of worship, and Salvation Army barracks. Town is lighted with kerosene. Mails leave on alternate days for Moyarra, and Inverloch and daily for Jumbunna and Outtrim. Court of petty sessions is held twice a month (Fridays), also licensing court. There are Masonic, I.O.O.F., I.O.G.T., I.O.R., I.O.F., U.A.O.F., A.N.A., Miners', and Free Gardener societies, and six village settlements within a radius of three miles. In the district agricultural, pastoral, and coal-mining pursuits are followed. Coal is found everywhere in the locality. The prospects of the coal-mining industry are most brilliant, seams at three different localities having been found, and estimated by the Victorian Geologist to contain 40,000,000 tons of coal. The principal mine at work is Coal Creek Proprietary. Several other seams have been found. A line of railway connects these mines with the town, and with Jumbunna, 5 miles distant. Newspapers: the *Southern Mail*, published on Saturday; *Korumburra Times*, Monday and Thursday; *Advocate*, Thursday. Population of town about 4,000; of district, about 6,500.

KOTUPNA (36° 10′ S. lat. 145° 10′ E. long.), a post town, in the county of Moira, electoral district and shire of Numurkah and Nathalia, police district of Nathalia, situated on the Goulburn river, 158¼ miles N. of Melbourne. Nathalia is the nearest railway station, conveyance thence to Kotupna. Hotels: Commercial and Bridge. It has a State school (No. 1,999), Wesleyan church, creamery. It is an agricultural, pastoral, and vine-growing district; the country generally is low-lying, subject to inundations from floods.

KOWREE SHIRE. *See* Edenhope.

KRAMBRUK (38° 40′ S. lat. 143° 40′ E. long.), or Apollo Bay (co. Polwarth, shire Colac), is a postal township, with telegraph station, money-order office, and savings bank, 135 miles SW. of Melbourne, situate on Apollo Bay. It is a favourite watering place, reached by rail to Forrest. coach thence 25 miles 12s. 6d., also by occasional steamer. There are two hotels, also large boarding-house for tourists. State school (No. 2,149), Wesleyan church, Anglican services in public hall, mechanics' institute and free library, with 684 vols. Timber mills. District is pastoral and agricultural, and is very picturesque; onion growing extensively carried on; in the vicinity are Shelly Beach fern-tree gullies and waterfalls which attract tourists There is good fishing, and the jetty is being extended. Population about 350

KURTING (co. Gladstone, shire Korong), postal township and railway station 134¾ miles NW. from Melbourne. Has hotel, school (No. 2,026), in which Anglican services are held. Mining and agricultural district

KYABRAM (36° 20′ S. lat., 145° 7′ E. long.) is a post town, with M.O.O. telegraph, and Government savings bank, in the county and electoral district of Rodney, and police district of Shepparton. It is a railway station on the extension from Tatura to Echuca, and is distant 123¾ miles N. of Melbourne; fares 22s. 4d. and 14s. 10d. There are branches of the Victoria and Commercial Banks; Anglican, Presbyterian, Wesleyan, and Roman Catholic churches, three State schools (Nos. 2,401, 2,902, and 2,823), mechanics' institute and free library (850 vols.); societies: I.O.O.F., I.O.R., H.A.C.B.S., and L.A.L.; three hotels, a number of general stores, two agricultural implement factories, carriage factory, and a number of tradesmen's shops. The soil is eminently suitable for agricultural and fruit growing purposes, and as the district is intersected in every direction with irrigation channels, Kyabram is taking a leading place amongst agricultural districts. A court of petty sessions is held monthly. Population about 700. Newspaper: *Kyabram Free Press*, published once a week.

KYNETON (37° 12′ S. lat., 144° 27′ E. long.) (county of Dalhousie, police district of Bourke, electoral district and shire of Kyneton) is an important agricultural and mining town and shire upon the river Campaspe, lying 1,687 feet above sea-level, 52¾ postal miles NW. of Melbourne, and 56¾ by railway. Fares, 10s. 3d. and 6s. 9d. The station is about a mile from the post office; cabs run to all trains. Daily coaches leave for Trentham Lauriston, Malmsbury, and the respective intermediate places. There are in Kyneton about 15 hotels, the chief being the Junction, Alexander's, Wedgwood's, the Kyneton, Newmarket, and Town Hall, and a large handsome coffee palace. The town has upwards of 12 miles of macadamized streets, and 20 miles of footpaths. Kyneton is lighted with gas, and is well built and laid out The principal buildings are the court-house, post-office, hospital, Mechanics' Institute, having a library of 4,500 volumes, Masonic Temperance and Oddfellows' halls, the New South Wales, Colonial

Victoria, Savings, and National Branch Banks, six churches belonging to the Anglican St. Paul's, Roman Catholic (St. Mary's), Baptist, Presbyterian (St. Andrew's), Independent, and Wesleyan bodies; of these five are substantial buildings; the Salvation Army also has a barracks here, and there are roomy and substantial shire offices and the school of mines. It has also a money-order office, Progressive Association and telegraph station. Its manufactories comprise a brewery, two malt houses, four implement manufactories, and three coach factories. Kyneton is the centre of the five ridings, or subdivisions of the shire Kyneton, which has an area of 253 square miles, and a population of 9,500. The annual value of the ratable property in the shire is £63,315; 1,742 dwellings, 1,738 ratepayers, 1s. rate. The land on all sides is fertile, well fitted either for pastoral or agricultural purposes, and is in settled occupation for 20 miles on either side from the town. In March, 1900, there were 27,730 acres under cultivation, the chief crops being wheat, oats, potatoes, peas and beans, and hay. There is a police-court held daily and a county court, general sessions, court of mines and insolvent court once a quarter. A fair takes place on the first and third Thursday in each month in the shire yard for the interchange of horses, cattle, and farm stock of all kinds, also a pig market first Tuesday in each month. There is an exhibition of stock and farm produce held annually in the yards of the Kyneton Agricultural Association, and two annual race-meetings. These advantages are not only provided for the residents of Kynetonshire, but for those of the surrounding shires of Newham, Metcalfe, Glenlyon, &c., who look upon Kyneton as their market town. There are several small townships within Kynetonshire—Lauriston, Trentham, Tylden, and Carlsruhe—the most important of which are Trentham, with a population chiefly engaged in farming, and Lauriston (mining). There are numerous gold-mining companies, several of the quartz reefs are of proved richness. The town is supplied with water by gravitation from a reservoir at Tylden on the little Coliban, eight miles from Kyneton. There are within the town a School of Mines and Art, also several private schools, including boarding establishments for boys, and for girls, the Convent, and a State school (No. 343). The height of Kyneton from the sea renders it a salubrious and cool place of residence in the summer months, but in the winter it frequently suffers from an excess of moisture. Points of interest are: Hanging Rock, Trentham Falls, mineral springs, Turpin's Falls, Mitchell's Falls, Fiddler's Green, Tylden Reservoir, Botanical Gardens and Fernery, shooting grounds and racecourse. Formation: volcanic. Population, 3,371; of shire, 9,500. Newspapers: the *Observer* and *Guardian*, published three times a week.

LAANECOORIE (36° 50′ S. lat., 163° 55′ E. long.) is a postal township, in the county of Bendigo, electoral district of Maldon, and police district of Tarnagulla. It lies 90 miles (110¼ postal) NW. of Melbourne, on the E. bank of the river Loddon. Communication with Melbourne is by coach to Shelbourne; fare, 2s., thence train, 10s. 6d. Hotels: Criterion, Plough, Laanecoorie, and Exchange. Town lighted with kerosene. A large weir across the Loddon has been constructed. There are here a State school (No. 733), and Primitive Methodist church, and Anglican services held in Mechanics' Hall, Mechanics' Institute (1,000 vols.), and an agricultural population engaged in cultivating the Loddon Flats, which are of a fertile, loamy character. Grazing and dairying industries Bendigo being the market. Population, about 400.

LAANG (Arundel) (38° 30′ S. lat., 143° 15′ E. long., co. Heytesbury, shire Warrnambool), on Cudgee creek; 156¾ miles W. of Melbourne, which is reached by conveyance to Garvoc or Panmure, 6 miles distant, rail thence. Has post-office, State school (No. 1,411), Anglican, Presbyterian and Baptist churches, creamery and store. It is in the Heytesbury forest, and has some charming scenery. Agricultural and dairying and potato district. Formation: post tertiary. Population of district about 500.

LAKE BOGA (co. Tatchera, shire Castle Donnington), post town, with money-order and telegraph office, and railway station, 205 miles N.W. of Melbourne; fares, 36s. 10d. and 24s. 6d. Has State school, wine shades, branches of the National and London Banks, Mechanics' Institute (in which church services are held), gypsum factory, creamery and sundry stores. Water supply from the lake. Good fishing. Agricultural and pastoral district. Population 250.

LAKE BOLAC (or Parupa), (37° 41′ S. lat., 142° 50′ E. long.), a postal township, with money-order, telegraph office, and savings bank, county of Ripon, electoral district and shire of Ararat, police district of Wickliffe, 162 miles west (172¾ miles postal) from Melbourne, 64 miles west of Ballaarat, 12 miles in a direct line from the Wickliffe Road railway station, to which there is a coach; fare, 5s.; and 31 miles south of Ararat, on the main Hamilton road, in the immediate vicinity of the lake whence it takes its name, a pretty, healthy place. Hotel: the Lake Bolac. The lake is about 16 miles in circumference, and covers an area of 8,960 acres; its greatest depth is about 20 feet. The water is supplied by the Fiery creek, and the overflow carried off by the Salt creek into the Hopkins river. It is perfectly fresh, and abounds with eels. Numerous salt lakes exist in the neighbourhood. The water is said to contain 43 per cent. of pure salt. Has hall, salt refining works, Mechanics' Institute, Presbyterian, Roman Catholic and Church of England services held. State school (No. 854). Formation: lime. The population numbers about 260, and is principally engaged in pastoral pursuits.

LAKE CHARM (35° 30′ S. lat., 143° 50′ E. long.) is a post and telegraph town, on the west bank of Lake Charm, 190¼ miles NNW. of Melbourne; police district of Bendigo. It is a railway station on the line to Swan Hill; fares, 34s. 2d. and 22s. 10d., return 51s. 4d and 34s. 5d., excursion 38s. 6d. and 25s. 9d. It is in the county of Tatchera and electorate of Donald and Swan Hill, 'shire Kerang. Hotel and store, Scantleton's. State school (No. 2,122). Creamery, ostrich farm, Mechanics' Institute (in which Baptist service is held), and free library (406 vols.). The district is both pastoral and farming, the latter predominating, all the land is now selected, and large areas are being prepared for irrigation on all sides. Formation: upper tertiary. The lake, after which the place is named, is sometimes a beautiful sheet of fresh water, but is frequently dry, 11 miles NW. of Kerang, and 24 from Swan Hill. It measures about 150 chains from N. to S., and 100 chains from E. to W. It is well stocked with perch and bream; there is also good duck shooting. Salt is gathered in large quantities from salt lakes in district. Population 178.

LAKE ROWAN (36° 20′ S. lat., 146° 2′ E. long.), a post town, with money-order office (telephone to St. James thence telegraph to Melbourne), situated on the Back Creek in the county of Moira, electorate of Benalla and Yarrawonga, St. James's police district, 146 miles NNE. of Melbourne, and 4 miles E. of St. James's railway station; fare from station, 1s. 6d. Lake Rowan hotel. There is a State school (No. 1,705), Congregational and Presbyterian churches and manses, a mechanics' institute, creamery, and savings bank. Agricultural and pastoral pursuits are followed, but principally the former. Watered by Tungamah Trust. Formation: flats and valleys, principally clayey soil, highlands, granite. Population, 62, district 200.

LAL LAL (37° 43′ S. lat., 144° 0′ E. long.), county of Grant and electoral district of Grenville, shire Buninyong, postal township, with money-order office, savings bank, telegraph, and railway station on the Geelong and Ballaarat railway, 87½ miles W. of Melbourne; fares, 15s. 1d. and 9s. 11d. Height above sea-level, 1,531 feet. The district is a mining one, both quartz and alluvial, with some stations. Federal Co. iron mine about 4 miles distant. About 6,000 tons of firewood are annually sent from this district by rail to Ballaarat. The Mount Doran reefs are about 2½ miles from the station. State school (No. 863). Churches: Episcopal and Wesleyan, two hotels. Water from tanks. Lal Lal and Moorabool Falls in vicinity. A bed of fire clay has been found in the immediate vicinity of the railway station, from which a high class fire brick is made; the pottery is close to the station. Population, about 100.

LAMPLOUGH (37° 8′ S. lat., 143° 30′ E. long.) is a post town, in the county of Gladstone and electoral district of Talbot and Avoca. It is a mining district situated 108 postal miles NW. of Melbourne, on the Bet-Bet Creek, and is reached by rail to Avoca, thence conveyance. There are a State school (No. 1,239,) and one store in the town. The town reservoir can store 9,261,946 gallons of water. The population of the township numbers 117, that of the district 200.

LANCEFIELD (37° 16′ S. lat., 144° 46′ E. long.) (county of Bourke and electorate of Kilmore, Dalhousie and Lancefield), a shire and post-town, with savings bank, telegraph, and money-order office, on Deep Creek, 45¾ rail miles N. of Melbourne, police district of Kilmore; lying 1,561 feet above sea-level. It is the centre of a rich agricultural country, producing wheat, oats, barley, peas, hay, and potatoes. It is a railway station, fares, 8s. and 5s. 4d. Hotels: Mack's, Commercial, Victoria, Shamrock, Farmers' Arms, and Macedonia. The Commercial and National Banks have branches here. The mechanics' institute is possessed of a library of 2,700 volumes. Lancefield has a court-house, at which weekly courts are held, a State school (No. 707), Episcopalian, Presbyterian, Wesleyan, Church of Christ, and Roman Catholic (St. Mary's) places of worship; Masonic, Oddfellows' (M.U.), Rechabites', and H.A.C.B.S. societies, various sporting clubs, butter factory with four creameries. There is an excellent recreation reserve neatly laid out, and a good race-course. Garden Hut creek affords an abundant supply of excellent water, which is laid on by pipe service. Much firewood is sent from this locality. District is agricultural and pastoral. Annual value of property in shire, £12,626; area, 38 square miles; ratepayers on roll, 206; dwellings 195, rate 1s.; land under cultivation, 5,035 acres. Population, 500. Of shire, 1,025. Newspaper: *Lancefield Mercury*.

LANDSBOROUGH (36° 59′ S. lat., 143° 6′ E. long.), county Kara-Kara, electoral district Stawell, shire Avoca), a post town, with money-order office and savings bank on Heifer creek, 150 miles (158 postal) NW. of Melbourne. It is distant from the Stawell, 23 miles, Ararat 25 miles, and Avoca Railway stations—30 miles. A daily coach runs to Ballarat *viâ* Avoca. Hotels: The Shamrock and Farrell's. There are two churches, one used by Anglicans and Methodists, and the other owned by the Roman Catholics, coffee palace, I.O.R. society, and a State school (No. 1,862). It is a place of petty sessions. Lighted with kerosene. At Wattle Creek, 3 miles N., is State school (No. 2,057); at Malikoff, 3 miles S., is State school (No. 1,398). The district is chiefly of an agricultural and pastoral character. Population, 300.

LANG LANG (county Mornington, shire Cranbourne) is a post town, with telegraph, savings bank, and money-order office, and railway station, on Lang Lang Creek, 47¼ miles SE. from Melbourne. It has an hotel, branch Colonial Bank open Thursdays. Anglican and Presbyterian churches, stores, a State school (2,899), butter factory, Mechanics' Institute, free library (440 vols.) District agricultural and pastoral. There is good fishing. Population, 200.

LANGWARRIN (county Mornington, shire Frankston) is a railway station with post-office, on the Frankston line, 29½ postal miles SE. Has been called the Aldershot of Victoria. It

is the site for a permanent military camp. Has State school (No. 3,023), Wesleyan church, and public hall. Grazing district. Population about 160.

LARA (formerly called DUCKPONDS) (38° 1′ S. lat., 144° 29′ E. long.), in the county and electoral district of Grant, shire of Corio, and police district of Geelong, postal township on Hovell's Creek, with telegraph and railway station on the Geelong and Melbourne Railway, fares, 5s.8d. and 3s. 10d., return 8s. 8d. and 5s. 9d., 35¾ miles SW. of Melbourne, and 10 miles from Geelong. It lies 52 feet above sea-level. Two State schools (Nos. 769 and 2,107), hotel, shire hall, Protestant hall, Anglican, Wesleyan, and Primitive Methodist churches, and I.O.R. society are here. The district contains a number of extensive grazing properties, and numerous dairy and agricultural farms. Area of shire, 243 square miles. Population, 2,060; ratepayers, 622; dwellings, 428; rate 1s.; net ratable value of property, £33,093; 9,561 acres under cultivation. There are numerous limekilns, which supply largely Melbourne, Ballaarat, and Castlemaine. You Yang and Forest plantations in district. Water from wells. Population of district about 450.

LARPENT (38° 20′ S. lat., 143° 26′ E. long.) in the county and electorate of Polwarth, shire Colac, district with post and telegraph office, 100¼ miles SW. of Melbourne, on the road from Geelong to Belfast, and distant 4¾ miles from Colac by rail. It is a railway station on the Warrnambool line; fares from Melbourne, 18s. and 12s. 1d. The country is well adapted for farming, and is the centre of a large onion and potato-growing industry. Population of district, about 1,000.

LAUNCHING PLACE (37° 45′ S. lat., 145° 40′ E. long., county and electorate of Evelyn, shire Upper Yarra, is a post town and telephone station, 39¾ miles NE. from Melbourne, with which communication is made by coach to Lilydale (4s. 6d.), train thence. Coach also runs to Warburton (2s.). Hotel: Home. State school (No. 3,216) is at Little Yarra Junction. Has Church of England. It is on the river Yarra, from which water supply is obtained. The district is mining, dairying, and pastoral, and the geological formation sedimentary. There is a police-station and electoral registrar's office here. Population of district, about 100.

LAURISTON (37° 14′ S. lat., 144° 21′ E. long.), a post town with telephone station, on the Coliban River, 62 miles NW. of Melbourne, county of Dalhousie, shire and electoral district of Kyneton, and police district of Bourke, on Coliban river. Two miles from Redesdale Junction railway station (fares, 10s. and 6s. 6d.), whence cabs run to Lauriston, fare, 1s.; cabs also run to Kyneton, fare, 6d. There are Anglican, Wesleyan, and Roman Catholic churches, a State school, Roman Catholic school, Recreation and Oddfellows' halls, and general stores. Principal Hotels: Kent, Mining Exchange, Junction. Water from reservoir. The district is both mining and agricultural. The geological formation is basaltic. Population, within a mile radius, 550.

LAVERTON (38° 15′ S. lat., 144° 30′ E. long.) (county Grant, shire Wyndham) is a railway station, with post and telegraph office, about 13½ miles SW. from Melbourne. It is a new township near Skeleton Creek, and has a State school (No. 2,857), Anglican and Wesleyan churches. Powder magazine. District is agricultural and pastoral. Formation: volcanic. Population, about 100.

LAWLOIT (county Lowan, Lawloit division of Lowan electorate) is a post town on the Adelaide road, 261½ postal miles NW. from Melbourne. Communication with Melbourne by buggy or horse to Diapur or Tarranginnie, thence train. Has hotel, State school (2,673), Bible Christian church. Bee culture industry. Wild fowl on swamp. Black loamy and sandy soil; surrounded by mallee. Population of town 15, shire 2,179.

LAWLOITSHIRE. *See* KANIVA.

LAWRENCE (co. Talbot, shire Creswick), post township on Birch's Creek; reached by rail to Allendale, thence conveyance. Has two hotels. Mining district.

LAYARD (co. Grant, shire Barrabool), railway station on Thompson's Creek, 64¼ miles from Melbourne. Population, 100.

LEARMONTH (37° 25′ S. lat., 143° 37′ E. long.), (county of Ripon, electoral district of Windermere, and police district of Ballaarat), a post town, with savings bank, telegraph, and money-order office, on the shores of Lake Learmonth, 89 miles NW. of Melbourne, and 15 miles from Ballaarat, with which it is connected by rail, being a station on the branch line to Waubra, fares, 15s. 10d. and 10s. 9d. Hotels: Stag, Camp, and Balmoral. A public library of 1,000 volumes is here, also a branch of the National Bank, a State school (No. 386), shire hall, courthouse, public hall, seating 400 persons; Freemasons', A.N.A., Orange, and Foresters' lodges, and Anglican, Presbyterian, and R.C. churches. It is a place of petty sessions. Good agricultural district. Population, 406; of district, 1,200.

LEIGH SHIRE. *See* TEESDALE.

LEIGH ROAD (also called BANNOCKBURN), (38° 1′ S. lat., 144° 10′ E. long.), a post town, with a money-order, telegraph, and savings bank office, on Bruce's Creek, 59¼ miles SW. of Melbourne, county Grant, electoral district Grenville, police district of Geelong, shire Bannockburn. It is a station on the Geelong and Ballaarat Railway; fares, 9s. 11d. and 6s. 9d. Hotels: Railway, Western, and Leigh Road. It has a State school (No. 932), police-station, Church of England and Wesleyan places of worship, free library, and public hall. The Bannockburn shire hall is in the township, and a court of petty sessions is held here. Lighted with kerosene. Coach daily to and from Rokewood, fare 5s.; conveyance daily to and from Inverleigh, fare 1s. 6d. The shire has an area of 136 square miles, a population of 1,900 and ratable property of the annual value of £18,327, 324 dwellings, 357 ratepayers, rate 1s. 3d. There are 4,962 acres under cultivation, hay, oats, fruit, and onions being the chief crops grown. Pastoral pursuits are also followed. Formation: basaltic. Population, 150, shire 1,900. Newspaper: *Leigh Road Express.*

LEITCHVILLE, a postal district near Gunbower Creek, in the county, electoral and police district of Gunbower, shire of Kerang, 187 miles NW. of Melbourne, and 32 miles from Echuca, with which there is tri-weekly communication by coach; fare, 10s. also to Kerang tri-weekly, 10s. There is a Congregational church, and a State school (No. 2,087). The district is agricultural and pastoral, and is supplied with a splendid supply of water from the various irrigation channels that have been formed by the Cohuna Irrigation and Water Supply Trust. Fruit growing is successfully carried on. Formation: light loam alternating with sand ridges, with clay subsoil. Population, about 120.

LEONARD'S HILL (37° 25′ S. lat., 144° 9′ E. long.), a postal town on Sailors' Creek, with telegraph station, near the source of the river Werribee, 82½ rail miles NW. of Melbourne, and a railway station on the Daylesford line; fares to Melbourne, 15s. and 10s. Hotel: Kincaid's. It is in the county of Talbot and electoral and police district of Daylesford, shire Mount Franklin. It is nearly in the centre of the Bullarook State forest, on the summit of the dividing range, 2,250 ft. high, and many of the residents are engaged in splitting timber. There is also much attention paid to agriculture, as the soil is very rich; gold obtained by sluicing. State school (No. 931). Church: Bible Christian. Mechanics' Institute (393 vols.). Mineral springs in neighbourhood. Population, about 250.

LEONGATHA, a post town and railway station, fares 14s. and 9s. 5d., with money-order office, telegraph station and savings bank, in the county of Buln-Buln, electorate of Gippsland West, shire Woorayl, and police district of Leongatha, 74 miles (78 postal) SSE. from capital, on the Coalition Creek. The Bank of Australasia and Colonial Bank have branches here, and there are State schools. Wesleyan, Church of England, Presbyterian, and Roman Catholic services are held here. There are numerous stores, aerated and soda-water factory, butter factory, and a Mechanics' Institute (185 vols.), Masonic, A.N.A., and Oddfellows' lodges, and several sports clubs. Hotels: Commercial and Otago, and Coffee Palace. Fortnightly stock sales are held. Has also resident medico. The shire council of Woorayl meets here. Area of shire, 500 square miles; 600 dwellings, 1,145 ratepayers, 1s. rate, £33,393 net annual value of ratable property. In 1900 there were 6,317 acres under tillage. Leongatha is a flourishing township. A labour colony has been established on the town reserve. Agricultural, dairying, and grazing district. Formation: coal bearings, shales, and claystones crossed by volcanic dyke close to the town. It is also heavily timbered. Population, about 400; of shire, 3,000. Newspaper: *Great Southern Star*, Friday.

LEOPOLD (38° 12′ S. lat., 144° 30′ E. long.), formerly called KENSINGTON (co. Grant, shire Bellerine), is a post town, with a railway station on the Geelong and Queenscliff line; fares, 9s. 5d. and 6s. 2d. It is distant 52 miles SW. of Melbourne, and 7 miles from Geelong, from which there is a coach. There are here Anglican, Wesleyan, and Primitive Methodist churches, Rechabite tents, a State school (No. 1,146), a free library (340 vols.), two hotels, and a creamery. It is a good fruit-growing district. Lake Connewarre is about 2 miles distant.

LETHBRIDGE (37° 58′ S. lat., 144° 9′ E. long.) a post town, with telegraph office, in the county of Grant, and electoral district of Grenville, shire Bannockburn, police district of Bannockburn, on Bruce's Creek, one mile from Moorabool river, 547 feet above sea-level. It is a railway station (four trains daily) on Geelong-Ballaarat line, 35 miles from Ballaarat, about 20 miles from Geelong, and 65¼ miles W. by N. of Melbourne. Fares, 11s. and 7s. 3d., holiday excursion, 12s. 5d. and 8s. 2d. Temperance hotel. Three stores, bakery, butchery, wheelwright, carpenter, and a blacksmith's. It lies 547 feet above sea-level. It has Presbyterian, Methodist, and Roman Catholic churches, a State school (No. 1,386), mechanics' institute (holding 300 persons), and free library (600 vols.). Two large, valuable and successful bluestone quarries are here, with steam stone-crushing and sawing works, whence large quantities are daily forwarded to Geelong, Melbourne, and Sydney. Limestone is also to be found in the neighbourhood. Chiefly a pastoral district, and agriculture and mining are reviving. Hares and rabbits abound, and there is good fishing in the Moorabool river for trout, black fish, perch, and eels. Formation: basaltic and silurian, with eocene croppings of limestone on the banks of the River Moorabool. The population of the town is 300, that of the district about 500.

LEXTON (37° 15′ S. lat., 143° 30′ E. long.), county of Talbot, electorate of Talbot and Avoca, police district of Ballaarat, shire and postal township, with money-order office, on the Burn Bank creek, 105¼ miles NW. of Melbourne. The communication is by coach to Waubra, fare, 2s., thence by rail. A coach also runs to Avoca; fare 2s. The Talbot, Beaufort and Avoca railway stations are all within 15 miles of Lexton. Mining is carried on to a limited extent in the district; there are also some runs, and 5,030 acres are under cultivation, the chief crops grown being oats, wheat, hay, peas, beans, and potatoes. Several large orchards in district. The shire council of Lexton have their chamber here, and hold their meetings the second Wednesday in each month. The shire comprises some of the finest land in the colony. The ratable property in the shire is of the annual value of £27,976; area, 300 square miles; ratepayers on roll 309, dwellings 472, rate 1s. The red gum grown in the forests around Lexton is of excellent quality. The principal

buildings are the Court-house, Episcopal (3), Roman Catholic (3), and Presbyterian (2) churches, and State school (No. 1,569), all built of brick and stone. Has hotel. Free library has 1,750 volumes. A court of Petty Sessions is held on every third Tuesday. A.N.A. Society here. There is a daily mail to and from Melbourne and Ballaarat, Avoca, and St. Arnaud. Population of town, 200; of shire, 2,000.

LILLIMUR (30° S. lat., 138° E. long), a post town, with telegraph, money-order office and savings-bank in the county and electorate of Lowan, police district and shire Lawloit, and a railway station on the extension from Dimboola to the South Australian border; 279½ miles NW. of Melbourne. Fares 50s. and 33s. 4d. Albion Hotel. Churches: Presbyterian (in which Anglican services are held) and Roman Catholic. State school (No. 2,400). Two stores, a mechanics' institute (large stone building, in which Disciples of Christ hold services), with 2,200 vols. Milling company, foundry, and several tradesmen's premises. Town lighted with kerosene; water from tanks and wells. There is a butter factory. It is about 9 miles distant from the S.A. border. Agricultural and pastoral pursuits are followed in the district. Formation: limestone and clay. Population about 100.

LILYDALE (37° 40′ S. lat., 145° 21′ E. long.) county and electoral district of Evelyn, is a shire and town, with savings bank, telegraph and money-order office, on the Olinda creek, 23¾ miles NE. from Melbourne. It has a railway station, six trains daily; fares, 2s. 8½d. and 1s. 11½d.; coach runs to Warburton daily. Hotels: Commercial, Crown, Lilydale and Olinda; two wine halls. Mining, agriculture and dairying are largely carried on, as well as fruit-growing and viticulture. There were according to the returns of March 1, 1900, 8,346 acres under cultivation, chiefly with oats, potatoes, hay, and artificial grasses. In the neighbourhood limestone in quantity is found, and is now largely quarried. Lilydale has a court-house, a large Rechabite hall, a State school, (No. 876), and Anglican, Presbyterian, United Free Methodist, Baptist, Roman Catholic (with school), and Salvation Army barracks places of worship. Mechanics' institute with free library of 1,700 vols., and a large hall capable of seating 600 persons. Has Masonic, Oddfellows'. and Hibernian lodges. Literary and debating and harmonic societies. Butter, bacon, cheese, eucalyptus oil, and jam factories, and a tannery. Bank: Colonial. Court of petty sessions is held here every Friday. Lilydale is lighted with gas. Population of the town about 1,000, of the shire, which has an area of 179 square miles, 5,360, and the annual value of ratable property £41,310, dwellings 1,060, ratepayers 1,280 rate 1s. Local newspaper: the *Lilydale Express*, published on Fridays.

LINDENOW (co. Tangil, shire Bairnsdale), post town on Mitchell river, with telephone office and railway station (2½ miles distant), 159 miles E of Melbourne. Has mechanics' institute and free library, M.U.I.O.O.F. lodge, brass band, church in which Anglicans and Presbyterians hold services on alternate Sundays, and in which State school (No. 1,120) is held. Hotel. Lighted with kerosene. District agricultural. Cheese and butter factories. Population of town and district, about 500.

LINTON (37° 43′ S. lat., 143° 39′ long.), a postal township, with savings bank, money-order, and telegraph office, in the county and shire of Grenville, police district of Ballaarat, on Springdallah Creek. Ballaarat lies 25 miles to the NE. It is a terminal station on the line from Ballaarat, 99 miles NW. of Melbourne, fares, 17s. 9d. and 11s. 10d., and lies 1,098 feet above sea-level. Hotels: Victoria, Royal Standard, Surface Hill, Linton Park, and Railway. There are here the Bank of New South Wales, State school (No. 880), four churches (Presbyterian, Roman Catholic, Wesleyan, and Episcopalian), institute, and a public library containing 2,006 vols. Has Oddfellow, A.N.A., and Rechabite societies. There is a picturesque drive to the "Devil's Kitchen." There is a court of petty sessions. Coach runs once a day to Skipton, fare, 2s. 6d., to Streatham daily, fare 7s. 6d. The township is supplied with water from a reservoir, having a capacity of 8,000,000 gallons; the grounds of the reservoir are laid out as a public garden; a supplementary reservoir has been constructed, and holds about 3,000,000 gallons. Mining district. Gold was first found here in the winter of 1855. A considerable quantity of land has been selected for agricultural purposes in the surrounding district, pastoral pursuits are also followed. The soil is variable; some good volcanic soil, suitable for the growth of cereals and root crops, is found on either bank of the Springdallah creek. The chief crops are oats, hay, and potatoes, 2,716 acres being under cultivation. Linton is the seat of the Shire Council of Grenville. Area of shire, 315 square miles; annual value of ratable property, £36,411; 1,150 ratepayers, 977 dwellings, 1s. rate. Formation: partly basaltic and partly schistose. Population of town, 630; of shire, 6,000. Newspaper: *Grenville Standard*, weekly.

LISMORE (38° 55′ S. lat., 143° 20′ E. long.), a post town with telegraph station and money-order office, on Carrungeweet Creek in the county of Hampden, electoral division of Ripon and Hampden, Camperdown police district, 104 miles (148¾ postal) SW. of Melbourne, with which the communication is by coach from Camperdown (24 miles), daily, fare, 5s., return, 7s. 6d. Hotel, White Swan. Water from reservoir. The township has three stores, mechanics' institute and free library (1,048 vols.), a State school (No. 1,293), a Presbyterian church and a manse, and is lighted with kerosene. The district is of a pastoral character, the soil is very sandy and the locality is healthy. Population about 100, district 300.

LITTLE BEND-GO. *See* NERRINA.

LITTLE RIVER (old name ROTHWELL) (37° 59′ S. lat., 144° 43′ E. long.), postal township, co. and electorate of Grant, police district of Geelong, shire Wyndham, and telegraph and railway station on the Melbourne and Geelong railway (fares, return, first, 6s. 5d.; second, 4s. 6d.; excursion, first, 4s. 10d.; second, 3s. 5d.), 29¾ miles SW. from Melbourne, 15¼ from Geelong, on the river of the same name, and is a spot of favourite resort for sportsmen, from the abundance of game to be found. There are foxes, hares, rabbits, plover, quail, and wild turkeys, and deer in the Anakie ranges, which lie a few miles inland, and ducks and wild swans on the creeks and swamps, and along the coast. The hotel is the Little River. Assembly hall, two State schools (Nos. 760, 1,961). There are Church of England, Presbyterian, Primitive Methodist, and Roman Catholic places of worship. The scenery of the township and neighbourhood is beautiful and picturesque, the You Yangs mountains, about 3 miles to the W. of the railway station, forming a conspicuous feature in the landscape. The Little River plains lie about 108 feet above sea-level. Possesses basaltic plains and granitic ranges. Population, about 300, mostly engaged in farming, dairying, and grazing pursuits.

LITTLE YARRA JUNCTION (37° 45′ S. lat, 145° 42′ E. long.) (co. and electorate Evelyn, police district Bourke, shire Upper Yarra), has a horse post bag service and telephone station. It is 41¼ miles NE. from Melbourne, with which communication is made by coach to Lilydale (4s. 6d.), thence train: coach also to Slatey Creek, Black Sands, Gilderoy, Reefton, and Warburton. There is wine store, hall, mechanics' institute (in which Anglican services are held), Methodist church, police-station, recreation hall, and State school (No. 3,216) Mining, agricultural, and pastoral district. Water from Little Yarra river and permanent springs. The country around the township for many miles consists of a series of magnificent fern trees, gullies, and forest ranges in their primeval state, easily accessible, some on foot, others by horse or trap, obtainable at the local livery stables. The Britannia Falls, two miles distant, are especially worthy of a visit. At Mr. G. Spicer's Mount Myrtalia Hotel, 8½ miles from the township on the Black Sands Road, will be found scenery unsurpassed for grandeur in Australia; the journey from Melbourne to this well-known "mountain home" has been accomplished on bicycles in slightly over four hours. There is splendid fishing in the Yarra and Little Yarra rivers and their innumerable tributaries; blackfish, cod, and English trout being plentiful. There is also good shooting in the locality. Good accommodation at most reasonable rates can be obtained at the township and Mr. Spicer's. Sedimentary formation. Population, 150; Upper Yarra district, 1,000.

LOCH, a post town, with money-order, savings bank, and telegraph office, in the county and electorate of Mornington, police district of Gippsland, shire Poowong and Jeetho, 58¾ miles ESE. of Melbourne, on the Bass River. It is a station on the Great Southern Railway; fare, 15s. 10d. and 10s. 6d. There is the Royal Hotel, State school (2,912), Church of England, coffee palace, a store, a mechanics' institute (in which Presbyterian services are held), with public library (450 volumes), A.N.A, Society, and other business premises in the town. Agricultural, dairying, and pastoral interests are followed in the district. There are good prospects of black coal. Since the opening of the railway settlers are more extensively clearing their holdings of scrub and timber, areas which are giving large yields of root crops, potatoes (especially), onions, &c. Cook's stud farm here. The climate and scenery are beautiful. Formation: sandstone—chocolate and grey soils. Population of town, 200; of district, 750.

LOCKWOOD (36° 51′ S. lat., 144° 10′ E. long.), comprising North and South Lockwood (county of Bendigo, electorate of Sandhurst South, police district of Sandhurst), is a post town on Bullock creek, 108 miles NW. of Melbourne. Kangaroo flat, on the Melbourne and Echuca line, is the nearest railway station, and is distant about 5 miles; Coaches run daily to Sandhurst, 9 miles E. (fare, 1s. 6d.). Hotels: Happy Jack's, Farmers' Arms, and Queen's Head; two State schools, South Lockwood (No. 385), North Lockwood (No. 744), Episcopalian and Wesleyan churches, and a shire hall at North Lockwood. Good farming district, with orchards and vineyards. Some mining. Good fishing and shooting. Formation: granite. Population of town 94, and district about 415.

LOWAN (co. Gladstone, shire Korong), postal village 148 miles NW. of Melbourne, which is reached by coach to Bealiba, thence train. Has hotel, school (2,014), Mechanics' Institute and free library. Good roads and fair scenery. Population of district 400.

LONGFORD (38° 10′ S. lat., 147° 8′ E. long.), county Buln-Buln, shire Rosedale, is a postal township, situated a mile S. of the junction of the Glengarry and Thompson Rivers, 132 miles E. of Melbourne. Sale, 4 miles distant, is the nearest railway station. There is a hotel, State school, Church of England. Limestone quarries are here. It is a pastoral district. Population about 250.

LONG GULLY (36° 41′ S. lat., 144° 11′ E. long.), a postal township, with money-order and telegraph office (with telephone to Bendigo), in the county of Bendigo, electoral district of Bendigo, North-Western police district, and though forming part of the city of Bendigo, is about 2 miles N. of it; 103 miles N. of Melbourne. Hotels: Manchester Arms, Rose of Australia, and others. It has a mechanics' institute with free library of 3,353 vols., two State schools (Nos. 2,120 and 323), Church of England, Wesleyan, Primitive Methodist and Bible Christian chapels, Rechabite, Oddfellows' and Foresters' Societies, fire brigade, and police station. Trams and cabs run to and from Bendigo, fare, 3d. The Malmsbury reservoir furnishes an excellent water supply. Town lighted with electricity. Formation: lower silurian, peculiarly corrugated, forming three main anticlines, containing richest quartz reef known in the colony. Population of district, 2,000.

LONGWARRY (38° S. lat., 145° 40′ E. long.) (co. and shire of Buln-Buln). Post and railway station about 51 miles E. from Melbourne, near Tarago river. Has money-order office, telegraph station, Government savings bank, mechanics' institute and free library (343 vols.), two hotels, State school (No. 2,505), Union church used by various denominations. Industries: saw-milling and dairying. Agricultural and pastoral district. Formation: extensive flats formed by granite wash from ranges. Population: township 130, district about 400.

LONGWOOD (36° 50 S. lat., 145° 28′ E. long.), a postal township, with telegraph, savings bank and money-order office, in the county of Moira, shire Goulburn, electorate of Shepparton, Euroa, and Delatite, police district of Benalla, on Pranjip creek, and a railway station on the North-Eastern Railway, 84¾ miles NNE. of Melbourne (fares, 15s. 4d. and 10s. 3d.). Hotels: White Hart, Commercial, and Railway. Colonial Bank. State school (No. 2,707). Mechanics' Institute and free library having 1,000 volumes; three saw-mills. Churches: Church of England, Roman Catholic, and Wesleyan. A.N.A. Society. There is a reserve of 60 acres for a recreation ground. Waterfalls in district. Fishing and shooting. Town lighted with kerosene; water by gravitation scheme from reservoir on mountains. Agricultural, horticultural, and pastoral district, affording good grass; the soil is granitic, with clay subsoil. Height above sea-level 578 feet. Population of town, 250.

LORGUON (co and shire, Lowan), post township, reached by rail to Nhill, thence coach 18 miles. Has hotel, mechanics' institute, and store.

LORNE (38° 32′ S. lat., 143° 58′ E. long.), a fashionable and popular watering-place on Loutit bay and Erskine river, is in the county and electorate of Polwarth, police district Geelong, shire Winchelsea, and has post, money-order, savings bank, and telegraph offices. It is 96 miles (103¾ postal) SW. of Melbourne, and about 50 miles from Geelong. In the summer months there are daily coaches to Dean's Marsh railway station (13 miles), and tri-weekly in the winter; fare, 5s. The mean temperature in winter is 12 degrees higher than Melbourne, and in summer 10 degrees lower; annual rainfall 36 inches, and it is well sheltered. A schooner regularly trades between Lorne and Melbourne, supplying stores as well as much building material. There is good anchorage and mooring accommodation, the pier being 700 feet long. A saw mill is in operation a few miles inland. Hotels: "Erskine House" (Temperance), Lorne, and Grand Pacific; also private boarding-houses. School here (No. 2,162), Church of England and Presbyterian churches, and Free Library (1,368 vols.), with museum containing natural and literary curiosities. A light-house, much visited, is erected on Split Point, a few miles away, shows first class red light, visible 23 miles, and has telephonic communication with Lorne. The country at the back is heavily timbered, abounding in waterfalls, hundreds of feet in height, fern gullies and fine views; the soil is generally rich, and well suited for fruit growing along the banks of the Erskine, Stony, Fisher and other rivers. Good coal has been discovered a few miles distant. Good water supply, at a cost of £4,500. There is a fine public park of nearly 70 acres and recreation reserves—great resorts for visitors. There is excellent stream and sea fishing. Grand coast scenery. Building stone of excellent quality abounds. Formation: mesozoic. Population, 260; district, 640.

LOWAN SHIRE. *See* NHILL.

LUBECK (36° 48′ S. lat., 142° 25′ E. long.), a postal township, in the county and electoral district of Borung, police district of Murtoa and Stawell, on Dunmunkle Creek, with a money-order, savings bank, telephone and telegraph office, is a station on the North Western Railway, 175 miles NW. from Melbourne, lying 488 feet above sea-level. Railway fares, 31s. 5d. and 21s. Has one hotel, State school (No. 2,494), Wesleyan church, mechanics' institute (371 vols.), in which Anglican services are held, one store, Band of Hope lodge. Chiefly a pastoral district. Formation: alluvial. Population, about 70; of district, about 350.

LUCKNOW (county Dargo, shire Bairnsdale), is a rural suburb of Bairnsdale, 171½ miles SE., on the Mitchell river. It has post office, four hotels, State school, Anglican and Presbyterian churches, stores, brick-yards, mechanics' institute, and free library (835 volumes). Lighted with kerosene. Pastoral and agricultural district. Population, 200.

LYONVILLE (37° 28′ S. lat., 144° 20′ E. long.), on the Loddon river, is a post town, in county Talbot, electoral district Daylesford, police district Castlemaine, East Riding of Glenlyon, and railway and telegraph station on the Woodend to Daylesford line, 67½ miles NW. of Melbourne; fare, 12s. 1d. and 8s. 1d. Mechanics' institute (650 vols.), Anglican church, 3 hotels, 2 stores, and State school (No. 1,854), are here. Plentiful supply of water from springs and wells. Agricultural and farming district. The Bullarto Village Settlement is here. Formation: volcanic. Population, town and district, 350.

MACARTHUR (38° S. lat., 142° E. long.), a town with post, telephone, savings' bank, and money-order offices, in the county of Normanby, Portland electorate, police district Belfast, shire Minhamite on the Breakfast and Blackfellow's creeks and the Eumeralla river, 200 miles (208¼ postal) from Melbourne SW., 22 miles from Hamilton S., and 30 miles from Belfast NW. Hotels: Farmer's Inn and Victoria. There are here a State school (No. 1,571), Presbyterian, Episcopal, Wesleyan, and Roman Catholic places of worship, court-house, five stores, cheese and butter factory, a mechanics' institute, with 700 vols., two insurance companies. Hamilton, 22 miles distant, is the nearest railway station, or Melbourne can be reached by way of Portland or Belfast. Two coaches pass through Macarthur daily *en route* for Hamilton and Port Fairy. A court of Petty Sessions is held monthly. Agricultural district, land well suited for root crops; 3,266 acres under cultivation. About 4 miles distant is Mount Eccles, an extinct volcano, its crater being now a lake with precipitous sides. Land famous for its potatoes; average yield 13·94 tons to the acre. Population of shire, 2,108; ratepayers 497; dwellings, 405; rate, 1s.; net annual value of ratable property, £41,825. Condah Swamp, near at hand, is being drained and rapidly taken up. Formation: upper volcanic. Lighted with kerosene. Water from river and springs. Population, about 400.

MACEDON (37° 25′ S. lat., 144° 41′ E. long.) is a post, money-order, savings bank and telegraph town in the county of Bourke, electoral district of West Bourke, and police district of Gisborne on the Willimigongon river. It is situated on the Melbourne and Echuca railway, 43½ rail miles NNW. of the former place; fares, 7s. 4d. and 5s. There are three hotels, Moody's, Family, Victorian Alps, and State Nursery Hotel, two general stores, a State school (No. 1,660), Anglican, Wesleyan and Roman Catholic churches, Jubilee hall, library, and a State nursery in the neighbourhood, also several eucalyptus oil works. The township, which derives its name from Mount Macedon (a part of the Dividing Range), stands on elevated ground 1,660 feet above the sea-level, and is of a straggling character. The water supply is from the western slope of Mount Macedon by newly-constructed water works. There are tourist resting-places 3,000 feet above the sea-level. The post-office is in connection with the railway station. The district is very thickly timbered, and the agricultural and pastoral areas are limited. The Government reservoir is situated here. Cabs run three times daily to Upper Macedon, two miles from railway station. It is on the southern slope of Mount Macedon, and is noted for the picturesqueness of its scenery and its salubrity; the State forest is a little to the north. Much fruit is grown here. Has Anglican and Presbyterian churches, a State school (No. 415), workmen's hall, M.U.I.O.O.F. lodge, and a hotel (Waterfalls). In the vicinity is the summer residence of the Governor; many handsome villa residences have been built around here, as the locality has become a fashionable one. Formation: trap; immediately south, lower silurian. Population, 363.

MACKINNON (co. Bourke, shire Moorabbin), railway station on Mordialloc to Frankston line. Has State school, church, and stores. Near to sea coast.

MACORNA, a post town, with money-order, savings bank and telegraph office, in the county and electoral district of Gunbower, police district of Pyramid Hill, 165 miles NNW. of Melbourne. It is a station on the Kerang railway line; fares, 29s. 7d. and 19s. 8d. Has Anglican and Baptist churches, State school (No. 2,909), hotel, coffee palace, Rechabites' tent, Orange lodge, several stores, and a butter factory. It is an agricultural and pastoral district in the Tragowel trust area; the Macorna channel is a national work. Population, about 140.

MADDINGLEY (counties Bourke and Grant, shire Bacchus Marsh), township on the Werribee river. Bacchus Marsh. Agricultural Society holds show here. Has two hotels and recreation reserve.

MAFFRA (37° 59′ S. lat., 146° 59′ E. long.), a shire and township, with post, telegraph, savings bank and money-order office, on the Macalister river, in the county of Tanjil, electoral district of N. Gippsland and police district of Sale, 131¼ miles ESE. of Melbourne. It is a station on the railway line from Traralgon to Stratford, fares, 23s. 5d. and 15s. 7d. Coaches run daily to Sale and Newry. The National, Commercial, and Victoria Banks have branches here. Hotels: Metropolitan, Camden, and Macalister. There are a State school (No. 861), shire hall, court-house, a mechanics' institute with 1,200 volumes, and four churches—Anglican, Presbyterian, Wesleyan, and Roman Catholic, G.U.O.O.F. and I.O.R. Societies, concentrated milk factory, and an extensive flour-mill. Court of petty sessions is held here. The district is lightly timbered in the forests, and there are very wide river flats and plains of the richest description, untimbered; the soil is well suited for farming and grazing purposes. Maffra is the great centre of the Gippsland cattle trade, about 50,000 passing through the yards annually. Three auction firms have erected cattle yards of a most commodious and substantial character. Beet sugar industry was started, and factory capable of treating 350 tons beet established; but it has not been a success and is now closed. In the shire of Maffra is property of the annual value of £47,700, 708 dwellings, 975 ratepayers, 1s. rate; land under cultivation 8,512 acres. Formation: Devonian, silurian, and tertiary. Population, 700; shire, 3,875. Newspaper: *Maffra Spectator*, published on Monday and Thursday.

MAIDSTONE (37° 47′ S. lat., 144° 53′ E. long.), a post town in the county of Bourke, electorate and police district of Footscray, and shire of Braybrook, 5 miles from Melbourne, NW., on the Ballaarat road, near the Saltwater river, rail to Footscray, thence cab, being means of communication. The nearest hotels are the Braybrook, Anglers' Arms, and Maribyrnong Bridge. There are here quarries of basalt yielding good stone. In the neighbourhood are the Victoria powder magazine, Maribyrnong racecourse, a foundry, a bolt works, meat preserving works, and several fellmongery, slaughtering, and boiling-down establishments. Wesleyan, Presbyterian churches, and two State schools. Agricultural and pastoral district. Water from Yan Yean. Formation: basalt. Population, 200; of the entire shire, 1,430.

MAILOR'S FLAT (38° 20′ S. lat., 142° 30′ E. long.) (county Villiers, shire Warrnambool), is a post town 173 miles W. from Melbourne, on Bung Bong creek. Conveyance to Melbourne: coach to Warrnambool, thence rail. Has stores, hotel, Presbyterian church, State school (No. 1,210), in which religious

services are held), mechanics' institute, and free library (304 vols.). Dairying industry. Grazing and agricultural district. Population, about 300.

MAINDAMPLE (37° 2′ S. lat., 146° 1′ E. long.) is a postal township, on Boundary Creek, in the county and electoral district of Delatite, and police district of Mansfield. It lies 127 miles NE. of Melbourne, and 8 miles from Mansfield. The communication with Melbourne is by rail, fare 22s. 1d. and 14s. 10d. State school (No. 1,514), and two hotels in the township. Quartz reefs intersect the district in every direction. Population, 75 ; of town and vicinity, 150.

MAIN LEAD (37° 23′ S. lat., 143° 20′ E. long.), a post town in the county and shire of Ripon, 129 miles NW. of Melbourne, and about 3 miles from Beaufort railway station, to which conveyance twice daily. It has an hotel and two stores, a State school (No. 805). Primitive Methodist services are held. Industries—farming, wine making, and fruit growing. Lighted with kerosene. The water supply is derived from a stream that has its fountain head at Mount Cole, travelling thence a circuitous route of 33 miles to Beaufort. Quartz and alluvial mines here and gravel pits. Population of district about 200.

MAJORCA (37° 7′ S. lat., 143° 55′ E. long.) (county Talbot, electorate Maryborough), a flourishing borough township, with post, telegraph and money-order office, and savings bank, on McCallum and Back Creeks, and on the road from Talbot to Carisbrook, 112 miles (120 postal) NW. of Melbourne. The municipal area is 5,005 acres, with 252 dwellings, 235 ratepayers, 1s. rate, and property annually valued at £3,940. Carisbrook, 4½ miles distant N., is the nearest railway station, and is reached by daily coach. A coach also runs daily to Maryborough, 6 miles NW. Principal hotels are the Harp of Erin, Royal, Star, and Imperial. There is a M.U.I.O.O.F. lodge, and a court-house. Two State schools (Nos. 764 and 1,062), Anglican, Roman Catholic, Presbyterian, and Wesleyan churches, and an agency of the London Bank of Australia. Water from small reservoir with stand pipe. The district is an agricultural and mining one. The presence of gold caused the first settlement. The diggings are chiefly alluvial ; the gold yield in 1899 was 762 ozs. Formation : basaltic. The population, 1,007.

MALDON (37° S. lat., 144° 5′ E. long.), town and shire, of three ridings, Maldon, Baringhup, and Walmer, with post, telegraph, savings bank, and money-order office, is situated at the foot of Mount Tarrangower, on the Tarrangower creek, on the road from Castlemaine to Maryborough, 89 miles NNW. of the metropolis. It is in the county of Talbot, electoral district of Maldon, and police district of Bendigo. Maldon is a station of the branch railway from Castlemaine to Shelbourne ; fares from Melbourne, 15s. 10d. and 10s. 9d. Coaches to Baringhup, Eddington, and Dunolly, daily ; Shelbourne, Woodstock, and Laanecoorie, twice weekly. The principal hotels are the Kangaroo, Royal, Exchange, Grand, and Commercial. Banks : New South Wales, London, and Victoria. Pastoral and agricultural operations are largely carried on in the neighbourhood, and an agricultural show is held annually, and the district is noted for its auriferous wealth. There are over 1,000 miners employed on the field ; the yield for 1899 was 39,451 ozs. The extent of land under cultivation (March 31, 1900) was 11,342 acres, principal of which were wheat, oats, barley, hay, and bearing vines. There is a hospital and benevolent asylum, an Athenæum, with a library of 2,000 volumes, and a State school (No. 1,254), several private schools, Anglican, Roman Catholic, Presbyterian, Wesleyan, congregational, English and Welsh Baptist, and Bible Christian places of worship, Masonic, Oddfellows, A.N.A., Rechabite and A.M.A, L.O.L. societies, shire hall, also a court-house, lock-up, and powder magazine. The town is lighted with gas. Net yearly value of ratable property in shire is £31,041 ; area, 265 square miles ; ratepayers on roll, 914 ; dwellings, 1,790 ; rate, 1s. The water supply is obtained from the Coliban scheme. There are two mails a day to and from Melbourne. Population of the town, 3,600 ; of the shire, 5,800. Local papers, *Tarrangower Times* and *Maldon News*.

MALMSBURY (37° 15′ S. lat., 144° 20′ E. long.), a municipal township, with telegraph, savings bank and money-order office, in the county of Dalhousie and electorate of Castlemaine, on the Coliban river, 63½ rail miles N. by W. of Melbourne, on the main road to Castlemaine. Height above sea-level 1,492 feet. It is in direct railway communication with the metropolis ; fares, 11s. 7d. and 7s. 10d. ; return, 17s. 6d. and 11s. 10d. Coaches run to Kyneton, 1s. 6d. return ; to Daylesford 3s. 6d. Hotels : the National, Malmsbury, Commercial, Belle Vue. The municipal area is 4,214 acres, with 256 dwellings, 300 ratepayers, 1s. rate, and property of the annual value of £6,266. The country surrounding Malmsbury is extensively taken up by farms producing chiefly oats and hay. Mining operations also are carried on, the workings being both alluvial and quartz, and there are bluestone quarries which are extensively worked. Bank : New South Wales. There is one State school (No. 1,408), and one denominational (R.C.) ; also Anglican, Wesleyan, Presbyterian, and Roman Catholic places of worship, a town-hall, and mechanics' institute with a library of 900 vols. M.U.I.O.O.F., I.O.R., and G.U.I.O.O.F. societies. Court of petty sessions is held here. Malmsbury has also a racecourse, recreation reserve, and public gardens (with tennis-court), and is lighted with kerosene. Water supply from Coliban reservoir and falls on Coliban river. Formation : basaltic. The population numbers 1,300.

MALVERN (37° 53′ S. lat., 145° 4′ E. long.), a shire, and an elevated residential suburb of Melbourne, lying 5½ miles to the SE. having railway communication ; fares, 5½d. and 4½d. A line of omnibuses run to and from Prahran, by way of High Street, fare, 3d. Many of the leading merchants and professional men live here in dwellings of a superior class, being pleasantly situated, and from the hill a fine view of Hobson's Bay is obtainable. Malvern, which is lighted with electricity, kerosene, and gas, boasts of several handsome churches, and has a commodious building in which is combined public hall, council chambers, free library, containing 763 volumes, fire brigade station, and court house. It has two State and several private schools, a post and money-order office, savings bank and telegraph station, and branches of the English and Scottish, National Bank, and Bank of Victoria. The area of the shire is 6¼ square miles ; number of dwellings, 2,100 ; ratepayers on roll, 2,245 ; rate 1s. 4d. ; annual value of ratable property, £122,000 ; 301 acres under cultivation. Population of shire, 10,500. Newspapers : *Malvern Recorder*, *Armadale Express* and *Malvern Argus*.

MANSFIELD (37° 5′ S. lat., 146° 10′ E. long.), a shire and post town, with telegraph, savings bank, and money-order office (county and electorate of Delatite). It is situated on Ford's Creek, 131 miles NE. of Melbourne. Communication with Melbourne is by railway ; fares, 23s. 5d. and 15s. 7d. coach runs to Jamieson, fare, 7s. 6d. The hotels are the Mansfield, Delatite, Royal, and Commercial. Wheat, oats, hay and potatoes are the principal crops. At some distance from the town are several stations, the cattle from which bring highest prices in Melbourne market. Antimony has been found in the neighbourhood. Banks : New South Wales and Colonial. Recreation Reserve. There are four churches—Catholic, Presbyterian, Wesleyan, and Anglican ; a State school (No. 1,112), Roman Catholic school, shire hall, public hall, Freemasons', M.U.I.O.O.F., Hibernian, and Band of Hope lodges, hospital, tennis-court, post-office, and a public library with 1,400 volumes. A narrow-gauge railway is to be made from Whitfield to Mansfield, across the mountains. Industries : agricultural implement factory, cordial and butter factories. Courts of general and petty sessions are held here. Net annual value of ratable property in the shire £35,828 ; ratepayers, 1,115 ; dwellings, 660 ; rate, 1s. ; acres under cultivation, 9,848. The water supply, which is of excellent quality, is obtained from the Delatite river, conveyed by open race 18 miles to service reservoir 165 feet above Mansfield, whence there is reticulation through streets. Scenery is beautiful. Mount Buller (nearly 6,000 feet above sea-level) is a prominent feature, and for four or five months of the year it is covered with snow. Mount Battery, which rises in a succession of terraces, is only three miles distant. Mansfield has been included by Railway Department in list of Mountain Excursion districts. Good trout fishing in the Delatite river, and there are many splendid drives and cycling roads. In the main street is a monument to the police who were shot by the Kelly gang. The town is well laid out and has some good buildings. The surrounding land is mainly in large estates, used chiefly for grazing. Formation : old red sandstone. Population of the town, 650 ; of shire, 4,000. The *Mansfield Courier* is the local journal.

MARONG (36° 40′ S. lat. 144° 10′ E. long.), a shire and post town, with money-order and telegraph office, county Bendigo, electoral district of Sandhurst South, and police district of Sandhurst, is situated on Bullock creek, 620 feet above sea-level, and lies distant from Melbourne 112¼ miles N. by W. It is a railway station on the Sandhurst and Inglewood Railway ; fares, 20s. 2d. and 13s. 5d. Hotels : Marong, Railway, and Yorkshire. State school (No. 400). Churches : Anglican, Presbyterian, and Catholic, A.O.F. court and public hall. The district is a farming one, and is also of a mining character. There is an extensive bed of kaolin at Wilson's Hill, which is sent to Melbourne for pottery purposes ; mining is also carried on at the Hill, Memsies Reef, Fletcher Creek, &c. In March, 1900, 58,773 acres of land were under cultivation, of which wheat, oats and hay are by far the most extensively grown crops. Annual value of ratable property in the shire, £67,675 ; dwellings, 1,590 : ratepayers 2,528 ; rate, 1s. ; area, 562 square miles. The Coliban Reservoir furnishes the water supply. Population, 500 ; of the shire, 7,650.

MAROONA (37° 26′ S. lat., 142° 50′ E. long.) a post town, with telegraph-station, in the county of Ripon, electoral and police district and shire of Ararat, on the Hopkins river, 144 miles NW. of Melbourne, and 13 miles from Ararat, with which it is now connected by railway ; fares, 25s. 10d. and 17s. 3d. Hotel : Crown. The country is undulating and the soil good, producing excellent crops. State school (No. 1,943). Height above sea-level 826 feet. Duck shooting on the lakes. River flat alluvial. The population is small and scattered. Population of district, about 600.

MARSHALLTOWN (35° 15′ S. lat., 144° 2′0 E. long.), a post town, in county Grant, electorate Barwon, shire S. Barwon, and police district of Geelong, 49 miles SW. of Melbourne, and 4 from Geelong. The Connewarre Station, on the railway between Geelong and Camperdown, is within half a mile of the township, though the line passes through the town ; fares, 9s. and 6s. 1d. ; steamer from Geelong, return fare, 3s. The river Barwon flows at a distance of three-quarters of a mile. There are here the Racecourse hotel, a racecourse, State school (No. 283), Anglican church, Oddfellows' lodge, two tanneries, factories for woolscouring, and oil and glue works. Lighted with kerosene. Agricultural and pastoral pursuits are followed. Formation : carboniferous. Population, 225.

MARYBOROUGH (37° 3′ S. lat., 143° 44′ E. long.), county Talbot, electorate Maryborough, shire Tullaroop, an important municipal town and mining and agricultural centre, 112 rail miles NW. of Melbourne. The Government buildings, which are surmounted with a clock tower 80 feet high, comprise court

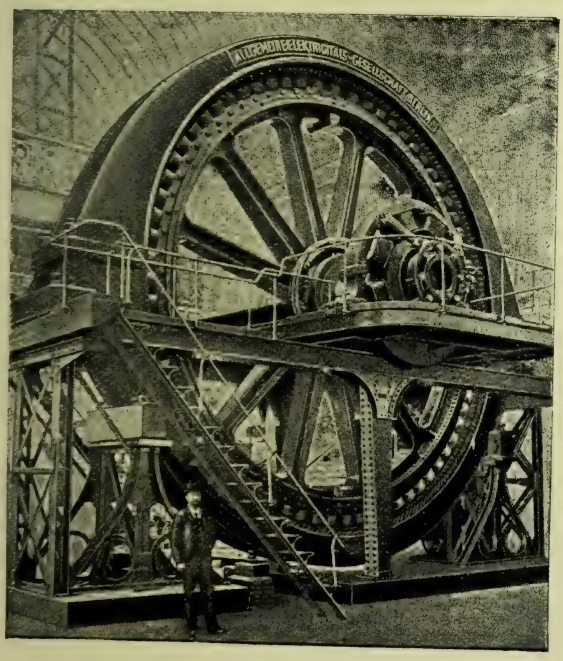
house, sub-treasury, post, telegraph, and money-order office, and post office savings bank. The other more important buildings are railway station, the gaol (which will hold 52 prisoners), the town hall (erected at a cost of £9,000), the hospital, school of mines, industries and science, fire brigade station and look-out tower, free library and reading-room with 2,920 volumes, and grammar school. The churches are—Episcopal, Roman Catholic, Presbyterian, Wesleyan, Congregational, Primitive Methodist, Bible Christian, and a Salvation Army barracks. Banks: London, Union, Victoria, and Savings Bank. The principal hotels are:—Bull and Mouth, McIvor, Albion, Flagstaff, Park, Supreme Court, and Cambrian. There are two large coach factories, two foundries, two aerated water factories, and a brewery in full working order. The streets are lighted with gas, Maryborough in this respect favourably comparing with any country town. There are 980 inhabited dwellings in the borough, area 5,760 acres, 1,161 ratepayers, 1s. 3d rate: the ratable value of property being £234,170, annual value £23,417. The reticulation of the town is perfect, £56,250 having of recent years been expended in this direction; the supply is derived from a reservoir constructed on the McCallum's Creek at Evansford, 18 miles distant, the storage capacity being 230,000,000 gallons. There are several reserves for public recreation, the most popular of these being Prince's Park (70 acres 3 roods 22 perches in extent), in which is Victoria Lake, and in which is held annually the grand gathering of the Highland Society of the North-Western Province, attended by over 12,000 persons; the asphalt cycling track is one of the best in the colony. The Royal Pack (69 acres 1 rood 30 perches) is a favourite resort for picnic parties. There is a very pleasant botanical garden largely patronised by the public; also a fine bowling green. There are branches of all friendly societies. Conveyances run at short intervals daily to the suburban townships of Majorca, Craigie, Carisbrook, and Bowenvale, the fares being 6d. to each place. Maryborough is the centre of the north-west gold-fields, and is the head-quarters of the Government Mining Boards and the Maryborough police district, which comprises 40 stations. It is also the centre of an extensive railway system with lines radiating to Ballaarat, Castlemaine, Donald, Inglewood, and Ararat. Fares from Maryborough *viâ* Castlemaine to Melbourne, 20s. 2d and 13s. 5d. The station is a very superior structure, erected at a cost of £26,000. Extensive railway workshops and large engine sheds, capable of storing 24 engines, have been erected at a cost of about £23,000. During 1899 there were 3,685 miners in the district, the gold yield for the district being 56,635 ounces. Mining claims worthy of note are Chalk's No. 1 Company, North Duke and Duke United, Chalk's Freehold, Chalk's No. 3 Amalgamated, Carisbrook, the last having the largest pumping machinery in Victoria, the amount of water daily discharged from the mine being over 2,000,000 gallons. The principal mining is deep alluvial, which is being prosecuted with success by several companies. There are two State schools (No. 404) at West Maryborough, (No. 2,828) at East Maryborough, also two grammar schools, a Roman Catholic school, and a school for technical education. Formation: lower silurian; basalt at McCullum's creek. In the shire of Tullaroop there are 12,545 acres under tillage, hay, vines, wheat, and oats being the chief crops. Area of shire 222 square miles; dwellings, 800; ratepayers, 1,070; rate, 1s.; net annual value of ratable property, £24,840. Population of borough, 5,000; of shire, 3,140; district, 15,000. The local newspapers are the *Maryborough and Dunolly Advertiser*, published on Mondays, Wednesdays, and Fridays, and the *Maryborough Standard*, published on Tuesdays, Thursdays, and Saturdays.

MARYSVILLE (county Anglesey, shire Healesville) is a postal township, with telephone connection, on the River Stevenson, about 61 miles NE. of Melbourne. Rail to Alexandra, coach thence over famous "Black Spur," thrice weekly. Stevenson Falls are near here. It has State school, and two hotels, stores, police station, and free library (225 volumes). It is lighted with kerosene. Extremely rich gold has been discovered on Mount Morgan, 12 miles distant. Grazing and agriculture. Population, about 100.

MATLOCK (37° 33′ S. lat., 146° 18′ E. long.) is an extreme eastern post-town, with money-order and telephone bureau, counties Tanjil and Wonnangatta, shire Howqua, and electoral district of Anglesea, situated on the summit of the dividing range of the Australian Alps, at an elevation of 4,561 feet above the sea-level, 113 miles (147 postal) NE. of Melbourne, *viâ* the Yarra track, 195 *viâ* Jamieson, 4 from Woods Point. The main road to North Gippsland turns off at this point, running through Jordan, the Red Jacket, and Aberfeldy to Walhalla and Sale. The surrounding ranges abound with quartz reefs, yield 1899, 11,809 ozs. The "New Loch Fyne Company" is here. During the winter months the ground is frequently covered with snow, but the climate is said to be healthy. Rail to Healesville, coach thence to Maryville, thence horses. State school (No. 1,100). Sandstone. Population, about 250.

McIVORSHIRE. *See* HEATHCOTE.

MELBOURNE is the metropolis and seat of government of the colony of Victoria. It lies in 37° 49′ 53″ S. lat., 144° 58′ 42″ E. long., the magnetic variation being 8° 6′. It is principally situated on the banks of the River Yarra-Yarra, in the county of Bourke. It forms, with its suburbs, a police district of itself, and is divided into electoral districts, Melbourne, Melbourne E., Melbourne W., Melbourne N., Carlton, Carlton South, Jolimont and West Richmond, Footscray, and South Yarra. It is divided, for municipal purposes, into seven wards, each having an alderman and three councillors; these wards are known respectively as Lonsdale, Bourke, Gipps, Latrobe, Smith, Victoria, and Albert wards.



MELBOURNE is so named after Lord Melbourne, who was Premier of Great Britain at the time it was founded. In 1836 the present site of Melbourne was known as Beargrass, or Bearpurt (an attempt to reproduce, it is said, some native name supposed to indicate the locality), and on 18th June of that year it comprised thirteen buildings, viz., three weatherboard, two slate, and eight turf huts. The name Melbourne is said to have been the suggestion of Sir Richard Bourke, who was then Governor of New South Wales. The growth of the town during the past half-a-century has been most extraordinary, having developed from an unknown extreme corner of the British Empire, with a handful of settlers, to a cathedral city with an area of about 6,000 acres, a population of nearly half a million, and property of the net annual value of over £1,326,785. There are two claimants to the honour of founding the city—John Batman and John Pascoe Fawkner—but the question has never been satisfactorily settled. The jubilee of the incorporation of the city was celebrated on the 12th August, 1892, in the Town Hall.

The PUBLIC BUILDINGS are said to excel those of any other city of the same size in any part of the world. They comprise chiefly:—The Houses of Parliament (a magnificent structure at the head of Bourke Street), with a splendid library of over 52,000 vols.; the Treasury, at the head of Collins Street; the Law Courts, in the Italian style; the Public Library containing over 300,000 vols. and pamphlets (in connection with the public library an extensive lending library has been opened); the Post-office; the Public Offices at the back of the Treasury for the Land, Mining and other Departments; Customs House, which is erected near the spot where Mr. John Pascoe Fawkner moored the little craft that was the pioneer of the fleets of merchantmen that now plough the waters of Hobson's Bay; the Mint; University, with the Museum attached, and its Hall, called the Wilson Hall, a magnificent building in the perpendicular Gothic style of architecture; Trinity, Ormond, and Queen's Colleges in the University grounds; and the Working Men's College, the Town Hall, having the most spacious room in Victoria, capable of seating 2,500 persons, with one of the largest and finest organs in the world, having 79 stops, and 4,373 pipes; the Stock Exchange of Melbourne, the Exhibition Buildings, the new Produce Markets, the Eastern Market (all referred to further on), and the new Fire Brigade station on Eastern Hill. Among the more imposing banking and insurance premises may be mentioned the Bank of Australasia, a massive and commanding building of the Italian Doric order; the London Bank of Australia, in the Græco-Italian style, the lower part of bluestone and the upper of Kangaroo point stone; the Bank of Victoria, the Bank of New Zealand, the Colonial Bank, the English, Scottish, and Australian Bank, in the Gothic style; the Commercial Bank (a very imposing edifice), and the Equitable Life Assurance Society of the U.S.A., a magnificent marble and granite pile at the north-west corner of Elizabeth and Collins Street. The buildings devoted to the purposes of trade are many of them of a superior order, and some will vie with similar places in the cities and towns of Great Britain in their fittings and general appointment, particularly those occupied by the warehousemen and the wool stores of Goldsbrough, Mort and Co., Limited, the Australasian Agency Co., the New Zealand Mortgage Co., and others. The markets are the Eastern (more familiarly known as "Paddy's Market," rebuilt at a cost of £89,132, and lighted at night by electricity); the Western, Queen Victoria, the Fish and the Hay Market. Fish, meat, and farm produce markets situated near the wharves, have been built at a cost of about £232,249. In connection with these markets very large freezing accommodation has been provided, by means of which the butter export, and the greater portion of the frozen meat export, of the colony has for some time past been undertaken. The chambers used for these purposes have a capacity of about 1,950 tons of butter and 58,000 sheep, while other chambers are kept for local requirements of the fish and meat trades. Melbourne has indeed undergone a great transformation so far as buildings are concerned, particularly in the chief thoroughfares: the older business premises being removed and, in some instances, replaced by towering structures of six, eight, ten, and even twelve storeys in height.

The PLACES OF WORSHIP of note are:—St. Patrick's Cathedral (Roman Catholic), which was for many years in course of erection (and is now complete except the spires); Scots' Church in Collins Street, with a steeple 211 feet in height; Wesleyan Church, in Lonsdale Street, with lofty spire; the Independent Church, a large building of brick and freestone in the Saracenic style, with a massive square campanile; Baptist church, in Collins Street; and St. Paul's Cathedral at the corner of Swanston and Flinders Streets, which presents a noble exterior, while the interior is of elaborate workmanship. Its extreme external length is 273 feet, width 126 feet, and its central tower will be 156 feet high, with lofty spire; it affords accommodation for 1,700 persons.

The HOTELS of Melbourne are very numerous, the leading ones being Scott's, Menzies', Oriental, Port Phillip, Union Club, Waverley, Palace, Hosie's, Old White Hart, Ballaarat Star, Her Majesty's, Rigby's; all of these are well conducted and will be found replete with the conveniences of similar establishments in Europe. The coffee palace system has been established, and the city possesses a number of magnificent hostelries conducted on that plan, the chief of which are the Federal Palace Hotel, Grand Hotel, Melbourne, and Victoria.

The principal STREETS in Melbourne proper are one mile in length, 99 feet in width, and run at right angles to each other;

Threephase Dynamo 3000 Kilowatts.

they are intersected by smaller streets which bear the name of the larger streets with the prefix of "Little." These leading thoroughfares are named respectively, after Australian notabilities—Flinders, Collins, Bourke, Lonsdale, and Latrobe, running nearly E. and W.; and cross streets called Spencer, King, William, Queen, Elizabeth, Swanston, Russell, Exhibition, and Spring, running nearly N. and S. Elizabeth Street runs in the valley formed by the two principal hills on which the city is situated, and divides it into E. and W. Little Flinders Street, where the great importers' warehouses are principally situated, is known among commercial men as "The Lane." At the intersection of Collins and Russell Streets was originally placed a colossal group of statuary, commemorating the explorers Burke and Wills; this was removed some years ago for tramway exigencies, and now stands in Spring Street, near the model (or training) schools. A monument in memory of General Gordon stands at the intersection of Spring and Gisborne Streets. There are numerous other broad and well-made streets in the outskirts of the city, while the important suburbs of Collingwood, North Melbourne, Fitzroy, Carlton, Brunswick, South Melbourne, South Yarra, Prahran, Richmond, etc., can boast of fine thoroughfares, with well-built business premises, as well as handsome private houses. Trees have been planted in many of the main thoroughfares of the city and suburbs.

Shipping Accommodation.—Port Melbourne (originally called Sandridge) is about 2½ miles distant, and is connected by road, rail, telephone, and telegraph. It has two large and commodious piers, jutting out a long way into the bay, affording accommodation for a large fleet, and allowing vessels of almost any tonnage to berth alongside. Hobson's Bay has accommodation for 800 vessels; it varies in depth from 3 to 5 fathoms, and has good anchorage, the bottom being of stiff clay and mud. Port Phillip Bay extends over 800 square miles, of which three-fourths is available for anchorage. A line bearing North 61° East (magnetic) from the lighthouse on Gellibrand's Point, and running through the St. Kilda White Perch Buoy, divides the inner from the outer anchorage of Hobson's Bay. There is also access for steamers and vessels drawing 22 ft. as far as to the very heart of the city by means of the river Yarra-Yarra, which is navigable to Melbourne. A dyke of basaltic rock, known as the Falls, has been blasted away, and the river is now uninterrupted, and is tidal to Richmond. Immediately below the Falls are the Queen's, and Australian wharves, extending for two miles along both banks of the river, and used by intercolonial trading vessels, steamers and colliers, and by all classes of ocean going steamers and sailing ships. There are two dry docks here, which will admit of ships of 5,000 tons being taken in. The Alfred Graving Dock at Williamstown is a fine structure, and is undergoing improvements. On the south bank of the river are ship-repairing yards, foundries, and many other manufactories, also a stone wharf, built at great cost, alongside which large vessels can be accommodated, and having a very large steam crane, capable of lifting up to 50 tons from the ships that berth there. Between this and the Queen's wharf opposite is the Pool, an expansion of the river, where the largest vessels using this navigation can turn with ease. At present vessels drawing 22 feet can get to the Melbourne wharves at ordinary tides. A new channel has been cut which shortens the distance from the mouth of the Yarra to Melbourne by over a mile. This and other works for the improvement of the river have been executed by the Melbourne Harbour Trust, and have cost about £4,000,000. A scheme has been adopted for the prevention of damage by flood-water of the Yarra, and is being steadily proceeded with. In the furtherance of this scheme the river between Princes Bridge and Punt Road has been greatly improved and the banks considerably beautified. On the south bank there has been formed a fine carriage drive starting from St. Kilda road and following the course of the river to the Botanical Gardens.

Means of Communication are plentiful. The cable tramway system has been adopted, and tramcars traverse all the chief streets and connect the city with the suburbs. Melbourne is also well supplied with omnibuses, cabs, waggonettes, and other facilities for suburban and street conveyance, which are, as a rule, commodious, clean, and run at cheap fares. There are three railway stations, one in Spencer Street, which is the terminus of the Essendon, Williamstown, Coburg, Heidelberg, and up-country lines north of the Yarra. The second (connected with Spencer Street by a viaduct) is in Flinders Street, and is the starting point of trains to Port Melbourne, St. Kilda, Brighton and Sandringham; and the third is at Princes Bridge, which is the terminus of the Hawthorn, Camberwell, Healesville, Glen Iris, Stony Point, and Gippsland railway lines. The whole of the Melbourne and suburban police stations, many of the Government departments, and the offices of numerous private firms, are now connected by telephone. There are also public telephone bureaux throughout the metropolis.

Lighting, etc.—The whole city is well lighted and paved, and provided with an abundant supply of water from the Yan-Yean reservoir. The whole city is lighted by electricity. The broad streets are lighted by arc lamps, and the narrow streets and lanes by incandescent lamps. In the main streets the arc lamps are carried on pillars placed in the centre of the roadway, but in the streets where tramways are laid this system could not be carried out, and the lamps are suspended from brackets attached to pillars erected on the footway, and projecting some 8 feet over the roadway. Gas is supplied by the Metropolitan Gas Company, an amalgamation of the three old gas companies. The sewerage of the metropolis is being carried out by the Melbourne and Metropolitan Board of Works, a body created by Parliament for the purpose.

Public and Social Institutions are numerous. The Melbourne Hospital is a commodious brick building, in the heart of the city. The Gaol is an extensive range of buildings, the bluestone with which it is built intensifying, if anything, its gloomy character. It has accommodation for 358 male and 130 female prisoners. The Athenæum in Collins Street has a library of over 22,000 volumes, and has a large hall capable of seating over 1,000 persons, besides a smaller hall. The Melbourne Club in Collins Street, the Australian Club in William Street, the Commercial Travellers' Club in Flinders Street, and the Masonic Club in Collins Street are fine large, substantial buildings, with excellent appointments, and the Athenæum Club, on a less extensive scale, has all the appliances of a good clubhouse: there are numerous other social, dramatic, literary and sporting clubs in the city.

The Charitable Institutions are very numerous; the principal are the Melbourne Hospital, the Benevolent Asylum for aged and infirm people, the Orphan Asylum, the Immigrants' Home, the Lunatic Asylum, Blind Asylum, Women's Hospital, Alfred Hospital, Homœopathic Hospital, Children's Hospital, and others.

Various Bridges span the Yarra. Princes Bridge, a stone structure of one arch of 150 feet in width, being but a few feet short of the widest of the arches of London Bridge, for many years spanned the Yarra; but it was removed to make way for a larger bridge, with three spans of 100 feet over the river, and two land openings at each end. This splendid bridge is a worthy approach from the important southern suburbs to the city. Iron was principally used in its construction, and the cost was about £140,000. At the foot of Market-street, Queen's bridge, which is constructed of iron, crosses the Yarra, affording a route for the tramcars to proceed to South Melbourne and Port Melbourne. Other bridges are the Johnston Street bridge, which connects Melbourne with Kew; it is an iron structure of three spans; a massive iron girder bridge (and a foot-bridge at Punt-road), connecting Richmond with Prahran, and two iron bridges spanning the Yarra near Hawthorn. There is also a splendid new bridge at Anderson Street, connecting East Melbourne and Yarra Park with the Botanical Gardens and South Yarra. It is built on the very latest scientific principles, and in addition to being of great strength, it possesses considerable architectural beauty.

Places of Amusement and Recreation comprise the Princess, the Royal, the Opera House, Her Majesty's (late Alexandra), the Bijou, at all of which talent of a high order may frequently be seen and heard, and operatic performances by competent artistes are occasionally given; recitals on the Town Hall organ are given once a week, and during 1900 free Municipal concerts were given in the Town Hall; popular concerts are also given in the Exhibition Buildings. Among the places of recreation and amusement may be mentioned the Picture and Statuary Gallery and the National Museum, at the rear of the Public Library. The Melbourne Observatory, on the south side of the River Yarra, is provided with appliances of the first order, and the telescope ranks among the largest now in use. The Aquarium and Picture Gallery in the Exhibition Buildings. The Melbourne Racecourse (where the world-known "Melbourne Cup" race is run), with a handsome grand stand, situated at Flemington, and the Melbourne Cricket and Football Ground, in the Yarra Park, also possessing elegant and roomy stands, and a fine brick pavilion with flat roof, are nowhere surpassed, if even equalled, for suitability and surroundings. There are several other places of amusement, including the Victoria Hall, Hibernian Hall, and Temperance Hall. There are several parks and reserves for the recreation of the inhabitants: Studley, Royal (with a good zoological collection), Yarra, Princes and Fawkner Parks, and Fitzroy Gardens (area 64 acres), Carlton Gardens, the Botanical Gardens (area 100 acres), the Treasury and the Flagstaff Gardens being the principal. Of these the Botanical Gardens, lying on the S. side of the Yarra and distant about a mile from the city, are by far the most extensive, and whether as a piece of landscape gardening, or as a valuable collection of choice plants and trees, reflect great credit on the designer and the curator. All the plants and shrubs have been labelled with their botanical names, the vernacular name, the discoverer's, or describer's name, the natural order to which they belong and their respective habitats. Next to this may be classed the Fitzroy Gardens, which are beautifully laid out, and have become of late years a place of frequent resort. They comprise a spacious reserve that, under judicious treatment, has been transformed from mere bush land to a cultivated garden. The ground is of an undulating character and intersected with watercourses; these features have been advantageously utilized, and now present a most pleasing appearance. There are avenues of English trees, and most of the indigenous plants and shrubs of Victoria and other colonies have here found a home. The dry and barren character of the soil has been met by a simple system of irrigation, and it is in a great measure to this that the present beauties of this pretty and picturesque garden are due. The centre portion of the Carlton or Exhibition Gardens was utilized for the purposes of the Centennial International Exhibition. The Exhibition was opened on August 1, 1888, and in the building which was used for a similar purpose in 1881–2. The permanent Exhibition building is cruciform, and consists of a nave, 500 feet long, running from east to west, and cut through its centre by a transept 270 feet deep, the ends of which are north and south; at the south end is the chief portal, a tall arch 40

feet wide and 60 feet high, reached by a flight of broad stone steps. On each side are square towers 105 feet high. Some 50 feet behind the portico, and at the point where the transept intersects the nave, rises the dome, octagonal in form, and reaching the height of 223 feet, some 130 feet above the main roof. At its base the central tower is 100 feet square. It is a popular place of amusement, cycling and military sports, and contains a fine aquarium. In this building will meet the first Parliament of the Commonwealth of Australia, special arrangements having been made to accommodate the legislators.

The SUBURBS of Melbourne are numerous, and have large populations. Some of the suburbs have attained to the dignity of cities. The suburban cities are Collingwood, Fitzroy, Footscray, Hawthorn, Prahran, Richmond, South Melbourne (formerly Emerald Hill), and St. Kilda. The other leading suburbs are North Melbourne, Brunswick, Essendon, Northcote, Port Melbourne, and Williamstown. Among other attractive suburbs may be mentioned Brighton, Kew, Heidelberg, Malvern and Camberwell.

Melbourne was incorporated on August 12, 1842, and erected into an Episcopal see on August 3, 1849, the present bishop being the Right Rev. Field Flowers Goe. The Roman Catholic archbishop is the Most Rev. Dr. Carr. The area of Melbourne proper is about 6,000 acres, containing 68,700 inhabitants, 15,000 dwellings, 17,880 ratepayers, 1s. town rate, 3d. lighting rate, and ratable property valued at £12,309,820; net annual value £1,317,110. The boundaries of what is locally known as the "city" are Flinders Street on the south, Victoria Street on the north, Spencer Street on the west, and Spring Street on the east. The population of greater Melbourne, covering 162,600 acres, according to the latest official information was 449,000. Few towns for the size are so well supplied with newspapers; there are two dailies, the *Argus*, and *Age*, one evening paper, the *Herald*; a great number of weeklies and monthlies, of which the chief are the *Australasian*, *Leader*, *Weekly Times*, *Australian Medical Journal*, *Australian Journal*, *Church of England Messenger*, *Alliance Record*, *Temperance News*, *Insurance and Banking Record* (monthly), *Southern Cross*, *Advocate*, *Sportsman*, *Punch*, *Financial Gazette and Insurance Chronicle*, monthly) *Table Talk*, *Sun*, *Spectator* (weekly).

MELTON (37° 40′ S. lat., 144° 35′ E. long.), a shire and post town, with money-order, savings bank, and telegraph-office, in the county of Bourke, and electorate of West Bourke, on the Toolam-Toolern creek, 24½ postal (23 rail) miles NW. of Melbourne. It is a railway station (1¼ mile from township) on the direct route to Ballaarat; fares, 4s. 2d. and 2s. 9d. Hotels: Raglan, Royal, Minn's, and Golden Fleece. Churches: Anglican, Presbyterian, Roman Catholic, Wesleyan, State school (No. 430), also one at Toolern, Digger's Rest, and Buttlejork; police-station, mechanics' institute, Royal Hall, National Bank opens last Saturday of each month. Court of petty sessions is held here. It is a farming and grazing district; 6,852 acres being under culture. Net annual value of ratable property in the shire, £15,433; area 101½ square miles, ratepayers 280, dwellings 215, rate 1s. Lighted with kerosene. Melton is well adapted for the recovery of invalids suffering from pulmonary affections; there are also highly curative mineral springs. There is a reservoir for water-supply. Formation: volcanic. In the township there are about 300 residents; shire, 1,316.

MENTONE (38° 5′ S. lat., 145° 34′ E. long.) is situated on Port Phillip Bay, in the county of Bourke, and electoral district of Dandenong and Berwick, shire Moorabbin, and is distant from Melbourne about 14½ miles SE. It is a station on the Frankston line; fares, 1s. 3d. and 1s.; return, 1s. 10d. and 1s. 6d. Has post, money-order, and savings bank office, telephone and telegraph station. State school (No. 2950), college, two private schools, Anglican, Presbyterian, and Roman Catholic churches, I O.O.F. lodge, cricket club, Erica Literary, Musical, and Dramatic Society, skating rink, gasworks, and several stores, also a racecourse. Mentone hotel. It is not only a favourite summer resort, but many Melbourne citizens have their residences there, and it is lighted with gas. Population, about 600.

MEREDITH (37° 48′ S. lat., 144° 10′ E. long.) (county and electoral district of Grenville and police district of Geelong) is a shire and post town, with money-order, savings' bank, and telegraph office, and a railway station on the Geelong and Ballarat line (fares, 12s. 8d. and 8s. 7d.), situated 1,126 feet above sea-level on the Coole Barghurk creek, 74½ miles W. of Melbourne, and 30 miles from Geelong. The hotels are the Royal, Railway, and Huntsman's Arms. The Meredithshire Council hold their meetings the first Wednesday in every month. Court of petty sessions is also held every month. Meredith has a State school (No. 1,420), English, Roman Catholic, and Presbyterian churches, a court-house and police station, butter factory, and a shire-hall. It is a great sporting centre for Geelong and Ballaarat holiday-seekers; rabbits and hares are very plentiful, and excellent fishing is to be had in the Moorabool river, which has been stocked with English trout and perch. Rifle Club. Elaine is 5½ miles distant. Woodburn Creek goldfield, is 4½ miles from Meredith, accessible by a very good road. A coach runs daily to Steiglitz goldfields township, distant 7 miles; fare, 3s. In the district 1,449 acres are under cultivation, the cereals being principally grown. Net annual value of ratable property in the shire, £13,553; area 181 square miles, 498 ratepayers, 273 dwellings, 1s. rate. Formation: Basalt overlying silurian. Population, 200; of the shire, 1,380.

MERINO (37° 43′ S. lat., 141° 40′ E. long.), a post town, with money-order, telegraph, and savings bank, in the county and electorate Normanby, police district Hamilton, shire Glenelg, on Merino creek, in the valley of the Wannon. It is a railway station on the branch line to Casterton, 231¼ miles W. of Melbourne, 30 miles W. from Hamilton, fares, 41s. 5d. and 27s. 8d. The hotels are the Railway Hotel, Commercial (coach booking-office), and Merino. A coach runs daily to Digby, 6 miles, 1s. each way. Episcopalian, Presbyterian, Roman Catholic, and Salvation Army place of worship, Freemasons' lodge (No. 33), A.N.A., State school (No. 2,115), and a mechanics' institute, with a library of 1,400 volumes; also a court-house, a branch of the Colonial Bank—a handsome two-storied building—stores, one steam flour-mill, and police quarters. Court of petty sessions is held fortnightly. Lighted with kerosene; water from creek and tanks. Indications of coal. There are numerous stations in the district. The soil is a deep rich black. Population, about 500; of the district, about 1,000.

MERRIANG SHIRE. *See* BEVERIDGE.

MERRIGUM (36° 30′ S. lat., 145° 15′ E. long.) (co. Rodney). post town, with money-order office, railway station and telegraph office, 117½ miles NE. of Melbourne; fares, 21s. 6d. and 14s. 3d. Has mechanics' institute and free library, St. Matthew's Anglican church and Wesleyan church, State school (No 1,874), butter factory, hotel, grain and blacksmith. Central station of numerous irrigation colonies. District agricultural, fruit-growing and pastoral. Population, 200.

MERTON (36° 55′ S. lat., 145° 50′ E. long.) is a village, with post-office, in the county and electorate of Anglesey, shire Mansfield, on Merton creek, 108¾ miles NE. of Melbourne, 1,085 feet above sea-level. It is a railway-station on the line to Mansfield from Tallarook; fares, 19s. 8d. and 13s. 2d. Hotels: Merton and Harp of Erin. The district is principally of a mining and pastoral character. It has a store, butter factory, Presbyterian and Roman Catholic churches, and one State school (No. 1,532); a school also at Brankeet West, 4 miles distant. Formation: slate and granite. Population, 184; of district, 250.

METCALFE (37° 6′ S. lat., 144° 25′ E. long.), post town and shire, in the county of Dalhousie, Castlemaine electorate, on the Coliban river, 70 miles N. of Melbourne. It is the headquarters of the Metcalfeshire Council, their meetings being held in the shire-hall every month. It has a State school (No. 851), and one inn, the Red Gum. The nearest railway stations are East Metcalfe, (5 miles), Taradale (7 miles), Malmsbury (8 miles), Elphinstone (7 miles), and Kyneton (12 miles). Presbyterian services held regularly in the shire-hall. District is chiefly pastoral. Net ratable value of property in shire, £23,379; area 213 square miles, ratepayers on roll 724, dwellings 578, rate 1s. Land under cultivation, 7,660 acres. Formation: granitic. Population about 70; of the shire, 3,760.

METUNG (co. and shire Tambo), post township, with telephone station, on Gippsland Lakes near Bancroft Bay, 213 miles E. of Melbourne. Hotel. Orangeries in district. Population 100.

MILAWA, (36° 28′ S. lat., 146° 33′ E. long.), a post town, with money-order office and telephone bureau in the county of Delatite, and electoral district of Wangaratta and Rutherglen, and police district of Benalla. The communication from Melbourne is by rail to Oxley, thence ordered conveyance, also coach to Wangaratta. Hotels, the Commercial and Emu. It lies 156 miles postal NE. of Melbourne, near the Teagarden Creek, between the King and Ovens rivers, and is the centre of an extensive agricultural and pastoral district. Grain from this neighbourhood is of excellent quality, and tobacco and hops are both largely grown. A court of petty sessions, police-station, savings bank, M.U.I.O.O.F. lodge, State school (No. 737), two churches—Episcopalian and Presbyterian, free library (1,641 vols.), and hall, two general stores, and butter factory with supplying creameries at Bobinwarrah, Tarrawingee, Everton, Laceby, South Wangaratta, Whorouly, and Carboor. Formation: diluvian. Population, 179; of the district, 500.

MILDURA (34° 13′ S. lat., 142° 12′ E. long.), a shire, Irrigation settlement, and post town, with money-order, Government savings bank and telegraph offices, county of Karkarooc, electoral district of Donald and Swan Hill, shire of Mildura, on the Murray river, 375 postal miles NW. of Melbourne. The means of communication are by rail to Swan Hill, thence coach or steamer, coach tri-weekly, steamer weekly during season; or rail to Morgan from Adelaide, thence steamer weekly. Mildura is the site of the first irrigation colony in Australia, established by the Messrs. Chaffey. More than £750,000 has been spent in clearing the surface of the ground, forming channels, erecting extensive pumping plant, building bridges, fencing, and making improvements generally. The company is now in liquidation. (*See* THE MILDURA IRRIGATION COLONY, page 237.) There are Anglican, Presbyterian, Roman Catholic, Church of Christ, Salvation Army, and Wesleyan places of worship, three State schools, and two private schools, National Bank, coffee palace, post-office, institute and free library (750 vols.), Customs-house, court-house (where assizes and general session courts are held), Masonic, Oddfellows', Foresters', Orange, I.O.R., A.N.A., and Druids' lodges, and several business premises. A hospital and horticultural society have been established, also three private clubs. In the shire of Mildura (area 4,564 square miles) the population is 3,000, the net annual value of ratable property is £23,341, 700 dwellings, 1,400 ratepayers, 1s. rate. The water supply is from the Murray river. It is controlled by a Board of six Commissioners, elected from the ratepayers (two to retire annually), who have appointed a general secretary, chief engineer, and head ganger to supervise the several departments. Extent of land under tillage, 7,206 acres; bearing vines, 2,401; deciduous and citrus trees, 5,000 acres; nursery, 50 acres; lucerne and other crops, 950 acres. Formation: tertiary, underlying estuarine deposits. Newspaper: the *Cultivator*, weekly. Population of town and district, 2,500.

MINER'S REST (37° 30′ S. lat., 143° 50′ E. long.), a postal township, with money-order and telegraph office, on Burrum-

beet creek, county Ripon, electorate Windermere, shire Ballan, 82¾ miles WNW. of Melbourne. The Pisgah railway station, on the branch line from Ballaarat to Waubra is 1¾ miles from the township, Miner's Rest station being 2¼ miles; fares to either station, 14s. 10d. and 9s. 11d. Hotel: Derby and Newmarket. State school (No. 1,739). Churches: Episcopalian, Roman Catholic, Presbyterian, and Wesleyan. Mechanics' institute and library, having 900 volumes. Large public hall, police-station. The Dowling Forest Racecourse adjoins the township. A coach runs daily to Ballaarat; fare 1s. Much farming is carried on in the district, and also some mining. Population, 326.

MINHAMITE SHIRE. *See* MACARTHUR.

MINYIP (36° 25′ S. lat., 142° 4′ E. long), a post town, with money-order and savings bank office and telegraph and railway station, 198¼ miles NW. of Melbourne, 33 miles NE. from Horsham, county and electoral district Borung, shire Dunmunkle. It is on the branch line from Murtoa to Warracknabeal and Hopetoun; fares from Melbourne, 35s. 9d. and 23s. 11d. Hotels: Commercial, Shamrock, Club, and Minyip. There are here Anglican, Roman Catholic, Presbyterian and Wesleyan places of worship—branches of the Colonial and Commercial Banks. Minyip is near the Mallee fringe, and in the centre of an extensive agricultural settlement, in which the cereals are largely grown. The soil is a rich chocolate. It has a court-house (petty sessions held fortnightly), police-station, public hall, mechanics' institute, and a State school (No. 2,167.) There are a number of tradesmen's premises, roller flour-mill and three implement manufactories. An Agricultural and Pastoral Society has been established here; also A.N.A. A Lutheran church is about 3 miles SW. The Dunmunkle water channel connects the township with the Wimmera river at Glenorchy (35 miles), giving a good water supply. Lighted with kerosene. Population, 350. Local paper: *The Minyip Guardian*, published on Tuesday.

MIRBOO NORTH, a township with post, telephone, savings bank, and money-order offices, county of Buln-Buln, and in the electoral district of West Gippsland, shire Mirboo. It is 108¾ miles SE. from Melbourne by rail; fares, 19s. 8d. and 13s. 2d. There are Anglican, Roman Catholic and Presbyterian churches, a branch of the Bank of Australasia, butter factory, four general and several smaller stores, Oddfellows' (M.U.), A.N.A. and Rechabite lodges. State school, Mechanics' Institute, where a court of petty sessions is held monthly, and a police station. The free library (with a splendid hall attached) contains 2,400 volumes. There are three hotels. The land is exceedingly rich, and all taken up by selectors for pastoral and dairying purposes. Every acre of land within ten miles is selected, in consequence of the soil being so fertile. There are gum and blackwood forests. Coal seams are frequently found. At a depth of 876 feet a seam of coal 10 inches thick was passed through by the diamond drill, and at 1,575 feet one of 24 inches was struck. Scarlett's seam, from 6 inches to 5 feet 3 inches, is about 2½ miles from the township, and several new seams have been discovered. Kaolin is also found in the Tarwin Valley. It is principally an agricultural and pastoral district. 378 acres being under cultivation. Population, 700; of shire, 1,500. Area of shire 77 square miles, 215 dwellings, 416 ratepayers, rate 1s, annual value of property, £12,745. Newspaper: *Gippslander and Mirboo Times*, published on Thursday.

MITCHAM (37° 49′ S. lat., 145° 12′ E. long.), a post township, with telegraph and money-order office, county of Bourke, electorate of Dandenong and Berwick, police district of Box Hill, shire Nunawading. It is a suburban railway station, 480 feet above the sea, on the Lilydale line, 13½ rail miles E. of Melbourne; fares, 1s. 2d. and 11d., return, 1s. 9d. and 1s. 4d. Hotels: Reserve and Hill. Two schools, State (No. 2,904), and Anglican, Roman Catholic, and Wesleyan churches, hall, M.U.I.O.O.F., Temperance society, Rechabite tent, and tile and pottery company, also artistic pottery company. District is suitable for brick-making and pottery; it is also well adapted for fruit growing, and is very healthy. Water from tanks. Population of town, 300.

MITIAMO (36° 15′ S. lat., 144° 15′ E. long.), a post town in Bullock and Piccaninny creeks, with money-order, savings bank and telegraph office, county Bendigo, electorate Mandurang, North-Western province and police district, shire E Loddon. It is a railway station (with refreshment rooms) on the Bendigo to Swan Hill line, 142¼ miles N. of Melbourne; fares, 25s. 7d. and 16s. 11d. Hotels: Railway and Royal Mail. State school (No. 2,657), and police-station. Churches: Bible Christian, Roman Catholic, and Church of England, Public hall. Coach runs to Rochester, *viâ* Wanurp, Pine Grove, and Diggora, on Monday, Wednesday, and Friday, also coach to Calivil same days. Commissioner for taking affidavits resides here. Has a large grain store. Agriculture and grazing are the pursuits of the district. Mitiamo is built on a sand hill in the midst of the vast Terricks plains. State forest in district. Sandstone, slate, a broken sort of quartz with iron, ironstone and copper ore are to be seen just under the surface of the sand hill. The old township was on Piccaninny Creek. Population, 200.

MITTA MITTA (36° 5′ S. lat., 146° 58′ E. long.) is a post town, with money-order office, telephone and savings bank, in the county of Bogong, electoral district of Benambra, shire Towong, and police district of Ovens. It is situated at the junction of the Mitta Mitta River and Snowy Creek, 245 miles NE. of Melbourne, the communication being by rail to Tallangatta, tri-weekly, and coach thence; single fare, 10s. Coaches run to Tallangatta and Snowy Creek. There are two hotels—the Laurel and Bridge, a mechanics' institute with 1,235 volumes, temperance hall, State school (No. 887), police camp, and one store. Churches: Wesleyan and Roman Catholic. Township lighted with kerosene. The district is a mining and agricultural one, the yield for 1899 being 5,132 ozs. Sluicing is largely carried on here. Tin and copper are found in the neighbourhood. The population of the town is 140, and of the district, 520.

MOE (38° 10′ S. lat., 146° 11′ E. long.), a township, with post, telegraph, savings bank, and money-order offices, in the county of Buln-Buln, electoral district of Gippsland West, and police district of Sale, lying 229 feet above sea-level. It is a railway station on the Gippsland Railway, distant 80 miles E. of Melbourne; fares, 14s. 3d. and 9s. 8d., and is the principal place in the shire of Narracan. It has one coffee palace, and the Moe and Club hotels. It is on Narracan creek, near its junction with the Latrobe river, and is the centre of a large agricultural district. The principal buildings here are the railway station, shire hall and court-house, police-station, mechanics' institute (900 vols.), three stores, State school (No. 2,142). Churches: Church of England and Wesleyan. Colonial Bank open Tuesdays and Fridays once a month. This district has been selected, under the 19th clause of the Land Act, but dairying, mining and grazing are the chief pursuits of the people. It consists principally of scrub land, in some parts heavily timbered, and of excellent quality. A few miles from Moe, at Coalville, are the Moe, and North Coalville mines. At Thorpdale, the terminus of the Narracan Valley railway line, which branches from here, several sawmills have been erected. Moe is the starting-point to the mining districts N. and E. of Walhalla. Coaches run to Walhalla (two daily), fare 10s. Formation: volcanic. Population, 250, of the district about 1,000. Newspaper: *Narracan Shire Advocate*, published weekly, on Saturdays.

MOLIAGUL (36° 45′ S. lat., 143° 40′ E. long.) (co. Gladstone, shire Bet Bet, electoral and police district Dunolly) on Burnt Creek, is a post town 115 miles (135 postal) NW. of Melbourne, from which the rail to Dunolly, thence the coach (coach fare, 2s. 6d.), or rail to Goldsborough, 5 miles distant, are the means of communication. Has hotel, State school (No. 746), and Anglican church. Water from reservoir. Mining operations were once carried on to a considerable extent here, but the alluvial deposits are now nearly exhausted. This gold-field has been worked since 1852, and some good finds have been made of late years. On the 5th February, 1869, the largest nugget found in Australia (the "Welcome Stranger") was discovered in Black Reef Gully, a few inches from the surface; its weight was 2,315 ozs. 17 dwts. 14 grs., and its value about £9,260. A granite monument erected by the Government marks the site. The formation is schist and quartz. It is an excellent orchard district. The population of the town is 189, and of the district about 1,000.

MOONAMBEL (37° S. lat., 143° 20′ E. long.), postal township, with money-order office, on Mountain creek (shire Avoca, county Kara Kara, electoral district of Stawell), 137 miles (135 postal) NW. of Melbourne, and about 56 from Ballaarat. Coaches arrive and depart daily for Waubra, fare 4s., St. Arnaud, Landsborough, and Avoca (leaves Avoca daily, 2.15 p.m.); fare, 2s.; nearest railway station 12 miles distant. Hotel: Commercial. A State school (No. 1,683), three churches—English, Roman Catholic (St. John's), and Wesleyan. There is a hotel and soap manufactory in the township. Court of petty sessions monthly. Mining and farming are the chief employments of the inhabitants. There is a flourishing vineyard here. Lighted with kerosene. Caves and mountain scenery. Population, about 250.

MOONEE PONDS (37° 46′ S. lat., 145° 0′ E. long.), in the county of Bourke, electorate of Essendon and Flemington, and police district of Essendon, is a ward in the town of Essendon, with post and money-order office, telegraph station, telephone bureau, and branch Melbourne savings bank, 4 miles NNW. from Melbourne. It is a railway station on the North-Eastern line; fares, 7d. and 5½d. Situated on the Saltwater river and Moonee Ponds creek. In addition to the trains, omnibuses run frequently to and fro; fare, 4d. It has a town hall, court-house, and police-station; four hotels, State school, (2,901), grammar and several ladies' schools, National Bank. Free library and reading-room. A.N.A., I.O.O.F., I.O.R., U.A.O.D., and Masonic societies. Church of England (2), Presbyterian, Roman Catholic, Primitive Methodist, Baptist, and Wesleyan churches. University Extension lectures. Rope works and hair factory. The streets are lighted with gas and oil. Water from Yan Yean. The Moonee Valley racecourse is situated here. There are also bowling-green Plumpton course, tennis court, bicycle track, artificial lake, and a splendid reserve with rosery and oil. Sandy soil. Population of neighbourhood, about 16,500. Newspaper: *Essendon Gazette*, published on Thursday.

MOORABIN SHIRE. *See* MORDIALLOC.

MOORABOOL (38° 10′ S. lat., 144° 21′ E. long.) is a post town with telegraph station, county of Grant, electoral district of Geelong, and shire Bannockburn. It is on the Geelong and Ballaarat line, a post office being at the railway station, 47¾ miles (by rail 51¾) SW. of Melbourne. Fares, 8s. 7d. and 5s. 8d. The viaduct here is one of the finest in the colony. District is agricultural and pastoral. Creamery. State school (No 1,497), United Methodist church. The alluvial flats along the river are very rich; outside these the soil is clayey, with a substratum of limestone, alternately with basalt and pumice stone. Height above sea-level 200 feet. Population, district about 100.

MOORILIM. *See* DARGALONG.

MOOROOPNA (36° 22′ S. lat., 145° 27′ E. long.), a township, with telegraph, savings bank, and money-order office, and rail-

way station on the Goulburn Valley Line, situate on the Goulburn river, 2 miles from Shepparton, in the county and electoral district of Rodney, 110 miles NNE. from Melbourne. The extension of the railway has been of great benefit to the district; fares, 19s. 8d. and 13s. 2d. Hotels: Royal Mail, Cricketers' Arms, Commercial (Local Option has closed several hotels). Wine cafés for sale of local wines. The land in the district is well adapted for farming purposes, and the finest wheat in the colony is grown in the neighbourhood. Branches of the Commercial and Australasian Banks, a State school (No. 1,432), Anglican, Presbyterian, Free Methodist, and Roman Catholic churches, Masonic and I.O.O.F. lodges, mechanics' institute (1,000 vols.), a hospital (containing 70 beds), Athenæum, lawn tennis court, canning factories, steam-roller flour-mill, steam saw-mill. During the past few years great attention has been paid to the cultivation of vines and fruit trees, over 1,000 acres being in cultivation. The wine and raisin-making industries are of considerable importance, and an extensive trade is done. The wines are considered to rank amongst the best Australian wines (the *Diplôme de Grand Prix*, Marseilles Exhibition, 1896 and 1897, also Grand Cross at Belgium, 1896, and Grand Prix and *hors concurs* at Nice, 1897, was awarded to the Excelsior Vineyard). A local cellar to hold 60,000 gallons of wine has been built, and is in full operation. The raisins and Zante currants have topped the Melbourne market for several years past. Amalgamated Fruitgrowers' Association. Several large apiaries have also been established and are paying well. All the land is irrigated by gravitation from the Rodney Trust channels, water being supplied at 6d. per inch per acre, or a quantity of 22,000 gallons. The water supply is most complete, the town being surrounded by a network of the Rodney Irrigation Trust channels. Steps are being taken to have a natural highway built from Mooroopna to Shepparton. Telephone communication is also being established. Population, 1,246, with vicinity, 2,000. Newspaper: *Goulburn Valley Yeoman*, published Thursday noon, is the official organ of the Goulburn Valley Vine, Fruit, and Special Products Association, &c., Frederick J. Camp proprietor.

MORANG (37° 38′ S. lat., 145° 8′ E. long.), a township on the Plenty river, in the county of Bourke, electorate of Bourke East, police district of Epping, shire of Whittlesea, situated on the Plenty river, 23 miles N. of Melbourne. It is a railway station on the Whittlesea line at South Morang, 18¼ miles NE. of Melbourne; fares, 2s. 3½d. and 1s. 8½d. Hotels: Bridge, Morang, and Commercial. State schools (No. 1,915) and at Morang South (No. 1,975). Presbyterian and Wesleyan churches, mechanics' institute, and a Rechabite hall in the district. There are many farms in the neighbourhood, and much land under cultivation. Water from Yan Yean and river. Formation, basaltic. Population, 111.

MORDIALLOC (38° 0′ S. lat., 145° 7′ E. long.), a postal township, with money-order, savings bank, telephone bureau, and telegraph offices on the creek of the same name and Port Phillip Bay, 17 miles SE. of Melbourne. It is in the county of Bourke, electoral district of Dandenong and Berwick, and shire of Moorabin. It is connected with Melbourne by rail; fares 1s. 5½d. and 1s. 1½d. Hotels: Rennison's, Bridge, and Coffee Palace. It is a favourite watering-place, and has a fine pier and baths. The creek and the bay, close to the township, make it very suitable for picnic, boating, fishing, and shooting parties. The Epsom racecourse is here, with a fine grand-stand and first-class appointments. Mechanics' institute, and library of 2,150 volumes, a State school (No. 846), Rechabite society, Anglican, Presbyterian, and Wesleyan churches. A number of stores and tradesmen's establishments. Town lighted with gas. The district is both pastoral and agricultural. Carrum swamp has been drained, and hundreds of acres of splendid land rendered available for cultivation. Area of shire 32 square miles. Population, 6,614; ratepayers, 2,750; dwellings, 1,608; net annual value of ratable property, £60,016. Land under cultivation, 9,342 acres. Population about 800.

MORNINGTON (Schnapper Point) (38° 14′ S. lat., 145° 4′ E. long.), county and electoral district of Mornington, shire of Mornington, is a watering-place, pleasantly situated on the south-eastern shore of Port Phillip Bay, 39 miles to the S. of Melbourne. It is in railway communication with Melbourne, fares, 6s. 6d. and 4s. 4d.; 9s. 9d. and 6s. 6d. return. Steamer in summer time, 3s. 6d. return. The hotels are Tanti, Royal, Kirkpatrick's and the Grand. There are an Athenæum (hall seats 400), with library of 2,256 volumes, a telegraph station, post-office savings bank, and money-order office; Colonial Bank; Churches: Church of England, Roman Catholic, Presbyterian and Wesleyan, also Salvation Army barracks. State school (No. 2,033), court-house, police-station, gaol, public baths, Masonic, A.O.F., Rechabite societies, and several stores, and the town is lighted with gas. A coach runs to Dromana, fare 3s., and on the arrival of each train a conveyance goes to Mount Martha fare 1s. 6d. The back country is principally of a pastoral character, and interspersed with farms. Good fishing in neighbourhood. Net annual value of property in shire, £14,550. Area, 35 square miles; ratepayers, 633; dwellings, 270; rate, 1s. Land under cultivation, 295 acres. Mornington shire was constituted on May 30th, 1893, and was originally called New Mornington. Formation: basaltic, ferruginous sand, and ironstone. Population of town, 920; and of shire, 1,350.

MORRISONS (37° 55′ S. lat., 144° 5′ E. long.), the postal centre of the diggings of the same name, as well as the Boroneyghurk, Morcep, and Ballark parishes, is situated on the river Moorabool, in the county and electorate of Grant, shire of Ballan, 79½ postal miles from Melbourne, and reached by way of Meredith or Elaine Railway Stations. Hotels: Prospector's and Golden River. Morrisons has a money-order office, two State schools (1,067 and 2,086), Episcopalian and Presbyterian places of worship, and four stores. Agricultural and mining district. The mining is entirely confined to alluvial workings. Formation: silurian, with recent surface drift. Population, about 280.

MORTLAKE (38° 6′ S. lat., 142° 47′ E. long.), a township, with post, telegraph, money-order and savings bank office, in county Hampden, electorate Ripon and Hampden, shire Mortlake. Western police district, 150¾ miles SW. of Melbourne, situated at the foot of Mount Shadwell, in the centre of an agricultural dairying and pastoral district. It lies 32 miles NNE. from the town of Warrnambool, whence the steamer can be taken for Melbourne, 12 from Terang, 53 from Hamilton, and 79 miles W. from Geelong. It is the terminus of the branch line from Terang; fares, 26s. 11d. and 18s. The hotels are Mac's (the C. T. A.'s hotel) and Mount Shadwell. There is a branch of the Bank of Victoria, a mechanics' institute, with a library of 4,000 volumes, also a public library and museum, four general stores, butter and cheese factory, and several tradesmen's shops. The places of worship are Anglican, Presbyterian, Wesleyan, and Roman Catholic churches. Mortlake has a court-house (petty sessions held weekly), police barracks, State school (No. 397), Temperance hall, M.U.I.O.O.F., Freemasons, flour-mill, and an extensive cattle yard, where monthly sales of stock are held. Coaches run to Warrnambool, tri-weekly; fare, 6s. 6d.; to Hamilton, daily, fare, 13s. 6d.; Woorndoo, tri-weekly, fare, 8s. Fine gravel pits of scoriæ (used for ballast) are opened on Mount Shadwell, and said to be the finest in Victoria. The water supply is raised by windmills from springs. Annual race meetings are held here by the Racing Club, and there is also a Coursing Club and a Rifle Club. The net value of ratable property of the shire was £86,224; area, 915 square miles; ratepayers, 581, dwellings 530, rate 1s. Lighted with kerosene. Land under cultivation, 1,854 acres. Population of town, 701; shire, 2,975. The geological formation of the district is volcanic. Newspaper—the *Mortlake Dispatch*, published on Wednesday and Saturday.

MORWELL (38° 10′ S. lat., 146° 18′ E. long.), a post town with money-order, savings bank and telegraph office, and a municipality in the county of Buln-Buln, electoral district of South Gippsland, police district Gippsland, shire Morwell, 88¾ miles E. of Melbourne. It is an important station on the Gippsland Railway, three trains daily to and from Melbourne; between Norwell and Mirboo one train daily, two on Wednesdays and Thursdays. It is at the junction of the line to N. Mirboo, 20 miles distant, near the Morwell river. Hotels: Club, Murdoch's and Cricketers' Arms. Churches: Anglican, Wesleyan, Presbyterian, and Roman Catholic, M.U.I.O.O.F., and A.N.A. societies. Banks: Colonial and Australasia. Mechanics' institute, also used as Court-house (501 vols.). There is a State school here (No. 2,136), and a Roman Catholic school. The town is on the river of the same name, in the county of Buln-Buln, 283 feet above sea-level. The land in the neighbourhood is of a fertile nature, and dairying is carried on extensively. There are 3,093 acres under tillage. Area of shire, 255 square miles; dwellings 520, ratepayers, 680; rate 1s.; net annual value of ratable property £22,502. There is good shooting and fishing and scenery in the neighbourhood. The diamond drill has proved a seam of brown coal near the township to be 810 feet thick, the largest known seam in the world. The Great Morwell Coal Mining Company's property which was once in full work has been sold. An extensive pottery is turning out excellent ware. Large deposits of ironstone have been met with. A court of petty sessions is held here once a month. Population, 800; of shire, 2,447. The geological formation is carboniferous. Local newspapers: *Morwell and Yinnar Gazette*, published on Friday, and the *Morwell Advertiser* on Friday.

MOUNT ALEXANDER SHIRE. *See* Fryerstown.

MOUNT ARAPILES. *See* Arapiles.

MOUNT BLACKWOOD. *See* Blackwood.

MOUNT CLEAR (co. Grenville, shire Buninyong), post township and rail station, 100 miles W. of Melbourne, has money-order office and telegraph station, shire hall, two hotels and stores. Agricultural and mining district. Population, 100.

MOUNT COTTERELL (37° 49′ S. lat., 144° 30′ E. long.) is a township, with post-bag near the river Werribee, in the county and electorate of Grant, 30 miles (35¾ postal) W. of Melbourne, 8 miles from Werribee, which is the nearest railway station, and 9 miles from Melton. It is the centre of a grazing and dairying district. There is a Wesleyan chapel and also a State school (No. 804).

MOUNT DORAN. *See* Elaine.

MOUNT DUNEED (co. Grant, Barrabool shire), postal township, 55 miles SW. of Melbourne. Has two churches and State school. Extensive views of Bass's Straits, Port Phillip, &c. Agricultural and pastoral district. Population, 150.

MOUNT EGERTON (37° 30′ S. lat., 144° 5′ E. long.), a postal village, with telegraph, savings bank, and money-order office, in the county and electorate of Grant, police district of Ballaarat, and includes the mountain whence it takes its name, which is about 2,400 ft. above the sea-level, and about 200 ft. above the township, and is 59¼ postal miles NW. of Melbourne. A coach leaves the Mount Egerton Hotel for Gordons Railway Station, about 2 miles; fare, 6d. There are six hotels. Agency London Bank weekly. State school (No. 1,918), a Catholic school, mechanics' institute, with library of 785 volumes. Churches: Anglican, Wesleyan, Presbyterian, Roman Catholic, Welsh and Congregational. The district is principally a gold-mining one. The Egerton mine has yielded over £1,250,000

worth of gold, and still continues to give good returns. Yield 1899, 7,928 ozs. Formation : silurian. Population of village and district about 2,500.

MOUNT FRANKLIN SHIRE. *See* HEPBURN.

MOUNT MERCER (37° 48′ S. lat., 143° 52′ E. long.), a post town, in the county and electoral district of Grenville. It is in Leigh and Buninyong shire, and is about three miles distant from the River Leigh, lies 93¾ miles (94½ postal) WNW. of Melbourne, and is reached by rail either *vid* Elaine (13 miles distant), thence horse, or Buninyong. The district is chiefly of a pastoral and mining character. It has one State school (No. 715). Mount Mercer is an extinct volcano, the mouth of the crater being half a mile in circumference, and containing a fine sheet of water. Mount Lawaluk, 1½ mile SE. of Mount Mercer, is a bold bluff rock, used as a trigonometrical station. Population 100. Formation : basalt.

MOUNT MORIAC (co. Grant, electoral district Barwon, shire Barrabool) is a post town, rail and telegraph station, 57 postal miles SW. of Melbourne; also steamers. In shire Barrabool, which comprises Barrabool, Duneed, Modewarre, Guarwarre, Paraparap, Jan Juc, and part of Puella. There are Shire Hall, seven State schools, police-station, five hotels, and Roman Catholic (2), Anglican, Presbyterian, Wesleyan (5), and Bible Christian churches, and Temperance hall Lime and freestone quarries. Water from private tanks and cisterns. Agricultural and pastoral district. Formation : volcanic. Area of shire, 195 square miles, 12,297 acres under cultivation, chiefly hay and oats. Population of town and shire, 2,019; ratepayers, 594; net annual value of ratable property £24,761 : rate, 1s.

MOUNT PROSPECT (co. Talbot), a post town 85¾ miles NW. of Melbourne. Reached by rail to Newlyn, coach thence 3 miles. Has State and Roman Catholic schools. Roman Catholic and Presbyterian churches, A.N.A. society and hall, and two hotels. Agricultural and mining district.

MOUNT ROUSE SHIRE. *See* PENSHURST.

MOUNT ROWAN (37° 50′ S. lat., 143° 36′ E. long.) is a post town between Ballaarat and Creswick, in the county of Ripon, and electorate of Ballaarat, about 90 miles (78½ postal) W. of Melbourne, which is reached by coach to Ballaarat, rail thence. It has State school (No. 757), one store. Mining, agricultural and pastoral. There is a small, rather scattered population of about 200.

MOUNT WILLIAM (37° 30′ S. lat., 142° 40′ E. long.), a postal township in county Borung, shire Ararat, reached by rail to Wickliffe Road Railway Station, thence coach, 16 miles. Coaches run to Glenthompson, Ararat, and Stawell. It is a new mining field lying about 180 miles north-west of Melbourne. A big rush set in to it during 1900, and there are about 4,000 miners on the field. There is every prospect of the field being a great success.

MOUNT WYCHEPROOF. *See* WYCHEPROOF.

MOUTAJUP (37° 39′ S. lat., 142° 11′ E. long.), a postal town and railway station on the Wannon river, which runs in a westerly direction through the vicinity, in the county and electoral district of Dundas, 184¾ miles W. (185½ postal) of Melbourne, with which place there is daily communication ; fares, 33s. 1d. and 22s. 1d. A State school (No. 1 618) is in the township. The district is principally of an agricultural character, a small portion only being utilized for pastoral purposes. It is in close proximity to Mount Sturgeon and Mount Abrupt, in which are quarries of freestone of excellent quality, and is only a few miles from Victoria Forest, where is procured the greatest portion of the timber used for building and fencing in this part of the western district. Population about 120.

MOYSTON (37° 20′ S. lat., 142° 45′ E. long.), in the county of Borung, shire Ararat, police district of Stawell, is situated within a short distance of the Little Wimmera river, 10 miles E. of Mount William, and has post, money-order, and savings bank office. Melbourne lies 141½ postal miles SE. Ararat, 10 miles distant E., is the nearest railway station, whence a coach runs daily ; coach fare, 2s. 6d. Hotels : Bull and Mouth and Southern Cross. A reservoir, for dry seasons, will hold 5,400,000 gallons, is half a mile distant. There is a mechanics' institute in the township, having a library of 660 volumes ; four churches, Episcopalian, Wesleyan, Presbyterian, and Roman Catholic (St. Bernard). One State school (No. 1,263.) The Court of Petty Sessions is held once a month. The district is an agricultural and pastoral one. Population, town and district about 350.

MUCKLEFORD (co. Talbot, shire Maldan) is a railway station, with post and telegraph station, 86¾ postal miles N. of Melbourne, on the Muckleford Creek. Has Congregational and Bible Christian churches and State school. Railway is two miles distant, and Muckleford South post office is 10½ miles distant. Agricultural district. Population, 160.

MULGRAVE SHIRE. *See* OAKLEIGH.

MURCHISON (36° 37′ S. lat. 145° 16′ E. long.), in the county and electoral district of Rodney, Waranga shire, is a post-town, with money-order, telegraph, and savings bank office, on the west bank of the river Goulburn, 91¾ miles N.E. of Melbourne, located in the centre of a farming and grazing district, 401 feet above sea-level. It is on the Goulburn Valley line, stations at Murchison and East Murchison ; fares, 16s. 5d. and 11s. Eight hotels : Bridge, Commercial, and others. Murchison has branches of the Victoria and Commercial Banks. It is an agricultural and pastoral district, and is one of the chief wheat and barley growing centres of the colony. The land is especially adapted for fruit growing, and a considerable trade has sprung up in peaches, apricots and grapes, and the early season enables the growers to put the fruit on the market shortly after Christmas. Water supply from Broken River. Population, 1,000; of district, 1,500. Newspaper: *Nathalia Herald*, published Tuesdays.

NATIMUK (36° 32′ S. lat., 141° 38′ E. long.), a postal town, with savings bank, money-order and telegraph office, situated 1½ miles from Lake Natimuk, in the county of Lowan, electorate of Horsham, shire of Arapiles, 218¼ miles NW. from Melbourne, and 15½ miles W. from Horsham, with which it is connected by rail. Fares from Melbourne 39s. and 26s. 1d. Natimuk is the junction of the new railway line to Goroke, distant 27½ miles and Noradjuha line 8 miles distant. Hotels: The Natimuk and the National. Within the township are a flour-mill, Anglican, Presbyterian, Wesleyan, Roman Catholic and two Lutheran places of worship, Mechanics' Institute, with a large hall (1,878 vols. in library), Masonic, Orange, Oddfellow and Rechabite lodges, Progress Association, Rifle Club, branches of the Colonial and National Banks, State school (No. 1,548) and German school, court-house, police-station, Beard and Sisson's foundry, four stores, and a number of tradesmen's shops. The town is supplied with water by reticulation from the Wartook reservoir, and lighted with kerosene. There is an Agricultural and Pastoral Society, which has a well-appointed show-ground. The Natimuk district is known throughout the Wimmera as the "Garden of the Wimmera." Mount Arapiles, three miles distant, is a mount of considerable beauty. There are numerous lakes in the district abounding in wild duck. Formation: limestone. Population, 400. Newspaper: *West Wimmera Mail*, published every Friday.

NATTE YALLOCK (36° 56′ S. lat., 143° 30′ E. long.) is a small postal village, in the county of Kara-Kara, shire Avoca, on the River Avoca, 140 miles NW. from Melbourne; tri-weekly mail. There is one hotel (the Commercial), State school (No. 1,347), a Wesleyan place of worship, creamery, and a general store. Avoca, 12 miles distant, is the nearest railway station. Agricultural and pastoral district. Good fishing and shooting. Population, about 250.

NAVARRE (36° 52′ S. lat., 143° 8′ E. long.), county and electorate of Kara-Kara, a post town on Wattle creek, 152 miles (172 postal) NW. of Melbourne. Nearest railway stations, Avoca (28 miles SE.), and Stawell (25 miles SW). Coach to St. Arnaud or Stawell Railway Stations, fare 5s., rail thence to Melbourne. Landsborough is 8 miles distant. There is a State school (No. 1,330), where service is held, public hall, creamery, blacksmith, and a store in the township. The district is a pastoral and an agricultural one, the soil being sandy, with a clay bottom. Population about 300.

NEERIM (co. and shire Buln-Buln), postal township with telephone and railway station at Neerim South (6 miles) on Warragul line, to which coach; 75 miles NE. from Melbourne. Has two mechanics' institutes (with aggregate of 1,193 vols.), State (No. 2,666) and private schools, English, Union and Wesleyan churches, two saw-mills, M.U.I.O.O.F. lodge, police-station, and creamery. Commercial Bank opens Saturdays. Water from Redhill Creek. District is agricultural, mining, and pastoral. Population of town and district, about 600.

NEILBOROUGH (36° 35′ S. lat., 144° 16′ E. long.), a post town, in the county of Bendigo, electorate of Mandurang, and police district of Bendigo, on Elysian Creek, 115 miles (123¼ postal) NW. of Melbourne and 16 miles N. from Sandhurst. Sebastian, 3 miles distant, on the Kerang line, is the nearest railway station. Hotels: Shamrock and Stirling Castle. State school (No. 2,085). Service is held by Wesleyans. Water supply from Coliban scheme. Mining and agricultural district; of lower silurian formation. Population 150.

NERRINA (LITTLE BENDIGO) (co. Grant, shire Bungaree), mining township 1½ miles NE. of Ballaarat. It is reached by rail to Ballaarat East, thence cab. Has two hotels and State school. Population of district, 400.

NERRING (SAILOR'S GULLY) (37° 58′ S. lat., 146° E. long.), a township, with post-bag, in the county of Ripon, electoral district of Ripon and Hampden, 129 miles (109 postal) NW. of Melbourne, about 5 miles from the Beaufort Railway Station. There are here the Sailor's Gully hotel, and a State school (No. 857). Mining and pastoral district, very little agriculture. Formation: Quartz ranges. Population—town, 50; district, 100.

NEWBRIDGE (36° 44′ S. lat., 143° 54′ E. long.) is a postal town, in the county of Bendigo, shire Marong, electorates of Maldon and Dunolly, police district of Maryborough, situated on the River Loddon, 121 miles distant from Melbourne N. and 5 miles E. of Tarnagulla. Llanelly is 2 miles distant, and is the nearest railway station; a coach runs daily to Bendigo, 25 miles, 5s. Newbridge has two pretty reserves, two hotels, branch of the Union Bank (weekly), a State school (No. 457), two places of worship—Anglican and Presbyterian; mechanics' institute with public library having 600 volumes; also brick works, a cheese factory, two stores, and a police station. Lighted with kerosene. Laanecoorie Weir is five miles distant. Pastoral and agricultural district, little mining. Formation: bluestone and granite. Population, about 240.

NEWBURY (GARLICKS) (36° S. lat. and 145° 30′ E. long) (co. Dalhousie, shire Kyneton), township (with post bag) on Blue Creek, 68 miles NW. of Melbourne. Reached by rail to Trentham, coach thence. Coach runs to Blackwood. Good scenery in the district. Has two hotels, State school (No. 1,287), Anglican and Wesleyan churches, and Assembly Hall. Water from wells and tanks. Mining, agricultural, and pastoral district. Population of district, about 250.

NEWHAM UNITED SHIRE. *See* WOODEND.

NEWHAM (37° 20′ S. lat., 144° 40′ E. long.), a post town and shire at head of Saltwater River, counties Bourke and Dalhousie, 55 miles N.W. of Melbourne, with which the communication is by coach to Lancefield or Woodend Railway Stations; through fare, 12s. 3d. Hotels: Newham and Hanging Rock. Agricultural, dairying and pastoral district. There is a ham and bacon factory and creamery, and a State school (No. 1,913), and Presbyterian, Wesleyan, and Baptist chapels. The Hanging Rock, a great natural curiosity, attracts many visitors to this spot. Population 140.

NEWHAVEN (38° 35′ 5″ S. lat., 145° 21′ 51″ E. long.) is a postal town, in the county Mornington, shire Phillip Island, and police district of Mornington, lying 64 miles (65 postal) SE. of Melbourne, in the SE. part of Phillip Island, Westernport Bay. It is an agricultural and fishing township, having a post-office, rocket station, and a State school (3,053). Communication, rail from Melbourne to Stony Point, and steamer thence, 9s., return, 12s. Formation, volcanic. Population, 51.

NEWINGTON (co. Grenville, shire Bellarnie), post town, 53½ miles SW. of Melbourne. Reached by rail to Ballaarat West, thence coach 1½ mile. Has numerous stores, hotel (with strawberry and pleasure grounds), free library, Anglican and Wesleyan churches, benevolent asylum, State school. Agricultural and pastoral district.

NEWLYN (144 E. long., 37° 25′ S. lat., co. Talbot, shire Creswick) is a railway station with post, telegraph, savings bank and money-order office, 90 rail miles NW. of Melbourne on Birch's Creek; fares 16s. 5d. and 11s. It is 10 miles from Daylesford, and has two hotels, mechanics' institute, free library (600 vols.), State school (No. 453), Presbyterian, Wesleyan, Episcopal, and Roman Catholic churches, butter factory, and stores. Chaff cutting and hay pressing industries. Formation: volcanic. Agricultural district. Population, 400.

NEWMARKET, a railway station on North-Eastern line, 2½ miles from Melbourne, single fares 3d., 2d.; return 4½d., 3d. Metropolitan cattle sale yards and a number of training stables are in the district. Is the live stock depôt of Melbourne.

NEWPORT, at junction of Melbourne, Williamstown and Geelong railways, is a portion of the municipality of Williamstown, but the site of the Government railway workshops being here and a number of important manufacturing industries being established gives it a local importance. Newport is connected by rail with Melbourne, distant 6¾ miles SW.; fare, 8d. and 6d. There are post, money-order, savings bank, telegraph offices, and telephone bureau; Anglican, Presbyterian, Wesleyan, and Baptist churches and a¦ State school, Freemasons', M.U.I.O.O.F., I.O.O.F., G.U.O.O.F., I.O.R., A.N.A. and U.O.O.F.G. lodges, and a branch of the Commercial Bank. The chief hotels are the Newport, Junction and Strand. Newport is making very rapid progress, and promises to be a leading manufacturing centre. The new railway workshops are in operation with a staff of about 1,000 men. Extensive wharfage has been erected at the mouth of the River Yarra, and it is intended to form a timber depôt here. Spottiswoode forms a portion of this locality and contains Metropolitan Board of Works pumping station, and the principal agricultural implement factories. Beds of brown coal have been found by boring to a depth of 400 feet. Newspaper: *The Times*.

NEWRY (co. Tanjil, shire Maffra), post township, 6 miles NW. of Maffra. Reached by rail to Tinamba, coach thence. Has State school, Mechanics' Institute, two churches, and cheese factory. Centre of Maffra wheat district. Population 300.

NEWSTEAD (37° 7′ S. lat., 144° 6′ E. long.), a post town, and shire with telegraph, savings bank, and money-order office, and railway station, in the county of Talbot, electoral district of Maldon and police district of Maryborough. It lies 710 feet above sea-level. It is on the Loddon river, 84½ miles (93¼ postal) NNW. of Melbourne, on the line between Castlemaine and Maryborough; fares to Melbourne 16s. 8d. and 11s.; coach to Creswick and Allendale daily. Principal hotels: Newstead, Crown, and Railway. Among the public buildings is a Mechanics' Institute, with a library of 600 volumes. There are several alluvial and quartz diggings in the neighbourhood, and mining interests have very much revived during the year; Byron Reef, Loddon Leads, Green Valley, and Sandy Creek mines are showing good results. There is also a large breadth of land under cultivation. There is one steam flour-mill, a State school (No. 452), police-station Anglican, Presbyterian, and Primitive Methodist churches, Baptist and Church of Christ services held in mechanics' institute, and branch of National Bank, Oddfellows', Rechabites', and A.N.A. societies. Court of petty sessions is held here. Town is lighted with kerosene; water from wells. Net annual value of property in the shire, £14,074; area, 100 square miles; 465 dwellings, 480 ratepayers, 1s. rate. Land under cultivation, 6,903 acres. Formation: lower silurian, with recent drift. Water supply from wells. Population of town, 400; shire, 2,370. Newspaper: *The Echo*, weekly.

NEWTOWN and CHILWELL. *See* GEELONG.

NHILL (36° 20′ S. lat., 141° 25′ E. long.), a post town, with telegraph, money-order and savings bank office, in the county, shire and electoral district of Lowan, North-west Wimmera police district, 24 miles NW. from Dimboola, and 248 miles NW. of Melbourne. It is the capital of Lowan shire, and is a station on the railway line to the South Australian border; fares to Melbourne, 44s. 4d. and 29s. 7d., to Adelaide 37s. 6d. and 24s. 9d. Hotels: Union, Treasury, Farmers' Arms, Royal and Commercial. Banks: Commercial, Victoria, and National. There are Anglican, Presbyterian, Roman Catholic, and Wesleyan churches, a State (No. 2,411) school, mechanics' institute, with library of 1,361 vols., hospital, Orange, Rechabites', Freemasons', A.N.A. and M.U.I.O.O.F. societies, two medical men, Lowan roller flour-mill, butter factory (with subsidiary creameries), four stores, and five blacksmiths' and many other tradesmen's shops. The water supply is pumped from a well 112 feet deep into a tank of 40,000 gallons capacity, and thence conveyed through streets by reticulation. The Lowan Shire Council meets here once a month. Handsome public buildings have been erected, consisting of post and telegraph office, a court-house, and shire offices, and a police station. Streets and business places lighted by electricity. Water supply from wells. It is one of the most important agricultural and pastoral districts in the Wimmera. In the shire of Lowan there are 104,158 acres under tillage, 67,219 under wheat. Area of shire 1,623 square miles. Population 4,145, ratepayers 934, dwellings 676, rate 1s. Annual value of ratable property £35,186. Coaches run to Netherby and Lorquon. Population, 1,500. Newspapers: *Nhill Free Press* and *Nhill and Tatiara Mail*, published twice weekly.

NILLUMBIK. *See* DIAMOND CREEK.

NOORAT (38° 14′ S. lat., 142° 57′ E. long.), a post town, in county and shire Hampden, Ripon, and Hampden electorate, 141 miles W. of Melbourne. Nearest water, Emu Creek (3 miles). It is on the main road between Terang and Mortlake, being 3¼ miles from the former. A coach runs to Terang, thence rail to Melbourne. Hotel: the Mount Noorat. State school (No. 1,178), Presbyterian church, a large public hall, capable of seating 300 people, a free library (450 vols.), and butter factory. There are several large cheese factories at work. The district is of volcanic formation, suitable for grazing and farms. The neighbouring station (Mount Noorat) has been cut up into dairy farms. Population of town, 200.

NORADJUHA (36° 54′ S. lat., 141° 53′ E. long.), a post town, with money-order, telephone and savings bank office, and railway station, shire Arapiles, county Lowan, electoral and police district of Horsham, situated at the junction of the Horsham, Natimuk, Balmoral, and Tooan roads, 6½ miles S. of Natimuk and 20¼ miles SW. of Horsham. It is the terminus of the branch line from Horsham, and is distant by rail from Melbourne 223¾ miles WNW. Fares, 40s. 1d. and 26s. 11d. Hotel: the Commercial. There are here a State school (No. 1,930), mechanics' institute and reading room (633 vols.), Bible Christian place of worship (Church of England services are held fortnightly), a store, and several tradesmen's shops. Sittings of the council of the shire of Arapiles. Coach to Harrow, *viâ* McDonalds', Oarchap, Clear Lake, and Douglas, three days a week, 10s. It lies in the centre of one of the best wheat-growing counties of the Wimmera. Population, 100.

NORTHCOTE (37° 46′ S. lat., 145° 3′ E. long.), a municipal town on the Merri-Merri Creek (county and police district of Bourke and electorate of E. Bourke boroughs). It is in the suburban radius, and has four railway stations on the Preston and Whittlesea line, 4 miles NE. of Melbourne; fares, 4½d. and 3d. return. Tram communication is *viâ* Brunswick or Smith Streets to Northcote Bridge, fare, 3d.; thence cable tram to northern boundary of town, penny sections. There are post, telegraph, savings bank, and money-order offices. It has six hotels; branches of the National and London Bank of Australia, two State (No. 1,401) and private schools, public library, two Anglican, three Wesleyan, Primitive Methodist, Presbyterian, Independent Presbyterian, and Roman Catholic churches, large bacon-curing establishments, a tannery, and two extensive brick yards. The Yan Yean affords the water supply. A quantity of dairy produce is raised in the district. Area of municipality, 2,850 acres; 1,770 dwellings, 3,800 ratepayers, 2s. 3d. rate, and annual value of ratable property £52,450. Formation: basaltic and gravelly. Population, 9,000. Newspaper: *Northcote Leader*.

NORTH LILLIMUR. *See* LILLIMUR.

NORTH MELBOURNE, formerly called HOTHAM (37° 48′ S. lat., 144° 58′ E. long.), a suburb of Melbourne (North and West Melbourne electorate), under separate municipal government, on the NW. side of the city, to and from which cabs, trains, and tramcars run at frequent intervals; fare, 3d. It has six branch banks: Victoria, National, English Scottish and Australian (2 branches), and Melbourne Savings, several Insurance offices, seven churches, among them St. Mary's and St. George's (Episcopal), a Presbyterian church, with a tower and spire 150 ft. high, Wesleyan and Bible Christian chapels, about 74 hotels, Free Library and Mechanics' Institute (8,952 vols.), town hall building of considerable size, with a tower and spire 150 ft. high, six schools, three State schools (Nos. 2,566, 307, and 1,402), private schools, Masons', Druids', Oddfellows', Rechabites' Hibernian and A.N.A. lodges; also post, money-order, and telegraph office. In the town is situated the Melbourne Benevolent Asylum. There are 3,930 inhabited dwellings, 4,459 ratepayers, and ratable property in the municipality (area 565 acres), of net annual value, £103,376; rate, 1s. 9d. in the £. Several manufactories are here, also implement works, chaff-cutting machine works, flour-mills, furniture manufactory, photo-process establishment, &c. Town lighted with gas and electric light. Water from Yan Yean. The Royal Park and Zoological Gardens are in the vicinity. Population, 17,800. Newspapers: *Gazette* and *Courier*.

NORTH OVENS SHIRE. *See* ELDORADO.

NORTH PRENTICE (co. Bogong, shire Rutherglen), mining township. Has church, State school, hall, and police-station. Coach daily to Rutherglen.

NORVAL (late OPOSSUM GULLY) (37° 16′ S. lat., 142° 52′ E. long.), postal township, about 4 miles from Salt creek, and 136 miles NW. of Melbourne. It is in the county of Ripon, police district of Wimmera, and Ararat shire and electorate. It has hotel, Presbyterian church, State school (No. 1,068). The nearest railway station is at Ararat, 5 miles, reached by private vehicle. Mountain scenery. The district is a mining, viticultural and agricultural one. Water from Government reservoir. Population about 260.

NUMURKAH (37° 5′ S. lat., 145° 26′ E. long.), a post town, with money-order and savings bank office and telegraph station, 133¼ miles NE. of Melbourne. It lies on Baala Creek, 353 feet above sea-level, in the county of Moira, Numurkah shire and water trust, Numurkah and Nathalia electorate, and North Eastern police district. It is a station on the Goulburn Valley railway line; fares, 23s. 11d. and 15s. 10d.—junction of Nathalia and Cobram lines. It is the starting point of coaches to Katamatite and Yarrawonga. Banks: Australasia, Commercial, and Victoria. Farmers' Arms, Telegraph, Shamrock and Victoria are the chief hotels, of which there are ten, and there is a number of stores and tradesmen's premises. It possesses an Agricultural Society, Progress Association, Relief Society, a Turf club and a Coursing club, dramatic club, rifle club, a mechanics' institute, with large hall fitted with appliances for concert and dramatic purposes, library (2,450 vols.), reading-room, police camp, sub-treasury, Masonic lodge, M.U.I.O.O.F., I.O.O.F., I.O.R., and A.N.A. societies, and law courts. Anglican, Presbyterian, Bible Christian, Wesleyan, and Roman Catholic churches, Salvation Army, State school, also Roman Catholic and private schools, and shire hall. The water supply is from Baala Creek, the water being pumped into settling ponds, then into a tower 70 feet high, from which it is conveyed by pipes through the principal streets of the town. Lighted with kerosene. Has a drainage scheme, with settling tanks, to be worked with a sewage-farm, thus keeping the creek unpolluted. The area of the shire is 765 square miles, annual value of ratable property £78,362, 1,300 dwellings, 1 430 ratepayers, 1s. rate. It is an important agricultural, pastoral, and horse-breeding district, there being (March 1, 1900) 158,102 acres under cultivation, the chief crop being 91,416 acres wheat. Population, 1,011; of the shire, 7,600. Local

papers, the *Standard*, published Wednesdays; *Leader*, Fridays, both eight-page penny papers.

NUNAWADING SHIRE. *See* BOXHILL.

OAKLEIGH (37° 54′ S. lat., 145° 7′ E. long.), in the county of Bourke, electorate of Dandenong and Berwick, shire Mulgrave, police district of Bourke, is a borough, 136 feet above the level of the sea, with post, telegraph, savings bank and money-order office, on Scotchman's Creek and the Dandenong road, 9¼ miles SE. of Melbourne. The Gippsland Railway passes through Oakleigh; fares, 9d. and 6d.; return, 1s., 9d. It was the junction for the outer circle and Rosstown railway lines, but not at present running. Coaches run daily to and from Wheeler's Hill and Black Flat. There are three hotels, a court-house, shire hall, Borough chambers, post office, mechanics' institute (800 vols.), five churches, Episcopalian, Roman Catholic, Independent, Wesleyan, and Presbyterian, and a State school (No. 1,601), a Roman Catholic school, and a convent, Foresters', Hibernian, I.O.O.F., M.U., St. Andrew's, and A.N.A. lodges. Bank: English and Scottish. The soil is adapted for gardens and orchards. The township is lighted with gas. The Yan Yean supplies water. Net annual value of ratable property in the borough, £12,107; area, 2,178 acres, 291 dwellings, 815 ratepayers, rate 1s. 9d., area of shire, 25½ square miles; net annual value of ratable property, £19,106. Land under cultivation, 2,823 acres. Formation: silurian rock, overlaid with sandy loam. Pigment earth being worked. Population of shire, about 1,684; of borough, 1,400. Newspaper: *Oakleigh Times*.

OCEAN GROVE (38° 15′ S. lat., 140° 30′ E. long.), county Grant, electoral district of Bellarine, police district Drysdale, is a post town on the River Barwon, 60 miles SW. of Melbourne, with money-order office, savings bank, telegraph station. There is a State school (No. 3,100), Wesleyan and Anglican churches and the Ocean Grove House. Coaches run to Geelong, 5s. return; Queenscliffe, 4s.; steamer and coach, ticket to Melbourne, 7s. 6d. return. The district is agricultural. It is a charming seaside resort. Reached by rail to Geelong, coach thence; or steamer from Geelong or Queenscliffe. There is good fishing and fowling. In visiting season the population reaches 300.

OMEO (37° 6′ S. lat., 147° 40′ E. long.), mining township (2,100 feet above sea-level) and shire, with post, savings bank, telegraph, and money-order office on Livingstone creek (county and electorate of Gippsland East), about 250 miles ENE. of Melbourne, and reached by rail to Bairnsdale, and coach thence daily (80 miles); in summer weekly coach runs to Bright, thence train. Hotels: Golden Age, Omeo, and Hilltop. Banks: Colonial and Commercial. The Public Library here has 3,000 vols. State school (No. 831), South Omeo (No. 1,734). Presbyterian, Anglican, Wesleyan, and Roman Catholic churches; also lands office, courthouses and gaol, public library, two public halls, Masons', Natives', Miners', Oddfellows' and Rechabites' lodges, and substantial hospital. Town lighted with kerosene. Water from dam in Livingstone Creek. The auriferous areas of the district have been considerably developed during the past few years. During 1899 the total output of gold was 16,387 ozs. The alluvial deep leads on the Dargo High Plains, 30 miles to the westward, promise to become one of the important factors in the gold production of the colony, several companies being engaged in proving the leads, with very satisfactory results. On the quartz fields at Cassilis Tongio West, Sheepstation, and Mount Wills large numbers of men are employed, and the average yield of the stone is high, being over an ounce to the ton. Close to the township of Omeo the alluvial deposits, worked profitably many years ago and then abandoned, have again been taken up by companies for dredging. Some portion of the district, which is mountainous, is parcelled out in runs. On March 1, 1900, 5,696 acres were under tillage, principally for oats, wheat, potatoes, and hay. Net annual value of ratable property in Omeo shire (area 2,211 square miles), £37,000; 1,500 dwellings; 1,278 ratepayers, 1s. 3d. rate. Population 900, of shire, 5,580. Local paper: *Standard*, published twice weekly.

ONDIT. *See* BEEAC.

ORBOST (38° S. lat., 148½° E. long.), a post town, with money-order, savings bank and telegraph offices, in the county of Croajingolong, shire Orbost, electoral district of East Gippsland, police district of Bairnsdale, on the Snowy River, 227 miles E. of Melbourne. Communication is by rail to Sale, steamer to Cunninghame, and thence by coach, fare, 12s. 6d., return 20s.; or rail to Bairnsdale and to Cuninghame, coach thence to Orbost; also *viâ* Bruthen weekly. Schooners also trade regularly to Orbost. Commercial bank. Anglican churches; Presbyterian and Roman Catholic services held in mechanics' institute. Has hotel, State school, private school, mechanics' institute, and library of 622 volumes, Rechabites' and Oddfellows' lodge, two large saw-mills, one at Orbost and one at the Brodribb river, flax, butter and cheese factories, and four commodious general stores. Lighted with kerosene. It is an agricultural and pastoral district. One of the principal maize-growing districts in the colony, 3,169 acres being under maize during 1900, the product of which was 56,467 bags. The river flats, comprising over 20,000 acres, are extremely rich. Marlo, at the junction of the Brodribb and Snowy Rivers, 10 miles distant from Orbost, is a beautiful spot, and being on the South Pacific Ocean is likely to become a favourite watering-place. Area of Orbost-shire 3,721 square miles, with 503 dwellings, 855 ratepayers, 1s. 3d. rate, and net annual ratable property £17,074. Gold yield, 1899, 3,088 ounces. Formation: sandstone and schist, river flats alluvial. Population, about 500, of shire about 2,700. Newspaper: *Snowy River Mail*, published on Saturday.

ORFORD (38° 9′ S. lat., 142° 10′ E. long.) is a post town (postal notes issued) in the county of Villiers, electorate of Port Fairy, shire of Minhamite, and police district of Warrnambool. It lies on the Shaw river. 201½ postal miles W. of Melbourne, whence it is reached by coach, which runs daily, from Port Fairy, fare, 3s. single, 5s. return, 16½ miles distant NE. It is in coach communication with Macarthur, 3s. 6d., and Hamilton, 8s. 6d. A forest in the vicinity (the only timber saved from ruthless destruction) is a picnic resort. Hotel: Horse and Jockey. It has a creamery, Roman Catholic, Wesleyan and Presbyterian churches, and a Stateschool (No. 1,898). The district is an agricultural and pastoral one, and has a light sandy soil, with masses of bluestone on the surface. Population about 70.

ORVILLE (POSSUM HILL), (36° 45′ S. lat., 143° 40′ E. long.), a township, with postal bag, in the county of Gladstone, electorate of Dunolly, situated on the Orville creek, 140 miles NW. of Melbourne. There is a daily mail from Dunolly to Rheola *viâ* Orville; fare, 3s. 6d. State school at McIntyres, 1½ mile off. 'Possum Hill rush was opened in September, 1875. Large nuggets have been found here at various depths: one weighing 300 ozs., and another 150 ozs. Granite and cement formation. The village is well supplied with water from a reservoir holding 2,000,000 gallons. District mining, agricultural and pastoral. Population, 30.

OXLEY (36° 28′ S. lat., 146° 27′ E. long.) is a post town and shire, with money-order office and railway station, on the King river, in the county of Delatite, electorate of Wangaratta and Rutherglen, and police district of Benalla, lying 153 postal miles NE. of Melbourne. It has hotel, State school (No. 1,399) 2 miles away—on the Wangaratta side of King river—and Baptist church; Protestant hall, also a shire hall. Agriculture is largely carried on in the district, much of it having rich chocolate soil and rich alluvial river flats. Three miles east of Oxley is Milawa, to which town a coach runs daily. By the agricultural statistics for the year ending March 1, 1900, there were 19,080 acres under cultivation, 9,872 being under wheat. In the shire (area 1,005 square miles) the annual value of property is £34,027, with 750 dwellings, 1,117 ratepayers, and 1s. rate. Population, 53; of shire, 3,764.

PAKENHAM (38° 6′ S. lat., 145° 31′ E. long.), a post town, with savings' bank, money-order office and telegraph station, on Toomuc or Bourke's Creek, in the county and electorate of Mornington, police district Bourke, 8 miles from Berwick, 35 miles SE. from Melbourne, and 94 feet above the level of the sea. It has railway communication with the metropolis, fares, 5s. 6d. and 3s. 9d. Coaches on Mondays, Wednesdays and Fridays to South Gembrook, 2s., West Gembrook, 2s. 6d., Upper Gembrook, 3s. 6d. Hotels: Bourke and Gembrook. State school (No. 1,359) and Roman Catholic school. Roman Catholic, Anglican, and Baptist churches, mechanics' institute (600 vols.). Commercial Bank, open Thursdays; Racing Club. In the neighbourhood are Gembrook (12 miles distant) and Beenak, new settlements, both noted for heavy timber and beautiful fern-tree gullies. Salvation Army have a prosperous farm. Water supply; underground tanks. The railway station and new township are 1½ mile from the old one. Township is lighted with kerosene. Population in township, 300; district, about 400; principally engaged in grazing and dairying.

PALMERSTON (county Buln-Buln, shire Alberton). Village adjoining Port Albert (which *see*). Coach runs to Sale. Has police-station.

PANMURE (38° 19′ S. lat., 142° 41′ E. long.), in the county Hampden and electorate of Villiers and Heytesbury, a post town, with telegraph station, and money-order and savings bank office, on Emu Creek, 150¾ (152 postal) miles W. of Melbourne, 16 miles NE. of Warrnambool, and 14 miles SW. of Terang. A station on Warrnambool railway (one mile from township); fares, 27s. 2d. and 18s. Hotel: Commercial, and one store and several shops. A State school is here (No. 1,079), saw-mill, Oddfellows' lodge, mechanics' institute and library, having 568 volumes, police station, also branch of Colonial Bank. Churches: Presbyterian, Roman Catholic and Anglican. The district is heavily wooded. The Hopkins Falls and the Black's River Falls are in the neighbourhood. Formation: volcanic. Population in town, 300; with vicinity, about 600. Adjoining Panmure is the district of Laang.

PANTON HILL (co. Evelyn, shire Eltham), post township, 24 miles NE. of Melbourne. Reached by rail to Heidelberg, coach thence. Has two hotels and church. Mining district. Population 120.

PARKVILLE is a suburb of Melbourne, 1½ miles N. It has post, money-order office and savings bank, and telegraph facilities. Communication is by tramcars, which run at frequent intervals along the Sydney Road. It is a very pleasant locality, and is a favourite place of residence of many citizens, lighted with electricity. In the vicinity is the Royal Park, where the Acclimatisation Society have an excellent Zoological collection, which is much resorted to. The University with its increasing number of colleges and hostels forms a very striking feature of the district. Has hotel, Presbyterian church. Population, about 2,700.

PARUPA. *See* LAKE BOLAC.

PAYNESVILLE (co. Tanjil, shire Bairnsdale), post and telegraph station on Gippsland Lakes, 10 miles from Bairnsdale. Has three hotels, State school, church and mechanics' institute. Steamer to Bairnsdale. Population 450.

PENSHURST (37° 51′ S. lat, 142° 16′ E. long.), a township, with post, telegraph, savings bank, and money-order office, county of Villiers, electoral district Dundas, police district Hamilton, shire Mount Rouse, 169 miles (209½ postal) from Melbourne W., situated at the base of Mount Rouse. It is 16 miles from Hamilton, SE., 40 miles from Belfast N., and 43 miles from Warrnambool N. Penshurst is a railway station and junction on the lines from Hamilton to Koroit, Warrnambool, and

Port Fairy; fares, 37s. 4d. and 25s. Hotels: Penshurst, Prince of Wales, Cricketers' Arms, and Victoria. Area of shire 537 square miles, 450 dwellings, 465 ratepayers, 1s. rate; net annual value of ratable property £58,728; land under cultivation 2,819 acres. There is one tannery, butter factory, and four stores in the town, four churches, belonging to the Presbyterians (with manse), Roman Catholics (St. Joseph), Anglican, and Wesleyans, a State (No. 486), and Roman Catholic schools, a shire hall, mechanics' institute, with library of 1,276 volumes, Temperance hall, and a courthouse. Court of petty sessions is held monthly. Banks: the Victoria and National. Lodges of Oddfellows, A.N.A., H.A.C B.S., Rechabites, and Racing, and Rifle Clubs. Coaches run to Mortlake and Caramut. The water supply is derived from a spring in the centre of the town. Lighted with kerosene. Mount Rouse is an extinct volcano, 1,213 feet above the level of the sea; it belongs to the town, and is used as a place of recreation for the inhabitants. Formation: volcanic. Population 600, shire 2,200

PERCYDALE (37° 3′ 15″ S. lat., 143° 15′ E. long.) is a post town in the county of Gladstone and electorate, shire and police district of Avoca, on Fiddler's creek. It lies on the E. slope of the Pyrenees Mountains, about ¼ of a mile from the foot of the range, 132 miles NW. of Melbourne, 13 miles N. of Amphitheatre, 7 miles S. of Moonambel, and 7 miles NW. of Avoca. The communication with Melbourne is by coach to Avoca, fare 1s., rail thence; through fare, 15s. Sun Kum Hing hotel. State school (No. 1,042), Episcopalian and Wesleyan churches, store. The district is a mining one (both quartz and alluvial). Agricultural, viticultural and pastoral interests are also represented to some extent. Formation: sandstone and silurian. Population, 125.

PHILLIP ISLAND SHIRE. *See* SAN REMO.

PIGGOREET (37° 40′ S. lat., 143° 31′ E. long.), a post town, with telegraph, money-order, and savings bank office, on Woady Yallock creek, 96 postal miles W. of Melbourne, in the county and electorate of Grenville, police district of Ballaarat. It is reached by taking train to Newtown, thence coach, three miles to Piggoreet. Coaches run to Scarsdale, fare 1s. Hotel: Coach and Horses. There are also several sheep stations in the district. There are Presbyterian and Roman Catholic churches, public hall, a State school (No. 726), and a mechanics' institute, with library of 710 vols. Volcanic valley with quartz ranges, on which several reefs are being worked. Population, about 300.

PIMPINIO (36° 35′ S. lat., 142° 9′ E. long.), a postal township, county Borung, electoral district Horsham, shire Wimmera. It is a telegraph and railway station on the Dimboola line, 10 miles N. of Horsham, and 213¼ miles Melbourne, fares, 38s. 2d. and 25s. 7d. Hotel: Railway. It has Wesleyan and Anglican churches, mechanics' institute and public library (1,000 vols.), store, blacksmith's shop, butter factory, machinery valued £1,000, and a State school (No. 1,439)—two others in district. Water from Trust dams. Agricultural pursuits are followed in the district. Population about 120.

PIRRON YALOAK (38° 20′ S. lat., 143° 28′ E. long.), a postal township and railway station, with telegraph office, on the Pirron Yaloak creek, which empties itself into Lake Corangamite, which also abuts on the township. It is in the electorates of Polwarth, Villiers, and Heytesbury, shires Colac and Heytesbury, police district of Colac. It lies 105¾ miles SW. of Melbourne. State school (No. 1,242); Bible Christian and Roman Catholic churches. Hotel: Mamre. The communication with Melbourne is by rail; fares, 18s. 10d. and 12s. 8d. The soil, which is black on gravel, affords rich grazing and agricultural land. Onions and potatoes largely grown. The most striking features of the place are the extensive stony rises indicative of terrible volcanic action; and Lake Corangamite, the largest lake in Victoria, and probably one of the saltest in the world. Its excessive saltness is doubtless mainly due to the retention of the total of its original saline ingredients within vastly contracted limits. Dairying, grazing, rabbit-trapping industry. Population, 150; of district, 600.

PISGAH (co. Ripon, shire Ballaarat), railway station on Ballaarat to Waubra line. Wilson's training stables and Dowly Forest racecourse in vicinity.

PITFIELD (37° 50′ S. lat., 143° 37′ E. long.), in the county and electoral district of Grenville, postal township, with telephone station, on Woady Yallock creek, about 104 miles W. of Melbourne, and about 45 miles from the Leigh-road Railway Station, on the Geelong and Ballaarat line. Coaches run to Ballaarat, fare 2s. 6d.; to Leigh Road, fare 5s.; and to Newtown 12 miles distant, from which places train can be taken to Melbourne. Two wine halls, branches English and Scottish and the Commercial Banks, State school, Wesleyan and Roman Catholic churches, branch A.N.A. There are several diggings within a short distance on the north and north-east, and considerable quantities of gold have been obtained during the past 12 months, and also a considerable tract of cultivated and grazing land in the district. Basaltic formation. Newspapers: *Kaleno Banner* and *Pitfield Miner*. Population of district about 1,800.

PLEASANT CREEK. *See* STAWELL.

POOTILLA (co. Grant, shire Buninyong), post township NW. Melbourne. Reached by rail to Bungaree, conveyance thence. Has two hotels and creamery. Agricultural district. Population 200.

POOWONG (38° 15′ S. lat., 145° 56′ E. long) (co. Mornington, shire Poowong and Jeetho), post town, with money-order office, savings bank, 62 miles SE. of Melbourne. Reached by rail to Loch, thence mail coach 5 miles. Has Athenæum, with library, butter factory, hotel, Anglican, Wesleyan, and Presbyterian churches, and State school (2,111). Agricultural and pastoral district. Formation: Sedimentary, belonging to the Mesozoic period.

POOWONG AND JEETHO SHIRE. *See* JEETHO.

PORCUPINE FLAT (37° S. lat., 144° 10′ E. long.), township, in the county of Talbot, and electoral district of Maldon, 92 miles NW. of Melbourne. Hotels: Racecourse and Brighton. It has post-office, money-order office, telegraph station, a State school (No. 1,676), and a racecourse (Maldon). Maldon, 2½ miles distant, is the nearest railway station. Coaches run to Dunnolley. It is a mining and agricultural locality. Population, about 150.

POREPUNKAH (37° S. lat., 147° E. long) (county Bogong, shire Bright) is a railway station with post office, about 193 miles NE. of Melbourne, on the Ovens river. It has public hall, in which Wesleyan and Church of England services are held, band, a State school (No. 1,144), free library and hall (520 vols.), two hotels, saw-mills, and two hop kilns employed by hop gardens in vicinity; tobacco grown. Coach runs to the Bucklands. It is a mining district. Mount Buffalo and Buckland Falls in district. Beautiful valley scenery. Formation: silurian. Population of township and district about 500.

PORT ALBERT (38° 41′ S. lat., 146° 45′ E. long.), county of Buln-Buln, electoral district of Gippsland S., shire Alberton, is a seaport town, with post, telegraph and telephone, money-order office, and savings bank, and situated at the mouth of the Tarra river, 137¼ miles SE. of Melbourne, with which there is communication by steamer weekly, also rail direct, 136½ miles, fares 24s. 7d. and 16s. 5d. Hotels: Ship Inn and Port Albert. The churches are Church of England and Wesleyan, and there is a State school (No. 490), Custom-house, receipt and pay office, land office, powder magazine, courthouse, and mechanics' institute, with library of 762 volumes. The entrance to Port Albert is over a mile wide. It is a pastoral and agricultural district, flax, fruit, maize, oats, &c., growing well. Coal has been proved to exist and of good quality. Port Albert is one of the principal fishing grounds whence the Melbourne market is supplied. Pliocene and Tertiary formation. Population, 230; of district, 3,000.

PORTARLINGTON (38° 6′ S. lat., 144° 42′ E. long.) is a post town, on Port Phillip Bay, with money-order, telegraph, and savings bank office, county of Grant, electorate Barwon, shire Bellarine, and police district Geelong. It lies 65 miles S.W. from Melbourne, at the foot of the Bellarine Hills, in a southerly direction by land, and is reached by rail to Drysdale, *viâ* Geelong, on the Queenscliff line, thence by coach or by steamer from Melbourne direct, 25 miles across the Bay. Coach to Geelong daily, to Queenscliff daily in summer months. There are three hotels—the Grand, the Family and the Bay View, a State school (No. 2,455), Episcopalian, Roman Catholic, Presbyterian, and Wesleyan churches, a branch of the Colonial Bank, three general stores, several tradesmen's premises, steam chaff-cutting works, a public library of 3,000 volumes, and Masonic, Foresters' and Sons of Temperance societies. The district is an agricultural one, and has achieved some celebrity for the fine onions it produces; in the summer it is thronged with visitors from Geelong, Melbourne, and up-country, it being an excellent seaside watering-place. Public baths have been erected, increasing the attractions of Portarlington. It has a good jetty, with fine public gardens adjoining, and there are pleasant drives to Drysdale, St. Leonards, Queenscliff, Point Lonsdale, and Clifton Springs. Formation: volcanic iron and limestone. The population numbers 852 in the town, and the district over 2,500. Newspaper: *Bellarine Herald*.

PORT CAMPBELL, (37° 4′ S. lat., 144° 12′ E. long.), otherwise CAMPBELL'S CREEK, is a seaport with post, telegraph and telephone office, and savings bank, situated nearly midway between Sherbrooke river and Hesse Point, 15½ miles NW. by N. from Moonlight Head, and 161⅛ miles SW. of Melbourne, county Hampden and shire Heytesbury, electorate of Villiers and Heytesbury; police district of Warrnambool. Communication is by rail to Timboon, fare 6s. 11s. and 18s.; thence by coach, 11 miles, to Port Campbell, fare 5s. Hotel: Commercial. The harbour is an inlet of the sea, of no great magnitude or depth of water, nor is it very easy of entrance. It is an agricultural and pastoral district, with exceptionally rich soil. A jetty has been constructed for the convenience of taking in cargo. It has creamery and cheese factory, mechanics' institute (300 vols.), rocket house, two State schools (No. 2,946), Newfield (No. 2,991), Port Campbell North, Union Baptist and Presbyterian churches, Anglican services are also held; store, a creamery, &c. Cliff scenery. *Loch Ard* disaster happened near here. Formation: limestone. Population of township and district, 550.

PORT FAIRY, formerly called BELFAST (38° 23′ S. lat., 142° 14′ E. long.), a seaport town in the county of Villiers, electoral district of Port Fairy, shire Belfast, at the mouth of the river Moyne, to and from which steamers ply at frequent intervals. There is also railway communication with Warrnambool, 20⅝ miles distant and with Hamilton. Port Fairy is connected by rail with Melbourne 186¼ miles WSW. of the metropolis; fares, 33s. 7d. and 22s. 4d., besides holiday excursion trips, at greatly reduced prices. Coaches between here and Macarthur daily, and to and from Portland three times a week. Special shipping facilities are provided, the rails being laid to the river wharves. Hotels: the Commercial, Caledonian, Victoria, Market, Star of the West, White Hart, Bank, Union, Tennyson's, and others in the suburbs. It has money-order, savings bank and telegraph offices. The harbour is called Port Fairy. Sea-going vessels drawing 11 feet of water are loaded and discharged at the wharf stores in the middle of the town. Five dairy factories in full working

order. The fishing industry is also growing, and visitors have the opportunity of visiting the "Julia Percy" Island in the fishing yachts; also has preserving factory for tinning fish, rabbits, poultry and vegetables; refrigerating works. A large trade in wool, grain, and general produce is done with the Koroit, Tower Hill, Macarthur, Orford, Yambuk, Tyrendarra, Penshurst, Hamilton, and Coleraine districts. It is the principal shipping port of the western district, and from here large quantities of produce find their way to Melbourne. The town is quadrangular in form, and contains a number of good buildings, which comprise churches belonging to the Episcopalian (St. John's), Presbyterian (St. Andrew's), Wesleyan, and Roman Catholic (St. Patrick's) bodies; the branches of the Australasia, Colonial, Victoria and Commissioners' Savings Banks, the Hospital, mechanics' institute (this last has a library of 2,600 volumes), the Lecture and Oddfellows' Halls, and Orderly room. The schools comprise the State (No. 1,188), capable of accommodating 500 children; Roman Catholic, and several private schools. The area of the borough is 5,902 acres, with 383 dwellings, 451 ratepayers, 2s. rate, and ratable property of the annual value of £11,244; in the shire of Belfast, the ratable property is of the annual value of £37,317, area of shire 201 square miles, 600 dwellings, 700 ratepayers, 1s. 4d. rate. The Government buildings comprise a court-house, a custom-house and post and telegraph offices (in which are the Lands office and Treasury). Petty Sessions are held every Friday, whilst County, Supreme, and General Sessions Courts are held periodically. As a watering place Port Fairy is now attracting a number of country visitors; the bathing accommodation is good, adjoining it are golf links, also the Borough Council have provided first-class bathing establishments in the centre of the town, including hot salt-water baths; whilst the natural salt-water bathing places on the coast are superior to any in the Colonies, being securely protected by reefs, and can be used free of charge. The Crags, a favourite resort on the ocean shore, is situated a few miles from the town, and fine fishing obtains. The Botanical Gardens cover an area of nearly 25 acres, and are looked upon as very superior by visitors. The town is lighted with gas. By the returns made up to March 1, 1900, 14,521 acres were under cultivation in the shire. The Tower Hill, a remarkable volcanic mountain, with a perfect, extinct crater, standing in the Tower Lake, is 9 miles NNE. of Port Fairy. It is entirely surrounded by water, and is much frequented by sightseers. Formation of district: basaltic, with limestone ridges cropping out in many places. The population of the borough is 1,900, that of the shire 2,700. Newspaper: *Port Fairy Gazette*, every Tuesday and Friday.

PORTLAND (38° 21′ 30″ S. lat., 141° 41′ E. long.), a seaport town in the county of Normanby, electoral district and shire of Portland, police district of Hamilton, 40 feet above the level of the sea, under municipal government, on the west coast of Portland Bay, 225 miles (250½ by rail) SW. of Melbourne, about the same distance SE. from Adelaide; 53 miles from Hamilton SW., 57 miles from Coleraine, 47 from Merino, and 63 from Casterton, all towns of some importance to the N. and NW. Warrnambool is 60 miles distant E., and Belfast 43 miles E. Portland is by rail in direct communication with the metropolis. Fares, 44s. 11d. and 30s. 1d. There is steamer communication at frequent intervals during the week, and at very low fares. Coaches run three times a week to Port Fairy, and twice a week to Bridgewater. Hotels: Mac's, London, Gordon, Royal, Club, Richmond, and others; there are also several first-class boarding houses. Portland was founded by Messrs. Edward and Stephen Henty, who arrived on November 19, 1834; it is consequently the oldest settlement in Victoria, excepting Old Settlement Point, on the shores of Western Port Bay, where for nearly 12 months detachments of the 3rd and 30th regiments, under Captain Wright, were located in the year 1826. Portland was first used as a whaling depôt. On November 13, 1840, the township was officially described as consisting of "one good house and six decent cottages, besides a few huts, and contains a population of at least 100 souls." It has also been described as "pretty, though quaint looking;" is on the high road to the west, overlooking the bay, "one of the loveliest in the world, extending in a crescent-like form from one high headland to another, dipping in the centre of the curve to a little above sea-level." The bay is 24 by 12 miles, capable of affording anchorage to the largest fleet in the world, and is the natural outlet for an immense tract of back country, comprehending many millions of acres of rich agricultural and pastoral land. There is ample jetty accommodation for the loading and discharge of vessels, and the harbour accommodation will eventually be much improved by the construction of a breakwater, which will run out a distance of 1,000 yards from the shore. A tender has been accepted by the Government for the construction of a new deep-water pier, and the work, which is anticipated to cost £20,000, will be completed before the end of 1901. This will allow the largest ocean-going steamers to moor alongside and to take in frozen meat from the Portland and Western District of the Victoria Freezing Co., which has complete works and latest machinery. The additional wharfage is expected to prove very serviceable also in wheat and wool export, and will make Portland an important port of shipment. The boat harbour, which has cost over £40,000, affords good shelter to all the craft in port. Additional railway facilities are also to be provided. The Union, Savings and Victoria Banks have branches, and the leading insurance companies have agencies. Portland possesses a well laid-out botanical garden. There are a treasury, post-office, customs house, and court-house, also numerous stores, two bark mills, two saw-mills, three tanneries, a handsome State school (No. 489) and two others (Nos. 1,194 and 1,393), and a Catholic school in the district, four private schools, including the Portland College, Loretto Convent, a club, benevolent asylum, free library of 2,500 vols., several places of worship, belonging to the Church of England, Presbyterian, Roman Catholic (All Saints), Wesleyan and Baptist communities, and other public buildings. Swimming and hot-water baths, second to none in Australia, have been provided by the corporation, at a cost of £4,500. They are of large area, and well fenced against the intrusion of sharks, and fitted up in a very complete manner, rendering them equal to any in the colony. Among the social institutions are lodges of the following societies:—Masonic (No. 6 V.C), Foresters, and Oddfellows (M.U.), Sons of Temperance, Good Templars, Rechabites, W.C.T.U. and Fishermen's Union. The Portland Horticultural Society is a prosperous institution, holding two shows annually. There is also a Racing Club, and a Battery of Militia. The town is lighted with gas. The water supplied to the town is derived from Artesian wells. In the municipality (area, 2,865 acres) are 479 dwellings, 577 ratepayers, 1s. 8d. rate (2d. of which is devoted to maintenance of benevolent asylum and hospital and the Ladies' Benevolent Society), the value of ratable property being £13,745, the area of the shire is 1,607 square miles, and annual value of ratable property £62,000, 1,600 dwellings, 1,670 ratepayers, 1s. rate. To the north-west of the town lies the valley of the Wannon (to which there is a branch line of railway from Branxholme), and still further west, but within easy reach of the bay, lies the Mount Gambier district, second to no part of Australia for productiveness. The chief exports are fish, wool, tallow, hides, bark, butter, and recently wheat, corn, hardwood, fruit, bluestone, lime, and the different sorts of agricultural produce. In the shire 8,744 acres were under cultivation during 1900, of which wheat occupied 2,332 acres. The population is 2,200; of the shire, 5,550. The *Guardian* (the second oldest paper in the colony), published Monday, Wednesday, and Friday, and the *Observer*, Monday and Thursday, are the local newspapers.

PORT MELBOURNE, formerly called SANDRIDGE (37° 52′ S. lat., 144° 58′ E. long.), the port of Melbourne, is situated on Hobson's Bay, about 1½ miles to the S. of the city; by road it is 2½ miles. It is in the county of Bourke, is an electoral district of itself, and is the police district of Port Melbourne, and is connected by rail with the metropolis. Fares, 3d. and 2d. The original Hobson's Bay line, after frequent negotiations, was sold to the Victorian Government in June, 1878. There is also good road communication, and tramcars run to and fro every few minutes; fare, 3d. Cabs run at intervals. Principal hotels: Royal Mail, Lord Raglan, Railway Club, Pier, Chequers, London and Ship Hotel; there are about 48 in all. The municipal area is 2,366 acres, with 2,500 dwellings, and property valued at £814,764, net annual value, £67,765, 2,500 ratepayers, 1s. 6d. rate. All properties were connected with Melbourne and Metropolitan sewerage system in 1898. There are post, telegraph, savings bank, and money-order offices; branches of the National and Australasia Banks, and Melbourne Savings Bank; also two State, and a denominational school (R.C., St. Joseph's), Roman Catholic, Anglican, Presbyterian, Wesleyan, and Primitive Methodist churches, Temperance hall, and Seamen's Bethel. Lodges — Masonic, A.N.A., Druids, Oddfellows, Foresters, Free Gardeners, Orange, St. Andrew's, H.A.C.B.S., and several others. The business of the town is dependent on the shipping in a great measure, but the factories employ a number of persons, and many of the residents have business occupations in Melbourne. There are two fine piers, the railway and the town pier, jutting a long way into the bay, alongside which ships of almost any tonnage can lie, and be rapidly loaded or discharged, there being numerous steam cranes for that purpose. The Orient, P. and O., M. M., and Norddeutsch Lloyd mail steamers are berthed at the railway pier. There is an extensive biscuit factory (Swallow and Ariell's), Poolman's sugar refinery, Kitchen's soap and candle works, Cuming, Smith, & Co.'s chemical works, Harper's rice and flour mills, also gasworks, Joshua's distillery, boot factory, Sailors' Rest, and free reading room, a library of 1,100 vols., Police Court House, Council Chambers and Town Hall. Court of Petty Sessions sits daily. The streets of the town are wide, and laid out at right angles. Port Melbourne is well drained and the streets lighted with gas, the footpaths being mostly either flagged or asphalted. In the early days of the colony it was known as Liardet's Beach. Geological formation: sand with substratum of red clay, sandstone and occasional ironstone. Population, 11,000. The *Standard* (published weekly) is the local paper.

PORTSEA (38° 20′ S. at., 144° 40′ E. long.) is a post town with money-order, savings bank, and telegraph office, in the county and electorate of Mornington, police district of Bourke, situated on the E. side of Port Phillip Heads, 68 post miles SE. of Melbourne, and 37 miles in a direct line by water. Fare, by coach, 9s.; by steamer in summer, 2s. 6d. return 4s.; from Mornington, 7s.; also steamer every Thursday at 10 A.M., fare 5s. single, 7s. 6d. return. There are two hotels here, Nepean and Portsea, a State school (No. 2,929). A coach runs daily to Dromana, fare 4s. Limestone is abundant and prevalent, and there are numerous kilns, the best lime of the colony coming from here. The Quarantine station is about miles from here. Portsea has two frontages, one facing Queen cliff, the other Bass' strait. The back beach (Southern Ocean), within 1 mile from Portsea, on which stands "London Bridge Caves, a great natural curiosity. The fine headland Point Nepean, at the entrance to Port Phillip Heads, can reached by foot from Portsea in less than an hour, Ports being much nearer the Heads than any other watering-plac From Portsea a magnificent panoramic view of land and sea

to be seen, embracing Cape Schank and its lighthouse, Pulpit Rock and St. Paul's on the left, and Barwon Heads and the Cape Otway ranges on the right. Batteries at Point Nepean and at Point Franklin defend the entrance to Port Phillip Bay. During the season Portsea is visited by people from all parts of the colony, its reputation as a sanatorium being high. It is also one of the most fashionable watering-places on the shores of the bay. Formation: limestone. Population 120, many of whom earn a livelihood at lime-burning.

PRAHRAN (37° 51′ S. lat., 145° 1 E. long.) is an important metropolitan suburban city, contains postal, telegraphic, and money-order offices, with a branch of the Government Savings Bank, suburban to Melbourne, lying about 3¾ miles SE. It is a distinct municipality, and has been since the 21st February, 1856; was created a borough, October 17th, 1863, a town, May 13th, 1870, and proclaimed a city on 1st July, 1879. The city area is 2,320 acres, with 9,150 dwellings, 9,113 ratepayers, and ratable property of net annual value of £337,551, 1s. 7d. rate. The main roads to Dandenong, Gippsland, and Western Port pass through Prahran, and a good road with a fine massive iron girder bridge over the Yarra connects it with Melbourne. There is railway communication by the Melbourne and Brighton Railway; fares, 5½d. and 4d.; also by the Oakleigh and Frankston lines. The cable tramcar system runs from Prince's Bridge *viâ* the St. Kilda Road, and South Yarra through the chief street, Chapel Street, fare, 3d. A branch of the cable tramway runs to Toorak. A line of 'buses also runs to Malvern Shire Hall from the Prahran Town Hall about every 14 minutes, by way of High Street. The local town-hall is a commanding building, and has a good free library of 11,000 vols.; its tower forms a landmark for many miles round and the main hall is capable of accommodating 1,400 persons. There are numerous other public buildings of a charitable, educational, and ecclesiastical character. Chapel Street and Toorak Road, the main thoroughfares are woodblocked, bordered with some handsome shops and places of business. There are five State schools, handsome recreation grounds have been laid out on Mount Erica, High Street, and in Greville Street, close to the Town Hall, which do much to beautify the neighbourhood. A large area of ground close to Toorak Station has been purchased and reserved by the Corporation for a recreation reserve. Many of the streets are lined with handsome trees, such as elms and silver poplars. The city of Prahran has adopted the system of wards, and the municipal authorities have effected many improvements, particularly in drainage. The outskirts of the municipality are adorned by very many elegant private houses, the residences of merchants and others in business in Melbourne. Banks: Savings, National, Australasia, Victoria, and Commercial. Population, 36,500. The Prahran *Telegraph* and the *Chronicle*, Saturday, are the local papers.

PRESTON (37° 43′ S. lat., 145° 2′ E. long.) a shire and town, with two post offices, a money-order, and two telegraph offices, in the electorate of Bourke East, and county of Bourke, situated between the Merri and Darebin creeks, 6½ postal miles NE. of Melbourne. It has six hotels, State school, Wesleyan, Episcopalian, Presbyterian, Baptist, and Roman Catholic (with school) churches, a library of over 1,600 vols., two police stations, shire hall holding 600), and three other public halls, one pottery, a soap factory, several tanneries, large brick factories, and ham and bacon curing establishments. Reached by tram and train (four stations); fares, return, 4½d. and 3d. The reservoir here in connection with the Yan Yean waterworks has a storage capacity of 17 million gallons of water. The town is lighted with gas. It is a suburban district. A Court of petty sessions is held here. The shire has area of 13¾ square miles, and contains ratable property of the annual value of £29,794, 621 dwellings, 892 ratepayers, 1s. 6d. rate. Land under cultivation 1,292 acres. Population of shire, 3,300. Newspaper: *Preston Leader*.

PRINCETOWN (co. and shire Heytesbury), post township on Gellibrand route. Reached by rail to Camperdown, coach thence. Has hotel, boarding-houses and Mechanics' Institute. Good fishing and shooting, and favourite seaside resort. Population 50.

PURNIM (38° 18′ S. lat., 142° 20′ E. long.), a post town, with telephone office, on the Merri Creek and the Mortlake road, 165¾ postal miles W. of Mebourne, 12 from Warrnambool, and 20 miles from Mortlake, in the Warrnambool shire, and county of Villiers and Heytesbury. Presbyterian and Catholic (St. Anne's) churches, a State school (No. 1,016), and a Catholic school, a store, a creamery, shoeing forge, and the Bush Inn and Royal Oak hotels are here. Wheat and potato growing district. Communication is by train or steamer to Warrnambool, coach thence, 12½ miles, fare 2s. 6d. Coach runs to Mortlake. The Stud station known as Bryan O'Lynn is now a dairy farm. The Framlingham Aboriginal station is about 1 mile distant, and the Hopkins Falls about 2 miles. Population, 1,500.

PYALONG (37° 7′ S. lat., 144° 54′ E. long.), a shire and post town with telephone and railway station (fares 10s. 3d. and 6s. 9d.) on Mollison's Creek, 57¾ miles N. of Melbourne (county of Dalhousie, electorate of Kilmore, Dalhousie, and Lancefield). Hotel: White Hart; also wine hall. State school (No. 2,005), Episcopal and Roman Catholic churches (All Saints), police station, shire hall, post-office, and two stores. The district is chiefly pastoral; soil is sandy and rather poor. Net annual value of ratable property in the shire, £14,400; area 229 square miles, with 220 dwellings, 400 ratepayers, 1s. rate. Land under cultivation, 1,328 acres. Formation: granitic. Population, 150; including shire, 1,000.

PYRAMID HILL (36° 2′ S. lat., 144° 2′ E. long.), a postal town, county of Gunbower, electorate of Gunbower, shire of Gordon, with money-order, telegraph offices, and savings bank, on Bullock Creek, and a station on the Bendigo to Swan Hill line, 154¾ miles N. of Melbourne; fares, 27s. 8d. and 18s. 7d. Mail coaches run to Yarrowalla, and Durham Ox, Terricks and Bald Rock. Bank: National. State school (1,712) and two hotels, Anglican, Presbyterian, Wesleyan, and Roman Catholic churches, and mechanics' institute and free library (1,000 vols.), A.N.A. and I.O.R. societies. There are two stores, butter factory, two coach and implement factories, and a police-court, third Wednesday in month. Lighted with kerosene. An agricultural, horticultural, viticultural, and pastoral district. Newspaper: *Pyramid Hill Advertiser*. Population, 400.

QUAMBATOOK (co. Tatchera, shire Kerang), post, telegraph, telephone to Ultimo, and railway (terminus) station, on Avoca river, 207 miles (191 rail). NW. of Melbourne: fares, *viâ* Boort, 34s. 6d. and 22s. 10d. Has hotel, coffee palace, and sundry stores, State school (2,443), Anglican, Presbyterian, Baptist and Roman Catholic churches, police-station, mechanics' institute, M.U.I.O.O.F. and H.A.C.B.S. Lighted with kerosene. Quambatook South 3 miles distant, and has Roman Catholic church, State school, and post-office. Agricultural district. Population of whole district about 3,800. Newspaper: *Herald*.

QUEENSCLIFF (38° 16′ S. lat., 144° 40′ E. long.), county of Grant, electorate of Barwon, police district of Geelong, a municipal town, with post, telegraph, telephone, savings bank, and money-order office and railway station, at the entrance of Port Phillip Bay, lies 12 feet above the level of the sea, and is about 32 miles SW. of Melbourne—68¼ postal miles by land; from Queenscliff to the Gellibrand lightship, *viâ* Cole's Channel, is 26¾ miles, *viâ* West Channel is 26½ miles, *viâ* South Channel 39 miles. A steamer plies daily to and from Melbourne in summer. During the winter months a special coach runs daily, *via* Port Arlington, in connection with a line of steamers, fare 5s., return 9s. 6d., available for one month. A steamer also calls every Saturday, carrying passengers and cargo. It is the terminal station on the railway from Geelong; fares, 12s. 1d. and 8s. 1d. Coaches run to Portarlington and Clifton Springs. Hotels: Grand, Victoria, Ozone, Esplanade, Queenscliff, Bendigo, and Royal, which will compare favourably with any in the Australian colonies. In addition to these are numerous commodious and well-appointed boarding-houses. It is situated on a small peninsula, formerly known as Shortland's Bluff, which is connected with the mainland by a narrow neck of land, called the Narrows, about 400 yards in width. Lonsdale Bay forms the SW. and Swan Bay the NW. boundaries. Two lighthouses are here, so placed that when seen from seaward in one line they form a leading mark for vessels entering. The width of Port Phillip Heads, between Point Nepean on the east, and Point Lonsdale on the west, is about 4,000 yards, but the navigable channel, called the Rip, through which the tide rushes with great velocity, is only about 1,600 yards wide. The entrance is now very strongly protected. The men of the Victorian Permanent Artillery are stationed here. A Foresters' hall has been erected capable of accommodating eight or nine hundred people, and admirably adapted for popular entertainments. Places of worship: Anglican church (St. George's), built of stone, with stained windows, Roman Catholic church (Holy Trinity), Wesleyan and Presbyterian churches. The "Cottage by the Sea," conducted by the Ministering Children's League, is here, also Upton House, a Convalescent Home for aged people. It has many advantages as a watering-place, the baths erected by the borough council being both safe and commodious; there are also hot sea-water baths, splendid bowling-green, asphalt tennis court, and there is a fine pier which is a favourite resort of visitors. Bank: Victoria; State school (No. 1,190), and a private school, Mechanics' Institute, with a library of 2,666 vols., and Masonic, Foresters', Orange, A.N.A. Lodges are among the chief institutions. It is a place of petty sessions. Coaches run to Point Lonsdale and Ocean Grove. The town is lighted with gas. Rain water supply. The ratable property (area 2,173 acres) is valued at £107,320, net annual value being £10,852; 373 dwellings, and 407 ratepayers, rate 1s. 6d. All vessels arriving from infected ports are boarded near Queenscliff by the health officer, from Quarantine Station. It has been a pilot station since 1848. Population, 1,900, in summer months, 3,500. Geological formation: Limestone and sandstone. Newspaper: *Queenscliff Sentinel*, published on Saturdays.

QUEENSFERRY (38° 24′ S. lat., 145° 27′ E. long.), a post town, with money-order, telegraph and savings-bank, and the port on the Eastern side of Western Port, 59¼ postal miles, SE. from Melbourne, shire Phillip Island, county Mornington. State school amalgamated with Grantville (No. 1414). The nearest railway station is Lang Lang, whence a coach runs to Queensferry, return fare, 6s. An artesian well of mineral waters of a chalybeate character is here. Religious services held in public hall. The whole of the district has been taken up under coal leases; several good seams have also been found along the Bass valley. It is the shipping port for the Great Victoria Colliery Company, from which a tramway runs to water, about 8 miles. Baron von Mueller said the copiousness and elegance of spring orchids here are unsurpassed in the world. Formation: Mesozoic. Population, 80.

QUEENSTOWN (37° 39′ S. lat., 145° 20′ E. long.), post town, in the county and electoral district of Evelyn, shire Eltham, and police district of Bourke, on Back creek, 27 miles NE. of Melbourne. It has a hotel, State school (No. 128), mechanics' institute (650 vols.), I.O.O.F., and Church of England. Court of petty sessions is held here. Two coaches run daily to and from Heidelberg, fare, 2s., return, thence train. District devoted to fruit and mining. Water from private tanks. Population, 50 (including five Chinese); with district, 1,250.

RAGLAN (37° 21′ S. lat., 143° 19′ E. long.), a postal township on Fiery creek (county of Ripon, electorate of Ripon and Hampden), 128 miles (115 postal), WNW. of Melbourne, about 3½ miles to the N. of the railway line between Ararat and Ballaarat. Beaufort (6 miles) is the nearest railway station. The Fiery Creek Diggings, at one time about the richest in the colony, are in the vicinity. The gold yield for the year 1899 was 4,760 ozs. There are other workings farther off, and one saw-mill at work in the neighbourhood. Some stations are in the neighbourhood. State school here (No. 523), Primitive Methodist church, hotel, and free library with 218 vols., mining, agricultural and pastoral. Population of town, 300; with district, about 1,500.

RAMAHYUCK (38° 2′ S. lat., 146° 30′ E. long.) is a Presbyterian mission station on the River Avon, county Tangil, shire Avon, about 15 miles from Sale, commenced in 1864 on a reserve of 750 acres. The station comprises 14 cottages, missionary's house, church, school, and boarding house for children, arranged so as to form three sides of a quadrangle. The number of blacks on the station (of which Rev. F. A. Hagenaur is manager), is about 60, including 26 children, who attend the native State school under the care of a highly-qualified lady teacher.

RAVENSWOOD (36° 50′ S. lat., 144° 1′ E. long.), a post town, with telegraph-office, in the county of Bendigo, shire Marong, electoral and police district of Maldon, on Bullock creek, 90¼ rail miles NW. by W. of Melbourne. It is a railway station on the Melbourne and Echuca line; fares, 16s. 2d. and 10s. 9d. The hotel is the Junction. Two State schools (Nos. 1,113 and 1,546), in which Wesleyan Sunday school is held. The district is of a pastoral and agricultural character. Good shooting. Harcourt is 8 miles S., and Kangaroo Flat, 7 miles N. Formation: granite. Population, about 200; with district, 400.

RAYWOOD (36° 30′ S. lat., 144° 20′ E. long.), in the county of Bendigo, electoral district of Mandurang, police district of Bendigo, is a borough, with post, money-order, telegraph office, and savings bank, near Myer's Creek, 119¾ miles NNW. of Melbourne, 19 miles from Sandhurst. It is a railway station; fares, 21s. 6d. and 14s. 3d. Hotels: White Horse, Gunn's, and McNeill's. The town area is 5,760 acres, with 94 dwellings, 154 ratepayers, and ratable property of yearly value of £2,359, 1s. rate. There is a State school (No. 1,844), and one at Neilborough, Anglican, Roman Catholic (St. John's), and Wesleyan churches, town hall, used as a court-house, and police-station, a mechanics' institute with library of 450 vols., and branch A.N.A., four stores, and some tradesmen's shops, lighted by kerosene. Coaches run to Kamarooka three days a week. There is a reservoir supplying the town with water from the Coliban. The district is of a mining and agricultural character. Formation: sandstone, slate, and quartz. Population, 480, district about 1,200.

REDBANK (36° 55′ S. lat., 143° 30′ E. long.), a post town, with money-order office, on Cherry Tree Creek, in the county of Kara Kara, electorate of Stawell, and North-Western police district, shire Avoca, 141 miles NW. of Melbourne, about 66 miles from Ballarat, NW., and 30 from Maryborough. A coach runs daily to Avoca, 15 miles distant, and to St. Arnaud, fare, 5s., with which towns there is railway communication with Melbourne. Mountain scenery. There is one hotel, the Shamrock, a State school (No. 896), and a Wesleyan and Roman Catholic church, mechanics' institute, and police-station. Lighted with kerosene. Mining district, yield 1899, 748 ozs. Population about 300.

REDHILL (38° 20′ S. lat., 144° 50′ E. long.), a post town, in county and electorate Mornington, shire Kangerong, police district Bourke, 45 postal miles SE. from Melbourne three miles from Point Nepean road. Red Hill, so called from being on a hill of that colour, is about 1,500 feet above the sea level, on the Arthur's Seat range, 12 miles distant from Mornington railway-station. A coach from Mornington (after arrival of first train) passes daily within 2 miles of Red Hill; fare, 2s. 6d.; this coach runs to and from Dromana. It has a Wesleyan place of worship, a store, a school (No. 1,301), a post office, a blacksmith's shop, and several large orchards and fruit gardens, about 300 acres being under fruit. The nearest telegraph and money-order office is Dromana. There is a racecourse NE. of the village, 1½ mile distant. The surrounding country is heavily timbered with messmate, gum, and wattle, and is well suited for agricultural and pastoral pursuits. Fruit-culture, especially strawberries, is now largely occupying the attention of residents. There is plenty of shooting, viz.: kangaroo, wallaby, opossum, hare, rabbit, and many varieties of birds. Gold is found in small quantities. Population, 150.

REDHILL (37° S. lat., 146° E. long.) was a village settlement, in county and electoral district of Evelyn, police district Drouin, shire Buln Buln, 54 miles from Melbourne, from which rail to Drouin. District is agricultural. It has been abandoned since 1898.

REEDY CREEK (37° 17′ S. lat., 145° 4′ E. long.), a post town, with savings bank, telephone and money-order office, 56¾ miles N. of Melbourne. It is situated on Reedy Creek, in the county and electorate of Anglesey and Dalhousie, shire of Broadford, police district of Kilmore. Hotels: Reefers, Reedy Creek, State school (No. 2,234). Churches: Church of England, Roman Catholic. Town is not lighted. Coach runs to Broadford, 8 miles distant, fare, 2s., thence rail to Melbourne. Strath Creek Falls 6 miles distant. Mining and pastoral district. Population, about 300.

REID'S CREEK (36° 20′ S. lat., 146° 41′ E. long.), is 3 miles from Beechworth Railway Station and 175½ miles NE. of Melbourne. Has loose post-bag. It is in the county and electoral district of Bogong, police district and shire of Beechworth. Chiefly a mining locality for tin and gold. The country consists of mountains and valleys, the former (Mount Pilot) commanding extensive views of picturesque scenery, comprising the Falls, the Wool-shed creek, and other points of interest. Climate mild and healthy. Formation: granite. Water from wells. Population, about 100 persons.

RHEOLA (formerly called BERLIN) (36° 37′ S. lat., 143° 56′ E. long.), a postal township with money-order and savings-bank office, in the county of Gladstone, electorate of Dunolly, North-Western police district, 4 miles south of Kingower, on the Kangderaar Creek, 143 miles NW. from Melbourne, deriving its existence from the former gold-fields and agricultural land in its neighbourhood. The means of reaching Melbourne are the coaches from Inglewood (12 miles), fare, 1s. 6d., and Dunolly (20 miles), fare, 2s. 6d., both of which towns are railway stations. Here on the 31st May, 1870, a large nugget was unearthed: it weighed 93lbs. 8oz., and yielded 1,105 ounces of pure gold. It was named after the ruling Governor—"Viscount Canterbury." The celebrated Blanche Barkly nugget, weighing 145 lbs., was found at Kingower, a few miles distant. Two other large nuggets were found here in 1871, one, called the "Precious," weighing 143 lbs., and the other, called the "Kum Tow" (17th April), weighing 792 ozs. The diggings were very nuggetty, the gold lying on or near the surface, hence soon worked out. There are two places of worship—Church of England, and Roman Catholic. two stores, State school (No. 1,069), two hotels, and a police-station. A reservoir supplies water to the town. The alluvial flats are well suited for cultivation, and some of the hills are peculiarly adapted for viticulture, which, with orchards, promises to be a greater source of wealth than even the gold. Melville's cave in district. Formation: granite schist and silurian sandstone. Population, 100; with neighbourhood it is 200.

RHYLL (co. Mornington, shire Phillip Island), on Phillip Island, with a State school (No. 3,132). Farming district. Population, 32.

RICHMOND (37° 50′ S. lat., 145° 1′ E. long.), county Bourke, electoral district of Richmond and Jolimont and W. Richmond, police district of Melbourne, now a city suburban to Melbourne, with which it is connected by good roads and tramway. It is about 2 miles distant from the General Post Office, SE., and is bounded south and east by the river Yarra, north by Victoria Street, and west by Hoddle Street. There is also railway communication with three stations. Fares, 3d. and 2d. Between the metropolis and Richmond is the Friendly Societies' Gardens, also a large reserve known as Yarra Park, in which are the Melbourne and Richmond cricket grounds; also Richmond Park, at eastern end of city (better known as Surrey Paddock), a popular place for picnics. In this park is situate the Royal Horticultural Societies Gardens, beautifully laid out and containing a large pavilion used for flower shows, &c. These gardens are open to the public, and many persons visit them on fine Sunday afternoons. There are fifteen churches of different denominations; St. Ignatius (R.C.) is a handsome bluestone edifice. The National, English and Scottish, London, Savings, and N.S. Wales Banks have branches in Richmond, six State and several private schools, a Roman Catholic convent and school, a free dispensary, and two free libraries of 4,479 and 2,477 vols. respectively, numerous hotels, a large coffee palace, and some good shops. The town hall is a fine building. There are separate buildings for post and telegraph offices at Bridge Road, Swan Street, and Burnley Street, and three police stations. Six miles of underground drainage have been completed at a cost of £60,000, thus efficiently draining all parts of the city. There are 73 miles of private streets or roads: the metalled and gravelled streets under the control of council being 54¾ miles, and unmade three-quarters of a mile. Town is partly lighted with electricity and partly with gas. There are two extensive electric light works in the district. The municipality, which is divided into five wards, returning in all fifteen councillors comprises an area of 1,430 acres, has 7,737 inhabited dwellings, 7,711 ratepayers, ratable property of net annual value, £176,217; rate 1s. 10d. There are numerous manufactories and fellmongeries, &c., also glass, nail, white lead, wax vesta factories, two electric light works, bluestone quarries in the vicinity. Population, 34,310. The *Australian* (George Whitehurst, proprietor, one of the oldest suburban papers in Victoria), and *Guardian* are the local papers.

RIDDELL'S CREEK (37° 40′ S. lat., 144° 65′ E. long.), a postal town, with telegraph, savings bank, and money-order office, on the Mount Alexander line of railway, 35½ rail miles NW. of Melbourne, 1,205 feet above sea level. Fares, 5s. 9d. and 4s. 4d. excursion fares. There are two hotels here—Riddell's Creek, Railway View. It is in the county of Bourke, electorate of Kilmore, Dalhousie, and Lancefield, and police district of Gisborne, and is situated on Riddell's Creek or Macedon river; the country seats of Lord C. Fitzgerald and Judge Chomley are here. A State school (No. 528), also a Roman Catholic school, Episcopal, Presbyterian, and Roman Catholic churches, and railway station. There are several stores, oatmeal mill, a mechanics' institute, with library of 600 volumes, an excellent recreation reserve, a racecourse, and a splendid nursery. Salvation Army Reformatory for Girls. Lighted with kerosene. Water supply from Bolinda Creek. Principally a pastoral district, with good soil. Population, about 600.

RINGWOOD (37° 48′ S. lat., 145° 20′ E. long.), a post town, with money-order office and Government savings bank,

county Evelyn, shire Lilydale, 15¼ miles E. of Melbourne. It is a station on the Lilydale line, eleven trains daily, fares, 1s. 3½d. and 11½d. Public school (No. 2,997). Hotels: Club, and Coach and Horses; Churches: Roman Catholic, English, Wesleyan, Methodist and Christian Brethren, Oddfellows' and Rechabite societies. Several brickfields and antimony mines are in the vicinity. Water derived from wells and tanks. Mining and agricultural district, Population, about 600.

RIPON SHIRE. *See* BEAUFORT.

ROCHESTER (36° 14′ 20″ S. lat., 144° 40′ 20″ E. long.) is a post town, with savings bank, money-order, telegraph office, and railway station, on the Campaspe, in the county of Rodney, electoral districts of Gunbower and Rodney, and police district of Sandhurst, shire Echuca, lying 370 feet above sea-level, 138¾ rail miles N. of Melbourne. Rail fares, 25s. and 16s. 8d. Hotels: Restdown, Rochester, Commercial, Harp and Shamrock, Victoria, Railway, Bridge, Star, Shamrock, and Criterion. Rochester proper comprises Old and New Rochester; the former, known as Seward's, is on the right bank of the Campaspe river; the principal buildings are the Star hotel, a State school (No. 795), and a Bible Christian church. New Rochester is on the left bank of the Campaspe, and extends from the river to the railway line, and contains a shire hall, I.O.O.F., H.A.C.B.S., Rechabite lodges, and A.N.A. Presbyterian church, Anglican, Roman Catholic and Bible Christian churches, school and convent, branches of the N.S. Wales and Union Banks, the railway station, and post and telegraph offices, and mechanics' institute (2,000 vols.). A cattle and horse fair is held fortnightly. The Echuca Shire Council also holds its monthly meeting here, and the Agricultural and Pastoral Association and Jockey Club have their offices in the town. Lighted with kerosene. The district is an agricultural and pastoral one. Three large squatting stations in district. Large exports of wool. Many creameries, a butter factory, and implement factory, are at work. Just above the town the Irrigation Trust have constructed a weir. Lake Cooper is 10 miles distant; and game is plentiful. Population, 1,000 in the town, which is the centre of a district having a population of over 3,000. Local paper, *Rochester Express*, Thursdays.

ROCHFORD (37° 19′ S. lat., 144° 41′ E. long.), a post town, in the county of Bourke, electoral district of Kilmore, Dalhousie, and Lancefield, and police district and shire of Lancefield, 49 postal miles N. of Melbourne. Lancefield, 3 miles distant, is the nearest railway station, to which a mail coach runs daily, fare, 1s.; coach also to Woodend, 3s. Hotel: Royal. It has a State school (No. 540), Presbyterian and Wesleyan churches, creamery, and a deputy registrar's office. Lighted with kerosene. Agricultural and pastoral district, noted for its large yields of potatoes, peas, oats, hay, and dairy produce. The soil is very red, impregnated with iron and honeycomb stones; undulating country. A tourists resort in summer, being in proximity to Mount Macedon. Population, 38; of district, about 500.

ROCKBANK (co. Bourke, shire Braybrook), post town and railway station, 18 miles W. of Melbourne. Has hotel and State school. Agricultural and pastoral district.

ROCKY LEAD (38° S. lat., 140° E. long.) (county Talbot, shire Creswick) is a railway station with post and telegraph office 87 rail miles NW. of Melbourne. It has a State school (No. 785), Anglican church, and hotel. Mining and agricultural district. Population, 200.

RODNEY SHIRE. *See* TATURA.

ROKEBY. *See* JINDIVICK.

ROKEWOOD (37° 53′ S. lat., 143° 44′ E. long.), a post town, savings bank, telegraph, and money-order station, 90 postal miles W. of Melbourne (county and electorate of Grenville), on the Kuruc-a-ruc Creek, police district Geelong. A coach runs daily to Leigh Road Railway Station, distant 28 miles, fare 5s.; also to Scarsdale, distant 20 miles, daily, fare 7s., return also to Ballaarat, daily, 5s. return. Hotels: the Rokewood, and Bridge. Churches: Presbyterian, Episcopal, Wesleyan, and Roman Catholic; Commercial Bank; A.N.A. and Rechabite societies. Miners' association, also a police station, a State school (No 531), three general stores, draper's shop, and three assurance agencies. The mechanics' institute has a library of 1,400 volumes. Mining and agricultural. Formation: basaltic. Population of district about 1,000. Newspaper: *Rokewood Gazette*, weekly.

ROMSEY (37° 19′ S. lat., 144° 49′ E. long.), a shire and town, in the county of Bourke, electorate of Kilmore, Dalhousie and Lancefield, police district of Kilmore, on the road from Melbourne to Heathcote, 37 rail miles N. from the metropolis, on the Five Mile creek. It lies 1,600 feet above sea-level, in the centre of one of the best agricultural districts in the colony, the produce of which is wheat, barley, oats, peas, hay, and potatoes. In the shire 9,495 acres in all are under cultivation. It has post-office, money-order, and telegraph offices, and savings bank. There are also branches of the National and Commercial Banks, a State school (No. 366), four churches, mechanics' institute, and free library of 3,000 vols. Masonic, Oddfellows', A.N.A. and Rechabites' lodges. Hotels: Commercial, Union, Shamrock, Post Office, Galway Arms, and Romsey. It is a railway-station on the Lancefield extension, fares 7s. 3d. and 4s. 10d. Court of petty sessions, electoral revision, and licensing courts are held here. A large milk-preserving factory is one of the chief industries of the town. Net annual value of ratable property in shire £20,886, area 85 square miles, 550 dwellings, 600 ratepayers, rate 1s. The water supply is derived from Bolinda Creek. Lighted with kerosene. Population, 600; of shire, 2,000. Newspaper: *Romsey Examiner*, published on Friday.

ROSEBERY (co. and shire Karkarooc), post office and railway station, on Yarriambrack Creek, 247 miles from Melbourne. Has hotel, store and implement factory. Agricultural district. Population, 100.

ROSEBROOK (38° 30′ S. lat., 142° 15′ E. long.) (county Villiers, shire Belfast) is a post town with a railway station about a mile distant, about 181 miles W. of Melbourne, on the Moyne river. Cheese and butter factories established. Has State school (No. 526), Wesleyan and Baptist places of worship, fellmongery, lime-kilns, cheese and butter factories. Water from tanks. Agricultural district. Tower Hill Island and Lake about 6 miles distant. Formation: limestone. Population about 250.

ROSEBUD (38° 20′ S. lat., 145° 38′ E. long.) is a post town, situated on the eastern shore of Port Phillip Bay, near the foot of Arthur's Seat, 54½ miles S. of Melbourne, in the county and electoral district of Mornington, police district of Bourke, shire Flinders and Kangerong. It lies 3½ miles SW. of Dromana, and is a great resort during the summer months. Visitors land from steamers at Dromana, and are conveyed thence by vehicles to Rosebud, or they may travel by rail to Mornington, thence by coach. A jetty has been erected. The majority of the population are engaged in fishing, the fish being sent to Mornington by conveyance, and thence by rail to Melbourne and Ballaarat. The chief buildings are a State school (No. 2,627), and a mechanics' institute (500 vols.), in which Wesleyan services are held. There are several private boarding-houses, and one store. Limestone formation. Population, about 75.

ROSEDALE (38° 9′ S. lat., 146° 45′ E. long.), a shire and post town, with savings bank, telegraph and money-order office, in the county of Buln-Buln, electorate of Gippsland Central, and police district of Sale, on the river Latrobe, 111½ miles ESE. of Melbourne, and 58 feet above the level of the sea. It is in direct railway communication with the metropolis; fares, 29s. 10d., and 19s. 11d. The hotels are the Rosedale, Exchange, and Bridge. The district is of a pastoral and dairying character. Rosedale is the centre of Rosedaleshire, and contains one State school (No. 770), three churches—Presbyterian, Roman Catholic, and Church of England—a mechanics' institute, with 1,500 volumes, branch of the Bank of Australasia, Masonic and M.U.I.O.O.F. lodges, race clubs police-court, and the Shire Council Chamber. Net annual value of ratable property in shire, £49,592; area, 860 square miles; dwellings, 785; ratepayers, 825: rate, 1s. Land under cultivation, 2,614 acres. Population of town, 400; of shire, 4,000. Newspaper: *Rosedale Courier*, published on Thursday.

ROSS CREEK (37° 38′ S. lat., 143° 49′ E. long.), a postal station, on the creek of the same name, in the county and electoral district of Grenville, police district of Smythesdale, 100 miles (92¾ postal) W. of Melbourne. State school (No. 803). Wesleyan place of worship. Free public library, 220 vols. The communication with Melbourne is *vid* Smythesdale or Ballaarat. It is an agricultural and pastoral district. Population, 196; with neighbourhood, about 300.

ROWSLEY (counties Bourke and Grant Marsh, Bacchus Marsh, from which it is 5 miles south, on Barwan Creek) has railway station, State school. Pastoral district. Population 70.

RUNNYMEDE (36° 32′ S. lat., 144° 39′ E. long.) is a post town, on the Campaspe river and Mount Pleasant Creek, in the county and electorate of Rodney, shire of Waranga, and police district of Sandhurst, and about 3 miles from Elmore on the opposite side of the river, whence train can be taken to Melbourne, 129¾ miles S. Coach from Elmore Tuesday, Thursday and Saturday for Runnymede, Colbinabbin and Rushworth returning therefrom Monday, Wednesday and Friday in time for afternoon train from Elmore. It has Roman Catholic and Bible Christian churches, two State schools (Nos. 2,421, 1,248), one store, and hotel—Campaspe. The neighbourhood is agricultural, viticultural, and pastoral. The Campaspe river flows between Runnymede and Elmore. Population, 100, district about 2,000.

RUPANYUP (36° 50′ S. lat., 142° 35′ E. long.), a post town, with telegraph, savings-bank, and money-order office, in the county and electorate of Borung, shire Dunmunkle, in the Wimmera district, 184¾ postal miles NW. of Melbourne, situated on the Dunmunkle Creek, an affluent of the Wimmera, 458 feet above the sea-level. Horsham is distant 30 miles, Stawell 36, St. Arnaud 40 miles, and Murtoa Railway Station 9 miles. It is the terminus of a railway line that branches off the main line to Serviceton at Lubeck; fares from Melbourne 33s. 1d. and 22s. 1d. Hotels: Commercial, Royal (coach booking office), and Rupanyup. There is a State school (No. 1,595); in the neighbourhood are three others (Nos. 1,761, 1,834, and 1,758), and a private school. Places of worship belonging to the Church of England, Wesleyan and Presbyterian bodies, Salvation Army barracks, branches of the Commercial and Union Banks are here. It is the shire town, and has a shire hall, Agricultural and Pastoral Society and Turf Club, Good Templars' Hall, mechanics' institute (564 vols.), coach building establishment, Freemasons and M.U.I.O.O.F., four stores and eight tradesmen's shops. Court of petty sessions is held every alternate Wednesday. Coaches run to St. Arnaud, fare 11s. The country is principally plains, intersected by belts of timber, oak, and box, the soil being deep black and red loamy. The whole district takes high rank for wheat-growing. In the shire of Dunmunkle, during 1900, 117,921 acres were under tillage, of which 61,541 were under wheat. Area of shire, 571 square miles; population, 6,000; ratepayers, 1,124; dwellings, 1,050; rate, 1s. 6d.; annual value of ratable property, £58,524. It is also an admirable wool-producing country, and very healthy for stock. About 30,000 fat lambs sold last season to freezing companies for export. Population,

about 300. Newspaper, *Rupanyup Spectator*, published on Thursday.

RUSHWORTH (36° 36′ S. lat., 145° 1′ E. long.), a municipal town, with post, money-order, telegraph, and savings bank office, 104½ miles NE. of Melbourne, on the road between Runnymede and Murchison, 12 miles W. from the Murchison Railway Station, and 30 miles distant E. from the Elmore Railway Station. It is in the county of Rodney, Northern Province electorate, North-eastern police district, shire Waranga. Coaches run to and from Elmore, Whroo, and Bailieston, fare to Elmore 8s. 6d., to Whroo 1s. 6d., to Bailieston 3s. It is the terminus on the branch railway line from Murchison; fares, 18s. 10d. and 12s. 8d. Principal hotels are the Criterion, Rushworth, Cricketer's Inn, Imperial, Telegraph and Royal. The Commercial and Bank of Victoria have branches; also a State school (No. 1,057), Episcopal, Presbyterian, Wesleyan, Methodist, and Roman Catholic churches, court-house, treasury, shire and Water Trust offices and shire hall. Social institutions: Freemasons', A.O.F., M.U.I.O.O.F. and A.N.A. lodges, mechanics' institute, with a library of 3,000 volumes. Lighted with kerosene. Both alluvial and quartz mining also is followed to a considerable extent. The yield for 1899 was 2,017 ozs. The water supply is derived from a reservoir which can store 11,000,000 gallons. In Waranga shire (area 700 square miles) 65,043 acres are under tillage, 42,486 wheat, 7,884 oats. Annual value of ratable property, £62,663; rate, 1s.; dwellings, 2,000; ratepayers, 1,930. Population, about 1,000; of shire, 5,869. Geological formation: slate and sandstone ranges, and box forests, also ironbark. Principal industry is farming; the butter industry is assuming large dimensions. Newspaper: *Rushworth Chronicle*, published on Fridays.

RUTHERGLEN (36° S. lat., 146° 30′ E. long.), a shire and post town, with telegraph, savings bank, and money-order office, 5 miles from the Murray river, 168¾ NE. of Melbourne. It is in the county of Bogong, electoral district of Wangaratta and Rutherglen, and police district of Beechworth, and lies 553 feet above sea level. The communication with Melbourne is by a branch of the North-Eastern line; fares, 30s. 5d. and 20s. 2d. Cars to the mines all hours 6d. each way. The hotels are Rutherglen, Victoria, Shamrock, Cumberland, Royal Standard, and Star. Rutherglen is under municipal government; area of municipality 1,280 acres, 460 dwellings, 503 ratepayers, and ratable property of the annual value of £13,264 rate 1s.; of the shire, £32,509. Mining is in a very flourishing state, there being several good dividend-paying mines; Great Southern, Southern No. 1, Southern Consols, Southern Chiltern Valley, North Prentice, and others are in full work. Viticulture and agriculture are also important industries. The vine-growing interest is a most important one; there are 8,300 acres under bearing vines, and about 470 acres under non-bearing. The wines of the district have become very popular, and one grower received a gold medal at the Paris Exhibition, and several others silver medals. Including vines there are 23,451 acres under cultivation within the shire, the principal crops being wheat, oats, and hay. There are four churches in the town, all good substantial buildings—Episcopalian, Roman Catholic, Wesleyan, and Congregational; Presbyterians also hold services; court-house, police-station, town-hall, and public library of 1,700 volumes. Several Insurance Companies and A.N.A., Oddfellows', Druids', I.O.G.T., and Miners' Associations are represented, and the Bank of Victoria and Bank of Australasia have branches, State school (No. 522), and private schools. Rutherglen has a racecourse, reservoir, and public park, which together cover an area of 262 acres. The park grounds are tastefully laid out and planted, and serve for recreation purposes. The reservoir here will hold 27 million gallons of water. Formation: upper silurian. Population, 2,000, and of shire about 5,000. Local newspapers: *Rutherglen News*, established 1875, and *Rutherglen Sun*.

RYE (38° 21′ S. lat., 144° 50′ E. long.) is a beautiful seaside village, with post-office, on Port Phillip Bay, situate about 9 miles W. from Dromana, 6 miles E. from Sorrento, and 35 miles SE. from Melbourne (52 postal), in the county of Mornington, electorate of Mornington, Kangerong, and Flinders, police district of Bourke. Coach to Mornington, thence by rail to Melbourne; in summer by steamer to Sorrento, thence by coach to Rye, fare 1s. 6d. Coaches run to Portsea, Sorrento, Dromana. The Gracefield hotel and the Cliff Boarding House have good accommodation for visitors during summer months. State school (No. 1,667); and Episcopalian church. Mechanics' institute (144 vols.). In the summer it is a favourite resort for visitors, and sporting men find excellent amusement with the rabbit; foxes are also plentiful. The climate is good, in summer being 9 degrees cooler than Melbourne, and in winter 7 degrees warmer. A pier about a fourth of a mile long, with 120 feet of quay in water of 15 to 20 feet deep, is the landing-place for goods and passengers. Back beach is about 3 miles distant. Industries: wood cutting, lime burning, and fishing, in which about 20 boats are employed, the fish being principally sold in Melbourne, but in summer at Sorrento, Queenscliffe, &c., 22,000 bags of lime and 6,000 tons of firewood are exported yearly, about 60 men being employed. Formation: tertiary, limestone, and shell sand. Population of district about 150.

SAILOR'S GULLY. *See* NERRING.

ST. ALBANS (co. W. Bourke, shire Keilor) is a railway station, with post office, 11¼ rail miles N. from Melbourne, fares 1s. 5½d. and 1s. 1d. Has State school (No. 2,969) and Anglican church. Agricultural and pastoral district. Population, 150.

ST. ARNAUD (36° 37′ S. lat., 143° 16′ E. long.), borough and township, with post, money-order, savings bank, and telegraph office, in the county, shire and electorate of Kara-Kara; police and mining district Maryborough, and railway station on the St. Arnaud Creek (784 feet above sea-level), 158½ miles NW. of Melbourne. There are two through trains daily; fares, 28s. 6d. and 19s. 1d. Coaches run to Avoca, Moonambel, Stuart Mill, Redbank, Landborough and Charlton, daily; to Stawell and Rupanyup, three days a week. Principal hotels: St. Arnaud, Town Hall, Commercial, Farmers', Manchester, Union, Criterion, Victoria, North-Western, Royal, Family, Plough and Harrow. The district is a mining, pastoral, and agricultural one; the mining is principally quartz. The Lord Nelson Company pays monthly shilling dividends on its 36,000 shares, the gold being obtained at a depth of over 1,400 feet (and yield improving with depth), from a lode varying in width up to 20 feet, and which has been surveyed on the surface several miles nearly N. and S; also Browning's Luck, Bristol, Lord Nelson North, Queensland, Queensland West, and several small companies. There are 500 miners at work in the district. The gold yield for 1899 was 18,543 ozs. Several large cyanide plants treat the old tailings with good results. To the north-west of the town large tracts of some of the finest agricultural lands in the colony are to be met with, immense areas of which have been selected and occupied for farming. Wheat and wool are the staple products of the district: but the land is admirably adapted for the production of all fruits requiring a warm climate and fertile soil. The Victoria, London, Colonial, N. S. Wales, and Commissioners Savings Banks have branches, and there are agencies of the principal insurance companies. There are a district survey office, petty sessions, and county court, school of mines, insolvency and general sessions, also a supreme court, and sub-treasury in the town; good law library, large two-story town hall with fine stage, dressing rooms, scenery, supper room, &c.; a mechanics' institute, with hall, stage, and a library of 4,000 vols.; hospital with 50 beds; also Church of England, Roman Catholic, Wesleyan, Bible Christian, and Presbyterian places of worship, and Salvation Army barracks, and a State school (No. 1,646), Roman Catholic school and three private schools. M.U.I.O.O.F., A.O.F., A.N.A., Rechabite, Freemason, and L.O.L., H.A.C.B.S. Lodges; several sports clubs. There is another State school at St. Arnaud North, 2 miles distant. Industries: tannery, bone-mills, chaff and wood yards. Geological formation: upper and lower silurian. The great plains north of the town belong to the tertiary group. The population of Kara Kara shire is 5,200, and St. Arnaud is the chief town in it. It has 1,090 dwellings, 1,399 ratepayers, rate 1s. and 3d. special, net annual value of ratable property £51,061; in 1900, 83,977 acres were under cultivation, 49,228 being wheat. Two reservoirs supply the town with water; the main one is capable of storing 50,000,000 gallons, its cost was £14,677. A new supply is being obtained from Mt. Teddington, 20 miles distant, in the Pyrenees Ranges, at a cost of about £28,000; the scheme is nearing completion. The town is lighted with gas (Lord Nelson mine and Malcolm's flour-mill with electricity). Population of borough, 3,500, with 750 dwellings, 692 ratepayers; area, 6,355 acres; ratable property of the net annual value of £17,941, rate 1s. 3d. The *St. Arnaud Mercury* and the *St. Arnaud Times* are the local journals.

ST. JAMES (36° 15′ S. lat., 145° 50′ E. long.), a post town, money-order, savings bank and telegraph office. It is a railway station on the branch line from Benalla, shire Tungamah, county of Moira, and electoral district of Benalla and Yarrawonga. North-eastern police district, 141¾ miles NE. from Melbourne; fares, 25s. 7d. and 16s. 11d. Banks: Australasia and National. A Presbyterian church, two State schools (Nos. 2,579 and 2,996), M.U.I.O.O.F., several sports clubs, police-station, three hotels, public hall, creamery, and two stores. It lies 451 feet above sea-level. The district is both agricultural (principally wheat) and pastoral. Duck, plover, pigeon, and hare shooting. Population, 250; district, 2,000.

ST. KILDA (37° 52′ S. lat., 145° 0′ E. long.), a fashionable watering-place and suburban city of Melbourne, about 3¾ miles S., on the east shores of Hobson's Bay. It is in the county of Bourke, and electoral districts of St. Kilda, Brighton, and Toorak, police district of St. Kilda. Cable tramcars connect it with the city, fare 3d. There is also railway communication by the Melbourne and St. Kilda line, fares, 3d. and 2d. Principal hotels: Prince of Wales, Esplanade, Royal, Beaconsfield and the George. The value of ratable property is £2,166,200, the net annual value being £180,364, number of dwellings 4,108, ratepayers 4,398 rate 2s. The city includes an area of 2,095 acres, with a sea frontage of 3½ miles. Four areas, two for ladies and two for gentlemen, are fenced in for bathing purposes; the fencing is for protection against sharks. The esplanade along the sea beach is a promenade superior to any south of the line. The tramway along the Esplanade enables people to get from Melbourne and suburbs to the north, such as Carlton, Fitzroy, Collingwood, &c., and also those from Prahran, Toorak and other places, to reach the beach, travelling all the way by tram. A large park extends part of the way along the road, and the drive is a pleasant one, except in dusty weather. The park is now within St. Kilda city. The cemetery is large and well kept. The pier, 516 feet long, is the longest pier in the Colonies, at the end of which a breakwater of 100 feet has been constructed, and which it is proposed to further extend. There is a public library, with nearly 4,000 volumes, a town hall, and several assembly halls; also branches of the Australasia, National, Commercial, and Savings Banks, and agencies of the principal insurance companies, two State (Nos. 1,479 and 2,460), and about 30

private schools (2), telegraph (2), savings bank, and (2) money-order post-offices, police-court and police buildings. Masonic, Oddfellows', Orange, A.N.A., Foresters', and Hibernian lodges. The places of worship comprise All Saints', the largest Anglican church in the colony, capable of seating 1,300 persons, where the services are of a very ornate character; Christ church, and Trinity churches (Anglican); Wesleyan (2), Presbyterian (2), Baptist (2), Congregational (2), Free Presbyterian (2), and Primitive Methodist chapels; and two Roman Catholic churches (St. Mary's and Church of the Sacred Heart). Latest population, 19,700. Newspaper: *St. Kilda Mercury*.

ST. LEONARDS (38° 11′ S. lat., 144° 43′ E. long.) is a fishing station and watering place, county Grant, shire Bellarine and electoral district of Barwon, police district Portarlington, 28 miles (7½ postal) SW. of Melbourne, situated on the W. shore of Port Phillip Bay, 30 miles by water. There is a commodious jetty and safe anchorage for small vessels. It has a post-office, one hotel (St. Leonards), and a State school (No. 866), in which services are held. St. Leonards is reached by taking train to Drysdale, thence by hired conveyance 9 miles; or by steamer to Port Arlington, thence by hired conveyance, 7 miles. The land in the district is of an excellent grazing and farming character. From here a fine view of the bay is commanded as well as of landscape. Splendid shooting in district. The locality, formerly known as Indented Heads, is the place where Batman landed and made his first settlement. Facilities for reaching Rye, Sorrento, Queenscliff, &c., by local boats. Cole's Channel, available for vessels up to 18 feet draught, lies a ¼ mile off St. Leonards. Good cycling road. Population, about 100, the majority of whom are employed in fishing, farming, and supplying the Geelong and Melbourne markets. Population, 100.

SALE (38° 6′ S. lat., 147° 5′ E. long.), county of Tanjil, electorate of Gippsland Central, is the principal town in the Gippsland district, and lies 32 feet above the level of the sea. It is situated on the Thomson river, 3 miles above its junction with the Latrobe. It is 127½ miles ESE. of Melbourne, is on the Gippsland line of railway; two trains run each way daily; fares, 22s. 10d., and 15s. 4d.; return, available for one month 34s. 5d. and 23s. 1d.; excursion, 25s. 9d. and 17s. 3d; trains also arrive and leave daily for Maffra, Stratford and Bairnsdale. The hotels are the Club, Criterion, Royal Exchange, Crown, Star, Albion, Adelphi and ten others. The town is built on an extensive plain, and is the centre of a large and rich agricultural and pastoral district, being the market for the outlying townships of Maffra, Heyfield, Stratford, Clydebank, Toongabbie, Cowwar, Longford, and some other smaller settlements. There are branches here of the National, Australasia, Commercial, Victoria and Savings banks, and agencies of the principal Insurance Companies. Sale has a mechanics' institute, with free library, erected at a cost of £4,000, containing 5,000 volumes. In connection with this institution is the School of Mines, Art and Technology, which is attended by students from all parts of the district. There are churches of six denominations, Episcopalian (St. Paul's), Wesleyan, Primitive Methodist, Presbyterian, Baptist and Roman Catholic Cathedral (St. Mary's); the convent of Notre Dame de Sion is a beautiful building. Freemasons', Temperance, and Friendly Societies halls have been erected by those several bodies, and the Victoria Hall, a handsome building, capable of seating 1,200 persons, has been provided by private enterprise. The public gardens are a picturesque resort. The Agricultural Society has, at considerable expense, provided show grounds with the necessary buildings, &c., at which meetings are held each year, and are very liberally supported. The district hospital is here, a brewery, a foundry, cheese factory, butter factory, creamery and ice-works are in operation. Dairy farming is largely carried on. The town is under municipal government, has an area of 5,442 acres, 790 dwellings, 895 ratepayers, net annual value, £15,632; rate, 1s. 6d. The Supreme Court sittings are held twice, General Sessions three times, and Insolvency and County Courts, four times a year; mining Board; for Government purposes there are a Supreme Court, Court of petty sessions, post and telegraph office, land office, treasury and gaol. There is also a State school in the town (No. 545). The police have their headquarters here. Sale is the head of the Gippsland Lakes navigation. Also the headquarters for the electoral (Mr. W. Patten, returning officer), and mining districts (Mr. H. A. Luke, returning officer), of Gippsland. Steamers ply daily between Sale and the Lakes Entrance (Cuninghame), distant 65 miles, whence large quantities of fish are obtained and forwarded *viâ* Sale by rail to Melbourne. Ocean-going vessels trade between Melbourne and Sale, (freight 15s. per ton), and occasionally between New South Wales and Sale. The shipping is brought into the town by means of a canal alongside the railway line. Gasworks, waterworks, and public baths have been provided by the Corporation. The water supply is obtained from the Thomson river, whence it is pumped into an elevated tank centrally situated; from this tank the town is reticulated. The district around Sale for many miles is devoted to grazing, dairying, and agriculture. It is also a good sporting centre, being headquarters of the N. Gippland Coursing Club, the most prosperous club in the colony. Good fly fishing and shooting are to be obtained. The nearest mines (Walhalla), are 50 miles away. In the mining district of Gippsland, during 1899, 2,704 miners were employed; gold yield 84,143 ozs. Gippsland Mining Board meets at Sale. A coach leaves Sale Tuesday, Thursday, and Saturday, for Port Albert, 45 miles distant, fare 17s. 6d., Darriman, Woodside, Yarram and Alberton, returning on alternate days. Mail coach daily to Maffra, 10 miles. There are large tracts of rich agricultural land in the vicinity, much of it densely covered with scrub, and requiring capital for its clearance and preparation for tillage. There is a successful village settlement in the district. About 15 miles from Sale, on the river Avon, is the Ramahyuck aboriginal station. Formation: palæozoic. Population of the borough, 3,479; of the district, about 30,000. The local newspapers are the *Gippsland Mercury*, published on Tuesday and Friday, and the *Gippsland Times*, published Monday and Thursday.

SANDFORD (37° 37′ S. lat., 141° 28′ E. long.), a postal township, with money-order, telegraph and savings bank office at railway station, in the county and electoral district of Normanby, shire Glenelg, on the Wannon river, 329 miles (242½ by rail) from Melbourne, W., and 3 miles from Casterton. The railway from Branxholme to Casterton passes through here, crossing the Wannon by a bridge of considerable length; fares, 43s. 7d. and 29s. Hotels: Commercial, Sandford, and Caledonian. There are several shops and stores, butter factory, Foresters' lodge (No. 3,786, J. S. Anderson, sec.), and hall, Colonial Bank (monthly), a mechanics' institute and free library of 1,150 vols., with large brick hall attached, capable of seating about 350 people, racecourse with fine pavilion, a State school (No. 1,654), and places of worship belonging to Episcopalians (St. Mary's), Presbyterians, and Roman Catholics (St. John's). Beautiful scenery, town being situated in a valley through which the Wannon flows. Water from reservoir. Lighted with kerosene. There is a deputy electoral registrar and a registrar of births and deaths; football, cricket and racing clubs. Agricultural and pastoral district, the soil being very good. Population, town and district, about 1,250.

SANDHURST. *See* BENDIGO.

SANDRIDGE. *See* PORT MELBOURNE.

SANDRINGHAM (38° S. lat., 145° E. long.) (county Bourke, shire Moorabbin), is a railway terminus with post and telegraph office, about 11 miles S. of Melbourne, on Port Phillip Bay. It is a favourite watering-place. A tram starts from here for Cheltenham and Beaumaris, both favourite holiday resorts. The settlement is over thirty years old, and was once called Gipsy Village. Has three hotels, tea gardens, golf links, State school (No. 267), private school, Municipal baths, jetty of steamers, &c., police station, Anglican, Presbyterian and Wesleyan churches, Parochial hall, and numerous market gardens. Lighted with gas and kerosene. Yan Yean water supply. Formation: furruginous with sandstone. Population of district, about 1,300.

SANDY CREEK (31° 17′ S. lat., 147° 11′ E. long.) a postal township, in the county of Bogong, electorate of Benambra, a police district of Kiewa, on the creek from which it takes its name, 208½ miles NE. of Melbourne. The diggings are principally quartz, though alluvial is carried on in the bed of the creek. Huon Lane, 7 miles distant, is the nearest railway station. Mail arrives and departs by man on horseback. State school (No. 2,024). Roman Catholic church. Sandy Creek is prettily situated in the valley of the creek, lying between hills, mining and pastoral pursuits being followed in the district. Population of district, 200.

SAN REMO (39° 8′ S. lat., 145° 29′ E. long.), a post town, with telegraph, savings bank, and money-order office, 65 miles SE. of Melbourne, in the county and electorate of Mornington, police district of Bourke, shire Phillip Island and Woolamai. It lies at the eastern entrance to Western Port Bay. Communication from Melbourne is by rail to Stony Point, thence steamer; combined fare, first return, 14s. 6d.; second return, 12s. Hotels: San Remo and Pier; also a first-class private boarding-house. There is a shire hall, police station and a State school (No. 1,369). A court of petty sessions is held here. The district is chiefly pastoral. San Remo is remarkable for its freedom from hot winds, and the coolness of its climate during the summer months, when the thermometer ranges from 10° to 15° below that of Melbourne. It is a fashionable watering-place, backed by hills and slopes which are almost perpetually green. Back Beach, Cape Woolamai, the Blow Hole and the Punch Bowl are within reach. Newhaven, Phillip Island, lies distant about 40 chains by water, and French Island is reached in one hour by boat. Both Islands are well stocked with rabbits, hares, and game of all kinds. Area of shire 258 square miles, with 490 dwellings, 930 ratepayers 1s. rate, and net annual value of ratable property £27,700. Land under cultivation 1,284 acres. The river Bass lies about four miles to its right, and the Powlett river about twelve miles to its left. Both are stocked with excellent fish, including black fish, bream and perch, while fishing is unlimited in the surrounding waters. Coal has been found. Population, 110; of shire, 2,400.

SARSFIELD (37° 44′ S. lat., 147° 41′ E. long.) is a postal town, with telegraph station, in the county of Dargo, electoral district of Gippsland East, and shire of Bairnsdale. It lies on the Nicholson river, 177 postal miles E. of Melbourne, and is reached by steamer to Bairnsdale (7 miles), and coach thence, or by rail to Bairnsdale, coach thence daily. There are two hotels, store, and a State school (No. 1,228). Presbyterian place of worship. Agricultural district, and large areas of maize and hops are cultivated. Sleeper and pile cutting, quarrying. Large quarries have been opened up, from which the stone for the new entrance to the Gippsland Lakes was obtained. There is a vast area of auriferous country. Formation: lower silurian. Population, 260; of the district about 900.

SCARSDALE (37° 41′ S. lat., 143° 40′ E. long.) (county and electoral district of Grenville), municipality Browns and Scarsdale, with post office, telegraph station, savings bank, and money-order office on Smythe's creek, 103 miles W. by N. of Melbourne. It is a station on the branch line from Ballaarat

(17 miles), fares from Melbourne, 16s. 5d. and 11s. Has three hotels. Coaches run to Cape Clear, 2s. ; Rokewood, 3s. 6d ; Berringa, 2s. ; Pitfield, 3s. Several of the leading insurance companies have agents. There are Anglican, Presbyterian, and Wesleyan churches, police camp, Foresters, A.N.A., and Sons of Temperance societies, tannery, and a State school (No. 980). The free library has 1,653 volumes. Court of petty sessions is held here. Area, 5,670 acres. Number of dwellings, 193 ; ratepayers, 159; rate 1s. in the £. The district is a mining and agricultural one. Water from three reservoirs. Population of borough, 900 ; shire, 950.

SEATON (37° 59′ S. lat., 146° 40′ E. long.) (county of Tanjil, electorate of North Gippsland, shire Maffra, police district of Heyfield), a postal township on Back Creek, in the Gippsland district, 113 miles (134½ postal) E. of Melbourne, and 5 miles from Dawson, whence the train can be taken for Melbourne. State school (No. 1,649). Regular teams of waggons start from Bald Hills to Donnelly's creek, Aberfeldy, and Jericho. Agricultural and pastoral district; the mountains in the district are supposed to be gold-bearing. The population is about 150.

SEBASTIAN (co. Bendigo, shire Marong), post town, with railway and telegraph station, 116¾ postal and 115¾ rail miles N. of Melbourne ; fares, 20s. 8d. and 14s. Has mechanics' institute, two hotels, Anglican and Primitive Methodist churches, State school (No. 1,510), and various stores. Lighted with kerosene. District agricultural.

SEBASTOPOL (37° 35′ S. lat., 143° 52′ E. long.) (county of Grenville, and electoral district of Windermere, and police district and borough of Sebastopol) has post, money-order, savings bank and telegraph office, situated on the Yarrowee creek, 77¼ postal miles W. of Melbourne, and 3 miles from the Ballaarat Railway Station. Trams run from Ballaarat ; fare, 3d. The district is a mining one, and several of the mines on what is known as the Sebastopol Plateau are giving excellent returns, especially the Star of the East. There are seven hotels, jam factory, Masonic, Oddfellows', Rechabites', and A.N.A. societies, two State schools (Nos. 1,167 and 1,289). Town lighted with gas ; seven churches, and a mechanics' institute, with library of 1,719 volumes. Area of borough 1,880 acres, with 600 dwellings, 706 ratepayers, and ratable property of net annual value, £9,620 ; rate, 1s. 6d. The water supply comes from the Gong Gong reservoir. Storage capacity of reservoir is 4,830,904 gallons. Population of shire, 3,000.

SERPENTINE (or JANIEMBER EAST) (36° 20′ S. lat., 143° 55′ E. long.) post town on Serpentine Creek, with money-order and telegraph office, in the county of Bendigo, shire E. Lodden, electoral district of Mandurang, and police district of Bendigo. It lies 145 miles (143¾ postal) NW. from Melbourne, and is reached by coach from Inglewood (15 miles) ; fare, 5s. The Serpentine hotel. There is a State school (No. 1,233), a shire hall, and a Roman Catholic church. Court of petty sessions is held here. Loddon United Waterworks Trust within the shire. Town is lighted with kerosene. The district is agricultural and pastoral, and the soil is generally loamy, with a little ironstone in some places and clay on the plains. In 1900 acres in shire under tillage 31,359 ; wheat, 20,357 ; oats, 1,407 ; wheaten hay, 2,232 ; other, 372. Area of shire, 455 square miles : population, about 1,879 : ratepayers, 336 ; dwellings, 341 ; rate, 1s. ; annual value ratable property, £34,117. Population of town, 80.

SERVICETON (county Lowan, shire Lawloit) is a railway station with post, money-order, savings bank and telegraph office, 286¼ miles NW. on the line to S. Australia, named after Hon. J. Service. There are coffee palace, railway refreshment-room, public hall, State school, Anglican, and Roman Catholic churches — Presbyterian services are held in public hall — and customs house. The district is agricultural and pastoral. Stock inspector stationed at Lockhart Gate, 2½ miles from township. Serviceton railway station is built, on land in dispute between South Australia and Victoria, the latter retaining the revenues, reticulated from reservoir holding 40,000,000 gallons. Formation : limestone. Population, about 300.

SEVILLE (37° 50′ S. lat., 145° 31′ E. long) a postal township, with telegraph station, in the county and electorate of Evelyn, police district of Lilydale, 31 miles E. of Melbourne, on the Wandin Creek, and on main road to Warburton. A coach runs to Woori Yallock, Launching Place and Warburton daily, to which places there is also telephone communication. There is a State school (No. 2,820), Anglican and United Methodist Free churches, a public park, wine hall, one store, blacksmith's, and saddler. Communication with Melbourne is by coach to Lilydale, 7 miles, fare 2s., thence rail to metropolis. Good road and accommodation for cyclists. It is an agricultural and pastoral and fruit-growing district. There is splendid scenery. Population, 86 ; of district, 400.

SEYMOUR (37° 2′ S. lat., 145° 6′ E. long.), a shire in counties Anglesey and Dalhousie, electorate Anglesey, shire Seymour, 464 feet above sea level. This township is beautifully situated on the river Goulburn, in the north-eastern district of Victoria, 61¼ miles N. of Melbourne, on the main line of road to Beechworth. It is an important station on the North-Eastern Railway ; fares, 11s. and 7s. 3d. Seymour is the changing station for the Goulburn Valley line. The principal hotels are the Goulburn, Royal, Canadian, Terminus, Prince of Wales, and Railway Club. The river Goulburn runs through the township of Seymour, and for boating purposes is a source of pleasure to residents and visitors. One tannery, and fellmongeries and saw mills. Churches: Presbyterian, Episcopal, Wesleyan, Roman Catholic, Salvation Army barracks, and mission hall. There are both State (No. 547), and Convent schools. The other local institutions are a land office, and sub-treasury, also post, money-order, and telegraph offices, savings bank, a court-house, a mechanics' institute and free library of 2,000 volumes, assembly-hall, shire-hall, and branches of the Victoria and Colonial Banks. The town is partly lighted with gas. The water supply is obtained from Trawool Falls, 12 miles distant. Seymour is a good site for factories, there being a splendid water supply with a pressure of 100 lbs. to the square inch. The shire of Seymour is almost wholly devoted to grazing purposes, and there is but little arable land. Net annual value of ratable property in shire, £34,041 ; area, 382 square miles ; ratepayers on roll, 665 ; rate 1s. Land under cultivation 6,804 acres. Formation : granite outcrops and basaltic outcrops and schistose. Population, 2,000 ; of shire, 3,200. Newspapers : *Seymour Express*, published on Friday ; *Seymour Telegraph*, on Wednesday.

SHADY CREEK (37° 48′ S. lat., 146° 10′ E. long.) is in the county of Buln-Buln, and electoral district of Gippsland West, shire Narracan. It lies 80 miles due E. from Melbourne on the Main Gippsland road to Sale. The communication with Melbourne is by way of Yarragon (10 miles), Buln-Buln (11 miles) railway stations. The surrounding district consists of auriferous mountainous country, thickly timbered, but with land of poor quality. There is one hotel (Shady Creek) 1,500 feet above the sea-level, in the township, but no other public buildings. Tanjil lies 10 miles NE., Crossover diggings 7 miles NW., Moe 13 miles E., and Buln-Buln or Brandy Creek 13 miles W. The district is a mining one, and the population of township is small, that of the district being widely spread.

SHEEP HILLS a post town, with telegraph and railway stations, in the county and electoral district of Borung, police district of Minyip, 229 postal miles NW. of Melbourne. It is on the branch line from Murtoa to Hopetoun *viâ* Warracknabeal ; fares, 37s. 1d. and 24s. 9d. It is also connected with Donald by coach ; leaves twice a week, fare 10s. Hotel : The Railway. There are four churches, Episcopal, Presbyterian, Wesleyan and Roman Catholic, a State school, branches Commercial and Colonial (once a week) Banks, Mechanics' Institute and public library, having 205 volumes, three stores, a coffee palace, a race club, creamery and tradesmen's premises. It is an agricultural district. Fruit trees and vines grow well. Grain sheds at station will hold 35,000 bags of wheat. At present the township is supplied with water from the Wimmera, 56 miles distant, by means of a channel. Is lighted with kerosene. Formation : deep alluvial. Population, about 350, of district about 500.

SHELBOURNE (36° 52′ S. lat., 144° 0′ E. long.), a post and telegraph town near the Bradford creek, in the county of Bendigo, electoral district of Maldon, police district of Baringhup, 98¼ miles N. of Melbourne. It is the terminus railway station on the Maldon line ; fares, 17s. 9d. and 11s. 10d. Hotel : Commercial. The locality, formerly a forest, has been denuded of timber, and much of it converted into excellent farms, with every prospect of becoming a fine agricultural district, especially as regards the raising of wheat and oats. There is a good State school (No. 950), and a Primitive Methodist chapel, in which service is regularly held. Coach runs to Woodstock, Eastville, and Laaencoorie. Population of district, 176.

SHELFORD (38° 1′ 17″ S. lat., 143° 59′ 3″ E. long. ; mag. var. 8° 50′), shire Leigh, county and electoral district of Grenville, is a township, with post and money-order office, on the road between Geelong and Portland, 70½ miles WSW. of Melbourne. Leigh Road (11 miles), on the Geelong and Ballaarat Railway, is the nearest station, and to and from this a coach runs daily, fare, 2s. 6d. There are a State school (No. 379), Presbyterian and Primitive Methodist churches, coffee palace, also a mechanics' institute, with a library of 589 volumes. Rabbits and hares abound in the neighbourhood. The land on the river banks is very fertile, and is now being cultivated. Formation : basaltic. Agricultural and pastoral district. Population of the town, 160 ; of district, about 300.

SHEPHERD'S FLAT (county Talbot, shire Mount Franklin), post township, about 80 miles from Melbourne, reached by rail to Daylesford, thence coach. Has State school. Agricultural and mining district. Formation : volcanic. Population, 100.

SHEPPARTON (36° 22′ 30″ S. lat., 145° 24′ E. long.), a postal town on the eastern side of the Goulburn River, about a mile below where it receives the waters of the Broken River, in the county of Moira, and electoral district of Shepparton and Euroa, under the control of the Shepparton shire, 113½ miles NNE. from Melbourne. It is a station on the Goulburn Valley Railway ; fares from Melbourne, 20s. 2d. and 13s. 5d. Hotels : Victoria, Shepparton, Union Court House, Terminus, Farmers' Arms and Royal are the principal. Shepparton has yearly grown in importance, owing to its central position in the large and now well-known district of the Goulburn Valley. The land in the locality is lightly timbered with box and red gum. Land selection has gone on extensively, and a large population now inhabits a district which a few years ago was a sheep walk. In 1900 59,219 acres were under cultivation, of which wheat occupied 34,508 acres. The country is level, and the soil a reddish chocolate with a clay bottom, in which wheat and other cereals grow well. Fruit cultivation is also largely and successfully engaged in. There are in the town branches of the Commercial, Victoria, National, and Australasia Banks, several Insurance agencies, a savings bank, post, telegraph and money-order offices, shire hall, Star theatre, public hall, Temperance hall, police camp, mechanics' institute (with library of 4,000 vols.). State (No. 1,469), and four private schools, Roman Catholic, Episcopalian, United Methodist, Wesleyan, Baptist, and Presbyterian churches, Receipt and Pay office, court-house, flour mill, soap, cordial, and butter factories, dye

works, foundries, brewery, &c., &c. Agricultural and Horticultural Society, cricket, turf, bowling, rowing, football, dramatic, and debating clubs and Mounted Rifles. Petty and general sessions, assize and insolvency courts are held here. The town is well lighted with gas. Water from Goulburn Reticulation scheme. Annual value of ratable property in shire (area 208 square miles) is £39,617; ratepayers 1,167, rate 1s. Population, shire 5,000; of town, 2,400. Newspapers: *Shepparton Advertiser* and *News*.

SHORFHAM, postal district, 57 miles SE. of Melbourne. Reached by rail to Bittern, coach thence 10 miles, fare, 2s. 6d. Has daily mail and a telephone office, general store, State school, agency insurance company, creamery connected with Mornington Butter Company. There is a Roman Catholic church, which is claimed to be the most perfect and complete example of Gothic design yet carried out in wood in the country districts. Population, 160.

SKIPTON (37° 42′ S. lat., 143° 33′ E. long.), a post town, with money-order, telegraph and savings bank office, on the Emu creek (county of Ripon and electorate of Hampden and Ripon), police district of Skipton, at the junction of the Geelong and Ballaarat Road to Hamilton and Portland, 116 miles (111 postal) W. by N. of Melbourne, and about 12 miles from Linton Railway Station, to and from which one coach runs daily; fare, 2s. 6d. There is also coach communication with Streatham; fare, 5s. Hotels: Ripon and Skipton. Skipton has Presbyterian and Roman Catholic churches, State school (No. 582), mechanics' institute (with library of 1,300 volumes), a court-house, police-station, and several stores, a pound, and recreation reserve. There are two reservoirs which furnish the water supply. Lighted with kerosene. The district is studded with farms, and has also good grazing qualities. Population, about 500.

SMEATON (37° 20′ S. lat., 144° 3′ E. long.), a post town with telegraph, savings bank, and money-order office on Birch's creek (county Talbot, electorate of Creswick, police district Kingston), about 94 postal miles NW. of Melbourne; nearest railway station Allendale, 3 miles S., whence a coach runs four times daily to the Commercial Hotel; fare, 1s. A coach also runs daily to Newstead, fare 5s.; to Creswick, fare 1s. 6d. and to Allendale, 1s. There are Roman Catholic, Presbyterian and Wesleyan churches. Hotels: Commercial, Cumberland, Farmers' Arms, and Reserve. A.N.A. society. State schools (Nos. 552, 610). Bank: National. Mechanics' Institute and Free Library, containing 1,300 volumes. Pastoral and agricultural pursuits are largely followed, and gold mining also is an important industry. Smeaton has a public park, shire ground, racecourse, and cemetery, experimental farm of 40 acres, creamery, flour mill and show yards used for the annual show of the local Agricultural Society. Formation: volcanic. Population of town, about 750; of district, about 1,500.

SMYTHESDALE (37° 39′ S. lat., 143° 41′ E. long.), a township and borough in the county and electoral district of Grenville, which returns two members to the Legislative Assembly. It is situated in a valley in which flows Smythe's creek, 14½ miles SW. from Ballaarat, and 88¾ miles W. by N. of Melbourne. It is a railway station on the Ballaarat and Scarsdale line; fares, 15s. 10d. and 10s. 9d. Hotels: Commercial, Eldorado, Court-house, Camp, and others. Churches: Anglican, Roman Catholic, Presbyterian, Wesleyan, and Primitive Methodist. Public offices: County Court and Court of Mines, Mining Survey and Registry, Post, Money-order and Telegraph, Post Office Savings Bank, and Sub-Treasury; also offices for receiving applications under the Settlement clauses of the Land Act; all open daily (Sundays excepted). County Court and Court of Mines held three times a year; Police and Warden's Court held once a week. There is a clerk of courts, and a mining surveyor. The borough council and registrar holds its meetings monthly. Public buildings: Court-house, Judge's and Warden's Offices, Receipt and Pay Office, Lock-up and Police barracks, and Powder Magazine. There is a mechanics' institute and hall, erected at a cost of £1,200, with library of 2,873 volumes; a State school-house (No. 978), a public garden, well fenced, well laid out, and extensively planted with trees, shrubs, &c. There are lodges of Freemasons and Oddfellows, Foresters, and Hibernians; a volunteer fire-brigade, branches of the Union and Australasian Banks, and agencies of the leading Insurance Companies. The township carries on a trade with a circle of local townships, such as Scarsdale, Lintons, Carngham, Piggoreet, Skipton, Rokewood Pitfield, &c. The district is principally a mining one, and embraces the boroughs of Browns and Scarsdale, which join that of Smythesdale, the shire of Grenville, and portions of the Leigh, Hampden and Ripon shires. The mines consist principally of deep alluvial leads of considerable extent; yield, 1899, 3,654 ounces. Area of shire, 1,440 acres. Number of dwellings 98, ratepayers 144, annual value of ratable property £1,857; rate 1s. Formation: silurian. Population of the borough, 440. The *Grenville Advocate* is the local paper.

SNAKE VALLEY (37° 36′ S. lat., 143° 30′ E. long.), a post town with telegraph, money-order, and savings bank office, 96 postal miles NW. of Melbourne. It is in the county and electorate of Grenville, Central police district, and is situated on the head of Baillie's Creek. Hotels: Man of Kent, Greyhound, Prince of Wales, United States. Coaches run to Ballaarat, fare, 2s. return; Carngham, fare, 6d.; Chepstowe, fare, 1s.; Smythesdale, fare, 1s. State school (No. 574) Roman Catholic school. Churches: Presbyterian, Church of England, Wesleyan, and Roman Catholic. There are five stores, a police station, petty session court held 4th Wednesday of month, 2 P.M., mechanics' institute, and free library (1,200 vols.). Mining, agricultural and pastoral pursuits are followed. Communication is by cab to Smythesdale (fare 1s.), which is distant 7 miles, thence rail to Melbourne. The water supply is from the local reservoir. Formation: silurian. Population, town 330, district 1,100.

SNOWY CREEK. *See* MITTA MITTA.

SOMERTON (37° 36′ S. lat., 144° 58′ E. long.), a village, with post and money-order office, in the county of Bourke, police district of Campbellfield, on the Merri Creek, 13¾ miles N. of Melbourne. It is a railway station on the extension from Coburg, fares 1s. 1d. and 10d. Hotel: Somerton. There are a State school (No. 548), Presbyterian church, several dairies, and steam chaff mill in the village. Quail shooting and fishing.

SOMERVILLE (38° 12′ S. lat., 145° 12′ E. long.), a post town, with telegraph station, money-order office, and savings bank agency, in the county and electoral district of Mornington, police district and shire of Frankston and Hastings, 33¾ miles SE. of Melbourne. It is 7 miles from Port Phillip Bay, and 3 miles from Western Port Bay. It is well sheltered from hot winds, and is very salubrious. It is a station on the Crib Point railway line; return fares 7s. 10d. and 5s. 4d. It is a fruit-growing and dairy-farming district, and the produce of the orchards has a good reputation in the Melbourne market. There are also several extensive nurseries in the neighbourhood. The Colonial Bank of Australasia has a branch here. It has a place of worship, used alternately by the Church of England and Presbyterians, a Wesleyan chapel, a State school (No. 2,656), a mechanics' institute and free library (1,058 vols., D. Bett, sec.), and wine shop. The soil is a sandy loam with clay underneath. Population, town 162, district 350.

SORRENTO (38° 30′ S. lat., 144° 45′ E. long.), a watering-place, county and electoral district of Mornington, police district of Bourke, shire Flinders and Kangerong. It lies on the south-east coast of Port Phillip Bay, and about 40 miles (66 postal) SE. of Melbourne. It has three hotels, the Sorrento, Continental, and Mornington, several coffee palaces. A State school (No. 1,090), Anglican, Roman Catholic, and Presbyterian churches, a post, money-order, savings bank and telegraph office, a mechanics' institute with library of over 1,000 vols., also an excellent pier and commodious bathing-houses. Court of petty sessions is held here. The communication is by sailing craft or by coach from Mornington, *viâ* Dromana. In the summer, however, two large steamers run daily, there and back the same day with visitors, Sorrento being now a favourite place of resort for pleasure-seekers and picnic parties, and on public holidays being largely visited. There is a tramway connecting Sorrento with the ocean beach. Points of interest are "London Bridge," Diamond Bay, Bach Beach, "St. Paul's," Mt. Coppin, Mt. Kerferd, Jubilee Point. The formation is limestone. Near here Colonel Collins landed in October, 1803, and, after a very short stay, hurriedly departed from "so inhospitable a spot." There are numerous seaside residences of wealthy gentlemen from Melbourne in the neighbourhood, which has a settled population of about 500, that in the summer being fluctuating, but averaging about 2,000.

SOUTH BARWON SHIRE. *See* GERMANTOWN.

SOUTH GIPPSLAND SHIRE. *See* FOSTER.

SOUTH MELBOURNE (formerly called EMERALD HILL) (37° 50′ S. lat., 144° 59′ E. long.), county Bourke, was at first a portion of Lonsdale ward of the city of Melbourne, but was separated from the city on the 26th May, 1855, and was the first municipality in active operation under the then newly-passed Municipal Institutions Act, proclaimed a city in 1883, and is divided into five wards with four representatives on the Metropolitan Board of Works. It is situated about half-way between Melbourne and Port Melbourne, on the south bank of the river Yarra, and can be reached by rail, tram, or car; fares, 2d. and 3d.; stations being at South Melbourne, Albert Park, Middle Park, and Montague. The public buildings, comprising town-hall, post-office, electric telegraph station, police court, police barracks, and mechanics' institute, with library of 5,658 volumes, are the most imposing pile out of Melbourne. There is also a free library containing 3,073 volumes. The other public buildings are the police court, Try Boys' hall, Mendes' academy of music—used by Salvation Army, Temperance hall, &c. There are ninety hotels, numerous places of worship, of all denominations, as follows:—Church of England (3), Roman Catholic (2), (St. Peter and St. Paul's), Presbyterian (3), Wesleyan (6), Baptist (2), Primitive Methodist (1), Disciples of Christ (1), Congregational (1), and Chinese Joss House. There are six State schools (Nos. 1,181, 1,253, 1,852, 2,784, 2,086, and 2 815). The South Melbourne College (J. B. O'Hara, principal) is a remarkably successful educational establishment. In the district extensive works have been carried out, such as wharves, swinging basins, &c.; also the raising of low-lying land above flood level suitable for manufactories, which add largely to the wealth and importance of the municipality. The places for recreation purposes are Beaconsfield Parade, the Albert Park, in which numerous cricket, lacrosse, and football clubs meet for matches. The park lake is surrounded by a number of boat-houses, some of which are owned by yachting and rowing clubs. The water has been stocked with fish. All the leading insurance companies have local agencies. There are several building and Friendly societies, and six branch banks: Union, Victoria, English and Scottish, Commercial, Savings, and National. St. Vincent de Paul's Boys' Orphanage is under the management of the Christian Brothers; and there is a girls' orphanage, conducted by the Sisters of Mercy. The number of inhabited dwellings 8,167, ratepayers on books 8,800, annual value of ratable property £263,941, rate 1s. 9d., area 2,311 acres. The magistrates hold a court tri-weekly, but minor cases are disposed of daily. The city returns three members to Parliament. It is lighted with electricity and gas. Population, 38,000. Local newspapers, the *Record* and the *Courier*, weekly.

SOUTH YAN YEAN (see also BARBER'S CREEK) (37° 34′ S. lat., 145° 9′ E. long.) is a post town, with savings bank and money-order office, situated on Plenty River, 18½ miles N. of Melbourne, and 571 feet above sea-level, 9 miles from base of the Plenty Ranges, in the counties of Bourke and Evelyn, and police district Whittlesea, electoral district of Bourke, E. It is a railway station on the Whittlesea line; fares, 3s. 4½d. and 2s. 5½d. Hotels: Bridge Inn and Lamb Inn. State school (No. 697), Presbyterian, Wesleyan and Roman Catholic places of worship and a mechanics' institute and library (1,294 volumes). M.U.I.O.O.F., Rechabite and St. Andrew's lodges. The district is both agricultural and pastoral. The Yan Yean reservoir is 4½ miles N. from township. It is supplied by the Plenty river, and supplies Melbourne with water. The reservoir is formed by closing up the south side of the valley with an embankment 3,159 feet in length, 31 feet in height, and tapering in width from 170 feet at bottom to 20 feet at the top. The water thus dammed up assumes the proportions of a lake, 1,360 acres in area, 9 miles in circumference, 2¼ miles in diameter, and 25 feet in depth at the deepest part, with a capacity of 6,400 million gallons of water. The water is conveyed to Melbourne by an open aqueduct about 7 miles long, and thence by a double service of immense pipes, safety valves being constructed at suitable points to limit the enormous pressure. The Yan Yean reservoir is the most favourable for storage of water in Australia or England. Owing to the large demand for water in summer, other mains have been laid down, and the city is being additionally reticulated. A further water supply is obtained from Wallaby Creek, which rises in the Dividing range, and in its natural course flows into King Parrot Creek, and thence into the Goulburn. The completion of the Watts river aqueduct has increased the Melbourne water supply by 25,000,000 gallons daily, and when the whole scheme is finished, including the Maroondah reservoir and enlargement of the aqueduct by 50,000,000 gallons. Formation: basaltic. Population, 170.

SOUTH YARRA (37° 50′ S. lat., 145° 0′ E. long.), an important suburb of Melbourne, and part of Prahran city, lying contiguous to and on the SE. side of the city, in the county of Bourke, and electoral district of South Yarra. The Melbourne Botanical Gardens and Fawkner Park are in the immediate neighbourhood. Tramcars run constantly to and from the city, fare, 3d.; there is also railway communication, fares 3d. and 2d., with trains at intervals of every few minutes morning and evening. The railway department have erected a substantial and commodious station at this point. It is the junction of the Gippsland railway with the Brighton line. The Frankston line joins the Gippsland line at Caulfield, 3½ miles distant. The Presbyterians, Episcopalians, Baptists, and Wesleyans have places of worship here, and there are a State school (No. 583) and a police station. The streets, which are well made and drained, are lighted, some with gas and some with electricity. The water supply is from the Yan Yean. Villas and elegant residences, with spacious grounds and gardens, are plentifully scattered about the district, which is a very favourite dwelling-spot for the merchants, professional men, and higher class of tradesmen of Melbourne. It has a post office savings bank, telegraph and money-order office, and branch of the English, Scottish, and Australian Bank, and a coffee palace.

SPOTTISWOODE. *See* NEWPORT.

SPRINGFIELD (county Bourke: electoral district Bourke E. shire Springfield) is a railway station, with post office, 45 postal (56¾ rail) miles N. of Melbourne, reached by coach to Lanceford, thence rail. Has hotel, State school. The district is a farming and grazing one. Bolinda Vale station, the property of Sir Rupert Clarke, is here. Area of shire, 111 square miles; population, 700; 100 dwellings, 160 ratepayers; net annual ratable value, £12,595, rate 1s. Land under cultivation 3,050 acres.

SPRINGHURST (36° 12′ S. lat., 144° 25′ E. long.), a small post town, with telegraph station, in the county of Bogong and electorate of Wangaratta and Rutherglen, shire North Ovens, 160 miles NE. of Melbourne. The Didah Didah creek runs through the township. It is a station on the North-Eastern Railway. Fares, 28s. 9d. and 19s. 1d.; return, 43s. and 28s. 9d. The line to Wahgunyah branches off here. Hotels: Carriers' Arms and the Albion. There are a State school (No. 1,583), a Roman Catholic church, a store, and the Ovens and Murray Dairy Co.'s butter factory, supplied by five district creameries, besides local supply. It is an agricultural, also a good vine and fruit growing district. Distance from Wahgunyah, 14 miles; from Rutherglen, 9 miles; from Chiltern, 9 miles; from Eldorado, 11 miles; from Wangaratta, 14 miles. Population of town and district, about 300.

SPRINGS. *See* WAUBRA.

STAFFORDSHIRE REEF (county and shire Grenville), post township, 118 miles W. of Melbourne. Reached by rail to Scarsdale, coach thence. Has hotel, State school and church. Mining district. Population, 150.

STANLEY (36° 28′ 30″ S. lat., and 146° 45′ 25″ E. long.), a post town, with savings bank, telephone station, and money-order office, in the county of Bogong, and electorate of the Ovens on the Nine Mile Creek, 178 postal miles NE. of Melbourne. The nearest places are Beechworth, 6 miles NW. (to and from which a coach runs daily, coach fare, 1s.), fare thence to Melbourne, 30s. 11d. and 20s. 8d., Yackandandah, 10 miles NE., Hillsborough, 6 miles E. and Hurdle Flat, 2½ miles N. Hotels: Star, Full Moon, and Vine. In the township are Episcopal, Wesleyan, Catholic, and Presbyterian places of worship, Oddfellow, I.O.R., and Forester lodges, a State school (No. 550), a court-house, police camp, a temperance hall, an Athenæum, with popular free library of 3,110 volumes. Stanley is situated on the northern slope of the Dingle range, and owing to its height above the sea level (2,400 feet) snow storms are not infrequent in winter. Mount Stanley (height 3,444 feet), which lies about 4½ miles SE., is a favourite place of resort for picnic and pleasure parties, the view from its summit being a magnificent one. The State forest here supplies the Beechworth district with timber, giving employment to several sawmills. Alluvial and quartz mining is also carried on. Formation: lower silurian. Population 140, including district 1,000.

STAWELL (37° 3′ S. lat., 142° 47′ E. long.), a borough, 150¼ postal miles from Melbourne NW., county Borung, shire and electoral district of Stawell, Wimmera police district, 759 feet above sea level. Railway communication with Melbourne; fares, 26s. 11d. and 18s. Stawell has been appointed the changing station between Melbourne and Adelaide, and large engine sheds and refreshment rooms have been constructed. The principal hotels are the Commercial, Royal Exchange, Town Hall, Bull and Mouth, Foresters', Railway, National, Post Office, and Provincial. The banks represented in the town comprise the London, Australasia, Savings and Union. The majority of the insurance companies have agencies. There is a good hospital, one of the finest in the colony; a mechanics' institute, with library of 5,875 volumes, and several places of worship, belonging to the following denominations:—Church of England, Presbyterian, Baptist, Wesleyan, Roman Catholic (St. Patrick's), English Independent, Welsh Independent, Primitive Methodist, Congregational, and some others. The buildings of the five first-named denominations command special attention, from their ornamental and commodious character. Other prominent erections are the town-hall, the post and telegraph office, a large and handsome structure, and the court house, which cost about £8,000. It has a telegraph station, savings bank, and money-order office, and two State schools (Nos. 502 and 1,986), school of mines, butter factory, grammar school, &c. The local athletic club is considered to be one of the best in Australia. The town is lighted with gas. Stawell is the centre of the Pleasant Creek goldfield, and is best known in consequence of its rich quartz-reefs, which have been proved to be payable at great depths. One of the deepest paying mines in the colony is here; the Magdala, 2,409 feet, now working under a new proprietary, and having amalgamated with the Moonlight Company, is known as the Magdala-cum-Moonlight Company; rich quartz is obtained at from 1,200 to 1,555 feet from the surface, the monthly yield averaging from 700 to 800 ozs. The Amalgamated Scotchman is another important mine with a varying monthly yield; there are several other rapidly progressing mines. Numerous cyanide works, comprising some of the most extensive plants in the colony, have been erected, and give employment to a large number of men. The quartz mines give employment to about 800 miners and numerous others, and ensure a steady market for the produce of a large agricultural population, which during the last few years has settled upon the lands in the district in various localities included in a radius of 40 miles from the town. It is the chief market town for a large portion of the Wimmera and Richardson districts, and an important loading station for grain and wool. The town is increasing in size, the splendid water supply and beautiful scenery rendering it a healthy and attractive place of residence. The local governing bodies are the Stawell Borough Council and the Stawell Shire Council. The former has ratable property of the annual value of £22,800; area of borough 5,996 acres, 1,800 dwellings, 1,500 ratepayers, 1s. 6d. rate; area of shire, 1,001 square miles, with 804 dwellings, 1,051 ratepayers, 1s. rate, and net annual value of ratable property £45,651. Vine culture has given satisfactory results, and in the immediate vicinity of Stawell, notably at Great Western, the soil is specially adapted for it; further inland it is more suitable for grain crops. According to the returns, March 1, 1900, there were 32,424 acres under tillage, of which 15,294 were wheat, 3,211 oats, and bearing vines 1,122; oaten hay, 3,548. The land generally is a stiff clay, heavily timbered. The gold yield for 1899 was 20,178 ozs. The town derives its water supply from the local reservoir, into which water is led by pipes from Fyan's Creek, the estimated storage capacity of all being 22,981,377 gallons. There are freestone quarries at the Grampians, near here, to which at great expense a tramway has been made. This stone was selected for erecting the front of the Melbourne Parliamentary buildings, in addition to Melbourne General Post Office and other public buildings. Population of the borough 6,506, and of the shire 3,200. Newspapers: the *Pleasant Creek News and Stawell Chronicle* (established 1868), and *Stawell Times* (1887), each published three times a week.

STEIGLITZ (37° 47′ S. lat., 144° 14′ E. long.), a municipal township, with savings bank and money-order office and telegraph station, on Sutherland's creek, county and electoral district of Grant, police district Geelong, 81½ postal miles NW. of Melbourne, and 7 miles distant from Meredith, the nearest station on the Geelong and Ballaarat railway. A coach runs daily between Steiglitz and Meredith, carrying mails and passengers; coach fare, 2s.; 3s. return. Hotels: the Court House and Scotts. There are churches of the Anglican, Wesleyan, Presbyterian, and Roman Catholic bodies, a court-house, a police station, a mechanics' institute, with a library of 500 volumes, State school (No. 1,487), mining registrar, a public hall, numerous business places, and Masonic, Oddfellows', Druids', and A.N.A. lodges. The district is a mining one. Extensive machinery has been erected; there are five winding and three crushing plants at work; yield, 1899, 2,283 ozs. Population, about 900. Newspaper: *Steiglitz Miner*, published Saturday morning.

STRATFORD (37° 55′ S. lat., 147° 5′ E. long.), county of Tanjil, and electorate of North Gippsland, police district of

Sale, shire of Avon, post township with telegraph, money-order office, and post-office savings bank, in the Gippsland district, on the river Avon (here crossed by a bridge 380 feet in length), 138 miles ESE. of Melbourne. It has direct railway communication with the metropolis, fares 24s. 6d. and 16s. 5d. Stratford has two hotels, Swan and Stratford, and temperance hotel, a State school (No. 596), a Catholic school, four churches—Episcopal, Presbyterian, Wesleyan, and Catholic, G.U. and M.U. Oddfellows (with resident doctor), shire hall, and offices of the Avonshire Council, and mechanics' institute, with hall capable of holding 400 persons for entertainment (library 1,800 vols.). Court House where petty sessions are held. The Commercial Bank has a branch here (Tuesdays and Saturdays). Town is lighted with kerosene. The district north and east of Avon River is chiefly pastoral, and on south side mostly agricultural. Area of shire 652 square miles, population 2,385, 474 dwellings, 635 ratepayers, 1s. rate, net annual value of ratable property £30,633; 7,330 acres under cultivation. Population of town 450.

STRATHFIELDSAYE (37° 45′ S. lat., 145° E. long.) (county Bendigo, electoral district Sandhurst South), post town and shire on Sheepwash and Emu Creek (railway station, 3 miles distant, is closed, Bendigo, 6 miles distant, being nearest railway station). There are here two hotels, stores, shire hall, police station, State school, and Wesleyan church. In the shire 6,776 acres are under tillage. Area of shire 234 square miles, population 3,860, dwellings 755, ratepayers on roll 592, net annual value of ratable property £18,943, rate 1s. Industries—chiefly fruit growing and wine making. Some gold is being found in the district. Geological formation: lower silurian. Population of district, 106.

STRATHMERTON (co. Moira, shire Numurkah), post town, with money-order and telegraph office, savings bank, agency, and railway station, 145¼ miles NE. of Melbourne, fares 26s. 1d. and 17s. 6d. Has branch Bank of Australasia, two hotels, two general stores, public hall, police station, grain stores, public, reserve, and a number of tradespeople's shops. Anglican, Roman Catholic and Wesleyan churches, State school (No. 2,790), social institution, temperance, cricket and football clubs. Agricultural district. Grey and chocolate loam and clay subsoil. Population of town, 300, and district, 1,200.

STRATHMORE (37° 47′ S. lat., 142° 8′ E. long.), a township, county Villiers, shire Mount Rouse, electorate Villiers and Heytesbury, parish of Yuppeckiar, police district Dunkeld, situated on the Nine Mile creek, at the junction of the Ballaarat, Hamilton, and Ararat main roads, 28 miles from Hamilton, 38 from Ararat, and 180 miles (170½ postal) W. of Melbourne. Glenthompson (3½ miles) and Dunkeld (8 miles) are the nearest railway stations. Roman Catholic chapel. The neighbourhood is marshy (being the head sources of the Wannon); the swamps afford excellent shooting and fishing; district is pastoral. Population, 12.

STREATHAM (37° 39′ S. lat., 143° 1′ E. long.), a township, with savings bank, money-order and telegraph office, in the county of Ripon, electoral district of Ararat and police district of Hamilton, on Fiery creek, about 129 (128 postal) miles W. of Melbourne. Rail to Linton's, coach thence 30 miles, 7s. Ballaarat is 48 miles distant NE., Beaufort, 27 miles NE., Ararat, 34 miles NW., Scarsdale, 35 miles, are the nearest railway stations. Hotel: the Streatham. Pastoral district. A State school (No. 844), Presbyterian church (St. John's), stores, public hall, and a blacksmith's shop are here. Water from tanks. In the neighbourhood are several salt lakes, from which during the summer months large quantities of salt are collected. Formation: upper volcanic, with white earthy limestone overlying the basalt. Population, 80.

STUART MILL (36° 47′ S. lat., 143° 15′ E. long., county, shire and electorate of Kara-Kara, police district of Stawell) is a postal township with savings bank and money-order office on the Strathfillan creek. The means of communication from Melbourne, 152 miles SE., is by rail to Avoca, and thence by coach, 30 miles, or to Carapore railway station, 7 miles, thence rail. There is one hotel—Shamrock; police camp, a State school (No. 1,024), Catholic and Wesleyan churches, a mechanics' institute, with library of 1,117 vols.; store. Isis and Greenock chief mines. The racecourse is about 2 miles distant. The country around is principally ranges, traversed by auriferous reefs, the intervening slopes and valleys being cultivated in small farms of 30 to 100 acres. Population of town and district, 245.

SUNBURY (37° 36′ S. lat. 144° 46′ E. long., in the county of Bourke, shire of Bulla, electorate of Bourke West), a post town, with savings bank, telegraph, money-order office, and railway station on the Melbourne and Echuca line of railway, 23¾ rail miles NW. of Melbourne: fares, 4s. 2d. and 3s. It is situated on Jackson's Creek, 702 feet above sea-level. State school (No. 1,002) and Roman Catholic school, Mechanics' Institute and Free Library (1,054 vols.), flour mill, two creameries, and butter factory, Church of England, Roman Catholic (with school), Presbyterian, and Wesleyan places of worship, branch Colonial Bank. Hotels: Rupertswood, Royal, Sir John Franklin, Railway, Court House, Ball Court, and Commercial. A lunatic asylum is located here. Court of petty sessions held fortnightly. Town is lighted with kerosene. Near here is the estate of Sir Rupert Clarke, with a palatial residence known as Rupertswood (was the headquarters of a battery of Horse Artillery, disbanded in 1897). The district is a pleasing one, having some features of a pretty English landscape. Much land is under cultivation; grapes and oranges are largely grown. There are a large number of farms in the district. Population, 1,700. Newspaper: *Sunbury News*.

SUNNYSIDE. *See* GLEN WILLS.

SURREY HILLS (county Bourke, shire, Nunawading and Boroondara) is a railway station, with telephone bureau, telegraph, post, and money-order office and savings bank; Suburban to Melbourne about 8 miles E. It has English and Scottish bank, State school (No. 2,778), M.U.I.O.O.F., A.N.A., U.A.O.D., H.A.C.B.S., Boys' Home, and Home for Destitute Children, and I.O.R. lodges, various churches, free library (580 vols.), and two hotels. Town lighted with gas. Fine views to be obtained in the vicinity. Population, 900.

SUTTON GRANGE (county Dalhousie, shire Metcalfe United), post township, 78 miles NW. of Melbourne, reached by rail to Elphinstone, coach thence. Has hotel, State school, and church. Agricultural and pastoral district. Population, 50.

SWAN HILL, or CASTLE DONNINGTON (35° 20′ S. lat., 143° 35′ E. long., county of Tatchera, electoral district of Donald and Swan Hill, shire Castle Donnington, and police district of Sandhurst), is a post town, with sub-treasury, land office, money-order office, savings bank, and telegraph station, in the Wimmera district, on the river Murray, 214¼ miles NNW. of Melbourne. It is the terminal station on the railway line from Bendigo; fares, 38s. 5d. and 25s. 7d. River steamers ply to Echuca and Mildura. Coaches run four times a week to Balranald; fare, 25s.; return £2, available three months. The hotels are the Royal, White Swan, and Commercial. Banks: London and National; Masonic, Oddfellows', Rechabites, L.O.L., H.A.C.B.S., and A.N.A. lodges. Agricultural society. Agricultural and pastoral district. It has a hospital, a State school (No. 1,142), a court-house, English, Roman Catholic, Wesleyan, and Presbyterian churches, and police barracks; area of shire, 3,392 square miles, dwellings 750, ratepayers 1,066, rate 1s., net annual value of property £29,320. The district is principally a pastoral one, but a considerable breadth is now under cultivation, there being in 1900 127,935 acres; of this area 121,568 acres were wheat. The surrounding Mallee district is being settled and successfully cultivated. Geological formation: pliocene tertiary. Population of town 950; of shire, 5,000. Newspaper: *Swan Hill Guardian*.

SWAN HILL SHIRE. *See* KERANG.

TABILK (county Moira, shire Goulburn) is a railway station, with telegraph and post office, about 74 miles NE. of Melbourne, on Goulburn river. An important wine district, Chateau Tahbilk being here. Two hotels and State school. Industries: distillery, creameries, saw-mills. Population about 200.

TAHARA (37° 45′ S. lat., 141° 42′ E. long.), a post town, in the county and electorate of Normanby, police district of Branxholme, shire Portland, near the river Wannon, 20 miles from Hamilton, 12 from Coleraine, and 225½ postal miles W. of Melbourne. With a State school (No. 1,378), Church of England (Presbyterians hold services in the Church of England school monthly), two stores and an inn—the Waterloo. Communication with Melbourne is by conveyance to Grassdale, train thence. Mail arrives per bicycle. Agricultural and pastoral district. Water from tanks and public dam. Formation, volcanic. Population of town, about 70, of district, 160.

TAGGERTY (county Anglesey, shire Alexandra), postal township on the Acheron river, 114 miles NE. of Melbourne. It is reached by rail to Alexandra Road, thence coach. Cheese and butter-making industries. Cathedral mountain in the vicinity.

TALBOT (37° 15′ S. lat., 143° 43′ E. long.), county and shire of Talbot, electorate of Talbot and Avoca and police district of Ballaarat (in its early days better known under the name of DAISY HILL and BACK CREEK), is a township on the Back creek, in the shire of Talbot, 107½ miles NW. of Melbourne, and 9 miles from Maryborough. Height above sea-level, 818 feet. The area of the municipality is 5,578 acres, with 290 dwellings, 402 ratepayers, 1s. rate, and ratable property valued at £118,160 (net annual value, £5,908), and the area of the shire is 184 square miles; annual value of ratable property £16,952, rate 1s., dwellings 413, ratepayers 521; land under cultivation 4,800 acres. The route to Melbourne is by rail, *viâ* Ballaarat, Bacchus Marsh or Castlemaine. Fares, *viâ* Ballaarat and Bacchus Marsh, 19s. 4d. and 12s. 11d. Principal hotels are Commercial, Phœnix, Town Hall, Glasgow Arms, Court-house, All Nations, and others. Coaches run to Amherst, Dunach, and Evansford. The town possesses the advantages of having a gas-works, a good water supply, derived from Lake Stewart, at Evansford, storing 182,978,781 gallons, a convenient show yard of 10½ acres in extent, a recreation reserve, a flour-mill, hay and corn and produce stores, and a soap and candle works; creamery; also a post, money-order office and savings bank, and telegraph office, railway station, within three minutes' walk of the township, court-house, sub-treasury, lock-up, police barracks, a good hospital, a free library, 2,500 vols., a large State school, called the Prince Alfred (No. 954), also at Amherst, and Roman Catholic school. The banks in the town are the London Bank Limited and Bank of Australasia. The churches are, Anglican (St. Michael's), Wesleyan, Presbyterian, Primitive Methodist, and Catholic (St. Patrick's). The district is both a mining and an agricultural one. The workings are for the most part alluvial, though the quartz reefs, as far as tested in the district, have been proved highly auriferous. Several cyanide plants running. Large quantities of land have been taken up for farming operations. A large area of old diggings has been taken up for fruit-growing. The geological formation is lower silurian, with outcropping basaltic rock. Population, 1,380; of the shire, 1,650. Newspaper: *Talbot Leader*, published every Friday morning. Robert Allen, proprietor.

TALLANGATTA (36° 12′ S. lat., 147° 15′ E. long.), a post town with a telegraph, savings bank and money-order office, 212½ miles (215 postal) NE. of Melbourne, on the River Mitta

Mitta, at the junction of the Tallangatta Creek, county and electoral district Benambra, shire Towong. It is a terminal station on the branch line from Wodonga; fares, 38s. 2d. and 25s. 7d. It is the seat of the Towong shire council, and has Presbyterian, Wesleyan, Anglican, and Roman Catholic churches, Masonic and Oddfellow lodges, mechanics' institute, and library containing 1,150 volumes, a State school, Government receipt and pay offices, branches of the Banks of Australasia and New South Wales, a court-house, private hospital, coffee palace, two hotels (the Tallangatta and Victoria), brewery, butter and cordial factories. The township is prettily situated in the midst of a fine pastoral and mining district. Lighted with kerosene. Water from springs and tanks. Coaches run to Mitta Mitta daily, and the Upper Murray three times a week, and to Cravenville and Dark River goldfield twice a week. Formation: metamorphic slate and granite. Population, 600, and of shire, 5,700. Local journal: the *Upper Murray and Mitta Herald*.

TALLAROOK. *See* DABYMINGA. Tallarook has been surveyed out in blocks, and is located on the east side of the Goulburn river, but is at present only a sheep run. Dabyminga is really the township.

TALLY-HO (37° 45′ S. lat., 140° E. long.) is a postal centre in the county of Bourke, electoral district of Oakleigh, police district of Burwood, shire of Oakleigh, 11 miles E. of Melbourne, on boundary road dividing Oakleigh and Nunawading. Communication with capital: horse to Burwood, cab to Camberwell, rail to Melbourne. Hotel, Tally-Ho. State school (No. 454). Church: Primitive Methodist. Good orchard land, with fine clay subsoil, and splendid brick and tile clay. Formation: schistose. Population, about 454.

TAMBO SHIRE. *See* BRUTHEN.

TANJIL (38° 2′ S. lat., 146° 9′ E. long.) is a postal township, on the Tanjil River, county Tanjil, shire Narracan, electoral district of Gippsland Central, and police district of Walhalla. It lies 96 miles SSE. of, and is reached from Melbourne, by way of Moe Railway Station, from which coach 4s. It has a State school (No. 1,517, at present closed), and two stores. The district is a mining, agricultural, and pastoral one. Formation: sandstone and slate. Population, 30; district, 300.

TARADALE, county of Talbot (37° 9′ S. lat., 144° 22′ E. long.), electoral district of Castlemaine, police district of Bendigo, is a postal township, with telegraph, savings bank, and money-order office. It is a railway station, 1,338 feet above sea-level, on the Melbourne and Echuca line, situated on Back creek, ¼ mile W. of the Coliban river, 67¾ rail miles NNW. of Melbourne, on the main Mount Alexander road. Railway fares, 12s 1d. and 8s. 1d. It is the largest town in the Metcalfe shire. The hotels are the Freemasons, Commercial, Oddfellows', Golden Age, and others. A branch of the National Bank, a State school (No. 614), and Roman Catholic schools, a mechanics' institute, with a library of 1,433 volumes, and free reading-room, five churches—Episcopal, Presbyterian, Wesleyan, Catholic, and Church of Christ, and a court-house are here. Court of petty sessions sits on Wednesdays, and sometimes on Saturdays; wardens' court on Saturdays. A considerable tract of land is taken up in farms, and the later fruits are being largely cultivated. Mining matters attract a great amount of attention, and the yields from many of the quartz reefs and alluvial mines at Metcalfe, Barfold, and Belltopper have made the town a mining centre, the yield for 1899 being 2,605 ozs. New Plutus Consolidated (English) and New Golden Gate Companies are principal mines. Taradale is supplied with water from the Malmsbury reservoir. The railway crosses the valley and creek on a splendid bluestone viaduct at an elevation of 120 feet. The surrounding scenery is picturesque; there is a range of lofty hills 2 miles W., between Taradale and Fryer's Creek, lofty stringy bark ranges to the E. and W., and undulating ranges to the N. Formation: lower silurian and upper volcanic. Along the course of the river is a bed of auriferous alluvial. Population of town, 322; of the Riding, 1,466; shire, 3,760. Newspaper: *Metcalfeshire News*.

TARNAGULLA (36° 40′ S. lat., 143° 50′ E. long.), a municipal township, with post, money-order, savings bank and telegraph office, in the county of Gladstone, electoral district of Dunolly and police district of Maryborough near the Loddon river, 136¾ miles NW. of Melbourne. Dunolly is 10 miles distant S., Inglewood, 14 miles NE., Bendigo, 30 miles distant ENE., and Castlemaine, 35 miles distant SE. It is connected by rail with the capital, the railway line from Dunolly to Inglewood passing through the town; fares, 24s. 6d. and 16s. 5d. Mail-coach leaves for Bendigo at 6.15 A.M.; returns at 4.30 P.M. Hotels: The Golden Age, Victoria, and Tarnagulla. There are 214 dwellings, 175 ratepayers, 1s. rate, and ratable property of the value of £35,000; net annual value, £4,671; area, 5,133 acres. Mining attracts considerable attention, and there is a cyanide works. Yield 1899, 1,018 ozs. The Union Bank has a branch in the town; and the leading insurance companies have agencies. Lighted with kerosene. There is a mechanics' institute, with a library of 1,736 volumes, a Court-house, and State schools (Nos. 1,023, 457), and M.U.I.O.O.F. lodge. Churches: Church of England, Presbyterian, Wesleyan, and Roman Catholic. The water supply is derived from a reservoir, whose capacity is 16,000,000 gallons. Three miles to the N. is the township of Llanelly, which is a continuation of the Tarnagulla reefs. Agriculture is carried on to a limited extent. Five miles to the SE. on the River Loddon are the farming districts of Laanecoorie and Newbridge. To the west of the town lie the farming districts of Laurie and Murphy's Creek. Formation: old sandstone and slate. Population, 820. The local newspaper is the *Tarnagulla and Llanelly Courier*, published on Saturday.

TARRAVILLE (38° 40′ S. lat., 146° 45′ E. long.) is a post town, with money-order office and telegraph station, on the left bank of the Tarra rivulet, near its mouth, which here widens into a narrow estuary, navigable by very small vessels at high tide, in the county of Buln-Buln, electoral district of Gippsland S., and police district of Alberton. The communication from Melbourne, 136 miles (166 postal) NW., is by rail to Port Albert, thence by road 3 miles, or by steamer to Port Albert from Queen's Wharf, Melbourne, fares 10s. and 5s., taking about 32 hours. There is an hotel, a State school (No. 615), three churches (Episcopal, Catholic, and Wesleyan), court-house, shire hall, mechanics' institute and free library having 550 volumes, four general stores, and one tannery. It is almost surrounded by inlets of the sea, from which it is only slightly elevated. Population, 140.

TARRAWINGEE (36° 24′ S. lat., 146° 30′ E. long.), a post town, with telegraph and railway station (about 3½ miles distant), on Ovens river, 602 feet above sea-level, shire N. Ovens, the county of Bogong, electorate of Wangaratta and Benalla police district, 160½ postal miles NE. of Melbourne. It is 10 miles from Wangaratta; fares, from Melbourne, 42s. 6d. and 28s. 3d. Two hotels. There are two State schools (Nos. 1,116 and 2,031), Church of England and Roman Catholic (St. John's) places of worship, a flour-mill, wheelwright. The district is both agricultural and pastoral, the soil being of a fairly fertile character. Population, 76; including the district, about 1,500.

TARRENGOWER. *See* MALDON.

TATURA (36° 25′ S. lat., 145° 19′ E. long.), a post town, with money-order office, savings bank, telegraph, and railway station, 110 miles NE. of Melbourne; fares, 19s. 8d. and 13s. 2d. It is also connected by rail with Echuca, 34 miles distant. It is situated on the Goulburn river, in shire, county and electorate of Rodney, 377 feet above sea-level, and surrounded by fine agricultural country. The principal hotels are Victoria, Criterion, and Commercial. There are Anglican, Presbyterian, Roman Catholic, Baptist, and Free Methodist churches, I.O.O.F., A.N.A. and I.O.R. societies, a State school (No. 1,441), a court-house, and a Mechanics' Institute (1,621 volumes) in the town, as well as numerous stores. Industries: drying raisins and currants, also wine-making on a very large scale, steam flour mill, steam chaff and corn crushing works. Branches of the Commercial and Victoria Banks are here. Lighted with kerosene. Much attention is paid to the planting of lucerne, fruit trees and vines. The meetings of the Rodney Shire Council and Rodney Irrigation and Water Supply Trust are held in Tatura. Area of shire 400 sq. miles, with 1,000 dwellings, 1,290 ratepayers, 1s. rate, and net annual value of ratable property £53,398, acres under cultivation 79,785, of which 45,591 are in wheat, 6,235 wheaten and 577 other hay, and 4,518 in oats. An urban water trust is also constituted for the town. One of the most important agricultural societies in the Goulburn Valley is established here, with extensive show yards and handsome grand stand, also public gardens and racecourse. Population, 600; of shire, 4,600. Newspapers: *Herald* and *Guardian*.

TEESDALE (38° 7′ 43″ S. lat., 144° 5′ 49″ E. long.) is a post town, in the county of Grant, shire Leigh, electoral district of Grenville, and police district of Geelong, on the Native Hut creek. It is about 40 miles (66½ postal) SW. from Melbourne, and 7 miles distant from the Leigh Road station, on the Geelong and Ballaarat line; coach fare, 1s. 6d. There are in the township a mechanics' institute, with library of 450 volumes, a State school (No. 2,065), and Presbyterian, Primitive Methodist, and Roman Catholic churches. The district is agricultural and pastoral. Good fishing and shooting. There is a capacious reservoir in the township. Formation: Some very fine tertiary (eocene) beds are found to the south along the Native creek, containing well-preserved fossils. The shire has an area of 381 miles, 473 dwellings, 468 ratepayers on roll, 1s. rate, and net annual value of ratable property is £38,847; land under cultivation, 3,123 acres. Population of township 169, of shire 2,300.

TELFORD, a post town in the county of Moira, electoral district Benalla and Yarrawonga, police district and shire Tungamah, 7 miles from the Murray river, 154¾ miles NE. of Melbourne. It is a telegraph and railway station on the line from Benalla to Yarrawonga; fares, 27s. 8d. and 18s. 7d. There is a public hall, hotel, State school (No. 2,241), a Presbyterian church, and several stores. The district is agricultural and pastoral. Population, 50; district, 600.

TEMPLESTOWE (37° 46′ S. lat., 145° 12′ E. long.) is a postal village in the county of Bourke, electoral district of Evelyn, police district of Doncaster, shire of Templestowe, on the river Yarra, Ruffey's Creek, 11½ miles due E. of Melbourne. It contains a State school (No. 1,395), Anglican, Presbyterian, and Wesleyan churches, two hotels (Templestowe and Upper Yarra), mechanics' institute (596 vols.), and a post-office. Lighted with kerosene. Coach once a day from Heidelberg, 3 miles on the other side of the river, is the best means of reaching the metropolis, fare, 6d. Cab to Templestowe, coach to Warrandyte. The district is chiefly dairying and fruit-growing, with plenty of fishing. The prevailing geological formation in the Templestowe district is azoic sandstone. It exists in strata of high inclination; in most places it is covered with gravel and shales derived from it. The country consists mostly of low rounded hills, the soil of which is inferior, but there are some rich patches of alluvial soil by the river-side, in hollows between the hills, and in situations where the rains have not washed away the results of ancient vegetation. In some places the alluvial overlies diluvial clay and gravel. There are traces of quartz seams in the district. Annual ratable

value of property in shire of 20½ square miles area, £10,392; has 202 dwellings, 296 ratepayers, 1s. rate. Land under cultivation, 1,581 acres. Population of village 563, of shire 850.

TERANG (38° 14′ S. lat., 142° 54′ E. long.) (county Hampden, electorate and police district of Ripon and Hampden), a post town, savings bank, money-order, and telegraph station, on Lake Terang (a fine sheet of fresh water), on the main road between Geelong and Warrnambool. There is direct railway communication with Melbourne, being a station on the Warrnambool line, 137¼ miles W. of Melbourne; fares, 24s. 6d. and 16s. 5d. Geelong is distant 92 miles NE. Warrnambool 29 SW., Mortlake 14 miles NW., and Camperdown, 13 miles E. The hotels are the Commercial, Terang, and the Wheatsheaf. The Colonial, Victoria, and Australasia Bank and Treasury have branches here, and there are four stores, cordial factory, and coach factory, and several tradesmen's premises. Terang has a State school (No. 617), private school, and five churches, Anglican, Wesleyan, Presbyterian (for whom a new edifice which cost £10,000 has been erected by the widow of the late J. Thomson), Roman Catholic, and Bible Christian; M.U.I.O.O.F., Sons of Temperance, and A.N.A. lodges, also a mechanics' institute, with a library of 1,795 volumes, has a Court of petty sessions, and magnificent roads. Town lighted with kerosene. Lake Terang, which supplies town with water, teems with fish. Pastoral and agricultural district; estates are being cut up into dairy farms Dairying is extensively carried on, there being butter and cheese factory, and three successful creameries in the neighbourhood. Formation: rich loam, with clay subsoil. Population, about 1,800; district, 5,000. Local newspaper: *Terang Express*, published Tuesdays and Fridays.

TERRICK TERRICK (36° 10′ S. lat., 144° 15′ E. long.), a post town, county and electorate of Gunbower, shire Gordon, on Piccaninny creek, 151¼ miles N. of Melbourne. A conveyance runs to Pyramid Hill tri-weekly, fare 2s. 6d. It has a State school (No. 1,721), Orange lodge, Roman Catholic church (St. Luke's), and under 50 residents. The district is devoted to wheat growing, grazing and dairying. The township is situated on a low sandhill, from which an excellent view of Mount Hope and Pyramid Hill can be obtained. Formation: sand hills with outcrops of granite.

THOMASTOWN (co. West Bourke, shire Epping) is a railway station, with post-office and postal-note issue, about 12¾ miles N. of Melbourne, on Darebin Creek, noted for fruit growing, market gardening and dairy farming. Has Wesleyan and German churches, school (No. 631), two stores and hotel. Lighted with kerosene. Water from Yan Yean tanks. Agricultural and pastoral district. Population, 195.

THOONA (co. Delatite, shire Benalla), post township, 18 miles from Benalla. Has hotel stores, and butter factory. It is reached by rail to Goorambat, coach thence.

THORNTON (co. Anglesey, shire Alexandra), postal township, on Goulburn River, 104 miles NE. of Melbourne. It is reached by rail to Alexandra, coach thence. Agricultural and pastoral district. Population, 100.

THORPDALE (co. Buln-Buln, shire Narracan district of Gippsland W.), railway station, with telephone, post-office, savings bank and money-order office, about 92 miles E. of Melbourne. There are two stores, coffee palace, State school, Wesleyan and Anglican churches, mechanics' institute, Orange lodge. District is agricultural and pastoral. There are two Thorpdales, the original being, since the opening of the railway, called "Thorpdale South." It is about 2 miles from the station, and is 1,100 feet above sea level, and is a rain gauge station, the average fall for the last ten years being slightly over 50 in. per annum. Thorpdale South has a mechanics' institute (in which religious services are held) and free library (900 vols.), and a well-equipped butter factory and a store. Splendid timber district. Population about 500. Formation: Basaltic, with carboniferous areas.

TIMOR (36° 59′ S. lat., 143° 49′ E. long.) is a mining village, with post, money-order, savings bank, and telegraph office, on Bet Bet Creek, in the county of Talbot and electorate of Dunolly, 117 postal miles NW. of Melbourne. An omnibus runs to the Maryborough Railway Station, 5 miles; fare, 6d. Hotels: Timor, Cornish Arms, Criterion, and others. Free library of about 1,000 volumes; Church of England, Roman Catholic, and Wesleyan churches, police station, A.N.A. and State schools (Nos. 949, 1,207) are here. Bowen Park (area, 5 acres) has a grand stand, and is used for recreational purposes. Principally a mining locality, with some agriculture on Bet Bet Creek and Wareek plains. Mines working: North Duke and Duke United. The water supply is obtained from a reservoir. Formation: Bedrock silurian, post tertiary in valleys, with basaltic outcrop. Population of town and district about 700.

TINTALDRA (35° 58′ S. lat., 147° 54′ E. long.) is a township on Murray River, Shire Towong, county and electorate of Benambra, with post, money-order and telegraph offices, about 280 postal miles NE. of Melbourne, 88 miles from Wodonga, *viâ* Tallangatta. There is coach communication with Walwa Creek, Granya, and Wodonga twice a week, and with Albury, *viâ* Bowna, twice a week. Mail from Melbourne, *viâ* Tallangatta and Corryong, three times a week. It has a customs office, blacksmith's and wheelwright's shop, and State school (No. 3,188). Hotel: Tintaldra. There is bridge communication with the N. side of the river. The township is the centre of six main roads (and on the route to the Yarran-go-billy caves), and the traffic is considerable. Population, township, 30; district (which is pastoral), 300.

TONGALA (shire Deakin, co. Rodney), a railway station, 130½ miles N. of Melbourne, on the Echuca-Deniliquin line, fares 23s. 5d. and 15s. 7d. Has post and telegraph offices, hotel, store, blacksmith's shop, State school, Presbyterian, Wesleyan, and Roman Catholic churches, and shire hall, branch Bank of Victoria open weekly. Agricultural pursuits. Area under cultivation in the shire 48,217 acres, 32,172 in wheat. Formation: alluvial flats. Population of town 60. Area of shire 366 square miles, dwellings 352, ratepayers on roll 712, rate 1s., net annual value of property £30,134. Population of shire, 1,705.

TONGLO (co. Bogong, shire Omeo), post township, with money-order office, 237 miles E. of Melbourne. Reached by rail to Bairnsdale, coach thence. Population, 80.

TOOAN (36° 50′ S. lat., 141° 50′ E. long.), a post town in the county Lowan, shire Arapiles, 238 miles (225¾ postal) NW. of Melbourne, 25 miles SW. from Horsham, and 35 NE. from Harrow. It is situated on St. Mary's Lake at the foot of Mount Arapiles. It contains a State school (No. 1,620) and salt works. Route from Melbourne: rail to St. Mary's station, thence 4 miles. A village settlement has been established. Water from springs. District pastoral and agricultural. Population, about 150.

TOOBORAC (co. Dalhousie, shire McIvor), post township, with railway station. Has two hotels, State school, Mechanics' Institute, and store. Pastoral district.

TOOLAMBA (36° 35′ S. lat., 145° 23′ E. long.), a postal township, in the county and electorate of Rodney, police district of Mooroopna, 103 miles NE. of Melbourne, on the Goulburn river. It lies 384 feet above sea-level, and is a telegraph and railway station on the Goulburn Valley Line; fares, 18s. 7d. and 12s. 4d. It is the junction station on the line to Echuca. Toolamba is surrounded by farming and grazing land. In the district are four State schools (No. 1,455 being the principal), United Methodist and Presbyterian churches, a public hall and an hotel. Irrigation channels have been made through the district by the Rodney Irrigation Trust, and fruit growing on a large scale is to be attempted. There is a village settlement in the vicinity. Population of town, 144, and vicinity, 250.

TOOLERN (36° 66′ S. lat., 144° 66′ E. long.) (co. Bourke, shire Melton), a post town on Toolern Toolern Creek, 29 miles NW. of Melbourne; reached by rail from Melton, thence private conveyance. Has State school (No. 946), Wesleyan church, mechanics' institute and free library. Agricultural and pastoral district. Formation: basalt and sandstone. Population of district about 200.

TOONGABBIE (38° 2′ S. lat., 146° 50′ E. long.), a post town, with money-order, savings bank, and telegraph office, in Rosedale shire, and electoral district of Gippsland Central (county Tanjil), police district Toongabbie, situated on the Toongabbie Creek. It is a railway station on the Bairnsdale Line; fares, 19s. 11d. and 13s. 2d., and is distant 108¼ miles E. of Melbourne, 11½ from Traralgon, and 20 by road from Walhalla, with which there is coach communication daily. Hotels: Toongabbie and Commercial. In the ranges near Toongabbie there is a fine deposit of kerosene shale and a fine marble quarry. Coal and lignite have been discovered in the ranges. There are Anglican and Wesleyan churches, mechanics' institute and free library, with 764 vols., a State school (No. 856), branch of the Bank of Australasia (once a week). Oddfellows' (M.U.) lodge, stores, and several tradesmen's shops. A court of petty sessions is held here. Butter factory. Water from creek and Council well. Formation: Silurian and Devonian deposit. The population of district, about 700, is chiefly engaged in grazing, carrying, dairying, and the timber trade.

TOORA (co. Buln-Buln, shire South Gippsland) post town, on Muddy Creek, with money-order and telephone offices, savings bank, and railway station, 113½ miles east of Melbourne, fares 20s. 2d. and 13s. 5d. Has two hotels, Anglican church, State school (No. 2,253), Mechanics' Institute, and various stores. Lighted with kerosene. Great Southern Tin Mine here. Agricultural and tin-mining district. Population, about 400.

TOORADIN (38° 13′ S. lat., 145° 19′ E. long.), postal township on Western Port Bay, with telegraph, money-order, and savings bank office, county and electorate of Mornington, shire Cranbourne, 9 miles SE. of Cranbourne, and 37¾ SE. of Melbourne. It is a railway station (2½ miles from township), on the Great Southern line; return fare, from Melbourne, 5s. 6d. State school (No. 1,503), Anglican church, Mechanics' Institute (695 vols.), in which church service is held fortnightly, and two hotels are here. Fishing, shooting and boating. Dairying, agricultural, and pastoral district. Population about 300.

TOORAK (37° 51′ S. lat., 145° 2′ E. long.) (county of Bourke, electoral district of Toorak, municipality of Prahran) is a post town, with money-order, savings bank, and telegraph offices, also railway station on the Gippsland Railway, lying suburban to and 5 miles SE. of Melbourne; height above sea-level 121 feet. It is reached by tramcar, *viâ* South Yarra, or by rail, fares 4½d. and 3½d. It has two hotels, and three ladies' schools. There are a Church of England (St. John's), Presbyterian, and Wesleyan churches. Toorak was formerly the site of the vice-regal residence. The private buildings in this suburb are generally of a superior description, wealthy Melbourne men having chosen this locality as a place of residence. The streets are lighted with gas and electricity, while the water supply is from the Yan Yean. It lies high, and affords fine views of the surrounding country and Hobson's Bay. The population numbers about 6,000 persons. The geological formation is schistoze.

TOURELLO (37° 23′ S. lat., 143° 51′ E. long.), a post-town in the county of Talbot, electorate of Clunes and Allendale, police-district of Ballaarat, 93 miles NW. of Melbourne, on Coghill's creek, a tributary of Creswick's Creek.. It is a telegraph and railway station on the Ballaarat to Maryborough line,

1,295 feet above sea-level, fares 16s. 8d. and 11s. It has a State school (No. 740). It is a farming and grazing district, of volcanic formation, interspersed with heavy clay pans traversed by Creswick's Creek, which has its rise in Bullarook forest.

TOWER HILL (co. Villiers, shire Belfast), a township, on Tower Hill Lake, about 9 miles from Port Fairy. Has a cheese and butter factory. The scenery in the district is very picturesque, and attracts numerous visitors.

TOWONG (36° 5′ S. lat., 148° 1′ E. long.), a shire and postal hamlet on the Murray, county and electorate of Benambra, 269 miles NE. of Melbourne, and 80 miles E. of Wodonga. (See also Tallangatta, which is the municipal township, 57 miles distant). Has hotel and State schools (2,380). The district is chiefly of a pastoral character. Annual value of ratable property of shire, £55,606; area 2,545 square miles; ratepayers 1,700, dwellings 1,200, rate 1s. Land under cultivation 4,738 acres. Population, 50; shire, 5,700.

TRAFALGAR (co. Buln-Buln, shire Narracan), post town, with money order and telegraph offices and railway station, 73¾ miles east of Melbourne, fares 13s. 2d. and 8s. 11d. Has branch Melbourne Savings Bank and Colonial Bank, latter open on Thursdays only; State school, Mechanics' Institute, Anglican Wesleyan, and Roman Catholic churches, Criterion hotel, butter, cheese factory and creameries. Agricultural and dairying district, with a population of about 800.

TRARALGON (38° 11′ S. lat., 146° 29′ E long.), in the county of Buln-Buln, electorate of Gippsland South, shire and police district of Traralgon, is a township, with post, telegraph, savings bank, and money-order office, on the main Gippsland road, and the Traralgon creek, three quarters of a mile from its junction with the river Latrobe, 97½ miles from Melbourne E., lying 141 feet above sea-level. The communication with Melbourne is by the Gippsland line, two trains each way daily; fares, 17s. 6d. and 11s. 7d. A line of railway is now open from Traralgon to Stratford and thence to Bairnsdale. Hotels: Grand Junction, Club, Commercial, Traralgon, Royal Exchange, Crown, and Star. Churches: Anglican, Presbyterian, Wesleyan, and Roman Catholic. There is a State school (No. 1,328), branches of the Bank of Australasia and Colonial Bank, a mechanics' institute, with library of 2,500 vols., shire hall, court-house, treasury, police quarters, M.U.I.O.O.F. lodge and a tannery. Court of petty sessions is held here, also meetings of the Traralgon Shire Council. The town is lighted with gas. The Traralgon shire has an area of 199 miles, and property of the annual value of £20,396, dwellings 691, ratepayers 680, rate 1s. Formation: alluvial. Population, 1,385; of shire, 2,150. Land under cultivation, 2,053 acres. Newspaper: *Traralgon Record and Farmers' Journal*, published Tuesday and Friday.

TRENTHAM (37° 33′ S. lat., 144° 21′ E. long.), a township with post, money-order, telegraph offices, and savings bank, 63¾ rail miles N. by W. of Melbourne, 7 miles from Blackwood, to which place a coach runs, fare 2s. 6d., and 6 miles from Barry's reef, 2s. 6d. It lies 2,264 feet above sea-level, and has a cool and humid climate. It is in the county of Dalhousie, shire and electorate of Kyneton, and police district of Bourke, on the Trent, a tributary of the Coliban. It is a station on the Daylesford Extension; three trains daily; fares, 11s. 7d. and 7s. 10d. Hotels: Commercial, Bank, Cosmopolitan, Forest, and Railway. There are State (1,588) and Roman Catholic schools, a Mechanics' Institute with 958 vols., Freemasons', Oddfellows', Rechabites', and A.N.A. lodges, Anglican, Roman Catholic, and Presbyterian, and Wesleyan churches, in the township. Lighted with kerosene. Bank: National. It is a place of petty sessions. Has iron foundry. The district is an agricultural, and mining one. A large trade in timber for building purposes is carried on. The Trentham Falls, a mile from the station, are much admired. Population of town, 654, with vicinity, about 2,040.

TULLAROOP SHIRE. *See* MARYBOROUGH.

TUNGAMAH (36° 5′ S. lat., 146° 0′ E. long.) is a post town, with telegraph station, savings bank and money-order office, in the county of Moira, shire Tungamah, and electoral district of Benalla and Yarrawonga, on the Boosey Creek, 149¼ miles NE. of Melbourne, and a railway station on the line from Benalla to Yarrawonga; fares, 26s. 7d. and 17s. 9d. It is in the shire of Tungamah, and the shire hall is here; the Tongamah Water Trust also conducts its business here. Hotels: Tungamah, Victoria, Farmers' Arms, Sale Yards, Royal, and Commercial. There is a branch of the Bank of Australasia, Masonic Hall, Anglican, Presbyterian, Bible Christian, and Roman Catholic churches, State school, butter factory, court-house, with excellent police quarters, a mechanics' institute and free library of 500 vols., a Caledonian Society and Agricultural Society's show grounds with commodious and elegant grand stand. Town is lighted with kerosene. The water-supply is by reticulation from Boosey Creek. Tungamah is surrounded by a large grain-growing district. There are in the shire 116,100 acres under tillage, 84,140 wheat, 7,570 wheaten and 824 other hay, 4,604 malting barley. Shire area 602 square miles; 1,357 dwellings, 758 ratepayers on roll, 1s. rate, net annual value of ratable property £64,453. Fruit growing and drying are successful industries. Population, 408; of shire 5,690. Local newspapers: the *Tungamah Express* and *Moira Independent*, published on Thursday.

TYLDEN (37° 20′ S. lat., 144° 28′ E. long.) a post-town in the county of Dalhousie, electoral district of Kyneton, police district of Bourke, on the Little Coliban river, 56½ rail miles N. by W. of Melbourne, 3½ miles distant from the Carlsruhe Railway Station, on the Echuca line. It lies 1,884 feet above sea-level. Tylden railway station on the Daylesford Extension is 2 miles from the township; fares, 10s. 8d. and 6s. 9d. A coach runs daily to Kyneton, also to Trentham, fare 1s. Hotels: Noah's Ark, Junction, and Harvest Home. Tylden has a State school (No. 621), police station, and several stores, Anglican, Presbyterian, Roman Catholic, and Baptist places of worship. There is plenty of good agricultural chocolate and black soil and grazing land. Tylden South comprises the southern extremity of the parish of Tylden. It is about 2 miles long by 1½ broad, and contains about 2,000 acres, about one-fourth being under cultivation. Extensive brickfields are here, and bricks, pipes, tiles, &c, are manufactured. Population, 100.

TYNONG (co. Mornington, shire Berwick) is a railway station, with post and telegraph office, about 43 miles E. Growing timber district. Has mechanics' institute and free library (300 vols.). Granite formation. Population, 100.

ULLINA (co. Talbot, shire Creswick), post township, 100 miles NW. of Melbourne, near Mount Moorookyle. Reached by rail to Clunes, conveyance thence. Has State school, Mechanics' Institute, public park, and racecourse. Farming and grazing district. Population, 80.

UPPER YARRA SHIRE. *See* WARBURTON.

VAUGHAN (37° 9′ S. lat., 144° 18′ E. long.), in the county of Talbot, electoral and police district of Castlemaine, Mount Alexander shire, a post town, on the river Loddon, at the junction of Fryer's creek, 87 miles N. of Melbourne. Guildford railway station is 3 miles distant and Castlemaine 8 miles, to which the coach (1s.) runs twice daily. Hotel (British Queen), Wesleyan church, Foresters' lodge. The district is a gold mining one. Formation: basaltic lava, sandstone and slate. Population about 80.

VIOLET TOWN (36° 40′ S. lat., 145° 48′ E. long.), in the counties of Moira and Delatite, electoral district of Shepparton and Euroa, a postal township and shire, with money-order and telegraph offices, on Honey-suckle Creek and the Sydney road, 585 feet above sea-level, 105 miles NE. of Melbourne, and a station on the North-Eastern Railway. Fares, 18s. 10d. and 12s. 8d. The district is of a farming and grazing nature. Hotels: Railway, Farmers' Arms, Kialla, and Travellers' Rest. There is a State school (No. 640), a branch of the National Bank and Melbourne Savings Bank, Mechanics' Institute (600 vols.), shire hall, and a creamery. Churches: Church of England, Free Methodist, Presbyterian, and Roman Catholic. Rechabite and Druid societies. A court of petty sessions is held here. Formation: lower silurian. Area of shire 359 square miles, dwellings 500, ratepayers 683, rate 1s., net annual value of ratable property £23,936. Land under cultivation, 12,253 acres. Population, 500, shire, 3,000. Newspaper: The *Sentinel*.

WABDALLAH. *See* LEIGH ROAD.

WAHGUNYAH (36° 1′ S. lat., 144° 10′ E. long.), county of Bogong, electorate of Wangaratta and Rutherglen, a township, with post, savings bank, and money-order offices, on the Murray river, 174 miles NE. of Melbourne. It is the terminus of the railway from Springs to the Murray; it lies 452 feet above sea-level; fares, 31s. 2d. and 20s. 8d. Principal hotels: Wahgunyah, Empire, Union, Endeavour, The Vine and Victoria. Refreshment room at railway station. There is a State school (No. 644), custom-house, flour-mill, wine cellars, court-house, police station, and free library (1,000 vols). Divine service is held in a very neat Congregational church. Masonic lodge. An iron bridge over the Murray communicates with Corowa, in New South Wales. The country in the vicinity of the town is adapted for vine growing, and for cultivation generally. Farther away it is more suitable for pastoral purposes. Population about 400. Newspaper: *Wahgunyah and Rutherglen News*.

WAHRING (36° 2′ S. lat., 146° 26′ E. long.) is a small post town with telegraph office, in the county of Moira, electoral district of Shepparton and Euroa, on the river Goulburn, 81¾ miles NE. of Melbourne, and 23 miles from Seymour Railway Station. It is a railway station on the Seymour and Numurkah line; fares, 15s. 1d and 9s. 11d. Hotel: Wahring. There is a State (No. 1,352) and Roman Catholic school, six timber mills, Fresh Food Storage Company, a creamery, and a few stores. The district is pastoral and agricultural. A large inland lake has been formed, Wahring being the head-works of the Goulburn weir, and it is becoming a favourite summer resort. Population of district, about 800.

WALHALLA (37° 58′ S. lat., 146° 26′ E. long.) (county Tanjil, electoral district of Gippsland Central) is a shire and mining township, with post, telegraph, savings bank and money-order offices, 120 miles (107 postal) nearly due E. of Melbourne. It is situated on Stringer's Creek, in a valley, enclosed by steep hills. Hotels: Empire, Star, Grand Junction, Walhalla, Exchange, and Criterion. The communication is by coach, *viâ* Moe, daily, 8s. single, 13s. 6d. return, or *viâ* Toongabbie tri-weekly; fares, 7s. single, 12s. 6d. return. The quartz reefs in the vicinity are very rich in gold, and Cohen's reef—one of the best in the colony—runs north and south through the hill to the west of the township. Several companies have claims along this celebrated line, the principal ones being the Long Tunnel, Long Tunnel Extended, North Long Tunnel, and Great South Long Tunnel. The two first-named companies have done well, and with the exception of the Mount Morgan mine it is doubtful whether the equal of the Long Tunnel can be found in Australia; since its formation, in July, 1865, the Long Tunnel Company has raised over 28 tons 5 cwt. of gold. The Walhalla Company was also very successful, having paid over £135,000 in dividends (this mine is now merged in the Long Tunnel). Amongst outside mines the New Loch Fyne Matlock has paid over £100,000 in dividends since January, 1894. There are a number of other outside claims at work with varying success. In this locality 900 miners are employed in quartz and alluvial mining, chiefly the

former. Gold yield, 1899, 38,043 ounces. There are places of worship for Episcopalians, Wesleyans, and Roman Catholics, a State school (No. 957), a Masonic hall, eight stores, mechanics' institute and free library of 2,000 vols., and two banks, Victoria and Australasia. The borough has been formed into a shire, annexing the outlying districts of Moondarra and the whole of the country to the Woods Point borough boundary. In the shire (area 409 sq. miles) there are 915 dwellings, 965 ratepayers, and ratable property of the net annual value of £17,723, rate 1s. 0d.; land under cultivation, 366 acres. Formation: upper silurian. Population 2,804, of the shire 3,648; Newspapers: the *Walhalla Chronicle* and *Miner*.

WALLACE (co. Grant, shire Buninyong and Bungaree) is a railway station, with telegraph and post-office, about 62 miles NW. on the Western Moorabool river. Has two hotels, blacksmith's shop, chaff mill and butter factory. Agricultural district. Population about 250.

WALLAN WALLAN (37° 25′ S. lat., 145° 0′ E. long.), a post town with a money-order office, in the county of Bourke, electoral district of East Bourke, shire Merriang, and police district of Bourke, and lies 1,040 feet above the sea-level. It is situated a mile W. of the station of the same name on the North-Eastern Railway, 31 postal miles NE. of Melbourne, near the source of the Merri Creek. Fares, 5s. 5d. and 3s. 7d. There is a telegraph office at the railway station, to which a conveyance runs to meet trains, fare, 6d. There are two hotels, Rechabite lodge, a mechanics' institute, with library of 1,350 vols., a State school (No. 664), and Presbyterian, Episcopalian, and Wesleyan churches, stores, tradesmen's shops and a public park of 80 acres. The district is agricultural and pastoral. Water from wells and tanks. A village settlement of 100 persons is situated on the Upper Plenty river, about a mile from Wallan. Formation: schist and basalt. Population of town, 100, and district, 600.

WANDILIGONG (35° 47′ S. lat., 147° 0′ E. long.), a post town, with telegraph, savings bank and money-order office, 199¾ miles NE. of Melbourne. It is in the county of Delatite, electoral district of Ovens, shire Bright, and is situated at the junction of the Growler and Morse's Creeks, tributaries of the Ovens. Gold mining principal industry, yield, 1899, 4,069 ozs. Fruit growing is also largely carried on. Bright, the nearest township, is four miles distant. Communication with the metropolis is by coach to Bright, thence rail. There is a free library with 1,924 vols., five hotels, and Anglican, R.C., Wesleyan, Presbyterian churches, and Salvation Army, Oddfellows', Rechabites, and Hibernian societies. Formation: sandstone and slate. State school (No. 275). Water from wells. Population of town and district about 1,000.

WANDIN YALLOCK (37° 50′ S. lat., 145° 31′ E. long.), a parish with three post offices and telephone station, in the Eastern Riding of the shire of Lilydale, in the county and electorate of Evelyn, 30 miles E. of Melbourne, situated on the Wandin Creek. There are State schools (Nos. 1,033, 1,801, and 2,820) and Anglican and United Methodist (2) churches, Rechabite and Horticultural Halls, mechanics' institute at Wandin South, prosperous Horticultural Society, I.O.R. society, several stores, and a large jam factory. Communication with Melbourne is by coach to Lilydale, 7 miles, rail thence. Coach runs to Warburton. Lilydale to Warburton railway, in course of construction, passes through the district close to the township. Fruit-growing, raspberries chiefly, is the principal industry. Mountain scenery, fern gullies; good fishing. Volcanic formation, with ironstone deposits. Population of town and district about 1,000.

WANDONG (35° S. lat., 150° E. long.) (co. Dalhousie, shire Kilmore) post town, with money-order and telegraph office at railway station, 34¼ miles N. of Melbourne, fare 6s. 1d. and 4s. 1d. Has State school, Presbyterian, Roman Catholic, and Wesleyan churches, electoral registrar, terra-cotta, eucalyptus, and disinfectant factory, hotel, seasoned timber company, police station. Mining and agricultural district. Formation: old silurian, granite, and basaltic. Population of district, about 700.

WANGARATTA (36° 21′ S. lat., 146° 19′ E. long.) is a post town, with money-order, savings bank, telegraph, and railway station, in the counties of Bogong, Delatite, and Moira, and electoral district of Wangaratta and Rutherglen, police district of Benalla, situated at the junction of the Ovens and King rivers, 493 feet above sea-level, 149¼ miles NE. from Melbourne, the communication with which is by the direct line of rail; fares, 26s. 1d. and 17s. 6d. The terminus of the narrow gauge rail to the Upper King. The principal hotels are the Commercial, Royal, Royal Victoria, Albion, Criterion, Council Club, Bull's Head, and Horse and Jockey. Two bridges are here, a new one spanning the Ovens replacing the old single arch bridge, built at great cost; another crossing the King river, connecting the town with the Oxley flats. In the borough are 464 dwellings, 485 ratepayers, 1s. rate, and ratable property of the annual value of £14,533, area 3,932 acres. The neighbourhood is eminently agricultural, large quantities of grain being grown, and the grape, orange, lemon, citron, and tobacco and hops extensively cultivated. There are also some large and important sheep and cattle farms in the vicinity. There are two flour mills, a tannery, fellmongery, two breweries, butter factory, creameries, bacon factories, and bicycle factory, and four coach factories. The chief public buildings are the four churches—Anglican, Wesleyan, Presbyterian, and Catholic (St. Patrick's); the last is a very handsome structure, the Wesleyan church is also a handsome building; the hospital, a fine brick structure, with 26 beds; the court-house, the police and post and telegraph offices, the Royal hall, St. George's hall, and St. Patrick's hall. Banks: the London Chartered, National and N.S. Wales. There is an Athenæum, with library of 1,640 vols.; a State school (No. 643), with Nos. 1,272 and 1,580 in the vicinity, a high school, and Catholic and Convent schools. There is a fine showyard belonging to the Ovens and Murray Agricultural Society, with excellent accommodation for exhibits, cricket-ground, and race-course with grand stand, a rifle corps, and gun, race, football, bicycle, and coursing clubs. A large business is done at the stock sales fortnightly at the Corporation Yard. Coaches run to Oxley, Moyhu, Hedi, Bundalong, and Yarrawonga. The water supply is derived from the King river, with full reticulation. Lighted with gas. The population according to the latest returns was 2,390. Local newspapers: *Wangaratta Dispatch* and *Chronicle*, published on Wednesdays and Saturdays.

WANNON (37° 45′ S. lat., 141° 30′ E. long.), a shire (chief town Coleraine) and post town, in the county and electorate of Dundas, police district of Coleraine, 210½ postal miles W. from Melbourne, 13 from Hamilton, and 10 SE. from Coleraine, situated on the west bank of the Wannon river. It is a railway-station on the line to Coleraine, fares, 37s. 11d. and 25s. 3d. Wannon Inn. There is a State school (No. 1,685). It is a pastoral district, there being three stations in the neighbourhood. The formation of the country is generally hilly. Anglican and Presbyterian services are held every Sunday. In the neighbourhood are the celebrated Wannon Falls, a cascade of water 100 feet high. Shire has area of 753 square miles, 535 dwellings, and 687 ratepayers; annual value of ratable property £66,889, 1s. rate. Land under cultivation, 5,261 acres. Population, 62; shire, 2,680.

WARANGA SHIRE. *See* RUSHWORTH.

WARBURTON (37° 48′ S. lat., 145° 41′ E. long.) is a postal district, with money-order and telephone office, in the county and electoral district of Evelyn, and police district of Bourke, shire Upper Yarra. It lies 48¾ miles E. of Melbourne, on Yarra Yarra river, and is reached by rail to Lilydale, thence by coach; fare, 6s. Hotels: Alpine Retreat and Warburton. It has a coffee palace, Episcopal and Roman Catholic churches, State school (No. 1,485), shire office, mechanics' institute and free library (370 vols.), three stores, steam saw mills, and public park. Lighted with kerosene. The shire council of Upper Yarra meets every fourth Tuesday in month. The area of the shire is 444 square miles, with 325 dwellings, 500 ratepayers, 1s. 3d. rate, and net annual value of property £9,283. Land under cultivation, 1,117 acres. The Alpine Tourist Club is here. Excellent fruit is grown, and the place, which is remarkable for its romantic scenery, is becoming a favourite summer resort. Formation: granite, sandstone and slate. Population, 210; of shire, 1,600.

WARRACKNABEAL (36° 14′ S. lat., 142° 26′ E. long.) is the principal mallee township in the NW., with land, post, telegraph, and money-order office, situated on Yarriambiac Creek, in the county, shire and electoral district of Borung, 216¾ miles NW. of Melbourne, and 32 miles NW. of Murtoa, with which town, on the inter-colonial railway, it is connected by a line of railway northward Hopetown; fares, 39s. and 26s. 1d. Hotels: Royal Commercial, Club, Railway, Palace, and Warracknabeal. Coach to Aubrey and Jeparit, Tuesday and Friday. There are Anglican, Roman Catholic, Presbyterian, Wesleyan, Bible Christian, and Baptist churches, also Salvation Army barracks, a State school (No. 1,334), several private schools, two coffee palaces, a brewery, ten principal stores, two flour mills, gasworks, two implement factories, two furniture warehouses, two carriage factories, several tradesmen's premises, two brick kilns, two timber yards, three doctors, and three solicitors. Branches of the Commercial and Union Banks. Shire Council of Borung meet here second Friday in month. Among social institutions are a Turf Club, Lyric Club, Coursing Club, Caledonian society, Cricket Club, Masonic and Oddfellows' Lodges, branch of the Australian Natives' Association, Agricultural and Pastoral Society, Rechabite Lodge, Mechanics' Institute, Academy of Music, Temperance hall, and Warracknabeal District Hospital. A court of petty sessions is held twice weekly. Lands office sub-treasury. The water supply is derived from the Creek, and is under control of the Warracknabeal Urban Water Trust. The town, which is lighted by gas, is the centre of the largest wheat-producing district in the colony. It is an agricultural and pastoral district. In Borung shire 201,384 acres were under tillage, 150,315 wheat, 4,813 oats; 4,445 acres wheaten, and 35 acres other hay; area of shire 744 square miles, population 7,000, ratepayers, 1,270; dwellings, 1,200; rate 1s. 0d.; annual value of ratable property, £56,774. Population of town 2,500. Local papers: the *Warracknabeal Herald*, bi-weekly, and *Northern Argus*, weekly.

WARRAGUL (38° 10′ S. lat., 145° 56′ E. long.), a shire, with post town, money-order, savings bank, and telegraph offices, county of Buln-Buln, electoral district of Gippsland West, 367 feet above sea-level, on Hazel Creek, 61¼ miles E. from Melbourne. It is a station on the Gippsland railway; fares, 11s. and 7s. 3d. The Neerim railway line branches from Warragul. The streets of the town are metalled, and the footpaths asphalted. The town is well lighted with gas. There are several first-class hotels, amongst them are the Royal, the Club, the Railway, Orient, and the Commercial. The public offices are most substantially built two-storey brick edifices, and consist of a court-house with all necessary rooms attached, and a post and telegraph office and sub-treasury, all beautifully and conveniently designed. The police-station is also a well-designed one-storey brick building. Court of petty sessions is held once a week, and the County Court every three months, also the Court of General Sessions. Banks: Commercial, London, Australasia, and Bank of New South Wales.

A very fine mechanics' hall has been put up, with reading rooms, &c., about 1,040 vols. in the library; municipal chambers have recently been erected. Masonic, Druids, A.N.A., Oddfellows' lodges. Several saw-mills are in full work. Fortnightly sales of cattle are conducted. There are Anglican, Wesleyan, Presbyterian, and Roman Catholic churches, a State school (No. 2,104), and Roman Catholic school. In Warragul shire 14,444 acres are under cultivation. Several gold mines and reefs are being worked in the vicinity. The Warragulshire occupies 123 square miles, has 3,800 population, and property of the annual value of £35,052, 950 dwellings, 1,200 ratepayers, 1s. rate. The local newspaper is the *Warragul Guardian*, published on Tuesday and Friday. Population, 1,634.

WARRANDYTE (Anderson's Creek), (37° 44′ S. lat., 145° 13′ E. long.), county and electorate of Evelyn, shire of Templestowe and police district of Bourke), is a postal township, with money-order office and telephone, on the Yarra-Yarra river, 17½ miles E. of Melbourne. Hotels: Anderson's Creek, and Warrandyte. It has a court-house, Mechanics Institute, stone State school (No. 12) and teachers' residence, Church of England. The district (which has some beautiful scenery, and is a favourite cycling resort) is a mining, pastoral, and fruit growing one, a good deal of land being taken up in 20-acre blocks under the 49th section: soil is clayey, with rocky formation. A bridge crosses the Yarra here. The communication from Melbourne is by rail to Heidelberg, coach thence (9½ miles) daily, 2.30 A.M., fare, 1s. Population about 350.

WARRENBANE (co. Delatite, shire Benalla), post township, 12 miles SW. of Benalla. Reached by rail to Baddaginnie, coach thence. Has State school, hall, and butter factory.

WARRENHEIP (37° 3′ S. lat., 144° 0′ E. long.), a post town, railway and telegraph station, on high land in vicinity of mountains of the same name, about 96 miles WNW. of Melbourne, and 4 miles from Ballaarat. It is in the county of Grant, electoral district of Warrenheip, and the North Riding of the shire of Buninyong. Height above sea-level, 1,725 feet. The railway passes through the township, and there is a station at which considerable business is transacted, being the junction of the Geelong and Bacchus Marsh lines. Fares, 12s. 8d. and 8s. 4d. There are five small hotels, two breweries, nursery, police station, one State school (No. 1,591), and two churches, Anglican and Wesleyan. The surrounding land is of good agricultural character. Granite and basalt formation. Spring water. Population, about 500.

WARRNAMBOOL (38° 24′ 17″ S. lat., 142° 28′ 26″ E. long.), a seaport municipal town, county Villiers, electoral district and shire of Warrnambool, and Western police district, is most picturesquely situated on an eminence, on the shores of Warrnambool or Lady Bay; it lies 166 miles to the SW. of Melbourne, and is the nearest port to it on the Western seaboard. Steamers sail for Melbourne three times a week; fares, saloon, 10s., return, 15s.; second saloon, single, 5s. return, 8s. Visitors leaving by steamer from the Queen's Wharf, Melbourne, at 5 o'clock P.M. are landed at Warrnambool early next morning. By early train from Melbourne Warrnambool can be reached in 6½ hours. There are numerous hotels. A large palace, called the Ozone, has been erected at a cost of £30,000, for the accommodation of families and tourists. The main part of the town is situated on an elevated spot close to the sea. In the municipality (area 3,262 acres) are 1,450 dwellings, 1,200 ratepayers, 1s. 9d. rate, and ratable property of the annual value of £36,947. It was created a municipality in 1855, a borough in 1863, and a town in 1883. The port is lighted by an upper fixed white light, and a lower fixed red leading light. A fixed green light is also exhibited from the end of the jetty. High water in Warrnambool Bay, full and change, 0h. 37m. P.M., ordinary range 3 feet. To give facilities for loading and discharging vessels a viaduct and breakwater pier, 2,400 feet in length, has been constructed, being a modification of Sir John Coode's original design. By omitting some portion of the works the cost was reduced to £180,000. The jetty is 860 feet in length, where cargo is unloaded, and conveyed by rail about three-quarters of a mile to the railway station at the south end of Fairy-street. The Australasia, National, Victoria, Colonial, New South Wales, Commercial, and Savings Banks have branches here, and the principal Insurance Companies are also represented. The churches comprise those belonging to the Anglican (Christ church), Roman Catholic (St. Joseph's), Presbyterian (St. John's), Wesleyan, Plymouth Brethren, Congregational, "Disciples of Christ," and Baptist denominations. There are several ladies' schools, also two colleges and a grammar school, a State school (No. 1,743), a Roman Catholic school, school for girls, attached to the Convent of Mercy, and a second State school (No. 1,902) at South Warrnambool. There is also a hospital and benevolent asylum (a fine large building on a commanding site), with fifty-four beds. The Villiers and Heytesbury Agricultural Society is an established institution, with fine grounds, while other societies are kept up, including amateur turf and racing clubs, a rowing club, bowling club, the Warrnambool club, a Battery of Militia, a Masonic Lodge, anglers', and friendly societies, and fire brigade. There is a good race-course, having a handsome grand stand. The steeplechase course is said to be the best in the colony. Two meetings, flat and steeple-chase, are held annually. Public places of resort and recreation are Albert Park (144 acres), the Botanical Gardens, on the Woodford road, with an area of about 20 acres, and the Friendly Societies' Park (12 acres). Jubilee Park of 20 acres on Hopkin's river. The Mechanics' Institute, in Liebig Street, a large freestone building, with a spacious reading-room, has a library of 6,636 volumes. The Art Gallery is at the rear of the Institute. A fine museum is established in the old court-house, purchased for that purpose from the Government. The Post-office, in Timor Street, is a commodious stone building. The Oddfellows' Hall will hold 500, the Orderly Room, built by the Local Volunteer corps, 600, and the Temperance Hall 150. The Town Hall will seat 1,100. Sea-water baths have been made by the Corporation in the town at the cost of over £5,000. The water is pumped by a gas engine direct from the ocean into two large oval basins, one for gentlemen, 100 feet long by 50 feet wide; the other for ladies, 60 feet by 30 feet wide. The baths are constructed of marble, and are luxuriously fitted up, and under excellent supervision, having shower, hot, salt, and fresh water baths, also vapour baths, which can be obtained at any time. A large trade is done from the port; the principal exports are dairy produce (valued at about £150,000) from within 20 miles of Warrnambool, wool, potatoes, pigs, and bacon. There is a flour mill, two machine biscuit factories, two boot factories, five tanneries, and two breweries in the town, and various other business premises. It has a money-order, savings bank office, and telegraph station, and a day and night telephone service. The streets are lit with gas, the gas-works belonging to the municipality. The water supply is derived from the Merri River pumping scheme. Most of the buildings are constructed of sandstone, which abounds in the locality. Warrnambool, which has the coolest summer climate in the Colonies, is situated on the coast, in a rich agricultural and pastoral district. The land under cultivation on March 1st, 1900, was 23,284 acres, of which 3,140 were potatoes. The river Hopkins flows within a mile E. of the town, and excellent fishing may be obtained. The Merri, a smaller stream, empties itself into the sea a few hundred yards from the landing place. Both rivers, having bars at their mouths, are unnavigable. The shire of Warrnambool includes an area of 610 square miles, with 113 miles of road, and annual value of ratable property £117,628, rate 1s. and 1s. 3d., dwellings 1,650, ratepayers 1,750. Population of the town, 6,690; of the shire 9,600, and of the district 35,000. The geological formation is tertiary. Newspapers: the *Warrnambool Standard* (published daily) and the *Warrnambool Echo* (published at evening, tri-weekly).

WATCHEM (36° 7′ S. lat., 142° 9′ E. long.), in county and electoral district Borung, shire Donald, is a railway station, with post and telegraph offices, 202 miles NW. of Melbourne, on Watchem Lakes. There is a large hotel, a Roman Catholic church, State school (3,224), Mechanics' Institute, in which Anglican and Presbyterian services are held, large grain stores, with a capacity of 20,000 bags, also sheep and cattle yards. The district is pastoral and agricultural. Formation: Lime-tone and clay, with sandy soil. Population of town, 200, and district, about 500.

WATERLOO. *See* Yarragon.

WAUBRA (37° 40′ S. lat., 146° 5′ E. long.), postal village, on Spring Creek a tributary of McCallum's Creek, in the shire of Lexton (county Talbot, electorate of Avoca, Talbot, and of Windermere, police district Learmonth), 95¼ miles W. of Melbourne. It is connected by rail (telephone at station) with Melbourne *viâ* Ballaarat (distant 21¼ miles); fares, 16s. 11d. and 11s. 4d. Coach daily to Lexton, 2s.; thence daily to Avoca, 2s. There are two hotels, Springs and White Hart, a general store, State school (No. 859), mechanics' institute and free library, with 1,200 vols., A.N.A. society, and other buildings. The places of worship are Anglican, Presbyterian, and Roman Catholic. Ercildoun station is four miles distant. Formation: volcanic, with granite ranges. Rich agricultural and pastoral district. Population of district about 300.

WAURN PONDS (38° 4′ S. lat., 144° 16′ E. long.) is a postal village, on a creek of the same name, in the county of Grant, electoral district of Barwon, Mount Moriac police district, 49 miles SW. of Melbourne, from which it is reached by rail to Pettavel Road station on the Geelong to Colac line. It is on the main road from Geelong to Warrnambool, at the junction of the Colac road with the road to Anglesea river and Ceres, Barrabool Hills, and is the centre of a large extent of orchards, fine farms and grazing country. There is a post-office, Wesleyan chapel, literary society, and a State school (No. 1,040). The locality is one of the prettiest about Geelong, from which it is 6 miles distant. The hills on the southern side are covered with orchards and command a fine view of Corio Bay, the higher parts of Geelong, the valley of the Barwon, the Breakwater, the Bellarine hills, Spring Creek, Barwon Heads, Ocean Grove, the entrance to the Heads, Arthur's Seat, and Cape Schanck, with a commanding view of Bass's Straits. Vines, for which the land is admirably adapted, are being cultivated. Waurn Ponds has also some quarries of the finest limestone, easily worked, and valuable for higher architectural work. Large quantities of fossil sharks' teeth, the earbone and canine tooth of a whale have been found in the quarries, and a remarkable deposit of angular quartz gravel has been unearthed between two limestone hills. Formation: limestone with outcrop of bluestone, showing evidence of volcanic eruption. Population, about 250.

WEDDERBURN (36° 25′ S. lat., 143° 37′ E. long.), (county of Gladstone, electorate and shire of Korong) is a mining township, with telegraph, savings bank, and money-order office on Korong creek, 150¾ miles NNW. of Melbourne; it lies 6 feet above sea-level. A branch line of 4¾ miles connects it with the Wedderburn Junction station on the Sandhurst and Wycheproof railway line; fares, 27s. 2d. and 18s. Hotels: Victoria, Wedderburn, Royal, and Commercial, and Oriental Coffee Palace. There are a court-house, school-house (No. 794), fi

churches, English, Presbyterian, Methodist, Catholic, and Baptist, twelve stores, flour mill, a literary institute, with library of 2,215 vols., a branch of the Bank of Australasia, a shire hall, Friendly Societies, and an Agricultural Society. The office of the shire of Korong is here. Quartz reefing is the leading occupation of the people, this being the centre of the old mining district of Mount Korong. The shire of Korong contains an area of 925 square miles, and ratable property of the annual value of £48,600, 1,850 dwellings, 1,570 ratepayers, 9d. rate. There are under cultivation 73,182 acres, the chief crops being wheat, oats, and hay. The yield for the year 1899 was 1,616 ozs. Wedderburn is now the centre of a fine farming district, producing heavy crops of fine wheat. A considerable area of land is under vines and fruit trees. The water supply is derived from a reservoir, holding 18,000,000 gallons. Formation: sandstone, slate, and quartz with alluvial drift. Population 1,400, of shire 8,000. Local newspaper: *Wedderburn Express*, Fridays.

WEE WEE RUP (Gunbower) (35° 59′ S. lat., 144° 25′ E. long.) is a district in the county and electorate of Gunbower, shire Kerang, 188 miles NW. by N. of Melbourne, on Gunbower Creek, a branch of the Murray. Echuca Railway Station is 36 miles distant, and is reached by coach tri-weekly; fare, 12s. 6d.; nearest railway station Kerang, reached by mail cart tri-weekly, Monday, Wednesday, and Friday. There is a post office, telephone bureau, the Wee Wee Rup Hotel, and a State school (No. 3,088). The district is an agricultural one of importance, much of the land having been selected under the Act of 1869. Wheat and barley are the cereals principally grown. The country about is generally timbered with swamp gum, box, dogwood myall, titree, and several kinds of acacia. Population about 400.

WENSLEYDALE (38° 25′ S. lat., 144° 25′ E. long. is a post town, on Wormbete creek, on the border of the Cape Otway forest, county and electorate of Polwarth, shire and police district of Winchelsea, 79¼ miles SW. of Melbourne, and 748 feet above sea-level. It is the terminal station on the branch line from Mount Moriac on the Geelong and Warrnambool line. A coach runs to Airey's Inlet on Wednesday and Saturday on arrival of the Melbourne train; fare, 5s. The only public building is the State school (No. 894), where religious services in connection with the Church of England are held fortnightly. Coal mine being developed. Agricultural and pastoral district. Volcanic formation. The climate is cool and bracing, and soil rich. Population, 140.

WERRACKNABEAL. *See* Warracknabeal.

WERRIBEE (Wyndham) (37° 54′ S. lat., 144° 40′ E. long.), 19¾ miles SW. from Melbourne, on the river of the same name. It is a railway station, with telegraph and post-office, on the line to Geelong; fares, 1s. 9d. and 1s. 4d. Hotels: Club, Racecourse, Camp and Railway. It is in shire Wyndham, the counties of Grant and Bourke, the river Werribee dividing them, and same electorate. Plains of considerable extent, used for grazing purposes, environ the village, which is 77 feet above sea-level. The Volunteer encampments have been held here. A popular racecourse is on the border of the township, and several coursing clubs meet here. The You-Yang mountains form a conspicuous figure in the landscape. State schools (No. 649 and 3 230), Anglican, Presbyterian, Wesleyan, and Roman Catholic churches, butter factory, Mechanics' Institute, and free library, with 1,070 volumes. The Wyndham shire-hall is here. In the district there are 30,180 acres under cultivation, principally with hay and artificial grasses. In the shire (area 275 square miles) of Wyndham the net annual value of ratable property is £55,589, dwellings 410, ratepayers 400, rate 1s. Melbourne and Metropolitan Board of Works farm 4 miles distant. Population 550, of shire 2,050. Local paper: *Werribee Express*.

WELSHPOOL (38° 40′ S. lat., 146° 30′ E. long.) (co. Buln-Buln, shire South Gippsland), post-town on Shady Creek, with telephone and railway station on Great Southern Railway, 119¾ miles; fares 21s. 6d. and 14s. 3d. Has hotel, creamery, State school, used for Anglican services (No. 3,011). Water from household tanks. Agricultural and pastoral district. Industries: dairying and fishing. Population of district about 500.

WHIPSTICK. *See* Neilborough.

WHITE HILLS (36° 44′ S. lat., 144° 20′ E. long.), a hamlet, in the county of Bendigo, electorate of Sandhurst; police district of Bendigo on Bendigo Creek, 103½ miles NW. of Melbourne. Cabs run to the Bendigo post office; fare, 6d. Hotels: Farriers' Arms and the Wellington. There are three places of worship, Episcopal, Methodist, and Baptist, a State school (No. 1,916), four stores, a post and money-order office, a police-station, also a well-laid-out cemetery, and a beautiful and well-kept botanical garden. The water supply is from the Crusoe Reservoir, 10 miles S. of White Hills. Quartz reefs have been found which only require capital to develop them; a deposit of potter's clay has also been discovered. A dredging plant is at work on the creek. A fine race-course is about one mile to the NE. Lighted with kerosene. Population, with vicinity, about 600.

WHITTLESEA (37° 30′ S. lat., 145° 10′ E. long.) is a post town, with telegraph and money-order station and savings bank, in the counties of Bourke and Evelyn, and electoral district of Bourke E., and Evelyn, and shire of Whittlesea, lying 27¼ miles NE. of Melbourne, 24½ by road. It is a railway terminus; fares, 3s. 11½d. and 2s. 9½d. Two hotels It is situated on the Plenty river, at the foot of the Plenty ranges, has a State school (No. 2,090). Roman Catholic, Presbyterian, Episcopalian, and Wesleyan churches, Free Library (1,300 vols.), a public hall, a parochial hall, Rechabite and Oddfellows' Lodges, and a court-house. The district is an agricultural and pastoral one. Sawmilling and creamery industries. A fine aqueduct of massive masonry, conveying the waters of the Plenty, Wallaby, and Silvery to the Yan Yean, 3 miles S. of the township, passes through Whittlesea. Net annual value of ratable shire property, £18,890; area 134 sq. miles, 400 dwellings, 420 ratepayers, 1s. rate. Land under cultivation 4,565 acres. Formation: granite, schistoze. Population of district, 700; shire, 1,640.

WHROO (36° 36′ S. lat., 145° 4′ E. long.), a gold mining township, with post and money-order office and savings bank, 109 miles due N. of Melbourne, in the county and electoral district of Rodney, police district of Rushworth, shire Waranga. The diggings are both quartz and alluvial. Communication from Melbourne is by rail to Rushworth, changing train at Murchison East, thence coach 4½ miles; fare, 1s. 6d. The hotels are the Balaclava, Junction, and Whroo Inns. There is a State school (No. 651), Presbyterian church where service is held alternately by Church of England and United Free Methodists; A.O.F. Society, also a mechanics' institute, and a free library, containing 950 volumes. Has saw-mills and cyanide works. The district is a pastoral and mining one, gold and antimony being found. Formation: upper silurian. The population of town and district is about 150.

WICKLIFFE (37° 39′ S. lat., 142° 44′ E. long.), a township, with post, money-order and savings bank office, in the county of Ripon, electorate of Ararat, police district Wimmera, on the river Hopkins, 168 miles (164¼ postal) WSW. of Melbourne, seven miles from Lake Bolac, with which it is connected by telephone, and 42 miles from Hamilton E. The district is at present principally taken up by sheep stations. Wickliffe Road (10¾ miles) is the nearest railway station. Fares, 27s. 8d. and 18s. 7d.; coach fare, 3s. 6d Coach runs to Lake Bolac daily, 2s. 6d. Hotel: the Western. Police barracks. Presbyterian church, State school (No. 948). Ararat shire pound. Population, 120.

Wickliffe Road has a post-office, and at about two miles distant on a chain of salt lakes are two salt factories. Population about 50.

WILBY (37° 50′ S. lat., 146° E. long.), a post town, in the county of Moira, electoral district of Benalla and Yarrawonga, and police district of Benalla, on Sandy Creek, 158 miles NE. of Melbourne. Tungamah is the nearest railway station, 8 miles distant, with which there is daily communication, fare 2s. 6d. There are Congregational and Roman Catholic churches, a State school (2,288), Mechanics' Institute with free library, Foresters' court, large butter factory (with four creameries supplying), an hotel, two stores, several tradesmen's establishments, and large sale yards for stock. It is an agricultural and pastoral district (clay subsoil), well settled, and only requires for its further advancement railway communication. Population about 100.

WILLENABRINA (co. and electoral district Borung, police district Jeparit), in the shire of Borung, is a post town 237 miles NW. of Melbourne. Communication—rail to Warracknabeal, coach thence; Tuesday and Friday, fare 5s. State school (No. 2,632); Roman Catholic and Bible Christian churches, mechanics' institute and free library. District, agricultural and pastoral. Population, 24; of district about 400.

WILLIAMSTOWN (37° 52 S. lat., 144° 55′ E. long.), county of Bourke, and an electoral district of Williamstown, is a port and municipality on the S. point of the estuary of the Yarra-Yarra river and SW. shore of Hobson's Bay, immediately opposite Port Melbourne, 9¼ miles SW. from Melbourne, with which a line of railway connects it. Fares, 1s. and 9d. Principal hotels: Steam Packet, Royal, Newport, Prince of Wales, Yacht Club and Pier, and about 34 others. There is also communication with Melbourne by steamboat to Port Melbourne, and rail thence, 5 miles in all, and by short road and steam punt over the mouth of the Yarra. Like Port Melbourne the business of the place is principally with the shipping. There are commodious piers, the Breakwater, Railway, Ann Street, and New Pier, alongside of which ships of the largest burden can be berthed: there is also ample provision for the repairs of vessels, there being patent slips and ship-building yards. The Alfred Graving Dock, which was several years in construction, was opened in March, 1874, Her Majesty's ship *Nelson* being the first vessel to enter it. It was greatly improved during 1897-8. At the extreme end of the peninsula on which Williamstown is situated, called Gellibrand's Point, is a tower formerly used for lighting vessels coming up the bay at night, but which has since been superseded by a light-ship (Gellibrand's light-ship), placed about a mile and a half farther down the bay. A time ball is on the top of the tower, which is dropped at 1 P.M. It has a money-order savings bank and telegraph offices There are branches of the Commercial, English and Scottish, Australasian, and Commissioners Savings' Banks, and agencies of the leading Insurance Companies, Masonic, Oddfellows', Druids', and Foresters' lodges, three State schools (Nos. 1,183, 113 and 1,409), and several private schools, three Church of England, two Presbyterian, Roman Catholic (St. Mary's), Congregational, three Wesleyan, Welsh Calvinistic, two Primitive Methodist, one Free Methodist, and two Baptist places of worship, a mechanics' institute—a substantial bluestone building, with a library of 5,000 vols. and Sailors' Rest, with a library of 668 vols., and public buildings—Custom-house, four post-offices, including money-order, savings', and telegraph offices, Government workshops, where several hundreds of hands are employed, pier-master's and chief harbour-master's quarters, &c. Naval depôt and drill-room. Several quarries of superior basalt are worked within a short distance of the town. Brown coal of marketable quality has been found. There is a fine racecourse 2 miles away. Two gas companies are established. Industries: "Shell" Transport Oil Importation Co. (employing 300 hands), Australian Forage

A A

and Engineering Co., Compressed Fodder Company; woollen mills, glass bottle works, agricultural implement factory, bicycle factory, meat pressing factory, freezing works, ship-building yard. The water supply is from the Yan Yean. Large Government railway workshops have been erected at Newport. There are in the municipality (area 2,775 acres) 2,982 inhabited dwellings, 5,200 ratepayers, 2s. rate, and property valued at £727,290 (net annual value £72,729). Population 13,639. Three newspapers are published on Saturdays, *Williamstown Chronicle* (established 1854), *Williamstown Advertiser*, *The Times*. The geological formation is basaltic and basaltic clay.

WILLOW GROVE (cos. Buln-Buln and Tangil, shire Narracan) a post town, six miles from Russell's Creek, 12 miles from Moe, and 92 postal miles E. from Melbourne, with post-office, hotel, State school (No. 2,240), creamery and store. Rail to Moe, coach thence. Tangil is 3 miles distant and Latrobe river 1¾ miles and Tangil river 1½ miles. Trips are made from here to top of Mount Bawbaw. District is agricultural and grazing. Formation: basaltic. Population of town and district 250.

WIMMERA SHIRE. *See* HORSHAM.

WINCHELSEA (38° 50′ S. lat., 144° 0′ E. long.), shire, post town, with telegraph station, savings bank, and money-order office, in the county and electorate of Grant, on the Barwon river and the road from Geelong to Warrnambool, 70¾ miles SW. of Melbourne. Height above sea-level 281 feet. It is a station on the Geelong and Colac Railway, fares 12s. 8d. and 8s. 7d. There are two hotels—Barwon and Winchelsea, a State school (No. 2,015), branch of the Colonial Bank, public library (2,000 vols.), shire hall, and places of worship of Church of England, Roman Catholic and Presbyterian denominations, also lodges — Oddfellows' and Sons of Temperance and A.N.A. Winchelsea has also a public park and recreation reserve. A court of petty sessions is held here. In the neighbourhood are Moran's bluestone quarries. The district is mainly of a pastoral character, with patches of agricultural land; 16,218 acres of land were under cultivation in 1900, of which 9,968 acres are laid down with artificial grasses, the remainder being principally oats, peas, and potatoes. Net annual value of ratable shire property, £48,224; area 630 square miles, 559 dwellings, 765 ratepayers on roll; 1s. rate. Water by windmill to troughs. Population, 450; of shire, 3,200.

WINDERMERE (co. Ripon, shire Ballaarat), railway station on Ararat line, 84¾ postal miles NW. from Melbourne, fares, 15s. 7d. and 10s. 6d.

WINDSOR (37° 52′ S. lat., 145° 0′ E. long.), a suburb of Melbourne, electorate of Prahran, about 4 miles south, and forms part of the city of Prahran. It has postal, telegraph, telephone and savings bank offices, is a station on the Suburban Railway, fares, 3d. and 2d.; trains about every 10 minutes, also tramway along Chapel Street, fare 3d. The extension of the tramway has brought the Esplanade, St. Kilda, into tram communication with Chapel Street. Masonic and Friendly societies. Banks: English and Scottish. Places of worship: Congregational church, Peel Street, and Wesleyan Mission, Albert Street. Lighted with gas.

WINSLOW (38° 15′ S. lat., 142° 24′ E. long.), a post town, in the county of Villiers, and electoral district of Villiers and Heytesbury, police district Woodford, on the banks of Lake Cartcarronge (freshwater), 2 miles from Spring Creek, 6 from Merri River, 178¼ miles W. of Melbourne, 13 miles N. of the seaport town of Warrnambool, 7 N. from Woodford, and 7 NE. from Koroit. Hotel: Burke's. Winslow has a State school (No. 654), Anglican and Presbyterian churches, supplied from Koroit and Woodford respectively; Oddfellows' Lodge, mechanics' institute (256 vols.), and a tannery. The route to Melbourne is by coach to Warrnambool, and rail or steamer thence, or coach and rail, *viâ* Terang. The district is of an agricultural and pastoral character. Formation: volcanic. Population about 300.

WINTON (36° S. lat., 146° E. long.), (county of Delatite, electoral district and shire of Benalla and Yarrawonga, police district Benalla), is a post town and railway station, with telegraph office, 127 miles NE. from Melbourne. There is a butter factory and creameries, a State school (No. 1,870), public hall, hotel, and Presbyterian church. Town is unlighted. The district is principally a dairying one. Population, about 100; of district, about 300.

WODONGA (36° 7′ S. lat., 146° 54′ E. long.) (county and electoral district of Bogong), the terminus of the North-Eastern Railway, is a shire and post town with telegraph and money-order office and savings bank, with deputy registry and electoral registry office. Court of petty sessions is held weekly, and the county court three times a year. Wodonga is on the Wodonga Creek, an arm of the Murray river, and a short distance from the border of N.S. Wales. It is connected by rail and bridge to Albury, to and from which town cabs run every hour. The Victorian trains run through to Albury, N.S.W., which is the changing station both on the up and down journey. Communication with Melbourne (187 miles SW.) thrice daily by rail; fares, 33s. 7d. and 22s. 4d. Hotels: the Border, Victoria, Railway, Terminus, Half-way House, and Carriers' Arms. There are two banks—New South Wales and Bank of Victoria. Churches: Church of England, Presbyterian, Wesleyan, German Lutheran, and Roman Catholic. The local cattle sale-yards cover 23 acres of land, and the town was once a great market for store stock and horses, but the stock-tax has reduced the business. There is a literary institute and reading room (1,000 vols.), and commodious hall with stage appliances. It has a State school (No. 37), a Roman Catholic and a private school, a custom-house, Masonic, A.N.A., Hibernian and Oddfellows' lodges, a powder magazine, and brewery. Coaches leave here for Bethanga and Tintaldra. Height above sea-level 538 feet. Water supply from House Creek. Formation: clay on granite. On March 1, 1900, 2,204 acres were under cultivation, principally with wheat and hay. Net annual value of shire property £12,243, dwellings 328, ratepayers on roll, 278, rate 1s. Population 841, of shire 1,707. Local newspaper: *Wodonga and Towong Sentinel*, published on Friday.

WONWONDAH EAST (37° S. lat., 142° E. long.), postal township, in county and electoral district Borung, police district Horsham, shire Wimmera, on Burnt creek. It is 215 miles NW. from Melbourne, from which rail to Horsham; thence coach. It has a State school (No. 2,472). Water from Wartook reservoir. District, agricultural and horticultural. There is a large saw mill in the district. Sheep-farming and vine-growing. Wonwondah South is about 16 miles SW. from Horsham, and has a State school. The soil is clayey loam, and sandy. Population about 70.

WOODEND (37° 19′ S. lat., 144° 34′ E. long.), in the county of Dalhousie and electoral district of Kyneton, police district of Newham, Newham United shire, is a post-town, with money-order, telegraph, and savings bank office, and railway station on the Melbourne and Echuca Railway, at Junction Daylesford and Ballaarat line, on the Five Mile Creek, 48¼ rail miles N. of Melbourne. Fares, 8s. 9d. and 5s. 10d. Excursion, 9s. 11d. and 6s 7d. Has several hotels, and there is also a large coffee palace on the side of Mount Macedon, three miles from Woodend. The Commercial Bank has a branch here; also a mechanics' institute, with a library of 1,500 vols., M.U.I.O.O.F., A.N.A., and H.A.C.B.S. societies, social clubs, a court-house and police-station. The places of worship are St. Mary's (Church of England), and Roman Catholic (St. Ambrose) and Presbyterian churches. There is a State school (No. 647), and a Roman Catholic school. Town is lighted with kerosene. Coaches run daily to Lancefield, Newham and Rochford. The district is an agricultural, dairying, and pastoral one, and has a court of petty sessions. The celebrated "Hanging Rock" and Camel's Hump (the highest point on Mount Macedon) and Campaspe Falls, are convenient to Woodend. Woodend is 1,840 feet above the sea-level, and is a favourite summer resort for visitors from the metropolis. Good fishing on the Creek. The reserves are the Volunteer Ground and Race Course Hill. The water supply is derived from Mount Macedon, and is noted for its purity; area of Shire, 91 sq. miles. Valuation, £15,307, rate, 1s. in the £; ratepayers on roll, 343, land under under cultivation, 8,402 acres. Formation: Volcanic in part. Population, town, 1,000; shire, 2,330. Newspaper: *Woodend Star*, published on Saturday.

WOODFORD (38° 18′ S. lat., 150° 26′ E. long.) (county Villiers), a postal township, on the banks of the Merri river, 16 miles (172½ postal) from Melbourne W. Warrnambool, with which there is telephone communication, is 6 miles distant S., whence a coach runs daily to Woolsthorpe, *viâ* Woodford. Hotel: Woodford Inn and wine saloon. There are Anglican, Presbyterian, and Roman Catholic churches here, and a State school (No. 648), and a Roman Catholic school. The mechanics' institute has a library of 1,000 vols. and a good hall, capable of seating 300 persons. Oddfellows' and Rechabite lodges, recreation reserve, two stores, a tannery, bacon factory, hotel, wine saloon, and police-station. There are numerous orchards in the neighbourhood. The land in the vicinity is remarkably rich, and well-suited for potato and grain growing. Population, about 300.

WOODSIDE (38° 50′ S. lat., 146° 90′ E. long.,) (co. Buln-Buln, shire Alberton), post town, with telephone station, 159 postal miles E. of Melbourne, on Bruthen creek. Communication is by rail to Alberton or Sale thence coach 12 miles. Has mechanics' institute and free library (in which all denominations hold religious services), State school (No. 1,176), hotel. Lighted with kerosene. Agricultural and pastoral district. Ninety-mile Beach is distant 5 miles; Corner Inlet about 7 miles. Population, township, 100; district about 500.

WOODSPOINT (37° 36′ S. lat., 146° 15′ E. long.) in the county of Wonnangatta, shire Howqua, electorate of Anglesey, police district of Benalla, an important postal mining township, savings bank, money-order and telegraph station, on the Upper Goulburn river, 112 postal miles ENE. of Melbourne, by rail *viâ* Healesville thence coach to Marysville, from thence by horse or coach to Woodspoint; coach from Mansfield to Jamieson, 64 miles from Woodspoint to Mansfield; or rail to Moe, or Traralgon coach, thence to Walhalla, 25 miles, horse on to Woodspoint; *viâ* Aberfeldy, Jericho and Matlock, 42 miles. The hotels are the Reefers', Commercial, Globe, and Star. The hospital has 15 beds, and the Church of England and Roman Catholics have places of worship here. Post-office, Masonic, and M.U.I.O.O.F. lodges, court house, public hall, powder magazine, State school (No. 789), and police-station. The whole district is very mountainous, with beautiful scenery, and taken up for quartz and alluvial mining operations, the quartz reefs being numerous and rich. Dykes of diorite and granite are found at intervals, and these have contained much rich quartz, the yield during 1899 being about 1,355 ozs. a month. About 9 miles South is Jericho; 8 miles to the S. is Ross Creek, while 6 miles to the E. is Stander's Creek, Matlock's 4½ miles SW., and Gaffney's Creek, 11 miles North are important mining centres. At all these places reefs are being developed, and are yielding good returns. Expensive machinery is employed in obtaining the precious metal. 1,500 miners find employment. The geological formation of the district is lower silurian, with drift of shale and slate. Population, town and district, 2,000. Local paper *Grand Mowers' Standard* (Henderson & Co.).

WOOLSTHORPE (or SPRING CREEK) (38° 10′ S. lat., 142° 23′ E. long.) is a postal town, in the county of Villiers, electoral district of Villiers and Heytesbury and police district of Koroit, shire Warrnambool. It lies 185 miles SW. of Melbourne, on the

main road from Warrnambool to Hamilton, has a railway station 4 miles from township on the line from Koroit to Hamilton; fares, 33s. 1d. and 22s. 1d. Warrnambool is 16 miles SE. and Port Fairy 20 miles distant SW., and Koroit 8 miles S. Woolsthorpe is situated on the East bank of Spring Creek, and has an hotel, the National, creamery, two stores, a fine bluestone State school (No. 688), a Presbyterian church, Church of England service and Salvation Army meetings held in the mechanics' institute, the free library containing 828 vols. A daily coach runs to Warrnambool, fare 2s. single, return, 3s. 6d. The district is a pastoral one, with some farming. Water from tanks. Lighted with kerosene. The nearest sheep stations are Union, Quamby, Minjah, and Kilmorey. Population about 200.

WOORAGEE (co. Grant, shire Barrabool), postal township, 187 miles NE. of Melbourne, on Young's Creek. Has two hotels and State school. Timber industry. Population, 300.

WOORAYL. *See* LEONGATHA.

WOORNDOO (37° 54′ S. lat., 142° 48′ E. long.), a postal township, in the county of Hampden, electorate of Ripon and Hampden, shire of Mortlake, situated on Salt Creek, at the junction of the Geelong, Warrnambool, Ballaarat, and Ararat roads, 48 miles E. of Hamilton, and 145 miles (162¾ postal) WSW. of Melbourne. Communication is by rail to Mortlake, thence coach; fare, 4s. It has hotel, a State school (No. 1,001), a Presbyterian chapel, and two stores. It is a pastoral district. Population, 110.

WUNGHNU (36° 10 S. lat., 145° 27′ E. long.), a post town in the county of Moira, and electoral district of Numurkah and Nathalia, situated on Nine Mile Creek, tributary of Broken Creek, with station on the Numurkah Railway, 129 miles NE. of Melbourne; fares, 23s. 1d. and 15s. 4d. Coaches run to Karrimba and Mundoona. It has a money-order office and savings-bank and telegraph connection, also Oddfellow and Rechabite lodges, mechanics' institute (with library and reading room), Bible Christian chapel, and a State school (No. 1,938). Bank of Australasia. Hotels: Cumberland and Royal. Lighted with kerosene. It is an agricultural district, with chocolate soil and clayey subsoil. Population, 295; district, about 1,000.

WYCHEPROOF (36° 0′ S. lat., 143° 0′ E. long.) is a postal township, in the shire of Wycheproof, county of Kara-Kara, and electorate of Donald and Swan Hill, situated at the foot of Mount Wycheproof, 357 feet above the sea-level. It is a station on the Bendigo and Sea Lake line, 190 miles NW. of Melbourne, and 89½ miles from Bendigo. Fares, 34s. 2d. and 22s. 10d. A line of railway is constructed to Sea Lake. There is coach communication with Towaninnie, Narraport, Birchip, Swan Hill, and Tittybong. There are 5 hotels: Royal, Royal Mail, Post Office Club, Terminus, and Mount Wycheproof. It has a savings bank, money-order and telegraph office, mechanics' institute (1,000 vols.), shire hall, and branches of the Australasia and Commercial Banks. State school (No. 1,757), and Anglican, Presbyterian, Wesleyan, and Roman Catholic places of worship, A.N.A., an agricultural society, a large roller flour-mill, a butter factory, several general stores, and tradesmen's shops. Town is lighted with kerosene. Water by reticulation from large tanks. Agricultural, viticultural, and pastoral district. Area of shire 1,200 square miles, 1,205 ratepayers, 1s. rate, £43,727 net annual value of ratable property. In 1900 179,182 acres under tillage, 153,901 acres wheat, 3,146 acres oats, 3,438 wheaten and 67 other hay. A court of petty sessions is held here weekly. Population, about 500; of shire, 4,150. The local newspaper is the *Ensign*.

WYNDHAM SHIRE. *See* WERRIBEE.

YACKANDANDAH (36° 18′ S. lat., 146° 52′ E. long.) is a post town and railway terminus with money-order, telegraph, and savings bank office, prettily situated in the county of Bogong, electorate of Benambra, shire Yackandandah, at the junction of the Commissioners and Yackandandah creeks, 186¼ (187½ postal) miles NE. of Melbourne. Railway fares, 33s. 1d. and 22s. 6d. Beechworth Railway Station is 15 miles distant SW., to which a coach plies daily, fare 2s. 6d. Coaches also run daily to Huon Lane Railway Station, also to Dederang Tuesday, Thursday, and Saturday. The hotels are the Waterloo, Clarence, Star, Royal, Yackandandah, and Bridge. The diggings, are both alluvial and quartz. Barges are at work on the Yackandandah creek, working out the old bed; while the Twist Creek reefs, which have been lying idle for twenty years, are again yielding good gold. The district is principally a mining one, although a considerable breadth of land has been brought under cultivation. Gold yield, 1899, 12,995 ozs. There is a branch of the Bank of Australasia. It has a State school (No. 1,103), and Anglican, Roman Catholic, Presbyterian, and Wesleyan churches. The Athenæum has a library of 2,600 volumes. Court of Petty Sessions and Warden's Court are held fortnightly. There are Oddfellows', Hibernian, Rechabite, and Foresters' lodges, Race and Athletic Clubs, and very successful Agricultural, Pastoral and Horticultural society. The Shire Council holds its monthly meetings at Yackandandah. There are in the town a soda-water factory, flour mills, and tannery. Water from wells, the springs being very pure. Formation: on the west upper and lower silurian, on the east granite. The district is a remarkably healthy one. Mount Stanley, Big Ben, and the Indigo Falls are in easy distance, and Hon. J. A. Wallace's hydraulic sluicing claim are worth a visit. Net annual value of ratable shire property, £32,810, area of shire 561 square miles, with 930 dwellings, 1,030 ratepayers, 1s. rate. Land under cultivation 8,446 acres. The number of inhabitants is 800; of the shire 4,100. Newspapers: *Yackandandah Times* and *Benambra and Bogong Advertiser*.

YAMBUK (38° 17′ S. lat., 142° 3′ E. long.), in the county of Villiers, electorate of Port Fairy, a township, with post, money-order, and telegraph offices, on the Portland Road and the Shaw river, about 11 miles NW. from Port Fairy, and 199 miles W. from Melbourne; having town hall, Anglican, and Roman Catholic churches, two hotels—the Commercial and Shaw, a State school house (No. 2,458), a Roman Catholic school, free library, M.U.I.O.O.F., one store, large butter and cheese factory, and several tradesmen's shops. The metropolis is reached by taking coach to Port Fairy; fare, 2s. 6d., thence rail. A coach runs on Monday, Wednesday, and Friday to Portland, 6s., and returns on Tuesday, Thursday, and Saturday to Port Fairy, 2s. 6d. Good fishing and shooting, pleasant drives. Pastoral district. Formation: sandstone and clay. Population, about 200.

YANDOIT (37° 14′ S. lat. and 144° 6′ E. long.), in the county of Talbot, electoral district of Daylesford, central police district, shire Mount Franklin, is a postal township, with money-order and telegraph office, on Jim Crow Creek, 91 postal miles NW. of Melbourne. The communication is by coach and rail *viâ* Guildford, coach fare, 1s. 6d.; or conveyance from Newstead Railway Station; a coach also runs to Daylesford; fare, 3s. 6d. Hotel: Bridge; Anglican, Roman Catholic, and Wesleyan churches; M.U.I.O.O.F. and I.O.G.T. lodges, mechanics' institute; free library (524 vols.), police station and State school (No. 691); creamery and butter factory, three large stores. It is a place of petty sessions. There is good agricultural land in the district, and much of it under cultivation. Many vineyards have been planted in the locality, and large quantities of "dark and dry" wine are now made. To the NE., about four miles distant, is an extensive bed of good clay, fit for making superior earthenware There is also a mineral spring, whose waters are said to be quite equal to those of Hepburn. There are gold-bearing reefs, running near and through the township, which need developing. The climate is particularly healthy. Formation: volcanic. Mount Franklin is about 4½ miles SE. Population, 192; district, 1,400.

YANGERY (39° 18′ S. lat., 142° 33′ E. long.), in the county of Villiers, electorate of Villiers and Heytesbury, police district of Warrnambool, a township on Yangery Creek, between Woodford and Koroit, 176¼ miles W. from Melbourne; communication is by conveyance to Illowa, thence train. It has a State school (No. 690), a loose post-bag, butter factory and creamery. Potato and wheat growing district. Tomethill Lake about 1 mile distant. Formation: volcanic. Population of district about 500.

YANNATHAN (co. Mornington, shire Cranbourne), post township on Koo-Wee-Rup swamp, 16 miles SW. of Drouin. Reached by rail to Monomeith, coach thence. Has church, State school and store.

YAN YEAN. *See* SOUTH YAN YEAN.

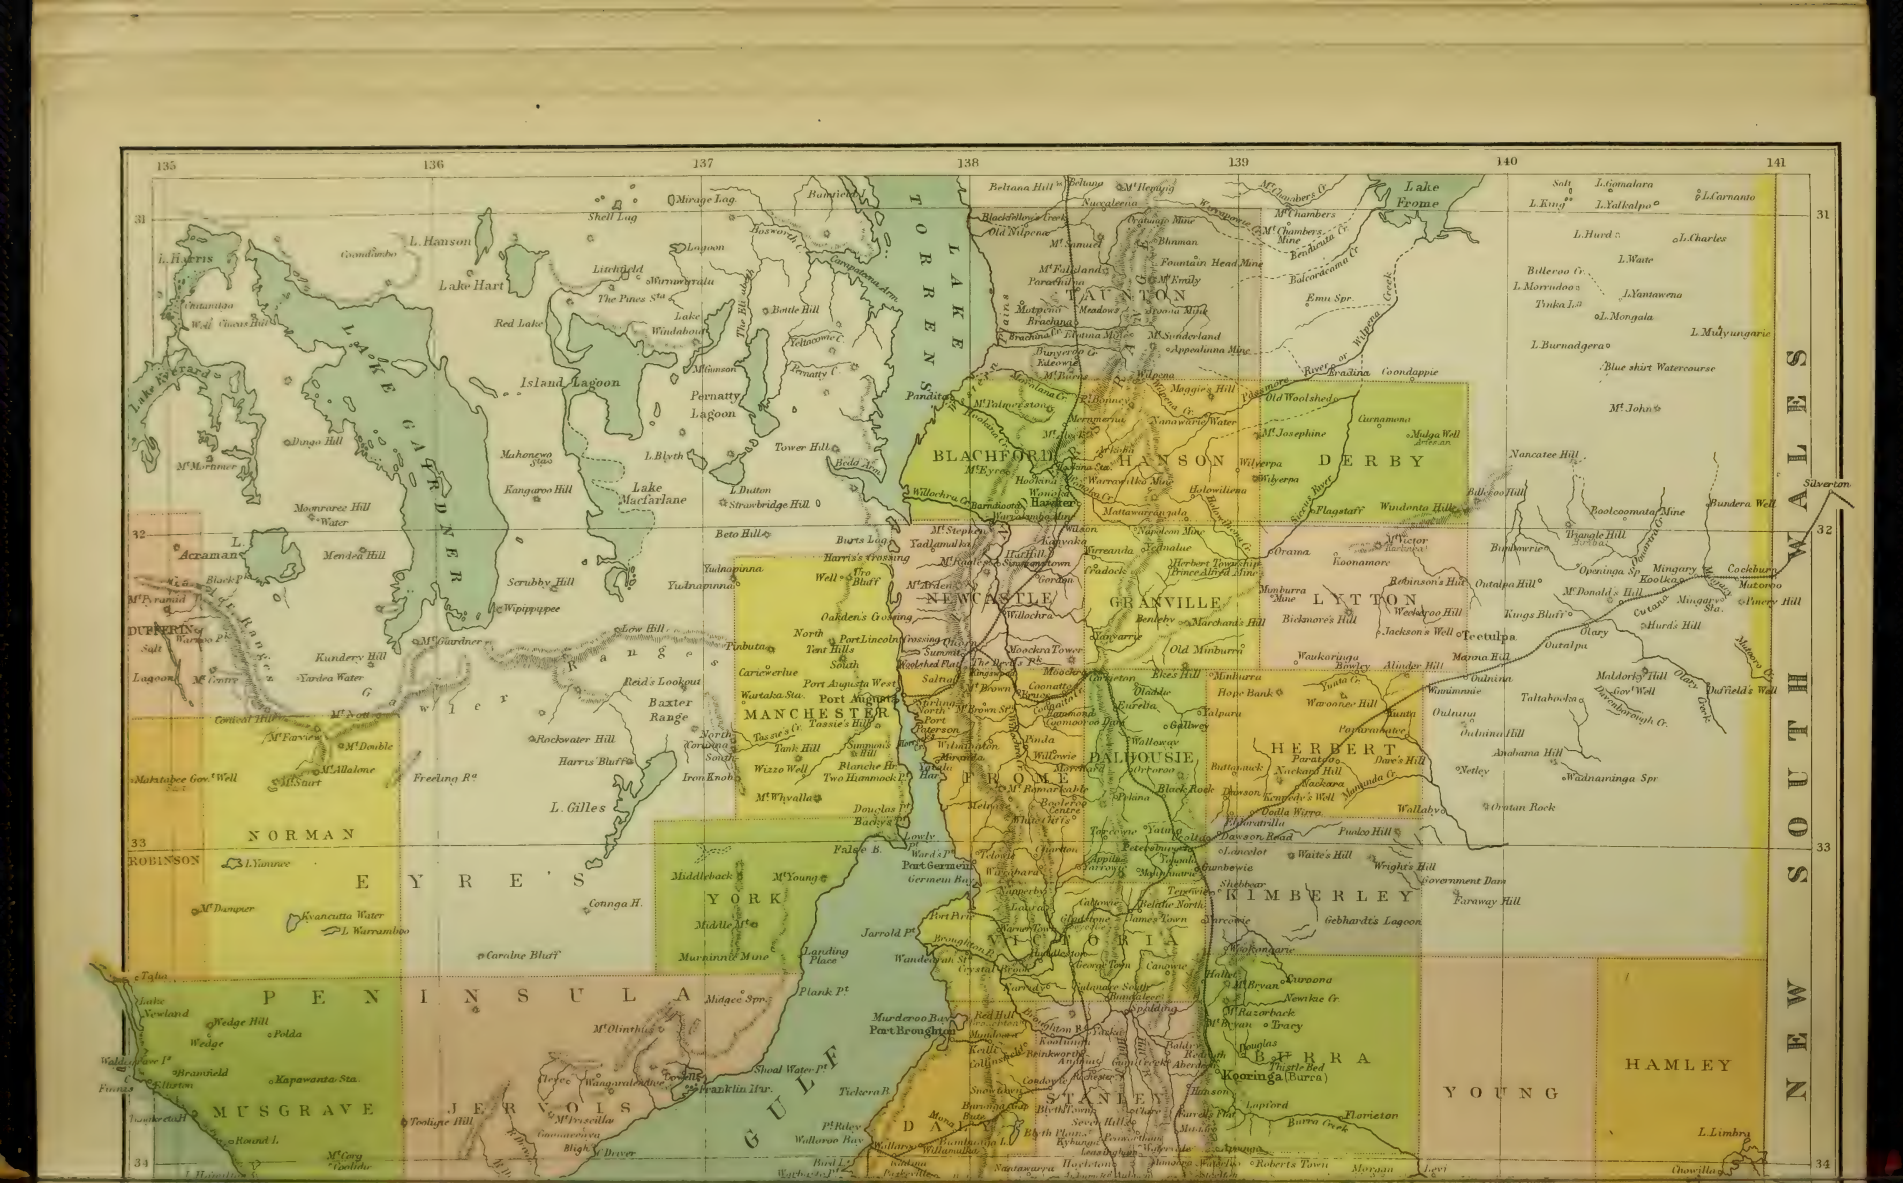
YARRA GLEN, a post town (no delivery), with money-order, savings bank and telegraph office, 30¾ miles NE. of Melbourne, on the River Yarra, in the county of Evelyn, electoral district of Eltham, and police district of East Bourke. It is connected by rail with Melbourne; fare, 5s. 7d. and 3s. 8d. The principal hotels are Yarra Flats, Burgoyne, and Junction. Colonial Bank has an agency here, and there are Anglican, Presbyterian, and Roman Catholic churches, public library, Oddfellows' lodge and a State school. Court of Petty Sessions once a month. Hunt club, good quail shooting. A coach runs to Christmas Hills; fare, 2s. Favourite district for country residences. It is an agricultural and pastoral district. Alluvial gold mining at Steel's Creek, 7 miles distant. Population of township 459, and district 900.

YARRAGON, late WATERLOO (38° 10′ S. lat., 146° 1′ E long.), in the county of Buln-Buln, electoral district of Gippsland West), police district of Waterloo, shire of Narracan, a post town, with telegraph, money-order and savings bank office, on the Moe swamp, recently drained, and all bought or selected. It is a railway station on the Gippsland line, 68¾ miles E. from Melbourne; fares, 12s. 4d. and 8s. 4d. It lies 272 feet above sea-level. Mail coaches run to Allamber. Hotels: Tarragon, Waterloo, and Commercial. There is a branch of the Bank of Australasia, Temperance society and Progress Association, a police station, a large mechanics' hall and reading-rooms, with a good library of 1,000 vols.; Anglican, Wesleyan and Roman Catholic churches; State school (No. 2,178), a saw-mill, and three stores. It is also a place of petty sessions. Pigs, potatoes, and dairy produce are sent from here to Melbourne. There are brick works in Yarragon. Agriculture and grazing are the pursuits followed in the district, which is making rapid progress. The black-wood tree flourishes in the neighbourhood, growing to a fine size and grain. The scenery out of Yarragon is fine, of the forest type; gigantic trees and ferns of all kinds, and all the variety of forest undergrowth. Streets lighted with kerosene. Formation: silurian, mesozoic and carboniferous. Population 300 of town, and district about 2,000. Newspaper: *Yarragon and Trafalgar Express*, Tuesdays and Fridays.

YARRAM YARRAM (38° 34′ S. lat., 146° 40′ E. long.), a post town, with a telegraph, money-order office and savings bank county Buln-Buln, shire Alberton, electoral district Gippsland South, police district of Sale, situated on Tarra-Tarra Creek, 136 miles SE. of Melbourne. Communication is by coach to Sale tri-weekly, 15s.; coaches also run to Alberton railway station, 3¾ miles distant. Mechanics' institute, with free library of 670 vols. Banks: Victoria and Australasia. Shire hall and receipt and pay office. There are Anglican, Presbyterian, Roman Catholic, and Wesleyan churches. Commercial hotel, Rechabite Lodge, and a State school. It is a pastoral

district, and Yarram is the cattle market for the whole of South Gippsland. Dairying is now largely carried on, butteries and creameries have been established and a large trade is being done. Flax is grown in large quantities, and a flax factory is at work. Coal and valuable clays are found within a few miles of the township. Gold and tin are also found, but the country is undeveloped. Yarram district is a beautiful valley, slightly elevated above sea-level; bounded north and west by an amphitheatre of mountains 2,000 feet high, the climate is very salubrious, the influence of hot winds not being felt. Town lighted with kerosene. Population, 400. Newspaper: *Gippsland Standard*, published Wednesdays and Fridays.

YARRAVILLE (37° 28′ S. lat., 144° 56′ E. long.), in the county of Bourke and electoral district of Footscray. A suburb with a station on the Williamstown line, 4¾ miles SW. from Melbourne, situated on the River Yarra; fare, 5½d. and 4½d. It has a post, money-order, telegraph, and savings bank office. There are six hotels; three public halls, the Yarraville, the Jubilee and St. George's; State school (No. 1,501), and one at Yarraville West, and Presbyterian, Primitive Methodist, Wesleyan, Roman Catholic, Anglican and Free Methodist churches. The National Bank has a branch at Yarraville. M.U.I.O.O.F. lodge. The streets are lighted with gas, which also contain some very good shops. The Yan Yean supplies this suburb with water. Rope, bottle, sugar, chemical factories and an iron foundry have been established here.



YARRAWONGA (36° 1′ S. lat., 146° 0′ E. long.), a post town, with telegraph, money-order office, saving bank, receipt and pay office and electrical registrar's office, on the banks of the Murray, 161½ miles NE. of Melbourne, 420 feet above sea level, and is in the shire of Yarrawonga, the county of Moira and electorate of Benalla and Yarrawonga. It is the terminus of the branch line from Benalla, fares from Melbourne, 29s. and 19s. 4d. Two trains daily, Monday, Tuesday and Thursday; other days one train; in summer two trains daily. Within the borders of the town are eight hotels, the Yarrawonga, Commercial, Royal Mail, Exchange, Terminus, Criterion, Farmers' Arms, and Victoria; branches of the Australasia, Commercial and National Banks, a State school (No. 1,819), Congregational, Anglican, Roman Catholic, Presbyterian, and Wesleyan churches, Salvation Army barracks, convent, county court, insolvency court, court of petty sessions, office of the Inspector of Stock and Customs, and police camp, a mechanics' institute with library (5,000 vols.), private and Roman Catholic schools. There is a flourishing agricultural society here, with one of the best-equipped show grounds in the north-east, also vine and fruit growing association. Three parks—the Alexandra, Victoria, and Athletic, and a splendid, well-appointed race-course. The country is described as first-class pastoral and agricultural land, being red soil, slightly sandy, with rich clay subsoil. Latterly vine and fruit growing has been taken up largely, the climate and soil being especially adapted for their cultivation. Wine distilling has been established, and dairying has assumed large proportions. An extensive water supply scheme (a Trust) has been formed to supply water to stock throughout a considerable portion of the adjacent shire of Tungamah. Town has excellent urban water-works (Trust), the water supply being pumped from the Murray and conveyed by pipes through the streets; it is lighted with kerosene. Yarrawonga has had a most rapid growth; a few years ago it had no existence; it is now one of the most important towns on the Murray. It has besides the places above-mentioned, two saw-mills, a farmers' co-operative grain store, butter factory, a number of general stores, and tradesmen's shops, two flour mills, three cordial factories, brickyard, three public halls for meetings, Masonic M.U.I.O O.F., I.O.O.F., and W.C.T.U., A.N.A. and Hibernian societies, and many private residences. A natural highway approaches the River Murray here on both sides, and a fine bridge has been erected by the Governments of Victoria and New South Wales. Coaches run to Wangafatta, Peechelba, Bundalong, Boosey, Invergordon, Burramine, Numurkah, and Katamatite, and to Berrigan and Jerilderie in New South Wales. In the shire 44,806 acres are under cultivation, of which 32,062 are wheat. The area of Yarrawonga shire is 242 square miles; the net annual value of ratable property is £36,577, and population, 3,500, dwellings 700, ratepayers on roll 900, rate 1s. Population of town 1,500. Newspapers; *The Yarrawonga Chronicle* and *Mercury*.

YARROWEYAH, a post town with telegraph and money-order office, in the county of Moira, and electoral district of Numurkah and Nathalia, four miles from the Murray, 150 miles NE. of Melbourne. It is a station on the Cobram railway line; fares, 26s. 11d. and 18s. Has Progress Association, Wesleyan and Presbyterian churches, a State school (No. 2,425), an hotel, a creamery, and one store. It is an agricultural district. Coaches to and from Tocumwall (N.S.W.) connect with Finlay, Jerilderie and Berrigan; single, 5s., return, 8s. Population about 100.

YEA (37° 12′ S. lat, 145° 26′ E. long.), shire and post town, with sub-treasury, savings bank, telegraph and money-order office, in the county and electorate of Anglesey, police district of Bourke, on Yea river, 79¾ miles NNE. of Melbourne, to which there is communication by railway; fares, 14s. 3d. and 9s. 8d. Hotels: Commercial, Caledonian, Royal Mail and Railway. State school (No. 699), free library containing upwards of 2,000 volumes; places of worship: Anglican, Presbyterian, Roman Catholic, Salvation Army; M.U.I.O.O.F., Masonic, Orange, Rechabite, and H.A.C.B. societies, a number of sports clubs; court-house, police camp, a branch of the Commercial Bank, municipal sale-yards, a butter factory, and twelve creameries connected with it. The district is principally a pastoral one, being best adapted for fattening cattle, wool growing and dairying, the rainfall averaging over 30 inches. Sporting in the ranges. Some mining is carried on. The town is supplied with water by the Yea Waterworks Trust from the Yea river, and is lighted with kerosene. Net annual value of ratable shire property is £28,800; area, 623 square miles, 458 dwellings, 789 ratepayers, 1s. rate. Land under cultivation 1,282 acres. Formation: granite ranges; lower hills, older slate and sandstone. Population of town, 600; of shire, 3,900. The *Yea Chronicle* is the local newspaper.

YENDON. *See* BUNINYONG.

YINNAR (co. Buln-Buln, shire Morwell), post town with telehpone office and railway station, 96 miles E. of Melbourne, return fares 17s. 6d. Has mechanics' institute, Anglican church, State school (2,419), hotel, butter factory, and sundry stores. Agricultural district. Population 50.

THE STATE (LATE THE COLONY) OF SOUTH AUSTRALIA.

THE STATE (LATE THE COLONY) OF SOUTH AUSTRALIA.

South Australia is the name given to the province on the South coast of the continent, and originally comprising that portion of Australia lying between 132° and 141° of E. long., and having the Southern Ocean for its S., and 26° S. lat. for its N. boundary, amounting to nearly 300,000 square miles, or 192,000,000 acres. It was established by virtue of an Act of Parliament (4 and 5 Will. IV. cap. 95), passed in the year 1834. By Act 24 and 25 Vict. c. 44, a strip of territory, known as "No Man's Land," comprising 80,000 square miles, lying between South Australia and West Australia, was added on Oct. 10th, 1861, thus extending the western boundary of the province to 129° E. long. The Government having undertaken the task of founding a new colony in the north (by letters patent, dated July 6th, 1863), still further territory was added, being so much of New South Wales as lay to the north of the 26° of S. lat. and between 129° and 138° E. long., and now known as the Northern Territory, comprising 523,620 square miles, or 335,116,800 acres. The area of the province is now estimated at about 903,690 square miles, or 578,361,600 acres. It covers 27° of latitude, and 12° of longitude. Its greatest length is 1,850 miles, its greatest breadth 650 miles. It is more than fifteen times the size of England and Wales, and nearly twenty-nine times the size of Scotland. The exact position of the boundary line with Victoria is disputed. The existing boundary is at present recognized without prejudice to re-adjustment. A strip of land 1¼ mile wide, but 242 miles long, is claimed by South Australia from Victoria. The detection of the error was due to Victorian observers. A proclamation was issued in August, 1894 (revoking the proclamation dated December, 1847), which defined the boundary of the Colony with Victoria, on the ground that the boundary fixed in 1847 was more than two miles east of the 141st degree of east longitude, which had been fixed by the Imperial Government as the boundary line of the province.

The first discovery of any part of the shores of South Australia was made in 1627, by the Commander of the *Gulde Zeepaard*, he having sailed along the south coast from the westward as far as St. Peter's Island, in Nuyt's Archipelago. The new land was called Nuyt's land from a passenger or seaman on board named Peter Nuyt.

On December 3rd, 1800, Lieutenant Grant, in the sloop the *Lady Nelson*, first sighted the South Australian coast, at a part to which he gave the name of Cape Northumberland.

The survey of the S. coast of Australia was commenced in January, 1802, by Lieutenant Matthew Flinders, in the *Investigator* (a sloop of 334 tons); and to him may be ascribed the practical discovery of South Australia. He left Spithead on July 18th, 1801, under the auspices of the Government, the East India Company contributing £1,200 towards the equipment of the vessel. He first sighted the land near Cape Leeuwin, and after a short stay at King George's Sound he commenced the examination of the Southern coast. Proceeding eastward he reached Fowler's Bay, on January 28, and sailed thence, naming the various points and bays he fell in with, as far as Encounter Bay. From his report, a company, with a capital of £50,000, called the South Australian Land Company, of which Colonel Torrens was chairman, was formed in London in 1832, but after some correspondence the negotiations with Lord Goderich were abruptly broken off; and it was not until the following year that an arrangement by a joint stock company, under the presidency of Mr. W. W. Whitmore, to purchase waste lands from the Crown, was carried out. Other companies were formed afterwards, and large blocks of land were sold to them and to private persons. Mr. J. H. Fisher (the late Sir J. Hurtle Fisher) was appointed as resident commissioner, and several ships were chartered in England for the new country.

South Australia was first colonized, in 1836, by bodies of emigrants from Great Britain, sent out under the auspices of the "South Australian Colonization Association," which had in the previous year obtained a grant from the Imperial Government of the lands of the colony. The conditions were, that the lands should not be sold at less than 12s. per acre (subsequently altered to £1), that the revenue arising from the sale of such lands should be appropriated to an Emigration Fund in conveying poor emigrants, that the control of the Company's affairs should be vested in a body of Commissioners approved by the Secretary of State for the Colonies, and that the Governor should be nominated by the Crown. The first ship despatched was the *Cygnet*, with survey officers—among whom was the late Sir George Strickland Kingston—and stores. The pioneer ship of the expedition reached Kangaroo Island in July, 1836, and the immigrants were here landed until the site of the future settlement was decided upon. An additional surveying staff, under the command of Colonel Light, left England in the brig *Rapid*, on May 1, 1836, and arrived at Nepean Bay on August 20th of the same year. After some little delay a safe and convenient harbour was discovered in Gulf St. Vincent (now known as Port Adelaide); and after considerable disputation a tract of rising land seven miles inland, on the Torrens river, was selected as the *locale* of the future city, being called Adelaide, in honour of the Queen of William IV. The position chosen, though possessed of many advantages, had also serious drawbacks, which time and enterprise have now in a great measure removed, and though upwards of fifty years have passed away since the proclamation of the colony, it is almost unanimously admitted by the colonists that no better site for their capital city could have been selected.

The early days of the embryo colony were attended with much adversity, and the colonists had to suffer great hardships. The first governor of the colony was Captain (afterwards Sir John) Hindmarsh, R.N., who was gazetted in London February 4th, 1836, and arrived at Adelaide in H.M.S. *Buffalo*, on December 28th, 1836, and took possession at Glenelg, where he issued a proclamation, establishing the government of the province, in the presence of the assembled colonists, about 200 in number, under a gum-tree (which is still standing, though in a state of decay). The total population at the time was about 546. In March, 1837, the first sale of town allotments in Adelaide took place, the lots realizing £5 5s. and £6 6s. per acre.

Dissensions soon after arose among the colonists, ultimately leading in February, 1838, to the recall of Captain Hindmarsh. He was succeeded in October, 1838, by Colonel Gawler, in whom were also vested the duties of a resident commissioner, superseding Mr. Fisher, with power to borrow from the Land Fund for the purposes of erecting public works and of carrying on the government more effectually. He vigorously set himself to work to cure the "aggravated and complicated difficulties" in which, as he wrote home to the Colonial Minister, he found the province involved. Under his Governorship, the financial and commissariat departments were placed on a better footing, and the country properly surveyed. He also undertook large public works, that eventually led to the pecuniary involvment of the colony. On June 3, 1837, the first newspaper, the *South Australian Register*, was published. This was the second number of the journal, the first issue having been published in London, under the title of the *South Australian Gazette and Colonial Register*, on June 18, 1836, just prior to the departure of Governor Hindmarsh and the first band of settlers. The type, presses, and materials for continuing the paper were taken to the colony in the ship *Africaine*. The first bank in the colony, the South Australian, transacted business in a tent till the premises on North Terrace were completed (March, 1837).

On March 27, 1837, the first sale of Crown lands took place, and up to August, 1839, three years from the founding of the colony, 250,320 acres of land had been sold, producing a revenue of £229,736. Several new buildings, amongst which may be mentioned the Government House, Government Offices, Hospital, and Custom House were erected, roads were formed, the survey department extended, exploring parties sent out, a police force embodied, and prosperity—for some time—prevailed. On November 3, 1838, the first vessel cleared out for Great Britain: this was the *Goshawk*, a brig of 245 tons burthen. Her cargo consisted entirely of oil and whalebone. The first Wesleyan chapel in the colony was opened in Hindley Street, in March, 1838. The first independent place of worship was erected in North Terrace about the same time.

Colonel Gawler was recalled in 1841, his drafts on the Home Government, given to meet the lavish expenditure on public works, having been previously repudiated. One of the conditions on which the province was founded was, that it was never to be a charge on the mother country; hence this result. The money was, however, eventually advanced as a loan, and the last portion of it having been overlooked, was only repaid to the Imperial Government a short time ago. Captain (now Sir George) Grey was next appointed Governor, in May, 1841. He inaugurated a very different policy to that of his predecessor, economizing and retrenching in every way, reducing the expenditure in one year from £100,000 to £34,000. This course at first gave rise to much discontent, but being judiciously carried out, eventually laid the foundation of the future prosperity of the colony, and relieved it from the load of debt with which it was encumbered. In 1842 the number of acres of land under cultivation was only 2,503; in 1843 this number had been augmented to 19,790. In 1844, when the colony may be considered to have surmounted its difficulties, upwards of 30,000 acres were under cultivation; the live stock was estimated to be 450,000 sheep, 30,000 horned cattle, 2,150 horses, and 12,000 goats and pigs; the exports, too, had increased to £82,268. About this time the discovery of the existence of copper was made, and this fact had a very great influence on the fortunes of South Australia, second only to the discovery of gold in the neighbouring colony of Victoria. The late Mr. Dutton, with Mr. Charles Bagot, discovered the Kapunda copper mine in 1843; this was the first copper mine worked in any part of Australia.—In October, 1845, Governor Robe arrived, and during his rule minerals became a staple article of exportation. Burra-Burra shares that originally cost only £5, soon realized £100, and, as at a later period, in connection with the Wallaroo and Moonta discoveries, mining became a mania. It was in 1845 that the famous Burra-Burra copper mine was accidentally discovered: this mine, for some years the richest in the world, yielded in the first three years' working 10,000 tons of pure copper, valued at the large sum of £700,000; but the fame of the Burra-Burra has since then declined, and been eclipsed by the Moonta and Wallaroo mines on Yorke's peninsula. Sir H E. F. Young succeeded Governor Robe in August, 1848, and during his administration, the river Murray was first practically navigated by Mr. Randall, who reached a point distant 1,500 miles from Goolwa in a small steamer, and very shortly afterwards it was navigated by Captain Cadell in one of larger tonnage, the *Lady Augusta*, which was taken up to Swan Hill, a distance of 1,300 miles from the starting-point, securing for her owners the bonus of £4,000 offered for the successful navigation of the Murray. About this time the system of local self-government was introduced, the measure authorizing the appointment of District Councils being passed in the Legislative Session of 1852. Up to 1850 the colony grew prosperously, the population

at the time numbering about 63,900 persons; the number of sheep had nearly trebled the return in 1844, the exports amounted to £453,668, and there were 64,728 acres of land under cultivation, 1,307 of which were for gardening purposes, and 282 acres of vines, the remainder being principally occupied with wheat.

In the following year the discovery of gold in Victoria took place, and for some time the progress of the colony was seriously retarded, thousands of the population migrating across the border. A report published about the time states that the streets of Adelaide were deserted, houses were abandoned by their tenants, property was unmarketable, and a general arrest put on all business. This exodus, estimated at 15,000 men, caused an embarrassment to the colony in a financial point of view, and to meet it, the "Bullion Act," enabling the Government to establish an assay office, and to cast into stamped ingots all gold taken in for that purpose, was passed. Subsequently gold tokens were coined, and became for a time "current coin of the realm," overcoming the difficulty of the currency; a supply of the raw material being obtained and maintained by the establishment of a gold escort from the diggings to Adelaide. For the establishment of the escort, and successfully working it, Mr. Alexander Tolmer deserves the credit. A short interregnum having taken place, during which period Mr. B. T. Finniss, for some time Colonial Secretary, assumed the position of acting Governor, Sir Richard Graves Macdonnell next became Governor (in June, 1855), and during his term of office the colony resumed its onward progress. Responsible government was inaugurated, railways formed, roads improved, so as quite to change the character of inland travelling for hundreds, the coasts lighted, numerous buildings erected, among which were a new hospital, Parliament House, a new Government House, Government offices, barracks for mounted police, town hall, literary institute and free library, and a post-office, which has since been replaced by one of the finest of the public buildings. Telegraphic communication was opened with all the leading towns and neighbouring colonies, a large extent of country surveyed, river navigation opened up, the city of Adelaide supplied with water, and the Far North explored by Stuart, Goyder, Freeling, Babbage, Macdonnell (the Governor), Warburton and others.

The proclamation of the Constitution was made on October 24th, 1856, the elections for the two Houses of Legislature taking place in March of the following year; the Session of the first Parliament began on April 22nd, the first responsible ministry having Mr. Finniss for its Chief Secretary.

On March 4, 1862, Sir Dominick Daly assumed office, and up to the period of his death the province continued in the main prosperous, though seasons of drought, the occurrence of rust in the wheat crops, and commercial depression affected it in some degree. The feature of his term was the annexation of the Northern Territory. On the decease of Sir Dominick Daly, which took place in February, 1868, the office of Acting Governor was filled by Lieutenant-Colonel Hamley. On February 16, 1869, he resigned the reins of office to Sir James Fergusson, Bart. The event during his term of office was the completion of the overland line of telegraph to Port Darwin, and the subsequent linking of Australia to the mother country in unbroken electric communication. This stupendous work was accomplished in the face of great difficulties, and the courage and enterprise displayed in overcoming them single-handed must for ever redound to the credit of the province. Sir Anthony Musgrave, K.C.M.G., was sworn in as Governor on June 9, 1873. He was succeeded March 24, 1877, by Sir William Cairns; his tenure of office was very brief, as ill-health necessitated his resignation a few weeks after being sworn in (on 17th May). Sir William Francis Drummond Jervois, took the oaths of office on 2nd October, 1877, and proved himself to be one of the ablest, most popular, and useful rulers the province has ever had, identifying himself with all matters affecting the welfare of the community, and rendering valuable service in connection with the defences of the province. He was transferred to New Zealand on January 9, 1883, and was succeeded on February 19 by Sir W. C. F. Robinson.

On December 28th, 1886, the province celebrated its Jubilee.

On June 22, 1887, the Adelaide Jubilee Exhibition was opened by the Governor, Sir W. C. F. Robinson.

The Earl of Kintore succeeded to the Governorship of the province in February, 1889, and his term of office expired in March, 1895. He left the colony on January 16th, 1895, and the government was assumed by the Lieutenant-Governor, Chief Justice Way, until the arrival of Sir T. Fowell Buxton on Oct. 29, 1895. Baron Tennyson, K.C.M.G., was appointed Governor of the Province on Feb 18, 1899, and he assumed the office on April 10, 1899.

Boundaries.—Although called South Australia, the province does not occupy the southernmost part of the Australian continent, as nearly the whole of Victoria is more to the south. This is a fact which does not appear to be generally known in Great Britain, and even now leads to confusion in the addresses of letters to Melbourne and other Victorian towns. The colony is bounded on the west by Western Australia; on the east by Victoria, New South Wales, and Queensland; on the south by the South Pacific Ocean; on the north by the Gulf of Carpentaria and the Indian Ocean; and possesses a seaboard of about 2,000 miles. The boundary line on the Queensland side has been defined by a survey party. The work done is of a permanent character, consisting of numbered mile-posts every mile, well banked up, and trenches dug. There is an extra large post every ten miles, with Northern Territory marked on one side and Queensland on the other.

Geological Features.—*Igneous Rocks* (*Plutonic and Volcanic*). *Plutonic*: Granite outcrops in more or less limited area at or near the following localities, namely: Kingston, and in various places in the Ninety Mile Desert; Port Victor, Port Elliott, Murray Bridge, and Mannum; Kangaroo Island; Yorke's Peninsula; Port Lincoln, Franklin Harbour, and between Streaky Bay to Fowler's Bay, Pidinga, Prichard Desert, Warburton Ranges, and the Peake, and in more extensive masses in the North-East, Boolcoomatta, Mount Babbage, and Mount Adams; besides constituting the prevailing rocks forming the Musgrave and Everard Ranges. Porphyry, syenite, granulite, diorite, and other igneous rocks are associated as dykes with the granite, and are also found traversing the stratified primary rocks.

The Gawler Ranges are mainly composed of felspar porphyry.

An amygdaloidal trap rock occurs in the neighbourhood of Wooltana, Lake Frome district, in connection with greenstone, porphyry, and serpentine.

Volcanic Rocks.—Volcanic rocks, consisting of basalt, lava, scoria, ash, &c., occur in the Mount Gambier district, are of a newer age than the older tertiary limestone. Mount Gambier and Mount Schanck are two of the principal points of eruption. Volcanic rocks also occur in the Mount Burr Range, not far from Mount Gambier, and on Kangaroo Island.

Stratified Rocks.—In conjunction with nearly all the outcrops of granite, metamorphic granite, gneiss, syenite, hornblendic, micaceous, and talchose schists, with crystalline marble, and quartzites, and conglomerates, are often associated. These rocks are generally penetrated by igneous dykes. No fossils have been found in them, consequently they are the lowest stratified rocks, and form the base or foundation on which the succeeding formations rest. Where granitic and other dykes penetrate rocks of later formation, the latter are to a great extent metamorphosed, and often present a similar appearance to the dyke itself. In the absence of fossils, or stratigraphical evidence, it is impossible to distinguish between the most ancient (or Archœan) rocks and these. West of Port Augusta and in localities to the eastward, there are quartzites, shales, sandstones, and conglomerates, in undulating and horizontal beds, which are apparently an upper series of rocks, possibly of Devonian age, though hitherto no fossils have been observed in them.

Palæozoic Rocks.—These consist of inclined beds of conglomerates, grits, quartzites, sandstones, limestones, dolomites, clay, and micaceous slates, and shales. The crystalline limestone of Ardrossan contains trilobites and corals, which had been referred to the Lower Silurian period by Dr. Woodward. Subsequent investigation by Mr R. Etheridge, junior, has led the latter to the conclusion that these fossils belong to the Cambrian age. Corals of the family Archœocyanthinæ, which occur also at Ardrossan, have likewise been found at Blinman, Wirrialpa, and Kanyaka, and more recently near Beltana, in the crystalline dolomitic limestone, which is frequently found interstratified with the rocks of the Flinders and other ranges. These Primary rocks, including those of igneous and aqueous origin, extend in more or less continuous ranges from Kangaroo Island in the south to Mount Babbage and Mount Norwest, a short distance south of Lake Eyre, with a north-easterly extension to the Barrier Ranges in New South Wales. Smaller patches occur on Yorke Peninsula, and in the Port Lincoln and Franklin Harbour districts, and in the Peake, Dennison, Warburton and Musgrave Ranges, and in less important outcrops elsewhere.

It is in these Primary rocks that metallic minerals occur. Copper, silver, lead, gold, manganese, bismuth, cobalt, nickel, and iron, in lodes and deposits, have all been discovered, and have been worked more or less successfully. Copper is the metal which has engaged the greatest amount of attention, and enormous quantities of it have been obtained from such mines as the Burra, Kapunda, Moonta, Wallaroo, &c. Silver-lead has been worked to a less extent, whilst manganese, bismuth, cobalt, and nickel have been found in only few places, and have not been mined to any great extent. Gold deposits have been worked for many years at Echunga, Barossa, and in numerous other places in the main range lying between the Adelaide plains and the River Murray, the chief return having been obtained from the alluvial diggings. Of late years many quartz reefs and lodes have been worked in these localities, and other diggings and lodes have been discovered in the North-Eastern district. The latest goldfield is that of Wadnaminga, which promises to yield well in the future, several rich reefs having been discovered, which are now being worked. In washing for gold at Echunga a few diamonds were found. Waukaringa, Teetpula; Uloloo, Yudanamutana, and New Luxemburg are places where gold has been or is now being obtained, either in lodes or by alluvial digging

Mesozoic Rocks (*Oolitic and Cretaceous*).—*Oolitic*: A carbonaceous shale, with hard silico-argillaceous bands, has been proved by boring to exist in the neighbourhood of Leigh's Creek, on the Northern Railway, some 170 miles north of Port Augusta. The greatest depth proved by boring was about 2,000 feet, a bed of coal nearly 50 feet thick being passed through at 1,490 to 1,540 feet. Fossil fresh-water shells and fern-leaf impressions obtained in the shale deposit were considered by Mr. R. Etheridge, junior, to be of Oolitic age, or the same age as the coal measures of the Ipswich coalfield in Queensland. A shaft sunk within about a mile of the deep bore above-mentioned, pierced a bed of coal 36 feet thick at a depth of 250 to 278 feet. *Cretaceous*:—A large portion of the interior of South Australia northward of the main range, extending into Queen-land, New South Wales, and Western Australia, is occupied by rocks of cretaceous age. They fill a depression of which Lake Eyre is the lowest surface area, lying as it does a little below sea-level. In its physical aspects the country exhibits table-topped hills and table-lands, plains, and stony and sandy deserts, with vast salt lakes, such as Lakes Eyre, Frome, &c., into which discharge

large watercourses and creeks, which are liable to floods at long intervals (sometimes of years), caused by rains falling upon the mountain-ranges, which in some cases are hundreds of miles distant. This region was originally a basin, which is now filled with more or less horizontal beds of shale, with sandstone, limestone, &c. The greatest thickness of the deposit, as proved by boring, is some 1,300 feet. This is the chief artesian water-bearing formation, and into it several borings have been made, which have yielded large supplies of good water. This is generally warm, the temperature of the water from a bore at Lake Harry, 1,300 feet deep, being 118° F. Mound springs, *i.e.*, natural artesian wells, are numerous in some parts of this area, and discharge an enormous quantity of water in a continuous flow. Of these the Dalhousie springs are the most extensive, occupying altogether an area of about ten square miles. Fossil shells (marine) are abundant in many places, and they have been proved to be of Cretaceous age. Overlying these cretaceous rocks are horizontal beds of argillaceous sandstone, kaolin, and gypseous clay, usually capped by jasper-rock or quartzite, forming the table-topped hills and lands already referred to, which are generally surrounded by stony downs and gravelly plains. This tableland formation is considered as belonging to the Tertiary period.

Tertiary Rocks.—(Eocene, Miocene, Pliocene, &c.) The larger portion of South Australia is covered by tertiary and post-tertiary deposits. Older tertiary rocks are found along the coast from the Victorian Border, west of Mount Gambier, to Eucla, on the West Australian boundary. They extend inland for a considerable distance up the Murray River, on the eastern side of the Mount Lofty Ranges, and occupy smaller areas near Port Willunga, on Yorke's Peninsula, and in various other places, generally at a low elevation above the sea, although, in one or two instances, cappings are found at an altitude of from 600 to 800 feet. They consist of coralline and shell limestones, sandstone, clay, sand, calcareous sandstones, and argillaceous limestones, rich in fossils.

The Nullarbor Plains situated in the west, between Fowler's Bay and Eucla, are composed of hard crystalline limestone, resting on soft chalky limestone containing flints. These beds form perpendicular cliffs rising from 250 feet to 300 feet along the coast between the two places named, the formation extending inland more than 100 miles. Fossils are very plentiful in these rocks wherever found. Middle tertiary beds of limestone, calcareous sandstone, sandstone, shell limestone, &c., overlie the older Tertiaries along the coast, with clay and sand beds below. In the Murray River cliffs there have been found sharks' teeth and bones of whales amongst other fossil remains.

Pliocene Tertiaries.—Old river deposits, which appear to be of the same age as the old gold drifts of Victoria and New South Wales, occur as cappings, covering large areas, at elevations sometimes reaching an altitude of 1,000 feet above the sea, at the Mount Lofty and other portions of the ranges. These are evidently the remains of an old river system. Where prospected —as at Barossa and Echunga—gold has been found in them. A very large area still remains available for this purpose in the neighbourhood of these goldfields and elsewhere.

Post Tertiary and Recent.—All the previously mentioned rocks are to a greater or less extent covered over in patches by a varying thickness of alluvium, by sand in dunes, as along the coast, or in wide undulating plains and ridges, as in the interior. The areas thus covered in this country are very extensive.

The bones and teeth of diprotodon, and other extinct marsupial genera, have from time to time been found in numerous localities in the formations of this age, from Yankalilla in the south, to the Diamentina River in the north. Reptilian remains have also been discovered in some of the northern localities.

Evidences of Glacial Action.—Examples of undoubted ice action, in the form of polished rock surface and striated markings, exist at Hallett's Cove, at a height of 50 to 70 feet above the sea-level. This discovery was made by Professor Tate, and in other localities there are suggestions of similar glacial action.

Physical Geography.—The boundaries of S. Australia enclose 380,070 square miles, and to that may be added 523,620 square miles, forming what is known as its Northern Territory. Two large gulfs penetrate inland from the Southern Ocean, one of them being 200 miles long. From its northern extremity an extensive lake system commences, these receiving the storm waters of the interior, which, however, are speedily exhausted by evaporation during the heats of summer. Its chief river is the Murray, which extends into New South Wales, and has a navigable length of 2,000 miles, falling into the Southern Ocean at Encounter Bay. The river system comprehends also a few streams of inconsiderable magnitude, which discharge their flood waters into the before-mentioned gulfs or the sea; and others discharge into extensive inland lakes, or temporarily cover the plains, and are soon absorbed or otherwise lost. There are numerous creeks washed out by the rains falling upon the ranges, which occasionally serve to conduct the waters to lower levels, but a very small number of them afford what might be termed permanent supplies. As a rule the water in the lakes is brackish or intensely salt; there are, however, some fine freshwater lakes margining the Murray, and just above its mouth, and in parts of the south-east. There are numerous mountain ranges of moderate altitude, the most important of which have a general direction nearly north and south, and are known as the Mount Lofty and Flinders Ranges. The highest point in the former is 2,334 feet. There are also mountain groups, and single isolated elevations, some of which, like Mount Remarkable, are as much as 3,000 feet high. Further north the mountain ranges have a strike east and west usually, and occasionally they attain so great an elevation as 5,000 feet, and some of them are exceedingly rugged and picturesque.

The contour of the country conforms to the geological formation, the primary rocks forming the highest points. The highest altitude of the Mesozoic or secondary and of the Tertiary rocks is nowhere more than 800 feet, and they are generally at a much lower level; indeed, in the Lake Eyre district they are below the level of the sea; and there are vast plains and tablelands, alternating with undulating sand-hill and lake country.

Geographical Features.—Mountains.—There are three ranges of mountains in the colony, known as the Mount Lofty, the Flinders Range, and the Hummocks. The first runs from Cape Jervis in a northerly direction, and divides the waters flowing eastward into the river Murray and lakes, from those flowing westward into Gulf St. Vincent. The highest points are Mount Lofty, 2,334 feet above the sea-level—Lagoon Hill, 2,235 feet; Kaiserstuhl, 1,973 feet; and North of the Burra, Mount Cone, 2,601 feet; and Razorback, 2,834 feet. The Flinders range rises on the north-eastern side of Spencer's Gulf, about 10 miles from its shore, extending for several hundreds of miles north as far as Lake Blanche. The highest points are Mount Remarkable, 3,100 feet; Mount Brown, 3,100 feet; Mounts Arden and Serle, each about 3,000 feet. The Hummocks commence near the head of St. Vincent's Gulf and extend northward, nearly parallel with the Eastern coast line of Spencer Gulf. The Gawler Range, in Port Lincoln Peninsula, is a line of rugged mountains to the South of Lake Gairdner, extending from the neighbourhood of Port Augusta towards Streaky Bay, the principal elevation being about 2,000 feet. The highest peaks are Mount Nonning, Mount Sturt and Mount Double. Stuart Range is a low range of hills to the north-west of Lake Torrens. In the south-eastern part of the colony, near the borders of Victoria, are several isolated peaks that were formerly volcanoes, namely, Mount Gambier, Mount Schanck, and Mount McIntyre. Other prominent hills are Mount Pisgah, Mount Hope, and Mount Muirhead.

Rivers.—The chief rivers in South Australia are the Murray, navigable from beyond Albury, in New South Wales, emptying itself into Lake Alexandrina, whence it flows into Encounter Bay by a narrow opening called the Murray Mouth; steps have been taken to make this available for navigation, and it is now frequently used, though far from being unattended with risk, as it is exposed to the full force of the Southern Ocean, and the channels of exit and entrance continually changing; the Barcoo or Cooper's Creek flowing westward from Queensland, the Wakefield, flowing in a westerly direction into the Gulf of St. Vincent; the Hindmarsh and the Inman, flowing into Encounter Bay; the Gawler, running in a WSW. direction into the Gulf of St. Vincent; and the Torrens, rising near Mount Pleasant, flowing in a WSW. direction, losing itself in large, swampy reed-beds, which drain into the sea. From this river, Adelaide partly derives its water-supply, and the Onkaparinga, rising near the source of the Torrens, flowing south-west to Gulf St. Vincent; from its waters the new reservoir at Happy Valley is filled, ensuring an ample water supply for Adelaide. In the Northern Territory the river Roper has been ascertained to be a fine deep river, navigable for large ships and sea-going steamers for nearly 100 miles from its mouth on the SW. shore of the Gulf of Carpentaria. The Adelaide, Victoria, and other rivers in that territory are also navigable for considerable distances.

Lakes.—There are several large lakes in the colony. Lake Torrens is a vast inland salt lake, from 35 to 170 miles north of Spencer's Gulf, averaging 80 feet above sea-level. Lake Eyre is is a large salt basin, 35 feet below sea-level, north of and divided from Lake Torrens by a range of hills; Lake Gairdner is an immense salt lake to the north of the Gawler Ranges, at an elevation of 366 feet above the ocean level. Lakes Gregory, Blanche, and Frome lie to the east of Lake Eyre, and are connected with it in wet seasons. Lake Amadeus lies just north of 25° of S. lat. near the Western Australian boundary. Other salt lakes are Hawdon, Eliza, George, St. Clair, and Robe in the southern portion of the province. The fresh water lakes are Lakes Alexandrina and Albert (through the former of which the River Murray flows, navigable for steamers of light draught), Lake Bonney on the Murray, Lake Hope in lat. 28° 30′ long. 139° 15′, and Frome in the southern portion of the province, also a group of small lakes near Mount Gambier, among which is the notable Blue Lake in the crater of an extinct volcano. The Coorong is a brackish lagoon receiving the overflow of Lake Alexandrina, is from half a mile to two miles in width and about 100 miles long, separated from the sea by a narrow strip of sand-hills.

Bays or Gulfs.—The principal indentations on the southern coast line are Fowler Bay, Denial Bay, Smoky Bay, Streaky Bay, Venus Bay, Anxious Bay, Coffin Bay, Spencer's Gulf (in which are comprised many smaller bays—Port Lincoln, Louth Bay, Franklin Harbour, False Bay, Germein Bay, Wallaroo Bay Moonta Bay, and Hardwicke Bay), which consists of a vast wedge-like area of water between the Eyre and Yorke's peninsulas, running northward into the land for a distance of 185 miles, about 47 miles wide at the entrance, and tapering almost to a point at its northernmost extremity. On the eastern side of Yorke's Peninsula is St. Vincent's Gulf, near the centre of the eastern shore of which the city of Adelaide is situated; this Gulf extends far inland, for nearly 85 miles, and is sheltered by Kangaroo Island, which forms two entrances, that on the west being known as Investigator Strait, the eastern entrance being known as Backstairs Passage. In St. Vincent's Gulf are Holdfast Bay, Aldinga Bay, and Rapid Bay. Other bays on the south-east coast are Encounter Bay, Lacepede Bay, Guichen Bay, Rivoli Bay, Macdonnell Bay, and Discovery Bay. Among the bays on the northern coast are Limmen's Bight, Blue Mud Bay, Buckingham Bay, Castlereagh Bay, Adam's Bay, Shoal Bay, Van Diemen's Gulf, Melville Bay, and the Gulf of Carpentaria.

Islands.—The largest island belonging to South Australia is

Kangaroo Island, at the mouth of Gulf St. Vincent, which has a length of 85 miles by a breadth of about 30 miles; other islands are Nuyt's Archipelago, Investigator Group, Whidby Isles, Thistle Island, Sir Joseph Banks Group, Wauraltie Island, Neptune Island, Gambier Island, Torrens Island, near Port Adelaide, Hindmarsh Island, in Lake Alexandrina, and other smaller islands. On the north coast are the Vernon Isles, Bathurst Island, Melville Island, Goulburn Island, Wessel Islands. Groote Eylandt, Sir Edward Pellew Islands. The first settlement made by the South Australian Company was in Kangaroo Island, so called from the number of marsupials which formerly abounded there. The island was soon abandoned, however, by the Company, and till lately has only been sparsely occupied by settlers. It was at one time a noted sealing station.

Capes.—The principal headlands on the west are Cape Adieu, Point Fowler, Point Brown, Cape Westall, Cape Radstock, Cape Finnis, Point Whidby, Point Avoid, and Cape Catastrophe; in Spencer's Gulf, Cape Doddington, Cape Bolingbroke, Cape Lowly, Cape Elizabeth and Corny Point; south of Yorke's Peninsula, Cape Spencer and Troubridge Point; on the southern coast, Cape Jervis, Cape Jaffa, Cape Lannes, Cape Martin, Cape Buffon, and Cape Northumberland; Cape Borda (whence the Mail boats are signalled), Capes Bedout, Marsden, Gantheaume, and Willoughby are on Kangaroo Island. On the north coast are Cape Hotham, Cape Fright, East and West Point, at the entrance to Port Darwin, Charles Point, Cape Van Diemen, Cape Helvetius, Cape Keith, Cape Don, Cape Cockburn, Cape Wessel, Cape Wilberforce, and Cape Arnhem.

Royal Geographical Society of Australasia.—The title "Royal" was graciously conferred by Her Majesty Queen Victoria in 1886. Branches of the Society have been founded in New South Wales, Victoria, South Australia, and Queensland. The Society seeks to advance the interests of geographical science in Australasia by every means possible.

Ethnology.—All the branches of this society, in conjunction with the Royal Societies, are now urging upon their respective Governments the desirability of collecting information respecting the habits and customs of the existing tribes of Aborigines, in order that a comprehensive scientific work on the Aborigines of Australia should be published before this rapidly-decaying people are extinct. The S.A. Government, with commendable promptitude, has acceded to the request of the local branch to assist in collecting information and in photographing typical natives of each existing tribe within its boundaries.

Exploration and Research.—A scientific expedition to examine the regions hitherto unexplored in the MacDonnell ranges, Central Australia, was fitted out in April, 1894, by Mr. W. A. Horn. Mr. Charles Winnecke, the explorer, was selected as leader. Early in May, 1894, the party left Goyder River on its westward journey. It comprised Professor R. Tate, botanist, &c.; Dr. E. C. Stirling C.M.G., ethnologist, &c.; Professor B. Spencer, biologist; Professor Watt, geologist; Messrs. J. A. Keartland and F. W. Belt, collectors, &c.; 2 camel drivers, 2 prospectors, 1 cook, 2 Afghans, and 3 black boys. The organizer, Mr. W. A. Horn, accompanied the expedition for several weeks, and left the party at Idracowra. The expedition returned in August, 1894, having traversed the country between lat. 23° and 26° and long. 130° and 135°. The scientific results have been published.

The Calvert Exploring Expedition was fitted out by Mr. A. Calvert, F.R.G.S., of London, to complete the exploration of the unknown parts of Australia. It left Adelaide in May, 1896, the party consisting of Messrs. L. A. Wells (leader); C. F. Wells (second in command); J. A. Keartland, naturalist; G. L. Jones, geologist, &c.; two others, and an Afghan. The expedition started on its journey to the interior from Geraldton, W.A. At a well, now called Separation Well, Messrs. C. F. Wells and Jones left the main party to go west for about 80 or 100 miles, then proceed north and west again to Joanna Springs. They, however, unfortunately, perished in the desert. The remainder of the party, after suffering great privations, and being compelled to abandon the collection, stores and requirements, managed to reach the Fitzroy river. Mr. W. Rudall conducted search parties from Braeside for the missing men, and Mr. L. A. Wells, after five unsuccessful attempts from the Fitzroy, eventually succeeded in finding their dead bodies on the 29th May, 1897, about 18 miles from Joanna Springs. The expedition was then abandoned, and the bodies of the two men were brought to Adelaide, where they were accorded a public funeral. The cost of the search party was defrayed by South Australian Government.

Antarctic Exploration.—The expedition fitted out by Sir George Newnes (which left London in August, 1898), under the command of W. Borchgrevink, in the *Southern Cross*, called at Hobart on its mission to explore the Antarctic Regions. In April, 1900, the *Southern Cross* arrived at New Zealand on her return voyage, having successfully accomplished the object of the expedition.

The Belgian expedition, under the command of Captain A. Gerlache, which started from Antwerp in August, 1897, has returned, having completed its work; much new land was discovered, while from the furthest southerly point reached, lat. 71° 36' long. 92°, there appeared to be an open sea to the far south.

The largest and most important expedition is now being equipped through public subscriptions, obtained by the Royal Geographical Society and the Royal Society in London, and it is now likely that financial assistance will be procured from the Imperial Government. This expedition will sail in 1900 or 1901, and co-operate with another that Germany is sending out at the same time.

Aborigines of Central Australia. In the early part of 1901 an expedition, under Professor Baldwin Spencer, of the Melbourne University, and Mr. F. J. Gillen, of South Australia, was equipped for the purpose of investigating some of the aboriginal tribes within the territory of South Australia The actual cost of the expedition is estimated at £800, but Mr. David Syme, proprietor of the Melbourne *Age*, has generously offered to defray the whole cost of the expedition.

Sub-Divisions.—The colony, so far ar the settled portion is concerned, is divided into Counties, Hundreds, and District Councils, the more important division being the last-mentioned, as in many respects it has the advantages and gives the powers of a municipality, the ratepayers having the power of levying rates on lands and buildings, of granting licences, etc., and of applying funds arising from these sources to forming and keeping in repair the roads of the district. Counties chiefly serve for electoral purposes, and number 46, their names, areas, and population (by the census of 1891) being as follows:—Fergusson (on Yorke's Peninsula), 1,858 square miles (6,630); Flinders (at the south of Eyre's Peninsula), 1,850 square miles (1,494); Frome, 1,508 square miles (10,197); Dalhousie, 1,230 square miles (7,204), Victoria, 1,431 square miles (13,696); Daly (on the east of Spencer's Gulf), 1,658 square miles (19,190); Carnarvon (Kangaroo Island), 1,680 square miles (599); Stanley, 1,574 square miles (9,984); Gawler, 928 square miles (10,704); Adelaide, 1,141 square miles (150,489); Hindmarsh (on Gulf St. Vincent), 1,025 square miles (10,375); Burra, 2,080 square miles (4,774); Young, 2,076 square miles (74); Light, 839 square miles (15,591); Eyre, 1,415 square miles (6,063); Albert, 2,174 square miles (211); Hamley, 2,194 square miles (480); Kimberley, 1,388 square miles (2,361); Alfred, 1,503 square miles (56); and Sturt (to the east of the settled districts), 1,328 square miles (6,913); Russell, 1,323 square miles (1,231); Cardwell, 1,745 square miles (106); Macdonnell, 1,845 square miles (1,127); Robe, 1,962 square miles (3,027); Grey, 2,044 square miles (10,960); and Buckingham (in the south-east district), 1,791 square miles (1,766). Lytton, 1,381 square miles (603); Derby, 1,484 square miles (90); Newcastle, 1,221 square miles (2,889); Granville, 1,168 square miles (1,431); Blachford, 1,135 square miles (860); Hanson, 1,259 square miles (553); Taunton, 2,147 square miles (574); Musgrave, 2,661 square miles (933); Herbert, 1,532 square miles (1,135); Jervois, 3,475 square miles (470); Robinson, 2,674 square miles (637); Dufferin, 2,623 square miles (35); Way, 2,610 square miles (84); Kintore, 1 418 square miles (134); Manchester, 1,930 square miles (128); Buccleuch, 2,330 square miles; Chandos, 2,620 square miles; Hopetoun, 2,400 square miles; York, 1,320 square miles; Buxton, 1,550 square miles. The largest county is Jervois, the smallest, Light. Total counties, 46; total area, 80,542 square miles. The Hundreds are blocks of country thrown open for agricultural settlement, and no portion can be let for pastoral purposes except on annual leases. There are also three Pastoral Districts: the Western, 204,828 square miles; the Northern, 41,750 square miles; and the North-Eastern, 52,950 square miles.

The total area of South Australia south of the 26th parallel S. latitude is 380,070 square miles, or 243.244 800 acres. In the Northern Territory there are 523,620 square miles, or 335,116,800 acres, giving a grand total of 903,690 square miles, or 578,361,600 acres.

The Municipalities number 33 and the District Councils 140. The total ratable value of property on January 1, 1900, for the Municipal Corporations was £1,140,515, the amount payable on assessment being £59,687; for District Councils on 1st January, 1900, it was £1,412,900, the rates amounting to £60,308. The rate of assessment is generally one shilling in the £.

Waterworks.—The waterworks of the colony are now under the control of A. B. Moncrieff, M.Inst.C.E., Engineer-in-Chief, assisted by J. W. Jones, Conservator of Water, and C. A. Bayer, M.Inst.C E., Sanitary Engineer.

Adelaide Waterworks.—The city of Adelaide is situated four miles west from the Mount Lofty Ranges, and six miles east from the sea. The three large reservoirs which chiefly supply the city and suburbs with water, namely, Thorndon Park, Hope Valley and Happy Valley, are distant from the city six, seven, and twelve miles respectively. The area supplied by these reservoirs covers over 118 square miles, benefiting a population of about 140,000.

The levels of the city vary from 100 feet to 175 feet above the sea

The more elevated of the suburban townships, such as Glen Osmond, Mitcham, Burnside, Magill, &c., have water supplies independent of these reservoirs. Within the district are situated the towns of Glenelg (a marine summer resort), and Port Adelaide, the chief port of the province. The sources of supply are the Rivers Torrens and Onkaparinga. The catchment areas are about 320 square miles, and consists of very hilly ranges of slate and sandstone formation. The flow in the river is constant, but very variable, the quantity during the summer months not amounting to more than 7,000 to 10,000 gallons per hour, while in time of heavy winter rains the water flows from 4 feet to 6 feet deep over weirs 140 feet and 200 feet wide.

The head works consist of heavy masonry weirs, about 15 feet and 35 feet high, constructed in a narrow gorge of the rivers, and at such altitudes as suffice to give the necessary declination to the aqueducts for conveying the water to the three reservoirs.

The weir on the Torrens is 362 feet above the level of the sea. No filtering appliances are necessary, as the water, after the first of the winter floods has passed over the weir, becomes clear and quite fit for domestic use. The sluice-valve in the weir which governs the intake is then opened, and the water allowed to flow along the aqueduct to the reservoirs.

The aqueduct from the Torrens weir is about three and a quarter miles long, and consists of half a mile of cast-iron pipes 42 inches in diameter, and open channels, which are continued around the spurs of the hills. To avoid any long detours, the channel is taken in a direct course through two tunnels of an aggregate length of one-third of a mile. The channel has a fall

of 1 foot 9 inches per mile, and, when running full, delivers 1,000,000 gallons per hour. The tunnel from the Onkaparinga is 3½ miles long, and has a discharging capacity of 86 million gallons per day.

The construction of the Thorndon Park Reservoir, which contains 138,500,000 gallons, with a depth of 40 feet, was started in the year 1857; water was utilized from it in 1860, and from that time until 1872 it was the only reservoir supplying the City, Port Adelaide, and other suburbs with water. The increase of the population, and the rapid extension of the suburbs demanded greater storage capacity. The larger reservoir at Hope Valley, containing 807,000,000 gallons, at a depth of 51 feet 6 inches, with weir and aqueduct, were therefore determined upon.

Each reservoir is in direct connection with the city; either can be used alone or together. The Thorndon Park and Hope Valley reservoirs are also directly connected by a 21-inch main. A service tank containing 1,041,000 gallons, built of brick in cement, and arched over, has been constructed on the North Park Lands, Adelaide, to act as an independent supply to Port Adelaide and intermediate townships. A tank holding 850,000 gallons has also been built on the South Park Lands, Adelaide, for giving a similar benefit to Glenelg and the places lying between it and the city.

Three mains, 18 inches in diameter, and one 26 inches in diameter, convey the water from the three reservoirs into the city, while secondary mains branching therefrom supply the various suburban townships. The total length of mains within the water district is about 578 miles. The service is high pressure, with constant supply, and, for domestic use, unstinted.

In December, 1891, Parliament passed a Bill for the construction of a new storage reservoir at Happy Valley to be filled from the Onkaparinga River. The works were completed in August, 1896, and cost £500,000. They consist of a masonry weir across the river, from which the water is led through half a mile of steel main, 6 feet in diameter, and thence through an intake tunnel about 3½ miles in length, into the storage reservoir, which is capable of holding 2,950 million gallons, and covers an area of 440 acres; the distance round high-water mark is about 7½ miles. The reservoir is formed by the construction of an earthen embankment 2,645 feet long and 72 feet high; the greatest depth of water is 65 feet, the outlet tunnel is about 1½ mile long, and the supply to the city is regulated by the valve in a masonry water tower. Steel mains convey the water from this tunnel into the city, and are connected with the present reticulation mains.

The consumption fluctuates from about 5,000,000 gallons in winter to about 14,000,000 gallons per diem in the extreme hot summer months, since the completion of the scheme.

The meter system is largely in use. The price of water is at the rate of 1s. 2d. per 1,000 gallons up to the amount of rebate for rates, and 6d. per 1,000 gallons for excess above rebate.

Telephonic communication is established between the residence of the Superintendent at the Waterworks-yard, Kent Town; the Head Office, Victoria Square; Police Station; Fire Brigade Station; the reservoir-keepers (residing at Thorndon Park and Happy Valley), under whose control the reservoirs are placed; and the Superintendent at the Port Adelaide office.

At the foot and partly on the western slopes of the Mount Lofty Range are situated several townships considerably higher than the Hope Valley or Thorndon Park reservoirs. To supply these townships, which cover an area of about 10 square miles, the waters of several springs and creeks have been utilized, and the water therefrom conveyed to covered service tanks containing about 270,000 gallons to 550,000 each, and placed at such levels as to command the several townships.

These supplies are constant, save during the months from December to May, when the supply has to be augmented by pumping water from the Kensington pumping station. The quantity pumped during each season amounts to about 45,000,000 gallons. The rate charged in these high-level districts is 1s. 9d. per 1,000 gallons up to the amount of rebate for rates, and 1s. per 1,000 gallons for excess above rebate.

In addition to the above described auxiliary works, a water tower containing 66,000 gallons has been erected at the Semaphore. This was found necessary to keep a constant service on in the district west of the Port River. The leading main is carried over the Port River by means of the swing bridge. The main is disconnected on each occasion of opening the bridge to allow of the passage of vessels, and water is then drawn from the tank in water tower until the connection with the main source is again resumed upon the closing of the bridge.

Recently a direct large steel main has been laid from Darlington to the Semaphore, *viâ* Plympton, Grange and Henley Beach, which has greatly improved the supply, and rendered this district independent of the water tower when the mains are disconnected at Jervois Bridge.

The Adelaide City, Port, and Suburban Waterworks (including Happy Valley Reservoir) have cost to June, 1899, £1,581,569, and the gross revenue derived therefrom has been no less than £1,623,791.

Beetaloo Waterworks.—These works are of exceptional interest, both from an engineering and a commercial aspect, inasmuch as there is no parallel in any part of the globe of any waterworks commanding such an extensive tract of agricultural and pastoral land with iron reticulation mains. The Beetaloo district comprises an area of over a million acres, extending 25 miles westerly and 75 southerly from the head-works. The whole of this land is held in farms of from ten acres to several hundred acres, and the trunk reticulation mains at present aggregate about 670 miles in length. The mains for the most part are cast-iron, from 12 in. to 2 in., and there has lately been added 75 miles of 10 in., 12 in., 14 in., 16 in., and 17 in., riveted steel trunk main. The important towns of Port Pirie, Gladstone, Kadina, Wallaroo, and Moonta, and many smaller towns are supplied from these works, and the pressure ranges from about 100 lb. to 200 lb. per square inch. The head-works storage reservoir, with a capacity of 800,000,000 gallons, has been constructed by the erection of a substantial concrete dam 110 feet in height. The supply is drawn partly from springs, but chiefly from flood waters The cost of the works to the 30th June, 1899, has been, including the town works, Port Pirie and Gladstone, £992,781. The revenue is obtained by rating and by sales of water.

Bundaleer Waterworks.—These waterworks, now in course of construction, consist of a large earthen dam to impound 1,267,000 gallons, having a catchment area of 144 square miles which can be increased if required to 664 square miles. The head works consist of a weir across Bundaleer Creek, and a channel, 2⅜ miles long, to convey the water to the reservoir. Thirty-two miles of 24-in. and 18-in. steel pipes will convey the water through the district and connect with the Beetaloo trunk main.

Tea Tree Gully and Modbury Waterworks.—These works cost £4,280. The water from springs near Tea Tree Gully is stored in concrete tanks, holding 74,000 gallons, and reticulation mains are laid therefrom.

Gawler Waterworks.—This is a pumping scheme, and cost £28,466. It is one of the best paying works under the department. The works comprise a pumping plant, consisting of two 8 h.p. boilers and engines, two sets of Tangye's three-throw pumps, and one 6 in. deep well-pump, delivering about 12,000 gallons per hour, and 15¼ miles of mains. The quality of the water is excellent; and the consumption about 20,000,000 gallons per annum.

A curved concrete dam, 94 feet high, is now in course of construction on Yettie Creek to impound 1,000,000,000 gallons. The head works will consist of a masonry weir on the South Para River, from which the water will pass through a tunnel 112 chains long to the reservoir. Seven miles of (22-in. and 18-in.) pipes will convey the water to Gawler and district.

Port Pirie.—This important town is now connected with the Beetaloo system, the original head-works reservoir at Nelshaby now serving as a service reservoir. The town and suburbs are reticulated with 47¼ miles of main. The extensive smelting works and the shipping draw very considerable supplies from these works, which cost up to the 30th June, 1899, £67,150.

Port Augusta Waterworks.—These waterworks comprise two storage reservoirs with a capacity of 23,000,000 gallons, and 115½ miles of main, their cost being £177,724. Besides serving the towns of Port Augusta, Port Augusta West, Davenport, and Stirling, a very considerabl area of country lands is reticulated. The water is being used to a considerable extent for irrigating orchards and gardens, to encourage which the price of water has been reduced to 6d. per thousand gallons after 12,000 at 3s. and 50,000 at 1s. have been used. The revenue is obtained partly from rating and partly from the sales of water. An additional storage reservoir, with a capacity of 156 million gallons, has been constructed at Nectar Brook.

Mount Gambier.—This is a pumping scheme the water being lifted from the Blue Lake by two 8 h.p. Tangye's engines. The town and suburbs are reticulated with 19¼ miles of main. The cost of the works has been £30,047, and a satisfactory rating is obtained from rates and sales of water.

Hawker.—An additional reservoir is being excavated to hold 6¾ million gallons. The water will be conveyed from this new reservoir to the existing reservoir by a 6-in. main, and thence to the town of Hawker.

Other Country Waterworks.—The towns of Burra, Mount Barker, Crystal Brook, Mannum, Port Germein, Palmer, and Quorn, are supplied by efficient waterworks fully equal to their requirements. These works are all of a substantial character, and for the most part return a satisfactory revenue on the outlay. The aggregate reticulation amounts to 52 miles. The foregoing are all under the Waterworks Act, No. 269/82.

Wilmington and Lobethal Waterworks.—These two districts are under the Water Conservation Act, No. 392/86, and the Water Conservation Amendment Act, No. 463/89. This Act was passed to encourage the carrying out and management of country waterworks by local boards, but so far has only been availed of by the residents in these two districts. The conditions for payment of interest on the outlay are exceedingly liberal, viz., for the first year, 1 per cent., increasing 1 per cent. each year until a maximum of 5 per cent. is reached. After being in existence for about three years the Wilmington Water Conservancy Board were not re-elected, and the management was taken over by the Government. The departmental management is giving greater satisfaction to the ratepayers, and the revenue from rates is sufficient to meet the requirements of the Act and the cost of maintenance. The works comprise a small weir in Spring Creek, and 15¼ miles of reticulation, with an ample supply of excellent water. The capital cost of the works has been £20,281, including Old Wilmington Waterworks. The Lobethal works which were under the Water Conservancy Board, are now under Government Departmental management, and serve to give a supply of excellent water to the town residents, and also to the extensive and now very successful Lobethal Woollen Tweed Factory. The works consist of a storage reservoir of 6,322,000 gallons capacity, and 1½ mile of mains. The capital cost has been £2,898. The district is rated by the Government to secure interest on the outlay and working expenses. In addition to the above, two districts have been proclaimed under the Water Conservation Act, as follows:—

No 3. Township of RENMARK, in the Irrigation colony of that name on the River Murray. The works comprise a pumping plant to lift water from the River Murray to an overhead tank from which a supply is taken by cast-iron pipes reticulating the principal streets of the town. The works are under the control and management of a local trust, and the revenue is secured by rating the district. Capital cost of works, £2,651.

No. 4. MURRAY BRIDGE.—This district comprises the towns of Bridgeport, Murray Bridge, and adjacent townships. The works are situated at Murray Bridge on the River Murray, at the point where the Adelaide to Melbourne railway line crosses the river. The works comprise a pumping station, from which the water is lifted to a high level tank, and the town reticulated with cast-iron pipes. The supply of water for railway purposes is also given from these new works. The district is under Government management, and rates are levied to pay interest on working expenses. Capital cost of works, £3,428.

No. 5. ORROROO.—This is the water district comprising the township of Orroroo on the Great Northern Railway. Orroroo is an important town in the midst of a large agricultural district, and the want of a permanent water supply has been much felt. This want has now been met by the construction of a head works at a local natural spring, and the reticulation of the township; an abundant water supply is thus secured. The works are to be controlled by the District Council, who will be responsible to the Government for the interest on the outlay. Capital cost of works, £2,588.

No. 6. MORGAN.—This district comprises the township of Morgan, at the north-west bend of the River Murray. The town is a very important one, being the terminus of the railway from Adelaide. The works comprise a high level tank, and the reticulation of the principal streets. The water is supplied by pumping from the River Murray. The works are under Government management, and the district is rated to pay interest on the cutlay. Capital cost of works, £1,820.

The aggregate cost of these Government waterworks amounts to £2,901,199, and the net revenue is 2·105 per centum on the capital cost.

Water Conservation in Country Districts and Interior Pastoral Districts.—The construction of waterworks, the sinking of wells, and the boring of artesian wells to provide an adequate supply of water for general purposes in the farming districts, and a supply for travellers and travelling stock in the interior is undertaken by the Government. The works are in most cases leased under conditions providing for a fair return on the outlay, and for the satisfactory supply of water to the public.

The reservoirs, of which there are a very large number, are for the most part of a simple and effective character, being constructed by an excavation up to 20 to 25 feet deep in clayey ground, and the spoil formed into a retaining embankment on three sides. The capacity of such reservoirs ranges up to 10,000,000 gallons, and the proportion of the rainfall discharged by the catchments is 2½ to 20 per cent. according to the rainfall in a given time.

The rainfall, on which the success of reservoirs depends, varies very much according to the distance from the coast and the elevation of the country. In Adelaide the annual average is 20·462 inches, in the farming districts the average is from 10 to 18 ins., and in the interior pastoral lands the average in some places is as low as 6 to 8 inches.

Where good water is obtainable by moderate sinking, wells are preferred to reservoirs, but over considerable areas the underlying rocks are more or less saline, and the water is brackish or salt. The wells are provided with steam, wind, horse, or manual power lifting appliances.

Considerable attention has been paid to deep boring for artesian water with fair success. A considerable area (about 110,000 square miles) in the north-east corner of the province is occupied by secondary rocks and clays, peculiarly favourable for artesian wells. This region geologically forms a portion of what is known as the Great Central Australian Artesian Basin. A number of borings from 300 to 3,000 feet deep have resulted in flowing wells; the water is of a varying character—in some bores it is excellent, and in the deepest bore (3,000 feet) the thermal temperature is as high as 176° Fahr., with a flow up to 800,000 gallons per diem. Some borings with water of not so good quality give a flow of over a million gallons per diem.

Recent borings at Dulkaninna, 2,226 feet, Kopperamanna, 3,000 feet, and Petermorra, 1,243 feet, have resulted most successfully, the water being of excellent quality, and the supply from 200,000 gallons to 1,000,000 gallons per diem. Three additional bores are in progress in this locality, and it is estimated that the depths will vary from a little over 3,000 feet to nearly 4,000 feet each

The large supply of water from these artesian bores in the dry climate of the northern interior has rendered possible the commencement of a new industry which bids fair to develop into considerable magnitude, viz., the cultivation of the date palm. It has been proved by a small trial plantation that the dates will ripen successfully, and some excellent fruit has been gathered. The plantations are under the management of the Conservator of State Forests.

IRRIGATION.—To a small extent the irrigation of small areas of orchards and gardens is carried out from the chief State waterworks.

The principal purely irrigation scheme is that of Messrs. Chaffey Bros. at Renmark, on the River Murray, where the promoters had a conditional right to 250,000 acres from the Government. The works were started in 1888. In 1896 from various causes Messrs. Chaffey Bros. failed to continue the control of the settlement, and it is now being successfully managed by an Irrigation Trust under the power conferred by an Act of Parliament No. 575, 1893. Over 3,500 acres of land have been sold by the company in 10 acre blocks to settlers, with a perpetual water right. Powerful pumping plant and distributing channels have been constructed by the Company at a cost of £100,000. A large area is under fruit and vines, and the growth has been phenomenal. The chief fruits cultivated are apricots, peaches, lemons, oranges, and muscatel and currant vines. The fruits are dried at the settlements and sent to the Australian and European markets. During 1896 a Select Committee of Parliament sat to consider the necessity of rendering aid to the Renmark Irrigation Trust, and a loan of £3,000 was granted to effect improvement in pumping plant and channels. A Royal Commission sat in 1899-1900 for the purpose of inquiring into the condition of affairs at Renmark.

There are also irrigation works on the River Murray, at the village settlement under the Crown Lands Department. There are eight of these settlements, and the water of the Murray is being successfully utilised for orchards and vineyards by steam-pumping, in some cases to a height of 135 feet.

Adelaide Sewers and Sewage Farm.—The City of Adelaide can fairly claim the unique position of being the best drained city in the southern hemisphere. The system of deep drainage, which was decided on in 1881, has come up to the expectations of its most sanguine advocates; and the consensus of opinion is that it is a pronounced success.

THE DRAINAGE AREA.—That is, the entire district which can, by reason of the configuration of the ground, be benefited by these works—includes the City of Adelaide, the corporate towns of Unley, Hindmarsh, Thebarton, St. Peters, Walkerville, Kensington, Norwood and Unley. The system comprises a length of upwards of 210 miles of main sewers of various sizes, and the connection of about 18,302 houses.

The main sewer, which receives the street sewers, is constructed for the greater part of its length of cement concrete. That portion which extends easterly from the Frome Road, Adelaide, is of earthenware and cast-iron pipes of a maximum diameter of 24 in. The size of the concrete sewer varies from 3 ft. 6 in. by 2 ft. 4 in., to 5 ft. by 3 ft. 4 in., and is of oviform section. It is designed to discharge 23,000 gallons per minute. Another main sewer, 3 ft. 6 in. by 2 ft. 4 in., traverses Bowden to receive the drainage of Bowden, Brompton, Thebarton, Southwark, &c. Where these main sewers join, the section is changed to a trough shape, perpendicular sides, and semi-circular top and bottom; it is 5 ft. wide and 3 ft. 9 in. deep. This section is continued until it reaches the straining shed at the sewage farm, Islington.

The sewage farm is situate about four miles to the north of the city, and contains altogether about 546 acres, including roads. The sewage from Adelaide and adjacent towns flows on to the farm by gravitation. The height of Adelaide at the post-office is 154 ft. above sea-level, that of the farm where the main sewer enters being 41 ft. above the sea. All the sewage is strained before being distributed over the land.

The farm is worked on the broad irrigation principle, combined in the winter months with intermittent downward filtration. The filter-beds are thoroughly under-drained, and work most effectually, the effluent carried off therefrom being perfectly clear and pure.

The sewage after being strained is conducted over the farm by means of cement concrete carriers and wooden troughing.

The farm has been divided by fencing into twenty-one paddocks, varying in area from eight to twenty-five acres; and water has been laid on to each for the use of cattle depasturing thereon. The whole of the farm, excepting about 20 acres of land above the level, is now irrigated. The soil varies from a stiff clay to a sandy loam.

A large sum of money has been spent upon buildings on the farm, including manager's house, dairy, stables, cowsheds, pigsties, &c., and the arrangements are most complete.

The dairy, for which most of the buildings were erected, had, after being brought into good working order, to be abandoned by reason of the strongly expressed but unwarranted prejudice against the produce; and immediately dairying operations were abolished, a society erected buildings near the farm, and have for years grazed their cows upon the farm, and have produced and sold a great quantity of excellent butter and milk with no ill-effects.

The farm is also farmed with a view of grazing and fattening stock, and the growth of root crops and other fodder plants.

The production of the land treated with the sewage water has been extraordinary, and it is generally considered that more luxuriant crops could not have been obtained.

The Italian rye, prairie, and pannic grasses, lucerne, and mangolds, &c., find a ready sale at high prices.

The rate charged for depasturing large cattle, ranges from 2s. to 3s. per week, and horses from 2s. 6d. to 4s. Cattle bought as stores, after being in the farm for six months, double their value. The pigs are well worthy of notice, being as fine a lot as could be seen anywhere; they are fed on mangold leaves, pulped mangolds, lucerne, and a little meal, and also the skim milk purchased from a neighbouring dairy farm at a nominal price.

Character of Land.—As might naturally be anticipated from its great extent, South Australia contains a great variety of soils and scenery. Extensive plains, comprising many millions of acres of arable land and chiefly free from timber, extend from Aldinga in the south, to Mount Remarkable in the north. These plains are flanked on the eastern side by a mountain chain of moderate elevation, running from north to south, with occasional breaks, for 300 miles, and terminating at Cape Jervis, the southernmost point of St. Vincent's Gulf. Beyond this range, to the eastward and north-east, and before reaching the Murray Scrub,

the country is broken and hilly, with a good deal of timber, and a large extent of the finest agricultural land. The valley of the Murray river varies in width from half a mile to a mile, and consists of a rich alluvial deposit, timbered in many places with large gum trees. Cliffs of shell limestone, from 130 to 300 feet high, and alternating from one side of the valley to the other, run through nearly its whole extent. On each side of the river, throughout a large portion of its course, the country is a vast waterless scrub, with occasional open grassy plains. Between the Murray and the eastern boundary of the colony, after the scrub is passed, is the rich agricultural and pastoral district of Mount Gambier, with its harbours of Guichen and Macdonnell Bays. The whole of this district exhibits traces of volcanic action. Within the limits of the Colony are to be found almost every description of landscape. "There are," says the late Mr. Forster, "many portions, however, that are sterile and uninviting, and doomed to perpetual aridity and barrenness. Extensive scrubs and sand patches are to be met in the north, which will probably never be available for any useful purpose. But the extent of pastoral and agricultural land is so great, that a few thousand square miles of worthless territory can be dispensed with." (The tapping by artesian wells of vast subterranean reservoirs of water has altogether altered the character of this hitherto supposed worthless country.)

Of the entire area of the colony, excluding the Northern Territory, the land held towards the end of 1900 was as follows:—Held in fee simple, 7,290,856 acres; ostrich farm lease, 5,000 acres; Agricultural College endowed lands, 50,000 acres; Renmark Irrigation Scheme, 30,000 acres; forest reserves, 228,032 acres; granted for University, schools, &c., 58,251 acres; educational lands, 390,063 acres; deferred payments, 539,156 acres; pastoral and annual leases, 62,837,595 acres; miscellaneous leases, 3,463,825 acres; selectors' leases, 185,584 acres; scrub leases, 257,905 acres; reserved lands, 217,724 acres. Ordinary lands—right of purchase leases, 5,740,659 acres; perpetual leases, 4,776,365 acres. Working Men's blocks—right of purchase leases, 39,621; perpetual leases 9,205 acres. Special leases (for fruit trees, &c.), with right of purchase, 989; Aboriginal leases and licences, 87,174 acres; mineral (including gold) leases, 15,978 acres; grazing and cultivation lands, 1,345,934 acres; unoccupied Crown lands (including lakes), 155,674,914 acres.

A Pastoral Commission sat during 1897-98 and reported "that the industry connected with the pastoral occupation of the Crown lands of the province is, and has been for many years, in an extremely depressed and unsatisfactory condition," to be attributed to the following causes:—"The want of length and security of tenure under the Pastoral Acts previous to 1893, which has prevented the proper development of the country; the excessive rents promised at auction by the lessees; the subdivision of many runs into small blocks carrying heavy charges for improvements; the deterioration of pastoral country, caused by the abnormal increase of rabbits and the great loss of sheep consequent upon the ravages of wild dogs; the decline in the prices of wool and stock; the frequently recurring droughts and the unusually protracted one during the past four years."

Village Settlements were established by the Government in 1893, for the purpose of settling the unemployed on the lands of the colony. There are seven settlements (Syrup, Holder, Pyap, Wakerie, Kingston, Ramco, Moorook), with a total of 513 persons, 5,438 acres under cultivation, 4,943 acres are under wheat, and 268 under orchards and 96 under vines, besides many acres under other products. Much good has resulted from the establishment of these settlements.

Climate.—The climate greatly resembles that of Sicily and Naples. During nine months of the year it is agreeable. What is called winter is, in truth, a rainy season, and would be considered in England merely a wet autumn. The coldest months are June, July, and August; the mean temperature of these months for 43 years being 53·5, 51·5, and 54·0 respectively. Sir Charles Todd, the Government astronomer, says:—"During these months, and occasionally, even in September, there are frosts, especially on the high lying plains to the north. During the three summer months, December, January, and February, the heat is often very great, the temperature ranging, in most years, as high as 110°; the mean for these months is 71·3, 74·2, and 74·0 respectively, and the thermometer exceeds 90°, on the average, on 11 days in January, 10 days in February, and 9 days in December. The extreme dryness of the air, however, renders the heat very bearable and healthy." The highest recorded temperature in the shade was 116°·3 on January 26th, 1858, and the lowest 32°·3 on early morning of August 17th, 1859. There is no epidemic disease; intermittent fevers are scarcely known, nor has any serious eruptive fever, excepting occasional scarlatina and measles, yet appeared. Scrofulous diseases are rare; tubercular affections of the lungs are infrequent; epidemic cholera has not visited the colony; but diseases of the eyes are common in summer, being occasioned by the impalpable dust of the streets and roads, or by exposure to the night air after being subjected to the glare of a cloudless sky. The rainfall in Adelaide during the year 1889 was 30·874 inches, and this has proved to be the wettest year at the Observatory since records have been taken. It may be noted that Sir George Kingston recorded 31·505 in 1875, when the Observatory registered 29·209. The average yearly rainfall from 1839 to 1899 has been 20·850 inches. The driest year during that period was 1876, when the rainfall was 13·434. The heaviest rains come from the north-west; the wind usually commences at the north-east, goes round, by north and west, and terminates in heavy squalls at the south-west. The rainfall at the Adelaide Observatory during 1895, was 21·277, during 1896, 15·173, 1897, 15·424, 1898, 20·754, 1899, 18·844. The average death-rate of the colony during 1894 was 11·64: during 1895, 11·25 per 1,000, during 1896, 11·48, 1897, 11·24, 1898, 13·06, 1899, 12·69.

The late Sir G. S. Kingston, who for upwards of forty years (from 1839) carefully recorded the rainfall of the colony, gave his experience as follows:—"A careful examination of the rain register tables has induced me to consider the year as divided into three distinct periods or seasons, thus—during the first four months of the year, namely, January, February, March, and April, the average amount of rain is found to be 3·74 inches, or not quite one inch per month. The next five months, May, June, July, August, and September, give an average amount of 13·361 inches, or 2·627 inches per month; while the last three months, October, November, and December, the rainfall may be expected to reach 4·004, or one and a third inches per month. I am inclined to disregard the usual divisions of the year, and to call the five months, May to September, spring; during this period are carried on all the most important operations of the agriculturist and horticulturist in sowing and planting. The three months at the end of the year, October, November, and December, I regard as the summer or harvest months. During these months our grain crops are generally secured on the plains, except on rare occasions, and in the hills, where the harvesting of grain extends into January. The first four months of the year, January, February, March, and April, as in the old country, following on the harvest, form, to a certain extent, the autumn of this part of the world—the vineyards and orchards then yielding their produce; but, owing to the deficiency of rain, vegetation is very generally at a standstill. Want of moisture in the atmosphere, accompanied by intense heat, putting a stop to vegetation, and baking the surface of the ground, has a somewhat similar effect, in so far as agricultural pursuits are concerned, to that produced by the wet and frosts of the winter in England."

During 1888 the whole of Australia suffered from one of the most disastrous droughts on record. In South Australia most of the observing stations recorded quantities of rain for the year far lower than any previous records, whilst some few in the far north had less than an inch for the twelve months. The driest stations were Cowarie, where 0·280 inches was recorded between January 1st and December 30th, and Mungerame, where 0·240 inches fell during the same period. This drought broke up on the 31st December in the north and on New Year's Day, 1889, over the agricultural districts generally, heavy tropical rains and floods were experienced.

As far as the southern districts of the colony are concerned the year 1891 will rank amongst the driest years experienced, and were it not for the fine rains in the middle of December it would be the driest on record at Adelaide and the south generally. There was an absence of general soaking rain—whenever any large area was affected the fall was, as a rule, light. The interior and pastoral country, and to some extent the more northern agricultural areas, had good rains during the first six months, but during the latter half of the year they also shared in the general drought which lasted until July, 1892.

The years 1896 and 1897 were very dry all over the interior and South Australia generally, especially the northern areas; many stations only recorded 50 to 60 per cent. of the average annual rainfall.

In 1898 more rain fell over the settled districts than during the two previous years, but it nearly all fell in the winter months, the first three and last three months being very dry. June, 1898, in the northern areas was the wettest June on record (the records going back from eleven to seventeen years), but the absolute failure of the spring rains there, ruined the crops. In the more southern districts it was less felt generally, and as the late crops there were well favoured by rain at the latter end of October, and the weather in December was very favourable for harvesting, the returns were very fair and a great improvement on the previous two or three years.

In 1899 very few places in South Australia registered their average amount of rainfall. The autumn rains were fair but light to the north. June was exceptionally wet with a well distributed fall, but July was the coldest and driest on record, the heavy frosts having a most disastrous effect; good September rains saved the season to a large extent, especially in the south, and late crops were benefited also by good rain in November. The harvest in the upper north and western districts was better than 1898, but in other parts it was less, especially in the SE., the average of the whole colony being slightly under that of 1898.

Earth Shocks.—A very extensive and severe earth shock was experienced over the colony on May 10th, 1897, being felt all over the south-east as far north as Port Augusta, and as far west as Port Lincoln. The general direction of the wave shows to have been S.E. to N.W. It was felt most severely on the south-east coast between Beachport and Kingston—houses being cracked, and in some cases levelled, fissures formed in the crust of the earth through which water and sand were forced up. For a month or more subsequently rumblings were heard at Kingston and one or two slight vibrations felt.

On May 2nd, 1899, a sharp shock was felt from Mt. Gambier to the Murray mouth.

Occasional sharp shocks were also felt during 1900.

Mineral Resources.—The mineral resources of South Australia consist of vast deposits of copper, iron, and silver lead, with small quantities of gold, bismuth, tin, manganese, and cobalt, but comparatively very little mining is done. The principal mineral obtained in the colony is copper. The first copper discovery, the Wheal Gawler, was on one of the hills overlooking Adelaide; but the first mine of any importance was the Kapunda, which was found in 1843 by the late Mr. Francis S. Dutton, C.M.G., the first ground being broken on January 8th,

1844, and was the first revelation of the presence of copper in quantity in any part of Australia; the famous Burra-Burra mine, about 90 miles to the north-east of Adelaide, being discovered two years later, in 1845, by a shepherd named Pickitt. Mining operations at the Burra commenced on September 29th in the same year, and in a few days after ground had been broken several drays laden with copper ore found their way into Adelaide. "The history of the Burra-Burra mine is," a writer on the colony remarks, "the history of the commercial progress of South Australia. Farms, land sales, immigration, wharves, warehouses, projected railways, imports, rents, wages, have all rested on the yield of the Burra-Burra." The mine has been closed for some time, but bores have been put down with a view to commence work again. In 1860 a more extensive discovery of copper than even that of the Burra-Burra was made, upon Crown lands leased to Captain Hughes and others (as sheep stations), at the head of Yorke's Peninsula. The works here are known as the Moonta and Wallaroo Mines. The northern mines are Yudanamutana and Blinman. Areas of copper are extensively distributed in lodes wherever the metamorphic and palæozoic rocks occur. The mines in the Colony being worked at that time were Hamley, Moonta, Wallaroo, Kapunda, and Yorke's Peninsula. The other mines are Burra-Burra, Blinman, Doora, Kurilla, Mount Coffin, Victory, Yudanamutana, North-east Moonta, Poona, and Parramatta. The deepest shaft at Moonta is 1,900 feet, at Wallaroo 1,380 feet. Owing to rise in the price of copper, great activity was manifested in 1898–9 in that branch of mining in the north; many of the old closed mines were reopened and new ones were started. Since commencement up to December, 1898, the total value of copper produced in the Colony amounted to £21,472,509. There are 600 miners employed.

Gold has been found at and around Echunga, a village 21 miles south-east of Adelaide; in the Mount Barker hills, also at Barossa, and near Lobethal, and in the north-east at Waukaringa and Manna Hill, and in small quantities in the early days of the colony at Gawler, Gumeracha, and Noarlunga. In 1881, some rich specimens of gold were discovered at Woodside. In 1885–86, golden quartz leaders were found on Kangaroo Island, and trial crushings realized up to 22 oz. to the ton. During 1885 an impetus was given to gold-mining in the colony by the finds obtained in the alluvial drifts near Gumeracha, about 30 miles from Adelaide. A considerable number of miners were attracted to this new field and some nice nuggets, weighing several ounces, were found. At the latter part of 1886 alluvial gold was found on the Teetulpa run, about 20 miles from Manna Hill, and 230 NE. of Adelaide. Many large and beautiful nuggets were found. The Teetulpa alluvial workings have been very successful, and it is estimated that over £300,000 worth of alluvial gold has already been obtained there. Alluvial gold-fields are being worked in the neighbourhood of Echunga, Hahndorf, Barossa, Ulooloo, Forest Range, Teetulpa, Wadnaminga, Lovely Gully, Round Hill, Mount Pleasant, Pennyweight Flat, Blackfellows Creek, Jupiter Creek, and Donkey Gulley. Quartz reefs are being worked near Echunga, Hahndorf, Ulooloo, Waukaringa, Manna Hill, on the Outalpa Run, on Crown lands, Wonna, Mount Pleasant, Blumberg, Wadnaminga, Mount Victoria, Nillinghoo, Lovely Gully, Angepena, Barossa, Luxemberg, Olary, and on private property at Woodside and Balhannah. Gold-mining leases have been granted on Crown lands in the hundreds of Kuitpo, Noarlunga, Hallett, and Para Wirra; also at Waukaringa, King's Bluff, Mount Victoria, north-east, and at the Peake, 630 miles north of Adelaide.

Silver Lead mines are mostly situated in the south part of the colony, near Cape Jervis, and are known as the Talisker, Gorge, and Campbell's Creek mines; silver lead has also been found near Kapunda. Several years ago this metal was found in various places in the hills about 20 miles to the south-east of Adelaide, and created for a time quite a mania, shares changing hands at high prices; but all these mines, including the Alexandria, which yielded a considerable quantity of silver, have long been abandoned. Silver mines recently resumed working at Glen Osmond, five miles south-east of Adelaide. The discovery of silver ore in the Barrier Ranges of New South Wales, although not in South Australian territory, has an important influence on the commercial prospects of the colony. A considerable town has been created at Broken Hill, which draws its chief supplies from South Australian sources, as well as shipping its exports from South Australian ports. The argentiferous formations extend into the colony, and there are announcements of silver deposits being found on the South Australian side of the border. Bismuth has been found at Murninnie, Balhannah and Mount McDonald and, in conjunction with copper, at Daly and Stanley, and considerable parcels of this metal have found their way to England.

Iron is known to exist in large quantities, and Parliament has voted £2,000 as a bonus for the production of the first 500 tons of pig iron.

Coal.—Large seams of brown coal have been found at Leigh's Creek, Wirrabara, Kuntha Hill (110 miles north of Hergott Springs), and at Teatree Gully (12 miles from Adelaide). When the colony has been further explored it is probable that mineral resources as yet unknown will be developed.

Marble of fair quality appears at different places, and quarries are now in regular work.

The Teetulpa Reefs.—There are two sets of reefs or veins in this district; one traversing the bed rock in an east and west direction, and the other striking in a meridianal direction. They are composed of veinstone, consisting of quartz, gossan, carbonates of lime and iron, hematite, brown iron ore, and iron pyrites. Carbonate of bismuth and lead, with traces of copper, have also been noticed. So far the greater part of the work done has been on the north and south reefs. These have a strike ranging from north 10° to 15° and 20° west: the underlay is steep, and inclines from 70° to 80° to the east. They are well defined, and are of considerable width in some of the claims, and have well defined walls. They run parallel to one another in groups of three or four. Numerous shafts have been sunk, the greatest depth at present being about 100 feet. As a rule the gold is very fine, and owing to the ferruginous nature of the stone, is very difficult to see. In the Victoria claim, however, a pocket consisting of quartz and gossan has been found, containing very rich specimens of a wiry, filamentous gold, of a peculiar and remarkable character. Rich reefs have also been found at King's Bluff and Mingary. Crushings from which have ranged from 2 ozs. 11 dwts. to 17 dwts. per ton. Vigorous prospecting is now going on all over the north-east district. Search for gold is now being prosecuted at Mount Ogilvie, about 30 miles east of Farina, and in various other districts of the North and North-East.

In the Wadnaminga district, 25 miles South-East from Mauna Hill, there are numerous reefs, some of which have been opened and have proved themselves to be rich. Notable among the mines on this field may be mentioned the Birthday, Victoria Tower and Countess of Jersey, Earl of Jersey, Virginia, Milo, Earl of Kintore, Golden Stream, Greater Britain and Wadnaminga proprietory. There are a number of reefs not yet explored.

The annual vote for the Mines Department, varying in amount, is awarded in subsidies to mining companies after inspection and favourable report by the Inspector of Mines.

The mineral claims for the year ended December, 1898, numbered 262, extent 8,380 acres; mineral leases issued or ready for issue 129; acreage 5,100. Gold licences or miners rights issued 1,121.

[For particulars of minerals exported, *see* paragraph "Imports and Exports," *post.*]

Natural History.—The native animals of South Australia are similar to those to be found in the other colonies, comprising the kangaroo (*Macropus*), the wombat (*Phascolomys wombat*), the dingo, or native dog; the wallaby, a smaller species of kangaroo; the kangaroo rat, a still smaller species; the opossum (*Didelphis*); the native cat; the flying squirrel, bandicoot. In all, the mammalia number about seventy, of which upwards of forty are marsupial. Among the birds the emu is the largest; others being the turkey; the native pheasant (*Leipoa*); the kingfisher, or laughing jackass; several varieties (upwards of sixty) of the parrot tribe, many of them of brilliant plumage; the honey-eater, curlew, hawk, eagle, black swan, pigeons, ducks, geese, teal, plover, quail, pelican, mutton bird, and penguin. It is estimated that there are nearly seven hundred species of the feathered tribe. Snakes of various kinds, many of them venomous, are too plentiful; and of insects South Australia seems to have been endowed with more than its proper share. Among the woods of the colony the various species of the Eucalyptus, or gum-tree, take the premier position both as regards size and number, the acacia ranking next; of the former there are about thirty species, of the latter about seventy. The grass-tree (*Xanthorœa*), from its peculiar appearance, is a striking object in the landscape in many parts.

Vital Statistics.—The summary tables (as laid before the House of Assembly on October 27, 1891), of the census (the tenth), as taken on April 5, 1891, showed the population of South Australia and Shipping (and The Northern Territory exclusive of aborigines) to be 320,431 souls, of whom 166,801 were males, and 153,630 females. The increase from the previous census of 1881 was 40,566, being at the rate of 14·5 per cent. The aboriginal population was estimated at 5,000.

(For details of Census figures see previous issues of the Australian Handbook.)

Estimated population (exclusive of Northern Territory) at beginning of 1900, 365,755; males 190,053; females, 175,712. Population of Northern Territory at same date was estimated at 4,945 persons; 4,516 males and 429 females, exclusive of aborigines.

Births, Marriages and Deaths.—During 1899 there were registered 9,397 births—4,841 males, 4,556 females; 4,406 deaths —2,362 males, 2,044 females; and 2,265 marriages. Excess of 4,991 births over deaths. Proportion of births to every 1,000 people 25·89, marriages 6·24, deaths 12·69. Thirty-five persons committed suicide during 1899.

"Viewed as a whole," says the Registrar-General of Births, Deaths and Marriages, "1899 was not an unfavourable year. It showed, at all events, a good deal of improvement in comparison with 1898, for its birth and marriage rates were higher and its death rate was lower, while its increase in population was considerably greater."

Aborigines.—At the foundation of the Colony in 1836, the Aboriginal population of the southern portion of the colony was estimated at 12,000. According to the last official census, 1891, their numbers were made up of (exclusive of Northern Territory), males 1,661; females 1,473; total 3,134; of these, the adults, healthy, were 2,378; sick and infirm 250; children 506. During years 1891–99 there have been recorded—births 345; deaths 562, excess of deaths, 217. It has long been apparent that the aborigines of South Australia are not exempt from a reduction in their numbers similar to what takes place when a savage race comes in contact with a highly-civilized one. The disparity in the numbers of the sexes, the small proportion of children to the total population, and the prevalence of disease, prove that the extinction of the race is but a question of time. The protection of the aborigines is provided for by the State; a special department watches over their welfare and interests, consisting of a Protector who has the disbursement of the annual vote (about £4,262), and the control and supervision (assisted by a Sub-Protector in the Far North) of the depôts (about fifty in number) for the distribution of rations, clothing, and medical comforts. It is believed that

the establishment of these depôts in suitable localities, and the judicious distribution of stores, works well in promoting a good understanding between the settlers and aborigines. With a view to ameliorate the condition of the natives and render their labour useful and profitable to themselves, four special reserves have been set apart in the following localities, containing a total of about 670,000 acres—viz., Point Macleay, on Lake Alexandrina; Point Pearce, on Yorke's Peninsula; Kopperamanna, near Lake Hope, Far North, and Hermansburgh, on the Finke River, Central Australia, where missionary institutions, for years past, have been mainly supported by voluntary contributions and the proceeds of produce raised from stock, land, &c., by the natives themselves, and homes provided for about 500 aborigines, including about 120 children attending schools. Two of these mission stations, Poonindie and Point Pearce, were entirely self-supporting for some years, but the former was closed, and the land resumed by the Government; the few natives remaining being removed to Point Pearce and Point Macleay. The Lutheran mission station at Finke River, which was founded in 1876, and was at first conducted by a local Lutheran Synod, but afterwards given over to the mother mission society at Hermannsburg, in Hanover, was abandoned by the latter society. Their missionary, the Rev. F. Warber, was recalled and sent to India, and their local representative, the Rev. G. A. Heidenreich, of Bethany, was instructed to sell the stock and improvements. This was done, and the station eventually came into the hands of the German Lutheran Church Synod. There are about 1,650 head of cattle, 300 horses, 2,000 sheep, and 300 goats, besides several buildings and other improvements. The South Australian Government has for many years subsidized this station by an annual grant of £200. As an instance of the result of the more comfortable and healthy lives led by the natives attached to these institutions, it was noted at Point Macleay, during a recent period of three years, that the births were 30, and the deaths only 19. The financial returns from the mission stations, for the year 1899, show total voluntary contributions received, £1,488 11s. 6d., total amount of proceeds of produce raised, £8,467 0s. 4d.; total amount of wages paid to aborigines, £1,258 16s.; total estimated value of all stock, produce, buildings, &c., on the stations, £25,540 1s. 4d.

An Expedition under Professor B. Spencer and Mr. F. G. Gillen was fitted out in the early part of 1901 to investigate the habits and customs of the aborigines of Central Australia.

Immigration.—The total number of arrivals in 1899 was 73,557; this includes passengers by intercolonial rail as well as by sea; the departures were 71,966; the excess of arrivals over departures being 1,591.

Religion.—The aggregate number of churches and chapels (exclusive of Roman Catholic, information not obtainable) in the colony at the beginning of 1900 was 969, with seats for 155,085 persons; this was exclusive of about 255 buildings and rooms occasionally used for devotional purposes, having sittings for 14,926. The Church of England has 173 churches with 26,249 sittings, and 44 other buildings with 3,054 sittings.—The Methodists have 500 churches, and 138 preaching places, with total sittings for over 77,359. (It may be noted that the Primitive Methodists, Bible Christians and Wesleyan Methodists have amalgamated.)—The Congregationalists have 48 chapels, with 12,300 sittings, and 16 temporary places of worship with 3,835 sittings.—The Baptists own 69 chapels, with sittings for 13,876 persons; 3,031 worship in 20 public rooms.—The Presbyterian Church of South Australia possesses 27 churches, and 10 other places of worship, with sittings for 5,187 persons.—The Free Presbyterian Church has 5 places of worship and 700 sittings and one other place with 50.—The Church of Christ have 25 chapels and other places of worship, with sittings for 5,000.—The German Lutheran congregations possess 90 places of worship, with sittings for 11,000 persons; there are 20 temporary places of worship accommodating 2,000 people.—The Society of Friends have 1 meeting-house, and 100 sittings.—The Unitarians have 2 churches and 350 sittings.—The Jews, 1 synagogue, with 320 sittings.—The New Jerusalem Church has 1 place of worship, with 150 sittings.—The Christian Church has 24 chapels, with 4,450 sittings.—The United Free Church of South Australia Incorporated, 3 chapels, and 500 sittings.

At the census of 1891 the numbers of the various denominations were as follows:—Church of England, 89,271; Roman Catholics, 47,179; Wesleyans, 49,159; Lutherans, 23,328; Presbyterians, 18,206; Congregationalists, 11,882; Bible Christians, 15,762; Primitive Methodists, 11,654; Baptists, 17,547; Christian Brethren, 465; Methodist New Connexion, 39: Unitarians, 688; Moravians, 139; Friends, 100; New Jerusalem Church, 168; Jews, 840: Protestants, 5,532: unknown, 8,046; 6,940 persons objected to state their religious persuasion, and the religion of 1,590 other religions. The voluntary principle has been in force since the foundation of the colony, no aid from the State being given for religious purposes.

The Church of England is under the management of a synod, consisting of the bishop, all licensed clergymen in the diocese, and lay representatives from each congregation. The Standing Committee having the management of the Church funds is elected triennially by ballot, and comprises the Bishop of the Diocese as president, twelve clergymen, and twenty-two laymen. The See of Adelaide was endowed by the Baroness Burdett-Coutts, and founded in 1847.

Adelaide was erected into an Archiepiscopal See by Pope Leo XIII. on May 20, 1887, and Dr. Reynolds (now deceased) nominated its first Archbishop. The Most Rev. John O'Reily is the present Archbishop. The Province embraces Southern and Western Australia, having Perth, Port Augusta, and Port Victoria, as Suffragan Sees. A community of the Order of St. Dominick; the first introduced into the Australian Colonies took possession of the church and mission of North Adelaide in September, 1898. The community consists of three fathers, and one brother.

Methodist Union.—The ceremony of signing the Plan of Union by the Presidents of the three Methodist Conferences took place in the Pirie Street Wesleyan Church on May 15th, 1889. The Rev. J. D. Langsford, President of the Wesleyan Conference, occupied the chair, and was supported on the platform by the Revs. J. Thorne, President of the Primitive Methodist Conference; H. J. Pope, President of the Bible Christian Conference; Dr. H. T. Burgess, J. G. Wright, W. F. James, and A. J. Burt, and the Hons. F. W. Holder, M.P., and A. Catt, M.P. During 1900 "The Methodist Union Act, 1900," was passed, establishing the union of the three Churches under the title "The Australasian Wesleyan Methodist Church."

Sunday Schools.—The total number of Sunday Schools in connection with the various religious denominations, exclusive of Roman Catholics, on January 1, 1900, was 833, with 325 male and 4,317 female teachers, and 32,639 male and 41,985 female scholars. Total scholars, 74,624; total teachers, 7,574.

Public Library, Museum, and Art Gallery.—By the Public Library Act which came into operation on July 1st, 1884, the South Australian Institute, which was erected in 1859, was abolished, and the Public Library, Museum and Art Gallery, and the Adelaide Circulating Library were created in its place, the books formerly belonging to the South Australian Institute being divided between the two Institutions. On June 30th, 1900, the number of volumes in the public library was 43,584; the number of visitors during the year ending June 30th, 1900, was 71,340, to the Museum, closed for two months, 83,717, and to the Art Gallery 95,103. This does not include visitors to the old reading room in the old Institute building. The attendance there was large, but there were no means of registering it. On July 1st, 1900, there were 158 Institutes existing in South Australia. Out of this number, up to July 1st, 1899, 156 had 213,341 volumes, 8,449 members; and an income of £8,324, exclusive of Government grants. The circulation of books for the year ended June 30, 1899, was 489,257 for 156 Institutes. A special feature of the South Australian Public Library is the regular circulation of book-boxes among the country institutes. Of these, 176 English boxes, and 21 German boxes were in constant circulation. The first completed portion of the new Public Library, Museum, and Art Gallery, on North Terrace, is a handsome building, and was formally opened in Jan., 1895. The completion of the entire building as designed will cost £100,000, and has cost to date £45,000. A number of pictures was purchased in Melbourne by an appointed committee, and temporarily hung in two of the finished rooms of the new building. This temporary art gallery was opened formally by their Royal Highnesses Prince Albert Victor of Wales and Prince George of Wales. The pictures largely increased in number, and from 1890 to 1900 they were exhibited in the Jubilee Exhibition building, but owing to the munificence of the late Sir Thos. Elder, G.C.M.G., who bequeathed £25,000 to be expended in the purchase of pictures, the Government decided to erect a permanent building to house the Art treasures of the colony. This has since been accomplished at a cost of £23,000 and the pictures have been removed to the new building, which was opened by His Excellency Lord Tennyson on Saturday, April 7th, 1900. During 1896 the exchange of pictures was in operation between Sydney, Melbourne and Adelaide. Altogether, up to June 30th, 1900, the sum of £19,781 6s. 10d. had been spent upon pictures.

On June 30, 1900, the gallery contained:—Oil paintings, 150; water-colours, 48; black and white drawings, 69; engravings and etchings, 23; Sir J. Barry's works, 1; pieces of statuary, marble, 15; china vases, &c., 2; a stand of 16 medals, and sundry miscellaneous objects of interest. 13.

School of Design and Painting.—In connection with the Public Library there is a School of Design and Painting, which has been well patronized. There are 36 public scholarships, tenable for one year, offered by the Public Library Board, and competed for by the scholars attending the public schools in the city and suburbs, and awarded to those who excel in technical work at the Public Schools November Exhibitions. In connection wi th the School of Design are very successful Needlework and Wood Carving Classes, in which excellent work is done, from ordinary darning up to the highest form of art needlework; and from elementary "chip" and "scratch" carving, to carving "in relief." All the technical art work is designed and executed by the students, and the design becomes the property of the purchaser, and is not repeated. The school has disposed of nearly 1,700 pieces of art needle and carved work. Any information respecting this work may be obtained from Mr. H. P. Gill, A.R.C.A., School of Design, Adelaide.

An important addition was in January, 1900, made to the work of this school when arrangements were finally completed between the Board and the Education Department whereby the whole of the teachers of public schools will during their six years of preparation receive two hours' instruction per week from the staff of this school.

PUBLIC LIBRARY, MUSEUM, AND ART GALLERY OF SOUTH AUSTRALIA.

(Established by Act of Parliament, No. 296 of 1883-4.)

Board of Governors, 1899-1900:—Chairman, Rt. Hon. Sir S. J. Way, Chief Justice, D.C.L., &c.; Vice-Chairman, Sir Charles Todd, K.C.M.G., F.R.A.S.; T. Hargrave, Esq., M.I.C.E., Rev. D. Paton, D.D., E. W. Hawker, Esq., LL.B., W. J. Sowden,

Esq., J.P., R. Tate, F.G.S., F.L.S., T. Burgoyne, Esq., M.P., L. Grayson, J.P., R. W. Foster, Esq., Thos. Gill, Esq., and W. Russell, Esq. General Director, Secretary and Treasurer, Robert Kay; Librarian, J. R. C. Adams; Assistant Librarian, M. J. O'Conor; Director of Technical Art and Master School of Design, and Honorary Curator of Art Gallery, H. P. Gill, A.R.C.A.

Director of Museum, E. C. Stirling, M.D., C.M.G., F.R.S.

Education.—The control of the educational system is vested in a Minister of the Crown, who appoints the necessary inspectors and other officers. Schools are of two kinds, public and provisional, the latter being established in sparsely populated districts. No fees are paid for the instruction of children up to the compulsory standard, but one shilling a week is charged for pupils who, being more than thirteen years of age, have passed the examination for exemption, and are taught in a higher class. Four and a half hours a day are devoted to secular instruction, but the Bible may be read before school hours if the parents desire it. Children may attend school at five years of age. If they live within two miles of a school (measured by the nearest road), they are required to be present at least thirty-five days in each quarter between the ages of seven and thirteen and for a like period between nine and thirteen, if there is a school within three miles. In each case exemption is allowed to those who have satisfied an inspector of schools that they possess a competent knowledge of reading, writing, and arithmetic. The whole cost of the educational system is defrayed from the general revenue. A certain portion of the Crown lands has been set aside as an endowment, but the rents received are paid to the Treasury; the management of this estate is vested in the Minister of the Crown, who has the control of the rest of the public lands. The total quantity of land dedicated to educational purposes at the beginning of 1900 was 390,063 acres. The salaries range from £66 to £108 in provisional schools, and from £84 to £450 in public schools.

Under regulations relating to manual training, children are taught paper folding and cutting, woodwork in various forms, plaster work, bookbinding, brush and mat-making, rope-making, gardening, agriculture, carpentry, &c.

Local interest in the schools is secured by a system of Boards of Advice (of which there are 96 complete), partly nominated by the Government, and partly elected by the parents of the scholars, but as there is no local rating the Boards can only expend such sums as are placed at their disposal by the Minister of Education. There are two secondary schools in connection with the Department, one devoted exclusively to girls, and called the Advanced School for Girls. The pupils are prepared for the University Public Examinations. The other Secondary School is devoted to boys who have passed the compulsory standard, and who wish to prepare for entrance to the School of Mines, or the Agricultural College. It is called the Agricultural School, and the curriculum is a liberal one. Other boys who require further education than can be obtained at the public schools go to private schools or to the colleges, of which there are four in connection with religious bodies, viz., St. Peter's Collegiate School (Church of England), Prince Alfred College (Wesleyan), Christian Brothers School (Catholic) and Way College (Bible Christian). The boys in attendance at the public schools compete annually for 12 exhibitions, value £20 a year, and tenable for three years, at one of the above-named colleges. There are also 12 bursaries for girls giving the right of free education for four years at the Advanced School for Girls. Lastly nine scholarships are competed for every year, of the value of £35, £30, and £25, and tenable for one year at the University of Adelaide.

After serving their pupil-teachership at the pupil-teachers' school, teachers attend the University for two years for general study and study of school method.

The number of schools in operation on January 1st, 1900, was 677—an increase of 7 upon the previous year. Of these 284 were public schools and 393 provisional. The net number of pupils under instruction in 1899 was 62,316, being an increase of 553 over 1898. At the same time the average monthly roll showed on register 57,006, and the average daily attendance 41,655. The number of teachers of all classes employed in 1899 was—males, 411; females, 872; total 1,283. The schools were inspected and examined as usual (a lady inspector was added to the staff in 1898). The average percentage gained in public schools was 81·48, and in provisional schools 78·34, being an increase of 0·48 and 1·32 per cent. respectively. During the year 657 schools were examined by the inspectors; the total number of children presented was 43,406, against 42,063 in 1898. Out of 6,853 children examined in the fourth class 3,953 succeeded in passing the standard fixed by the Education Act for exemption from further attendance at school. During the year £9,998 0s. 10d. was expended altogether from loan for school buildings, sites, and furniture. Since the passing of the Education Act of 1875, 306 buildings have been erected. The total expenditure on school buildings since the passing of the present Act amounts to £469,954. The expenditure for primary education, after allowing for fees paid into the treasury, receipts for sale of books, and other miscellaneous items, is as follows:—Management and Inspection (including boards of advice), £9,157 19s. 7d. Training College, £607 1s. 2d.; Public and Provisional schools, £128,057 10s. 7d.; Retiring allowances to teachers, £884 11s. 6d.; Compulsory attendance branch, £975 4s. 10d.; Total £139,682 7s. 8d. The cost to the State of each child under instruction was £2 4s. 9¾d., and of each child in average attendance £3 6s. 1¾d. The revenue in aid derived from rent of dedicated lands was £5,965 19s. 3d. The fees received during the year 1899 (from the Advanced School for Girls: 107 pupils) was £1,307 4s. 1d., and the expenditure (including scholarships), £1,189 15s. 3d. There were twenty-one holders of bursaries.

At the end of 1895 a poll of electors was taken, which decided in favour of the continuance of the present system of education, against the introduction of scriptural instruction, and against the payment of a capitation grant to denominational schools for secular results.

A Secondary Agricultural School was opened by his Excellency the Governor in the Old Exhibition Ground on July 1, 1898, and marks an epoch in the educational history of South Australia. There are classes for teaching agriculture at Clare, Jamestown and Narracoorte.

By the census returns of 1891, 236,514 persons were able to read and write; 74,346 were unable to read. Excluding the Northern Territory, there were 80,897 children—40,989 boys and 39,908 girls of school-going age, five to fifteen years. Of these 47,094 were attending Government schools, 13,090 were attending private schools, and of the remainder no information is given.

TECHNICAL EDUCATION.—The South Australian School of Mines and Industries, incorporated by Act of Parliament in December, 1892, has been successfully established, and very satisfactory reports of the work done have been received from the Council of the School. The number of students during 1899 was 1,266; the total number of subjects taught being 31. Day and evening classes were held in mathematics (junior and senior), physics (theoretical and practical), chemistry (theoretical, practical and elementary), drawing (freehand and mechanical), geology, electric engineering, carpentry, cookery and dressmaking, applied mechanics, assaying and metallurgy, bookbinding, machine design, mechanical engineering, mineralogy, mining, plumbing and gas fitting, statics, dynamics and hydrostatics, surveying, shorthand, viticulture, agriculture, horticulture, dairy education, and wool sorting. The curriculum in each department is very full, comprising the usual courses in mathematics, physics, chemistry, assaying, drawing, and workshops practice. The full course for the Associateship diploma extends over three years. A fourth year is required in mechanical engineering. Examinations were held at the close of the year with fairly satisfactory results. Provision is made for the diploma of Associate being granted in three departments, viz.:—Metallurgy, Mining, and Mechanical Engineering. Six months' practical work in a mine or mines is required before a diploma is granted to candidates in the mining and metallurgy associateship courses.

The Museum contains a complete collection of the rocks of South Australia, topographically arranged. The rock specimens collected by the Government geologist, and by the exploring expeditions of Gosse, Tietkens, Lindsay, and others, are included among the exhibits.

The mineral cases contain representative collections from the Moonta and Wallaroo copper mines, and the Broken Hill silver mines. Two handsome wood trophies present a clear view of the chief timbers of Australia and New Zealand—full information respecting each species being given on the museum labels.

Free assays are made for prospectors whose specimens are obtained from Crown lands in South Australia. 4,789 assays were made in the Assay Department during the year 1899, 4,196 being free for the public.

There are six scholarships annually awarded.

The Moonta School of Mines is in successful operation, and receives a Government grant of £600.

Drawing has been made a compulsory subject in the State schools, and the students in the Teachers' Training College are instructed in this subject by Mr. H. P. Gill, master of the School of Design, while arrangements have been completed providing for a specially fitted and furnished room in the college for practical scientific teaching.

The event of 1899 was a munificent donation of £10,000 by Mr. G. Brookman towards the erection of a new building.

THE UNIVERSITY OF ADELAIDE was established by Act of Parliament in the year 1874, and in the year 1881 Royal Letters Patent were issued by Her Majesty the Queen declaring that the degrees granted by it should be recognised as academic distinctions and rewards of merit, and be entitled to rank, precedence, and consideration throughout the British Empire as if granted by any University in the United Kingdom.

It was the first University in Australia to provide for the granting of degrees to women, as authorised by Act of Parliament in 1880.

The University grants degrees in Arts, Science, Law, Medicine, and Music, and Diplomas in Music and in Mining-Engineering and Metallurgy.

The University owes its origin to the munificence and public spirit of the late Sir Walter Watson Hughes and Sir Thomas Elder, G.C.M.G., from each of whom a gift of £2,000 was received for this purpose. Further endowments were granted by Parliament, provision being made in the Act of Incorporation ("The Adelaide University Act, 1874") for an annual grant from the public revenues of a sum equal to 5 per cent. on the capital funds then or afterwards to be possessed by the University, but not exceeding in any one year the sum of £10,000. Under the authority of the same Act an endowment in land of 50,000 acres and a grant of five acres in the City of Adelaide as a site for the University buildings were provided for.

At first the Professorships founded in the University were four in number, their subjects being the following:—(1) Classics and Comparative Philology and Literature; (2) English Language and Literature Mental and Moral Philosophy; (3) Mathematics; and (4) Natural Science. The first and second were established in accordance with the terms of Sir Walter Watson Hughes's

donation, and bear his name ; the third and fourth bear in the same way the name of Sir Thomas Elder.

The academical work of the University was commenced in March, 1876, the number of matriculated students being eight, and of non-graduating students attending lectures fifty-two. The foundation-stone of the University buildings was laid by His Excellency Major-General Sir W. F. D. Jervois, K.C.M.G., on July 30th, 1879, and the buildings were opened by him in April, 1882. Their total cost, including that of subsequent additions, was about £38,000.

In 1883 Sir Thomas Elder, G.C.M.G., made a second gift to the University amounting to £10,000, for the foundation of a School of Medicine. The University Council thereupon established a Chair of Anatomy and a Lectureship in Physiology, and made further provision for the first two years of the medical course. In 1886 arrangements were completed for a complete medical curriculum. In 1884 the Hon. J. H. Angas, M.L.C., gave £6,000 for the endowment of a Chair of Chemistry, and in the following year the first Angas Professor of Chemistry was appointed. The Chair of Music was established in 1884 and a Professor of Music appointed. This chair had no special endowment, but through the efforts of His Excellency Sir W. C. F. Robinson, K.C.M.G., was supported for the first five years by voluntary subscriptions from the public amounting to £530 per annum, of which sum Sir Thomas Elder contributed £300 yearly. In 1890 the Council established a Professorship of Law in place of the Lectureship in Law which had existed since 1883.

In 1878 the Hon. J. H. Angas gave £4,000 to provide for Scholarships to encourage the training of scientific men, and especially Civil Engineers, with a view to their settlement in South Australia.

In 1892, and again in 1897 and 1899, Robert Barr Smith, Esq., presented to the University £1,000 for the purposes of the Library, which now, in consequence of the large additions rendered possible by these gifts, contains about 9,000 volumes.

On the 6th day of March, 1897, Sir Thomas Elder died, having bequeathed to the University the sum of £65,000, his total gifts to the Institution amounting from first to last to nearly £100,000. By the terms of his will the bequest was apportioned in the following manner, namely, £20,000 to the School of Medicine and £20,000 to the School of Music, while the residue was left available for the general purposes of the University. An Elder Conservatorium of Music was accordingly established in 1898, in which instruction is given in all branches of musical education. The foundation-stone of the Conservatorium building was laid by Governor Sir Thomas Fowell Buxton on September 26th, 1898. The Conservatorium contains a large public hall and an admirable suite of class-rooms for instruction in music, law, &c. It was completed in 1900, and the opening concert was held in May, 1900.

In 1898 the Council was enabled, by means of Sir Thomas Elder's bequest, to make arrangements for a post-graduate course in Mining-Engineering and Metallurgy, and for the granting of a Diploma in these subjects.

The University is governed by a Council, which usually consists of twenty members, elected by the Senate, but which consists of twenty-one members whenever the Chancellor at the time of his election to that office is not a member of the Council. The Senate consists of all graduates of the degree of Master or Doctor, in any of the several faculties, and of all other graduates of three years' standing, besides graduates of other Universities who have been admitted *ad eundem gradum* by the Council. All Statutes and Regulations must be passed both by the Council and by the Senate and approved by the Governor. The Senate was constituted in 1877, there being at that date at least fifty qualified graduates, the minimum number required by the Act of Incorporation.

The number of graduates admitted by examination since the establishment of the University is 218. The number of undergraduates in the year 1899 was 103, and of non-graduating students 208, exclusive of those studying at the Elder Conservatorium, of whom in 1899 there were 270. The teaching staff of the University comprises eight Professors and twelve Lecturers, and that of the Elder Conservatorium, eight Teachers.

Facilities for University examinations have been extended to the country, and local centres with permanent Committees have been formed, for examinations in Music only at Broken Hill, and for the Preliminary, Junior Public, Senior Public, and Music examinations at Mount Gambier, Narracoorte, Port Pirie, Clare, Jamestown, and Moonta, and at Perth in Western Australia. In the interests of education Extension Lectures have also been given in country centres as well as at the University.

The number of undergraduates in the various courses for the session of 1899 was 103, and of non-graduating students, 208. Students attending evening classes numbered 170, while 1,791 candidates presented themselves for various public examinations.

In connection with the Church of England there is St. Barnabas' College at North Adelaide, for the purpose of training theological students for Holy Orders ; there is also the Collegiate School of St. Peter's (founded 1847), which is endowed, and has several scholarships and exhibitions attached to it ; there is also the Pulteney Street Day School, founded in 1848. The curriculum is similar to that of the public schools of Great Britain.

In connection with the Wesleyan body is the Prince Alfred College. Many valuable scholarships are offered, the three highest being worth £50 a year for three years. The attendance is very large ; for the last twenty years it has never been under 300, and twice has reached 400. The chief feature is the Science Laboratory and the practical teaching of natural science. Way College, situated on North Parade, Unley, facing the South Park Lands, was founded by the Bible Christians, who are now united with the Wesleyan Methodist Conference, in memory of the late Rev. James Way. In connection with the institution are founders' and other scholarships.

In connection with the Roman Catholics is the Christian Brothers' College, a boarding and day school, and numerous day schools. A community of ten members of Marist Brothers (Rev. Br. J. G. Hughes, principal) have opened middle and high schools at Port Adelaide.

Products.—Though nearly all the fruits and vegetables that are produced in England grow in South Australia, it is principally remarkable as a wheat, wool, and grape-growing country. In some years sufficient grain has been grown to supply not only the wants of the colony and of neighbouring colonies, but to export many cargoes to England, where the wheat is held in high estimation, and invariably realizes high prices, on account of its dryness and weight. The province in former years has been termed the Granary of Australia. Nature appears to have especially favoured South Australia in adapting her soil, climate and circumstances for the growth of the vine, the fig, and the olive. Of the millions of acres comprised within her boundaries there are very few which could not be most profitably occupied by those prolific sources of prosperity, and it only wants the men with the industry, the capital, and the patience (necessary in all such cases) to develop it to its full extent. The soil of South Australia is nearly everywhere deep alluvium, or over a considerable extent of a calcareous formation, and it is upon the limestone country, or upon similar formations associated with sand and clay, where the vine flourishes with the greatest luxuriance. In the warmer portions of the colony the richest and most generous wines are produced, whilst in the cooler parts towards the south, south-east, and in the hilly districts the more delicate clarets, hocks, &c., are better suited. The former country has been chiefly favoured by cultivators on account of closer proximity to the capital, and because first efforts were directed there, and naturally the production of the richer wines has far exceeded that of the lighter kinds. But wherever growers have attempted the cultivation of the vine in the other localities they have been eminently successful, and it is notorious that the clarets which have taken all the first honours have been grown in the localities mentioned. For the season 1893–94 (later statistics not being collected) there were 17,418 acres of vines in full bearing, and the season's produce was 712,845 gallons of wine. During 1895-96 343,405, value £58,826 ; 1896–97, 391,233 gallons, value £73,316, were exported ; 1897-98, 513,714 gallons, value £82,553 ; 1893-99, 514,065 gallons, value £78,381 ; 1899–1900, 496,610 gallons, value £77,773. The South Australian wines have found a place in the English market. Hop-growing is attracting some attention ; the olive is also being systematically cultivated, and a comparatively large area is now under planting ; the oil manufactured in the colony has been sold at a fair rate, generally realizing about 10s. per gallon. The manufacture of preserved fruits and jams is rapidly becoming one of the staple industries of the province, as is also the drying of raisins and currants.

The Date Palm has been successfully cultivated at Lake Harry and Hergott plantations.

Some attention has been given to sericulture, both the silkworm and the mulberry-trees upon which it feeds, have done well, but no very substantial results have been obtained, though the silk produced has been pronounced by Marseilles merchants to be equal to any ever wound by them.

The salt industry has increased greatly, and with federation it is anticipated will give most encouraging results. In 1889 the exports were only 3,285 tons, but in 1899 they were 35,053 tons, valued at £44,080, and are steadily increasing.

The London Wine and Produce Depot was opened in London on October 1st, 1894.

Woods and Forests.—On June 30th, 1899* there were 216,852 acres of forest reserves and plantations in South Australia ; the total area enclosed for planting operations and natural regeneration of indigenous timber was 573 acres ; the total of all lands enclosed at same date was 13,300 acres. The total number of trees planted was 146,400, of which 92,764 are alive ; these were sugar gum, Aleppo pine, remarkable pine, upright poplar, black Italian poplar, and cork elm. The total area planted during the year was about 300 acres. The number of persons who applied for trees was 1,525, and 236,589 trees were issued. During the 23 years ending June 30th, 1899, the sum of £153,313 has been spent by the Department, the Legislative provision being £150,437. It is now 17 years since trees have been distributed gratis, the grand total so disposed of being 4,582,133, which were given to 19,427 applicants. Vines have been issued gratis for 8 years, the number being 1,258,327, to 6,148 persons.

Agriculture and Stock.—The estimated extent of land under cultivation for the years 1899-1900 was 3,081,846 acres. The gross acreage and produce in 1899-1900 being : Wheat, 1,821,137 acres, 8,453,135 bushels ; barley, 15,767 acres, 188,917 bushels ; oats, 20,229 acres, 218,331 bushels ; peas, 3,842 acres, 52,883 bushels ; hay, 311,440 acres, 229,800 tons ; potatoes, 8,406 acres, 19,716 tons ; vines, 19,438 acres ; wine, 954,367 gallons ; grapes sold, 108,046 cwt. ; raisins made, 5,398 cwt. ; currants, dried, 3,047 cwt. ; almonds, 2,652 cwt. ; oranges, 36,990 cases ; lemons 13,975 cases ; olive oil, 4,865 gals. made. There were 12,182 beehives and 523,981 lbs. honey made. There were 6,619,684 acres held by freeholders, and 29,445,041 acres by leaseholders. In the Central Division there were 1,032,172 acres under cultivation ; in the Lower North, 936,338 acres ; in the Upper North, 828,641 acres ; the South-Eastern, 94,965 acres ; and the Western, 189,730 acres.

* Information not available for 1900.

The Adelaide Chamber of Commerce estimated that the acreage reaped during 1899-1900 was 1,821,137 acres, yielding 8,453,135 bushels, or an average of 4·64.

The standard trading sample was fixed at 62 lbs. per bushel. The exports of wheat for three months ending 31st March in each year since 1894 was as follows: 1894, 3,227,583 bushels, average bushel per acre, 8·8, 1895, 1,412,830 bushels; average bushels per acre, 4·52; 1896, 355,628 bushels, average bushels per acre, 4·22; 1897, 960 bushels; average bushels per acre, 2·46; 1898, 11,425 bushels, average bushels per acre, 2·38; 1899, 97,073 bushels; average bushels per acre, 4·91; 1900, 3,114,781 bushels, average per acre, 4·14.

In 1899-1900 there were 5,667,283 sheep, including lambs; horned cattle, 192,267; milch cows, 83,527; working horses, 121,571. other horses, 47,124; goats, 7,399; pigs, 82,901; poultry of all kinds, 1,122,812.

Butter made in 1899-1900, 5,581,231 lbs.; cheese made, 946,930 lbs.

Butter Industry.—The Butter Bonus Act came into operation on Oct. 2, 1893, when the first shipment of 10 tons was forwarded to London. During 1895, 15,477 cwt., value £70,459, were exported; during 1896, 5,402 cwt., value £26,194; during 1897, 1,484 cwt., value £6,879; 1898, value £25,007; 1899, 12,520 cwt. exported, value, £61,470.

Electric Telegraphs.—An extensive system of electric telegraphs is in operation, communication being had with all the leading places in the other colonies, including now Western Australia. The South Australian portion of the telegraph line to Western Australia was completed to Eucla (the boundary of the S.A. Line) on the 16th of July, 1877, the total cost being £68,205; great difficulties were experienced in erecting the section between Fowler's Bay and Eucla, owing to the extreme scarcity of feed and water, the country traversed being mostly sandy desert, and the long distances that materials had to be carted; but these obstacles were effectually overcome, and the line completed in a thoroughly substantial manner. The Western Australian line is 800 miles long, and the South Australian portion, including the line from Adelaide, about 971 miles long. An additional wire was erected and opened for traffic on December 30th, 1896.

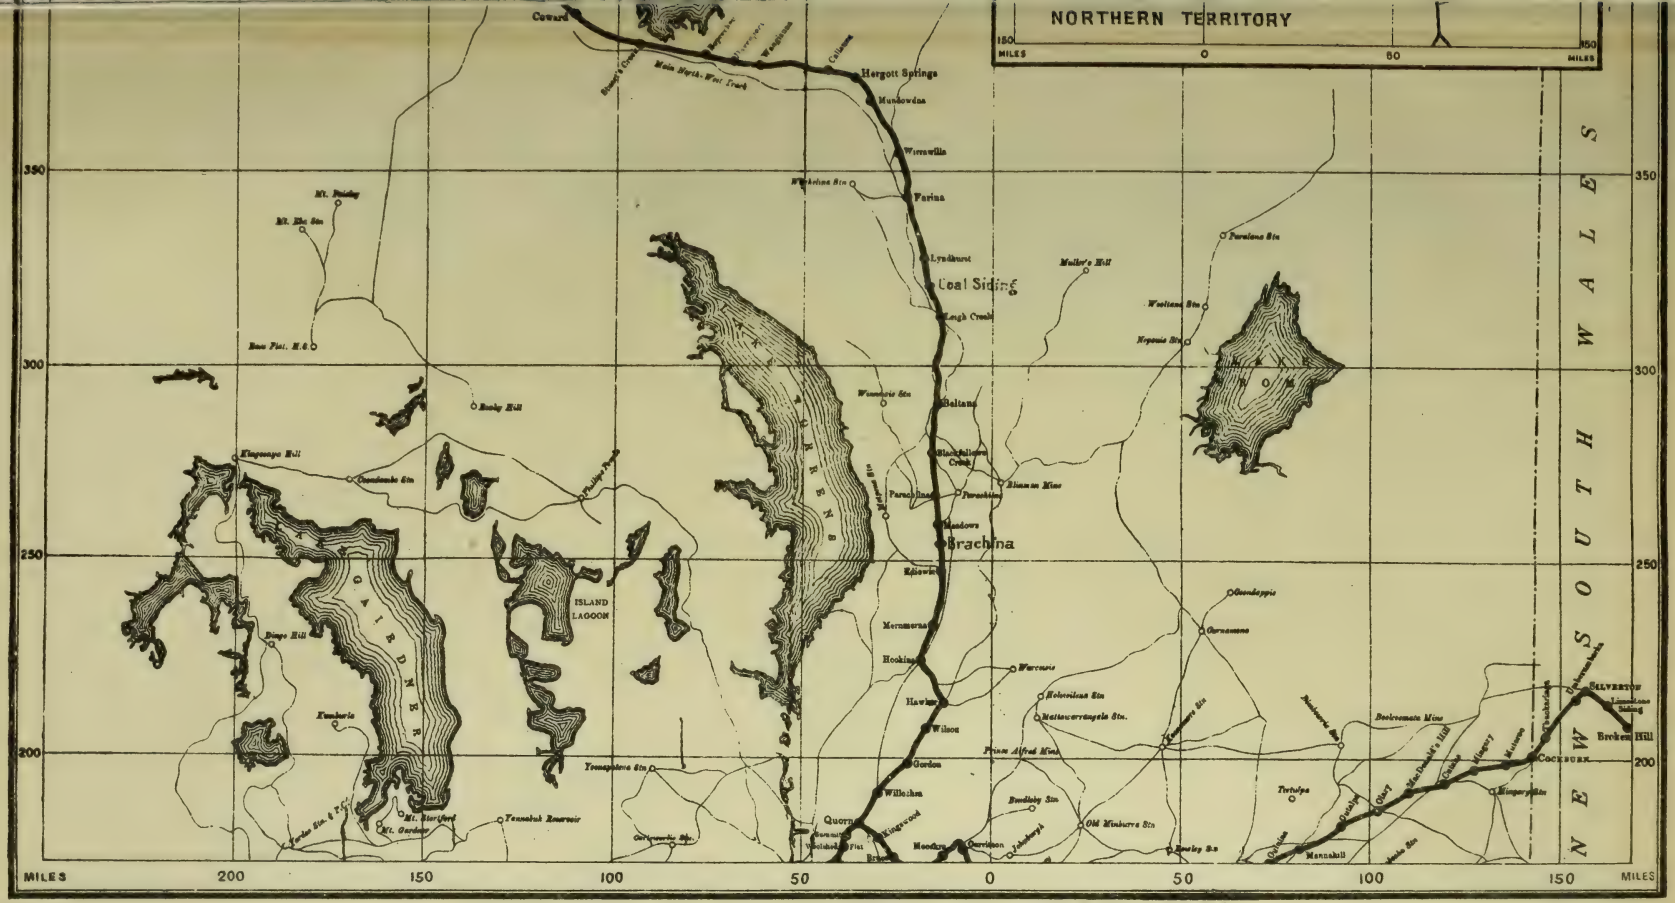
The charge for messages of ten words to and from any two stations in South Australia is a uniform rate of a shilling, and one penny for each additional word, except on the Port Darwin line, for which there are special rates. Between any two of the following stations, viz., South Adelaide, North Adelaide, Norwood, St. Peter's, Goodwood, Unley, Hindmarsh, Kilkenny, Woodville, Alberton, Largs Bay, Port Adelaide, Parkside, Thebarton, New Thebarton, and the Semaphore; also between Adelaide and Magill, Adelaide and Glenelg, Adelaide and Mitcham, Adelaide and Brighton, Norwood and Mitcham, Adelaide and Payneham, Norwood and Payneham, Magill and Payneham, Unley and Mitcham, Norwood and Magill, Hindmarsh, St. Peters, Norwood, Parkside, Unley, Goodwood, South Adelaide, North Adelaide and Thebarton, respectively; Hindmarsh, St. Peters, Norwood, Parkside, Unley, Goodwood, South Adelaide, North Adelaide and New Thebarton, respectively; Hindmarsh, St. Peters, Norwood, Parkside, Unley, Goodwood, South Adelaide, North Adelaide, Port Adelaide and Grange or Henley Beach, respectively; the charge is 6d. for first ten words and 1d. for each additional word. Press telegrams: first fifty words or under, 1s.; every additional fifty words, 1s. From Adelaide to Port Darwin every fifty words, 2s.; *pro ratâ* charges are made for intermediate stations. To Silverton, Broken Hill, Euriowie, Purnamoota, Tareena, Wentworth, Tarrawingie, and Thackaringe, 1s. for the first ten words, and 2d. for each additional word. To Victoria and New South Wales the charge is 2s. for ten words, and 2d. for every additional word. To Queensland, 3s. for ten words, and 3d. each additional word. To Tasmania it is 3s. for ten words, and 3d. for every word extra. Names and addresses free up to 10 words; all in excess of that number charged for at usual rates. To Western Australia, 2s. for ten words, and 2d. for each additional word. Rates to New Zealand are now a word rate of 6d. per word. The word rate was adopted in International business January 1, 1876.

During the year 1899, of the messages transmitted, 519,542 were inland, intercolonial 423,307, 146,910 *in transitu*, cablegrams, 147,249; total, 1,237,008. The receipts were—local and intercolonial, £55,621; international, £53,285. Total receipts, £115,946. The gross value of international telegrams was £542,681. The total length open in December, 1899, including telephone lines and wires, was 16,937 miles of wire and 5,691 miles of line.

The Overland Line to Port Darwin was commenced in August, 1870, and completed August 22, 1872; the entire length from Adelaide to Port Darwin being 1,975 miles. Considerable delay was occasioned by the withdrawal of the contractors from a portion of the work, and the numerous obstacles that arose when the Government took the business into their own hands. The first message over the line from England was delivered in Adelaide on June 20; but this did not come all the way by the wire; a small section of the uncompleted distance being bridged by a horse express. Very soon after the partial completion of the land line the cable became silent, and remained so for some months. Since October 21, 1872, it has kept in excellent working order, with few interruptions (till the prolonged stoppage which took place in 1876), messages from London reaching Adelaide and *vice versâ* in about six hours. The total cost of the overland telegraph was £370,000, or about £250,000 more than the first estimate. The amount was further increased to £569,725 by the substitution of iron poles for wooden ones, and the erection of a second wire, copper of No. 10 gauge. An interesting account has been given by Sir Charles Todd, to whom both the inception and construction of the line are mainly due, of the difficulties which the construction party had to surmount. In one year and eleven months 36,000 telegraph poles, weighing 5,000 tons, had to be cut, prepared, and carted, for an average distance of eight to ten miles, the maximum being 350 miles. Iron poles, imported from England, had to be conveyed an average distance of 400 miles. In addition to this, 2,000 tons of material had to be carted, and several thousand cattle and sheep driven into the interior for distances ranging up to 1,300 miles. Moreover, tracks 50 feet wide had to be cut and cleared through some 500 miles of forest and scrub. Building materials, batteries, and other stores had to be carried for the use of stations, and nine substantial stations had to be erected and equipped. The line very nearly follows the track known as that of John McDouall Stuart. As a rule it passes over a strip of broken spinifex country that traverses the centre of Australia, and on the western slope has many small creeks. Of the men engaged in the erection of the line, numbering some hundreds, only seven died—a mortality scarcely at all exceeding the normal rate. The natives are found occasionally troublesome on some of the distant stations, and have at times speared some of the operators.

A second wire (harddrawn copper No. 10) was erected from Adelaide to Port Darwin, nearly 2,000 miles, at a cost of about £50,000. It was completed on 2nd December, 1899, and will greatly facilitate the transmission of international cablegrams and prevent delays.

A Telephone Exchange is established, to which persons may become members upon payment of the following subscriptions:—



Commercial subscribers, including all places of business, medical and legal practitioners, &c.	£
Within one mile radius of the telephone exchange...	10
One-and-a-half miles radius	11
Two miles radius	12
Two-and-a-half miles radius	13
Three miles radius	14
Every additional quarter of a mile radius	1
Domestic subscribers, including all private houses at which no business is carried on.	**£**
Within one mile radius of the telephone exchange...	5
One-and-a-half miles radius	6
Two miles radius	7
Two-and-a-half miles radius	8
Three miles radius	9
Every additional quarter of a mile radius	1

Each subscriber will be provided with one complete set of instruments connected by a special wire with the telephone exchange to which he subscribes. An extra charge will be made for extension bells, switches, and any additional instruments at rates to be fixed by the Postmaster-General. There are also special rates conferring additional privileges.

Postal.—The postal rates are:—Town and inland letters, half-ounce, 2d.; and 2d. for every additional half ounce. Post cards one penny each. Reply post cards 2d. each. Letters either by land or sea to any other of the Australian colonies, 2d. per half-ounce, or fraction thereof. To all other countries or colonies 2½d. per half-ounce or fraction thereof. Post cards to Great Britain and foreign countries and colonies 1½d. each; reply postcards 3d. each. On all registered newspapers posted for delivery in South Australia, to any of the Australian Colonies except Queensland), each newspaper not exceeding 10 oz., ½d.; each additional 4 ozs. or fraction, ½d.; to Queensland, each newspaper not exceeding 2 oz., ½d.; each additional 2 oz. or fraction, ½d. To the United Kingdom the rate is one penny for each paper not exceeding 4 ozs., and one halfpenny for each additional 2 ozs. To other countries 1d. for each paper not exceeding 4 oz. and one halfpenny for each additional 2 ozs. or fraction thereof. Intercolonial rate of postage on books, book packets, pamphlets, &c., every four ounces, or under, up to 3 lbs., 1d. Magazines, reviews, serials, and all other publications published at intervals of not exceeding three months that do not come within the definition of newspapers; rates of postage to Victoria, New South Wales, Tasmania, and New Zealand, for the first 8 ozs. or under, 1d.; each additional 4 ozs. or under, up to 3 lbs., ½d.; Commercial and printed papers (other than books) every 2 ozs. or under (up to 4 lbs.) 1d.; articles permitted to be sent by small packet post one penny for every 2 ozs. or fraction thereof (up to 1 lb.); the rate to the United Kingdom and foreign countries, printed papers not exceeding 2 ozs., 1d., every additional 2 ounces or under, 1d.; commercial papers not exceeding 2 ozs., 3d., exceeding 2 ozs., but not exceeding 4 ozs., 3½d., exceeding 4 ozs., but not exceeding 6 ozs., 4d., exceeding 6 ozs., but not exceeding 8 ozs., 4½d., exceeding 8 ozs., but not exceeding 10 ozs., 5d., exceeding 10 ozs., but not exceeding 12 ozs., 6d.; each additional 2 ozs. (up to 5 lbs.), 1d.; sample packets up to 12 ozs., every two ozs. or under, 1d. The Inland book rate is 1d. for every four ounces up to 4 lbs.; magazines, reviews, serials, and all other publications published at intervals of not exceeding three months, and which do not come within the definition of newspapers, not exceeding 8 ozs. 1d.; each additional 4 ozs. or under (up to 4 lbs.), ½d.; packets of merchandise, &c., 1d. for every 2 ozs. (up to 1 lb.).

In 1899 there were 692 post-offices, 1,743 employés—including non-official postmasters—(in the Post and Telegraph departments, which are combined), and 15,198 miles of mail route, and the mileage travelled was 3,496,344. There were carried 19,765,396 letters; packets, 1,531,400 and 8,937,040 newspapers. The revenue of the department amounted to £134,709, inclusive of £5,620 from money-orders.

PUBLISHED WITH THE AUSTRALIAN HANDBOOK. 1901.

Money-orders are issued on all the leading townships. The commission rates are:—Inland, £5 and under, 6d.; £10 and under, 1s.; £15 and under, 1s. 6d.; £20 and under, 2s. Intercolonial, £2 and under, 6d.; £5 and under, 1s.; £7 and under, 1s. 6d.; £10 and under, 2s.; £12 and under, 2s. 6d.; £15 and under, 3s.; £17 and under, 3s. 6d.; £20 and under, 4s. Canada, Germany, Hong Kong, India, Mauritius, and United States, 6d. for each pound or fraction of a pound, limit of amount, £20. Great Britain and other countries, 6d. for each pound or fraction of a pound; limit of amount, £10. Money-order advices can be sent by telegraph upon payment of the cost of transmission. In 1899 there were 193 money-order offices. The number of orders issued during 1899 was 87,256, representing money to the value of £246,475, and of orders paid 79,853, value £277,110. Number of postal notes paid, 273,061; value, £90,400.

Parcels Post.—Parcels may be forwarded through the post under the following regulations:—Inland (not exceeding 11 lbs.), for first 2 lbs., 9d.; for each additional lb., 3d.; intercolonial (not exceeding 11 lbs.), for first 1b., 8d.; for each additional lb., 6d.; United Kingdom (not exceeding 11 lbs.), for first 1 lb., 1s. 0d.; for each additional lb., 6d. Limit of size 3ft. 6in. in length, or 6ft. in length and girth combined.

Standard Zone Time.—On the 1st February, 1895, a standard zone time was adopted for the Australian Colonies. The mean time of the 150th meridian E long., has been adopted as the standard time for Victoria, N.S.W., Queensland and Tasmania; of the 135th meridian (one hour behind the 150th meridian) for S.A.; of the 120th meridian (two hours behind the 150th meridian) for W.A. London time is 10 hours behind that of the 150th meridian. An Act came into force on May 1st, 1899, reducing the difference of time between S. A. and Victoria by half-an-hour—that is to say the time of S. A. was altered to the 142½ meridian, or 9½ hours E. of Greenwich.

Charitable Institutions.—Among these are the various hospitals throughout the colony, namely, Adelaide, Burra, Mount Gambier, Kapunda, Jamestown, Port Augusta, Port Lincoln, St. Pirie, Blinman, and Wallaroo; also casualty hospitals at Port Adelaide and Clare, and Children's Hospital at North Adelaide. There are also Lunatic Asylums at Adelaide and Parkside, and an Asylum for the Destitute Poor at North Terrace, Adelaide; a Blind, Deaf, and Dumb Asylum at Brighton, a Convalescent Hospital at the Semaphore, an Inebriates' Retreat at Belair, a Boys' Reformatory at Magill, Girls' Reformatories at Redruth and Kapunda, a Female Refuge at Norwood, Church of England and Catholic Orphanages in the City, a Home for Incurables at Fullarton and a Sailors' Home is in operation at Port Adelaide. In the Destitute Asylum and through its country boards for the year ending June 30th, 1900, the number of destitute persons who received relief by ration was 4,104. There are numerous other agencies of a private character, also benefit and other societies for the relief of the sick, poor, and destitute.

At the Lunatic Asylums on January 1st, 1900, there were 983 patients under treatment. During the year there were 252 admissions; 122 patients were cured; and 91 died. The proportion of insane persons to the estimated population was 2·62 per 1,000; males, 2·86; females, 2·35. In England the total is 3·31 per 1,000. The total expenditure for 1899 was £22,457.

Adelaide Hospital for the year ended December 31st, 1899—Number of cases admitted, 3,493; number of deaths of in-patients, 257; average number of days' patients discharged during the year that have been in hospital, 25; annual cost of each in-patient,* £69 7s. 6½d.; number of attendances of out-patients treated, 18,117; total annual expenditure, £18,201; contributions received, including 10 per cent. of all life contributions, £1,266 9s. 9d.; annual amount of fees received for maintenance of patients, £513 18s. 8d.; fees received towards maintenance (based on total average of patients, and not deducted in calculating annual cost) of each patient, £2 2s. 1½d.

The State Children's Department had control of 1,248 children during 1899; 232 in institution and 1,016 placed out, &c. Total revenue from all sources, £1,362; total expediture, £16,740.

Friendly Societies and Trades Unions.—In 1896 (no later statistics available, the quinquennial report will be ready some time this year, 1901) there were fifteen Friendly Societies, having 487 lodges with 42,703 members, possessing an accumulated capital of £475,654, or £11 2s. 9d. per member. These members guarantee the State from a liability for expense on certain contingencies of no fewer than 160,000 souls by providing for their members, their wives and children in sickness and in death.

In 1900 there were forty-two Trades Unions.

Railways.—The first line constructed in the colony was one for horse traction between Goolwa and Port Elliot, 6½ miles, in May, 1854. The first locomotive line was the Adelaide City and Port Railway, the distance being 7½ miles. It was opened for traffic on April 21, 1856, and extended to the Semaphore, another 1¾ miles, in January, 1878, now called the Port line. The north line was opened as far as Smithfield, 18 miles, in June, 1857, and extended to Gawler in October of the same year; to Kapunda in August, 1860; from Roseworthy to Tarlee in July, 1869; to the Burra in August, 1870; to Hallett in May, 1878; and to Terowie, 140 miles from Adelaide, in December, 1880. This is the terminus of the broad gauge, but the main line was extended as narrow gauge to Petersburg in May, 1881. Here a branch line extends west to Port Pirie, 73¼ miles distant, and another branch line east to the New South Wales border, distant 145 miles. The main line north was extended from Petersburg to Orroroo in November, 1881, and to Quorn, 235 miles from Adelaide, in May, 1882. Here the Great Northern Line is intersected; the 25 miles south-west of Quorn were opened for traffic in December, 1879, and 41 miles north-east to Hawker in June, 1880. The extension to Beltana was effected in July, 1881, to Government Gums (Farina) in May, 1882, to Hergott Springs, in February, 1884, and to William Creek, 566¼ miles from Adelaide, on June 1, 1889; on November 1, 1889, to Warrina, 67¼ miles, and to Oodnadatta on the 7th January, 1891, 54½ miles. From Kapunda on the main line an extension of 56¾ miles was made to Morgan on the River Murray in September, 1878.

On January 1, 1870, the line from Port Wakefield to Hoyleton, 28 miles, was opened for traffic, and extended to Blyth another 14 miles in March, 1876, and from Blyth to Gladstone on July 2nd, 1894, thus connecting the narrow-gauge systems. In March, 1878, the horse-power lines between Kadina, Wallaroo, and Moonta, 20 miles of main line (with extensive sidings to the mines), were purchased by the Government from a company, and Adelaide was connected with these lines by a line from Hamley Bridge (on the north line) to Balaklava, 22 miles, in January, 1880, and from Port Wakefield to Kadina, 34¾ miles, in October, 1878. The line was extended from Kadina to Snowtown, 33 miles, in October, 1879.

The main Southern or Intercolonial line was opened from Adelaide to Aldgate, 21¾ miles, through the Mount Lofty ranges on March 14, 1883, extended to Nairne, 13¼ miles, in November, 1883, and to Bordertown, 148 miles, on May 1, 1886 the 12 miles from Bordertown to Serviceton (the border station) had been previously opened for local requirements. The branch line from Mount Barker Junction to Strathalbyn, 19½ miles, was opened in September, 1884, thus connecting with the older lines from Strathalbyn to Goolwa and Victor Harbour, a portion of which was the first in the colony. A branch line from Sandergrove to Milang, 8½ miles, was opened in December, 1884.

The South-Eastern lines, comprising those from Kingston to Wolseley (near the border), from Beachport to Mount Gambier, and the junction line from Mount Gambier to Narracoorte, 64¼ miles, were first opened in July, 1876; from Kingston to Narracoorte, 52½ miles, extended to Bordertown, another 57½ miles, in July, 1883; and a branch from Wolseley to the Victorian border, 3¼ miles, in January, 1885. The line from Rivoli Bay (Beachport) to Mount Gambier, 51¼ miles, was opened in May, 1879, and the Junction line in June, 1887.

A line of 10 miles, from Port Broughton to Barunga Range, was opened in March, 1876.

On the 14th June, 1887, a line from Petersburg to Cockburn, New South Wales Border, 144¾ miles, was opened for traffic. An extension from this to the Broken Hill Mine, Broken Hill, distance 36 miles, made by the Silverton Tram Company, was opened on January 12th, 1888.

The Port, north and southern lines, are on the broad gauge (5 ft. 3 in.), with 61 lbs. and 80 lbs. steel rails; the other lines are on the narrow gauge (3 ft. 6 in.), with a lighter rail of 40 lbs.

On June 30, 1900, there were: Miles opened, 1,730¼; cost of construction and additional requirements, miles open and completed, £13,014,428; cost per mile, £7,527. The working result for 1899–1900 was—Revenue: Passenger traffic, £259,394; mails, parcels, &c., £78,329; minerals, £340,311; grain, £41,398; wool, £23,910; other goods, £329,114; live stock, £62,998; miscellaneous, £31,033; total, £1,166,987. Working expenses, £657,841; net revenue, £509,146; passengers carried, 7,416,506; merchandise traffic, 1,485,976 tons; number of locomotives, 347; number of coaching vehicles, 407; number of goods and live stock vehicles, 6,154; number of persons employed, 3,779.

The interest on Bonded Debt charged to General Revenue is £9,542,853.

In the Northern Territory the Palmerston and Pine Creek Line, 145½ miles, was opened October 1, 1889. The cost (including jetty) was £1,155,684. The revenue for the year ended June 30, 1900, amounted to £14,799; working expenses, £24,340; showing a loss of £9,541, occasioned by portion of the cost of rebuilding the jetty.

On December 9, 1887, an Act to make better provision for the construction, maintenance, and management of Government railways, and for other purposes, was passed. This Act provided for the appointment of three Commissioners, into whose hands the management and control of Government railways passed. The first Commissioners under the Act, which came into operation on June 1st, 1888, were Messrs. J. H. Smith (Chairman), J. Hill, and A. S. Neill. These retired on May 31, 1895, and Mr. Alan G. Pendleton was appointed sole Railways Commissioner on June 1, 1895.

The Railways are as follows: The PORT LINE, extending from Adelaide to Semaphore, a distance of 9¼ miles, with the following stations: Adelaide, Bowden, Croydon, Kilkenny, Woodville, Cheltenham, Alberton, Port Adelaide, Glanville, Exeter, and Semaphore; branch lines run from Glanville to Larg's Bay, and from Woodville to Henley Beach; trains run at intervals, there being thirty-eight each way in the day: the time occupied in transit is 36 minutes.—The NORTH LINE, extending to Quorn, where it connects with the Great Northern line, with stations at North Adelaide, Ovingham, Islington, Dry Creek, Salisbury, Smithfield, Gawler, Roseworthy, Wasley's, Hamley Bridge, Stockport, Tarlee, Riverton, Saddleworth, Manoora, Mintaro, Farrell's Flat, Hanson, Burra, Mount Bryan, Hallett, Ulooloo, Yarcowie, Terowie; branch to Gumbowie, Petersburg, Black Rock, Orroroo, Walloway, Eurelia, Carrieton, Moockra, Hammond, Bruce, Kingswood, Quorn and Port Augusta; there are two through trains during the day to Terowie, the morning train going on to Port Augusta; to and from Gawler there are twelve

* The cost per head is arrived at by making allowance for attendance and medicines supplied to the out-patients and for medicine supplied to the Destitute Asylum, Lunatic Asylum, Gaol, &c. Total expenditure includes all these establishments.

trains in all. A branch line to North West Bend or Morgan, 74¾ miles: it leaves the main line at Roseworthy; the stations are Freeling, Fords, Kapunda, Bagot's Well, Eudunda, Deep Creek, Sutherlands, Bower, Mount Mary, and Eba; there are three trains daily to Kapunda.—Broken Hill (N.S.W.) line branches at Petersburg, and has stations at Ucolta, Oodla Wirra, Nackara, Paratoo, Yunta, Winnininnie, Oulnina, Mannahill, Outalpa, Olary, McDonald's Hill, Cutana, Mingary, Cockburn in S.A.—A loop line from Port Adelaide to Dry Creek, 4¾ miles, with four trains a day. A line from Adelaide to Dry Creek, 6½ miles, with stations at North Adelaide, Ovingham, and Islington.—THE SOUTHERN LINE from Adelaide to Port Victor, 81 miles, with stations at Goodwood, Mitcham, Blackwood, Belair, Upper Sturt, Mount Lofty, Aldgate, Bridgewater, Ambleside, Balhannah, Mount Barker Junction, Littlehampton, Mount Barker, Bugle Ranges, Gemmells, Strathalbyn, Sandergrove, Finniss, Gilberts, Black Swamp, Currency Creek, Goolwa, Middleton, and Port Elliot. At Mount Barker Junction the line to connect with the Victorian Line branches off; it is open to Serviceton with stations at Nairne, Callington, Monarto, Murray Bridge, Tailem Bend, Cooke's Plains, Coonalpyn, Tintinara, Keith, Wirrega, Bordertown, and Wolseley. At Sandergrove is the branch line to Milang.—The Wolseley, Mount Gambier, line with stations at Custon, Frances, Binnum, Kybybolite, Hynam, Naracoorte, Glenray, Penola, and Kalangadoo—The Adelaide and Glenelg Line is 7 miles in length; trains run to and fro at intervals of about an hour. The intermediate stations between the terminal points are South Terrace, Goodwood, Plympton, and Miller's Corner. The Port Pirie and Terowie Line, 87¾ miles in length, with stations at Warnertown, Crystal Brook, Huddleston, Gladstone, Caltowie, Jamestown, Belalie North, Yongala, Petersburg, and Gumbowie; there are three trains each way daily. From Gladstone there is a branch to Laura.—The Port Wakefield and Blyth Line, 42 miles long, with stations at Saints, Balaklava, Halbury, Auburn Road Crossing, Hoyleton, and Kybunga; one train runs daily each way.—The Wallaroo and Kadina Tramway, with branch to Moonta.—The Kingston and Bordertown Railway, 109¾ miles in length, in the South-Eastern district of the colony, connecting Naracoorte and Bordertown with the seaboard, with stations at Reedy Creek, Avenue Range, Lucindale, Stewart's Range, Narracoorte, Hynam, Kybybolite, Binnum, Frances, Custon, and Wolseley. Naracoorte and Kingston line with station at Stewart's Range, Lucindale, Avenue Range, Bull Island, and Reedy Creek, one train Monday, Wednesday, and Friday.—The Mount Gambier and Beachport Railway, with stations at Burrungule, Tantanoola, Snuggery, Millicent, and Rendlesham, one train on Mondays, Wednesdays, and Fridays.—Narracoorte and Mount Gambier Railway, with stations at Glenroy, Penola, and Kalangadoo.—The Port Wakefield and Kadina Railway, 34½ miles, with stations at South Hummocks, Kulpara, Paskeville, and Green's Plains West, one train daily. A branch line from Hamley Bridge (on the North Line) giving through railway communication between Adelaide and Port Wakefield, Kadina, Wallaroo, and Moonta. The GREAT NORTHERN LINE from Port Augusta to Oodnadatta with stations at Stirling, Saltia, Woolshed Flat, Quorn, Willochra, Gordon, Wilson, Hawker, Hookina, MernMerna, Ediowie, Meadows, Parachilna, Blackfellows Creek, Beltana, Leigh Creek, Lyndhurst, Farina, Wirrawilla, Mundowdna, Hergott Springs, Callana, Wangianna, Bopeechee, Stuart's Creek, Coward Springs, Beresford, Strangway's Springs, Irrappatana, William Creek, Anna Creek, Boorthanna, Edwards Creek, Warrina, Algebuckina, and Mount Dutton. A tramway from Moonta mines to Moonta Bay, 3½ miles. A Line from Kadina to Brinkworth, 36¼ miles, with stations at Willamulka, Mona, Bute, Barunga Gap, Snowtown, and Condowie. A tramway from Port Broughton to Mundoora, 9¾ miles. One train daily.

In December, 1899, the Government took over the property of the Glenelg Railway Company.

Tramways.—North Adelaide, Hindmarsh, Kent Town, Kensington, Norwood, Goodwood, Parkside, Glen Osmond, Mitcham, Marryatville, Burnside, Walkerville, Payneham, Paradise, Henley Beach, Enfield, Prospect, Thebarton, Fulham, and Hyde Park, are now connected with the city by tramways.

Shipping.—The shipping returns for 1899 were: inward entries, 1,020 vessels of 1,708,556 tons, 58,740 crews. The outward entries were 1,025 vessels of 1,720,810 tons, 58,753 crews. The total shipping belonging to the Colony is 335 vessels of 50,866 tons. Of these 108 were steamers, of 28,445 tonnage; 227 were sailers of 22,421 tonnage. During the proper season steamers of very light draught navigate the rivers Murray, Murrumbidgee, and Darling. Three regular lines of steamers run between Adelaide and Melbourne. The steamers of the Orient, P. and O., Messageries, Norddeutscher Lloyd, Deutsche-Australische Dampfschiffs Gesellschaft, and Lund's Line call at Adelaide.

Intercommunication.—At the beginning of 1899 there were over 5,000 miles macadamised, and nearly 2,750 miles defined roads. Omnibuses and cars and tramcars ply to most of the localities suburban to Adelaide and the other large towns. Coaches connect with the railway system at several points. On December 31st, 1887, the Road Boards were abolished, and the roads placed under the control of the Corporation and District Councils.

Land and Income Tax. Total receipts for 1899, £162,411; being land, £78,228; income, £84,183. For financial year ended June 30, 1900; receipts for Land Tax, £78,115; from Income Tax, £93,820, or a total of £171,935.

Stamp Duties.—For financial year ended June 30, 1900, £29,389; total receipts for 1899, £29,101.

Imports and Exports.—For the year ended December 31, 1899, the total imports amounted to £6,884,358; the exports amounted to £8,388,396; the excess of exports over imports being £1,504,038. This is the second time in ten years that the imports have exceeded the exports. The staple exports of the colony during the year 1899 amounted to £3,945,045. Flour, 50,071 tons, £338,820; bran and pollard, 6,150 tons, £22,492; wheat, 3,114,781 bushels, £422,439; barley, 3,905 bushels, £678; oats, 8,920 bushels, £853; hay and chaff, 10,695 tons, £25,833; Agricultural implements, £38,157; gold, 3,893 ozs., £15,582; copper, 5,495 tons, £406,208; copper ore, 2,893 tons, £24,682; spelter, 19 tons, £352. The exports of wine were 496,510 gallons, value £77,773; butter, 1,402,261 lbs., value £61,470; jams, 652,037 lbs., value £10,063; wool, 37,386,313 lbs., value £1,511,693; bark, 8,953 tons, value £69,985; beer, 14,899 gallons, value £1,209; biscuits, 31,649 lbs., value £652; eggs, £62,493; fruit (fresh), £32,842; leather, £56,084; live stock, £94,095; meat preserved, 1,243,469 lbs., value £18,212, in pickle, value £370; frozen mutton and lambs, 2,586,726 lbs., £36,289; skins and hides, £245,251; tallow, 623 tons, value £11,337. Of the imports there were from the United Kingdom. £2,040,430; from other British possessions, £217,055; from foreign States, £787,543; and from Australian Colonies, £3,839,330. The total net revenue from Customs was £608,513 (in 1898 it was £587,357).

Revenue and Expenditure.—For the year ended June 30, 1900, and June 30, 1899, the latter being shown in parentheses, the revenue amounted to (£2,665,477) £2,780,858, and the expenditure to (£2,632,840) £2,779,317, showing a surplus of £1,541 in 1900 and £32,637 in 1899. Revenue per head of population, £7 12s. 11d.; expenditure per head, £7 12s. 10d. Of the revenue (£907,504) £864,802 was raised by taxation; (£1,055,093) £1,169,508 from railways and tramways; (£34,030) £34,674 from land sales; total territorial revenue, (£164,376) £143,495; (£253,847) £271,011 from post and telegraph services; and (£92,755) £96,469 from waterworks. Of the expenditure, (£15,400) £15,400 was for the Civil List; (£13,196) £13,585 payment of members; (£10,372) £10,355 Australasian defence force; (£26,983) £26,574 grants-in-aid to Corporations; (£937,377) £957,393 for public debt.

The estimated revenue for 1900-1901 is £2,874,883 (including Crown balance at June 30, 1900, £5,506); expenditure, £2,867,857, an estimated credit balance at June 30, 1901, of £7,026.

Public Debt.—On July 1, 1900, the particulars of the public debt, including the Northern Territory, were as follows:—Bonds in circulation bearing interest at 6 per cent., £666,200; ditto, at 5 per cent., £290,000; bonds and stock at 4 per cent., £16,362,400; ditto, at 3½ per cent., £3,363,000; ditto at 3 per cent., £3,991,210; total, £26,156,180, annual interest, £990,310. Public debt of South Australia proper, £24,492,250; of Northern Territory, £1,663,930. Amount of debt per head of mean population 1899-1900 £67 6s. 11d. (including North Territory, £70 19s. 1d.)

The total loans raised have been, and are to be, applied as follows:

Railways and tramways, £12,913,424; waterworks and water conservation, £4,508,357; harbour improvements, £1,114,631; telegraphs and post offices, £1,003,236; sewers, £636,425; drainage, &c., £273,750; construction of roads and bridges, £1,492,88; defences and Military-road, £254,815; school buildings, £501,661; other works, £630,169; jetties and lighthouses, £169,518; Northern Territory £1,806,470; improvements on pastoral leases, under Crown Lands Acts, £1,116,500; Land Repurchase, £205,208; redemption public securities, £4,332,305.

The Treasurer (Hon. F. W. Holder, M.P.), in delivering his Budget Speech on August 23, 1900, said the last year had yielded £115,000 revenue in excess of the previous year. The expenditure, including £25,000 for the war contingents, to 30th June exceeded that of the previous year by £146,000. The credit balance at the end of the year was £5,506. The chief increases in revenue were from customs, post and telegraph and railways. The revenue had fallen short in succession duties and inland rents. The concessions in land rents made during the last four years amounted to £22,000 a year. A loan had been floated during the year of £1,000,000 in London, at a little over 90 per cent. net, and £500,000 in Adelaide at about 95 per cent. net. Money enough was in hand in London to meet all payments due up to 1st April next. A further loan bill would be brought in this session for railways, waterworks and so on. For the coming year, after allowing for the £20,000 which the federal authority would retain, the revenue was estimated at £2,869,377. The expenditure totalled £2,867,857.

Banking.—The bankers of the South Australian Government are Bank of Australasia, Union Bank of Australia, Bank of Adelaide, Bank of New South Wales, and Commercial Bank of Australia. The total average liabilities of the eight Banking Corporations carrying on business in the Colony in June, 1900, were £6,763,226, the total average assets being £6,464,415. The average note circulation was £399,264. The dividend declared the previous year averaged from 2 per cent., the lowest, to 9 per cent., the highest (Bank of New South Wales). Deposits were £5,964,006, including £80,152 Government deposits not bearing interest. The rate of discount varies from about 6 per cent. on short bills to 10 per cent. on bills of upwards of four months. The assets include: Coined gold, silver, and other metals, £1,662,026; landed property and bank premises, £474,285. The rate of interest to depositors for 12 months was from 2½ to 3 per cent.

The Savings Bank of South Australia, which is managed by a board of Trustees appointed by the Governor, having 135 agencies in the principal townships, had, on June 30, 1900, 106,122 depositors; amount deposited during year, £1,832,368 16s. 1d.;

the withdrawals for the year, £1,696,373 18s. 3d.; the total amount of depositors' balances being £3,489,082 19s. 5d.; the average amount at the credit of each depositor was £32 17s. 6d. Rate of interest allowed during the year was 3 per cent. Interest is not allowed on sums in excess of £250. Total funds at close of year £3,631,536 12s. 10d.; reserve fund, £108,000; amount lent on mortgage, £1,314,046 1s. 10d. Interest charged on loans 4 per cent. The proportion of depositors to the population (369,439) was one in 3·09, or about 32 in every 100 persons.

State Bank.—By an Act of Parliament, No. 633, assented to December 20th, 1895, and amended November 12th, 1896, the State Bank of South Australia was established for the purpose of making state advances (1) to farmers and other producers, and in aid of industries upon the security of lands in fee-simple or under Crown lease; (2) to local authorities upon the security of their rates, and by the Amending Act, 1896, advances were made available to all persons possessed of the necessary securities. This advance must not exceed 3/5 of the unimproved value of the fee-simple of the land and improvements, and if the land acquires additional value by cultivation as a vineyard or orchard, then plus one-third of such value; no advance to any one person is to exceed £5,000, and the rate of interest is not to exceed 5 per cent. per annum; repayments may be made in cash or mortgage bonds, such bonds being received at their face value and forthwith cancelled. The total amount of mortgage bonds current at any time must not exceed the total amount due to the Bank for State advances, £3,000,000. The Bank is managed by a Board consisting of five trustees appointed by the Governor, such trustees not being removable, except by petition from both Houses of Parliament; each trustee receives two guineas for each Board Meeting he attends, and the Inspector-General of the Bank receives a salary not exceeding £1,000 per annum. At the present time the State Bank of South Australia is prepared to lend money at 4½ per cent. per annum, repayable by equal half-yearly instalments, carrying principal and interest extending over periods from one to forty-two years, the entire cost to the borrower being the fees for registration.

For the year ended March 31st, 1900, the State Bank had advanced £529,881 secured by mortgage, and had repurchased mortgage bonds to the value of £77,000; board fees, salaries and contingent expenses amounted to £3,700 12s. 5d., and the actual treasury balance and cash in hand amounted to £6,035 19s. 4d.

Liens and Mortgages, &c.—In January, 1900, there were 108 preferable liens on wool, the amount being £78,472; sheep, 423,765. Bills of sale numbered 1,504, and the amount £236,912. Amount lent under the Real Property Act, £1,699,237; discharged, £1,308,397.

Manufactories.—On January 1, 1900, the number of manufactories in the Colony was 820. They employed 14,997 hands—12,770 males and 2,227 females. The largest number was that of clothing and tailoring, of which there were 79 factories; iron and brass foundries 31, giving employment to 2,696 men; agricultural implements, &c., 18; breweries, 27; chaff-cutting, 35; sawmills, 22; brick-making, 33; tanneries, 13; printing, 36; coach-building, waggons and trollies, 39; boots and shoes, 27; aërated waters, 19; wine-making, 19; cabinet makers, 39; butter and cheese, 3; candles and soaps, 9; saddlery and harness, 24; and various other factories all in active operation. There are also 60 steam flour-mills in the colony, having in the aggregate 1,974 horse-power, and employing 422 hands.

The Factories Act came into operation on 1st February, 1895.

Patents, &c.—The fees to be paid for filing a petition are: provisional protection, £1, and complete, £2; on every patent before the expiration of three years from its date, £2 10s. 0d.; before the expiration of seven years, £2 10s.; on lodging objections, 10s. 6d.; hearing objections, office copy (per folio of 72 words), 6d.; every search, 2s. 6d. The fee for registering a design for each year is 10s.; registering a book, 2s. 6d.; registering paintings, 5s.; engravings, 1s.

TRADE MARKS.—Fee on application to register each trademark, 5s.; registration thereof, £1; for continuation after fourteen years, £1; search fee, 1s.

Lighthouses.—On Cape Borda, Kangaroo Island, a revolving light—a white and red flash alternating every minute, visible, white, 30 miles, red, 15 miles. On Cape Willoughby, same island (SE. point), a revolving white light, flashing every one and a half minutes, visible 24 miles. On Troubridge Island, St. Vincent's Gulf, intermittent bright light, visible 15 miles. On Troubridge Lighthouse, St. Vincent Gulf, red, fixed light, visible 5 miles. Port Adelaide, on south side of outer bar, a revolving white light, flashing every half minute, visible 16 miles, with two leading lights. At Glenelg jetty a fixed red light, visible 8 miles. On Cape Northumberland a revolving light of the first order, white, flashing every sixty seconds, visible 20 miles. On Cape Jaffa, a white light revolving every thirty seconds, visible 18 miles. At Cape Jervis, a fixed white light, visible 10 miles. At the Quarantine station jetty, Port Adelaide, a fixed red light. At Pengui Island, on the north end of Rivoli Bay, a revolving white light of the third order, flashing every ten seconds, visible 12 miles. At the Althorpes, in Investigator's Straits, a revolving white light with red sector, of the first order, flashing every fifteen seconds, visible (white) 25 miles, (red) 17 miles. A bright (white) revolving light, eclipsed every 30 seconds, is shown from the iron pile lighthouse on the Tipara Reef, Spencer's Gulf, visible 20 miles. On Lowly Point, Spencer's Gulf, a third order revolving white light, flashing every ten seconds, visible 10 miles. At Carpenter Rocks, Cape Banks, a second order revolving light showing alternately one red and two bright lights at intervals of 20 seconds, visible, red 8, white 10 miles. A fixed bright light of the third order on Corny Point, Spencer's Gulf, visible 14 miles. A bright fixed light from the sea end of the new jetty at Kingston, visible 10 miles. A fixed white light, with red sector showing over Cockle's Spit at sea end of Port Germein jetty, moored in midchannel leading to Germein Bay anchorage, visible 10 miles. Port Wakefield on Wharf is a fixed white light, visible 6 miles. Port Victor, east end of Granite Island, white fixed, visible 10 miles. Point Charles, entrance to Port Darwin, green, red, and white light revolving every 30 seconds visible 18 miles. Point Malcolm, fixed white light visible 10 miles. At the Semaphore jetty is a fixed green light visible 4 miles; Moonta bay jetty, fixed red light visible 4 miles; Milang jetty, fixed white light visible 5 miles; Edithburgh jetty, fixed white light visible 5 miles; Rivoli Bay (Beachport) jetty, fixed red light visible 5 miles; Port Victoria jetty, fixed white light visible 4 miles; Wallaroo jetty, fixed red light visible 4 miles; Ardrossan jetty, fixed white light visible 5 miles; Kingscote jetty (Kangaroo Island), fixed white light visible 8 miles. At Port Caroline, Kingston, fixed white light. There are 13 light beacons in the Port Adelaide stream and 10 in the channel at Port Pirie. The expenses of management and stores of all lighthouses for year ended 1899 was £7,873 2s. 10d.; light dues received, £24,854 7s. 7d.

Military Forces and Defences.—The local military forces comprise: First, a small permanent Force; Second, the Active Force (which, as an organization, dates back as far as 1854, when under the Militia Act, the Government had power to call out a force of 2,000 men, between the ages of 16 and 46); and Third, the Reserve Force which grew out of the South Australian Rifle Association, a very old institution whose influence brought about the Defence Movement of 1887. A Volunteer Act was passed in 1865-6 authorizing the calling out of a body of men not fewer than 540, and not more than 1,000, the men to be paid at the rate of 5s. per day when out. In 1867 there was an amendment of the Act, and the artillery had higher pay. A cavalry troop was also provided for, the troopers, as now, finding their own horses. The Russian war scare of 1877 created a great amount of loyal feeling in the Colony, and revived the enthusiasm of the entire community to such an extent as to greatly benefit the Volunteer movement. Defence meetings were held all over the country, and this outburst of warlike feeling was repeated in the early part of 1885, when a second and more formidable Russian war scare aroused the military ardour of the people. The first Volunteer Force was armed with the Enfield rifle, which was superseded by the Martini-Henry, the weapon with which the men are now provided. In 1877 Imperial officers with a small staff of drill instructors were obtained from England to organize a body of 1,008 paid volunteers, raised under the Acts of 1865–6–7. These officers were in the first place Colonel Downes, R.A., Commandant, and Major Godwin (of the 103rd Regiment), as D.A.A. General. In 1884 Colonel Downes (now retired as Major-General) took the post of Secretary to the Defence Department of Victoria, and was succeeded by Brigadier-General Owen (Royal Artillery). Major-General Downes was offered and resumed the command upon General Owen's departure in March, 1888, but retired, and was succeeded by Colonel Gordon, late R.A. The post of D.A.A. General was filled by various officers, including Major Fergusson (Rifle Brigade), and Major Jervois, the son of the late Governor (Sir W. F. D. Jervois), and was for some time temporarily occupied by Major Gordon, the officer then commanding the Permanent Military force, then by Major Lovett (13th Somersetshire Light Infantry), afterwards by Major Stuart (S. A. Militia). In July, 1895, Major Stuart vacated the post, which is now held by Major J. C. Hawker, chief staff officer and O. C. Permanent Artillery. In 1881–2 Amended Acts were passed which allowed the force of paid volunteers to be raised to a maximum of 1,500 with reserves of unlimited numbers. In 1878 an Act was passed, amended in 1880, authorizing formation of a permanent military force of 4 officers and 130 men. This was not acted on till 1882, when a force of 1 officer and 20 men (artillery) was raised. In 1885 this force was increased to 2 officers and 50 men, garrison artillery.

In 1886 an amended Act was passed, by which the name of the Volunteer Force was changed to the Active Militia Force, and also provided for a re-engaged corps and a reserve militia, which can be raised by compulsion at any time in the military districts of the colony. The same Act dealt with the Rifle Volunteer Force, altering its name to the Volunteer Force, and giving power to organize mounted infantry companies and a reserve; it also provided for better reorganization generally. In 1890 a further Amendment Act was passed altering the name of the Volunteer Force to the "Volunteer Militia Reserve Force."

In December, 1895, the Bill prepared by Colonel Gordon became law, and "The Defences Act, 1895," was assented to. Under its provisions the forces are subdivided into three classes—first, officers and soldiers permanently employed; second, Active Force; third, Reserve Force. The forces are under the Army Act and Queen's Regulations in peace as well as in war time. They are to serve anywhere in Australia or Tasmania, and can be placed under the command of any officer in the other colonies. Ample opportunities for training are provided, as well as an annual encampment, and a full course of musketry instruction. Many other important principles are embodied in this Act, which it is expected will form the basis for similar legislation in the other colonies. The new force has been raised, and number at present, with military forces, rifle clubs and police, 170 officers, 3,900 non-commissioned officers and men, 1,050 horses, and 21 field guns. A very large Reserve is provided for by the formation of Defence Rifle Clubs under the Act. The military forces are armed with Martini-Metford, Martini-Enfield, and Martini-Henry rifles.

Colonel Gordon was reappointed Commandant under the new Act in January, 1896. He received leave of absence till September, 1899, to fulfil the duties of Inspector of Warlike Stores for the Colonies in London, at a salary of £800 per annum. Colonel Gordon returned to South Australia in November, 1899, but proceeded on active service as a special service officer to South Africa on January 26, 1900; the South Australian command being taken over again by Colonel Stuart. In connection with the war in South Africa, South Australia has furnished four contingents, numbering in all 31 officers and 550 men.

The land defences of Adelaide and its ports (Port Adelaide and Glenelg) consist of two forts, the Glanville and Largs. The first being armed with two 20-ton 10-inch R.M.L. guns and two 64-pounder R.M.L. guns. The latter being armed with two 12-ton 9-inch R.M.L. guns and two 6-inch B.L. guns on hydro-pneumatic carriages.

For sea defences the gunboat *Protector* is provided, commanded by Captain W. R. Creswell, R.N., and is armed with one 8-inch and five 6-inch breech-loading guns, with Hodgkiss and Gatlings for boat service, &c., the small arms are Martini-Henri and the service Navy revolver. There is an auxiliary gun vessel of two Armstrong 6-in. B.L.; and ten torpedoes; the total naval force is 162 officers and men.

Fire Brigades.—There are 107 members, including auxiliaries, in the Brigades of the colony, with five steam fire-engines, one horse and coal van, nine horse-reels, nine hand-reels, three hose carts, one telescopic ladder, nineteen horses, 16,400 feet of hose, and 110 telephone fire-alarms. There were no serious conflagrations during 1899-1900, but there were 111 fires.

Police Force.—The earliest act of the first Legislative Council of this Colony was to pass an ordinance which authorised the formation of a Police Force. This measure was agreed to in the year 1839, and it was then that the force was put on a proper basis. In those early days the need for police supervision was of course extremely limited; but, as the Colony grew, the danger to the peace and welfare of the community by the incursions of the escapees and expirees from the penal settlements in New South Wales and Tasmania, as well as the internal criminal growth, led to the appointment of the late Mr. Henry Inman in April, 1838, as Inspector of Police, with a small staff of subordinates. The records of those days show that the police must have been kept fairly well employed. Towards the end of 1838 the title of this commanding officer was changed from that of Inspector to Commissioner of Police, and within the following fifteen years the office was held by no less than six gentlemen. Mr. Inman was succeeded in 1840 by Major O'Halloran, who was followed in his turn by the Hon. B. T. Finniss in 1843 (the latter gentleman also acting as Police Magistrate). In 1850 the position was conferred on the late Mr. G. F. Dashwood. Two years later came Mr. Alexander Tolmer; and on his resignation in 1853 the office passed on to Major Warburton, C.M.G. The succeeding changes each took place at intervals of about fourteen years. The late Mr. George Hamilton's appointment as Commissioner dated from 1867, and Superintendent Peterswald's from 1882. Mr. Peterswald died in August, 1896, and was succeeded by Colonel L. G. Madley on September 9th, 1896. The force was conducted under the Act 1839 for several years, but from to time amending measures were passed, until, in the session of 1869-70, Parliament agreed to a consolidating Act, under which the police have been worked ever since. The present police force, which is most efficient, is divided into two portions, viz., the mounted, and the foot police (the whole being under the control of the Commissioner of Police), made up as follows:—Mounted police, 2 inspectors, 2 sub-inspectors, 6 sergeants, 9 corporals, 1 saddler, 136 constables, 18 native police, 1 camel, and 299 horses. In the foot police there are 1 inspector, 1 sub-inspector, 1 sub-inspector of detectives, 8 sergeants, 7 corporals, 9 detectives, 170 constables, and 2 female searchers. The total force, exclusive of the Northern Territory, of the colony is 3 inspectors, 4 sub-inspectors, 14 sergeants, 16 corporals, 1 saddler, 303 constables, 2 female searchers, 18 native police, 1 camel, and 299 horses. In the Northern Territory, 1 inspector, 1 sergeant, 1 senior constable, 14 constables, 25 native police, and 75 horses.

Administration of Justice.—The legal tribunals of the Colony consist of a Supreme Court, presided over by the Chief Justice and two Puisne judges; the Court of Vice-Admiralty, presided over by the Chief Justice or either of the Puisne Judges; the Court of Insolvency, presided over by a Commissioner; Local courts of Civil Jurisdiction (of which there are 79: 75 in South Australia proper, and 4 in the Northern Territory), presided over by stipendiary magistrates, and police magistrates' courts. All cases in the Local Court of Adelaide for an amount exceeding £100 are tried before a judge of the Supreme Court.

Law, Crime, &c.—In the Insolvency Court during 1899 there were:—141 assignments under the Insolvency Act; and 32 adjudications, issued as follows:—On petition of creditors, 5; on petition of imprisoned debtors, 20 (10 in *formâ pauperis*); petition of debtors at large, 7; amount of liabilities shown in schedules, £13,068 12s. 8d.; assets, £10,084 11s. 6d. Amount of deficiency shown, £2,984. There were 11,503 local court summonses issued: total amount of claims was £100,649; total amount of judgments, £8,473. There were 95 convictions for felonies and misdemeanours in the Supreme Court, and at Circuit Courts. Circuit Courts are held twice a year at Mount Gambier and Narracoorte, and three times a year at Gladstone and Port Augusta.

There were no criminals executed during 1899; 113 prisoners were tried in Supreme Court, 76 convicted and 37 discharged. There were 139 male prisoners in the Yatala Labour Prison in January, 1900. There were 131 death inquests and 19 fire inquests held in 1899.

Constitution.—The Executive is vested in a Governor appointed by the Home Government, and a Council, comprising the Ministry and specially appointed Members. The Parliament consists of a Legislative Council and a House of Assembly. The former, by the Constitution Amendment Act, 1882, consists of twenty-four members, elected by four electoral districts as follows:—No. 1 District—Central. No. 2 District—Southern. No. 3 District—North-Eastern. No. 4 District—Northern; each district returning six members. At the expiration of every third year, the two members who have sat for the longest period for each district retire, and their places are supplied by newly-elected members. The qualifications for a member of the Council are—being 30 years of age, a natural born or a naturalized subject, and a resident in the province for three years. The President of the Council is elected by the Members. The qualifications of an elector to the Legislative Council are that he or she must be twenty-one years of age, a natural born or a naturalized subject of Her Majesty, and have been on the electoral roll six months, besides having a freehold of £50 value, or a leasehold of £20 annual value, or occupying a dwelling-house of £25 annual value. The numberof electors on the roll of the Legislative Council is 48,194—38,348 males and 9,846 females. The House of Assembly consists of fifty-four members, elected for three years by twenty-seven districts, but liable to a dissolution by the Executive. One-third of the members being present constitutes a quorum. The sessions are annual. The number of electors on the roll of the House of Assembly is 151,124—82,946 males and 68,178 females. The sole qualification for an elector is that of having been on the electoral roll for six months, and of having arrived at twenty-one years of age, and a qualification for a member is the same. The Speaker of the House of Assembly is chosen by the members of a new House on its first meeting. Judges or ministers of religion and aliens are ineligible for election as members. The election of members to both Houses takes place by ballot.

WOMANHOOD SUFFRAGE.—On December 21, 1894, "An Act to Amend the Constitution" was passed, extending the franchise to women, who now possess and may exercise the right to vote for both sections of the Legislature, as men. The Act came into force on March, 21, 1895.

The Conciliation Act.—The regulations of this act are 112 in number, with 30 forms under Schedule A. They are divided under the following headings:—Interpretation, Duties of the Registrar, Registrar of Unions, Registration of Association, Withdrawing of Unions from Associations, Cancellation of Registration, Industrial Agreements, Local Boards of Conciliation, Electoral Roll, Elections, Meetings and Proceedings of Local Boards of Conciliation, the State Board, Reference of Industrial Disputes, Hearing and Settlement of Disputes, Awards, Reports on Industrial Disputes, and Form and Service of Documents.

Federation.—At a poll taken on June 4, 1898, 35,800 electors voted for the Federal Bill, and 17,320 against. In city constituencies 12,542 for, and 9,663 against; in county constituencies 23,258 for, and 7,657 against. At a poll taken on April 29, 1899, votes for the acceptance of the Amended Commonwealth Bill totalled 65,990; against 17,053. On August 3, 1899, Parliament agreed to the following Address being presented to the Queen:—"To the Queen's Most Excellent Majesty—We, your Majesty's dutiful and loyal subjects, members of the House, of Assembly of South Australia in Parliament assembled, approach your Majesty with assurances of our loyalty and sincere attachment to your Majesty's throne and person. We humbly pray your Majesty to be pleased to cause a measure to be submitted to the Imperial Parliament for passing into law the Federal Constitution for Australasia, which has been accepted by the colonies of New South Wales, Victoria, South Australia, and Tasmania." On June 14th, 1900, the Governor of the Colony was able to make the following announcement at the opening of Parliament: "At the request of the Secretary of State for the Colonies, early in the year delegates were appointed to proceed to England to explain the provisions of the Commonwealth Bill, as approved by the Australian people. The Right Honourable C. C. Kingston was chosen to represent this colony, and has with marked ability endeavoured to carry out the task entrusted to him. The delegates have sought to secure the passing of the Bill by the Imperial Parliament unaltered. Much more serious difficulties than had been anticipated have been experienced and much delay has occurred, but there is now every prospect of the early passing of the measure substantially as desired by the Australians." It is very satisfactory to know that the accomplishment of Federal Union is at hand, and that the whole of the colonies on the continent, as well as Tasmania, are likely to be included in the federation.

Local Self-Government.—By the Districts Councils Act No. 419 of 1887 a system of local self-government was extended to all the settled parts of the province. Omitting municipal corporations, of which there are 33 established under the Municipal Corporations Act No. 497 of 1890, there are 140 district councils, who have the control of the following matters within their respective districts—viz.: public health, roads, dog registration, rabbit and thistle extermination, pound keepers, unleased Crown lands, drainage, fire brigades, weights and measures, slaughter houses, sale of food, drugs and poisons, cemeteries, bush fires act, width of tyres, lights on vehicles, game acts, guns and firearms acts, lodging houses, fisheries, brands, ornamental grounds, and places of public amusement act.

The revenue of the councils consists of sales, rents, and profits of lands invested in them, fines and penalties under their act and under the acts enumerated above, fees under the acts mentioned, and general, special, and separate rates.

Grants are made by the Government to local bodies for maintenance of main roads, and the actual amount of ordinary rates collected is subsidised to the extent of 25 per cent.

The Act empowers the Council to levy a general rate of not less than 3d. and not more than 1s. 6d. in the pound on the assessed annual value of all property within the district, and, if necessary for the execution of any permanent work or undertaking, a special rate can be declared, provided that such rate, with the general rate, does not exceed 2s. 6d. in the pound.

A separate rate may be levied on request of the ratepayers for specific works in any portion of the district.

The object of the Act is that all local matters shall be under local management and control, and thus relieve the State of the care of things that can be better attended to by local authorities.

GOVERNMENT OF SOUTH AUSTRALIA.

Governor and Commander-in-Chief, His Excellency Hallam, Baron Tennyson, K.C.M.G., &c.
Private Secretary, Lord Richard Nevill. Aide-de-Camp, Captain Maurice.

14. Conveyances whether on sale or otherwise to the Crown and to any person on behalf of the Crown.
15. All bonds to the Crown.
16. Conveyance on sale of any share or shares in the stock, funds or capital of any corporation or society whatever.
17. Articles or indentures of apprenticeship.

SHIPPING CHARGES.

RATES OF PILOTAGE.—For vessels entering or leaving Port Adelaide under 100 tons, in or out, £2 10s. each way. For every ton register beyond 100, in or out 1½d. One quarter of above rates deducted when steam is employed. The pilotage in no case is to exceed £12.

TONNAGE DUES.—Sailing vessels loading or discharging at the wharves, Port Adelaide, 3d. per ton register; under 100 tons register and in the coasting trade, free; over 100 and under 200 tons, 15s. per trip; over 200 and under 250 tons, 20s per trip. Coasting steamers are charged at the following rates per trip:—Under 100 tons, 10s.; under 250 tons, 15s.; under 400 tons, 20s.; and 1d. per ton for every ton above 400 tons. Steamers trading beyond the Colonies, 1½d. per ton. The time allowed for discharging is—Vessels under 100 tons, six days; 100 to 300 tons, 10 days; 500 tons, 14 days; 500 to 1,000 tons, 17 days; above 1,000 tons, 21 days. Vessels exceeding the time allowed are charged 1s. per ton per day for the extra time.

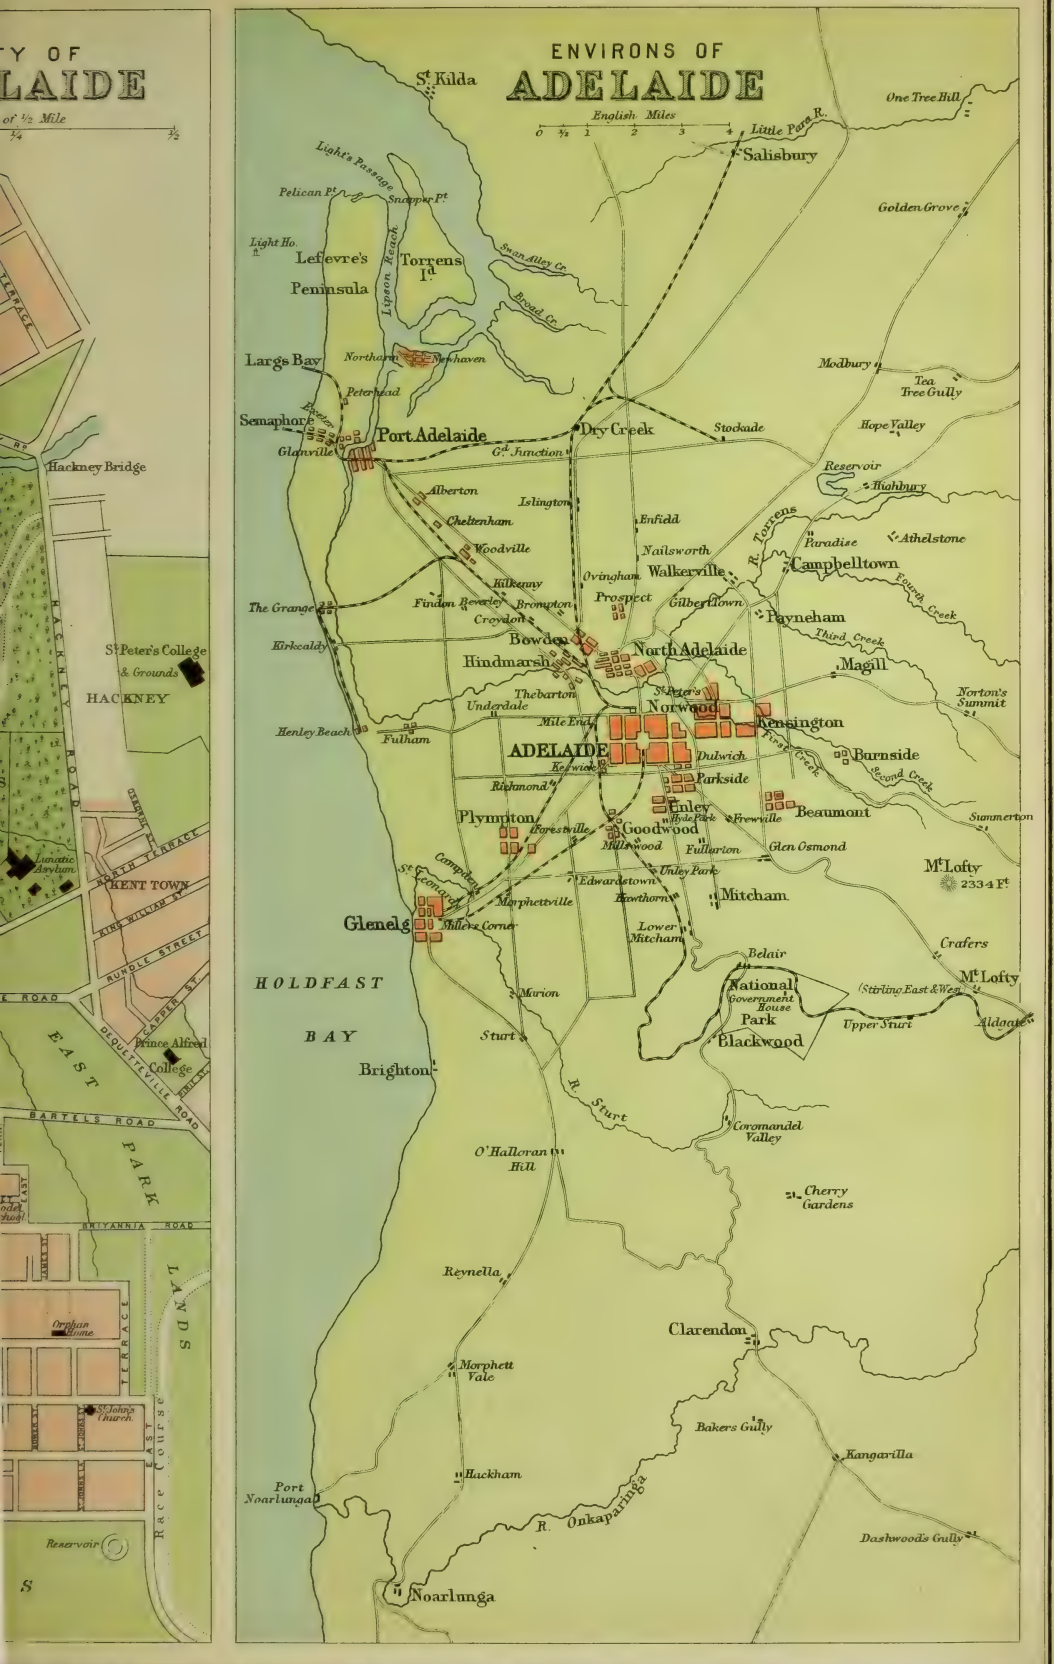
TOWAGE DUES.—Vessels, in or out only, not exceeding 200 tons, £5; every additional ton, 6d. Vessels in and out, not exceeding 200 tons, £5; every ton additional, 6d.

LIGHT DUES.—Light dues shall be paid on all ships according to the undermentioned scale, viz:—1. From or to any port beyond the Australasian colonies, 3d. per ton in and 3d. per ton out: Provided, however, that—(*a*) On any such ship calling for orders, and neither discharging nor loading any cargo, or landing or embarking any passengers, in this province; and (*b*) On any such ship *en route* to or from any Australasian colony, and discharging or loading a part of her cargo, or landing or embarking a portion of her passengers, in this province, shall be paid only 1½d. per ton in and 1½d. per ton out. 2. From or to any port in the Australasian colonies, 1½d. per ton in and 1½d. per ton out. 3. Any ship sailing or clearing for a port beyond the limits of the province, *viâ* Port Adelaide or an outport or outports, shall, in addition to the above, be charged coasting dues, at the rate of ½d. per ton. 4. On ships trading only within the province, the following coasting light dues shall be paid, viz.:—On each ship—under 30 tons, 10s.; from 30 tons to 50 tons, £1; from 51 tons to 70 tons, £1 10s., per quarter or part of a quarter in advance; 71 tons register or over, ½d. per ton in and ½d. per ton out for each voyage, or 6d. per ton per quarter in advance.

TOWNS IN SOUTH AUSTRALIA.

ABERDEEN. *See* REDRUTH.

ADELAIDE, lat. 34° 57′ S., long. 138° 38′ E., the capital of South Australia, and the seat of government, is an episcopal city, on the river Torrens, about 6 miles east from St. Vincent Gulf, Port Adelaide being the shipping port. The road to this port was the first made in the colony, but for many years the Government railway has taken the larger portion of the traffic. Steamers run regularly from the port to Melbourne, with which city a large trade is done, and the P. and O., Orient, M. M., and German, and other steamers can also be availed of. Numerous coasting steamers trade to other Australian ports. Adelaide is now in direct railway communication with Melbourne, Sydney and Brisbane, the journey to Melbourne occupying 18¾ hours. The mails, per the P. and O. and Orient Companies steamers, are landed at Largs Bay, and brought to Adelaide by railway. The telegraph service places the metropolis in communication, not only with most of the outlying districts of the province, but also with the eastern Australian colonies and with West Australia; Adelaide is the terminus of the direct line to London, *viâ* Port Darwin. The railway to Melbourne runs in a circuitous course through a picturesque range of hills, where a cool and refreshing climate is obtained in the summer, and a number of elegant mansions and villa residences have been erected at stations on this line, of which Blackwood, Mount Lofty, and Aldgate are the most populous. The Adelaide and Suburban Tramway Co.'s cars commenced running in June, 1878, between the city and the eastern suburbs of Kent Town, Kensington, and Norwood. Other tramways are 2 miles to North Adelaide, 2¾ miles to Walkerville; to Hindmarsh, 2 miles; to Mitcham, 4¾ miles, passing through Unley; to Parkside and Glen Osmond to Hyde Park; to Prospect and Enfield; to Goodwood; to Magill; to Payneham and Paradise; to Burnside; and to Henley Beach. The principal hotels are the York, the South Australian Hotel, the Globe, the Clarence, the Langham, the Prince Alfred, Napoleon, Gresham, the Crown and Sceptre, Terminus, United Service Club, Imperial, Southern Cross, Sturt Arcade, International, the Victoria, the Tavistock, and the Newmarket.



The city was founded in the year 1837 by Colonel Light, who named it at the special request of His Majesty King William the IV. after his consort, Queen Adelaide. Its progress, though not nearly so rapid as that of some other cities in Australia, has been steady and uniform. The discovery of gold in the neighbouring colony of Victoria, and the consequent exodus of a large proportion of the population, for a time retarded its growth; but with the abatement of the gold fever the city gradually resumed its former prosperous aspect, and has up to the present time, with some fluctuation, continued to progress and extend. Adelaide, as originally laid out, comprised 1,042 allotments of an acre each; it is built nearly in the form of a square, with its streets at right angles, many of them planted with trees, and consists of two portions, North and South Adelaide, the latter being the business portion of the city, and the former principally used for residential purposes. A strip of Park land about half a mile wide separates these two portions of the city, through the centre of which runs the river Torrens, which is crossed by five massive iron bridges. The last new iron bridge, the Thebarton, was opened in December, 1885, replacing a wooden bridge. The river was formerly a source of annoyance to the inhabitants and visitors, but has been converted by the construction of a dam, at the back of the gaol, into a magnificent sheet of water. It stretches all the way from the gaol up to the Hackney Bridge, a distance of about 2 miles. The banks have been greatly improved, and promenade walks formed, while near King William Road a splendid rotunda has been placed, where bands discourse good music at suitable times; on the opposite side of the road a fine parade ground has been formed for use by the military forces. The total area of the city is 1,042 acres, exclusive of the streets and park lands, which latter have an area of 2,300 acres. It is pleasantly situated on a large plain; the Mount Lofty range of mountains, at from 4 to 8 miles distance, walling it in on the eastern and southern sides.

The boundaries of South Adelaide are four terraces facing the cardinal points of the compass, and known as the North, South, East, and West terraces. In North Adelaide there are four reserves, named respectively, Wellington-square, Brougham-place, Palmer-place, and Roberts-place. Besides these reserves there are five squares in South Adelaide, named respectively, Victoria, Hindmarsh, Light, Whitmore, and Hurtle Squares. The city is under municipal government, which it adopted in 1840, before either of the other Australian colonies. It is divided into six wards, Hindmarsh, Gawler, Grey, Robe, Young, and Macdonnell, each returning two councillors, the mayor, and aldermen (of whom there are six) being elected by the whole body of ratepayers. The annual value of ratable property was, on December 31, 1899, £429,369; the street mileage is 94, and there are over 9,000 houses. King William Street is a fine broad thoroughfare, running north and south, two chains in width, and in it are located the principal edifices. Rundle and Hindley Streets are the chief business thoroughfares. They run from E. to W., are about a mile and a half long, and one chain wide. Rundle Street is traversed by the Norwood and Kensington and Burnside tramway; Hindley Street by the Hindmarsh and Henley Beach tramway; King William Street by the Hyde Park, North Adelaide and Prospect tramways; Pirie Street by the Parkside tramways: Waymouth Street by the Goodwood tramway; Flinders Street by the Unley and Mitcham tramway; and North Terrace by the Payneham and Paradise tramway.

The public buildings are numerous, and comprise Government House, the Town Hall, with a fine organ, and a lofty tower

(the Albert, 145 feet high), in which is a peal of eight bells; the Grand Hall is a fine apartment, 108 feet long by 67 feet broad and 44 feet high, with seats for 1,800 persons; the Post and Telegraph office, also towered, is a very fine structure of white freestone; the Victoria tower is 156 feet in height, and is furnished with a clock which chimes the quarters, and strikes the hours, the dials being illuminated at night; the Government offices, two fine ranges of stone buildings; the Supreme, Local, and Police Court-houses; on North Terrace the Houses of Legislature, in which is the Parliamentary Library of 24,000 vols.; an Institute, the foundation-stone was laid by the Governor, on Nov. 7, 1879, this building includes a public reference library and museum, the estimated cost of the whole structure being £95,000, opened by the Earl of Kintore on January 12, 1895; the Elder Conservatorium of Music and a new Art Gallery, both built with money bequeathed by the late Sir Thomas Elder; the Hospital, a large and commodious building in the Italian style, with ward accommodation for about 300 patients, including the new wing; the Adelaide Club; the W. C. T. U.; the Salvation Army Citadel and Maternity Homes; the City Baths; large and well laid-out Cattle, Sheep, and three Produce Markets; the Theatre Royal, Rickard's Tivoli (the old Bijou); the premises of the Union Bank of Australasia, an imposing structure built of cut stone, those of the Bank of Adelaide, of the National Bank, of the Bank of Australasia, as well as the English, Scottish, and Australian Bank, a new building in the Gothic style, the State Bank, of the Bank of New South Wales, and of the Commercial Bank of Australasia; and an unusually large number of churches, of which St. Peter's Cathedral, which was consecrated on January 1st, 1878, and St. Francis Xavier's Cathedral, are the most important. There are five other Episcopal churches (Holy Trinity, Christ Church, St. Luke's, St. Paul's, and St. John's), besides 2 Mission churches, St. Patrick's R. C. Church, and St. Lawrence's, five Wesleyan churches, three Congregational churches, the Stow Memorial, Hindmarsh Square and Brougham Place, three Presbyterian, St. Andrew's, Flinders Street, and Chalmer's, four Baptist, two Christian, one Swedenborgian (New Jerusalem) church, a Meeting House of the Society of Friends, a Unitarian church, a handsome Jewish Synagogue, a Lutheran Church, and others, representing nearly every one of the religious sects. There are also several charitable institutions; among which are two lunatic asylums, one on North Terrace and the other at Parkside; an asylum for the destitute, Church of England and Roman Catholic orphan homes, a children's hospital, Home for Weak-Minded Children at Fullarton Estate, a Blind School and a Blind Industrial School, a Home for Incurables at Fullarton, a Convalescent Home at the Semaphore, and Salvation Army Home (late Bushmen's Club), recently enlarged, and five Private Hospitals. The Young Men's Christian Association purchased a site at the west corner of Grenfell Street and Gawler Place, on which they have erected a splendid pile of buildings, at a cost of £27,000, which was opened by his Excellency the Governor, on Monday, July 21, 1884. Our Boys' Institute, in Wakefield Street, and the Boys' Brigade are also open. The estimated cost of the western wing of the new Parliament Houses now erected is upwards of £100,000. They occupy a fine situation at the junction of North Terrace with King William Road. The "Royal Exchange," in King William Street, is one of the best buildings in the City. The Australian Mutual Provident Society, Colonial Mutual, Widows' Fund, National Mutual, Mutual of Victoria, Mutual Association of Australia, and other Life Assurance Offices, all have substantially-built places of business, most of them being ornaments to the City. There are also handsome Government offices in Victoria Square, and the Adelaide University on North Terrace. Amongst educational edifices are St. Peter's, Prince Alfred, the Christian Brothers', and Way Colleges. The first is an Episcopalian, the second a Wesleyan, the third a Roman Catholic, and the last a Bible Christian institution, but are patronised by other denominations. St. Barnabas Episcopalian Theological College, opposite St. Peter's Cathedral, was opened on November 26, 1881. Only a portion of the edifice, which is in the Tudor style, is as yet completed. The Jubilee of the Colony took place in 1887, and to celebrate it an Exhibition was held. The space dedicated for the purpose of a suitable building was a piece of open land lying east and north of the University, extending from North Terrace to the Victoria Drive and from Frome Road towards King William Road, the area being about 18½ acres—8 acres on the upper level and the remainder on the lower. The permanent building is used by the Royal Agricultural and Horticultural Society, and other kindred organizations, and affords accommodation for a Technological Museum, School of Mines and Industries, and Chamber of Manufactures. Mr. (now Sir) E. T. Smith, K.C.M.G., M.P., was the chief promoter, to whom principally the success of the undertaking was due. The cost of the buildings (permanent building and annexes), was £48,000. The shops, banks, and insurance offices have greatly improved in appearance during the past few years, and many of them will now bear comparison with similar buildings in any part of the world. A State Bank was established by the Government; it conducts its business in the old Union Bank, Pirie Street, purchased by the Government.

A plentiful supply of water is obtained from reservoirs at Hope Valley and Thorndon Park, within a few miles of Adelaide, which derive their supply from the River Torrens, a weir being thrown across the river and the water conducted by an open aqueduct and a 42-inch main to the reservoirs. These reservoirs have a storage capacity of 886,900,000 and 140,500,000 gallons respectively; the street mains reticulate through 165 miles of pipe. A metropolitan reservoir capable of holding over one million gallons of water has been constructed on the Park Lands at North Adelaide. A similar covered service reservoir, capable of containing 850,000 gallons, was constructed upon the South Park Lands at the corner of South and East Terraces. During 1881 a covered service reservoir, capable of containing 560,000 gallons, was built at Burnside South for supplying a portion of the high-level reservoirs district; this district comprises Magill, Burnside, Glen Osmond, Mitcham, Kensington, and parts of Norwood, Frewville, and Fullarton, for the benefit of which places also a pumping-station has been erected at Marryatville. This pumping-station is capable of delivering 500,000 gallons per diem. The average daily consumption of the city and suburbs within the Adelaide water area varies from about 2,000,000 to 6,000,000 gallons. New waterworks for the city and suburbs have been opened during the past twelve months, the source of supply being the Onkaparinga river near Clarendon, the reservoir being constructed at Happy Valley. It has a storage capacity of 3,000,000,000 gallons of water. The city has been lighted with gas since 1863, but since January 4, 1900, King William Street has been lighted with electricity in addition to gas, and in all probability the electric light mains will be extended to the more important of the other thoroughfares. From 1885 Adelaide, and nearly all its suburbs, has been drained by the deep drainage system. The Botanic Gardens occupy an area of about 40 acres, and are very beautifully and tastefully laid out. In the grounds, besides several fern-houses, shade-houses, and the Victoria Regia house, there is a large and handsome palm house, constructed of glass and iron, in which tropical plants are sheltered. A Museum of Economic Botany was erected in 1881, and is open to the public. A large piece of land, in connection with the Gardens, extending northward to the Torrens, has been formed into a park with broad shaded footpaths and wide carriage drive. This, called the Botanic Park, has an area of 84 acres, part of which is used as a Zoological Gardens. A statue of Her Majesty the Queen, presented to the citizens by the Hon. Sir E. T. Smith, K.C.M.G., M.L.C., is erected in the centre of Victoria Square. The city is further beautified by a marble statue of "Venus de Medici" placed on North Terrace, and a bronze statue of "Hercules," in Victoria Square, both being presented by Mr. W. A. Horn, and a marble statue of Robert Burns, presented by the S.A Caledonian Society, is erected in North Terrace. A new vice-regal summer residence has been erected at Marble Hill, one of the highest and most picturesque points of Mount Lofty range. It is a fine substantial battlemented stone edifice, with a tower 75 feet high, and cost £21,300 in construction. It is about 2,000 feet above the level of the sea, and is distant 12½ miles from the city. It stands in grounds of 400 acres in extent. Around the city are several suburbs pleasantly situated, which are favourite places of residence, cars, omnibuses and tram-lines affording facilities for transit to them. To the East are Rose Park, Kensington, Norwood, Kent Town, Hackney, Stepney, East Adelaide, Payneham, Paradise, Magill, Marryatville, Burnside, and Glen Osmond; to the South, Unley, Malvern, Mitcham, Fullarton, Goodwood, Hyde Park, and Parkside; to the West, Thebarton, Southwark, Hindmarsh, Bowden, Brompton and Henley Beach, and the Grange; and to the North, Enfield, Prospect, Walkerville, Medindie and Ovingham. The population, exclusive of the suburbs, numbered 37,837 on April 5, 1891, estimated in 1900 about 41,000. The population within a ten-mile radius of the post-office approximates to 146,125. The newspapers are the *South Australian Register*, *The Advertiser*, morning daily papers; the *Evening Journal*, and *The Express*, daily evening papers; the weekly papers are the *Adelaide Observer*, the *South Australian Chronicle*, a German newspaper, the *Süd-Australische Zeitung*; the *Christian Weekly*, the *Australian Christian World*, the *Weekly Herald*, *Quiz*, *Critic*, *Southern Cross*, *Standard*, and the *Sporting News*. There is also a monthly, the *Garden and Field*, and several other publications advocating the views of temperance societies, religious bodies, &c.

ALBERTON & QUEENSTOWN (34° 57′ S. lat., 138° 32′ E. long.), a postal district, with telegraph, money-order office and railway station on the Port line, suburban to Port Adelaide, 6¼ rail miles W., fares, 8d. and 5d. Hotels: British Standard, Prince of Wales, and Alberton. It is in the county of Adelaide, electoral district of Port Adelaide, and the District Council of Alberton and Queenstown. Places of worship: Wesleyan, Primitive Methodist, Baptist, and Bible Christian chapels. Public School and Oddfellows lodge. Industries: rope works, chemical works, pottery. Water from Happy Valley.

ALDGATE (34° 59′ S. lat., 138° 46′ E. long.) (co. Adelaide electorate of Mount Barker), post town with money-order office railway and telegraph station on the Adelaide, Nairne to Melbourne Railway; 12 miles E. from Adelaide by road, and 21¾ by rail, lying 1,392 feet above sea level; fares, 2s. 6d. and 1s. 8d. Hotel: Aldgate Pump. There are two stores, Anglican and Wesleyan churches, stone quarries, and refreshment rooms. A summer residence of the citizens of Adelaide, and centre for sellers engaged in fruit and vegetable growing. Population of town and district about 500.

ALDINGA (35° 16′ S. lat., 138° 27′ E. long.), a post and telegraph station, with money-order office and savings bank, situated on a creek of the same name on the main southern road to Yankalilla, 27 miles S. of Adelaide, to which a coach runs daily; fare, 4s. 6d. Coaches run to Yankalilla, *viâ* Myponga, Aldinga, Noarlunga, and Morphett Vale. Hotel: Aldinga Hotel. It is in the county of Adelaide, electorate of Noarlunga, police district of Willunga, and District Council of Aldinga, which has a population of 900, an area of 20,820 acres, and an assessment of £5,574.

There are in the town Methodist and Episcopal (St. Ann's) churches, an institute, Foresters' lodge, an agency for the Bank of Adelaide, butter and coach factories; and a commodious school building, with an average attendance of 55. The district is an agricultural one, wheat and hay being principally grown. Formation: Tertiary. Population of township, 250.

ALICE SPRINGS. *See* STUART, Northern Territory.

ALLANDALE EAST (37° 59′ S. lat., 140° 45′ E. long.), a post town in county Grey, electorate of Victoria, and District Council of Port MacDonnell, 319¼ miles E. of Adelaide. It is reached by rail to Mount Gambier, thence conveyance. Daily mail to and from Adelaide. Hotel: Traveller's Rest. There are Roman Catholic, Presbyterian and Wesleyan places of worship, school, cheese and butter factory. Population about 200.

ALLANDALE NORTH (34° 15′ S. lat., 138° 57′ E. long.), a small post town in the county and electorate of Light, 51 miles N. of Adelaide, on Allan's creek. Conveyance to Kapunda railway station, 3 miles away. Has hotel, school, Bible Christian church. Agricultural district. Industries: Farming, tanning, and vine-growing. Population, about 70.

ALMA (34° 19′ S. lat., 138° 42′ E. long.), a post town, county Gawler, electorate of Wooroora, District Council of Alma Plains, 51½ miles N. of Adelaide. Conveyance to the Hamley Bridge Railway Station on the Adelaide and Burra line. Congregational and Church of Christ chapels, two public schools, and Mechanics' Institute. Agricultural district. Population of district, about 250.

AMBLESIDE. *See* GRUNTHAL.

ANGASTON (34° 32′ S. lat., 139° 3′ E. long.), county Light, electorate of Barossa, a post township, money-order, savings bank, and telegraph office on the Angaston creek, 53 miles NW. of Adelaide. Mail conveyance and rail *viâ* Freeling are the means of communication. Hotels: Angaston and Commercial. There are here a branch of the National Bank of Adelaide, a public school, places of worship belonging to the Wesleyans, Congregationalists, and Baptists; an Institute, having a public room that will seat 300 persons, with a library and reading-room attached, Rechabite and Oddfellows lodges and police station. Vinegar, wine, jam, fruit-preserving factories here. The district is an agricultural one; in addition to wheat, the vine is extensively cultivated. Copper has been found in the neighbourhood. The District Council of Angaston embraces 40,000 acres. Formation: foliated sandstone and lava. Lighted with kerosine. Population about 800; district 2,250.

ANGLEGROVE (33° 38′ S. lat., 138° 25′ E. long.), county Stanley, 107 miles N. of Adelaide, situated midway between Clare, Snowton and Redhill. Communication by conveyance from Brinkworth, 3 miles distant; thence by rail to Adelaide. Wheat district.

ANGLE VALE (34° 38′ S. lat., 138° 40′ E. long.), a postal village near the Gawler river, in the county of Adelaide, and electoral district of Yatala, 23 miles distant from Adelaide by mail route N., but only 20 miles by direct road. There is in the town an agricultural implement works, a public school (45 scholars), a creamery, and a Methodist place of worship. It is in the District Council of Munno Para West, which is an agricultural one, and is occupied for miles around by wheat crops. Lighted with kerosene, water from tanks. Smithfield (5 miles) is the nearest railway station. Population about 40.

APOINGA (33° 50′ S. lat., 139° 3′ E. long.), a post town in the county and electoral district of Burra, 76 miles N. by E. of Adelaide. The nearest water is Tothill's creek, and the nearest railway station is the Burra. It is in the District Council of Apoinga, which is a pastoral and agricultural district. The District Council of Apoinga extends over 91 square miles. Population of district about 600.

APPILA YARROWIE (33° 39′ S. lat., 138° 17′ E. long.) (county and electorate of Frome, hundred of Appila), a post, telegraph, savings bank, and money-order town, 157 (181½ postal) miles N. of Adelaide. A coach runs daily to the Caltowie Railway station. Hotel: Yarrowie. It has a branch of the English, Scottish, and Australian Bank, Wesleyan, Anglican (St. George), and Roman Catholic (St. Philip and St. James) places of worship, Public Hall, and a State school. Tarcowie springs in district. It is in an agricultural and pastoral district. Population, 150.

ARDROSSAN (34° 22′ S. lat., 138° 0′ E. long.), post town, telegraph, savings bank, and money-order station, 169¼ postal miles (*viâ* Moonta) NW. of Adelaide. There is steamer communication Tuesdays and Thursdays with the metropolis, also rail (thrice weekly) to South Hummock, thence coach, Tuesdays, Thursdays, and Saturdays, or *viâ* Maitland to Moonta or Paskeville by coach, thence rail. Hotels: Ardrossan and Royal. It is situated in the county Fergusen, Hundred of Cunningham and Yorkes' Peninsula electoral district, near the head of St. Vincent Gulf. Episcopal and Wesleyan places of worship, a public school, Mechanics' Institute, and Foresters' lodge. Good cycling roads. Water from Government tanks. Agricultural and pastoral district. Poultry raising and dairying. Implement factory. Formation: limestone. The jetty is 1,420 feet in length. Population, 150.

AUBURN (34° 3′ S. lat., 138° 41′ E. long.) lies on the river Wakefield, in the District Council of Upper Wakefield, county of Stanley, electorate of Wooroora, 75¼ postal miles N. of Adelaide; it is a post, telegraph, savings bank, and money-order town. Saddleworth, 6 miles distant, is the nearest railway station. The Clare coach passes through the town twice daily to Saddleworth. The hotels are the Rising Sun and the District. The principal streets are lined with trees, and the town is a health resort. The places of worship comprise St. John's Episcopal church, and chapels belonging to the Wesleyans and Bible Christians, with a public school. Bank: National. The other buildings comprise a town hall, and an Institute, with 1,000 volumes. There are Rechabites', Oddfellows', Orange, and Foresters' lodges, and several stores and tradesmen's shops. The District Council sits at Auburn, and it is the head-quarters of the Northern Agricultural Society. The District Council has an area of 61,222 acres. Pastoral, agricultural and viticultural district. The population is 1,450.

BAGOT'S WELL (34° 19′ S. lat., 139° 2′ E. long.), a post town with telegraph and railway station in the county and electoral district of Light, 53¼ miles N. of Adelaide, on river Light. Fares, 8s. 10d. and 5s. 6d. Has State school. Agricultural district. Population about 50.

BALAKLAVA (34° 9′ S. lat., 138° 29′ E. long.), a post town, with money-order office, Savings Bank, rail, telephone, and telegraph station, in the county of Gawler. It is in the District Council of Balaklava, electorate (chief polling place) of Wooroora, and police district of Adelaide, about 63 miles N. of Adelaide, with which it has railway communication twice daily; fares, 11s. 2d. and 7s. Hotels: the Balaklava and Terminus. It is on the River Wakefield. It has two hotels, public school, Methodist, Anglican, Christian Disciples', and Roman Catholic churches, an Institute, Druid, Rechabite and Oddfellow societies, a flour-mill, three general stores, an iron foundry, and some small shops. The District Council is partly situated in county Gawler and partly in county Stanley, and is an agricultural and pastoral district, containing a quantity of "scrub land," which is being regularly taken up and settled upon. Balaklava is the outlet of the produce of Dalkey, Stow, and Hall, and portions of Everard. Werocata station in the district. Agricultural show held annually. The District Council of Balaklava covers 282 square miles. Deep clay or sandy soil, with layers of limestone. Population of town about 600; of district about 1,500.

BALHANNAH (34° 37′ S. lat., 138° 55′ E. long.), a post town with telegraph and railway station on the Nairne line, 1,110 feet above sea-level, in the county of Adelaide, and electoral division and District Council of Onkaparinga, 19 miles (28¾ by rail) E. of Adelaide, on the Onkaparinga river; fare, 3s. 8d. and 2s. 5d. Hotel—Golden Cross. It has a Church of England (St. Thomas), and a Primitive Methodist chapel, and a State school, bark mill, and butter and cheese factory. A mile from the town is a bismuth and copper mine. Cobalt in small quantities, and antimony and plumbago also exist in the ore. Water from wells. Dairying and agriculture. Population, about 350.

BAROSSA GOLDFIELD (34° 38′ S. lat., 138° 52′ E. long.), county Adelaide, a postal township in the county and electoral district of Barossa and District Council of Barossa, near the Para river and Yatta creek, about 33 miles N. of Adelaide, and 5 miles from Lyndoch. Conveyance to Gawler, thence train. Farm district, suitable for vine and fruit growing. The Barossa goldfield was discovered in October, 1868, by Job Harris and mates, who found gold in the gully now known as Spike Gully. Has good school, in which Anglican services are held. Gold-mining and wood-carting industries. Population, 150.

BEACHPORT (37° 30′ 30″ S. lat., 140° 1′ 30″ E. long.) (county Grey, electorate of Victoria, hundred of Rivoli Bay), a Government township, situated at Rivoli Bay North, 228 miles postal (356¼ rail) SE. of Adelaide, with which it has regular steamer communication. Has post and money-order offices and telegraph and railway station. Hotel: Bay View. It takes its name from a former Secretary for the Colonies—Sir M. Hicks-Beach. The town is pleasantly situated about a mile and a half NE. of Penguin Island and Cape Martin. Beachport was opened in 1878. It comprises hotel, three stores, a custom house, railway station, mechanics' institute, Methodist and Anglican churches, and a large public schoolhouse which cost £1,030. Many of the buildings are of limestone from Mount Gambier, and a grey sandstone found in the neighbourhood. It is the sea terminus and head-quarters of the Mount Gambier and Rivoli Bay Railway. Fares from Adelaide, 58s. and 36s. 5d. The harbour is said to be one of the safest and best in the district, well sheltered from the stormy weather. Vessels can load to 16 feet alongside an iron-screw-pile jetty 2,500 feet long, or to 18 feet at anchorage 500 yards off jetty in 22 feet of water; there is also a well-sheltered anchorage 1½ miles from jetty, with 6 fathoms of water, protected by the De Mole and Lipson Reef. A lifeboat with crew and a rocket apparatus (also steam lifeboat, *City of Adelaide*, presented to S. A. Government by Mr. R. B. Smith), has been stationed here. A telephone service connects all the coast stations and lighthouse on the SE. coast, as well as Mount Gambier, Portland and Victoria, enabling steam lifeboat to be quickly communicated with. On Penguin Island there is a lighthouse, from which is shown a fourth order dioptric light, with bright flashes every 10 seconds, visible 12 miles. Beachport is the outlet for the produce of a very large area. A chicory kiln has been erected, and a great deal of chicory is grown in the neighbourhood. In the neighbourhood is Lake George, a fine sheet of brackish water; there is also a salt lake (called the Pool of Siloam), which is said to have curative properties. Population, 250.

BEAUTIFUL VALLEY, or WILMINGTON (32° 39′ S. lat., 138° 4′ E. long.), is a post town with money-order, savings bank and telegraph offices in the Southern portion of the Hundred of Willochra, county and electoral district of Frome, and is pleasantly situated at the entrance to Horrocks Pass (a natural road named after its discoverer), through the Flinders Range, on the direct route from Adelaide (473¼ rail miles) to Port Augusta. Adelaide is reached by coach to Hammond, thence rail. It has three hotels (Beautiful Valley, Wilmington and Globe), agricultural stripper factory, a mill, Episcopal,

Wesleyan, and Bible Christian places of worship, and an institute, and is within 25 miles of a first-class seaport, Port Augusta. Bank: National.

BEETALOO is situated on the Beetaloo Creek, in the electorate of Gladstone. It is 149 miles distant from Adelaide, communication with which is by rail to Laura (6 miles), or Crystal Brook (12 miles), from each of which towns there is a good natural road. It is an agricultural and pastoral district. It is near here that the Government "Beetaloo" reservoir, acknowledged to be one of the finest works of its kind in the world, is built across the Crystal Brook Creek. Its construction occupied about five years. It supplies the Beetaloo water district and also the important towns of Port Pirie, Moonta, Kadina, and Wallaroo. The reservoir has a storage capacity of 800 million gallons, and is formed by a cement concrete dam 580 feet long and 110 feet high. It supplies over 670 miles of mains, and commands over a million acres of country. The local scenery is both varied and picturesque, and in the same locality is situated the Wirrabara Forest Nursery and Plantation.

BELAIR (35° 2′ S. lat., 138° 39′ E. long.) (co. and hundred of Adelaide), a post town with telegraph and railway station, 6 miles SE. (by rail 13¾) of Adelaide, in the District Council of Mitcham, is pleasantly situated in the Hills, 1,008 feet above sea-level on Brownhill Creek. One of the principal buildings is "Hope Lodge," used as an Inebriates' Retreat. The Nairne Railway passes through here; fares, 1s. 6d. and 1s. Has hotel, Anglican church, and private school, Druid and Oddfellow lodges. In the neighbourhood is the National Park, a recreation ground for the people, controlled by an influential commission, and covering an area of about 2,000 acres of choice hill and dale scenery. An ably-managed Home for Consumptives is in the vicinity. Population, about 300.

BELTANA (30° 51′ S. lat., 138° 25′ E. long.), a post town, with money-order office, savings bank, railway and telegraph station, on the Warrioota creek, in the county Frome and electorate of Flinders, 353½ miles N. of Adelaide, and 143½ N. of Port Augusta, with which it is connected by rail; fare from Adelaide, 58s. 10d. and 36s. 9d. It has hotel—Royal Victoria—a police station and public school, and one store. There is no church in the town, but Roman Catholic, Presbyterian, Anglican and Wesleyan services are held. The Beltana sheep station, whence the place derives its name, is 1½ mile distant. Several copper mines are in the neighbourhood. Copper mining at Ediacara, 18 miles west, where the Government are boring for minerals. Sliding Rock copper mine, 15 miles east, is being worked, and the industry generally is brisk. Puttapa Gorge and Mount Bailey are within easy distance. Population, 150.

BELVIDERE (35° 18′ S. lat., 138° 58′ E. long.), hundred and District Council, on St. Kitt's Creek, 49 miles (55 postal) N. of Adelaide, in the county of Light. A mail coach runs to Kapunda, rail thence. Has post office. Roman Catholic and two Lutheran churches, a public and two denominational schools. The district is of an agricultural character, 14,000 acres being under cultivation, principally for wheat and grapes. The District Council of Belvidere covers 84 square miles, and meets at Koonunga, the principal town. The district is famed for its marble quarries; as also agricultural implement factory and chaff mills. There are two other Belvideres, one near Strathalbyn and another north-west of Hamilton. Complaint is often made of there being three townships of same name in one province. Population about 900.

BENDLEBY (co. Grenville, District Council Carrieton), postal district and hundred, 16 miles from Carrieton Railway Station, 204½ miles N. of Adelaide. Reached by rail to Orroroo, thence coach 28 miles. Has public school in hall, two United Methodist churches. Hell's Pass in the district. Slate, limestone, and quartz formation. Agricultural and pastoral district.

BETHESDA lies 625 miles N. of Adelaide, in the electoral district of Flinders; nearest railway station, Hergott Springs. Here is a Lutheran mission with school and church (J. G. Reuther, manager) for aborigines, of whom there are about 200.

BEVERLY (34° 53′ S. lat., 138° 34′ E. long.), a suburb of Adelaide, 4½ miles, in the District Council of Woodville. Hotels: Kavanagh. Population, 124.

BIRKENHEAD. *See* PORT ADELAIDE.

BLACKWOOD (34° 3′ S. lat., 138° 44′ E. long.), a post town, telephone and railway station, 11½ rail miles SE. from Adelaide, on the Hills line of Railway, which is now connected with the Victorian lines. It is pleasantly situated 835 feet above sea-level: Railway fares, 1s. 3d. and 10d. Coach twice a day to Cherry Gardens and Clarendon, and once daily to Kangarella, Meadows, and Ashbourne. There is a store, large brick factory, Methodist, Anglican and Baptist churches; I.O.R. tent and Oddfellows' lodge, one State and private school. Most of the residences are situated upon elevated land close to the railway station, and overlooking the sea, which is six miles distant, with pretty undulating country between. On the other side, the valley of the Sturt, and a range of hills of the same name, afford very pleasant scenery. Rather more than a mile distant are some of the largest strawberry gardens in the colony, extending over several acres each. Oranges and other fruits are also produced in large quantities, and there are preserving factories within a short distance whence jam and preserves are exported to the other colonies. Situated in district council of Mitcham, electorate of Sturt and county of Adelaide. Population, about 400; of the district about 900.

BLAKISTON (35° S. lat., 138° 55′ E. long.) (co. Hindmarsh), a village 1 mile NE. of Littlehampton, 23 road miles from Adelaide. Has butter factory, seed farm, and Anglican church. Adelaide reached by coach to either Nairne, Mount Barker, or Littlehampton, thence train. Desirable summer resort. Agricultural district. Formation: mica schist, with ironstone outcrops. Population of district about 150.

BLANCHETOWN (34° 21′ S. lat., 139° 28′ E. long.), postal township with telegraph and money-order office in the county of Eyre, electorate of Barossa, hundred of Skurray, and central police district, on the west bank of the River Murray, 90 postal miles N. of Adelaide, with which the communication is by coach twice a week to Truro, thence to Freeling, thence by railway. It has a police-station, one public school and Blanche Town hotel. The district is a pastoral one, sheep stations predominating. Water from Murray river and tanks. Formation: limestone. Population, 38.

BLETCHLEY (35° 15′ S. lat., 139° 1′ E. long.), a postal district in the county of Hindmarsh and electorate of Mount Barker, 6 miles E. of Strathalbyn, 4 miles N. of Langhorne's Bridge, and 36 miles (57 miles postal) SE. of Adelaide, on the Bremer creek. Squatting district. Communication is *viâ* Strathalbyn.

BLINMAN (31° 4′ S. lat., 138° 35′ E. long.), a post, telegraph, savings bank, and money-order town, county Taunton, and electorate of Flinders, hundred of Carr, about 359¼ postal (*viâ* Parachilna) miles N. of Adelaide, 2,020 feet above sea. A small creek runs through the township. Hotels: North Blinman and North Star. State school, Anglican and Wesleyan services, Foresters' Court and hall. The well-known Blinman mine is here. There is a branch telegraph from here to Beltana. Communication is by coach to Parachilna, Monday, Wednesday, and Saturday, thence by train. Pastoral and farming district. The population, inclusive of the surrounding camps, was reported at 400, of town alone, 200.

BLUMBERG (34° 49′ S. lat., 138° 59′ E. long.) (co. of Adelaide, electorate of Gumeracha, hundred Talunga), a postal township with money-order office, telegraph, station and savings bank, 28 miles NE. of Adelaide, to which coaches run twice daily; coach also to Balhannah, thence train to Adelaide. Hotel: the Blumberg. There are two churches, a Lutheran and a Roman Catholic church (St. Matthew), a public school, a German school; an agency for the Bank of Adelaide, and Literary Institute. An extensive trade is carried on in wheat and dairy produce, also in wattle bark. Gold has been found in the neighbourhood. Has flint quarries. It is in the District Council of Talunga, which has an area of 73 square miles. Agricultural and pastoral district. Population about 260, mostly Germans.

BLYTH (33° 53′ S. lat., 138° 30′ E. long.), a postal centre, with money-order office, savings bank and telegraph station in the county and electoral district of Stanley, 92¾ miles due N. of Adelaide, with which it is connected by rail, one train each way; fares, 15s. 6d. and 9s. 8d. Hotel: the Blyth. It is 638 feet above sea-level. Has public school, flour-mill, saddler's, and blacksmith's. Institute, Wesleyan and Lutheran chapels. The railway connects with Port Wakefield and Wallaroo and Gladstone. The District Council of Blyth extends over 114 square miles. Population, 211; of district, which is principally agricultural, 800.

BOOLEROO CENTRE (32° 18′ S. lat., 138° 14′ E. long.), a post town, with money-order office, telegraph station, and savings bank in the county and electorate of Frome, 201 postal (*viâ* Orroroo) miles N. of Adelaide, depending principally on the large areas devoted to wheat crops. It has communication with Adelaide by coach to Laura or Orroroo, thence by rail. It has a branch of the E.S. and A. Bank, hotel, a Church of England and a Bible Christian chapel, an Institute and Public Hall, a public school, Rechabite lodge, a foundry, and wheelwright's, blacksmith's, and butcher's shops, stores, and an inn. Gorge Road and St. Germein are points of interest. Population, with vicinity, about 500.

BOOYOOLIE. *See* LAURA.

BORDER TOWN (36° 19′ S. lat., 140° 46′ E. long.), a post town, with railway and telegraph station (testing station between Adelaide and Melbourne), savings bank and money-order office, in the centre of the Tatiara district, in the county of Buckingham, and electoral district of Albert, situated on rising ground on the Tatiara Creek, near the Western boundary of the Hundred about 50 miles N. of Narracoorte, on the old road and direct line of railway between Adelaide and Melbourne (distance, 326 miles), and from Adelaide 183 rail miles SSE. The Victorian boundary is about 12 miles distant. It was founded by Government in 1851 as a depôt for the gold escort to the Victorian gold diggings. Hotels: The Border Town and the Woolshed. It comprises a post and telegraph office of stone, a State school that accommodates 300 scholars, several stores, an Institute, with hall capable of seating 200 persons, and library of over 3,000 vols., Anglican, Roman Catholic, Methodist, and Congregational places of worship, Baptist services in Foresters' Hall, and a police-station. Has Foresters' and Rechabite societies. A local court is held here periodically. Branch Commercial Bank. The soil and climate are admirably adapted for the growth of vines, and will also produce excellent wheat in favourable seasons. Plenty of good water from wells. Limestone formation. The Agricultural Society holds a show here annually; Government has granted an area of 5 acres. (The Tatiara District Council is 1,500 square miles in area; has a population of 1,800; county Buckingham grows the finest wheat in the colony, Population, 500; district about 1,800.

BOWDEN (34° 56′ S. lat., 138° 33′ E. long.), co. Adelaide, hundred Yatala, is situated 1¾ mile W. of, and suburban to the city, with which it has telegraphic communication and railway connection by the Port Line; fares, 3d., and 2d. Hotels: Globe, Governor Hindmarsh, Oddfellows' Arms, and Tanners' Arms. There are here Church of England and Bible Christian places of

worship, several Friendly Societies, tanneries, glass works, brick kilns and gasometers. It forms a ward in the corporate town of Hindmarsh, and has a population of about 2,600 persons.

BRAMFIELD (33° 25′ S. lat., 134° 58′ E. long.), a small coast post town in the Hundred of Ward, Co. of Musgrave, and is 300½ postal miles W. distant from Adelaide. Has hotel, State school. The surrounding country is thickly timbered, and chiefly settled by farmers. The products are wheat and wool. Communication by steamer to Port Lincoln, thence per coach, 105 miles, or by coasting steamer to Waterloo Bay. Population about 50.

BRIDGEWATER (35° 2′ S. lat., 138′ 47′ E. long.) Cox's Creek) lies on Cox's creek, 23½ postal miles E. of Adelaide. It is a post-town (issuing postal notes) and telegraph and railway station on the Adelaide and Nairne Railway; fares, 2s. 10d. and 1s. 11d. In county Adelaide, electorate Mount Barker and Onkaparinga, and district council Stirling and Crafers. Has public school, Bible Christian church, Dunn and Co.'s steam and water mills. Hotel and Rudd's store. Market gardening is mainly followed in the district. Land is heavily timbered with stringy bark. A healthy resort for invalids, 1,310 feet above sea-level. Population, about 300.

BRIGHTON (34° 4′ S. lat., 138° 32 E. long.), county Adelaide, electoral district of Sturt, hundred Noarlunga, a municipal seaside town and watering-place, with post, telegraph, savings bank and money-order office, on the shores of the Gulf of St. Vincent, 10 miles S. of Adelaide. Tram to Glenelg, thence rail. The hotels are the Thatched House Tavern, and Brighton Inn. It is a favourite seaside resort for the citizens, having esplanade, jetty, and splendid beach. There is an Institute and Town Hall, Episcopal church (St. Jude's) and a Wesleyan chapel, public school, Oddfellows' and Rechabite lodges. Portland Cement Company's works here, cost about £20,000, and employ 50 hands. An asylum for the blind and deaf and dumb is here. It cost £5,000 in its erection. Part of the cultivated land is laid down in vines. Population, about 900.

BRINKWORTH (33° 39′ S. lat., 138° 23 E. long.), co. Stanley, a post town with money-order office, savings bank, telephone and railway station on Blyth and Gladstone line, also junction Moonta, Kadina, and Snowtown lines, 104¼ rail miles NNW. of Adelaide. Coach daily to Koolunga, Red Hill, and Port Broughton. Has one hotel, Institute, branch of E.S. and A. Bank (two days a week), Methodist church, I.O.O.F. lodge. Agricultural and pastoral district. Fortnightly sales of cattle, sheep, and horses. Limestone and sandstone formation. Population of district, about 500.

BROMPTON. *See* Hindmarsh.

BROUGHTON. *See* Redhill.

BUGLE RANGES (35′ 10′ S. lat., 138° 55′ E. long.) post town with telegraph and railway station in Co. Hindmarsh, electoral district Mount Barker, 27 miles (40 by rail) ESE. of Adelaide, with which it is connected by a good road. It is a station on the Southern line, fares, 5s. 8d. and 3s. 8d. A coach runs to Macclesfield. Hotel: Morning Star. It lies 1,163 feet above sea level. The River Angas flows about 6 miles distant. There are here a Government school, in which Anglican services are held, and a Methodist chapel. Not lighted. District is very hilly. The timber is mainly gum, shea-oak, and wattle. Farming and grazing principally carried on. Population about 200.

BULL'S CREEK (35° 14′ S. lat., 138° 48′ E. long.), a postal town, on Bull's Creek, 33 postal miles SSE. of Adelaide, in the District Council of Kondoparinga, co. of Hindmarsh, electorate of Noarlunga. A public school, Rechabite lodge, Band of Hope, Methodist chapel, creamery, shoe factory, and one store are here. Communication with Adelaide is by coach to Blackwood, thence rail. Pretty scenery and good cycle road from Adelaide. Farming locality. Industries: Dairying, fruit-growing (fine apple district), pig-raising. Tertiary formation. Population, 142.

BURNSIDE (34° 57′ S. lat., 138° 44′ E. long.) a post town with telephone station, suburban to Adelaide, at a distance of about 4 miles, and is the tramway terminus; fare, 6d., on First Creek. It is in the electorate of East Torrens, and the District Council of Burnside, on elevated ground at the foot of the Mount Lofty range, commanding extensive views of the metropolis, reached by tram. Hotel: the Burnside. It has three places of worship, Episcopal, Baptist (at Knightsbridge) and Church of Christ, public school, Rechabite lodge, and St. David's Hall. Waterfall Gully about two-and-a-half miles distant, a favourite resort. District abounds in vineyards. Sir Samuel Davenport's wine and olive industries are carried on at Beaumont close by. Dunstan's quarries and vineyards. Penfolds, vineyards and cellars (one of the largest in the colony) is in the district, also the Stonyfils Olive plantation and factory employ a large amount of labour. Population of town about 500 district 8,500.

BURRA. *See* Kooringa.

CALLINGTON (35° 8′ S. lat., 139° 5′ E. long.) (Co. Sturt, electorate of Onkaparinga) is situated on the Bremer creek, 36½ miles (45 by rail) SE. of Adelaide. The overland railway to Melbourne passes through here, three trains run daily, fare, 6s. 6d. and 4s. 2d. Hotel: Callington. It has a post, money-order and savings bank office and telegraph station. Primitive Methodist, Lutheran, and Wesleyan places of worship, and a public school. Government buildings: police station, school, and post office and railway station. Wheat and barley are principally grown in the district. Copper also abounds, and two or three mines have been worked in the vicinity. Farming and grazing. It is in the Nairne District Council. Population, 150.

CALTOWIE (33° 13′ S. lat., 138° 25′ E. long.), a post town, telegraph and railway station, with money-order office, 148 miles by rail (183¾ postal) N. of Adelaide, situated on an open plain 1,237 feet above sea-level. It is a station on the line from Port Pirie to Petersburg, 44 miles from Port Pirie; fares, 7s. and 4s. 6d.; through fares from Adelaide, 24s. 8d. and 15s. 5d. Hotels: Caltowie and Commercial. Bank: Bank of Adelaide; also savings bank, a public school, two large stores, a flour-mill, a handsome institute with a large hall, R.C. church (St. Killian's), Anglican (St. Mary Magdalene), Wesleyan and Lutheran chapels, and adult and junior branches A.O.F. Is a centre for the storage and purchase of wheat. It is in the District Council of Caltowie, county Victoria, and electorate of Gladstone. The District Council has an area of 89 square miles. Population, 338; of district, 1,457 (census 1891).

CAMPBELLTOWN (34° 53′ S. lat., 138° 43′ E. long.), a suburban postal township on the River Torrens, in the District Council of that name, county Adelaide, electorate of East Torrens, 5 miles E. from Adelaide to which is a service of horse trams at frequent intervals. At a short distance is situated the Thorndon Park and Hope Valley reservoir. Episcopal church, with school; Wesleyan chapel, and M.U. Oddfellows' with Hall. The District Council of Campbelltown, with an area of 9 square miles: embraces Campbelltown, Sydenham, Paradise Newenham, Paradise Park, Thorndon Park, Athelstone, Newton, Hectorville, Peckham, East Payneham, Finchley, Murray Park, Stradbrooke, Woodforde, and Maghill, having several churches, schools, halls and friendly societies. Principal points of interest to tourists: lovely gardens along Torrens Valley and the wild gorges among the hills on extreme fringe of the district. The land is mainly taken up for market-gardening purposes. Population of township, 300; district, about 1,800.

CAPE BORDA (36° 45′ 45″ S. lat., 136° 36′ 15″ E. long.), 108 miles (159½ postal) SSW. from Adelaide, is a post, telegraph, and lighthouse station on the North Western coast of Kangaroo Island, in the electorate of Encounter Bay, and is chief signalling station of South Australia. Three lighthouse keepers and telegraph master with their families (about 17 in all) form the population. Here also is the telegraph signal station for English mail steamers, Orient liners, and all over-sea ships. The lighthouse is a square tower, 510 feet above sea level, with one revolving bright light visible 30 miles, and red 15 miles alternate half minute, shown from SW. by S. to NE. by E. Has private school. There are several fine caves in the neighbourhood, in which fine stalactites abound. Iron and limestone formation.

CARRIETON (32° 34′ S. lat., 138° 38′ E. long.), a postal town, with telegraph, savings bank, and money-order office, in the hundred of Eurelia, co. Dalhousie, and electorate of Frome, 188¾ rail miles N. of Adelaide, on the Main North road, and the Terowie and Quorn Railway. Through fares from Adelaide, 33s. and 20s. 8d. Hotels: Eureka and Carrieton. Bank: National. Roman Catholic (St. Raphael's) opened in March, 1882. Bible Christian, and Episcopal churches, two girls' and Roman Catholic schools, and Mechanics' Institute. Wheat growing district. Population of town and district about 700.

CHAIN OF PONDS (35° 50′ S. lat., 138° 53′ E. long.), a post town, 19 miles NE. of Adelaide. There is coach communication twice a day with the metropolis. Hotel: Morning Star. It is in the District Council of Para Wirra, electorate of Gumeracha, county of Adelaide, and has Methodist place of worship, school, one store, and 140 inhabitants.

CHARLESTON (34° 58′ S. lat., 138° 53′ E. long.), postal township on the Onkaparinga river, in the county of Adelaide, police district of Woodside, and electorate of Onkaparinga, 36¾ postal miles E. of Adelaide, the communication with which is by rail to Balhannah, thence by coach. Hotel, the Charleston. Sawn timber and wattle bark exported. One school, and a Primitive Methodist chapel. Sheep are kept here, and thrive. Mangold wurzel and potatoes grow well, and large quantities of butter, bacon, &c., are weekly sent to the metropolis. Gold and plumbago have been found. Population, district, about 80.

CHERRY GARDENS (35° 4′ S. lat., 138° 42′ E. long.), a postal township on the creek of the same name, in the county of Adelaide, and electoral district of Noarlunga, 16 postal miles SE. of the metropolis. Coaches, fare 1s., return 2s., ply twice daily to and from Blackwood, thence rail to Adelaide. Institutions—public and private schools, Rechabite hall, and a Wesleyan chapel. Agricultural and pastoral district. Unworked silver mines in neighbourhood. Population, township and district, 300.

CLARE (33° 52′ S. lat., 138° 36′ E. long.), a municipality, with post, telegraph, money-order office, savings bank, offices of the Midland Licensing Bench, telegraph station, and local and police-courts, on the Hutt river, 90¼ postal miles NNW. of Adelaide. It is in the county and electorate of Stanley, and is prettily situated, being environed by gently wooded timbered slopes or hills. Lines of coaches run to Saddleworth (S. 22 miles), Farrell's Flat (E. 12 miles), and Blyth (N. eight miles), to meet the trains. Six hotels—Ford's, the Northern, Stanley, the Globe, Commercial, and the Clare. In the town are a court-house, a large town-hall, branches of the National, and English and Scottish Banks, an Episcopal (St. Barnabas) and R.C. church (St. Michael), Wesleyan, Presbyterian, and Baptist chapels, and Salvation Army barracks, one public and five private schools, an Institute, police-station, a casualty hospital, Oddfellows', Rechabites', Foresters', and Freemasons' societies. It possesses a local Agricultural and Horticultural Society whose show is one of the largest in the colony. Area of municipality, 400 acres. In Clare there is an agricultural implement manufactory, a mill, a tannery, steam chaff and wood yards and the usual complement of shops of every descrip-

tion. A butter factory is at Clare, with its creameries at Watervale and Mintaro. The town, which is lighted with kerosene, is surrounded with orchards and vineyards. Stanley Wine Co. have erected large cellars. There are numerous farms in the district, and in the more distant country are several sheep and cattle stations. Water from wells. Formation: slate and ironstone. Population of municipal district 1,100. Local paper, the *Northern Argus*, published Fridays.

CLARENDON (35° 10′ S. at 138° 40′ E. long.), a township with money-order office, telegraph station, and savings bank, is situated on the Onkaparinga river, in the District Council of Clarendon, county of Adelaide, electorate of Noarlunga, 23½ postal miles SE. of Adelaide. There are two coaches daily to Blackwood. Hotel—the Royal Oak. Anglican, Wesleyan, Bible Christian and Salvation Army; three general stores, butter factory, a very neat Gothic court-house and police-station, Oddfellows' hall, an excellent Government school, attended by about 100 pupils, and Druids' hall, and branch of agricultural bureau. There are also several vineyards in the neighbourhood, and large quantities of wine are produced. A very large reservoir is being constructed by the Government at Happy Valley, near Clarendon. The country in the environs is picturesque and the banks of the river are romantic and pleasing. The District Council has an area of 55 square miles. Population 371, the district under the control of the local council numbering 1,700.

CLINTON (34° 8′ S. lat., 138° 0′ E. long.), post-office in the county of Daly, electorate of Wallaroo, lying 86 miles N. of Adelaide, on St. Vincent's Gulf, reached by train and coach. Principally pastoral country. Population in the district, 1,500.

COCKBURN (32° 5′ S. lat., 141° 0′ E. long.), a post and telegraph town, with money-order and savings bank office and railway station. Area of town about 100 acres, in the electoral district of Newcastle 240 miles north-east of Adelaide. Distance by rail 298¾ miles; fares, 49s. 8d. and 31s. 1d. This township is the terminus of the South Australian Railway on the N.S. Wales border. A tramway runs from here to Broken Hill and Silverton. Hotel:—Cockburn Hotel. Has public school, Bible Christian church, custom house, institute, G.U.O.O.F. lodge. Mining and pastoral. About £13,000 yearly is collected from stock tax between New South Wales and Queensland. Population about 200.

COLLINSFIELD (33° 38′ S. lat., 138° 11′ E. long.), a post town in a large pastoral district, 124¾ postal (*viâ* Redhill) miles N. of Adelaide (county Stanley, electorate of Stanley). Communication with Adelaide by coach to the Brinkworth Railway Station. It has a public school, Primitive Methodist place of worship. Population about 22.

COLTON, a post town, 306½ postal miles NW. of Adelaide, on Lake Newland. It is situated in the hundred of Colton, district of Flinders. Agriculture is the principal industry. Communication with Adelaide, *viâ* coach to Port Lincoln. Has hotel, Government school, Roman Catholic church. Lighted with kerosene; water from tanks and wells. Limestone formation. Population, about 200.

CONCORDIA (34° 34′ S. lat., 138° 48′ E. long.), post district on the North Para in the county of Adelaide, electoral district of Barossa, and District Council of Barossa, 30½ miles N. of Adelaide. Gawler is 4½ miles distant, and is the market town, and nearest railway station. There is a good schoolhouse. Agricultural district. Population, partly German, 110.

CONDOWIE (33° 47′ S. lat., 138° 18′ E. long.), postal village (with parcels post) 97 miles N. of Adelaide (110¾ rail), county Stanley, hundred of Boucaut, situated midway between Angle Grove and Snowtown, on Magpie Creek. Bible Christian chapel and two Government schools are here. Large quantities of wheat are grown. Salt swamps in the district. Communication by rail (thrice weekly, the siding being 4½ miles from the P.O.); fares, 18s. 6d. and 11s. 7d.

COOLATOO (36° 32′ S. lat., 139° 50′ E. long.) is in the electoral district of Albert, on the Coorong river. 120 miles E. from Adelaide, 32 from Kingston Railway Station. Coaches from Kingston to Cantara pass once a week. Grazing locality, with fishing and duck-shooting. Formation: limestone. A few aboriginals in the district. The place, which is 3 miles from Cantara, is almost entirely deserted.

COROMANDEL VALLEY (35° 4′ S. lat., 138° 40′ E. long.), a postal village, with money-order office, on the River Sturt, in the county of Adelaide, District Council of Clarendon, and electoral district of Noarlunga, 13½ postal miles SE. of Adelaide. Blackwood Railway Station is 1½ miles distant, The district is principally of a farming character. The Almanda Mine is about 3 miles distant, but is not now worked. Train to Blackwood, thence coach. There are two stores, a large biscuit and jam factory, butter and bacon factory, three places of worship—Methodist (two) and Church of England (St. John's), an Institute, literary society and Rechabite lodge, and a public school.

COX'S CREEK. *See* BRIDGEWATER.

CRADOCK, a post town with money-order and telephone office, in the county of Granville, electorate of Frome, 228¼ miles N. of Adelaide, which is reached by coach to Carrieton (30 miles), thence rail; coach also runs to Wilson (11 miles). Hotels: Cradock and Wirreanda. Anglican, Wesleyan and Roman Catholic places of worship. State school, police-station, institute and library. Agricultural district. Population, about 50.

CRAFERS (35° 1′ S. lat., 138° 43′ E. long.), a post town, with telegraph office. 21 postal miles SE. of Adelaide. It is in the District Council of Crafers, electorate of Onkaparinga, and county of Adelaide. The railway to Nairne passes close to the township, the station being known as Mount Lofty. It supplies the metropolis with large quantities of fruit and vegetables. An Institute, a Bible Christian chapel, and a public school are here. Hotel—Crafers. Fruit is largely grown in the neighbourhood, and gives full employment to a jam factory. The district council of Crafers covers 12 square miles. The population of the district is 1,691 (census 1891).

CROYDON. *See* HINDMARSH.

CRYSTAL BROOK (33° 31′ S. lat., 138° 57′ E. long.), a post, savings bank, money-order town, telegraph and railway station on Port Pirie-Terowie Line, in hundred and on creek of same name, county of Victoria, electorate of Gladstone, 115¼ postal miles (151¼ by rail) N. of Adelaide (*viâ* Brinkworth); fares, 25s. 2d. and 15s. 9d. It has agency Bank of Adelaide, two hotels, Royal and Crystal Brook, a mill, foundry, Roman Catholic, Methodist, and Anglican places of worship, an Institute, a public and a private school, M.U.I.O.O.F. and Rechabite lodges; cricket, jockey, coursing, and other clubs; agricultural bureau, agricultural and horticultural society (which holds annual show in September), a stone railway station and goods shed, and several stores. The principal business of the place is as a depôt for the purchase of wheat and fruit-growing. Head office of Beetaloo water district is here. The hundred has an area of 98½ square miles. The town has an excellent water supply. Population of township, 650.

CURRAMULKA (34° 45′ S. lat., 137° 45′ E. long.), a postal town, with telegraph, money-order office, and savings-bank, 221 postal miles W. of Adelaide, situated in the hundred of Curramulka, electorate of Yorke's Peninsula, and county of Fergusson. Hotel: Curramulka. Churches: Baptist and Wesleyan; Anglican and Roman Catholic services held in Institute. Government school (80 scholars). Institute, with hall, library, and reading-room and Rechabite lodge. Communication is by coach to Pt. Vincent, thence steamer, also coach, *viâ* Moonta. Water from Government well. Caves in the district (which is agricultural) are worth visiting. The hundred has an area of 105 square miles. Limestone formation. Population, town 80, district 250.

CURRENCY CREEK (35° 30′ S. lat., 139° 0′ E. long.), a postal village on the creek after which it is named, in the District Council of Port Elliott, in the county of Hindmarsh, and electoral district of Encounter Bay, 52 miles (66½ rail) S. of Adelaide, with which the communication is by rail, fares, 10s. and 6s. 4d. It is 12 miles from Middleton and 15½ from Strathalbyn. Hotel, the Currency Creek. Has Wesleyan chapel and district schoolroom; also a store and a blacksmith's shop. Population, 61.

CUSTON (UNIVERSITY BLOCK), a post-town, with railway station on the Kingston and Border Town line, 196½ rail miles SSE. of Adelaide and 14 miles SE. of Border Town; fares, 31s. 8d. and 19s. 11d. It is in the county of Buckingham, electorate of Albert. In the vicinity is a large area of land dedicated to the Adelaide University for educational purposes. Population about 50.

DALKEY (34° 5′ S. lat., 138° 29′ E. long.) is a postal station county Gawler, Hundred Dalkey, and electoral district of Wooroora, 80 miles (71½ postal) NE. of Adelaide, communication with which is by way of Balaklava. Has Bible, Christian and Lutheran chapels and Church of Christ. Public school. Agricultural district. Formation: limestone. The population of the district, 200.

DASHWOOD'S GULLY (35° 10′ S. lat., 138° 43′ E. long.), a postal township in the county of Adelaide, electoral district of Noarlunga, and Clarendon police district, 28¼ postal miles SE. of Adelaide, reached by coach to Blackwood (fare, 3s.), thence rail, 1s. 2d. Nearest township is Kangarilla. The district is of both an agricultural and grazing character. Population, about 66.

DAVENPORT. *See* BEAUTIFUL VALLEY.

DAVEYSTON (34° 26′ S. lat., 138° 54′ E. long.), a post township, in the District Council of Nurioopta, county and electoral district of Light, 41½ miles N. of Adelaide. Has hotel, the Old Nain, Lutheran church, public school, district council office. Communication with Adelaide is by coach to Freeling (4 miles), thence rail; coach runs to Angaston. Agricultural district. Population about 90.

DAWSON (33° S. lat., 138° 17′ E. long), a post town in co. Herbert, and Frome electorate, 170 miles N. of Adelaide, with which the connection is by coach to the Petersburg railway station. Coach to Petersburg twice a week, thence rail, or coach to Oodlawirra once a week, thence rail. It has two places of worship, Primitive Methodist and Roman Catholic; one hotel, two State schools and a private school, Mechanics' Institute, I.O.R. lodge. Water from Government well. Population, about 200.

DELAMARE (co. Hindmarsh), Postal township, four miles SW. of Second Valley. Reached by mail coach, 34 miles, or boat. Has Anglican and Wesleyan churches, school (of 60 scholars), M.U.I.O.O.F. lodge, circulating library, institute, and council hall. Agricultural and mining district. Water from springs and tanks. Population, district, 400. Rapid Bay is a shipping place about 3 miles distant.

DRY CREEK (34° 52′ S. lat., 138° 39′ E. long.), a postal and telegraph station in county Adelaide, electorate of Yatala north, 6½ rail miles N. of Adelaide. Omnibus also runs twice daily; fare 1s. Has school; Wesleyan church; smelting works, and Yatala Labour Prison and Guards' quarters. Prison is lighted with gas made within its walls. Water from Hope Valley reservoir. Agricultural district. Railway station is at Quarries, 3 miles distant. Formation: quartzite. Population of district, 1,100.

DUBLIN (34° 30′ S. lat., 138° 15′ E. long.), co. Gawler, is a post town with telephone station, 37 postal miles NW. from Adelaide, reached by mail coach daily. Has hotel, State school, Anglican and Primitive Methodist churches and Institute. Water from Artesian wells. Game shooting on Baker's Creek.

Agricultural and pastoral district. Population, township and district, 250.

DULWICH, a suburb about two miles East of Adelaide, in the electorate of East Torrens, county of Adelaide, and District Council of Burnside. It has a Government water supply and a post-office. Population, about 200.

DUTTON (34° 20′ S. lat., 139° 10′ E. long.), a postal township on Pine Creek, in the co. of Eyre, electorate of Light, district council of Truro, 62 miles N. of Adelaide, with which there is rail and coach communication *viâ* Freeling. It has a public and two German schools, three places of worship, two Lutheran and Congregational, two or three tradesmen's shops, lighted with kerosene and tallow; water from dams. Mount Rufus and Leake's Look-Out are points of interest. Agricultural and pastoral. Population of township and district, about 360.

EASTWOOD post town, with money-order office, telegraph station, and savings bank, two miles S. of Adelaide, in the county of Adelaide, and District Council of Burnside. Free Gardeners' lodge. The town is lighted with gas, has deep drainage, and Government water supply. Boot factory. Population, about 2,000.

ECHUNGA (35° 7′ S. lat., 138° 50′ E. long.), a postal, telegraph, and money-order township, 21 miles (30¾ postal) SE. of Adelaide, on the road to Strathalbyn, Milang. It is in the electorate of Mount Barker, and partly in county Adelaide, and partly in county Hindmarsh. Communication by rail from Adelaide to Aldgate, and thence by coach. Hotels: Hagan Arms and Bridge. The district is partly agricultural, and in part a mining one. The council covers 69 square miles. Fruit, hay, pease, onions, and potatoes are principally raised. A considerable quantity of gold has been yielded by the workings in the vicinity of the town. The alluvial diggings of Jupiter are situated about three miles out of the township. Silver is also found; and from time to time numerous diamonds of small size have been unearthed. Gold was first discovered on Echunga Gold-diggings in August, 1852, by Chapman and Hampton; the first day's washing with the dish yielded 10 ounces. For this discovery the party received a reward of £500 from the Government. Has Episcopal (St. Mary's) and Wesleyan churches, Institute, opened in April, 1886; public school, Oddfellows' and Hibernian lodges, and creamery. The climate here is very salubrious, and the neighbourhood is a favourite resort during the summer months of pleasure parties from the plains of Adelaide. Population 200.

EDEN VALLEY (34° 40′ S. lat., 179° 6′ E. long.) is a post town, with money-order office and telephone with Mount Pleasant, situated on the Eden creek, 44½ miles NE. of Adelaide, in the District Council of South Rhine, county of Sturt, and electorate of Gumeracha. The district is taken up by farms and stations. The metropolis is reached by conveyance *viâ* Mount Pleasant, or coach and rail *viâ* Angaston and Freeling. The schools are Government. Hotel: Eden Valley. There are Baptist and Lutheran chapels. The district is fertile for wheat and vine growing, &c., the crops being best when the season is not very wet. Population, 117.

EDITHBURGH (35° 5½′ S. lat., 137° 45′ E. long.), a pleasant watering-place and municipality, with post, money-order, telegraph, and Savings Bank, 103 postal miles (57½ by water) (*viâ* St. Vincent) W. of Adelaide, on the eastern shore and electorate of Yorke's peninsula, in Fergusson co., Melville Hundred. There is steamer communication with Port Adelaide twice a week. Hotels: Edithburgh, and Troubridge. Also Anglican and Wesleyan churches, Custom House, Bank of Adelaide (open weekly), an Institute, a public school, M.U.I.O.O.F. and I.O.R. societies, A bright white light, visible about 5 miles, is shown at night from the outer end of the jetty. The jetty is 500 feet long, and has at the outer end a depth of upwards of 12 feet. Water from underground tanks. The district of Melville has an area of 148 square miles. Industries: salt, lime and flux. Formation: limestone. Population, 240; district, 1,500.

EDWARDSTOWN (34° 59′ S. lat., 138° 36′ E. long.), a suburb of Adelaide, in the District Council of Marion on west side main south road, District Council Unley and Mitcham on east side, about 4 miles distant SW. Buses run frequently during the day. Has post-office, telephone station, two hotels. Episcopal (St. Mary's) and Methodist churches; public and private school, Institute; furniture factory, chaff mills, wine and fruit industry. Products: wheat, hay, wine, fruit, almonds. Population, about 500.

ELLISTON (33° 39′ S. lat., 134° 52′ E. long.), a post town and District Council, with telegraph station, savings bank, and money-order office, 293½ postal miles W. of Adelaide, in county Musgrave and Flinders electorate, on Waterloo Bay. Coach to Port Lincoln, thence steamer to Port Adelaide, also by sailing vessel direct. It has hotel, Episcopal and Wesleyan churches, public hall, public recreation ground, court house and public school, literary society and institute. Stipendiary magistrate holds court every 4 months. Much wheat is grown in the district, and a large area is utilised for squatting purposes. The wheat and wool are shipped from Waterloo Bay, the port of the district. Wild and rugged coast scenery. There is here life-saving and rocket apparatus, with trained crew. In the early days of the Colony the police and station hands drove 200 natives (who had murdered a white man) over the cliffs into the sea hundreds of feet below. Water from wells and underground tanks. Formation: limestone, with large outcrops of granite. Population of town, 150; district, 1,000.

ENCOUNTER BAY. (*See* Port Victor.)

EUDUNDA (34° 7′ S. lat., 139° 0′ E. long.), co. Eyre, railway station, with post, money-order office, telegraph and telephone station, and savings bank, on the Kapunda and Morgan line, 69 miles NE. of Adelaide; fares, 11s. 4d. and 7s. 1d.; three trains daily. Hotels: the Eudunda and the Royal. There are here a branch of the National Bank of Australasia, large wheat stores, recreation park, local court, and police-station, flour-mill, foundry, a State school, Church of England, Roman Catholic, Methodist and Lutheran (2) churches, German club. M.U. Oddfellow and Rechabite lodges. It lies 1,350 feet above sea-level, and is very picturesque. It is in the District Council of Neales, county of Eyre, and electorate of Light. It is the centre of a large wheat-growing district. Wool, wheat, and firewood are the products. Lighted with kerosene. Population, 600; mostly German.

EURELIA (32° 34′ S. lat., 149° 35′ E. long.), shire of Newcastle, county Dalhousie, a post town, money-order office, telegraph and railway station, on the Great Northern line and the Main North Road, 189½ miles N. from Adelaide. Fares, 31s. 6d. and 19s. 9d. It has two stores, blacksmith and wheelwright's shop, one hotel (Eurelia), public school, Bible Christian place of worship, and lighted with kerosene. Copper, manganese, and flux found. Population of district, which is pastoral and agricultural, about 2,000.

FARINA (Government Gums), (30° 8′ S. lat., 138° 17′ E. long.), post, a money-order office, savings bank, railway (thrice weekly), and telegraph station, 408¼ rail miles N. of Adelaide, 198½ N. of Port Augusta, in the Flinders electorate, on Leigh Creek. Fares from Adelaide, 68s. and 42s. 7d. Coach runs to Oontoo (Q.), Innamincka, Murnpeowie, and Haddon Douns. Hotels: Transcontinental and Exchange. Public school and Anglican and Roman Catholic churches, and police-station. Extremely hot in summer, but healthy. Water from reservoir. There are numerous pastoral stations in the vicinity. Highly mineral district, but water needed. Formation: sandstone, with red clay, gypsum, crystalline veins. Population, about 300.

FARRELL'S FLAT (33° 54′ S. lat., 138° 45′ E. long.), county and electorate of Burra, District Council of Hanson, a post town, with money-order office, telegraph and railway station, on the North Line, 88 rail miles NE. of Adelaide. There are two trains each way daily; fares, 14s. 6d. and 9s. 1d. Hotel: Hanson. Churches: Wesleyan and Roman Catholic (Holy Angels). School. Institute. It lies 1,418 feet above sea-level. Agricultural and pastoral district. Good shooting on Porter's Lagoon, 6 miles distant. Formation: slaty. Population 148.

FINDON (34° 58′ S. lat., 138° 35′ E. long.), a post town, suburban to Adelaide, in the District Council of Woodville and the electorate of West Torrens, 3¾ miles NW½W., or 39° N. of W. from Adelaide Observatory, on the river Torrens. It can be reached from the Woodville Railway Station, from which it is 1¼ mile distant. A Bible Christian chapel is here. The country is a plain formed by alluvial and diluvial deposit of stiff marly clay, of a rich chocolate colour, slightly mixed with limestone rubble to a depth of 15 to 20 feet, overlying loose calcareous tufa, which is barely covered with vegetable mould, and is sometimes used for building purposes. Water from Happy Valley. Lucern very extensively cultivated. Population, about 300.

FINNISS VALE. *See* Second Valley.

FLINDERS TOWN. *See* Streaky Bay.

FOWLER'S BAY (31° 59′ S. lat., 132° 49′ E. long.), county Hopetoun, a post and telegraph station with money-order and savings bank office, on the coast, about 879½ postal miles NW. of Adelaide. Communication by coasting schooners, or overland fortnightly mail to Point Lincoln, thence steamer. Has hotel, State school, and police station. It is a squatting locality, and much wool is grown about here. Salt swamps. Population, 40; district, 300.

FRANCES (35° 32′ S. lat., 140° 59′ E. long.), a post-town, with money-order office, telegraph, and railway station, in the co. of Macdonnell, electorate of Albert, 216¼ rail miles E. of Adelaide, fares, 35s. and 22s., and about half a mile from the Victorian border. It is 76½ miles from Kingston on the sea coast, with which it has daily rail communication. Has hotel, school, Roman Catholic church, and institute. Farming and grazing district. Population, about 200.

FREELING (34° 28′ S. lat., 138° 48′ E. long.), 37 rail miles N. of Adelaide, a postal, savings bank, and money-order town, telegraph and railway station: fares, 6s. and 3s. 9d., in the county and electorate of Light, district Council of Nuriootpa, on the Adelaide, Gawler, and Kapunda line, 627 feet above sea-level. It is the centre of a large wheat-growing district, and the place where the main road from the Murray at Blanchetown meets the Railway. Hotels—Freeling, and Railway. There are several large wheat stores and other places of business, an Institute. Wesleyan and Lutheran churches, and public school. Coaches leave here twice daily for Angaston, once daily for Truro, and twice a week for Blanchetown. Population, 137.

FREWVILLE, a postal town in the electorate of East Torrens, county of Adelaide, and District Council of Burnside, is situated 2½ miles S.E. of Adelaide. Trams pass frequently; fare, 3d. Government water supply. Number of houses, 55. Population, 197.

FRIEDRICHSWALDE (34° 8′ S. lat., 183° 58′ E. long.), a post town in the county and electorate of Light, and police district of Kapunda, 67 postal miles direct N. of Adelaide, communication with which is *viâ* Marrabel and Kapunda. It lies between the River Light and the Julia creek, each 3 miles distant W. and E. It has a school, a church (Lutheran), and a store. It is a hilly, fertile, agricultural district. Population, under 60, principally Germans; in the district about 260.

FULHAM (34° 58′ S. lat., 138° 40′ E. long.), a postal town, suburban to Adelaide, about 5½ miles W., in a straight line from Hindley Street, in the county of Adelaide, and electoral district

of West Torrens. It is the central part of the "Reed Beds." A Wesleyan chapel is here, also a Government school, and a stud farm. Henly Beach tram to city. Water from wells. Industries: lucerne growing, dairy and poultry farming, quarrying. Population, about 200.

FULLARTON (34° 58′ S. lat., 138° 39′ E. long.), a ward of the Corporation of Unley (which see). It is 3 miles from Adelaide. Has usual postal facilities. In the township is the Fountain Inn, large State school, several churches, institute, and friendly societies, the Home for Incurables, which has been in existence seventeen years, supported by private subscriptions, supplemented by Government. Several market gardens are in the neighbourhood. Has about 450 residences, and a population of 2,200.

FURNER, a postal town 351¾ miles SE. of Adelaide, county Grey, is situated on the banks of the Reedy Creek Drain, about 18 or 19 miles from Millicent in a northerly direction. There is a Council office, which is also used as a school-house, Presbyterian church, one hotel (Kintore), a general store, and a few dwellings. Communication is only to be had by mail (horse) twice weekly, or by hired trap. Water from wells and tanks. Population about 400.

GAMBIERTON. *See* MOUNT GAMBIER.

GAWLER (34° 39′ S. lat., 138° 45′ E. long.), a municipal township, with post, money-order, savings bank offices, and telegraph station, in the county and police district of the same name, and electorate of Barossa, at junction N. and S. Para river, 176 feet above sea-level, 24¾ rail miles NE. of Adelaide, with which it has railway communication, several trains running daily each way; fares, 4s. and 2s. 6d. A railway station, costing £3,000, was opened February 21, 1880. A tramway leads to it from the extreme end of the town (fare, 3d). Two lines of omnibuses meet every train. There are several well-conducted hotels: the Commercial, Prince Albert, Globe, Old Bushman, Old Spot, Exchange, and Gawler Arms. The municipal area is 560 acres, and is lighted with gas. It is one of the most thriving places in the colony; its prosperity being mainly owing to its being the centre of an immense wheat-growing district. There are in the town several mining and agricultural implement factories, James Martin & Co.'s engineering works, also establishments for coach building, foundries, saw-mill, three large flour-mills, brewery, and a large cordial manufactory. The places of worship are numerous, comprising St. George's Episcopal church, St. Peter and St. Paul's Roman Catholic church, and chapels belonging to the Congregational, Baptist, Presbyterian, and Methodist bodies. There are Freemason, Oddfellow, Forester, Druid, Rechabite, and Hibernian lodges, and several sports clubs. The following banks have branches in Gawler:—Union, National, and savings bank; and there are agencies of several of the leading insurance companies, and the stores and shops are second only to those at Adelaide. Silver, copper, lead, and gold found in the neighbouring ranges are being prospected. The town possesses a fine Institute, with a hall capable of accommodating 700 persons; and library and reading-room, also an Oddfellows' hall, Foresters' hall, and Town Hall. There is a large exhibition building and grand stand on a fine recreation ground. At the North end of Murray Street is a monument to J. McKinley, the explorer. A reservoir, holding 279,000 gallons, pumped up by powerful engines from a deep well, provides the water-supply of the town, but another scheme is in progress. The county of Gawler includes the District Councils of Alma Plains, Dublin, Dalkey, Grace, Mudla Wirra North, Mudla Wirra South, Port Gawler, and portions of Balaklava, Port Wakefield, Rhynie, and Stockport. Population numbers 2,260. The suburbs in the immediate neighbourhood bring up the population to about 5,000. Lighted with gas. The *Bunyip* is the local newspaper.

GEORGETOWN (33° 18′ S. lat., 138° 14′ E. long.), on Yackamoorundie Creek, in the District Council of Georgetown, electorate of Victoria, and county of Victoria, a money-order office, savings bank, and telegraph station, 129 miles (129¼ by rail) N. of Adelaide, with which it is in daily communication; fares, 21s. 6d. and 13s. 5d., situated on a rich alluvial plain (Gulnare) between two low ranges of hills. Has two hotels, Baptist and Roman Catholic chapels, Church of England, convent school, and public school, an Institute, creamery, and one machine works, and Bank of Adelaide. The district council covers 87 square miles, land under cultivation in county Victoria, 255,186 acres; wheat extensively grown; Huddlestone is 7 miles from Georgetown, and is a railway siding. Population, 200; district, 1,433 (census 1891).

GILBERT TOWN (34° 57′ S. lat., 138° 38′ E. long.), county of Adelaide, electorate of North Adelaide, is a post town suburban to Adelaide, from which it is 2 miles distant. Conveyance, tramway; fare, 3d. Inn: the Buckingham. Gilbert Town is in the Walkerville District Council. Lighted with gas.

GILES CORNER (co. Light, electoral district Woorroora, district council Stockport), a county postal township, 58¾ miles N. of Adelaide, on the Marorara Creek. Has one school and United Methodist church, plough factory. Agriculture and viticulture. Population, about 100.

GLADSTONE (33° 16′ S. lat., 138° 17′ E. long.), a corporate town, with a telegraph station, savings bank, money-order office, and railway station, 738 feet above sea-level, 134 miles N. of Adelaide (136¼ by rail). Communication is by rail *viâ* Blyth and Terowie, or rail and steamer *viâ* Port Pirie. There are three trains daily from Port Pirie, fares, 5s. 6d. and 3s. 5d.; fares from Adelaide, 22s. 8d. and 14s. 2d. Hotels: Commercial, Booyoolie, and the Gladstone. It has an Institute opened in 1878, a town hall, police head-quarters, and two large chaff mills. Bank: National. Insolvency and Circuit Courts are held here. Places of worship: St. Alban's (Episcopal) church, St. Peter's (R.C.), and Methodist chapels. One side of the railway is Gladstone and the other Booyoolie. A large gaol, which cost £21,600, is here. Fine cattle and sheep-yards have been erected by the Corporation, at which sales are conducted monthly. There is a branch of the Agricultural Bureau. Gladstone is in the county of Victoria, and chief polling place in electorate of Gladstone. Its area is 116¼ square miles. The population of the town is 800. Newspaper: *Areas Express.*

GLENBURNIE (37° 52′ S. lat., 144° 44′ E. long.) is in the county of Grey, electoral district of Victoria, and district council of Mount Gambier East, 290 miles SE. of Adelaide. Coach runs to Casterton *viâ* Mount Gambier. It is 4½ miles E. from Mount Gambier, and 6 miles W. of the east boundary of the colony, on an old sea-bed. A Wesleyan chapel and national school-house (60 pupils) are the only public buildings. Water from wells. Agricultural, fruit culture, and dairying district.

GLENELG (34° 39′ S. lat., 138° 35′ E. long.), a watering-place and municipality, with post, money-order, savings bank and telegraph office, on Holdfast bay or the Patawalonga creek, 6½ miles SSW. from Adelaide. It is in the county and police district of Adelaide, and electorate of Sturt. It is a favourite place of resort during the summer months. The hotels are Pier, Family, Jetty, Terminus, St. Leonard's, Berkshire, Globe, and Broadway. The places of worship are Episcopal (St. Peter's), Wesleyan, Roman Catholic (Our Lady of Victories), Congregational, Church of Christ, and Primitive Methodist. There is a Town Hall, in which the Glenelg Institute (with 2,400 vols.) has accommodation, and there are also several relics of the early days. Has Masonic, Oddfellows, Foresters, Druids, and Rechabite societies. A State school and several private ones. Swimming baths. Two Government railways connect it with Adelaide, trains running each way about half-hourly. A fixed red light on an iron lighthouse—the lantern being 39 feet above high-water mark—is placed on the head of the jetty (which is 1,356 feet in length, with a depth of 11 feet of water at the outer end). It was off Glenelg, better known as Holdfast Bay, that H.M.S. *Buffalo* anchored in 1836, when South Australia was proclaimed a British province by Governor Hindmarsh, under the historical "Old Gum Tree," which is situated about half a mile from the beach, and on the 18th June, 1887, young gum trees were planted around the old one to perpetuate its memory. Glenelg is supplied with gas and water. Agricultural district, of sand, sandstone, and conglomerate formation. Area of municipality 560 acres, property of annual rateable value of £37,398. Population of the municipal district about 4,000.

GLENGROVE. *See* DASHWOOD'S GULLY.

GLEN OSMOND (34° 58′ S. lat., 138° 39′ E. long.) (Hundred and County of Adelaide, District Council of Burnside and corporation of Unley, and electorate of East Torrens), a pretty suburban village, 4 postal miles SE. of Adelaide, noted for its stone quarries, from which about two-thirds of Adelaide is built. Has post office and telephone bureau. Tramway connection with Adelaide; fare, 6d. Some of the first silver mines were opened here, shortly after the site of Adelaide was laid out, but could not be made to yield a paying return, and were consequently abandoned, after a great expenditure in buildings. A remnant of the works there erected is still a conspicuous object in the shape of a large white chimney about the middle of the hill, which serves as a landmark at sea. Has hotel (Vine Inn), State school, Episcopal church (St. Saviour's, with parish hall), Baptist chapel, St. Paul's Retreat (R.C.), occupied by Passionist Fathers, and an Institute (the second oldest in the province), with lecture hall attached, and library of 2,000 vols. M.U.O.O.F. lodge, with Juvenile branch. The Archbishop of Adelaide resides here. Several stone-breaking machines are in use at the quarries for reducing the stone for road-metalling. Agricultural and fruit-growing district. Population, about 400.

GOODWOOD, a large and flourishing suburb, in the county of Adelaide, and electoral district of Sturt. Corporate town of Unley. Three rail miles south from Adelaide. It has a post office, telegraph station, money-order office and savings bank. Hotel: Goodwood Park. Church of England, Roman Catholic, Baptist, Presbyterian, Bible Christian, and Wesleyan places of worship, State school, Oddfellows and Druids lodges, and Institute. Communication by rail, fare, 6d. and 3d. return, and by tramway, fares, 2d. and 3d., single. Population, 3,600.

GOOLWA (35° 31′ S. lat., 138° 50′ E. long.) (county Hindmarsh, hundred Goolwa, electorate of Encounter Bay), a corporate town of two wards, north and south, on the west bank of the Murray, 7 miles from its mouth, about 60 miles (71½ by rail) S. of Adelaide, is the oldest established port in connection with the trade of that river and its tributaries. A small river trade is being done. One of the chief industries is fishing, which gives employment to a large number of men. Several tons of fish are sent to Adelaide and Melbourne markets weekly. Communication with Adelaide is by rail daily; fares, 10s. 5d., and 6s. 11d. Hotels: Corio, Australasian, and Goolwa. Goolwa has a custom-house, telegraph, post, savings bank, and money-order offices, morgue, police-station, Marine Surveyor's office, court-house, Wesleyan chapel, and Church of England (Holy Evangelist), Roman Catholic church, a large State school, Mechanics' Institute, with hall attached; numerous stores, I.O.R. and I.O.F., M.U.I.O.O.F., Freemasons' lodges, patent slip (the only one on the rivers), and building yards for building and repairing steamers. The municipality covers 2 square miles. It is connected with Strathalbyn, Port Elliot, and Victor Harbour (10¾ miles distant) by rail, and also with Hindmarsh Island by means of a ferry across the Murray. The district is of an agricultural and pastoral character, and the soil is alike suitable for both purposes.

Water from Government rain-water tank. Formation: post tertiary. It is considered that Goolwa, with its important geographical position, will, with the advent of Inte-Colonial free trade and the abolition of the preferential railway tariffs now existing on the Bourke (N.S.W.), Echuca (Vict.), and Morgan (S.A.) lines, eventually become the New Orleans of Federated Australia, and the chief outlet for the trade of the largest river in Australia. Population, about 700.

GORDON (32° 7′ S. lat., 138° 10′ E. long.), a post village, with telegraph and railway station, 236 miles (255½ rail) N. of Adelaide, district and county of Newcastle, hundred of Kanyaka, on the direct line of the Port Augusta and Government Gums Railway. It is 45½ miles from Port Augusta, fares, 7s. 8d. and 4s. 10d.; from Adelaide, 42s. 6d. and 26s. 7d. Hotel: Kanyaka. Bible Christian and Roman Catholic places of worship. Public school. Wheat is extensively cultivated. Water from Kanyaka springs. Copper abounds in the vicinity, and Kanyaka mine now being worked. Population, 58.

GRACE (34° 30′ S. lat., 138° 20′ E. long.) which has post-office, is 40 miles N. of Adelaide, co. Gawler, hundred Grace, district of Yatala. It has Bible Christian church, and a State school. Products, wheat, wool, &c. Communication with Adelaide by rail to Mallala, thence irregular conveyance.

GRAND JUNCTION (34° 53′ S. lat., 138° 39′ E. long.) is in the county of Adelaide, hundred of Yatala and electorate of West Torrens situated near the Dry Creek Railway Station, about 6 miles N. of Adelaide. Conveyance is by mail coach or railway: fare, 1s. Hotel: Cavan Arms. The Government school on Sundays is used as a place of worship. Partly agricultural district, but very swampy.

GREENOCK (34° 30′ S. lat., 138° 58′ E. long.), post, money-order, savings bank and telegraph township on the creek of the same name, 45 miles N. of Adelaide, in the District Council of Nuriootpa, and county and electorate of Light. Coaches ply twice daily to Freeling to meet the trains. Hotels—the Greenock and the Greenock Creek. The Wesleyans, Lutherans, and Roman Catholics (St Boniface's) have churches here. There is a State school, an institute, branch Bank of Adelaide, Oddfellows' and Foresters' societies. There is a large extent of land in the district available for agricultural purposes. Wheat takes precedence of other crops. Population, 300.

GRUNTHAL (35° 2′ S. lat., 138° 51′ E. long.), a post town, with telegraph station, on the Onkaparinga river, 29¼ postal miles E. of Adelaide. Communication is by coach to Ambleside, thence rail. Coach also runs to Hahndorf and Grunthal, distance by rail 27½ miles, road 17 miles. Hotel: Stanley Bridge. It is in the electorate of Onkaparinga. There are some orchards and gardens, and copper mining to a limited extent has been carried on. Has Bible Christian church, public school. Water from tanks and wells. Pastoral district. Population of town and district, 200.

GUMERACHA (34° 50′ S. lat., 138° 56′ E. long.), a township 23 miles NE. of Adelaide, situated on the Torrens, on the main line to Mannum, in the District Council of Talunga, county of Adelaide and electorate of Gumeracha. There is mail coach communication twice daily with Adelaide. Hotels: District and Kenton Arms. There are places of worship belonging to the Wesleyans and Baptists; a branch of the Bank of Adelaide, money-order, savings bank and telegraph offices, a flourishing cheese and butter factory, a police station, school, Rechabite and Oddfellow societies, court-house, and an Institute. Gumeracha is one of the prettiest townships NE. of Adelaide, and the surrounding scenery is very fine. It is admirably adapted and extensively used for a summer resort. Agricultural and pastoral district. Population, 500.

HAHNDORF (35° 3′ S. lat., 138° 57′ E. long.) (county of Adelaide, electorate of Mount Barker), 17 miles (31¼ postal) E. of Adelaide, in the District Council of Echunga. There is coach communication twice daily to Ambleside railway station, one and a half miles away. Hotels: German Arms and Union. It has a telegraph, savings bank, and money-order office, Institute and library, and an agency for the Bank of Australasia. There are two Lutheran churches, an Anglican church, a flour-mill, and a jam factory. There is a splendid avenue of elms and Spanish chestnuts in the centre of the town nearly two miles long. The Hahndorf College has taken a high place among the educational establishments of the colony. Wattle bark, onions and potatoes are extensively grown in the district. Sailors' Gully and Saw Mill Gully are gold-fields situated about 1½ miles respectively from this township; there are several gold-bearing reefs. This locality was settled in 1838 by Germans, religious refugees from Prussia. It is a favourite resort for artists. The town is named after Captain Hahn, who commanded the *Zebra*, one of the two ships in which they sailed. Population, 500, the majority of them being Germans.

HALBURY (34° 5′ S. lat., 138° 30′ E. long.), co. Stanley, on Halbury Creek, is a post town with railway station, 74 rail miles N. from Adelaide. Has State schoo', Bible Christian church, and District Council hall. Pastoral and agricultural district. Population of township and district about 100.

HALLETT (33° 27′ S. lat., 138° 52′ E. long.), a post town, with telegraph, savings bank, money-order office, and railway station, on the North Line, 1,970 feet above sea level, 119¾ rail miles NE. of Adelaide; fares, 18s. 8d. and 12s. 5d. Hotels: Unicorn and Hallett. It is in the county and electorate of the Burra. It has a public school, some stores and other buildings, Methodist chapel, and an Institute, built of stone. Mount Bryan is a point of interest, about 6 miles distant. The District Council of Hallett covers 300 square miles; annual assessment, over £5,000. Mainly pastoral. Population of town, 250.

HAMILTON (34° 13′ S. lat., 138° 53′ E. long.) (county and electorate of Light) is a money-order township, situated on the River Light, 58 postal miles N. of Adelaide. Communication is by rail to Kapunda, thence by coach. The Bible Christians have a place of worship here, and there is also an Episcopal church (St. Matthew's), M.U. lodge, implement factory, and a public school. A large tract of land in the district is devoted to the growth of wheat. The District Council extends over 64 square miles; Population, about 50.

HAMLEY BRIDGE (34° 21′ S. lat., 138° 42′ E. long.), a post town, with money-order, savings bank, telegraph and railway station—on the North Line—in the county of Gawler, electoral district of Wooroora, and district council of Alma Plains, 44½ rail miles N. of Adelaide, situated on the River Light, very near its junction with the Gilbert, 377 ft. above sea-level. Two trains run each way daily, fares, 6s. 11d. and 4s. 7d.; the lines to Blyth, Port Wakefield and Gladstone branch off from here. Hotels: Hamley Bridge, Alma, and Dublin. Churches: Anglican, Roman Catholic and Congregational. State and Roman Catholic schools and four stores. Has institute and Rechabite society. Agricultural district. Population, 300.

HAMMOND (32° 26′ S. lat., 138° 16′ E. long.), a post town, with money-order office, telegraph, savings bank, and railway station, on the line from Petersburg to Quorn, lying 1,036 feet above sea-level, 45⅝ miles E. of Port Augusta, and 213½ miles N. of Adelaide, fares, 35s. 6d. and 22s. 3d. Coach to Wilmington. It is in county Frome and Newcastle electorate. A branch of the Bank of Adelaide is here. Anglican, Roman Catholic and United Methodist places of worship. Town Hall. State school, creamery and butter factory, agricultural district. Hotel: Hammond. Population about 200.

HARROGATE (34° 56′ S. lat., 139° 0′ E. long.), a post town, in the county of Sturt, district council of Nairne, and electorate of Onkaparinga, 42¾ postal miles E. of Adelaide, on the Bremer river. It has school and United Methodist place of worship. It is rough, hilly country, but suitable for farming and grazing. Reached by rail to Nairne, conveyance thence. Population, 118.

HAWKER (hundred of Wonoka, county Blachford, electorate of Newcastle), a post town, with money-order office, savings bank, telegraph and railway station, 65¼ miles N. of Port Augusta; fares, 11s. and 7s., and 248 miles (275¾ by rail alternate days) N. of Adelaide; through fares, 45s. 10d. and 28s. 8d. It is on the Great Northern Line, and lies at an elevation of 1,030 feet above sea-level. Hotels, Royal and Wonoka. There is here Mechanics' Institute, a Wesleyan chapel, Anglican and Roman Catholic Churches and Salvation Army; Rechabite, Forester and Oddfellow societies. Bank: Bank of Adelaide. Population 900. The Hawker District Council supervise the roads, &c., of the surrounding country.

HERGOTT SPRINGS (electorate Flinders), a station on the Great Northern Railway, 440¼ miles nearly due N. of Adelaide. It has a post, money-order, savings bank and telephone and telegraph office, and a date-palm plantation (with about 300 palms producing good fruit) near the township. There is also a plantation at Lake Hairy, 20 miles N.E. of Hergott, containing 2,700 young palms watered by an artesian bore. Supply, 100,000 gallons daily. It is 231 miles N. of Port Augusta by rail, trains running alternate days; fares, 38s. 8d. and 24s. 2d.; from Adelaide, 441¾ rail miles, 73s. 6d. and 46s. Coach to Birdsville, Q. Has hotel—Great Northern—and Government school, Methodist church. Water from artesian bore, about 50,000 gallons daily. Pastoral, with a little copper mining. Population, about 150 Europeans and 50 Afghans.

HINDMARSH (34° 56′ S. lat., 138° 33′ E. long.), a suburban post town, with money-order office, Government savings bank and telegraph station, on the River Torrens, 2½ rail miles NW. of Adelaide. Rail and tramway communication. This corporate town comprises Hindmarsh, Bowden, Brompton, Brompton Park, Carrondown, Ridleyton, Hindmarsh West, New Hindmarsh, and Croydon. It contains about 2,500 dwelling-houses, has an area of almost 3 miles, and property annually rated at £51,000. The National Bank, Bank of Adelaide, and savings bank have branches here, and among the public buildings are a Town Hall and Institute, two public schools and several private ones, Church of England, Roman Catholic and chapels belonging to the Congregationalists, Baptists, Church of Christ, Methodist, Salvation Army, and Christian Disciples, and numerous friendly societies There are numerous hotels, and several manufactories are carried on, there being a number of tanneries, and fellmongeries, one brewery, gas works, 2 potteries, rope manufactory, 4 soap works, 2 glass bottle manufactories and 1 woollen flock mill, and numerous brickyards. Town is lighted with gas. Formation: clays, mammaliferous drifts. Population about 10,000.

HINDMARSH ISLAND, 55 miles (77 postal) S. of Adelaide, situated near the entrance to the River Murray, in co. Hindmarsh, hundred of Encounter Bay. Reached by rail to Goolwa, thence ferry. Has State school, Wesleyan chapel. Products: butter, cheese, wheat, barley, oats, &c., horned stock and firewood. Water from underground tanks. Population, about 120.

HOG BAY (35° 45′ S. lat., 137° 48′ E. long.), 68 miles (56½ postal) SSW. of Adelaide, is a small village on Kangaroo Island, situated on the shores of St. Vincent's Gulf, in co. Carnarvon, hundred Dudley, electorate Encounter Bay. Has post and money-order office. The inhabitants are chiefly engaged in agricultural pursuits, and barley is principally grown. Good land. Communication twice a week by steamer. Wesleyan and Church of England places of worship. Government school. Population about 80.

HOPE VALLEY (34° 47′ S. lat., 138° 39′ E. long.), a post town on the creek of the same name, in the county of Yatala, electoral and police district of Gumeracha, and District Council of Highercombe, 10¾ postal miles distant from Adelaide, NE. by

E. Hope Valley is on the main line of road from Port Adelaide to the river Murray, and is reached from Adelaide by the railway to Dry Creek, thence by mail coach each day to Ardtornish, which is within one mile of Hope Valley; a tram from Paradise. Hotel—the Bremer. Half a mile from here is the reservoir, whence part of Adelaide is supplied with water. Places of worship—Methodist and Primitive Methodist chapels and Lutheran church; also M.U. Oddfellows' lodge of 118 members, and a public school. Wine and fruit-growing industries. The adjacent country is fertile and undulating. Population of district, about 50.

HORROCK'S CREEK, 200 (245 postal) miles N. of Adelaide, co. Frome, hundred Woolundunga, district Newcastle, situated at the foot of Flinders Range. Population scattered, and chiefly engaged in agriculture and pastoral pursuits. Products: wheat, wool, sheep, cattle, and firewood. Communication by mail coach.

HOUGHTON (34° 38′ S. lat., 138° 44′ E. long.), a post town in the county of Adelaide, district council of Highercombe, and electorate and police district of Gumeracha, 14 miles NE. of Adelaide. Conveyance by mail coach; fare, 2s. 6d. Hotel: Travellers' Rest. A Government school and Congregational and Wesleyan chapels are here. Formation: ironstone. Population, 115.

HOYLETON (34° 3′ S. lat., 138° 34′ E. long) (county Stanley, electorate of Wooroora, Hall district council) is a post town, money-order, and savings bank office, telegraph and railway station, on the Hamley, Gladstone and Port Pirie Railway, fares 13s. 2d. and 8s. 3d., and lies 79½ rail miles N. of Adelaide, and 9 miles W. of Auburn. It has an hotel (Hoyleton), public school, a Wesleyan chapel, Lutheran church, and Forester lodge. Water from Peak Springs. It lies 636 feet above sea-level. Population about 80.

HUMBUG SCRUB (34° 38′ S. lat., 138° 52′ E. long.), 25 (38¾ postal) miles NE. of Adelaide, small postal village in the hundred of Parra Wirra, electorate Gumeracha. Gawler nearest railway station. There are several gold and copper mines, the Parra Wirra being in work. Wesleyan chapel and public school. Population about 30.

HYDE PARK (electorate of Sturt, co. Adelaide, and part of the corporation of Unley), is situated two miles from Adelaide, of which it is a residential suburb. It is lighted with gas, and has Government water supply. Hyde Park Hotel. Bible Christian church. A.O.F lodge. Tram communication from Adelaide; fare, 3d.

INGLEWOOD (34° 48′ S. lat., 138° 46′ E. long.), a post town 15½ miles NE. of Adelaide. It contains one hotel. Products: firewood, fruit, and vegetables. Mail coach runs twice daily. Population, 70.

INMAN VALLEY (35° 30′ S. lat., 138° 31′ E. long.), a post town, on Nixon's Creek, in the co. of Hindmarsh, and electorate of Encounter Bay, 56½ postal miles S. of Adelaide, *viâ* Yankalilla. Pastoral and agricultural district, watered by the Nixon and Inman streams. Yankalilla is 8 miles distant. Has one school and Methodist church. Agricultural and pastoral. Population, about 200.

JAMESTOWN (33° 13′ S. lat., 138° 32′ E. long.), county Victoria, electorate of Burra, a post and corporate town, having four wards with money-order and savings bank office, telegraph and railway station (on the Port Pirie and Terowie line), distant from Port Pirie 52½ miles, fares, 8s. 8d. and 5s. 5d. (through fares from Adelaide 26s. and 16s. 3d.), 155½ rail miles (176 postal) N. of Adelaide, from which there is communication by rail. It lies 1,495 feet above sea-level. Hotels: Commercial, Globe, Railway, and Jamestown. A handsome Institute, hospital, public library, a public school, branches of the National and Union Banks, and places of worship belonging to the Episcopalians (St. James's), Presbyterians, Wesleyans, Baptists, and Roman Catholics (St. James's). Has Masonic and Foresters' lodges and branch of the H.A.C.B.S. Lighted with kerosene. A court of limited and full jurisdiction is held monthly. There is a volunteer mounted infantry corps, agricultural society, and racing club, a roller flour-mill, agricultural implement factories, aerated waters, cordials, and tomato sauce factories, stores, and cattle and stock salesmen. It is a compact, pleasing-looking township, standing on both sides of a three-chain road, which is ornamented by two rows of splendid trees, comprising about 10 varieties of the Eucalyptus family. It has also many reserves and plantations in and around the town. The town is surrounded by park lands, and there is a splendid 40-acre paddock, laid out as a recreation reserve, and planted with trees of all kinds. Within the district, and a few miles from the town, there is a Government forest reserve of several thousand acres, where hundreds of thousands of trees are planted, and their growth show the suitability of the climate and country to this industry. It is an agricultural and pastoral district. Copper and silver are found in the hills, but in unpayable quantities. The geological formation of the hills and plains is a stiff alluvial soil to great depth. The average rainfall is about 17 inches per annum. Population, town 1,100, and district, about 2,500. Newspaper: *Agriculturist and Review*.

JUPITER CREEK (35° 8′ S., 138° 48′ E. long.), a goldfield, with post-office and telegraph station, about 3 miles from Echunga, in the county of Adelaide, and electoral district of Mount Barker, 15 miles SE. of Adelaide. Daily communication by coach to Aldgate, thence rail to metropolis. Has two hotels, State school, church, and Oddfellows' lodge. Agricultural and pastoral. Population fluctuates according to the number at work on the goldfield, averaging 200.

KADINA (34° S. lat., 137° 40′-E. long.), a corporate town (four wards), with telegraph, savings bank, and money-order office, situated in the northern part of Yorke's peninsula, 118½ postal miles (117¼ by rail) NW. of Adelaide, with which there is daily rail communication by land (fares, 19s. 6d. and 12s 2d.), and less frequent communication by sea *viâ* Port Wallaroo. The principal hotels are the Exchange, Wombat, Kadina, White Lion, and Miners' Arms. It is 6 miles distant from Wallaroo Bay. It is in the county of Daly, electorate of Wallaroo. Kadina owes its prosperity originally to the rich copper mines in the vicinity, which have for some time been in active operation, giving employment to a large number of men when in full work. The principal mines are the Wallaroo and Kurilla. The National Bank and Union Bank have branches here, and there are places of worship belonging to the Roman Catholics (Sacred Heart), Primitive Methodists, Wesleyans, Bible Christians, Episcopalians (Christ Church), and Congregationalists; also a public school, and an Institute (opened in June, 1883), and office of District Council. The municipality covers 1 square miles. Of late years a very important agricultural district has sprung up north and east. Population of the municipal district, about 1,700; adjoining mines, 2,500. Newspapers: *The Kadina and Wallaroo Times*, Wednesday and Saturday, *Plain Dealer*, Saturdays.

KAINTON (co. Daly, hundred Clinton) is a post town 114½ postal miles (*viâ* Taskeville) NNW. of Adelaide. Paskeville is nearest railway station. Coaches run to Maitland and Arthurton. Has two State schools, Council chambers, and Bible Christian church. Water from Beetaloo. Agricultural district, with a population of about 250.

KANMANTOO (35° 5′ S. lat., 139° 4′ E. long.) is situated within a short distance of the river Bremer, 33¼ miles (33¾ postal) ESE. of Adelaide (District Council of Nairne, county of Sturt, electoral district of Onkaparinga). Post and money-order office. Communication by rail to Nairne, thence per coach. Hotel: the Kanmantoo. There are three places of worship, a Primitive Methodist chapel, Wesleyan chapel, a church, St. Thomas's, belonging to the Roman Catholics, and two schools. There are several copper mines in the vicinity of the township, but not in work. The country surrounding Kanmantoo is taken up by farms and stations. The vine is grown in quantities in several places. Population, about 200.

KAPUNDA (34° 21′ S. lat., 138° 57′ E. long.) (county and electorate of Light), mining township, municipality, has telegraph station, savings bank, post and money-order office, 52 miles (48 rail) to the NNE. of Adelaide. It lies 765 feet above sea-level on river Light. There are three trains each way daily; fares, 7s. 10d. and 4s. 11d. The principal hotels are the North Kapunda, Sir John Franklin, Prince of Wales, and Lord Palmerston. The Bank of Adelaide and the National Banks have branches here, and several of the insurance companies have agencies. The Roman Catholics have a place of worship (St. Rose) and a convent, and the Episcopalians a good church (Christ Church), and an imposing schoolroom, and there are large churches belonging to the Methodists (who have a lecture-hall), Baptists, and Congregationalists. Masonic and Friendly Society lodges. There are one large State school and two private schools, one creamery and butter factory. A commodious Institute, with lecture-hall. A school of Mines and Industries was established in 1891, and is having a very successful career. One flour-mill working. The fire brigade is in charge of a permanent fireman, the station being in the Main street. Among other principal buildings are the court-house, post and telegraph offices, and railway station. The town is lighted with gas, and is provided with a recreation ground, 40 acres in extent, part of which serves for a cricket and football ground. Also an agricultural show ground of 13 acres. The water supply is derived from a reservoir at Taylor's run, about 5 miles NW. of the town, estimated to hold forty-one million gallons of water. The copper mines in the neighbourhood have long borne a world-wide celebrity. They were discovered in 1843, on Captain Bagot's sheep run, by the late Mr. F. S. Dutton, the first ore being raised in January of the following year; they have been in almost constant work till 1879, when they were closed. There are quarries of fine marble in the neighbourhood. A large quantity of the marble is used for monumental and ornamental purposes, as well as building work, and the new Parliament House in Adelaide is built of Kapunda marble. The stone is of the finest quality, and of every shade of colour, from a very deep blue to pure white, as well as variegated colours. Area of municipality is 560 acres. The county is a large wheat-growing district, and covers an area of 69,861 acres. The hospital, which is a fine commodious structure, is principally due to the liberality of the late Mr. F. H. Dutton, of Anlaby, who also subscribed £1,000 towards the public recreation park known as Dutton Park. Population of municipality, about 5,000. The *Kapunda Herald*, published once a week, is the local newspaper.

KEILLI, a post town, 129½ postal miles NW. of Adelaide, co. Daly, hundred Redhill, district Stanley. It is situated at the foot of Ingram's Gap, Barunga Ranges. State school and Bible Christian place of worship. Products: wheat and wool. Communication by rail to Brinkworth, thence by coach. Water from Beetaloo works. Population, 30.

KENSINGTON. *See* NORWOOD.

KERSBROOK (34° 47′ S. lat., 138° 52′ E. long.), a postal township on the Chain of Ponds creek, 3 miles from the main line of road, where the coach passes twice daily to Adelaide, from which it is distant 22 miles NE.; fare, 3s. 6d. It is in the county of Adelaide, and electorate and police district of Gumeracha. It has a Wesleyan church and Bethesda Chapel (Christian), a public school, a District Council Chamber, and Rechabite tent. Humbug Scrub diggings are 9 miles distant. The district is an agricultural one. Chief products—fruit, potatoes, wattle bark, and firewood. Adjoining is a small township

called Maidstone; it has no post office, but there are places of worship, and a council chamber. Maidstone was the original name, but both places are now more generally known as Kersbrook. Population, with Maidstone, 300.

KEYNETON (34° 34′ S. lat., 139° 10′ E. long.), a postal township in county Eyre, electorate of Barossa, 64 miles N. of Adelaide, situated on the Evandale Creek, a tributary of the N. Rhine. Much land is also taken up for farming and grazing. There are grape-growing, fruit-drying, wine and honey making industries. In the township are Lutheran (St. Peter's) and Congregational churches, and Rechabite society, a public and a private school, several tradesmen's shops, and a large temperance hotel. Coach to Freeling, thence rail. Population of town and district, 470.

KINGSCOTE. See QUEENSCLIFFE.

KINGSTON (36° 50′ S. lat., 139° 55′ E. long.) (named after the late Sir George Kingston), known also by the mercantile marine as PORT CAROLINE, is situated on the banks of the Maria creek, on a rather flat spot at the head of Lacepede Bay, 293¾ postal miles SE. of Adelaide, with which the communication is by train Monday, Wednesday and Friday; fares, first class, 47s. 10d., second class, 30s. 1d.; return, first, 71s. 9d., second, 45s. 2d.; or coasting vessel. Steamer to and from Port Adelaide weekly, 25s. saloon; 15s. steerage. Hotels: the Royal Mail, Crown, and Kingston Arms. It is in the District Council of Lacepede, county and electorate of Albert. The general name Kingston is applied to a collection of small townships extending over a stretch of nearly two miles of coast, north and south of the Maria Creek. These are the Government and private townships of Kingston and Cooktown to the south of the creek, and Lacepede and Rosetown to the north. The harbour is a very commodious one, containing, it is estimated, 67 nautical square miles of good anchorage, with water sufficient for vessels of the largest tonnage, and considered one of the safest in the colony, though it is apparently an open roadstead. There are in the town Episcopal and Wesleyan churches, and Salvation Army, an Institute, with library of over 1,400 volumes, a State school, two bark mills, M.U.I.O.O.F. lodges, a court-house, a custom house, and a handsome post and telegraph station, with money-order office, savings bank, four large wool stores, and a pier 3,555 feet long, in a depth of 14 feet of water. This pier has a single line of rails, and terminates in a working head 480 feet long, with moorings on both sides. Since July 15, 1880, a bright fixed light of the 6th order has been exhibited from the sea end of the new iron pile jetty. It is the shipping port for London and European ports for a large quantity of wool, wheat, bark, and other produce. Formation: sandstone and inferior limestone. Kingston is 53 miles from Narracoorte, 28 miles from Robe, and about 275 miles from Melbourne. Earthquake tremors were felt during 1898. Population about 700.

KOOLUNGA (33° 35′ S. lat., 138° 15′ E. long.), in the hundred of that name (co. Stanley), a post town, with money-order office, savings bank, and telegraph station, 112 (107½ rail) miles N. of Adelaide, situated on a bend of the Broughton river. There is coach and rail communication *viâ* Brinkworth 8 miles distant. Hotel: Koolunga. Two stores, creamery, agricultural implement factory, public school, saddler's shop, wine cellars, a number of neat private houses, three churches—Episcopal, Presbyterian, and Wesleyan—and an Institute. Has good stone for building purposes. Agricultural and pastoral district. Population of town and district about 960.

KOONUNGA (35° 18′ S. lat., 138° 15′ E. long.), post town, 54 postal miles N. of Adelaide. Co. and district Light, hundred Belvidere (which *see*). Rail communication with Adelaide, 54 miles, *viâ* Kapunda. It has a State school, with 24 scholars. Wheat and wool growing industries. Water from tanks and springs. Marble quarries and vineyards. Population, 150.

KOORINGA (33° 44′ S. lat., 138° 56′ E. long.) (Burra), county and electorate of Burra, is situated on the Burra creek, 1,551 feet above sea-level, 101¼ rail miles N. by E. of Adelaide, with which it has direct railway communication. There are two through trains daily, fares, 15s. 9d. and 10s. 6d. Hotels: Burra, Commercial, Kooringa. It is 50 miles from Kapunda, has a money-order office, post-office savings bank, and telegraph station, and municipal council. The Burra Burra copper mine is in the immediate neighbourhood. It was discovered by a shepherd named Pickitt in 1844, and operations were begun in September of that year. Until a few years ago an average of 10,000 to 13,000 tons of ore were raised yearly, yielding pure copper to the amount of about 2,500 tons, valued at about £200,000. Owing to the unremunerative price of copper only a few tributors have hitherto found employment. A new company (the South Australian Mining Company) has re-opened the old mine, and the Government has lent a diamond drill free of charge for two years. Copper has been found in other localities in the vicinity of Kooringa, and also silver and lead ore, and other minerals. Large quantities of land, north of and surrounding the township, are now under wheat cultivation in the county. There are two creameries. Banks: the National, and Bank of Australasia. Places of worship: St. Mary's Episcopal church, and chapels belonging to the Methodists, also R.C. Church (St. Joseph's). Burra Institute, hospital, State school, Masonic, Forester, Oddfellow, Rechabite and Hibernian lodges. Two iron bridges over the Burra creek connect Kooringa with Baldina and the Eastern plains. Population of municipal corporation 2,600. Agricultural and pastoral. Good water supply. Newspaper *Burra Record* (Wednesday morning).

LAKE PLAINS (35° 24′ S. lat., 139° 5′ E. long.), postal district on the Bremer river in the hundred of Bremer, and electorate of Mount Barker, co. Hindmarsh, 47 miles (64 postal) SE. of Adelaide, reached by rail from Milang. It has a Government school and a creamery. The district is wheat-growing and pastoral. Lake Alexandrina is in the district. Formation: a series of strata of limestone, sandstone, and clay. Population about 100.

LANCELOT (UCOLTA) (33° 1′ S. lat., 138° 45′ E. long.), co. Kimberley, is a post town, 165 postal miles N. of Adelaide, reached by buggy 3½ miles to Ucolta, thence train. Has hotel. State and Roman Catholic schools. Agricultural district. Population about 50.

LANGHORNE'S CREEK (35° 19′ S. lat., 139° 11′ E. long.) (county Hindmarsh), a township on the Bremer creek, 44 miles (60½ postal) SE. of Adelaide, named after a Mr. Langhorne, an overlander. It has a post, telephone and money-order office. The district is taken up for farming purposes, there being some rich land caused by the overflow of the creek. Vines also grow strongly. A coach runs every day to Strathalbyn, thence rail to Adelaide. Hotel: Bridge. There is a Wesleyan chapel, and a public school. The Episcopalians and Christians hold regular services in Oddfellows' Hall (M.U.I.O.O.F.), which is capable of seating 200 persons. Water from tanks and wells. Wine, agricultural and dairying industries. Population about 300.

LARGS BAY. *See* PORT ADELAIDE.

LAURA (33° 12′ S. lat., 138° 14′ E. long.), county Victoria, electorate of Gladstone, a postal, money-order, savings bank, and telegraph town, is close to the Rocky river, 143¼ rail miles N. (202½ postal, *viâ* Teronie) N. of Adelaide, 7 miles from Gladstone by rail, and is described as a beautifully situated, populous, but scattered town, and one of the prettiest of all the urban settlements seen in the Areas, and is an agricultural, pastoral, and gardening district. Fares from Adelaide, 23s. 10d. and 14s. 11d. Hotels: The Laura, Beetaloo Reservoir, and North Laura. Union Bank. Places of worship: Episcopal church (St. John's), Roman Catholic Church (St. John's), Wesleyan, Baptist, and Primitive Methodist chapels; and there is the local court-house, an Institute, with stage appointments, a public school, Freemasons, M.U.I.O.O.F., A.O.F. and I.O.R. lodges, a fine mill, several stores, and a number of excellent private residences. Country in the neighbourhood wooded and undulating. A coach runs to and from Wirrabora daily; fare, 4s. each way. It is in the District Council of Booyoolie, which has a population of 1,200 persons. It is a municipality having three wards. Beetaloo Reservoir is 4 miles due west of town. Water from tanks and wells. Newspaper: *Laura Standard*, published on Fridays.

LEASINGHAM (34° 0′ S. lat., 138° 40′ E. long.) (co. Stanley), electoral district of Wooroora, a postal village on the main north road between Auburn and Clare, very pleasantly situated on the Kooringa and Port Wakefield road, 80½ postal miles N. of Adelaide. Saddleworth is the nearest station; coach to and from it twice a day. The land is good, well timbered and watered. Wesleyan church. A vineyard of 50 acres in extent is in the vicinity. Population 80.

LINWOOD (34° 23′ S. lat., 138° 47′ E. long.), county, hundred, and electorate of Light, district Nuriootpa, 43 miles (52¼ postal) N. of Adelaide, on river Light. Post office and State school. It is four miles distant from Stockport, with which there is railway communication. Agricultural district. Population about 40.

LIPSON AND YARANDALE (34° 16′ S. lat., 139° 0′ E. long.), two postal towns adjacent, county and electorate Flinders, about 280 miles N. of Adelaide, on Burrawing Creek, reached by steamer. Contains public school, Anglican and Wesleyan churches, and hotel. The Burrawing copper mine is in the vicinity. Products: wheat, wool, and copper. Communication by steamer. Population about 200.

LITTLEHAMPTON (35° 3′ S. lat., 139° 1′ E. long.), post town, issuing postal notes, county of Hindmarsh, electorate and district council of Mount Barker, 22 miles (33½ miles by rail) E. of Adelaide, with which there is now railway communication, fares, 4s. 5d. and 2s. 11d. Telephone to Mount Barker. One hotel—the Great Eastern, two stores, Government school, Anglican and Methodist United churches, brewery, bacon factory, and three brickyards. Wattle bark industry. It is situated at the head of Mount Barker Creek, and is surrounded by hilly agricultural country. Water from wells and tanks. Population about 400.

LOBETHAL (34° 55′ S. lat., 138° 54′ E. long.), a thriving township, with savings bank, telegraph, and money-order office, romantically situated in a girdle of hills, principally occupied by Germans, on the Western Branch creek, a short distance W. of the Onkaparinga river. It is in the county of Adelaide and electorate and District Council of Onkaparinga. A coach runs twice a day to Balhannah, thence rail to Adelaide, 27½ postal miles E. Hotels: Rising Sun and Alma. The district is an agricultural one—wheat, barley, rye, oats, hops, and potatoes being extensively cultivated. Large quantities of grapes, too, are grown; a great deal of fruit, both green and dry, is sent from the district. A tweed and woollen factory here employs a considerable number of hands. A 30-h.p. engine works the machinery; there are twenty looms. The cloth, blankets and flannel manufactured is of excellent quality. A large reservoir supplies water to the factory and town. There are two schools—German and English—numbering about 120 pupils, and three Lutheran churches. New Institute (Presbyterian services are held). Bank: Bank of Adelaide. At Forest Range, a locality about 3 miles distant, a considerable quantity of gold has been found. Population, 220.

LOWER MITCHAM. *See* MITCHAM.

LUCINDALE (36° 56′ S. lat., 140° 19′ E. long.), co. Robe, Albert electorate, has post, telegraph, and money-order office, 261¼ postal miles SE. of Adelaide. It is a station on the

Kingston and Naracoorte Line, and is distant 21 miles E. from Naracoorte. Fares, 3s. 6d. and 2s. 2d.; from Adelaide (261¼ rail miles), 42s. 6d. and 26s. 9d. Hotel: Scott's. It has one large store, a blacksmith's shop, a store and boarding-house, Anglican and Presbyterian churches, a State school with teacher's residence, Mechanic's Institute, and several private houses. Grazing is the chief industry. The District Council of Lucindale has an area of 150 square miles. The area in the county under cultivation is about 500 acres. Population about 73, and 574 in district (census 1891).

LYNDOCH (34° 17′ S. lat., 138° 54′ E. long.), co. Adelaide, electorate of Barossa, District Council of Barossa, a postal, money-order, savings bank, and telegraph township, 33¾ postal miles N. of Adelaide, on the main road between Gawler and Tanunda. A conveyance runs to the former place to meet the trains. Hotels: Barossa Inn and Travellers' Rest. Bank: English and Scottish. An Institute is here, also Episcopal (Holy Trinity) and Bible Christian, Baptist and Lutheran churches. Copper has been found in payable quantities, and the gold indications are promising. The Barossa diggings township is within about 4 miles, and the Humbug Scrub gold-fields (reefing) are about 8 miles from the township. None of the claims nor the copper mines are now at work. The district is an agricultural one.

LYRUP (34° 25′ S. lat., 139° 10′ E. long.), a post town on the Murray, 255 postal miles N.N.E. of Adelaide, in co. Alfred, hundred Paringa, it is reached by rail to Morgan, thence steamer or coach. It is a Co-operative Fruit drying and Farming colony, started by the South Australian Government on teetotal lines. Products—butter, cheese, bacon, potatoes, onions, vegetables, wheat, wool, raisins, dried apricots and peaches, and all other farm produce. Has State school, Church of Christ, Sick and Benefit Fund; branch Agricultural Bureau, and Domestic Society. Plenty of fish and game and beautiful scenery. District is agricultural. Fruit growing and drying industries. Soil is light, loamy and limestone. Water from river by splendid pumping and irrigating system. Population, 112; district, 5,000. Newspaper: *The Reform*.

MACCLESFIELD (35° 12′ S. lat., 138° 52′ E. long.) (county Hindmarsh, electorate of Mount Barker) has postal, savings bank, and money-order office and telegraph station, 27 miles (36¾ postal) SE. of Adelaide, to and from which mail coaches run twice daily. Hotels—Deavenport Arms, and Macclesfield. There are an Episcopal church (St. John's), Roman Catholic church (St. James's), Congregational, Primitive Methodist, and Wesleyan chapels in the township, an Institute, and a brewery. The district is agricultural. The District Council of Macclesfield extends over 45 square miles. The population of the township is about 250.

McGRATH'S FLAT (35° 53′ S. lat., 139° 27′ E. long.), 100 miles SE. of Adelaide, a sheep station, situated on the Coorong River, county Caruwell, electorate Albert. Mail once a week.

McLAREN VALE (35° 15′ S. lat., 138° 33′ E. long.), a postal township in the county of Adelaide, electorate of Noarlunga, and district council of Willunga, 24½ miles south of Adelaide, to which there is a coach twice daily. Coach also to Willunga, Hotel—the Bell Vue. It has telephone office, an Institute, a public school, and two private ones, Congregational and Wesleyan places of worship, Druids' lodge, three general stores, and an agency for the Bank of Adelaide. Farming locality. There are also extensive vineyards and wine cellars. Population. 200.

MAGILL (34° 56′ S. lat., 138° 42′ E. long.), a post town with telegraph station, savings bank, and money-order office, suburban to Adelaide, some 5 miles from the city due E., in the District Councils of Burnside and Campbelltown, county of Adelaide, and electoral district of East Torrens. Tramcars run hourly during the day, fare, 6d., 4s. per dozen. Coaches to Norton's Summit and Forest Range. Hotels—East Torrens and World's End Inn. It is situated on Third creek, at the foot of the Mount Lofty ranges, the low land producing supplies of the finest vegetables during the summer months for the Adelaide market. The gentle elevation of this locality above the city and surrounding plains renders the prospect delightful, the view overlooking Gulf St. Vincent, Yorke's Peninsula being seen in the distance. The slopes of the hills are covered with vineyards and olive plantations, from which a very large quantity of wine and olive oil is made and exported. Social and public institutions are—Episcopal (St. George), Baptist, and Methodist Union churches, State school, two private schools, three potteries, boys' reformatory (very successful), recreation ground with pavilion, brass band, Masonic and M.U.I.O.O.F. lodges. The water supply is derived from tanks at Hornsell's creek, which have a storage capacity of 56,000 gallons, and Hope Valley. Population, 500.

MAIDSTONE. *See* KERSBROOK.

MAITLAND (34° 17′ S. lat., 137° 49′ E. long.), co. Fergusson, electorate of Yorke's Peninsula, a corporate town, with post telegraph, savings bank and money-order office, 111 miles (135 postal. *viâ* Paskeville) W. of Adelaide. Hotels: the Maitland and Yorke Valley. Bank: Union. Places of Worship: Episcopal (St. John's), Roman Catholic (St. Bartholomew's), United Methodist and Congregational chapels, State school, Oddfellows', Foresters' and Rechabite lodges, police station. Institute, at which district Council Office. Coach runs Monday, Wednesday and Friday to the Moonta Railway Station (22 miles); Tuesday, Thursday and Saturday to Paskeville, thence rail to Adelaide. Farming district. Population, 300.

MALLALA (34° 27′ S. lat., 138° 31′ E. long.) (co. Gawler), electorate of Yatala, District Council of Grace, a post town, has telegraph station, savings bank, and money-order office, 36 miles N. of Adelaide, in the centre of a grazing and agricultural district. Rail from Adelaide to Wasleys, thence a direct coach, or coach *viâ* Two Wells. Hotel: Mallala. It has Anglican, Primitive Methodist, Roman Catholic, and Christian chapels, an Institute, Rechabite lodge and a State school. Water from underground tanks. Population of town and district, 500.

MALVERN, in the electoral district of Sturt, and in the corporation of Unley. Has post-office, money-order office, savings bank, and telegraph station. Tram to Adelaide (3 miles), fare 3d. The Methodists, Congregationalists, Anglicans, Church of Christ, and Salvation Army have places of worship; there is also a State school and an institute. This is a fast-rising suburb.

MANNAHILL (32 36′ S. lat., 140° E. long.), township; 233½ rail miles NE., with post, money-order, telegraph, and savings bank offices and railway station. It has communication with Adelaide by rail twice daily. Fares 38s. 10d. and 24s. 4d. Pastoral district. There is hotel and a refreshment-room. Gold-mining district. Population about 80.

MANNANARRIE, 169 miles N. of Adelaide, which is reached by coach to Yongala, thence rail. County Dalhousie, electorate of Frome. Post-office, one hotel, institute, store, Primitive Methodist chapel, and State school. Farming and pastoral district. Population of township, 40.

MANNUM (34° 57′ S. lat., 139° 16 E long.), a post town, money-order, savings bank, and telegraph station, District Council Mannum, county of Sturt, and electoral district of Gumeracha, about 52 miles ENE. of Adelaide. Communication is by coach, twice daily. *viâ* Palmer, and steamer to Murray Bridge, thence train Monday, Wednesday, and Friday. Hotel: Mannum. This place is one of the chief ports on the Murray for the shipment of goods for places up the river, and has a dry dock. Bank: Bank of Adelaide. Baptist, Lutheran, and Primitive Methodist places of worship. Anglican and Roman Catholic services held in Mechanics' Institute. National and two Lutheran schools. Town lighted with kerosene. Water from reservoir. Has patent plough-share factory, foundry and flour mill. Foresters' and Rechabites' lodges. The District Council embraces 235 square miles. Agricultural and pastoral district. The population of the town is 550, district 2,500.

MANOORA (33° 2′ S, lat., 138° 51′ E. long.), on Gilbert river, post-town, with money-order and telegraph office, in the district council of Saddleworth, county of Light, electorate of the Burra, and police district of Auburn, about 74¼ rail miles NE. of Adelaide, with which it is connected by the North line, two trains daily; fares, 12s. 6d. and 7s. 10d. Hotels: the Manoora and Burton. It is located on the River Gilbert, 1,283 feet above sea-level. Churches: Episcopal (Immanuel), and Roman Catholic (St. Anthony's of Padua), and a Methodist chapel. It has a wheat store, steam chaff mills and agricultural machinery yards, two general stores, Government school, an Institute, and an agency for the E. S. and A. Bank. It is a highly productive wheat-growing country, well timbered, and has beautiful park-like scenery. There are traces of gold, copper and iron. Excellent slate and stone quarries are in full operation. Formation: tertiary, clay-slate, and sandstone. Population about 350.

MARION (35° 18′ S. lat., 137° 8′ E. long.), suburban postal township and district council 7¼ miles S. of Adelaide, in the electorate of Sturt. Coach twice daily plies to and from Adelaide. Dairying, vine-growing and brick-making are carried on in the district. The District of Marion embraces the townships of Sturt, Marion, Edwardstown and Darlington, and numerous smaller townships, and contains three hotels, school, Roman Catholic, Wesleyan, Bible Christian, and Anglican churches, institute and district hall, and has a population of about 1,400, and is generally spoken of as The Sturt. Population of township, 280.

MARRABEL (34° 8′ S. lat., 138° 54′ E. long.), a post town, telegraph, savings bank and money-order station, situated near the River Light, in the county and electorate of Light, police district of Kapunda, 63 postal miles N. of Adelaide, the communication with which is by rail to Saddleworth, thence by coach. Hotel: the Marrabel. There are here a State school, Oddfellows' lodge, a Methodist, Anglican, and Roman Catholic (St. Agnes) churches, M.U.I.O.O.F. lodge, flour-mill, and two stores. A considerable breadth of land is under cultivation in the district, principally for wheat. It is in the District Council of Hamilton. Population of township, 70.

MEADOWS (35° 12′ S. lat., 138° 48 E. long.), a post town, with money-order office, savings bank and telephone station, in the county of Adelaide, electoral district of Noarlunga, district council of Kondoparinga, 34 postal (29 miles road) miles SE. of Adelaide, on creek same name. There is daily communication, 6 a.m., with Adelaide by coach, *viâ* Clarendon, Coromandel Valley, and Blackwood; fare, 4s. 6d. Inn: Meadows. Bull's creek flows one mile to the S., and Meadows creek about half a mile NW. The social and public institutions comprise an Episcopal church (St. George's), and Methodist place of worship, a State school, two stores, District Council office, circulating library with over 1,500 vols., M.U.I.O.O.F. and Rechabite societies, and literary institute. Gold has been found in small quantities. Principal industry is dairy-farming, there being large butter factory with four creameries. Water from wells and tanks. Considerable quantities of fruit (principally apples), bark, gum and firewood, are sent to Adelaide. Favourite run for cyclists from capital by way of Glen Osmond, Aldgate, and Echunga, to view hill scenery, returning by Clarendon and Happy Valley. There is also a fine view of Lake Alexandrina from top of range above township. Formation: ironstone, slaty rock, and quartz. Population, 160; district, 711.

MELROSE (32° 49′ S. lat., 138° 1′ E. long.), a post town, in the county and electorate of Frome, shire Port Germein, and

hundred of Wongyarra, at the base of Mount Remarkable, 231¼ postal miles (*viâ* Gladstone) NNW. of Adelaide, to which mail coach to Laura, thence rail. The Port Germein District Council meet here. Hotels: Moran's and North Star. It has a telegraph, savings bank, and money-order office, M.U. Oddfellows, local court, several sport clubs, an institute, with reading room, an Episcopal church (Holy Trinity), a Wesleyan place of worship, Roman Catholic church (St. Clement), and Salvation Army, a branch of the Union Bank, a public school, several stores, police-station, creamery, and a brewery. The district is an agricultural and pastoral one, much of the land being purchased property, but some thousands of acres have been surveyed and opened for selection to the NE. and S. of Mount Remarkable (3,178 feet above sea-level, and from which splendid views of Spencer's Gulf are obtainable), and this land has been settled upon. Country auriferous in hills with indications of copper. Population about 400.

MENINGIE (34° 43′ S. lat., 139° 21′ E. long.) is situated on the eastern side of Lake Albert, in the county of Russell, electorate of Albert, and police district of Wellington, 93 miles (102½ postal) SE. of Adelaide, and is a post-town, money-order, savings bank, and telegraph station. Communication is by steamer across the lakes to Milang, thence by train; fare in all, 13s. 9d., or by way of Wellington, 28 miles, and Tailem Bend R. S., 34 miles. Anglican and Methodist Union churches, creamery, and institute. One hotel (the Meningie), and a State school. It is an agricultural and pastoral district (good soil), with limestone hills. On the flats, adjacent to salt lagoons, is a hard level crust, called swamp stone, varying from 3 to 8 inches in thickness, very useful for flagging. Lake Albert is fresh water, 8 miles by 13 miles, fed from Lake Alexandrina, an expansion of the Murray. There is excellent shooting on the lakes and on the Coorong, a strip of salt water following the coast, 90 miles long and 1 mile wide. Population, town and district, 350.

MIDDLETON (35° 30′ S. lat., 138° 45′ E. long.) (county Hindmarsh), electorate of Encounter Bay, a seaside postal town telegraph station, with railway, and nearly midway between Goolwa and Victor Harbour. It is 56 miles (74½ by rail) S. of Adelaide. Fares, 11s. 4d. and 7s. 2d. The district is purely an agricultural one. Has one hotel, large mill, public school, institute and library, and United Methodist chapel. There is a fine beach with bathing and other accommodation. Population, 130.

MILANG (35° 26′ S. lat., 139° 0′ E. long.) (county Hindmarsh, electorate of Mount Barker), an important town, is situated on the border of Lake Alexandrina, through which the River Murray runs, 48 miles (64½ rail) SE. of Adelaide, to which it acts as a port for the river Murray traffic. Railway connects Milang with Adelaide; one train arrives 11.10 A.M., leaves 2.20 P.M.; fares, 9s. 8d. and 6s. 2d. Steamers regularly from Milang to river ports. Hotels—the Lake and the Pier. There is a post and money-order office, savings bank, and telegraph station and police station in the town, chapels belonging to the Congregationalists and Christian Brethren, and Oddfellows, Rechabites, and Band of Hope societies; large wool stores, State school, an Institute with reading-room, butter factory, also sundry clubs. The district is good for pastoral and agricultural purposes. Population, about 400, including West Milang.

MILLBROOK (34° 50′ S. lat., 138° 52′ E. long.), a postal township (with P. Note issue), 18 miles NE. of Adelaide in county Adelaide, electorate of Gumeracha, on the creek of the same name, and the main road from Adelaide to Mount Pleasant. Coach communication. It contains hotel, one place of worship, Wesleyan, a large steam flour-mill, the Millbrook Inn, a school and stores. The country is rugged and hilly, and gold, iron, and copper have been found in the neighbourhood. Fruit-growing, dairying, and wattle-bark industries. Formation: ferruginous sandstone, with quartz and slate. Population of district, 200.

MILLICENT (37° 36′ S. lat., 140° 16′ E. long.) is a township and railway station on the Rivoli Bay (Beachport) and Mount Gambier line, has telegraph station, savings bank, and money-order office, between Robe and Mount Gambier, 44 miles from Robe, 29¾ miles SW. of Mount Gambier, and 334¾ rail miles SE. of Adelaide. The nearest port is Beachport, 22 miles distant; fares, 3s. 6d. and 2s. 1d.; from Adelaide, 54s. 4d. and 34s. 1d. From there the steamer can be taken to Adelaide. Overland the route is by rail *viâ* Mount Gambier. Hotels: the Millicent and Somerset. It is situated in what is known as "the drainage" country, a large tract of rich, flat country, at one time submerged in the winter. The Government, by proper drainage, have reclaimed several hundred thousand acres of very fine land. Heavy crops of wheat have been gathered from some of this soil, which is extremely rich and suitable for roots and pasture, as well as the production of cereals. The drained lands are now divided into four districts, Mayurra (including Millicent), Mount Muirhead, Tantanoola and Kennion. The control of all the drains has now been made over to the Councils of the respective districts. The total length of the drains is 165½ miles. Millicent is in the hundred of Mount Muirhead, county Grey, electorate of Victoria. It has Episcopal (St. Michael's), Presbyterian, Wesleyan, Salvation Army, Disciples of Christ, Lutheran, and Roman Catholic (St. Aloysius) places of worship, Roman Catholic convent and school, a new court-house, several stores, an institute, with a library of over 1,000 vols., flour-mill, saw-mills, branches of the Union and English and Scottish Banks, the post-office, tradesmen's shops, and a school. A rabbit-canning factory, dealing with 5,000 rabbits a day, was established in 1897, and has given an impetus to trade. Its buildings are principally of white freestone, found near the Up and Down Rocks, and a hard sandstone that prevails in the neighbourhood. George Street is the principal thoroughfare. Population about 800. Newspaper: *Millicent Times*.

MINLATON (34° 53′ S. lat., 137° 37′ E. long.) (county Fergusson, electorate of Yorke's Peninsula), in the district council of Minlaton, post, money-order, savings bank, and telegraph station, 192 miles W. of Adelaide, *viâ* Moonta. A coach connects Tuesday, Thursday and Saturday with the railway at Moonta. Steamer Monday, Wednesday and Thursday. Hotel: Minlaton. Bank: Bank of Adelaide; public school, and Mechanics' Institute, Oddfellows and Rechabite societies. Places of worship: Episcopal, Wesleyan and Baptist. Hardwicke Bay has fine shelly beach. Wheat-growing district. Good cycling roads. Population, 250.

MINTARO, CENTRAL (33° 50′ S. lat., 138° 45′ E. long.), in the county, electorate, and district council of Stanley, a postal township, savings bank, money-order, telegraph, and railway station (Mintaro) (4½ miles E., to which coach daily), on the North line near the Wakefield river, 82½ rail miles N. of Adelaide. There are two trains daily. Fares, 13s. 8d. and 8s. 7d. Hotel: The Mintaro. It is situated in the centre of a splendid agricultural district, 1,369 feet above sea-level. Government buildings are a post office and police barracks. Wesleyan and Roman Catholic churches. There is a State school, with teacher's residence attached, an Institute, and Oddfellows and Foresters. The principal business places comprise two general stores, one carpenter's and wheelwright's shops, a saddler's shop, two blacksmiths' shops. There is also a district council chamber. About a mile from the town are the quarries of the far-famed "Mintaro slate stone." Population, 201.

MITCHAM (35° 2′ S. lat., 138° 39′ E. long.), a suburb of Adelaide, situated on Brown Hill Creek, about 4 miles (5¼ rail) S. from the city, with post, telegraph, money-order office, and savings bank. It is a station on the Inter-colonial Railway; fourteen trains daily; fares 4d.; and is also connected by tramway with Adelaide. Fare, 4d. The hotels are: Mitcham Inn, Edinburgh, Blythwood, Torrens Arms, and Hawkeston Arms. Mitcham includes Lower Mitcham and West Mitcham, Clapham, Hawthorn, Cottonville (a new settlement of homestead blocks), and the Brown Hill Creek, all in the county of Adelaide and district council of Mitcham. The scenery of Mitcham is charming, and the township is very English in appearance; there are beautiful drives in and around the hills, with magnificent views of Adelaide and the Gulf. The Brown Hill Creek gullies contain some magnificent market gardens, and in the other parts fruit of superior kind is largely grown. There are St. Michael's (Episcopal), Our Lady of Dolours (Roman Catholic), Baptist, Primitive Methodist, Wesleyan, and Bible Christian churches, five schools, police station and an institute with library. There are Rechabite, Oddfellow, Druid, and Hibernian lodges. The soil is good, and the water supply from Brown Hill Creek and Happy Valley is perfect. Mitcham is noted for its road metal quarries, freestone, and other building stones; is lighted with gas. The National Park, Belair, containing about 2,000 acres, is two miles distant. It has a population of 2,000 persons. The population in the district council of Mitcham is 3,750. Number of houses, 780.

MODBURY (34° 48′ S. lat., 138° 38′ E. long.), a small postal village in the District Council of Teatree Gully, county of Adelaide, police district and electorate of Gumeracha, 9½ miles NE. of Adelaide. Coach communication twice daily; fare, 1s. 6d. It is on the main road from Adelaide to Mount Pleasant, to which there are two coaches daily. It contains Modbury Hotel, several stores, a Methodist chapel, State school, and an Institute. Agricultural district. Population, 173.

MONARTO (35° 7′ S. lat., 139° 17′ E. long.), a scattered agricultural and pastoral district, 46 miles (51¼ by rail) E. of Adelaide, county of Sturt, electoral district Onkaparinga, Hundred Monarto. It is a station (about 4½ miles from township) on the overland line to Melbourne, three trains daily; fares, 7s. 6d. and 4s. 10d. The only public institutions are a post-office (postal notes issued), council hall, two school-houses, and Lutheran, Presbyterian, and Wesleyan chapels. Copper and rich arsenic is found in the district. Population about 150, district about 700.

MONTAGUE. *See* DRY CREEK.

MOONTA (34° 5′ S. lat., 137° 36′ E. long.) (county Daly, electorate Wallaroo), mining and postal township and municipality on the shores of Spencer's Gulf, 102 miles NW. of Adelaide, with which there is communication by steamer *viâ* Port Moonta, or by rail (134½ miles); fares, 22s. 4d. and 14s. Hotels: The Prince of Wales, Globe, and the Royal are the leading ones. There are several copper mines in the vicinity, but the most productive of all are the mines bearing the name of the town. These were discovered in 1861, and have since then been systematically worked, usually giving employment to upwards of 1,000 hands. There are 27 shafts on the mine, the depth varying from 162 feet to 2,400 feet. On the expiry of the leases for these mines they were renewed by the Government for a further period of 14 years, on payment of a fine of £10,320, and are now held on a 99 years' lease from the Government. For many years this mine produced about 20,000 tons of copper ore per annum, containing over 4,000 tons of fine copper. There are in the town an institute, Masonic and Friendly Societies' hall, a court-house, numerous stores and business premises. Branches of the Union Bank and National Bank and the savings bank in connection with the post, money-order, and telegraph offices; several places of worship—All Saints (Episcopal), St. Francis (R.C.), and Methodist chapel, two public schools, School of Mines, and steam flour-mills. Lighted with gas. The municipality covers 300 acres. The population of the

municipal district is about 1,700; including that of the neighbouring mines, it is estimated at 10,000 persons. Newspapers: the *Yorke's Peninsula Advertiser* and *The People's Weekly*.

MORGAN, or North-West Bend (34° 3′ S. lat., 139° 45′ E. long.), county Eyre, electorate of Light, hundred of Eba, the river terminus of the Kapunda and North-West Bend Railway, is an important Government township, 104¾ rail miles NE. of Adelaide; fares, 17s. 4d. and 10s. 10d. Hotels: Commercial and Terminus. A wharf nearly 400 feet in length with 4 steam cranes is provided for the shipment and discharge of goods to and from the interior. Morgan is the chief place for shipping goods and stores to stations on the river, and receiving their produce, particularly wool. A goods and engine shed are here, a telegraph station, savings bank, and money-order office, Church of England, Oddfellows' lodge, flour-mill, and a Primitive Methodist chapel. Steamers carrying mails and passengers leave weekly for Wentworth. Morgan is in daily communication with Adelaide by rail. Large quantities of fish are sent from here to Adelaide. Population, 361.

MORPHETT VALE (35° 8′ S. lat., 138° 34′ E. long.), county Adelaide, electorate of Noarlunga, a postal township, with telegraph, savings bank and money-order station, situated on Anderson's creek, in a valley on the Great South road, 15½ miles S. of Adelaide, to which mail coaches run twice daily. Hotel: the Emu. The Roman Catholic church of St. Mary's and a Free Presbyterian (John Knox) and Baptist chapel are the places of worship in the township, and there is a Rechabite tent, literary society, an institute and State school. There are several productive vineyards around the township: wheat is also extensively grown. The District Council covers 24 square miles. Population, in township 70, with district about 700.

MOUNT BARKER, the largest town south of Adelaide (35° 5′ S. lat., 138° 58′ E. long.), (county Hindmarsh, electorate and District Council of Mount Barker), a postal, telegraph, and money-order office, station (1,050 feet above sea-level) on the southern branch of intercolonial railway, and savings bank agency town, 22 miles (34½ by rail) E. of Adelaide, at the foot of the mount whose name it bears. Fares, 4s. 8d., 3s.; return, 7s., 4s. 6d. Hotels: Mount Barker and Gray's Inn. There are Episcopalian (Christ Church), Presbyterian, and Roman Catholic (St. Francis de Sales) churches, Methodist and Baptist chapels, and Salvation Army barracks, and fine institute and museum. The Wesleyan church, the gift of Mr. Dunn, cost £4,000; the same gentleman has also generously presented the residents with a recreation ground with grand stand and fountain. The town was founded (January, 1839), on the first special survey taken up in the colony. Wheat grown here took gold medals at London, Paris, and Vienna. The beautiful climate of the place makes it much patronized as a health resort in summer, there being several splendid mansions in the vicinity. Water is laid on from a large reservoir The Mount Barker district is specially adapted for the production of farm and dairy produce and fruits. All kinds of root crops are grown to perfection, and the dairying industry has assumed large proportions. There are extensive orchards and vineyards throughout the district, and others are being planted. Cattle, sheep and pig markets are held bi-monthly, and the wattle bark industry is profitable and prosperous. There are Masonic, Oddfellows, Rechabite, and Druid Lodges held in the town. The National Bank and Bank of Australasia have branches here. Among the local industries are several engineering works, large tannery, and a flour-mill, founded in 1844. The District Council covers 35½ miles. The population of town is about 2,000. It is a populous centre. The *Mount Barker Courier* (the largest provincial journal in the colony) is the local paper.

MOUNT BRYAN, county and electorate Burra, post town, with telegraph and railway station on the North line, 110½ rail miles N. of Adelaide; fares, 18s. 4d. and 11s. 6d. It lies 1,701 feet above sea-level. Hotel: Kingston. Bible Christian church. Lighted with kerosene. Pastoral. The District Council covers 87 square miles. Population about 250.

MOUNT GAMBIER (37° 50′ S. lat., 140° 50′ E. long.), the largest of the south-eastern towns, is situated in the county of Grey, electoral district and division of Victoria, police district of Mount Gambier, on the northern base of the extinct volcano from which it derives its name, 305¼ rail miles SE. of Adelaide. Mount Gambier was named after Admiral James Gambier by Lieutenant Grant, who discovered it on December 3, 1800, when passing in the *Lady Nelson*. Port Macdonnell, which is the nearest port of the district, is distant 18 miles S., Penola 32 miles N., Robetown 75 miles NW., Portland (Victoria) about 65 miles SE., and Melbourne 300 miles W. It comprises the original township (Mount Gambier proper), an adjacent one laid out by Government (Gambierton), Claraville, Rosaville, North Gambier, Williamstown, and Sutton Town. It is a Railway station on Beachport (Rivoli Bay) and Mount Gambier line, and the southern terminus of the Mount Gambier and Adelaide line, which connects it with the general railway system of Australia. Fares from Adelaide, 49s. 10d. and 31s. 4d. Several hotels, among which are the South Australian, the Mount Gambier, the Town Hall, Globe, Mac's, Farmers' Inn, and Commercial, a temperance hotel, and a good number of boarding-houses. It is the centre of a fine agricultural district, possessing a soil (being of volcanic nature) and climate very favourable to luxuriant vegetation. and permitting the abundant growth of English fruits, potatoes, grain, and grasses. Hops, too, are cultivated. The district has been called the "garden of the colony," and a large number of sheep and cattle are yearly fattened for the market, and one of the chief sources of income is wool. The public buildings include commodious churches and chapels, with seats for upwards of 3,500 persons, comprising the Roman Catholic church of St. Paul (the finest ecclesiastical structure out of Adelaide), Episcopal, Presbyterian, Baptist, and Salvation Army, and Wesleyan churches, a German Lutheran church, State school, Roman Catholic school (taught by Sisters of Mercy), a High School, and several ladies' schools. Among the Government and social institutions are a telegraph station, post, savings bank, and money-order office, gaol, courthouse, police station, a fine Institute, with large hall, museum, picture gallery, and reading-rooms, and library of over 5,000 vols., a large Oddfellows' hall, a commodious and well-conducted hospital, pleasantly situated on an eminence north of the Valley Lake, now one of the finest institutions of the kind in Australia; and Town Hall and chambers, with tower and clock. There are three banks—the National, Commercial of Australia, and the English and Scottish; a large number of stores, several of them both handsome and complete. Most of the buildings are constructed of the white Coraline limestone and grey and red dolomite which abounds in the neighbourhood. The principal manufactures are such as belong to an agricultural district. There are two flour-mills, having in the aggregate over 100-horse power, two breweries, and a distillery. The municipality, proclaimed a corporate town on May 25, 1876, includes the town proper, with its suburbs of Claraville and the Government township. The area (inclusive of the Lakes reserve) is about 2,048 acres, number of houses, 600; assessment, £18,800. A marble fountain has been placed in the reserve, and a public park at the north-west corner of the town has been purchased. The town is lighted with gas. There are lodges here of most of the Friendly Societies, including Masonic, Oddfellows (M.U.), Foresters, Rechabites, and Sons of Temperance, also Hibernian, Caledonian, and German, Athletic, Cricket, Football, and Chess Clubs. The communication with Adelaide and Melbourne is by rail. The railway to Rivoli Bay (51 miles), connecting the town with the seaboard, was opened in May, 1879. Circuit courts are held here twice a year—in April and October; the local court has a fortnightly sitting. The Agricultural and Horticultural Society holds two shows annually. It has a good show-ground of 13 acres, with suitable buildings and a handsome grand stand, the whole enclosed by an iron fence. The Blue Lake (about 165 acres in area) and Valley Lake (containing an area of 97 acres); they are fine sheets of water of great depth, from 80 to 320 feet deep generally, but the Blue Lake in one spot is 675 feet deep. From the Blue Lake the water supply of the town is derived. Population of municipality, with adjoining District Councils, is about 8,000. Two newspapers, both bi-weekly, are published at Mount Gambier—the *Border Watch* and the *South-Eastern Star*.

MOUNT LOFTY (35° 1′ S. lat., 158° 43 E. long., including Stirling East and West), a post, money-order, savings bank, and telegraph station, situated on the Hills Railway, County Adelaide, District of Crafers and Stirling, which now forms part of the intercolonial line to Melbourne and Sydney; 11 miles from Adelaide, 19½ by rail. This is occasioned by the railway winding round the hills to attain the elevation, which is, at the station, 1,613 feet, while the top of the Mount Lofty is 2,240. The ride is acknowledged to be one of the most beautiful in the colonies, and is a favourite one with tourists. Railway fares, 2s. 2d. and 1s. 6d., excursion, 3s. 3d. and 2s. 3d. The climate being ten to fifteen degrees cooler than Adelaide, makes Mount Lofty a favourite residence, especially in the summer. Many of the leading merchants, professional men, and civil servants have summer residences erected, whilst others are making it a place of general residence. All the English fruits thrive in the gardens There are nine public and some private schools in the district, and the following places of worship:—Anglican, Roman Catholic, Bible Christian, Congregational, Christian Disciples, Salvation Army, and Wesleyan. The principal business places are, a jam factory, and some valuable building-stone quarries; post and telegraph office, court-house, refreshment rooms. Hotels: Crafer's and Halfway. There is an Institute and public library, also numerous benefit societies. Large quantities of fruit and vegetables are grown in the adjacent gullies, and taken along good macadamized roads to Adelaide. The District Council is called Stirling, and consists of five members. The population of the district is about 5,000.

MOUNT PLEASANT (34° 47′ S. lat., 139° 3′ E. long.), county Adelaide, electorate of Gumeracha, and district Council of South Rhine, a postal, savings bank, money-order, and telegraph station, situated on the eastern source of the Torrens river, 35 miles NE. of Adelaide, to and from which coaches run twice a day, 6 A.M. and 2.30 P.M. The hotels are the Talunga and Totness. The district is principally an agricultural one, wheat being almost exclusively cultivated. but there are also several sheep runs in the neighbourhood. There is a copper mine at Kanappa (14 miles distant). Gold-mining is also carried on. There are Mechanics' Institute, Agricultural bureau, Oddfellows' lodge, Rechabite tent, a steam flour-mill, wattle-bark mill, creamery, butter and cheese factory, Episcopal (St. John's) and Presbyterian places of worship, and branch of the Bank of Adelaide. Lighted with kerosene. Formation: silurian. Population, 350.

MOUNT TORRENS lies 41¾ postal miles from Adelaide, NE., county Adelaide, electorate of Gumeracha. Post, telephone and money-order office, and an agency for the Bank of Adelaide. A coach plies daily to Balhannah, thence rail to Adelaide; also a coach to Gumeracha. There is one hotel. There are here Episcopal (St. George's), Methodist, and Lutheran churches, two public schools, Mechanics' Institute, M.U.I.O.O.F., Band of Hope. The district is a farming one (under the district council of Talunga), flour-mill, wattle bark mill, and cyanide works. There are promising copper and alluvial gold indications in the

locality. Black wattle bark of the very highest quality is obtained in the district, and large quantities exported annually. Lighted with kerosene. Formation : quartz and limestone. The population is a fluctuating one of between 800 and 1,000.

MURRAY BRIDGE (35° 5′ S. lat., 139° 20′ E. long.), a post town, with money-order, telegraph station, savings bank, and railway station, on the Murray river, county Sturt, district Mobilong, and electorate Onkaparinga, 60¼ rail miles E. of Adelaide. It is on the overland line to Melbourne, and is an important shipping port for the upper river trade ; trains daily ; fares, 9s. and 5s. 9d. Hotels : Bridgeport, and commodious Temperance Hotel. State, Lutheran, and Anglican schools, Episcopal, Lutheran and Wesleyan places of worship. Has police-station, custom-house, institute with reading-room, assembly hall, Masonic and Druids lodges, and there is good fishing. Freestone and granite of best quality, and good for building purposes, abounds in the neighbourhood, which is agricultural and pastoral. Population about 650.

MYPONGA (35° 24′ S. lat., 138° 32′ E. long.) (county and electorate of Encounter Bay), a postal township, situated 4 miles S. of Sellick's, and 36¼ postal miles S. of Adelaide. The mail coach passes daily. Has Temperance hotel, two schools, Episcopal (St. Matthias') and Bible Christian places of worship. Agricultural and pastoral. Population of town and district, 240.

NAIRNE (35° 3′ S. lat., 138° 19′ E. long.), county Hindmarsh, electorate of Onkaparinga, post town with money-order, savings bank, and telegraph station on the Nairne creek, 25 miles E. of Adelaide (34¾ by rail), 1,245 feet above sea-level. A railway runs from Adelaide to here, forming the first section of the intercolonial line between Adelaide and Melbourne *viâ* the Murray Bridge. The line, on account of the engineering difficulties and the gradient, 1 in 51, has been the most expensive railway in the Colony. It was opened on Nov. 27, 1883 ; fares, 4s. 8d. and 3s. The hotels are the District and Millers' Arms. There are in the neighbourhood several farms and stations. Much land is now laid down for grazing purposes. The Primitive Methodists and Wesleyans have chapels here, and there are a neat post-office and telegraph station, a large flour-mill, several general stores, and an agency for the Bank of Australasia. Area of district council 105 square miles. Population, about 400 ; in the district, 1,200.

NANTAWARRA (34° 2′ S. lat., 158° 14′ E. long.), a post town and money-order office, 95½ miles N. of Adelaide, in the hundred of Goyder, county and electoral district of Stanley. Contains Christian and Wesleyan churches and two schools, and hydropathic institution. Wheat-growing district.

NARRACOORTE, or NARACOORTE (lat. 36° 55′ 22″ S., long. 140° 47′ 57″ E.), a thriving town and money-order, savings bank, and telegraph station, on the banks of the Narracoorte creek, which discharges itself into Garey's Swamp ; in dry weather it is little more than a chain of water holes. Narracoorte is on the old overland route to Melbourne, 240½ miles SE. of Adelaide, and 64 miles north of Mount Gambier, in the county and district of Robe, and electorate of Albert. A railway to the seaboard Kingston (Lacepede Bay), is completed and in operation, and this line is extended inland to Border Town, a distance of 57½ miles beyond Narracoorte, and thence connects with Adelaide, to which place the fares are 39s. and 24s. 6d. The hotels are the Temperance, Globe, the Commercial, the Narracoorte, and a coffee tavern. The name is said to be an imitation of the aboriginal word Narcoot, bestowed by the blacks on a large waterhole in the vicinity. Narracoorte is the oldest township in the south-eastern district, having been founded in 1848 by Mr. W. MacIntosh. To the east, north, and south it is enclosed by small hills, and viewed from any of them the town, which is built in a pleasant valley, presents a rather pretty appearance. The town consists of Narracoorte East, where the Government school, the pound, and most of the private houses are situated ; the central portion of Narracoorte, formerly known as Kincraig, where are three Banks and nearly all the business places ; and Narracoorte West, where are the police-station and court house. The buildings of any note are the post-office and telegraph station, court-house, and police-station, the Anglican (St. Paul's), Roman Catholic (St. Thomas), and Presbyterian churches, the Wesleyan chapel, the National Bank, and Union Bank, the Institute (a large building, with hall, which cost £2,000), with library of 5,000 vols., the hospital, the State school, a handsomely designed building, with an average attendance of 180 scholars, a flour-mill, butter factory, District Council office, and several fine stores. All the substantial buildings are constructed of stone, quarried in the neighbourhood. There are agencies here of several Insurance Companies, also Freemason. M.U.I.O.O.F., and Sons of Temperance lodges. Pastoral and Agricultural Society has fine ground and buildings, used also for recreation purposes, and has up-to-date cycling track. There are numerous sporting clubs and a Caledonian society. Seven miles distant, in the range to the south-east, are the Mosquito Plains Caves. In point of magnitude and splendour, and in a scientific view, these caves do not yield in importance to such wonderful caves as the Adelsburg Caves, the caves in the Peak of Derbyshire, the Guardian Caves, and those in New South Wales and Tasmania. A new cave, called the Victoria, has recently been opened, and it is rich in beauty. Formation : sandstone. Area of district council, 800 square miles. The district is almost entirely of a pastoral character. Population of the town is 1,900. The population of the hundred is 2,100. Local paper, the *Narracoorte Herald*, published twice weekly.

NARRIDY (33° 26′ S lat., 138° 19′ E. long.), a post town, with telegraph and money-order office, 220 miles NW. of Adelaide, county Victoria, electorate of Gladstone. It has one hotel, Roman Catholic and Bible Christian churches, State school, stores, and private dwellings. Agricultural district. Communication with Adelaide by coach to Georgetown, thence rail. Water from tanks.

NAVAN (34° 13′ S. lat., 138° 45′ E. long.), a township in the county of Light, electoral district of Wooroora, District Council of Gilbert, 66½ miles N. of Adelaide, on the Gilbert river. Tarlee R.S is 4 miles distant. There is here a Roman Catholic church. The land around is of first-class character, slightly wooded, and is utilized by farmers and pastoral tenants of the Crown. Water from tanks. Volcanic formation. Population, 78.

NEW RESIDENCE (co. Albert, hundred of Alfred) was a village settlement on the Murray, about 20 miles SW. of Renmark. Boat to Morgan, thence rail to Adelaide. Settlement closed at present. Formation : limestone ridges ; good chocolate soil in the gullies.

NOARLUNGA (35° 10′ 20″ S. lat., 138° 28′ 45″ E. long.), county Adelaide, electoral district of Noarlunga, a township, savings bank telegraph, and money-order station on the banks of the Onkaparinga river, a short distance from its mouth, 20½ miles S. of Adelaide, with which there is communication twice daily by coach ; fare, 3s. Hotels : the Horseshoe Inn and Noarlunga. The Wesleyans have a chapel, and the Episcopalians a church (St. Philip and St. James). Public school. Bank : Bank of Adelaide. The only industry of any note is a steam flour-mill. There are three stores, besides brickyards, and an Institute. The port is at the mouth of the river, about three miles distant, and summer residences have been erected. The spot is considered to be a good sanatorium. There is good fishing and boating. The harbour is said to be both safe and convenient ; the jetty is 600 feet in length. The district is an agricultural one, wheat-growing being principally followed. Area of District Council, 39 square miles. Population, 150 ; in the district there are about 900.

NORMANVILLE (35° 27′ S. lat., 138° 22′ E. long.), a seaport postal township, also called PORT YANKALILLA, 48½ miles S. of Adelaide. It is situated on Bungala creek, in the county of Hindmarsh, electoral district of Encounter Bay, and District Council of Yankalilla. A mail coach goes daily to and from Adelaide ; (fare, 8s. 6d.), and three times a week to and from Victor Harbour. Public-house : the Normanville. The cable to Kangaroo Island goes from this port. One of the prettiest waterfalls in the colony is situated about 7 miles from the township. Beautiful ferns and mosses grow in great profusion, and the spot is greatly resorted to by picnic parties during the summer months. There are in the town one store, also a fine block of Government buildings, comprising post-office, money-order and telegraph station, local court-house and clerks' offices, customs-office, and police station. Local court sittings are held once in two months. Has State school, Wesleyan and Roman Catholic churches. A jetty affords facilities for shipping purposes. The beach at Normanville is a fine one. Industries : Wattle bark cultivation, dairying, and sheep farming. Population, 192

NORTH-WEST BEND. *See* MORGAN.

NORTON SUMMIT (34° 56′ S. lat., 138° 44′ E. long.), a post town and telegraph station on Third creek, in the county and hundred of Adelaide, and electoral district of Onkaparinga, 8½ miles E. of Adelaide. It is on the eastern road, commanding a view of Adelaide, Port Adelaide, and the Gulf. Hotel : Scenic. Has Baptist chapel and Church of England (St. John's , an institute, also public and private schools. A country residence for the Governor has been erected in the neighbourhood, in the Mount Lofty Range, about 4½ miles distant from here. Horticultural district mainly. Formation : clay slate. Population, town and district, 400 ; district council, East Torrens.

NORWOOD (34° 55′ S. lat., 138° 38′ E. long.) (electorate of East Torrens), a suburb of Adelaide, 2 miles NE. from the centre of the city. A tramway, as well as cabs, afford frequent means of communication. Fare 3d. With Kensington it constitutes a municipality having 4 wards. It covers an area of 1½ square miles. There are several places of worship, including St. Bartholomew's and St. Matthew's Episcopal churches, St. Ignatius (Roman Catholic), Presbyterian, Wesleyan, Primitive Methodist, Congregational, Baptist, and Christian chapels. It has a substantial post, money-order, savings bank, telephone and telegraph station, fourteen hotels, college, two State schools and several private schools, police-station, Oddfellows, Masonic and Druid lodges, town hall and assembly room, an institute, with lecture hall and offices. There is constant high pressure supply of water, and town is connected with Adelaide sewerage system. Industries : Brewery, cordial, paper bag factory and market gardens. Formation : Upper tertiary. Newspaper : *Free Press*. Population about 13,000.

NURIOOTPA (34° 30′ S. lat., 139° E. long.), a postal, money-order, savings bank and telegraph town in the county of Light, and electoral district of Barossa, police district of Angaston, 49 postal miles N. of Adelaide, on the Gawler river. A coach runs to and from the Freeling Railway Station twice daily ; fare, 4s. return ; coach also runs to Angaston and Freeling. Hotels : Nuriootpa and Angas Park. There are two stores, branches Bank of Adelaide and E. S. and A. Bank, Government and German schools, an institute, Anglican mission, German Lutheran church, park and racecourse, blacksmiths, wheelwrights, chemist, two brickmakers, one tannery, aerated water manufactory, a large distillery and two extensive wine cellars, and about a dozen other tradesmen's shops. The District Council is an agricultural district. Area, 98 square miles. Population, 400 ; district council, 2,000.

OAKBANK (34° 58′ S. lat., 138° 52′ E. long.), a postal town in the county of Adelaide and electoral district and District

Council of Onkaparinga, 20¼ miles (30¾ postal) E. of Adelaide, situated on the Onkaparinga river. A coach runs daily to and from Adelaide. Principally a mining and agricultural district. The Balhannah bismuth and copper mine is situated about 1¼ mile from the township. Gold has also been found in many places in the neighbourhood, and there are mineral traces in every direction. The township contains a large brewery and soda-water factory, a school and mechanics' institute, a Primitive Methodist chapel, and has a fine race-course. The drive through the township is one of the prettiest in the colony, from the many vineyards and orchards to be seen on the mountain sides. The principal varieties of grapes here grown are the Red Madeira, Shiraz, and Riesling. Population, 111.

OAKLANDS (35° 5′ S. lat., 137° 35′ E. long.), a post town, 50 miles W., in county of Fergusson, electorate of Yorke's Peninsula. Communication with Adelaide, mail cart to Stansbury, steamer thence, or coach to Moonta, thence rail. It has a State school. There are salt lakes in the vicinity. Products: Salt (most important), wheat, wool, and firewood. Water from tanks and wells. Limestone formation. Population of town and district about 250.

O. B. FLAT (37° 53′ S. lat., 140° 44′ E. long.), a district, 310 miles SE. of Adelaide, in the county of Grey, electorate of Victoria and police district of Mount Gambier. Communication is *viâ* Mount Gambier. It has a Government school and Presbyterian church. Agricultural district with good rich soil, chief produce being potatoes, oats, barley, hay, and wheat. Industries: chaff mills, creamery, sheepdip. The somewhat peculiar name of this locality is derived from the cattle brand used by the first settler on the land. Population of district, about 250.

ORROROO (32° 43′ S. lat., 138° 31′ E. long.), county Dalhousie, electorate of Frome, hundred of Walloway, a post town on the Pekina Creek, with money-order office, savings bank, railway, and telegraph station, 176 rail miles N. of Adelaide. Banks: Union and National. It has daily rail communication with the metropolis and daily mails by coach to fourteen towns, and is the largest agricultural centre in South Australia. The line from Petersburg to Quorn passes through here; fares, from Adelaide, 29s. 4d. and 18s. 4d. Hotels: Orroroo, Commercial, and Imperial. Among the buildings are Episcopal (St. Paul's), Baptist, Bible Christian, and Roman Catholic churches, and an institute, Masonic, Oddfellows', and Rechabite lodges. The hundred of Walloway is principally agricultural. Within radius of District Council the population is 3,000, and the town proper 700. Water by pipes from Pekina Creek. Newspaper, *The Orroroo Enterprise*, published on Fridays.

OULNINA, a railway station (224¾ rail miles from Adelaide) on the Broken Hill line, 1,425 feet above sea-level, is an almost abandoned goldfield.

OVERLAND CORNER (34° 10′ S. lat., 40° 25′ E. long.), a postal town with money-order office and telegraph station on the north bank of the River Murray, in the county of Young, central police district and electoral district of Burra, 133 miles (148¼ postal) N. of Adelaide. Communication is by coach and steamer to Morgan, thence rail. It is on the main road route from Adelaide to New South Wales, and all travelling stock from New South Wales to Adelaide must pass here. Government buildings, a stone-built telegraph station, and sheep inspector's residence. Principally a grazing district, of limestone formation. Population, 30.

PALMER (34° 52′ S. lat., 139° 11′ E. long.), a postal and growing township in the county of Sturt, electoral district of Gumeracha, and police district of Palmer, 42 postal miles NE. of Adelaide, and 10 miles from the River Murray. Communication is by daily mail coach; fare, 8s. There is one public-house—the Palmer—a telegraph station, money-order office, Institute, Government and a German school, two German Lutheran churches, and a police-station. Water from springs. New Reedy Creek Gold Mine and creamery. It is surrounded by a mineral, agricultural, and pastoral district, with an aggregate population of about 500 persons.

PARADISE, a post town in the county of Adelaide, electorate of East Torrens, six miles from Adelaide. Communication by tram, fare 6d. Hotel: Paradise Bridge. Episcopal place of worship, and about 100 residents. Gardening locality.

PARKSIDE (34° 58′ S. lat., 138° 38′ E. long.), an important suburb of Adelaide, 1½ miles SE., part of corporate town of Unley, electoral district of Sturt, co. Adelaide, having a post, telegraph, savings bank, and money-order office. The town is lit with gas and has deep drainage. Communication by two tram lines, cabs, &c., at short intervals, fares 3d. and 2d. Hotels: Waverley, Earl of Leicester, Parkside, and Fountain Inn. Has Wesleyan, Baptist, Congregational, Primitive Methodist, Episcopalian and Roman Catholic, and Salvation Army places of worship. Has two State schools and several private schools, Institute, also branches of various Friendly Societies. Many of the business men of the metropolis reside here in handsome villas. This suburb comprises Malvern, Malvern Extension and New Parkside, and is lighted with gas. The Parkside Lunatic Asylum is in the district of Burnside, and a new wing for women has been erected. Population about 4,300; and 890 houses.

PASKEVILLE (co. Daly) is a post town, with money-order office, telegraph and railway station, 105½ rail miles NW. of Adelaide. Coach runs to Maitland, 30 miles distant, on Tuesdays, Thursdays, and Saturdays. Has one hotel, State school, Anglican and Primitive Methodist churches. It is 12 miles east of Kadina and Wallaroo Mines. Oddfellow (M.U.), with hall, and Rechabite lodges. Water from Beetaloo Reservoir. Agricultural district. Limestone formation. Population of district, 250.

PAYNEHAM (34° 55′ S. lat., 138° 39′ E. long.), 3½ miles E. of Adelaide, on the river Torrens, electoral district of East Torrens. It has post, money-order office, telegraph and public telephone station, savings bank, hotel, Anglican and United Methodist churches, two schools, institute, U.A.O D. and Foresters' societies. Celebrated for its numerous orangeries, nurseries, and gardens. Large quantities of fruit are annually exported to the other colonies and Great Britain. Tram-cars every fifteen minutes to city. Blacksmith and wheelwright shops. There is a pottery in the district. Formation: deep alluvial soil in flats, chocolate loam on clay bottom on higher ground. Population, town and district, 1,800.

PEKINA (32° 38′ S. lat., 138° 45′ E. long), a postal town, in the county of Dalhousie, electoral district of Frome, situated on a creek of the same name, 177 miles due N. of Adelaide. Rail 185 miles *viâ* Orroroo, thence conveyance, are the means of communication. Hotel: Pekina. Roman Catholic church (St. Catherine's), and public school. Agricultural district. Water from Government dam. Copper has been found in various parts. Splendid flux gold, silver, and copper have been found. Population of district about 300.

PENOLA (37° 22′ S. lat., 140° 47′ E. long.), county Grey, electoral district and division of Victoria, township, and District Council, with post, money-order, savings bank, and telegraph station, on the old overland route to Melbourne, from which it is distant 304 miles. It lies to the SE. of Adelaide, at a distance of 274½ rail miles, and is only 8 miles from the frontier line. There is communication with each city by rail. Coach runs to Casterton (Victoria), Wednesdays and Saturdays; return, Tuesdays and Fridays. It is about equidistant (32 miles) between Mount Gambier and Narracoorte. Hotels: Prince of Wales and Royal Oak. Penola was first settled about 1840 by Messrs. Cameron and McArthur. Penola North was surveyed and laid out as the Government township, and here are the official buildings. The public buildings comprise a handsome Presbyterian church, a substantial towered edifice belonging to the Episcopalian (St. Mary's); also a Roman Catholic church (St. Joseph's), the court-house, mechanics' institute with a library of 3,600 volumes and a hall, Foresters' and Oddfellows' societies, police-station and a commodious Foresters' hall and Temperance hall. Local Court monthly. Full Court alternate months. There are several well-appointed stores. Schools: public school, with accommodation for 180 scholars, and St. Joseph's. Bank: National. Penola is the centre of a large pastoral district. Agricultural pursuits take a secondary position. The Pastoral and Agricultural Society holds its show here annually in September. The soil and climate are suited for the growth of the vine and other fruits, some of the gardens ranking among the best in the south-east. Coonawarra (1,900 acres laid out by Mr. J. Riddoch) is within 4 miles of Penola, and in connection therewith there are a school, co-operative store and wine celalrs. Population of the district 1,800.

PENWORTHAM (33° 56′ S. lat., 138° 40′ E. long.), a postal township in the county and electorate of Stanley, district council of Clare, 84½ postal miles N. of Adelaide. Communication is by rail and coach *viâ* Saddleworth. Episcopal and Wesleyan places of worship, and provisional school here. Agricultural, fruit growing and wattle stripping industries. Population: village 80, district 104.

PETERSBURG (32° 57′ S. lat., 138° 46′ E. long.), county Dalhousie, electorate of Frome, hundred of Yongala, is a municipality, in a mining, agricultural, and pastoral district, 1,747 feet above sea-level. Petersburg is the junction of four lines of railway, and, therefore, the next railway centre of importance to Adelaide, which is 154¼ rail miles south. Through fares to Adelaide, 25s. 8d. and 16s. 1d. Hotels: Railway, Junction, Federal, and Petersburg. It lies 1,746 feet above sea-level. It has a post, telegraph, savings bank, and money-order office, a branch of the English and Scottish Bank, Episcopal church, Wesleyan, Lutheran, Baptist, and Roman Catholic chapels, an Institute, and several fine stores, a town hall, court-house, locomotive workshops, Government cyanide works, butter and produce factory, refrigerating works, fine show ground, race course, and is the headquarters of a large railway staff. The town, substantially built of stone, is in the centre of an important and prosperous wheat-producing district, and is the head-quarters of the NE. licensing bench and police district. Mining is also causing considerable attention, which has been augmented by the Government cyanide works now erected. There is a State school, also a Roman Catholic (conducted by the Sisters of St. Joseph) and several private ones. Population about 3,500. Newspaper: *The Petersburg Times and Terowie Advertiser*, published on Fridays.

POINT McLEAY, a postal town near lake Alexandrina, in the county of Russell, and electoral district of Albert, 63 miles (73 postal) SE. of Adelaide. Point McLeay takes its name from a prominent bluff on the southern shore of Lake Alexandrina. Near to the bluff is Reidtown, a mission station of the Aboriginal Friends' Association, founded by the late Rev. G. Taplin. The surrounding district is occupied chiefly by squatters. The Point McLeay P.O. is on the mission station. The number of natives on the station varies from 100 to 300. Farming operations, boot-making (3,000 pairs hand-made boots are turned out yearly), and tending a few thousand sheep give employment to some of the natives the greater part of the year. In the wool season wool-washing is carried on successfully by them, each year seeing an increase in the quantity washed. The majority of the natives are able to read and write, and are intelligent. There is a school with 75 children

on the roll, and an average attendance of 60. The mission boat does all the carrying across the lake. About 3 miles to the east is the Government or Point McLeay jetty, which is used by the residents of the district, it being a point of call for the mail steamers. Communication *viâ* Milang twice weekly, Tuesdays and Fridays, steamer returning next day. Fare, 5s. Area of station, 4,113 acres.

POINT STURT, a postal township in the county of Hindmarsh, and electoral district of Mount Barker, 56 miles (71½ postal) SE. of Adelaide, on the shores of Lake Alexandrina. There is a Church of Christ, provincial school The surrounding district is of a farming and grazing character, the formation being sand, with limestone. The nearest township and railway station is Milang, 7 miles distant, and 7 miles nearer Adelaide. Water from wells and tanks. Dairying and barley-growing industries. Population of district, 300.

PORT ADELAIDE (34° 57′ S. lat., 138° 38′ E. long.), a seaport town in the county of Adelaide, and electoral district of Port Adelaide. It is, as its name implies, the Port of the City of Adelaide, with which a railway (double track) 7½ miles in length connects it; fare, 10d. and 6d Hotels: Exchange, Britannia, Ship, Royal Arms, Railway, Commercial, and about 25 others. It is situated on an estuary of the Gulf of St. Vincent, is about 9 miles from mouth of the river, and is governed by a mayor and corporation. It dates its founding from the year 1840. The whole of the harbour from the Corporation Wharf, 400 feet above Jervois Bridge down to the S. A. Company's No. 1 Quay, has been deepened to 21 and 22 feet at low water, while the channel has also been widened. It is considered that there is enough water in the harbour for any ordinary ship which comes up at high water to lie afloat at low water, it being, of course, understood that ocean steamers use the special wharves provided for their accommodation down the river. These wharves are extensive and convenient, being furnished with steam hoists, cranes, tramways, pipes supplying fresh water from the mountains for the use of shipping, and all appliances of a first-rate wharf. Cool storage chambers were erected in 1895. A sandy tongue of land about two miles wide, known as Lefevre's peninsula separates Port Adelaide from the shore of the Gulf; on it are situated numerous small townships comprising the municipality of Semaphore, governed by a mayor and corporation, which is connected with Port Adelaide by railway. There is a pier in Larg's Bay between the semaphore pier and the mouth of the river, off which is a safe anchorage, where ships of the largest tonnage can lie in all weathers. The pier and railway were opened on December 23, 1882. Near the pier is a handsome hotel with 50 rooms, called the Larg's Pier Hotel. The railway joins the semaphore line at Hawker's Creek, and, including sidings, is 2 miles 10 chains in length. Has a dock with area of 5 acres, a wharf frontage of 2,000 feet, a depth of water of 21 feet. Large warehouses are erected here for storage of wool. Suburban townships are Alberton, Queenstown, Yatala, Rosewater, Kingston-on-the-Hill. A tramway connects some of these with Port Adelaide. Banks: Adelaide, National, Union, New South Wales, Australasia, and Commercial of Australia. Churches: Episcopal (St. Paul's), Wesleyan, Roman Catholic (Immaculate Conception), Baptist, Congregational, Primitive Methodist, Presbyterian, and Bible Christian. Schools: a public school capable of accommodating 800 children, and several private ones. Societies: Masonic, Foresters, Oddfellows, Druids, Rechabites, and Orange. Principal buildings: Customs and marine board offices, custom-house, court-house, post-office, money-order office, police-office, telegraph office, sailors' home (Prince Alfred), Town Hall, that will hold about 1,000 persons, Oddfellows' and Freemasons' hall, Institute and Museum, casualty hospital. Industries: extensive silver and copper-smelting works, five steam saw-mills, one brewery, a gas works, sugar refining, rope works, five flour-mills and yacht-building sheds, Globe Salt Works, two patent slips, where vessels of large tonnage can be repaired and a Government freezing works. The municipality covers 2,118 acres. Port Adelaide is entered from Gulf St. Vincent, between two large sand-shoals. A lighthouse outside the bar well marks the entrance. The light is a first order revolving holophotal light, with a local plane of 80 feet above high-water mark. For the defence of the Port, two forts have been erected, in accordance with the recommendation of Sir William Jervois. They mount 2 10-in. guns, each of which weighs 20 tons, and 2 68-pounders; they are known as the Fort Glanville batteries. Town is lighted by electric light. Population of town and district, about 21,000.

PORT AUGUSTA (32° 29′ 42″ S. lat., 137° 45′ 46″ E. long.) county Frome, electorate of Newcastle, the northernmost port in South Australia, is a municipality on the east bank of Spencer's Gulf, about 4 miles above Curlew Point, at the head of navigation (259¼ miles by rail), NW. of Adelaide, having a fine natural harbour with a good depth of water right up to the wharves. The approach has been deepened to 28 ft. 6 in. at low water at buoys, so that the largest steamers afloat can comfortably reach the harbour—in fact, large colliers are sent to this port to discharge 1,000 and often more tons of coal that they may be able to get into Port Pirie channel. Steamers ply between Port Adelaide and the intermediate ports of Wallaroo, Piric, Germein, Lincoln, Edithburgh, and Franklin Harbour to Port Augusta; fares, varying from £3 to £1, return; and rail communication *viâ* Terowie; fare from Adelaide, 43s. 2d. and 27s. Hotels: Flinders, Great Northern, Port Augusta, Globe, Terminus, Hannahville, Taylor's, and Royal, with other suburban hotels. Public buildings are State school, custom-house, court-house and police quarters, telegraph station, post and money-order office, savings bank, and casualty hospital. There are also many fine merchants' premises, a flour mill, brewery, &c. The gaol is situated 3 miles E. of the township. There are several good wharves and jetties besides the Government wharf, which has 22ft. 6in. of water at low tide, the average rise of tides being over 12ft. Has berthing for large vessels. The direct exports from Port Augusta, consisting of wool, wheat, flour, copper, copper ore, hides and skins, and tallow, are considerable. Extensive finds of copper, silver, iron, and other ores have been proved in every direction, and during 1900 valuable gold quartz reefs have been found at Tarcoola; Government smelters are promised. A 40 feet seam of coal exists at Leigh Creek 170 miles north. The transcontinental telegraph wire branches from Port Augusta connecting Adelaide. The main line also duplicates the line running inland, crosses the gulf one mile above the town, going to Eucla, thence to Western Australia, *via* Kalgoorlie, &c. Port Augusta is the repeating station for English cables, *viâ* the Northern Territory, Banjowangie and Western Australia. Churches:—Church of England (St. Augustine's), Roman Catholic Cathedral, Presbyterian, and United Methodists. There are two banks—National and Adelaide. The Institute has a public hall, 48 feet by 30 feet. Freemason, Oddfellow, Forester, Druid, Rechabite and Sons of Temperance societies. The town is provided with waterworks from springs at Woolundunga, holding 660,000 gallons, with a reservoir at Nectar Brook (holding 200,000,000 gallons), 22 miles from, and with a fall of 400 feet, give a pressure of over 100 lbs. to the square inch. The municipal area is 320 acres. The town hall, which is the finest out of Adelaide, is lit by electricity, and was built at a cost of nearly £7,000, is capable of seating 600. The roads and footpaths are all well formed and laid out, eucalyptus and pepper trees growing luxuriantly in many of the streets. Port Augusta is the starting point of the Great Northern line. The largest ostrich farm in the world (about 700 birds) is situated about eight miles to the north of Port Augusta. Population of municipal district, about 2,340. Newspaper: *Port Augusta Dispatch* (weekly).

PORT BROUGHTON (33° 38′ S. lat., 137° 58′ E. long.), a post town with money-order, savings bank, and telegraph offices, county Daly, and electorate of Stanley, 152 miles (143½ postal, *viâ* Redhill) NE. of Adelaide. Contains one hotel—Reynold's; Episcopal and United Methodist churches, and State school; institute, Oddfellows' and Rechabite lodges. Butter factory and flour-mill. Large shipments of wheat are made from the port during the season. The district is agricultural. Communication by coach and rail *viâ* Redhill and Brinkworth daily; *viâ* Kadina on Tuesdays and Saturdays, and *viâ* Bute on Thursdays. A railway extends from here to Mundoora (10 miles). Population, 350.

PORT CAROLINE. *See* KINGSTON.

PORT ELLIOT (35° 35′ S. lat., 138° 43′ E. long.), county Hindmarsh, electorate of Encounter Bay, shire Port Elliot, a seaside town, on the shores of Encounter Bay, 50 miles (77¼ by rail) S. of Adelaide; has post, savings bank, and money-order offices, rail, and telegraph station. There is railway communication with the metropolis once daily, and twice on Saturday; fares, 11s. 10d. and 7s. 6d. Hotels: Royal Family and Railway. There are Congregationalist, Episcopalian (St. Jude's), Roman Catholic (St. John's) and Christian places of worship, two schools; there is also an institute, M.U. Oddfellows', and Rechabite lodges. The country around Port Elliot is principally taken up for wheat growing, also pastoral. The town and Port Victor, from which it is distant 4¼ miles, are favourite resorts during the summer months, and there are numerous boarding houses. Water from underground tanks. Lighted with kerosene. The District Council embraces 168 square miles. Population in district, 1,300.

PORT ELLISTON. *See* ELLISTON.

PORT GAWLER. *See* TWO WELLS.

PORT GERMEIN, county Frome, electorate of Frome, hundred of Telowie, a District Council, with post, telegraph, money-order, and savings bank facilities, 172 miles (245¾ postal) N. of Adelaide. There is daily coach communication with Adelaide, *via* Port Pirie. Hotels: Brown's and the Pier. It has a jetty upwards of 5,500 feet long, running out to a depth of 13½ feet at low water. From its outer end a fixed light, visible at 10 miles distance, is shown. Germein Bay is considered a safe and commodious anchorage, with good holding ground. Bible Christian and Episcopal places of worship, State school (80 scholars), Oddfellows' lodge, and an Institute. Bank: National of Australasia. There is a Government water supply laid on from Flinders Range in which is the picturesque Telowie Gorge. Much wheat is shipped from here. Population, about 400.

PORT LINCOLN (34° 44′ S. lat., 135° 51½ E. long.), county and electorate of Flinders, a seaport town, with telegraph, Government savings bank, and money-order office, 187½ postal miles W. of Adelaide, situated nearly at the apex of Eyre's peninsula. A steamer sails periodically for the metropolis. Fares, £2 10s. and £1 10s. The principal hotels are the Pier, Northern, and Port Lincoln, and there is a mechanics' institute and library, Freemason and Oddfellow lodges, a branch of the Bank of Australasia, a casualty hospital, St. Thomas's Episcopal church, St. Mary's (R.C.), and a Wesleyan chapel. The district is mainly occupied by sheep stations. The harbour is described as the best and most commodious in South Australia, admitting vessels of any draught. It consists of Boston Bay, Port Lincoln proper, and Spalding Cove. The jetty is 700 feet in length. A rocket apparatus is stationed here. A few miles from Port Lincoln is the Poonindie aboriginal station, which was founded by Dr. Hale (late Bishop of Brisbane) in 1850. The district council of Lincoln is 104 square miles in extent. Formation: chiefly limestone and ironstone. Population, of district, about 1,000.

PORT MACDONNELL (38° 4′ S. lat., 140° 41′ E. long.), county Grey, electoral district and division of Victoria, is one of the trading ports of the south-east district; it was opened in 1856. Hotels: Victoria and Port MacDonnell. The harbour has few natural advantages; it is, in fact, little more than an open roadstead, and is subject to occasional heavy gales from SWS. and SE.; only a small shipping business is done. The jetty is 1,060 feet long. A lifeboat, with crew and rocket apparatus, is stationed here. It is situated on a flat part of the south-east coast, about 2 miles E. of Cape Northumberland, 18 miles S. of Mount Gambier, and 323¼ postal miles distant in a south-easterly direction from Adelaide, reached by coach to Mount Gambier, thence train. The following stations and lighthouses are in constant communication with main line, and through Mount Gambier with each other—(telegraph by day, telephone by night and on Sunday):—Portland (V.), Robe rocket and lifeboat station, Penguin Island lighthouse, Beachport steam lifeboat and rocket station, Cape Banks lighthouse, MacDonnell's Bay and Cape Northumberland lighthouse, rocket and lifeboat station. There are Methodist and Episcopal churches, latter built 1896 (Presbyterian services are held in the Wesleyan chapel), the Government building, a national school-house, a Friendly Society's hall, the institute, with library of 1,200 volumes; Foresters and Oddfellows' societies, council chamber, and some large stores. There are wool scouring and bone crushing works, tannery and fellmongery. A commodious bathing house and enclosure have been made. There is post, money-order office here. Most of the buildings are of stone. There is a considerable export from here of wool, potatoes, ground bark, and dairy produce. The District Council includes the whole of the hundred of MacDonnell and the greater part of the hundred of Caroline, proclaimed 19th March, 1885. A local court is held on the second Monday every alternate month. The population numbers about 440 inhabitants; including the district it is about 940.

PORT MORGAN. *See* MORGAN.

PORT PIRIE (33° 10½′ S. lat., 138° 1′ E. long.), county Victoria, electorate of Gladstone, is a corporation, with post, money-order, savings bank, telephone and telegraph offices, 154 miles N. (168¾ by rail) of Adelaide, in the south-east bight of Germein Bay, and is reached by steamer, or by rail *viâ* Blyth and Gladstone, fares, 28s. 2d. and 17s. 7d. Principal hotels: Central, Globe, Royal Exchange, Railway, Pilot, and Port Pirie. It is described as "an important town, and unquestionably the metropolis of the North, with well laid-out streets, handsome shops, and commodious warehouses;" has a wharf frontage of nearly a mile and a half, with substantial wharves; branches of the National, Union, Australasia, and Adelaide Banks; Episcopal (St. Paul's), Congregational, R. C. (St. Mark's), Christian, Salvation Army, and Methodist places of worship, an Institute, two State and six private schools. Industries: smelting and refining, ironworking, foundry, ice and butter factory. The water supply is derived from Beetaloo, also from a reservoir, which is at Nelshaby, which is estimated to contain 25,700,000 gallons of water. The waterworks in all cost £54,151. Gas laid on. The harbour is being much improved. During the wheat season Port Pirie presents a very busy appearance. Population, town and district, 11,000. Newspaper, *Port Pirie Recorder* (bi-weekly).

PORT VICTOR (35° 33½′ S. lat., 138° 40′ E. long.), county Hindmarsh, electoral district Encounter Bay, seaport, with post, money-order, telegraph and savings bank offices, on the shores of Victor Harbour, a small bight of Encounter Bay, 64 miles (81 by rail) S. of Adelaide; fares, 12s. 6d. and 7s. 11d. Has coffee palace, private hotels, and Austral, Crown, and Grosvenor hotels, the last-named a fine building. Bank: Union. Places of worship belonging to the Episcopalians (St. Augustine), Congregationalists, an Institute, model school, customs house, sawmills, butter factory, and M. U. I. O. O. F. and Rechabite lodges, Choral Society, clubs, &c. A jetty, a mile in length, along which is an iron tramway, connects the mainland with Granite Island, from which a causeway projects into deep water for the accommodation of large wool and other ships, several of which are now loaded and despatched direct to London. A railway connects this seaport with Goolwa, the river Murray port. This is one of the prettiest resorts by the seaside during the summer months in South Australia. At Waitpinga, about 14 miles distant, tin ore has been discovered. The lode has been traced from near the seacoast in a north-easterly direction for nearly four miles. The harbour is somewhat exposed to the Southern sea; in the daytime it can be entered with safety, but there is considerable difficulty experienced by vessels leaving when the wind is easterly, or from east to north. A breakwater has been completed, which has rendered it safe and commodious. The breakwater is about 1,000 feet long, and runs out from the NE. corner of Granite Island, in the direction of the obelisk at Port Elliot. Berths are now available for ships up to 1,500 tons, and for intercolonial steamers, where they can load and discharge at the jetty in any weather. Several large steamships for London are regularly loaded at this port, as vessels of 6,000 tons can lie at moorings. A lifeboat with efficient crew and a rocket apparatus is stationed here. Town has made great strides of late years, and is a favourite holiday resort. The District Council of Encounter Bay covers an area of 166 square miles, and has a population of about 1,000. 27,270 acres are under cultivation in the county Hindmarsh. Population of the town 250, with district about 1,800. Newspaper: *Southern Argus*, weekly.

PORT VICTORIA, (34° 80′ S. lat., 137° 15′ E. long.), a seaport, with post and telegraph station and money-order office and savings bank, in county Fergusson, electorate of Yorke's Peninsula, on the western side of Yorke's Peninsula and the eastern coast of Spencer Gulf, about 80 miles (170 postal *viâ* Moonta) NW. of Adelaide, reached by coach to Moonta, thence rail, also coach to Stansbury, thence steamer. The harbour is reported to be commodious and safe. One hotel (Wauraltee), and Wesleyan and Episcopal churches, flour mill, public school and institute. A fixed white light is shown from the end of the jetty, which extends over 900 feet. About five miles SE. is a salt lake named "The Glue Pot"; due west is Wauraltee island, which has a remarkable cave. Large limestone flux company at work. Agricultural and pastoral district; population about 112.

PORT WAKEFIELD a postal, telegraph, savings bank, and money-order township, on the shores of St. Vincent's Gulf, 60 miles (82½ postal) N. of Adelaide, to which vessels run regularly. There is also daily communication by rail (82¾ miles); fares, 13s. 10d. and 8s. 8d. The nearest townships, and connected with it by the railway, are Balaclava, 15 miles distant, and Hoyleton, 30 miles distant. By the completion of the railway extension from Blyth to Gladstone direct communication with Broken Hill now exists. A line from Balaclava now connects with the North Line at Hamley Bridge. Hotels: the Terminus and Rising Sun. It is in the District Council of Port Wakefield, electorate of Wooroora, and county and police district of Gawler. There is a Government wharf, about 500 yards long, and one private wharf. The National Bank has a branch here, and there are places of worship belonging to the Church of England (St. Alban's), Roman Catholics (St. Vincent de Paul), and Wesleyans. There are Foresters' hall, mechanics' institute, one school, and a police station. A Local Court is held monthly. The surrounding country is flat and dry; fair agricultural, but better grazing land. The principal businesses in the township are a patent roller flour-mill and Government loco. workshops. The District Council is 180 square miles in area. Population 526.

PORT YANKALILLA. *See* NORMANVILLE.

PROSPECT (34° 36′ S. lat., 138° 3′ E. long.) is about 2 miles N. of Adelaide, separated from North Adelaide by the North Park lands. It is in the county of Adelaide—under the jurisdiction of the District Council of Prospect—and the electoral district of North Adelaide; is mostly a place of residence for persons engaged in business in the city. Hotels: Hampstead, Reepham and Windmill. Places of worship: Wesleyan and Methodist. The principal industry carried on is that of lime-burning. The situation is elevated, and an extensive view of the plains with the Gulf beyond is obtained from any part of the village. The soil is good, of a limestone formation. Hay and wheat crops thrive well around the village. Places of worship—Wesleyan, Primitive Methodist, Church of England, Baptist, and Salvation Army. Population, 3,900.

PYAP (34° 30′ S. lat., 140° 29′ E. long.) (co. Albert), postal station and village settlement on river Murray. Boat to Morgan, thence rail to Adelaide, 215 miles S. Has State school, in which religious services are held. Water from Murray. Plenty of game. Agricultural, horticultural, and pastoral district. Formation: lime and sandstone. Population about 150.

QUEENSCLIFFE (35° 40′ S. lat, 137° 39′ 50″ E. long.) is a postal town, with money-order office and telegraph station, 76½ postal miles from Adelaide, on the W. side of Nepean Bay (in the electorate of Encounter Bay), in the NE. part of Kangaroo Island. The Bay is one of the best-sheltered in the colonies, being completely land-locked by a sand-spit which runs out about 6 miles. It has a splendid anchorage and good jetty. Boats travelling east or west utilise the Bay in rough weather. For nine months in the year the climate here is delightful, the remaining three being wet, but not cold. The Bay is a fine one for all kinds of boating and fishing. Township, which is half-a-mile S. of Old Kingscote, has hotel, State school, Anglican church, police-station, local court, and public hall. Industries: flux quarrying, firewood, fishing, eucalyptus oil distilling, Yacca gum gathering, also furred skins. Several distilleries in district. Weekly steamer to Port Adelaide, thence rail. The first white settler in South Australia landed in this particular spot of Kangaroo Island, now called Queenscliffe, in *July* of 1836, whereas the first landing of Europeans on the mainland did *not* take place till *December* of the same year. The first burial of a European in South Australia took place here. Formation: limestone. Population of district, 500.

QUEENSTOWN. *See* ALBERTON.

QUORN (32° 22′ S. lat., 137° 50′ E. long.) is a post town and municipality with four wards having money-order office, savings bank, and telegraph station, and it is a railway station on the Great Northern line, lying 959 feet above the sea-level. It is 24¾ miles from Port Augusta, fares, 4s. 2d. and 2s. 7d., and 265 miles (234½ rail) N. of Adelaide, through fares, 39s. and 24s. 5d. Hotels: Criterion, Pinkerton, Grand Junction, and Trans-continental. There are branches here of the National and Adelaide Banks; Episcopal church (St. Matthew's), R.C. church (Immaculate Conception), Methodist, and Plymouth Brethren chapels, Salvation Army, Government and Catholic schools, two flour mills, implement factories, institute, Oddfellows', Druids', Rechabite, Hibernian and Foresters' lodges. The north line has its junction here with the Port Augusta and Government Gums Railway. It is in the Hundred of Pichi Richi, county of Newcastle, and electorate of Newcastle. The tree growth (plantations and in streets) gives the town a very picturesque appearance. Mount Brown Forest, Devil's Peak, and Pichi Richi Pass are in the district. The Kanyaka District Council have their headquarters here. Population, 700; district about 1,300. Newspaper: *Mercury*.

RANDALLSEA. *See* SECOND VALLEY.

RAPID BAY. *See* DELAMARE.

REDHILL (33° S. lat., 137° E. long.), post money-order, savings bank, and telegraph station, 124¼ postal miles N. of Adelaide, on the Broughton. The National Bank has a branch here, and there is a public-house (Eureka), an institute, a public school, United Methodist chapel, Episcopal church (St. Andrew's), Roman Catholic church (St. Martin's), M.U.I.O.O.F., Rechabite, and Hibernian societies, and stores. Communication is by way of Brinkworth Railway Station and coach; also coach to Mundoora. Redhill is in the hundred of the same name, county Daly, and electorate of Stanley. Population, 260.

REDRUTH (33° 43′ S. lat., 138° 56′ E. long.), part of town of Burra, with a postal, railway and telegraph station on the Burra creek, in the county, police, and electoral district of Burra, 102 postal miles NNE. of Adelaide. Hotel: Courthouse. Public buildings comprise Wesleyan and Primitive Methodist churches; a police-station, Girls' Reformatory, M.U.I.O.O.F. lodge, and court-house. Kooringa is distant 1 mile south. Pastoral, mining, and agricultural district. Population about 340.

REEVES PLAINS (34° 30′ S. lat., 138° 20′ E. long.), a postal centre in the electoral district of Yatala, 36½ postal miles N. of Adelaide. It has a school and Primitive Methodist church. The surrounding country is principally flat plain surfaced with scrub, and adaptable for tillage.

REIDTOUN. *See* POINT MCLEAY.

RENDELSHAM (37° 30′ S. lat., 140° 10′ E. long.), post town in co. Grey, electoral district Victoria, 342¾ rail miles SE. of Adelaide, on the Mount Gambier and a siding on Beachport railway line, is situated on the margin of a very large drained peaty swamp. Chicory grows luxuriantly, but the crop is very liable to be destroyed when just above ground owing to prevailing NNW. winds and the shifty nature of the peaty soil, which is as black as coal dust. There is a State school, and a large wheat and produce store, and the Presbyterians have a place of worship. Formation: limestone ridges surrounding peat flats, in which potatoes are largely grown; chicory also grown. Nearest town: Millicent, 8 miles distant. Population of district about 150.

RENMARK (34° 15′ S. lat, 140° 35′ E. long.), a post town, with telegraph station, money-order office, and savings bank, on the river Murray, in the co. of Hamley and electorate of Burra, 180½ postal miles ENE. of Adelaide, with which, and to Murray Bridge, the communication is *via* Morgan, by steamers leaving there weekly; also twice a week up and down by mail coach to Morgan. This is one of the Irrigation Colonies established by Messrs. Chaffey Bros. There is at present an area of upwards of 2,000 acres planted with vines, apricots, peaches, olives, oranges, and lemons. There are four pumping stations of various sizes employed in elevating the water from the river to the land under irrigation. There are three grades in the elevation of the water—the highest grade is 60 feet above the river at summer level. Twenty-six feet is the highest direct lift. There is a public school capable of accommodating 110 children. A foundry is being successfully worked. The Church of England, Congregationalists, Wesleyans, Roman Catholics, and Salvation Army hold services. The Renmark Hotel is controlled by a committee of ratepayers, whose manager holds the license. All profits have to be devoted to some object approved by the minister in promotion of art, science, and horticulture. There are branches of the Agricultural Bureau and a public library. A Co-operative Fruit Packing Union is working successfully, having handled during the three seasons past large quantities of fruit and other products. The geological formation is composed of undulating country of a sandy nature, intersected along the river banks with clayey flats, and bounded by a double sandstone ridge. Newspaper: *Renmark Pioneer*. Population about 800.

REYNELLA (35° 7′ S. lat., 138° 35′ E. long.), county Adelaide, electorate of Noarlunga, Morphett Vale District Council, post town on the Pandlotinga creek, 13½ miles S. of Adelaide, and 2 miles distant from Morphett Vale. Has hotel, school, and Wesleyan place of worship. The district is viticultural, pastoral and agricultural. There is coach communication with the metropolis. Population, 113.

RHYNIE (34° 25° S. lat., 138° 45′ E. long.), a postal township, 66¼ miles N. of Adelaide, in county Gawler, electorate of Wooroora, situated on Springs Creek and the main road from Adelaide to Clare and the far north. Coach to Riverton (3½ miles), rail to Adelaide. It has Methodist and Anglican churches, one hotel, a school, and store. Farming and grazing district, wheat principally grown. Copper and tin are both found in the vicinity, and the former has been worked. Population, township, 65.

RIVERTON (34° 10′ S. lat., 138° 40′ E. long.), county of Light, electorate of Wooroora, district council of Gilbert, postal township, money-order, savings bank, and telegraph and railway station on the Gilbert river, 63 rail miles N. of Adelaide. It lies 881 feet above sea-level. There are two passenger trains daily; fares, 10s. 4d. and 6s. 6d. Railway refreshment room. Hotels: the Riverton and Mill Inn. Places of worship: Methodist Union chapels and Episcopal church (Holy Trinity). Roman Catholic services in institute. It has an institute. State and High (for girls) schools, butter and cheese factory, a local court-house and police station, post and telegraph office, Freemasons', Druids' (E. Scholtz, secretary), Foresters', Oddfellows' lodges, debating society, National Defence League, a half company of Militia, and branches of the National and English, Scottish and Australian Banks, flour mill, two large chaff mills, two implement works, flag and kerbing quarries, and wine cellars. Good cycling roads. Pastoral, agricultural, and viticultural district. Water from wells and tanks. Formation: limestone on rises, red and black clay on plain. Population 600.

ROBE (37° 9′ S. lat., 139° 45′ E. long.), county Grey, electorate of Albert, is a seaport on the south side of Guichen Bay, about 195 miles (320½ postal) SE. of Adelaide, 27 miles from Kingston, 30 miles from Beachport, and 81 miles from Mount Gambier. It was founded in 1845, and was for years the only port on this part of the coast. The shortest and best communication is coach to Kingston, thence rail. Hotels: Robe and Criterion. Robe enjoys a salubrious climate, and was once the viceregal marine residence. The coast scenery is picturesque, and the existence of a number of lakes in the neighbourhood (Eliza, Robe, St. Clair, and Hawdon) gives a special character to the place. The bay is capacious, and has an excellent bottom, with good anchorage, varying from five fathoms. Its margin is a clear sandy beach, forming with its splendid jetty, 1,020 feet long, a favourite promenade. A lifeboat with crew is stationed here. The principal buildings are a police station, court-house, an institute, with library of 2,400 volumes, Roman Catholic and Anglican (St. Peter's), and Wesleyan churches. Has State school, customs house, telegraph station and post office, with money-order and savings bank office, M.U.I.O.O.F. lodge, and several stores; The District Council embraces the whole of the Hundreds of Waterhouse, Bray, Ross, and Smith. The Agricultural and Pastoral Society here holds its annual show in October. The population of the District Council is about 500. Of the township alone about 180.

ROBERTSTOWN (33° 52′ S. lat., 139° 0′ E. long.), a post town, 82¾ postal miles N. of Adelaide, in the county of Eyre, hundred of English, and electorate of Light. Mail coach to Eudunda (14 miles), thence train to Adelaide; coach runs to Floreton and Bundy twice a week, Tuesdays and Fridays. There are two Lutheran and one Methodist churches, State and Lutheran schools, branch of Agricultural Bureau, one hotel, two stores, creamery and butter factory, saw-mills, corn-crushing mills, and blacksmith's shop. Silver has been found in the district. Water from wells. Mining, agricultural and pastoral district. Population of township, about 100.

ROCHESTER (33° 43′ S. lat., 138° 29′ E. long.), post township, county and electoral district of Stanley, 108 postal miles N. by W. of Adelaide. The Magpie creek flows within a mile of the township. The Broughton river is about 10 miles distant. Communication with Adelaide, *viâ* the Brinkworth Railway Station. Hotel: Rochester. Public school. The district is both pastoral and agricultural. Most of the land is the freehold property of Messrs. Hawker Bros. and is known by the name of the Burgaree Run. The locality has a good supply of slightly brackish water, obtained from wells at a depth of about 10 feet from the surface. Population, 15.

ROSENTHAL (34° 33′ S. lat., 138° 52′ E. long.), a postal township, mostly occupied by Germans, on the Gawler (North Para river), 33¾ postal miles NNE. of Adelaide. It is in the County of Adelaide, and the District Council of Barossa. There are two places of worship, one of which is the German Lutheran Church (St. Martin), with school attached, and the other St. Johannis. General store and a blacksmith's shop. The district is a wheat-growing one, with a few vineyards, and is of a hilly character. There is no direct communication with Adelaide, but the route is by way of Gawler, thence rail. The population comprises 120 persons.

ROSE PARK, a pleasant and fashionable suburb of the city, is situated 1½ miles E. of Adelaide, in the county of Adelaide, electorate of East Torrens, and District Council of Burnside, was originally Prescott's farm. It has a Government water supply, deep drainage, State school (650 pupils), Congregational church, and literary society, also various sports clubs. Communication by tram and carettes, fare from city. 3d. Pleasant drive through park lands. Rapidly becoming a leading suburb. Population about 1,000

ROSEWATER, a postal township (using postal notes), with telephonic communication, in the county of Adelaide, electorate of Port Adelaide, lying 9 miles SE. of the metropolis. Rail from Alberton. Has two hotels and Anglican and Methodist churches. Lighted with gas. Water from Happy Valley Reservoir. Population, with neighbourhood, 2,900.

ROSEWORTHY (34° 33′ S. lat., 138° 45′ E. long.), a postal township, with money-order and savings bank, and telegraph office, 30½ rail miles N. of Adelaide, at the junction of the North and Morgan lines of railway, fares 5s. and 3s. 2d. It is in the county of Gawler, District Council of Mudla Wirra South, and electoral district of Yatala, 374 feet above sea-level. Hotel—the Junction. Place of worship—Primitive Methodist chapel. District, a farming one. The Government Agricultural College, a fine structure surrounded by the experimental farm of 1,500 acres, is situated four miles west of the township. The College Farm and Vineyard are under the direction of the Professors of Agriculture and Viticulture, and a highly efficient staff; students are received from all the Colonies and from England. Agriculture, viticulture, œnology, surveying, fruit culture, veterinary science, chemistry, and farm bookkeeping are thoroughly taught. Fermenting room and wine cellars, on modern scale, erected. A paper called *The Student* is published at the College. Population, 180.

ROWLAND'S FLAT (34° 34′ S. lat., 138° 54′ E. long.), a postal village on the North Para river, in the county of Adelaide, and electoral district of Barossa, 37½ miles NE. of Adelaide. The village is near the foot of the Barossa range, and is environed by vineyards, whence is derived the wine that has obtained a high reputation throughout the colony. Cheese-making industry. Has Lutheran place of worship and State school. Communication, train from Adelaide to Gawler, thence coach. A coach runs to Tanunda. Population about 160.

SADDLEWORTH (34° 6′ S. lat., 138° 47′ E. long.) (county Light, electorate of Burra), a township, railway station, and hundred on the North line, on the Gilbert river, 68¼ rail miles N. of Adelaide, lying 1,053 feet above sea-level. It has post and money-order office, savings bank and telegraph station. Two trains run daily; fares, 11s. 4d. and 7s. 1d. Coaches run to Clare *viâ* Auburn, Leasingham, Watervale, and Sevenhills; Black Springs *viâ* Waterloo; Kapunda *viâ* Marrabel and Allendale. Railway and the Exmouth are the hotels. There is an agency of the E. S. & A. Bank, a Savings Bank, Methodist and Baptist chapels, Anglican (St. Aiden) and Roman Catholic churches (St. Stephen's), public school and institute with library, Oddfellows' and Rechabites' lodges. The surrounding country is principally cultivated for wheat. Area of District Council 62 square miles. Population, town and district, 1,101 (census 1891).

SALISBURY (34° 46′ S. lat., 138° 40′ E. long.) (county Adelaide, electorate of Yatala, and district council of Yatala North), a rising township, 12½ rail miles NE. of Adelaide, 110 feet above sea-level, in a parallel line with the Great Main North Road, in the district of Yatala North on the Little Para River. Four trains daily each way to the metropolis; fares, 2s. and 1s. 3d. Hotels: Governor Macdonnell, Salisbury, and Railway. It is a post, money-order, savings bank, telephone and telegraph station, and is the nominating and principal polling place for the district of Yatala, being surrounded on each side by a large and influential farming population. It contains an assembly room, Baptist, Roman Catholic (St. Augustine), Congregational, and United Methodist chapels, St. John's Episcopal church, an Institute, police station, and court-house, a mill, a Government school with 170 pupils, Oddfellows' (M.U.), Rechabite and Hibernian societies, and several stores. Much wheat and fruit (especially oranges and grapes) are grown in the vicinity, where also valuable quarries are worked. It is 7 miles to the E. of the St. Kilda beach; which in summer time is a seaside resort, much frequented by the inhabitants and pleasure-seekers of the district. Population, nearly 500.

SANDERGROVE (35° 18′ S. lat., 138° 53′ E. long.), a postal village and railway siding, in the county of Hindmarsh, electoral district of Mount Barker, 56 rail miles E. of Adelaide, on the Angas river. Five miles from Strathalbyn, fare from Adelaide, 8s. 4d. and 5s. 4d. Water from wells. Farming and grazing country.

SANDY CREEK (29° 29′ S. lat., 139° 45′ E. long.), co. Adelaide, a postal centre in the hundred of Barossa, and electoral district of Barossa, 28¾ postal miles N. of Adelaide, between Gawler and Lyndoch valley. A good roadside inn (the Sandy Creek) is here; also a mechanics' institute and a public school-house. Agricultural district. Communication is by conveyance to Gawler, thence by the railway.

SECOND VALLEY (35° 31′ S. lat., 138° 13′ E. long.), or Rapid Bay, a postal centre, telephone, and money-order station, in the county of Hindmarsh, electorate of Encounter Bay, and police district of Yankalilla, 57 miles S. by W. of Adelaide (reached by coach), on the Paramanacoona creek. In the district, which takes in Randallsea and Finniss Vale, are one hotel, one school, Wesleyan place of worship, M.U. Oddfellow and Rechabite lodges, and bark and flour-mills. It is a mining, farming, and grazing district. Water from spring. Formation: dark earthy schist, with beds of white and blue marble. Population, 60; of district, 140.

SEDAN (34° 34′ S. lat., 139° 19′ E. long.), a post-town in the county of Eyre, electorate of Barossa, and district council of North Rhine, distant 69 miles NE. from Adelaide, communication with which is *viâ* Freeling Railway Station. Hotel: Sedan. There are in the township Lutheran and Congregational places of worship and a public school. Wheat is extensively grown in the locality. Population, about 120; district, 500.

SELLICK'S HILL (35° 20′ S. lat., 138° 32′ E. long.) is a postal town situated about 1½ miles E. of Aldinga Bay, 32 miles S. of Adelaide. There is daily communication by coach. Hotel: Mannion Victory. It is in the district council of Aldinga. Public school (50 scholars), Wesleyan chapel, Salvation Army services held in school. Once a wheat-growing district, but out-cropped; now chief products hay and wool. Main road to Yankalilla, and Cape Jervis runs through township. Swan and wild geese in lagoon. Good deep sea fishing. Mild winter resort. Water from wells and tanks. The population of the township is 150.

SEMAPHORE (34° 51′ S. lat., 138° 32′ E. long.), a corporate town, with five wards, in the county of Adelaide, electoral district of Port Adelaide, police district of Port Adelaide, 9½ rail miles from Adelaide. It is on the coast, and is considered one of the chief watering places of the Colony. There is a pier, 1,800 feet in length, for the convenience of boarding vessels arriving and departing, also a post and telegraph office, and telephone exchange; a lighthouse and lifeboat shed, an electric time-ball, a water tower for supplying water to neighbourhood when supply is cut off through the opening of the Jervois Bridge; boarding and custom house stations, and numerous private seaside residences; town hall and institute with library, reading rooms and gymnasium, splendidly arranged baths. There are two State schools and numerous private schools; also a convalescent home (St. Margaret's), erected and maintained by private benevolence. Communication by rail with Adelaide. Hotels: Jetty, Semaphore, Largs Bay, and several others. The places of worship are Episcopalian (St. Bede's), Wesleyan, Bible Christian, and Baptist. Population, about 8,000.

SERVICETON (county Lowan, shire Lawloit), named in honour of the late Mr. James Service, once Premier of Victoria, is the site of the junction of the railway systems of Victoria and South Australia. There is a post, telegraph, money-order and savings bank office. It is 196½ rail miles from Adelaide, and 286½ (*viâ* Bacchus Marsh) from Melbourne. The fares from Adelaide are 32s. 2d. and 20s. 3d. A State school, coffee palace, store, an institute, and substantial Government offices; a customs officer is stationed here. Anglican and Presbyterian services held in public hall alternate Sundays, Roman Catholic once a month. District agricultural and pastoral chiefly. Sheep farming. Serviceton is in the strip of territory in dispute between South Australia and Victoria, the latter retaining the revenues. Population about 300.

SEVENHILL (33° 54′ S. lat., 138° 39′ E. long.), a post town in the county and electoral district of Stanley, police district of Clare, 86¼ postal miles N. of Adelaide, to which coach to Saddleworth, thence the rail, are the means of conveyance; coach fare, 3s. 6d. Hotel: the Black Eagle. The Hutt Creek is the nearest water. The church of St. Aloysius, for beauty of design and material, is one of the finest ecclesiastical edifices in the colony, and is three-quarters of a mile distant. The stone used is obtained from a quarry in the neighbourhood. There are two schools—Roman Catholic and State, and branch H.A.C.B.S. The district around Sevenhill is of an agricultural character. Population of town 120, district about 700.

SHEA OAK LOG (35° S. lat. 140° E. long.), postal township on Greenock Creek, 36 miles N. of Adelaide, county of Light, shire Nurioopta. Conveyance to Gawler or Freeling, thence the railway, are the means of reaching Adelaide, though the inhabitants generally prefer the route to Roseworthy, 5½ miles distant. Freeling is about the same distance. The district is one of the largest wheat-growing localities in South Australia. Has Temperance hotel: the Shea Oak Log, public school, Wesleyan church. Water from private tanks. Population about 200.

SMITHFIELD (33° 40′ S. lat., 138° 43′ E. long.), county of Adelaide, electorate of Yatala, and District Council of Munno Para West), a post township, with money-order, telegraph and railway station on the North Line, on the north bank of Smith's creek, 18¾ rail miles N. of Adelaide. There are four trains daily; fares, 3s. and 1s. 11d. Hotel: the Smithfield. The Presbyterians and Bible Christians have chapels here, and there is an institute and a public school. Town lighted with kerosene. Wheat is largely grown in the district. Population about 150.

SNOWTOWN (33° 51′ S. lat., 138° 11′ E. long.), is situated between Barunga and Boundary Creeks on line of rail—Kadina to Brinkworth, connecting Adelaide and Port Pirie line. It is in the county of Daly, hundred of Barunga, and electorate of Stanley, District Council Snowtown. To NNW. of Adelaide 117¾ rail miles, 150¾ postal and 96 road. It has a post-office, savings bank, money-order office, and railway and telegraph station, a branch of the English and Scottish Bank; Episcopal, Roman Catholic (St. Canice), and Methodist places of worship; Government school (114 scholars), hotel, I.O.O.F. and M.U. and Freemason lodges, and Institute. Inexhaustible supply of salt on Bumbunga Lake, 8 miles distant. Formation: clay, loam on E. side of Hammock's range, sandy on W. Farming and grazing locality. Plenty of wild game and good scenery. Population, town 250; district, 2,500.

SOUTH PETHERTON (34° 49′ S. lat., 139° 7′ E. long.), a postal township, 35½ miles ENE. of Adelaide, in the county of Sturt, electorate of Gumeracha, and police district of Mount Pleasant. A coach runs daily to Adelaide from Mount Pleasant, 3½ miles distant, fare, 6s. The district, while good for stock raising and farming purposes, is also a mining one. Has district hotel, creamery, bee farm. One school, with average attendance of about 50, and a Primitive Methodist chapel. Formation: ironstone, limestone, and quartz with copper ore.

SPRINGTON (34° 39′ S. lat., 139° 10′ E. long.), a postal township with telephone office, in county Sturt, Gumeracha electorate, and district council of South Rhine, 40 miles N. of Adelaide, with an hotel—the Springton, Episcopal, Baptist (at Salt Creek), Lutheran, and Presbyterian churches, and public and private schools. Daily coach communication. There are several farms and vineyards in the neighbourhood. Population about 105; district about 600.

STANSBURY (35° 10′ S. lat., 137° 48′ E. long.), county of Fergusson, electorate of Yorke's Peninsula, district council of Dalrymple, a post town, with money-order and savings bank office and telegraph station, on the Eastern shores of Yorke's Peninsula, about 209 miles W. of Adelaide, *via* Moonta, or 57½ postal miles by steamer. There is steamer communication twice weekly with Port Adelaide, or the coach to Moonta can be taken, thence rail to Adelaide. Hotel: Jetty. It has Episcopal (St. Augustine's), Baptist and Wesleyan places of worship. Government school, institute, and Rechabite lodge. Industries: salt, lime, flux, wine, fishing, and dried fruit. Splendid beach, with jetty about 1,000 feet in length. Agricultural and pastoral. Population of district about 400.

STEELTON (34° 8′ S. lat., 138° 54′ E. long.) is a postal village 75¼ postal miles N. of Adelaide, in the county of Light, district council of Waterloo. The Saddleworth Railway Station is 7 miles distant, to which coach. The buildings comprise Primitive Methodist chapel, and a post office and store. Agricultural district. Population, 20, principally Germans.

STIRLING EAST. *See* Crafers.

STIRLING NORTH (32° 33′ S. lat., 137° 46′ E. long.), hundred of Woolundunga, a postal town in the county of Frome, and electoral district of Newcastle, 255 postal miles N. of Adelaide, and 5 miles E. of Port Augusta. Stirling is famed for its fruit gardens, and a large trade is done in the season with Adelaide, Broken Hill, and the Far North. The fruits (grapes, peaches, apricots, &c., ripen here much earlier than about Adelaide) are of the very finest qualities. Pichirichi Pass and Horrock's Pass

within easy driving distances. A good water supply from the Woolundunga Springs in the Flinders Ranges is available for irrigation purposes. The Woolundunga District Council has its centre here, and has a very commodious hall. Hotels: North Stirling and Traveller's Rest. The weekly steamer from Adelaide to Port Augusta is a means of communication, or the railway *viâ* Quorn. State school, United Methodist Church. Agricultural Bureau. Population, 150; district 500.

STOCKPORT (34° 21′ S. lat., 138° 46′ E. long.), counties Light and Alma, electorate of Wooroora), a township, with post, telegraph and money-order office, and railway station, 49¼ miles N. of Adelaide, on the Gilbert River. There are two trains daily from Adelaide, time occupied in transit about 2 hours; fares, 8s. 2d. and 5s. 1d. Places of worship—Baptist, Wesleyan, and Roman Catholic (St. Celestine); there is also an institute, branch of the Agricultural bureau, and State school. Agricultural and pastoral. Ironstone formation. Population, about 300.

STOCKWELL (34° 27′ S. lat., 139° 8° E. long.), a postal centre with money-order office, telegraph station and savings bank, 52¾ miles N. of Adelaide, in the co. of Light, electorate of Barossa and District Council of Angaston, Hundred Belvidere. It is reached by train to Freeling, thence coach. It has a public school, and an hotel—the Stockwell. Wheat growing and farming district. Geological formation: ironstone and quartz reefs. Population about 200.

STRATHALBYN (35° 16′ S. lat., 138° 55′ E. long.), a municipal township, has Government Savings Bank, post, money-order and telegraph office, in the county of Hindmarsh, electorate of Mount Barker, 35 miles (51 by rail) SE. of Adelaide, on the main road to Milang and Wellington, and overland to Victoria. Fares from Adelaide, 7s. 6d. and 4s. 10d. The Terminus, Victoria, Commercial, and Robin Hood are the hotels. The road between Adelaide and Strathalbyn runs along the foot of Mount Lofty, traversing a route difficult and precipitous, and is regarded as a triumph of engineering skill. It is one of the most picturesque towns in South Australia, the river Angas flowing through it (on the banks of which the Corporation have planted willows and shrubs), and is a very popular week-end resort for bicycle tourists and amateur photographers. There are in the town branches of the National and Savings Banks, and churches belonging to the Presbyterians, Methodists (two), Church of England (Christ Church), Catholic (St. Barnabas), Salvation Army and Christians. There are also a flourishing institute, Masonic hall, a mill, and cheese and butter factory; and a number of local societies, clubs, and Masonic, Oddfellows', Foresters', Druids', and Rechabite lodges are in operation. The town is lighted with gas, and water laid on from Railway reservoir. The municipal area is 1⅝ square mile. The district is agricultural, and pastoral, and the soil being of excellent quality the average yield is very high. In the immediate neighbourhood there are several rich mineral deposits, which are being developed. District continues to show increasing signs of prosperity. Population of corporate town is about 1,100, but in the district and neighbourhood the number of residents is about 2,500. The *Southern Argus* is the local newspaper.

STREAKY BAY (Flinders Town) (32° 37′ S. lat., 134° E. long.), a post town and repeating station on W.A. telegraph line, has money-order office, savings bank, and telegraph station, on the sea coast, in county Robinson, electorate of Flinders, 393½ postal miles NW. of Adelaide. Hotels: Criterion and Flinders. The township is on the shores of a pleasant landlocked bay, which has a depth of water of from three to four fathoms, which extends to about half a mile from the shore: there is a fine jetty 1,095 ft. long, at which vessels can unload. There is an Episcopal church (St. Augustine's, E. Archer, catechist), State school, mechanics' institute. Fine oysters are to be obtained, but in small quantities. It is reached by steamer to Port Lincoln, thence coach, also by train to Port Augusta, thence coach *viâ* Yardea. Water from wells and tanks. Agricultural and pastoral district. Formation: limestone. Population, 201; district, 736.

STURT (35° S. lat., 138° 34′ E. long.), a post town in the electorate of the same name, county of Adelaide, and police district of Brighton, 8 miles S. from Adelaide, of which it may be considered a suburb. Conveyance by coach: fare, 1s. Hotel: Flagstaff. There are three places of worship and two schools. Agricultural district. Population, 111.

ST. JOHNS (34° 22′ S. lat., 138° 58′ E. long.) is 53 miles N. of Adelaide, situated in the county and electoral district of Light. Conveyance to Adelaide is by way of Kapunda. There is one store, a school, also a Roman Catholic chapel. The district is of a farming and agricultural character.

ST. PETERS, suburban to Adelaide two miles, to which it is connected by tramway. It is a very populous suburb, with post, telegraph, and money-order offices, savings bank, large town hall, institute, Druids' lodge, public school, private schools, St. Peter's and Hardwicke (Girls') Colleges; Anglican, Wesleyan, Christian, Baptist and Congregational places of worship, and other public buildings. Has preserving company, two distilleries, and a brewery. It is a corporate town. Lighted with gas. Population 8,000.

SUMMERTON (34° 58′ S. lat., 138° 40′ E. long.), a post town about ten miles E. of Adelaide, with which it has daily coach communication, in the county of Adelaide and electorate of Onkaparinga. Wesleyan and Bible Christian chapels are here, also an institute, Temperance hotel, and a jam factory. The residents in and around are principally market gardeners. Population about 300.

TALIA (33° 28′ S. lat., 135° 1′ E. long.), a post town, 318½ postal miles W. from Adelaide, in the county and electorate of Flinders, on the east coast of Anxious Bay, about 129 miles NW. from Port Lincoln, and 15 miles S. from Venus Bay. It is reached by steamer to Port Lincoln, thence coach, or occasional trading vessels to Venus Bay. Has State school and hall used for occasional divine service. It is the postal centre for a large pastoral and agricultural district. Limestone formation. Population of postal district, about 200.

TALISKER (35° 38′ S. lat., 138° 20′ E. long., (county Hindmarsh, electorate of Encounter Bay) is 66½ miles S. of Adelaide, within a short distance of Cape Jervis, where is a lighthouse. Delamere, 4 miles, is nearest post-office. Adelaide is reached by conveyance from Delamere to Normanville, thence coach. In the vicinity are silver and lead mines, which at one time promised very favourably, were closed for some years, but have again been opened by an Adelaide syndicate, and the prospects are considered remarkably good. It is an old farming district. Formation: mica schist, slates, sandstone, quartz. Water from springs. Population of district about 300.

TANTANOOLA (co. Grey), a post town, with money-order office, and railway station, 21 miles from Mount Gambier and 325⅜ rail miles SE. of Adelaide, in the centre of a good farming, dairying, and grazing district. The nearest port is Beachport, 30 miles distant. It is part of the drainage areas, and is situated on a large tract of rich level country, on which potatoes and root and fodder crops are grown largely. It has a State school, Wesleyan church, the Anglican and Presbyterian, bodies conduct services in the public hall, one hotel, two stores, cheese and butter factory, and a public hall. The Tantanoola District Council extends over nearly the whole of the hundred of Hindmarsh and part of the hundreds of Mayurra and Benara. Population about 250.

TANUNDA (34° 35′ S. lat., 138° 58′ E. long.), county Light, electorate of Barossa, is situated on the North Para river, 42 miles N. of Adelaide, at the base of the Barossa mountains. Daily coach to Gawler, 17 miles distance in a westerly direction, thence the railway, are the means of communication. The Tanunda and Victoria are the leading hotels. It has post, telegraph, savings bank, and money-order office; and is the chief polling place for the electoral district of Barossa. There are four German Lutheran churches. also a State school, two private schools, an institute (a building of stone, containing reading-room, library, and committee rooms, opened in April 1880), Oddfellows' (G.U) lodge, and a branch of the English and Scottish Bank. The Government buildings comprise a telegraph station, a police station, and a court-house. A coach runs daily from here to the neighbouring townships, north and east—namely, Nuriootpa, Angaston, and Truro. Grapes, fruit, and wheat principally grow in the district, and large quantities of wine and brandy are made in the township. 7,750 acres under vine in county Light. The Adelaide Wine Co., Ltd., have their large wine cellars (the largest in Australasia) and distillery here. The population, the largest number of whom are Germans, is about 600. Paper, *Kirchen und Missions-Zeitung*, published weekly.

TARCOWIE (32° 56′ S. lat., 158° 40′ E. long.), a post town, 179 postal miles N. of Adelaide, county Dalhousie, electorate of Frome, has one hotel, Primitive Methodist chapel, State school, in which Episcopal services are held. Reached by train from Adelaide to Yongala, thence coach. Rather picturesque. Agricultural district. Population of township, about 100.

TARLEE (34° 13′ S. lat. 138° 45′ E. long.), post town, with money-order and telegraph office, in the county of Light, district council of Gilbert, on Gilbert river, and polling place in the electoral district of Wooroora, 54¼ miles (by rail) N. of Adelaide, 624 feet above sea-level. It is a station on the North line of railway; there are two trains each way daily; fares, 9s. and 5s. 8d. A coach runs to Kapunda. Hotel: Sir James Fergusson. It contains Wesleyan, Baptist, and Roman Catholic (St. John and St. Paul) churches, a State school, an institute, Rechabite and H.A.C.B. societies, an agency of the English and Scottish Bank, S. A. Farmers agency, Co-operative Union, literary and musical society, football and cricket club. Wooroora Agricultural Society hold annual show on show ground, and several stores. Industries: stone quarrying, chaff mills, and butter factory. District, agricultural. Population, about 150.

TARPEENA (37° 50′ S. lat., 144° 40′ E. long.) (county Grey. electorate of Victoria) a post town halfway between Mount Gambier and Penola, on dismal swamp, 294¼ miles postal SE. of Adelaide, reached by conveyance to Kalangadoo. There is some agricultural land in the district, but it is mainly taken up for grazing purposes. No hotels, schools or churches. Population about 60.

TATIARA. *See* Wolseley.

TEATREE GULLY, or Steventon (34° 48′ S. lat., 138° 44′ E. long.), a postal, and telegraph station, with branch of Government savings bank and money-order office, on the creek of the same name in the county of Adelaide, and electoral district of Gumeracha, 12 miles NE. of Adelaide, to and from which coaches ply morning and evening, fare, 2s. Hotel: Tea Tree Gully. There are here Wesleyan and Baptist chapels, and a Church of England with Sunday schools, one State school, an institute, two general stores, and about half-a-dozen tradesmen's shops, a M.U. Oddfellows' lodge, and also a Foresters' Court. The vicinity abounds in pipe-clay for bricks or earthenware, and freestone for building purposes. The other products of the locality are iron ore, wines, dried fruits, honey, wax, bark, jam, and gums. Generally the country is pleasing, and may be considered as of a horticultural, floricultural, and grazing character; the formation being ironstone, freestone, and slate. Teatree Gully is under the control of a District Council, who hold their meetings in a chamber built for the purpose, in which also a monthly court is held. Grand view of Gulf St. Vincent from adjacent hills. Water from

wells, each home having meter and tap. The district embraces an area of 34 square miles. Population, about 300.

TEETULPA (32° 12′ S. lat., 140° 7′ E. long.), a gold-fields township, situated in the Lytton district, about 234¼ postal miles N. of Adelaide. Gold was accidentally discovered here by Messrs. T. Brady and T. Smith, in October, 1886, who camped in the neighbourhood, and, after a shower of rain, found several nuggets in what is now known as Brady's Gully. The finders were awarded the Government grant of £1,000. There were good evidences of a payable field, but the township is now nearly deserted. Has post-office and tradesmen's premises. There is daily communication by rail and coach *viâ* Petersburg and Mannahill; also *viâ* Waukaringa to Yanta.

TELOWIE, a post station, 240¾ postal miles N. of Adelaide, in the county and electorate of Frome. Adelaide reached by coach to Port Pirie, thence rail. Coach to Port Pirie *viâ* Point Germein. Has two public schools, Rechabite tent, and Baptist church. Primitive Methodists hold services in Broad Creek schoolroom. Pursuits agricultural. Back's Creek Gorge through Flinders Range in vicinity. Communication with Adelaide daily. Water from wells. Population, about 250.

TEMPLERS (34° 28′ S. lat., 138° 47′ E. long.), electoral district Light, county Gawler, Hundred Yatala, a postal village 34¼ miles N. of Adelaide, situated in the centre of a wheat-growing district. It consists of a few cottages and one store, with a post-office, a public-house (the North Star), Wesleyan church, Rechabite lodge, institute, and one school. The nearest township of any size is Gawler; the Roseworthy Railway Station is 4½ miles distant. Water supply from wells, district is agricultural. Population, 60.

TEROWIE (33° 7′ S. at., 138° 48′ E. long.), county Kimberley, electorate of Burra, a post town, with money-order, telegraph, and savings bank office, and railway station on the North line, 140 miles N. of Adelaide; fares, 23s. 2d. and 14s. 6d. The railway line from here alters from the broad to the narrow gauge. Hotels: Terowie, Royal, and Imperial, also Temperance. A public school, Episcopal (St. John's), Roman Catholic (St. Michael and St. John), Wesleyan, and Baptist places of worship, a branch of the E. S. and A. Bank (once weekly), mechanics' institute with large library, Freemasons, Druids', Foresters', Oddfellows', and Rechabite lodges, large barracks for railway men; and four stores are here. Water from wells and tanks. It lies 1,632 feet above sea-level, and is 87¾ miles E. of Port Pirie. Agricultural and pastoral district. Population of town and district, about 200.

THEBARTON (43° 56′ S. lat., 138° 38′ E. long.), a corporate town, with post, telegraph, savings bank, and money-order offices, in the co. and Hundred of Adelaide and electorate of West Torrens, suburban to the city, 1½ mile W.; fare, by carettes or tramway, 2d. Hotels: Wheatsheaf, Royal, West Thebarton, Mile End, and Squatter's Arms. It has churches belonging to the Anglicans, Bible Christians (2), Baptist, Wesleyans (2), and Salvation Army, one State and three private schools, chemical works, police station, tanneries, wine cellars, tweed, blanket, boot and candle factories, brickyards, ice works, vinegar works, soapworks, brewery, distillery, fellmongeries, &c. Gas and water supply. Has Foresters', Oddfellows' and Druids' lodges, literary societies, &c. Population, with New Thebarton, about 7,000.

TORRENS VALE (35° 28′ S. lat., 138° 25′ E. long.), or DAIRY FLAT, otherwise PARKFIELD, is situated on Salt Creek, about 4 miles from Yankalilla, in the county of Hindmarsh, electorate of Encounter Bay, and police district of Yankalilla, 59 postal miles S. of Adelaide, *via* Yankalillo. Coaches run to Adelaide *viâ* Yankalilla; fare, 8s. 8d. There are Wesleyan, and Bible Christian chapels close to the post-office, and Government school. The bulk of the residents are farmers, a large proportion giving their attention to sheep, dairy farming, and cattle breeding. Close to the vale there is a picturesque waterfall, but the ascent thereto is very difficult. Formation: clay.

TOWITTA, 74 postal miles NE. of Adelaide. Post-office, Wesleyan chapel, and school. It is in the county of Eyre, electorate of Barossa. Exports: wheat, wool, sheep, cattle, and firewood. Communication with Adelaide by rail to Freeling, thence by coach to Keyneton.

TRURO (34° 27′ S. lat., 139° 11′ E. long.), county Eyre, Hundred of North Rhine, electorate of Barossa, is situated on the Truro creek, 5 miles N. of Stockwell, and 57¼ miles NE. of Adelaide. It has a post, telegraph, savings bank and money-order office. There is a daily coach service to Freeling, where the railway is met, and bi-weekly to Blanchetown. Hotels: Truro and Crown. It has an institute, police-station, council chamber, a Congregational chapel, and an agency of the Bank of Adelaide, State school, M.U.Oddfellows, and I.O.R. The Wheal Barton Copper Mine is in the vicinity of the town. Sheep stations prevail in the district; there is also a good breadth of land taken up for wheat and the grape vine. Water from wells and tanks. Area of district council 196 square miles. Population about 300.

TUMBY BAY (34° 23′ S. lat., 136° 8′ E. long.) is a small agricultural postal township on the shores of the bay of the same name, an inlet of Spencer's Gulf, in the hundred of Hutchison, county and electorate of Flinders, 288½ postal miles west of Adelaide, containing several farms, varying in size from 100 to 700 acres. Reached by weekly steamer from Port Adelaide to Port Lincoln, thence coach. There is a small jetty in the bay, which is well sheltered from N., W., and S., exposed only from E., SE. and NE.; there are no Government buildings, but there is a small Wesleyan chapel, in which a State school is held. The main road from Port Lincoln to Franklin Harbour and Port Augusta runs nearly through the centre of the place. The post-office is situated about the centre, and about 150 yards from the main road. Distance from Port Lincoln, northward, 30 miles; from Adelaide 238 miles NW. Copper mining, agriculture, wattle-barking, and dairying. Population of district, about 250.

TUNGKILLO. *See* SOUTH PETHERTON.

TWO WELLS (34° 37′ S. lat., 138° 32′ E. long.) is a township, having post, telegraph, savings bank, and money-order office, 24 miles N. of Adelaide, and 8 miles distant from Port Gawler, in which District Council it is situated. At Port Gawler is kept the powder hulk, with supplies of dynamite, &c. The Waterloo coursing matches are held here. It is in the county of Gawler and electorate of Yatala. Direct coach communication twice daily to Adelaide (fare, 4s., return 6s. 6d.). Hotels: Two Wells and Commercial. It has Anglican and Primitive Methodist churches, a handsome institute (1,000 vols.), a public school (70 scholars), police barracks, three general stores, Foresters', Oddfellows', and Rechabite lodges, and several shops. It is an agricultural and pastoral district, and is very flat. Dairying industry. Formation: limestone. Population, 188; district of Port Gawler, 942.

UNDERDALE (NEW THEBARTON), (34° 57′ S. lat., 138° 36′ E. long.) post town with telephone station, county of Adelaide, and the West Torrens electoral district, hundred of Hindmarsh, on the Torrens river, 2½ miles due W. from Adelaide. Has hotel, school, Wesleyan church, mechanics' institute, chemical factory and bone mills. Several extensive vineyards are in the neighbourhood. It is on the main route to Henley Beach. Cars run throughout the day. Population, 200.

UNIVERSITY BLOCK. *See* CUSTON.

UNLEY (34° 59′ S. lat., 138° 38′ E. long.), a municipality, suburban to Adelaide, two miles distant S., county of Adelaide, electorate of Sturt. It covers an area of 5½ square miles, and comprises Parkside, Malvern, New Parkside, Parkside South, Unley, Goodwood Park, Wayville, North Goodwood, Hyde Park, Unley Park, Fullarton, Goodwood, Clarence Park, Millswood, Fullarton Estate. The principal streets are lighted with gas, and the water supply is from the Adelaide waterworks district. It is divided into 4 wards—Parkside, Fullarton, Unley and Goodwood. Tramcar (four lines) communication with Adelaide. Has seven hotels, two Episcopal Churches, Baptist, Bible Christian, Wesleyan, Primitive Methodist, Catholic, and Salvation Army. Town hall and two Institutes (Unley and Goodwood), Way College. It is a favourite place of residence. Has post office, a branch of the savings bank, money-order office, and telegraph station, and two police-stations. Population, about 14,300.

UPPER STURT, a post town, 10 miles SE. (18¼ by rail) of Adelaide, in co. Adelaide and electorate of Sturt. It has Wesleyan church and State school. The National Park (vested in Commissioners appointed by the Government) has an area of 2,000 acres, and is a popular resort. Gardens are numerous, and fruit plentiful. Communication with Adelaide by rail. Fares, 2s. 2d. and 1s. 5d. Population about 200.

URAIDLA (34° 50′ S. lat., 138° 30′ E. long), a post town, with telephone, 11 miles E. of Adelaide, in the electoral district of Onkaparinga. It has one hotel, Bible Christian and Anglican churches, Church hall, blacksmith's shop, three stores, large institute, and State school, with 200 scholars. Products—fruit, vegetables, and firewood. Alluvial gold. Good scenery. Communication with Adelaide by coach daily. Water from well and springs. Formation: sandstone, ironstone, and quartz. Population of district, 700.

VICTOR HARBOUR. *See* PORT VICTOR.

VIRGINIA (34° 41′ S. lat., 138° 35′ E. long.), county Adelaide, electorate of Yatala, district council of Munno Para West, is a post town with money-order office, and telegraph station, situated on the river Gawler, and is on the main road from Adelaide to Gawler, about 18 miles N. of Adelaide. The communication is by coach twice daily, or conveyance to the Salisbury Railway Station. Coach also runs to Mallala and Wild Horse Plains. Hotel: Wheatsheaf. Places of worship: Episcopal (St. Augustine), Roman Catholic (Our Lady of the Assumption), Particular Baptists, and Bible Christian. Has State school, literary society, and a number of business places. Buckland Park sheep station is a few miles distant. Much land in the vicinity is taken up for agricultural purposes. Formation: limestone on a clay bottom. Population, about 150.

WALKERVILLE (34° 35′ S. lat., 138° 38′ E. long.), a north-eastern postal suburb of Adelaide, distant about 2½ miles, with tramway communication, county Adelaide, electorate North Adelaide, shire Yatala. Horse tram to city. Hotels: Buckingham Arms, Sussex, and Walker's Arms. Episcopal (St. Andrew's, said to have the only peal of church bells in the colony), and Wesleyan church, Druids' and Foresters' lodges, and three schools. Lighted with gas. Water from Hope Valley reservoir. Has boiling-down works Many of the Adelaide merchants reside here. Population about 2,200.

WALLAROO (33° 58′ S. lat., 137° 36′ E. long.), county Daly, electorate of Wallaroo, the seaport town of the copper-mining district of that name, near the shores of Spencer's Gulf, about 91½ miles (123¾ by rail) NW. by N. of Adelaide. The communication with Adelaide is by steamer weekly, or by rail twice daily; fares, 20s. 6d. and 12s. 10d A jetty, 1,605ft. in length, has been erected in Wallaroo Bay; it has a depth at its outer end of 23 feet at low water. Hotels: Commercial, Globe, Prince of Wales, Ship Inn, Cornucopia, and Wallaroo Inn. The famous Wallaroo mines were discovered in 1860, and are situated near the township of Kadina, at a distance of 6 miles from Port Wallaroo. At the end of August, 1878, operations were altogether

stopped, but resumed in April, 1880. The Kurilla mine adjoining the Wallaroo was incorporated with the latter in 1886. Smelting is carried on on a very extensive scale at Wallaroo Bay; the works are the largest in the colony, and rank among the largest in the world, and include 30 furnaces and 21 calcining kilns, at which nearly 300 men are employed. Extensive gold and silver works have also been erected, together with an electrolytic refinery. Gold and silver ores and concentrated ore are received for smelting from Tasmania, New South Wales, Victoria, and Western Australia; an extension has been erected to manufacture superphosphates, and the smelting plant has been increased. A railway connects the mines with the port; this gives ample facilities for shipment. The leases under which these mines are held expired, but were renewed by the Government on payment of a premium of £18,000, and are now held on a 99 years' lease. Town has telegraph, savings bank and money-order office, local court, State school (to hold 400 children), Roman Catholic school, a branch of the National Bank, Oddfellows', Masonic, and Rechabite Halls, a large hospital (with separate fever wards), an Institute, an Episcopal church (St. Mary), a Welsh Independent chapel, and other chapels in connection with the Wesleyan and Presbyterian communities. Roman Catholic Church, St. Mary Star of the Sea. The municipal area is 2¾ square miles, having property of the annual value of £12,000. Much wheat is shipped from here. Water from Beetaloo Reservoir, having a capacity of 800,000,000 gallons and costing £1,000,000. Population about 2,500. The *Kadina and Wallaroo Times* is the local paper.

WALLOWAY (32° 35′ S. lat., 138° 40′ E. long.), co. Dalhousie, on creek of that name, is a post town (issuing postal notes), with railway station, 183 miles N. of Adelaide. Has hotel, school, and Bible Christian church. The Black Jack Hills in the vicinity. Industries: brick works and dairy farming. District mining, agricultural, and pastoral. Population of township and district, about 1,600.

WANDEARAH, an agricultural district (East and West), 153 miles (229½ postal) N. of Adelaide, co. Victoria, electorate of Gladstone, 15 miles S. of Port Pirie and 17 miles W. of Crystal Brook. Post-office, institute (seating 200), Rechabite tent, two Wesleyan churches, and four State schools. The river Broughton passes through NE. corner of the hundred, and flows into the sea at the western extremity of the hundred. Communication by rail *viâ* Crystal Brook or Port Pirie. Agricultural and pastoral. Dairying industry with creamery. Area about 100 square miles, good roads. Has good turkey and duck shooting. Water from Beetaloo water-main. Main road from Port Pirie to Wallaroo runs through them. Population, about 400.

WARNERTOWN (33° 16′ S. lat., 138° 10′ E. long.), electorate of Gladstone, a post town, telegraph, and railway station on the Port Pirie line, 8 miles from Port Pirie, and 161 miles from Adelaide. Fares, 26s. 10d. and 16s. 9d. Hotel: The Warnertown. School and Wesleyan and Roman Catholic churches. Flinders Range not far distant. Population, 150.

WAROOKA (33° 0′ S. lat., 137° 25′ E. long.), a post town, with telegraph telephone, and money-order office, 79½ miles W. of Adelaide, *via* Edithburgh, county Fergusson, electorate of Yorke's Peninsula. Contains Wesleyan and Roman Catholic churches, Oddfellows' lodge, institute, State school, and one hotel. Communication by coach to Edithburgh, and steamer thence twice a week. Has fine view of Point Turton, and good bicycle road to Corney Point. Agricultural and pastoral district. Salt and fresh water swamps, gypsum and whiting deposits (works at Marion Bay). Large quantities of flux exported. Salt lakes in eastern vicinity of town. Population, 60; district, 300.

WASLEY'S (34° 29′ S. lat., 138° 42′ E. long.), a postal and telegraph village in the county of Gawler, Yatala electoral district, and Gawler police district, situated on the Templer Creek, 36½ miles N. of Adelaide. It is a station on the North Line of railway. There are two trains daily; fares, 6s. and 3s. 9d. Hotel: Ridley Arms. Local institutions are—State school, a Wesleyan chapel, Institute and library, and one store. It is a flourishing agricultural district, producing good crops of the cereals, the soil being of a rich deep loamy character. Much firewood is sent from here. Population of district about 800.

WATERLOO (33° 59′ S. lat., 138° 53′ E. long.), a postal township and hundred, at the head of the river Light, 79¾ miles N. of Adelaide, *via* Saddleworth. It is in the county of Light, and electoral district of Burra. It is about 4 miles to the eastward of the Manoora station of the North Line, and is the centre of an agricultural district. Communication with the metropolis is by coach to Saddleworth, or Manoora, thence train. Hotel: Wellington, with excellent accommodation. Has Government and private school, also places of worship belonging to the Primitive Methodists and Lutherans. Area covered by district council, 85 square miles. Population, 124.

WATERVALE (33° 57′ S. lat., 138° 41′ E. long.), county of Stanley, electorate of Wooroora, district council of Upper Wakefield, postal township, with money-order, savings bank, and telegraph station, on the Watervale creek, 80¼ postal miles N. of Adelaide, with which the communication is by coach twice daily to the Saddleworth Railway Station. There is a State and a private school, a Foresters' lodge and hall, institute, and a circulating library. Hotels: Watervale and Prince of Wales. Several wine cellars. Place of worship: United Methodist and Anglican services in local hall. Wine and fruit drying industries. Gold and copper have been found. Water from wells and underground tanks. Formation: slate, schistose, quartz, and volcanic hills. Population, 200.

WAUKARINGA, county Lytton, electorate of Newcastle, a post town, telegraph, savings bank and money-order station, 234½ postal miles N. of Adelaide. Reached by coach to Yunta (25 miles), thence train; coach also runs to Nillinghoo, Barratta, Teetulpa and Koonamore. Hotel, police station, State school, and two stores. Surrounding country reported to be auriferous. Population, 63.

WAURALTEE, a post town, 88½ postal miles NW. of Adelaide, *via* Stansbury. Situated at foot of Mount Rat, county of Fergusson, electorate of Yorke's Peninsula. Contains Wesleyan church, an institute, and State school. Port Victoria, 7 miles distant, is the shipping port for produce, chiefly wheat, from this district. Communication by steamer weekly. Population, about 80.

WELLINGTON (WEST) (35° 20′ S. lat., 139° 24′ E. long.), post town, with telephone, in the county of Sturt, and district council Brinkley, situated on the river Murray, near its debouchure into Lake Alexandrina, 65 miles (80 postal) SE. of Adelaide. There is daily communication with Adelaide, coach *viâ* Strathalbyn, rail from Tailem Bend. Hotel: the Wellington. It is in the hundred of Brinkley, which is 156½ square miles in area, and has over 600 acres under cultivation. Pastoral and agricultural. Population, 160. WELLINGTON EAST, county Russell, is separated from Wellington West by the River Murray, and has post-office, money-order office, telegraph office, and Anglican church.

WEST MILANG. *See* MILANG.

WILLASTON (34° 36′ S. lat., 138° 45′ E long.), a postal township in the county of Gawler, electorate of Barossa, and district council of Mudla Wirra South, 27 miles N. of Adelaide, and suburban to Gawler, to which omnibus; with two hotels, Victoria and Willaston, two or three stores, school, Oddfellows' lodge, and a Wesleyan place of worship. Brick-making, lime-burning, and farming are carried on in the district, which is generally of limestone formation. Water from Gawler. Population, about 450.

WILLIAMSTOWN (34° 40′ S. lat, 138° 56′ E. long.), county of Adelaide, electorate of Barossa, and district council of Mount Crawford, is situated on the Victoria Creek, 35¾ postal miles NE. of Adelaide, and 11½ miles from the nearest railway station, Gawler, to which a coach runs. Fare, 3s. Hotel: Williamstown. It has a post and money-order office and telegraph station, an Institute with large library, and two State schools; Anglican, Wesleyan, and Baptist churches, Foresters' Court, and several stores. There are several large sheep stations and stud farms in the district; wheat also is extensively grown, and much timber is sent away, chiefly for railway sleepers. Water from creek and wells. Copper is found in many parts. Extensive apiaries are established in the district. The Barossa and Humbug Scrub gold diggings are within 3 miles. Formation: sandstone ranges, with drifts at the foot and in the gullies, where gold has been found; granite, slate flags, mica schist in which opals, rubies, and emeralds have been found—scarce, but of high value. Population, town and district, 550.

WILLOCHRA (32° 15′ S. lat., 138° 11′ E. long., county and electorate of Newcastle), a post town and railway station, 245¼ miles N. of Adelaide, on the Willochra Creek, and the main north road from Adelaide. Port Augusta is the nearest port (35¼ miles). Fares, 6s. and 3s. 9d. Has hotel, school, and Wesleyan church, Band of Hope. Water from wells. Agricultural and pastoral. Population, village 60, district 1,200.

WILLUNGA (35° 16½′ S. lat., 138° 27′ E. long.), county Adelaide, electorate of Noarlunga, a postal, telegraph, savings bank, and money-order township. 30 miles S. from Adelaide, reached by mail coach twice daily. Hotels: Bush Inn, Willunga, and the Alma. Has branch Bank of Adelaide, a neat Oddfellows' hall, an agricultural hall, one Government school, with an attendance of 110, and places of worship belonging to the Episcopalians (St. Stephen's), Roman Catholics (St. Joseph's), Wesleyans, Bible Christians, Salvation Army, and Disciples of Christ, a police station, a court-house, an institute, with library, and M.U.I.O.O.F. and Rechabite lodges. The district is chiefly of a farming character, and there are slate quarries. The township itself is prettily situated on a gentle rise, embowered in trees, commanding a fine gulf view on the high road to the lakes. On the top of the hills are large iron-stone reefs supplying flux for smelters. Some of the iron is said to be of the finest quality. There is a good cycling road between Willunga and Clarendon. Area of district council 50 miles square. Population about 410, with district 1,094 (census 1891). Port Willunga is 5 miles distant.

WILMINGTON. *See* BEAUTIFUL VALLEY.

WILSON (co. Newcastle), a post town, with money-order and telegraph office, 265½ rail miles N. of Adelaide and 55½ miles N. of Port Augusta. It is a railway station on the Great Northern line, fare to Port Augusta, 9s. 4d. and 5s. 10d. Hotel: Gillick Arms. It is in the co. and electorate of Newcastle, and has three stores, public school and Wesleyan church. Government well for watering stock. Agricultural district. Population, town and district, about 200.

WIRRABARA, a post town, with telegraph, money-order office, and savings bank, in county and electorate of Frome, hundred of Appila, 155 postal miles N. of Adelaide, situated on the Rocky River. A coach runs daily to and from Laura Railway Station, from which place it is 12 miles distant. Hotel: the Wirrabara. English, Scottish and Australian Bank. It has a public school; Wesleyan and Bible Christian churches, an institute. G.U.O.O.F., and several stores and tradesmen's premises. Tannery. Agricultural and pastoral district, densely timbered (Government nursery being here), supplying large

quantities of railway sleepers. Large fruit and vegetable gardens. Wirrabarra sheep station is noted for its Murray breed of sheep. Splendid scenic drive through Wirrabara station, the Whyte Park plantation of *Pinus Insignus* trees, and the Wirrabara Forest to the gorge in Flinders Range. Copper has been obtained. Population, about 350.

WISTOW (35° 8′ S. lat., 138° 54° E. long.), a postal village, 25 miles (38½ postal) E. of Adelaide, in the county of Hindmarsh, and electoral district of Mount Barker, near Hall's creek. Communication is *viâ* Mount Barker. Hotel: the Morning Star. There is a school, and a Primitive Methodist chapel. The district is an agricultural and pastoral one. Water from springs. Wistow is adjacent to one of the main roads (which is known as Chauncey's line) from Adelaide to the river Murray, and, standing on high ground, commands extensive and delightful scenery, including a view of Lake Alexandrina. Formation, limestone. Population about 300.

WOLSELEY (electoral district of Albert), a post town, with telegraph, money-order and savings bank office, and railway station, on the Adelaide-Melbourne line, 191½ miles from Adelaide and 8½ miles from Border Town, lying 352 feet above sea-level. Hotel: the Wolseley. In the Tatiara district, and on the opposite side of the railway, is the Government township of Tatiara, where Episcopal and Wesleyan churches have been built. Wolseley was first laid out and allotments sold in November, 1883. It is in railway communication with Adelaide, Melbourne, Kingston, and Mount Gambier. It has a public school, institute, railway station, coffee palace, police station, flour mill, two stores, and creamery. There is an Oddfellows' Lodge, a Cricket and a Tennis Club, Horticultural and Industrial Society. Agricultural and pastoral district. Annual show. Population, about 300.

WOODCHESTER (35° 12′ S. lat., 139° 2′ E. long.), a post town, with money-order office, in the county of Hindmarsh, electorate of Mount Barker, and police district of Strathalbyn, about 43 miles (59 postal) SE. of Adelaide, with which there is communication either *viâ* Mount Barker or Strathalbyn. The principal places are comprised in a Primitive Methodist chapel, a Government school, and one store. Lighted with kerosene. The district is of a farming character. Population, 440.

WOODSIDE (34° 59′ S. lat., 138° 52′ E. long.), a postal township, savings bank, telegraph, and money-order station, in the county of Adelaide, and electoral district and District Council of Onkaparinga, 33¾ postal miles E. of Adelaide, by road 24½ miles. There is communication twice daily, by mail conveyance to Balhannah, thence rail to Adelaide; fare, 2s. 6d. Hotels: Bedford Arms and Woodside Inn. Social and public institutions: churches—Episcopal (St. Mark's), Presbyterian (St. John's), and Methodist—a Government school, a police station, a court-house, an institute, a branch of the Bank of Adelaide, butter and cheese factory, Oddfellows' and Rechabite lodges, branch of Agricultural Bureau, and about half-a-dozen tradesmen's premises. The district is principally an agricultural one. Good cycling roads. Gold has been found in the neighbouring ranges, and several of the mines are of a very promising character. Several crushings have yielded good results. Population about 200; district, 3,000.

WOODVILLE (34° 54′ S. lat., 138° 34′ E. long.), county Adelaide, hundred of Yatala and Port Adelaide, has five post-offices, money-order, and telegraph offices and five stations on the Port line 4½ miles W. of Adelaide; fares, 6d. and 4d. Principal hotels: Woodville and Halfway House. Episcopal church (St. Margaret's), and Wesleyan, Methodist, Baptist, and Bible Christian churches. Three State schools, and institute and library. Not lighted. Water from Torrens reservoir. Rechabite, Oddfellows', and Foresters' lodges. The District Council covers 18 square miles. Agricultural district; limestone formation. There are three iron foundries, a tannery and several blacksmiths' and wheelwrights' shops. Annual assessment, £33,000. Population of town, 500, district, 5,310.

YACKA (33° 36′ S. lat., 138° 27′ E. long.), a post town, with money-order and telephone office, 113 rail miles N. of Adelaide, county and electorate of Stanley, on river Broughton. Communication by rail (113 miles). Fares, 18s. 10d. and 11s. 9d. Hotel: Broughton. It is situated on the river Broughton, and contains Wesleyan church, school, creamery, chaff and saw mills, and institute. Exports a large quantity of wheat, flux, bark, and wool. Population, 200.

YAHL (37° 52′ S. lat., 140° 46′ E. long.), a post town (weekly mail), 210¼ postal miles SE. of Adelaide, 6 miles ESE. of Mount Gambier, county Grey, electorate of Victoria. Reached by rail to Mount Gambier, thence conveyance. It contains a Wesleyan church, Mutual Improvement society, public school, and butter and cheese factories. The land is very fertile, and produces splendid crops of barley, potatoes and hops; caves in the district. Formation: limestone; top soil, volcanic detritus. Population, 200.

YANKALILLA (35° 27½′ S. lat., 138° 18′ E. long.) (county Hindmarsh), electorate of Encounter Bay, is a postal township, savings bank, telegraph and money-order station, situated on the Bungala river, two miles from the sea, and 47½ miles S. of Adelaide, with which the communication is by mail conveyance three times per week, fare each way, 8s. Hotel: Yankalilla. Bank: Bank of Adelaide. A rocket apparatus is provided at the Port. The places of worship comprise Church of England (Christchurch), Wesleyan, Presbyterian and Bible Christian churches, and St. Peter's Roman Catholic church. Agricultural hall and mechanics' institute. Oddfellows', Foresters', and Rechabite lodges. The district is chiefly a grazing one, and large quantities of wool, dairy produce, and wattle bark are produced. Area of district council, 90 square miles. Population of the town about 700: with the District Council, 1,400.

YANYARRIE (32° 28′ S. lat., 138° 26′ E. long.) (co. Granville), postal centre (207 postal miles N.), on creek of name. Eight miles by coach to Carrieton, thence rail to Adelaide. Has state school, Anglican and Bible Christian churches. Agricultural and pastoral district. Water from creek and wells. Formation: slate and granite. Population of district, 120.

YARCOWIE (39° 14′ S. lat., 138° 49′ E. long.) (county of Victoria, electorate of Burra, hundred of Whyte), a telegraph and railway station on the North Line, 133¾ miles N. of Adelaide; fares, 22s. 2d. and 13s. 10d., twice daily. Has one hotel. Episcopal, Wesleyan, and Catholic (St. Simon and St. Jude) places of worship. State school. Agricultural and pastoral district. It lies 1,712 feet above sea level. Population, 100.

YATINA (32° 45′ S. lat., 138° 38′ E. long.), a post town, 162 170½ postal) miles N. of Adelaide, county Dalhousie (electoral district of Frome), on Beniah Creek. It contains Roman Catholic and Primitive Methodist churches, public school, Yatina hotel, farm implement works. Wheat is the principal product. Communication by rail and coach *viâ* Yongala. Water chiefly from wells and dams. Formation: loose upper soil, clay subsoil, volcanic in hills. Population, township 70, district about 220.

YONGALA (33° 2′ S. lat., 138° 38′ E. long.) (county Dalhousie, electorate of Frome), a post town, money-order, savings bank, and telegraph station, in the hundred of Yongala, 160¼ rail miles N. of Adelaide, lying 1,691 feet above sea-level. It is 67 miles from Port Pirie and 6½ miles from Petersburg. Fares from Port Pirie, 11s. 4d. and 7s. 1d.; through fares from Adelaide, 26s. 8d. and 16s. 8d. Coaches run to Falcowie and to Yatina. Hotels: Yongala and Globe. It contains public school, Anglican and Primitive Methodist chapels, Oddfellows' and Rechabite lodges, several tradesmen's shops, an institute, branch of the National Bank, steam flour mills, and butter and cheese factory. Stone of good quality is found in the vicinity. Water from wells and tanks. Population of town and district, 300.

YORKE TOWN (35° 5′ S. lat., 137° 55′ E. long.) (county Fergusson, electorate of Yorke Peninsula), is a corporate town governed by mayor and councillors, has post, telegraph, savings bank, parcels post, and money-order station, 67½ postal miles W. of Adelaide, which is reached by coach to Edithburgh, 10 miles, thence steamer twice a week; also coach to Stansbury, 16 miles, thence steamer twice a week. Hotels: Yorke and Melville. Has a Wesleyan, Roman Catholic (St. Colomba), Episcopal, Baptist, and Lutheran (2) churches, an institute, State school, Freemasons' (Melville, 36 S.A.C.), Oddfellows', Foresters', and Rechabite lodges, and branch Bank of Adelaide. The town is surrounded by large salt lakes, the largest of which is Lake Fowler, with an area of 2,400 acres, and in the summer time is one large expanse of beautiful white salt. Two large companies are working, the Castle Salt Co-operation and the Colonial Salt Refining. Gypsum deposits also abound, and large quantities are used for manufacturing artificial manure. Formation: later tertiary and limestone. Population, about 600. Newspaper: *The Pioneer*, weekly.

YUDANAMUTANA (30° 6′ S. lat., 139° 44′ E. long.) (electorate of Flinders), post town, 460 miles NW. of Adelaide, reached by private vehicle to Lyndhurst, thence coach to Farina, thence rail. A coach runs to Leigh Creek, also to Farina *viâ* Innamincka (40 miles). The scenery is mountainous, and there is abundance of game and geological curiosities. Copper mining district. Geological formation: greenstone, hornblende, and schistose slate in valleys, and ore-bearing portions; ranges felspathic, quartzite. Population, about 25.

THE NORTHERN TERRITORY.

THE NORTHERN TERRITORY of South Australia, formerly known as Alexandra Land, embraces an immense tract of country, and contains an area of about 523,620 square miles, or 335,116,800 acres. It is bounded on the North by the Indian Ocean—that portion of it known as the Arafura Sea; on the South by the 26th parallel of south latitude, which is the line of demarcation between it and South Australia proper; on the East by the 138th meridian of east longitude, which divides it from Queensland; and on the West by the 129th meridian of east longitude, which separates it from West Australia. It also comprises all the bays, gulfs, and adjacent islands on its Northern coasts. The east boundary line of this territory cuts the coast near the mouth of the Wentworth river, on the south-west coast of the Gulf of Carpentaria, and the western boundary near Cape Domett, in Cambridge Gulf. To the Dutch belongs the honour of first having explored the North coast of Australia. The first British settlements were formed in 1824, on Melville Island and Raffles Bay; subsequently, in 1831, a settlement was made at Port Essington, by Sir Gordon Bremer, for the purposes of a military post and harbour of refuge for distressed vessels. It was broken up in 1850.

It was in consequence of the favourable report given by Mr. John MacDouall Stuart (the explorer), of the character of the country on the northern coast that the South Australian Government petitioned the Home Government and obtained a grant, by which the whole of the land between the 138th and 129th meridians of longitude and the 26th parallel and the sea, together with the adjacent islands, was temporarily ceded to South Australia. Having obtained annexation of this territory the Government resolved to undertake the experiment of colonizing it, and, quoting Mr. Forster, this was how it was to be carried out:—A town was to be laid out in the most convenient situation in allotments of half an acre, and country sections were to be surveyed, of a minimum area of 160 acres. It was proposed that, first of all, land orders should be issued for a total of 250,000 acres of country land at 7s. 6d. per acre, half to be sold in Adelaide and half in London; a second survey of 250,000 acres was afterwards to be made, the price of the land being raised to 12s. per acre. The first land orders were offered simultaneously in England and the colony in March, 1864, and were all disposed of, a company having been formed in each place to buy up the residue after the applications of the general public had been satisfied.

The official staff, under the leadership of Mr. Boyle Travers Finniss, formerly Chief Secretary, left Port Adelaide on April 29th, 1864, in the *Henry Ellis*, the expedition comprising in all fourteen officers and sixty-seven surveyors' chainmen, and seven labourers. Mr. Finniss chose Escape Cliffs at Adam Bay as the site of the first town. A considerable difference of opinion arose between the Government Resident and his officers as to the wisdom of this selection, and upon other matters, ultimately leading to Mr. Finniss's recall, Mr. Manton succeeding to the command. In the condemnation of the site the representatives of the land agents sided with the officers, whose verdict was subsequently confirmed by Mr. McKinlay, the explorer. In 1869 a second expedition was sent to the North, under the command of the Surveyor General, Mr. G. W. Goyder, by whom the whole of the survey was made in the following year, and the settlement transferred to Port Darwin, which has been ever since the official centre.

Captain Douglas was the first Government Resident of the territory; he resigned in May, 1873, and was succeeded by Mr. G. B. Scott, who resigned in 1876, and was followed by Mr. E. W. Price. In 1884 Mr. Price was succeeded by Mr. J. L. Parsons, the late Minister for Education; he resigned in 1890, and was followed by the late Mr. J. G. Knight. The present occupant of the post is Mr. Charles J. Dashwood. During 1883 some correspondence took place between the Government of South Australia and the Secretary of State, with the object of securing the permanent annexation of the Northern Territory to South Australia, the present arrangement being only tentative. It was pointed out that £526,127 had already been spent by South Australia in excess of the revenue received from the Northern Territory, and as a considerable further expenditure on public works in the Territory was about being made, it was desirable that South Australia should secure permanent possession of the land. To this request Lord Derby replied that he could not alter the existing arrangement, nor did he think it likely that the Imperial Government would allow separation, unless the Northern Territory were made responsible for the liability that could be charged to it.

On January 15, 1895, a Royal Commission was appointed to enquire into and report upon all matters relating to the Northern Territory. After a very exhaustive inquiry it recommended:—1. That assistance be given to enable deep sinking to be prosecuted to thoroughly test the permanency of the lodes at lower levels of principal reefs. 2. That the mining laws be amended so as to prohibit the issue of mining licences and leases to Chinese and other Asiatics. 3. That in the pastoral interest subsidies to the extent of £1 for £1, to be repaid out of profits, be granted for the erection of meat-freezing and preserving works at approved centres. 4. That boring operations for water and well-sinking be continued with increased vigour. 5. That stock routes to probable profitable markets be opened as required. 6. An amendment of the pastoral laws regarding improvements and revaluation of rent. 7. Careful inquiry into the red water disease by a thoroughly qualified expert. 8. That grants of one or more blocks of land on a long term at a peppercorn rental be made for horse-breeding stations for the remount service. 9. That negociations with West Australia be opened to provide free entry for cattle from the Territory. 10. That a competent expert be appointed a commissioner to thoroughly examine the country within easy reach of the rivers and railway, and to report. 11. That an experimental farm be started by the Government for the growth and cultivation of sugar-cane and other tropical products. 12. That public attention be drawn to the fact that under the Territory Crown Lands Act blocks of 160 acres can be taken up for five years with residence conditions at 3d. per acre rental, and right of fee simple without further payment on cultivation of one-tenth of the area within the first two years and one-twentieth additional in each succeeding year, and the enclosure of the whole with a substantial fence. 13. That the Government erect central mills in localities where 1,000 acres of land are under cane cultivation, the terms and conditions approximating to those of Queensland. 14. That the laws relating to Asiatic and alien labour be amended. 15. That offers be invited for the construction of the transcontinental railway on the land grant system. Practically the whole of the recommendations, except No. 15, have been given effect to.

After considerable correspondence with representatives of various syndicates the Minister controlling the Northern Territory informed inquirers that the Government was not prepared to recommend Parliament to sanction the acceptance of any of the offers suggested for the construction of any transcontinental railway on the land grant or guarantee system.

Harbours.—The principal harbour is that of Port Darwin, which is one of the finest in Australia, and only second in magnitude and importance to Port Jackson, New South Wales. It was named after Dr. Darwin, who sailed with King in his survey of the North coast (1818 to 1822). It is situated in latitude 12° 27′ 45″ S., and long. 130° 50′ 45″ E. Vessels of any tonnage can enter and with safety beat out. The entrance is two miles wide, with a depth of water of about 15 fathoms. The harbour itself has a varying depth of from 4 to 15 fathoms. It is completely landlocked, the prevailing monsoons, which are NW. and SE. alternately, do not affect it, it is entirely free from obstructions, and has deep water very close in to the shore. It is high water at full and change 5 hours 25 minutes. Springs rise from 16 to 24 feet; neaps, 2 to 12 feet. The tides are irregular, the ebb stream making 40 minutes before high water. It has two long causeways and a substantial jetty to facilitate the landing of cargo. Passenger vessels in want of water, ballast, or ship's stores can always obtain a ready supply. The harbour until 1880 was a free port, all customs duties, harbour, light, tonnage, pilotage, and other dues being abolished. In 1880 duties on several articles were imposed, and at a later date a general tariff was inaugurated, which are still in force. There are also ports at the Victoria, McArthur, and Roper rivers.

Rivers.—There are several very fine rivers emptying themselves on the coast, and navigable for many miles. The River Roper, discharging its waters into the Gulf of Carpentaria at Limmen's Bight, is navigable for nearly 100 miles by vessels of large tonnage. Vessels drawing 12 feet or 14 feet, could, it is reported by Capt. Carrington, safely ascend for 80 miles. The land on both sides of this river for a long distance, during the wet season, is subject to inundation. There are two townships laid out on its banks. The Liverpool is a fine river, and navigable, with one or more of its tributaries, for a considerable distance. The South Alligator river falling into Van Diemen Gulf is navigable for 30 miles by vessels of 500 to 600 tons, and for some distance beyond that by vessels with a small draught of water. The East Alligator is navigable for 40 or 50 miles. The Adelaide is a large river, emptying itself into Adam Bay, navigable for 40 miles in a direct course from its mouth, and beyond that point by barges: Escape Cliffs settlement was formed at the mouth of this river, but subsequently abandoned for Palmerston, at Port Darwin. The Daly opens up in Anson Bay, and is a noble stream. It has been found to be identical with the Katherine river, which Mr. G. R. MacMinn, at one time Senior Surveyor of the Lands Department, traced down for 240 miles. Large boats have gone up about 100 miles. The depth of water has not been tested; it is subject to bores, which, at certain periods of the tides, rise 4 and 5 feet high. Near its mouth three considerable streams disembogue themselves, and are believed by many to be the outlets of the rivers Finniss, Reynolds, and some other considerable streams. The Victoria is navigable for vessels of large tonnage for 43 miles, and for craft drawing not more than 3 feet for 112 miles. A large river also empties itself on the SE. side of the mouth, called the Fitzmaurice. The Victoria river mouth (lat. 14° 14′ S., long. 129° 25′ E.) is upwards of 20 miles wide between Turtle Point and Swamp Point. The navigable channel, named the Queen's, is but of limited width. There are other inland rivers of considerable size; the country in general (for Australia) is exceptionally well watered.

Mountains.—For some distance from the coast no high ranges or elevated tableland beyond about 1,000 feet have as yet been discovered, except to the eastward of Blunder Bay, where some of the mountain tops are estimated to reach an altitude of 2,000 feet. These spring from exceedingly broken country, described as a "mass of ranges." The highest of the peaks have been named the Royal Peak, Sentinel Peak, Panorama Mountain, and Mount Remarkable.

Mineral Resources.—Numerous important discoveries of

gold, copper, tin, iron, lead, and other minerals have led many practical men to believe that a great mineral future lies before the territory. Gold was first discovered in September, 1869, by Mr. Litchfield; since then very many reefs have been discovered, the returns from which have been of an encouraging character, and considerable progress has been made in mining. The auriferous country is principally to the south of the Adelaide plains, which in the wet season become a sheet of water. From some of the crushings good yields have been obtained, averaging upwards of 1 oz. 12 dwts. to the ton, exceptional parcels being much higher. Alluvial digging has been tried in many places, and several nuggets of considerable size have been found. About the middle of 1881 several promising gold discoveries were made. An apparently rich field was found at Bridge Creek, 22 miles north of Yam Creek. Another field with fair quantity of water was discovered by Mr. Philip Saunder, about 45 miles east of Pine Creek. The lodes of tin in the Mount Wells district were looking well. In the neighbourhood of Yam Creek extensive silver lead lodes were found, assaying 100 ozs. of silver and a large percentage of lead to the ton. Lodes of silver-bearing ores have been found near the Mary River, about 30 miles from Pine Creek; these assayed 50 to 300 ounces of silver to the ton. In the early part of 1884 the discovery of rich seams of coal was reported, and the locality was examined during 1885, but the report was not of a satisfactory character. A gigantic copper lode has been found on the Daly, and the mine known as the Daly River Copper Mine has been worked, and a considerable quantity of ore raised.

In 1886 the Rev. J. E. Tenison Woods undertook to examine the geological features of the Northern Territory, and reported as follows:—

"Gold.—The gold of this country is found in exactly the same manner as in other parts of the world. The stone in those reefs which have been worked is rich, and would pay well to work in any country but this, where wages and cartage are so enormously high. The gold generally is of high standard. The total amount exported from August, 1880, to September, 1885, is 121,779 oz., of the value of £432,959. This, of course, is not by any means a full statement of the gold obtained in the Territory. The amount is large, but divided among the number of mines worked, and the number of miners employed, it is relatively very large, and shows the richness of the country.

Of two things I am convinced—first, that not one of the mines hitherto worked or abandoned has been exhausted of the gold; secondly, not 25 per cent. of the auriferous reefs of the country have been fairly tested. If a prospector does not get a good assay from a bagful of stone, which he digs from the top of the 'blow,' the whole is condemned. The test, of course, is utterly insufficient. The chances are much against the prospector striking on the shoot of gold at the first blow of his pick. Who does not know the thousands of instances where rich mines have lain idle for years from bad prospecting? A slight examination convinces one that many of the reefs in the Territory contain rich metal, even though the prospector has turned away from them. The gold in most of the reefs is remarkably clean and pure, with little sulphur or arsenic or other troublesome minerals.

Some mines are an exception, and the sulphurous tailings in them are considerable. It would be well if the miners would follow an important piece of advice, which has reference to tailings. They should be stacked like compost heaps, with equal quantities of leaves, branches, grass, or any decaying vegetable matter. In a couple of years the pyrites will be considerably or completely decomposed, and can be treated in the mill without any roasting. Pyrites heaps are often very rich in gold, and will soon pay for their keep.

It may certainly be said that the quartz reefs of the Northern Territory have never had justice done them by first-class machinery. Indeed, it is stated that the Union reefs have been brought to ruin by the battery employed, which let large quantities of amalgam go down the creek; but with small capital, enormously high wages, and equally high cartage, it could hardly be otherwise. When these shall have been adjusted to the rates of the value of the quartz, then the day of the mines of the Northern Territory will have come. Everything is hoped from the railway to bring this about; there is plenty of material to work upon. I regret to be unable to give the proportion of gold produced to the quartz crushed. I believe the average is high, generally over an ounce. Some of the crushings of the top stone have been enormously rich. Thus at the extended Union, in 1877, forty tons of quartz yielded 740 ounces of gold. This is exceptional, and belongs to the returns which miners always expect to obtain from the capping of reefs, where the gold lies, which has weathered out of the stone during countless ages.

In reference to this, I have been asked to give an opinion as to whether deep sinking will give increased returns. For increased returns, I should say there is nothing peculiar in the ground which would lead one to expect it. In those mines where the shoots of gold have a tendency to form pockets of metal, the ground may become richer at any moment, especially where the quartz lode is intersected by veins of diorite; here rich gold will nearly always be found, and often as much in the diorite as the quartz. All questions connected with deep sinking are best answered by the diamond drill, but seeing how few of the mines are able to pay for an efficient battery, it is hardly to be expected that they could pay for drill exploration. Besides, the question of deep sinking is not important. Just now there is plenty of payable stone within easy reach in most of the mines if labour and cartage were only obtainable at a price commensurate with the value of gold.

In the alluvial workings the conditions are precisely similar to alluvial gold in other parts of the world, the sinking is shallow, sometimes merely surfacing, and the gravel scarcely waterworn; this is the more extraordinary, as the rainfall is much greater here than in Victoria or New South Wales, where the drift gravel is so much rounded, but the elevation is much greater.

The alluvial diggings are generally in shallow valleys with low ridges on each side. Curious enough, rich gold has been found in valleys where on the ridges forming the valley not a trace of quartz reef could be found. Finely-divided gold, no doubt, exists to some extent in the slates, and this must be the explanation of fine gold in alluvial far from any reefs, just like stream tin. True stream tin is not derived from reefs or lodes, but from finely disseminated particles of tin in granite. Nuggets are not common, and never of very large size. The very fine gold would appear to be inexhaustible, as the Chinese always seem able to make a living, no matter how often they turn over the old headings.

It only remains to say that, as the reefs containing good gold are far from being all discovered in the Territory, so it is with the alluvial; there are gullies and flats innumerable which have never been even prospected; they are all connected with the auriferous slates, and even with quartz reefs. To name them would be endless, but I especially mention the country between Mount Wells and Mount Douglas, amid the ranges on the east side until the ranges fall away, a distance of between forty and fifty miles.

The fluviatile conglomerate is full of quartz boulders—in fact, it is a drift derived from quartz lodes. It may be worth while trying whether gold is to be found at the base. I do not expect it, however; these drifts have an ugly resemblance in character to what Mr. Selwyn named the barren miocene alluvial drifts of Victoria, in which gold is never found. It is at present inexplicable why this should be so, and it is very odd that the phenomenon should be repeated in North Australia, but it needs further investigation.

Silver.—All the silver lodes that I have seen in the Territory are silver-lead lodes. Silver is also associated with gold in one or two mines, and with copper. I have seen no horn silver, or any of those ores which make a speciality of the mines of the Silverton lodes. Some of the so-called pyrites from the gold reefs contain sufficient silver as to rank almost as a silver ore. All the lode silver in the Northern Territory comes from galena. This, as a rule, is very rich in silver. Very large assays are reported from some mines, but without paying too much attention to these rather uncertain kind of statements, it may be asserted that there are few ores from which a bead of silver cannot be obtained with an ordinary blowpipe. The silver-lead veins have been found generally on the edge of the slate, and near the junction with the granite. Comparatively few have been prospected as yet. There are also excellent shows of galena on the surface, especially at the Eveleen, Robinson's, Barrett's lode near Mount Shoobridge, south of Pine creek, and other places. The amount of silver must be very large to pay the expenses of smelting and carriage, as things are now; but eventually there can be no doubt large productions of silver may be looked for from the Northern Territory.

The Eveleen Silver Mine is situated on nearly the south-eastern extremity of the metalliferous ranges, about four miles west of the upper reaches of the River Mary, on a small patch of limestone exactly on the junction of the metalliferous slates with the blue granite of the valley of the Mary. The formation is probably palæozoic in alternate strata of chert and limestone. There are many small outcrops of the usual character of limestone, but the outcrop, called here Pinnacle Hill, is a pile of boulders rising abruptly from the plain and covering several acres of ground. There are many lodes visible in this hill, the main one of many feet in width with wide brilliant shoots of galena. There is also much copper in the stone giving rise to veins and crystals of blue and green of the most lively colours. There are an immense number and variety of minerals in the veins and pockets, forming a sight of rare beauty. Some very uncommon minerals are found amongst the stone, which can be easily imagined from the combination of silver, lead, copper, iron, and probably nickel. It is said that the percentage of silver in the lead is very high. It looks well, and it is easy to extract silver even with a blow-pipe. The copper ores are poor and light.

Lead.—From what has been already said it will be seen that lead lodes are numerous in the Territory. They are always associated with silver; the ores are sulphides and carbonates, and, like the lead ores of Britain, vary very much in the quantity of silver. In England, the lead ores of Devonshire and Cornwall are the richest, Derbyshire very poor, and Shropshire ores are entirely free from silver. In most cases cavities of carbonate of lead (cerusite), besides mimetessite (arseniate of lead) are common, with peculiar crystals of cupro-plumbite, or a mineral compound of oxides of lead and copper.

Tin.—This metal will eventually be one of the great sources of mineral riches in the Territory, especially as it occurs in the form of reef tin, which is so comparatively rare. It may be well to explain that most of the tin discoveries in Australia have been made in stream tin, which is never of a permanent character. The exceptions are the rich tin vein district in Herberton, Queensland, and probably some places in Tasmania.

Stream Tin is quite a different formation. It is derived, as far as my experience goes, from the weathering of granite rocks at their junction with newer and stratified rocks. It has not been in veins but diffused through the substance of the rock generally in grains and crystals of small size. It is entirely an alluvial formation, and where it exists no lode tin is found. This was the character of the stream-tin mines at Stanthorpe and other places in Queensland, New South Wales, and Victoria.

This is universally the character of the tin mines in the Indian Archipelago, many of which I have visited. On the other hand, I know of no case in Australia or the East where stream tin occurs in connection with tin veins. There is always in the watercourses near the lodes a certain amount of rubble tin ore derived from the lodes, but it is of large size and small in quantity. Thus it is in the rich tin-vein district in Queensland, and thus it is in the Northern Territory. I have seen no stream tin, properly speaking, except a little from Maude creek on the south of the Katherine. The rubble tin from Mount Wells, and the splendid specimens of wood tin from Snadden's creek, are derived from the lodes. There is no wash, so to speak, and the supply was very soon exhausted. But the vein tin of the Northern Territory is abundant and rich. It is spread over a wider area than the Herberton mines, and the lodes are more numerous. I am convinced, from what I have seen, that no part of Australia can show tin lodes to the same number and extent, though in particular instances, such as Mount Bischoff in Tasmania, they may be richer.

So far the lodes have been found confined to the north and western and southern edges of the metalliferous country. At Mount Wells and the McKinlay mines they are more central. These mines are distinguished by the number of veins, and their being crossed with copper lodes, as in Cornwall. In fact, there is much resemblance between this country (using the word 'country' in the miners' sense) and Cornwall. In the direction of Mount Shoobridge there is a great development of mica (Muscovite), which is always regarded as a favourable sign. At Mount Shoobridge (Cruikshanks' claim) crystals of mica are of very large size, and abundant also at Nash's claim, Solomon's, &c. It would be invidious to single out any mine for special notice, but I may say that all of those I have examined promise well, and some give indications of extreme richness. It may be added that many more lodes will yet be discovered on the edge of the granite country. At Talc Head, Port Darwin, I counted five mineral lodes of some width, probably poor in tin, and at the sea-level; but a careful search will develop many more. The Northern Territory may be emphatically pronounced to be a tin country.

Copper.—Lodes of this metal have been found in many places, either alone or in connection with tin and silver-lead lodes. The Daly river copper mines I have not visited, but the ores I have seen are of singular richness. They are apparently abundant as well, and, being situated close to a place of shipment, it paid to send them to Newcastle, New South Wales, for treatment. Should the price of copper rise the Daly river would be a most important mining district. Moreover, the country is extremely good. Copper is also found at Cruikshank gully, south of Pine creek, at the Howley, and near Port Darwin Camp. At Mount Wells there are many small veins intersecting the tin and the McKinlay mines. The Eveleen mine is a lode of copper and galena. The copper ores are poor, but probably contain a proportion of silver. Copper would be found in many other places if prospected for, and it will yet be a valuable mineral in the Northern Territory.

Nickel.—At the Eveleen mine there are several indications of nickel ore. It is also spoken of as having been found at Mount Wells and Snadden's creek.

Iron.—Ores of this metal are found everywhere, but of poor quality. No doubt they would be useful in reducing copper ores, and may be serviceable to the Territory yet.

Manganese, Graphite, and Bismuth are all found in small veins, especially near Mount Wells, the Eveleen, and the Union. The bismuth seen by me was metallic, and of fine quality; but the possessor did not state where it came from.

Gem Stones.—My opportunities for observation were not long enough to investigate in this direction. The indications are hardly favourable, but the most likely places are the basaltic country, ten miles north of the Katherine river."

Garnets are very common in the sands of some of the creeks and rivers, and are also often seen embedded in the granite and metamorphic rocks of the Hale river region. Some time ago these gems, which were said to be Oriental rubies and considered very valuable, were collected in large quantities on the Maude, Florence and Hale rivers, and sold in some cases for large prices, the sand being burrowed into and the garnets picked out by blacks. When, in course of time, people became convinced that the gems were not rubies, but merely garnets, the industry ceased, and at the time of the visit of the Government Geologist none of the hundreds of claims which had been taken up were being worked. It is doubtful whether any true rubies have been found here associated with the garnets, although the rocks are favourable to the occurrence of these and other gems of a similar composition. When subjected to fire or prismatic analysis the best of the gems are harder and the colour differs from the ordinary garner. On this account the gem has been termed the Australian ruby.

Mining.—The Government Resident in his annual report for 1899 says:—"The decrease in the yield of gold is certainly very disappointing. It would appear from the report of the Chief Warden that he anticipated that the Howley and Eureka mines would have produced a much larger quantity of gold than was the case. A large amount of capital has no doubt been expended in the purchase of machinery for the mines belonging to the Northern Territories Goldfields Company and the Eureka and Howley mines, which appear to have been taken over from that company by subsidiary companies; but from all I can learn of the operations on these mines, I cannot find that any substantial advance has been made in testing them at the lower levels. It has been regarded by many that the important question to be solved in connection with gold mining in the Territory was whether payable gold exists in the lower levels, and it is matter for regret that we seem as far away as ever from its solution. I ventured to point out in a previous report that the available capital of the Northern Territories Goldfields Company was inadequate for the proper working and development of the extensive properties of which they had become possessed; and, looking at the extent of the operations on the different mines, I am more than ever convinced that the view I then entertained was correct."

The area held under mineral lease on January 1, 1900, was 1,677 acres. The revenue derived from mineral leases and licences during the year amounted to £128 as against £153 5s. for the previous year. The number of mineral licences issued comprised 4,703 acres.

Mining Centres.—The following is a list of the mining centres in the Territory, with their owners or lessees (batteries and mills):—Pine Creek, Cosmopolitan Gold Mining Co., A. E. Jolly; Union, Man Yet Co., N.T. Goldfields of Aus. Co., Sam Yick Co., J. C. Hillson; Eureka, Gold Mines, Eureka Limited; Extended Union, H. Roberts; Flora Belle, A. E. Jolly; Rosalie, Lueng Quee Co.; Grove Hill, N.T. Goldfields of Aus. Co.; Woolwonga, N.T. Goldfields of Aus. Co.; Mount Ringwood, N. F. C. Parry; Brock's Creek, Brock's Goldfields of Australia, Limited; N.T. Goldfields of Aus. Co., D. & I. Daniels; Cosmopolitan (Howley), Con Moy, A. E. Jolly; Howley, Howley Gold Mine, Limited; Wandi, E. O. Robinson; Woolngie, Alfred Giles. (Cyanide works): Eureka, Eureka G. M., Ltd.; Mt. Ringwood, W. H. Finlayson; Cosmopolitan, A. E. Jolly.

Gold.—The area held under lease on January 1, 1900, was 3,896 acres, the total rental received being £1,948, as against £1,919 during the previous year; 17 leases, comprising 252 acres, were issued. The quantity of gold exported during 1899 was 16,229½ ozs., valued at £63,459, a decrease on last year's yield of 9,933¾ ozs. and in value of £21,008. The total number of persons engaged in mining during 1899 was 114 Europeans and 1,372 Chinese, the first holding 110 miners' rights, the Chinese 840. Of these the new fields Wandie, Driffield and Woolngie, employ 30 Europeans.

In 1896 Mr. Brown reported that there existed a large field at Alice Springs, in the interior of the Northern Territory, for prospecting for gold and tin, both in lode formations and in alluvial, also mica and silver and other minerals.

The centre of the goldfields is Arltunga, about 80 miles east of Alice Springs, where recently 100 reefing claims have been pegged. On a strong recommendation made by the Government geologist in 1896 the Government purchased a 10-head stamp battery and cyanide plant complete; it has been erected at the "Star of the North," 3 miles distant from Arltunga. Crushing has been in continuous operation since the starting of the works at the commencement of 1897.

Ore treated for claim-holders amounts to about 1,786 tons for a net result of 1,510 ozs. of gold, valued at £5,102. The last 1,039 tons of ore yielded 1,074 ozs. of gold, thus showing an average of over one ounce to the ton. The value of the gold was £3 15s. per oz.

Pearl Shell Fishery.—Two hundred and eleven tons of pearl shell, of declared value of £29,509, were exported during the year, as against 193 tons, value £18,563, in 1898; the increase being 18 tons.

There is no question that this is becoming a very important industry; but if it is to prosper, fresh fields must be discovered, as the known beds have now been worked for years, and are becoming exhausted. Steps have been taken to prospect the coast. Four reliable pearlers are engaged in this work, and the Government are affording assistance to the extent of a pound for pound subsidy on the amount actually expended. There is every reason to expect that the search will result in the discovery of new grounds. It is hardly conceivable that, with such an enormous coast-line, pearl shell should only exist in the immediate vicinity of Port Darwin.

Exploration.—The country in the neighbourhood of the Daly River was explored in 1877 by Mr. McMinn; he reported that he found the greater portion of the country, to the west and south, to be of very poor quality, but splendidly watered with large lagoons and perennial streams. A great deal of country is taken up by high rough table-lands, covered with scrub and spinifex. All the ranges were examined for gold, but they were not considered worth prospecting. There is one block of splendid basalt and limestone country, containing from 600 to 700 square miles, principally rich black soil, extending west and north. It is well watered with springs. This was the only really good patch of country seen.

Later on, in July, 1877, a considerable portion of this territory was traversed by Mr. A. W. Sergison, who took charge of an expedition to start from Port Darwin to visit the Daly, thence proceeding to the Fitzmaurice and Victoria River. He started from Southport, taking the main road to Pine Creek, which follows the telegraph line to Bridge Creek. Thence he took a south-westerly course to fetch the Bald Hills country on the Daly River. Crossing the Daly he became entangled in a mass of ranges, some of the mountain peaks of which he estimated to be 1,500 feet, and 2,000 feet in height. Emerging from them he came on the Victoria River at Kangaroo Point under Sea Range near the junction of Shaw Creek, the river being 180 yards wide and the creek 50 yards, both salt water. Following the river upwards to Tower Hill, an exact round tower nearly 40 feet high, standing by itself on the top of a mountain, splendid plains could be seen all around, and for plains, soil, grass, and climate Mr. Sergison thinks the Victoria River country second to none. Enormous bottle-trees (*Adansonia*, or gouty stem tree), nearly 30 feet in circumference, were seen here. A north-easterly route was taken hence, a creek which was named the Flora, and probably the principle lead of the

Daly, being struck, with "magnificent country," blue grass, black soil, basalt, and limestone. Following Flora Creek down, he found it widen into a large river, which he followed to the junction of the Katharine River, travelling thence to the Katharine telegraph station on the overland line, returning by the telegraph road to Southport. He found the country, as a rule, well watered, the valleys beautifully grassed: there were all the different grasses and herbs one has been accustomed to see on black soil limestone and basalt countr ´which all this country is), also a great many varieties never seen before. No doubt existed amongst the party (who had all seen the best pastoral lands in other colonies) that the country visited is second to none.

In 1878 a small party started to explore between the Victoria, westward to Sturt's Creek; they reported stony country, covered with triodia, and other desert grasses until Sturt's Creek was reached. Here some fine fattening country was found, but all attempts to penetrate farther south were stopped by the great sandy desert which stretches westward of the Overland Telegraph line.

In 1882 Mr. McMinn explored the country in the vicinity of the Mary River, which appears to partake more of the lagoon character, and in the wet season is almost an inland sea, draining rather than flowing into Chambers Bay. The plains in the dry season are covered with grass, but bear evidence of being flooded in the rainy season.

In 1883 Messrs. Favenc and Crawford examined the country about the McArthur River, across from the Queensland boundary, by way of the Nicholson River to Powell's Creek. A large extent of good pastoral land, available for both sheep and cattle, was discovered. The country traversed was suffering from a protracted drought, but magnificent springs watered it, quite independent of local rainfall. The McArthur is described as a fine river with broad reaches of water, high banks with deep water to the very edge of the banks, and a sluggish current. A Government steamer has since been up it 12 miles and landed a cargo of horses. At the entrance of the river it is reported that there is a safe harbour for large vessels. About the same time (July to November) Mr. David Lindsay explored Arnheim Land. He reported, on the whole, favourably of the country, though his party suffered much from the absence of water. He describes the country as generally well grassed. North of the Roper is good grazing and some first-class agricultural land, and for 40 miles southward of Castlereagh Bay were magnificent plains for grazing, agriculture, or for sugar culture. Recent explorers also give satisfactory accounts of the country along the Victoria and Ord Rivers.

In October, 1885, Mr. David Lindsay started on a trip across the continent from Spencer's Gulf to the Gulf of Carpentaria. He found many water holes and well grassed country, and succeeded in tracing the Finke River till it lost itself in the sandhills ENE. of Dalhousie. Tin and silver were found, but no gold. He arrived at Powell's Creek with his party all well, in August, 1886.

In 1886 the Rev. E. Tenison Woods traversed some portions of the Northern Territory, examining all the places where mining had been or was actually being carried on. In the course of these journeys most of the intervening country was prospected, and the geology noted. After having seen all the mining country he started in company with Mr. Surveyor Hingston, Mr. Nash and two men and 12 horses, for an exploration of the less known portions of the interior. The course was from Mount Wells to Mount Douglas, thence south-eastward across the ranges to the Eveleen Mine, from there to the upper waters of the Katharine, to the telegraph station, returning *viâ* Pine Creek and Southport to Palmerston. Mr. Tenison Woods gave the results of these explorations in the following words:—"I confidently assert that the Northern Territory is exceptionally rich in minerals, only a small portion of which has been made known to the public. I do not believe that the same quantity of mineral, veins of gold, silver, tin, copper and lead will be found in any equal area in Australia. In fact, I doubt if many provinces will be found in any country so singularly and exceptionally favoured as Arnheim Land is in respect to mineral riches. Of the mines that have already been worked, in gold especially, they cannot be said to have gone to any depth, but all nearly have shown unusually good ore, and it is unquestionable that not 25 per cent. of the veins visible have ever been worked at all. Years will not exhaust the discoveries to be made here when the difficulties of labour have been got over, as they will be surely ere long. The peninsula of Arnheim Land will become one of the great mining centres of Australia."

In 1887 Messrs. Saunders and Hingston explored some portion of Melville Island. The party consisted, besides, of the Hon. J. L. Parsons, and Messrs. E. O. Robinson, E. H. Whitelaw, C. M. Hughes, M. Holtz, N. Waters, G. W. Martin, K. Stevens, R. M. Stow, five Chinese coolies, and six aboriginals. The Chinese were engaged to do the necessary packing, each man to carry 50 lb. Their report was very disappointing, both as regards its supposed character for mineral wealth and pastoral resources. The natives were hostile, and speared one of the party, though not seriously. Small mobs of buffalo were seen, but the natives had some means of thinning their numbers. No signs of auriferous country were seen, and the timber, soil, and animals appear to be identical with those of the mainland, of which it appears to be a severed section, torn off either by volcanic action or separated by the influence of the sea. Mr. Holtz, the Government Gardener, is of opinion that as the greater and almost whole area, as far as seen, consists of ironstone gravel and conglomerate, intersected by numerous small creeks, and on the north coast considerable and undrainable swamps, there is no prospect that this island will be suitable for agriculture, but being so well watered and having abundant feed all through the year, partly on the high lying land and partly in the swamps, this island would be suitable as a cattle station.

On July 7, 1894, the Government geologist, Mr. H. Y. L. Brown, left Adelaide on a geological expedition to the Northern Territory, and made a very careful examination of a wide extent of country, returning to Adelaide on May 7, 1895. The details of the exploration are published in a full and important official report, illustrated with photographs and coloured geological sketch maps. Amongst other matters of importance referred to was the discovery of carboniferous and cretaceous rocks, identified by their fossils, and the discovery of auriferous rocks at the mouth of the Fitzmaurice river. Mr. Brown recommends that diamond-drill boring be undertaken to ascertain the existence of coal at Fossil Head, near Treachery Bay; he also indicated various localities where prospecting for gold might be profitably employed, one of which, about 80 miles east by north of Barrow's Creek Telegraph Station, prospected by a party sent out by an English company, entitled the "Central Australian Exploration Syndicate, Limited," so far has proved a success; 14 distinct reefs, varying in size from quartz veins 12 inch wide to lodes 6 feet wide, have been discovered, pan assays in some cases equalling 2½ ozs. to the ton. Further east and adjoining the original blocks held by the syndicate, prospecting, done under the same management, disclosed stone equal to 25 ozs. to the ton. The county has since been granted to the syndicate.

Physical Geography.—The physical features of the Northern Territory have been thus described in the Rev. E. Tenison Woods' report:—It is necessary to correct an erroneous idea that has prevailed as to the physical structure of this part of the continent. That idea has been that the mineral area, after rising by an easy slope to the southward, reaches points at varying distances where it is covered by a rampart of sandstone about 600 ft. in height. This rampart is supposed to be the edge of the great plateau of an interior or continental Australia. In other places the tableland is supposed to be 800 ft. in height above the plains, and 1,800 ft. above the sea. Latterly the plateau has been called by the name of the Desert Sandstone, and is supposed to cover over most of the older formations, and to block out, as it were, all the older and mineral deposits.

Whether it does so or not in the far interior I cannot say, though I am inclined to think not. Where I have been there is no such thing as a continuous tableland. Patches of broken tableland occur frequently at the sources of rivers and creeks, but they are only patches—often no more than ridges, and if more than four or five miles in width they descend as an inclined plain to the valley of the next large watercourse, where the older formations generally crop out. Their height varies between 120 ft. and 300 ft. Once only have I seen a plateau of 370 ft. in height at its northern edge, which is always broken. It was less than half that elevation Leichhardt is said to have found on his descent from a plateau, precipices 800 ft. high, but this is now known to be an error in transcribing his notes. The name of "desert sandstone" is unfortunately chosen for these teblehills or flat-topped ridges. Sandstone there is in abundance, besides ferruginous sandstones and sandstone conglomerates, but they are not always in the cliffs, or only form a portion of them. Nearly all the cliffs are capped with compact magnesite, or carbonate of magnesia, from 10 ft. to 40 ft. in thickness, sometimes ferruginous, or quite pure and white. The cliffs are made up of various formations, and it is incorrect to call them "desert sandstone." Here are the proofs. At Yam Creek, about two miles south from the telegraph station, the line passes through a gorge, bordered on each side by precipitous cliffs, varying in heigat from 130 ft. to 200 ft. The bottom of the valley is 335 ft. above the low-water level of the sea. At one place where I ascended the cliffs they were 130 ft. high. Of this 90 ft. was granite, 10 ft. water-worn quartz conglomerate; ferruginous, magnesian sandstone, 16 ft.; pure white magnesite, 14 ft. Two miles farther, the cliffs were 143 ft. high; of this, 80 ft. were granite, and 50 ft. a highly ferruginous sandstone, horizontally stratified.

At the head of the Mary the cliffs were 150 ft. high—30 ft. of this was a fine-grained sandstone, formed of wind-blown sand, the grains under the microscope being rounded and abraded like the sands of the Sahara. Above this was 100 ft. of pure white magnesite; the valley was composed of paleozoic slates and felsites—a compact mixture of quartz and felspar, without any traces of crystallization. At the gorge of Yam creek, the tableland is a mere ridge. At McMinn's bluff (270 ft. above the plain) it is an outlier broken up into detached hills. It is the same at Mount Shoobridge. As just stated, at the head of the Mary the cliffs are about 150 ft. high; then there is an inclined plain rising 100 ft. higher in six miles; then for four or five miles an inclined plain descends 40 ft. a mile until Kerwick's springs on a tributary of the Katherine, are reached.

Again: on the heads of the Katherine a sandstone tableland was ascended to a height of 250 ft., but it was a mere ridge with a valley 50 ft. deep on the east side, with large springs of fresh water giving rise to a creek—crossing this led to an inclined plain of four miles, with a fall of about 25 ft. to a mile. This brought us to a gully—the head of Maude creek—where we were, in about three miles, almost on the level of the Katherine, and in auriferous country again. It will be seen, therefore, that, as far as I have seen, "the desert sandstone" (so called) is confined to numerous small patches of a newer formation of moderate thickness which does not cover the older rocks to any large extent. Yet this character would not be suspected from its aspect as seen from a distance. I don't wonder in the least at earlier explorers having been led into error with regard to it. When one ascends to the summit of any

moderate elevation, the sloping base, white cliffs, and flat summits of these hills are conspicuous objects, and there extends from them level plains of apparently unlimited extent. But none of the hills are high enough to command an extensive view; if they did, other hills would be seen cropping out.

The mistakes which have occurred have been for want of careful measurements, or from giving descriptions from distant views rather than from actual exploration and a close examination of the nature of the rocks. I have also had the advantage of the 125 miles of levels taken for railway purposes. It must be also borne in mind that the magnesian and sandstone formation never rises to the height reached by the palæozoic and metalliferous rocks. Thus, Mount Wells (mica slate with tin and copper veins) is about 900 ft. above the level of the sea; Springhill gold mine 800 ft.; The Union 700 ft.; Jansen's 800 ft., and so on. None of these heights is ever attained by the flat-topped tableland.

So far, therefore, from much of the auriferous formation being covered by it, from its nature and elevation, that formation is far more likely to crop out above it. From what has been said it appears that the term "desert sandstone" is a misnomer. Whether the formation is the same as that which was described under that name by Mr. Daintree in Queensland is very doubtful. There are here three kinds of rock. (1) A red sandstone composed almost entirely of rounded grains of sand and ferric oxide. The appearance of these grains and the stratification of the rock show a desert origin such as blown sands present. (2) Magnesite and silicate, and ferro silicate of magnesia; this rock is pure white and yellow or mottled and fiery red. These rocks I believe to be derived from the decomposition of fine volcanic ash, containing much olivine or otherwise rich in magnesia. South of the Edith river there is a large volcanic area with high basaltic hills and much vesicular lava, all rich in olivine. When these volcanoes were in activity (in miocene times), the fine dust from the ashes covered a large area. Thus we find these flat-topped cliffs of magnesite lying on granite rocks on slates (Mount Shoobridge) and sandstone. (3) The third formation, included under the name of "desert sandstone," is a fluviatile conglomerate. It is only found on the banks of streams. It is an extremely hard sandstone, horizontally stratified and cross-bedded with the finer laminations marked by black specular iron. It contains much rounded and waterworn quartz gravel from the size of a small pebble to that of a man's head. This formation is much broken into immense boulders and rocks of most fantastic shape. It is very hard, but, being full of cracks and fissures, weathers easily and gives rises to a surprisingly rough country, almost inaccessible to explorers. It is composed of sandbanks and river boulders, which have hardened since the rivers cut through them Like the banks of the rivers of the present day, they rise occasionally 100 ft. to 300 ft. above the bed, and extend two or three miles on either side. Mount Douglas is an instance of this formation, and in the ranges on the upper Katherine river it is developed to a large extent.

The above description of the tablelands and other formation will help much to understand the physical structure of the Northern Territory, which is as follows:—The coast is very low and flat, and rises by a gentle incline at the rate of about 5ft. a mile; but there are low ridges of quartzite, slate, and sandstone rising almost from the sea-level to a height of 50ft. or more, gradually increasing to 100ft. They run north and south, that is generally speaking, with a general trend to the eastward. As they are traced to the south, from these ridges small creeks and tributaries take their rise, and descend towards the valley mains, in which there are permanent waters.

The following heights and distances will give a better idea than any description:—The Elizabeth, distance from Palmerston 25 miles 15 chains, height above sea 52·5oft.: the Berry, distance 35 miles 70 chains, height 76 84ft.; the Darwin, distance 43 miles 45 chains, height 93ft.; the Finniss, distance 54 miles 50 chains, height 184ft.; the Stapleton, distance 69 miles 64 chains, height 236·50ft.; Peter's creek, distance 74 miles 40 chains, height 188ft.; the Adelaide, distance 76 miles 50 chains, height 183ft; Burrell's creek, distance 80 miles 12 chains, height 177·50ft.; Calder's creek, distance 88 miles 36 chains, height 199ft.; Bridge creek, distance 94 miles 59 chains, height 322·50ft.; the Howley, distance 99 miles, height 250·50ft.; Yam creek, distance 111 miles 69 chains, height 328ft.; the Margaret distance 114 miles, height 340ft.; Foelsche's creek, distance 122 miles 66 chains, height 318ft.; the McKinlay, distance 124 miles 68 chains, height 304ft.; Snadden's creek, distance 131 miles 10 chains, height 404·50ft; Lady Alice creek, distance 135 miles, height 484ft.; Pine creek, distance 145 miles 79 chains, height 657ft. The distances are by the railway line, and the heights above low-water sea-level at the railway crossings of the various streams.

It will be seen that the heights begin to increase rapidly from the ninety-fifth mile, and continue to Pine creek; so that, though the average rise is about 5ft. per mile, it is less than 3ft. per mile for the first 100 miles, and more than 6ft. per mile for the next fifty miles. This is owing to the commencement of ranges which are connected with most of the mineral country in the Territory. These ranges are a series of parallel ridges, having a south-south-easterly trend, and rising to a height of from 200ft. to 600ft. in height above the plans, though the latter height is exceptional. This mountainous area is about twenty miles in width, from east to west, and forty in length, from north to south. In it are contained the sources of most of the small tributaries of the Adelaide and Mary, which are rivers with a north and south direction. The Adelaide may be said to take its rise in the midst of this chain, and the Mary to the eastward and southward. The ridges and ranges are separated in their northern portions by somewhat wide alluvial flats or valleys; but to the south-east the ranges are closer together, higher, and more abrupt, besides being exceedingly stony and barren. Thus the country south-east from Mount Wells, as far as the Mary river, is exceedingly rugged, and many of the ranges and valleys almost inaccessible. The most closely-metalled road would not be more deeply and thickly covered with stones than these valleys and ranges.

Several long and high spurs (500ft. above the plain) are continued to the eastward into the valley of the Mary river, but at about 100 miles from Southport the ranges decline to the level of the plain. At the sources of the Mary the river takes its rise amid flat-topped cliffs of the most picturesque description. The view along the stony white gorges has few parallels in Australia. The valley of the river is hemmed in by straight cliffs or castellated outliers, some 150ft. or 200ft. high. There is often a slope or talus at the bottom, but they are only accessible in a few places. But the valley is for the most part fertile, and shaded by fine graceful palm trees; springs bubble out from the shady thickets at the foot of the cliffs, giving rise to streams many feet wide and deep at a short distance from the sources. The valley is strewn to a bewildering extent with huge boulders and masses of rock, which have fallen down from above, because the magnesite is very brittle, with a foundation of loose and friable sandstone. Thus no very long time would be required for the springs to crumble and break away the edge of the tableland, or scoop away the valleys as we see them now. These springs, therefore, I believe to be the origin of the cliffs and gorges at the heads, not only of the Mary, but of the west and south Alligator rivers, and many besides. The magnesite and sandstone strata are very permeable to water. The heavy rainfall of the wet season easily drains through the strata, and bubbles out at the base where it has weathered and broken away the stone into abrupt precipitous and fortress-like hills.

Beyond the Mary, to the eastward, there is tableland, probably partially composed of the sandstone fluviatile conglomerates of the west and south Alligator rivers. To the west of the chain of ranges there is a small area of flat-topped ranges, granitic at the base and capped with horizontal strata of sandstone and magnesite. To the westward of this it is said that the metalliferous rocks crop out again, but I have not visited this area. It is evident that it cannot be either important or extensive as a mountain region, as from it no stream of any magnitude takes its rise.

At the Daly river we have an outcrop of the metalliferous country with copper mines of unusual richness. To the south of Pine creek there is a change in the features of the country. Hitherto all the drainage is to the north, and the sources of the waters are the high lands of the metalliferous ranges and the springs at the foot of the tableland; but about 150 miles from Palmerston (railway distances) a watershed is crossed not higher than 800ft. above low-water sea-level. Beyond this point the streams have a southern and westerly direction, until the Katherine river is reached, whose bed is about 100ft. above the Mary. Ultimately this large river has a north-west direction, and enters the sea as the Daly river. Thus there is a well defined mountain system, comprising the ranges in which the principal mines are found. It is an isolated system, whose culminating points are Mount Wells on the north, and the country between the Union mines and the Mary river on the south. It is cut off to the north by the river Finniss, which has a generally north-westerly trend, and whose coast outlet is unknown. No part of the ranges seems to be over 1,000ft. above the sea.

Climate and Soil.—The climate is tropical, except on the table-lands, where the temperature is lower. There are but two seasons, the dry and the wet. The wet season begins about the end of October, and lasts about five months, the rainfall during January and February being very heavy, and the heat very oppressive. The maximum temperature at this time of the year is 96° and the minimum at night 65°. During the remainder of the year it is equable, and not extremely hot, except just prior to the setting in of the rainy season. Day after day there is clear bright cloudless sky. The maximum temperature during the day in the months of June and July is about 84°; the minimum during the night is 56°. The rainfall at Port Darwin in 1896 was 67·360 inches; in 1897, 73·990; in 1898, 57·97; in 1899. 59·27. The sickness most prevalent among the settlers is a kind of intermittent fever, due in a great measure to the malaria which exhales from the swamps in the low lying lands.

The character of the soil in the Northern Territory is somewhat variable, but its fertility generally is unquestionable. No difficulty is experienced in finding large blocks of rich land capable, it is believed, of growing tropical products in luxuriance. This is especially true of the lands in the neighbourhood of the rivers and water-courses which thread the country in all directions. Maize grows profusely, and the experiments made, justify the belief that such articles as cotton and indigo, even sugar, would also prosper in certain situations. An Act has been passed to encourage the cultivation of sugar, and a large area has been planted, but the results hitherto have been a failure, due, it is said, to unsuitable localities having been chosen.

Mr. J. G. Knight, a former Government Resident, who had every opportunity of arriving at a correct judgment as to the agricultural capabilities of the Northern Territory, says:—"Nearly all the kinds of tropical fruits and vegetables which have been fairly tried are found to thrive and flourish in these latitudes. The plantain and banana grow wherever they are stuck in the ground, and produce excellent fruit. A number of cocoanut-trees planted three or four years ago look in splendid condition. Pineapples of delicious flavour reach maturity with great rapidity in the Government Botanic Garden. The 'custard apple,' also known as the 'soursop,'

and the 'papaya' yield most delicious fruit. The tamarind-tree grows well, and Dr. Schomburgk strongly urged the cultivation of the cinchona tree, and a large number of cinchona plants have been planted, and are in a very flourishing condition. The guava thrives also, as likewise the rosella. Splendid specimens of the mango are obtained at Port Essington. The lemon and orange trees in the Government Garden grow rapidly, and appear to take kindly to the soil and climate. In vegetables the melon tribe succeeds admirably, and will soon grow as weeds in certain favourable localities. The yam and sweet potato are being cultivated with great success. Arrowroot has been tried on a small scale, and thrives exceedingly well. Excellent 'sugar-cane' is grown at the Government Garden. It is believed that the tea-plant would thrive well in certain districts, and the same may be said of spices. One or two cotton-trees in the grounds of the Government Resident have yielded excellent-looking staple. Indian corn has been sown in several portions of the territory, and success having attended the experiment, its cultivation will soon be greatly extended. Superior samples by different growers have been exhibited in Adelaide. In provender for cattle the couch-grass thrives in a wonderful manner, and is eaten with avidity. The buffalo-grass also promises to grow both rapidly and well." The cultivation of the soil is almost exclusively in the hands of the Chinese, whose operations are principally confined to vegetable gardening.

On January 6, 1897, a storm broke over Palmerston, and culminated in one of the most destructive cyclones ever recorded. The crash of buildings and rattle of iron and timber falling about, combined with the blinding rain and roaring of the tempest, was an experience which those who underwent it will never forget. Strongly-built houses collapsed like houses of cards, roofs flew bodily away; lamp and telegraph posts were bent or torn up, immense beams of timber were hurled away like chaff, and trees were uprooted. It is estimated that the damage done exceeded £150,000. Many casualties took place also at sea. There is little now to indicate the severity of this great storm. Floods caused considerable damage in 1898

Agriculture.—In agriculture there is nothing of any importance to chronicle. With the exception of the Chinese, who cultivate maize and a small quantity of rice, no operations are being carried on. Cocoanuts grow very fine and most luxuriantly; the avenue of cocoanut palms in the Botanical Gardens is a veritable picture. Mr. Brackenbury, an expert in sugar lands, was appointed by the Government in 1895 to examine the lands adjacent to the Victoria, Daly, Alligators, Adelaide, and Roper rivers. Owing to the limited time at his disposal before the approach of the wet season he was not able to make so complete an inspection as could have been desired.

In Mr. Brackenbury's opinion, there is a considerable area of land situate on the Daly, Alligators, and Adelaide rivers suitable for tropical agriculture, but that it requires draining and means of irrigation. As regards irrigation, on these rivers the rainfall is equivalent to that of Palmerston, the average being about sixty inches. In the Botanic Gardens it has been shown, year after year, that good crops of sugar-cane can be produced without irrigation, and on land more dry in character than that of the rivers referred to.

White Ants.—Mr. N. Holtze, the Curator of the Botanic Gardens, has been successful with his experiment against the attacks of the white ant (*termite*). The *modus operandi* is to bore a hole with an auger here and there into the attacked tree, so as to strike one or more of the galleries of the pest, and to insert therein cyanide of potassium, in stick form, after which the holes are stopped up The cyanide gradually and continuously gives off its deadly gas, which penetrates all the ramifications of the galleries made by the white ants, and is certain death to that insect, whilst it appears to have no injurious effect upon the tree.

The total area held, December 31, 1899, was 400 acres. Eleven gardens are held by Chinese, near Palmerston and suburbs, one at Daly river and one at Borroloola, on the McArthur river, at an average rental of 10s. per acre. There was only one timber licence in force in January, 1900.

Indiarubber.—Bathurst, Peron's and Goulburn Islands have been purchased under lease, ostensibly with a view to planting the *Ficus elastica* and *Hevea brasiliensis*, indiarubber trees, for which the climate of the territory is a genial home.

Pastoral.—The Government Resident in his report for 1899 says:—"The area taken up during 1899 was 153,472 square miles, being an increase of 146,466 square miles on that acquired during 1898. The increase is accounted for by the vast area viz., 119,860 square miles) taken up by a London syndicate of country north of Alice Springs, and 19,250 square miles north of the Roper River taken by a syndicate in Melbourne. Of the area taken during 1899, 19,250 square miles were leased for the full term of forty-two years at 6d. per square mile rental, 620 square miles at 1s. 6d. per square mile, and 55,713 square miles at 1s. per square mile, and 72,975 square miles at 6d. per square mile, under clause 59 of the Northern Territory Land Act, 1890. The remaining area of 4,914 square miles was leased for horse-breeding purposes, under the provisions of the Crown Lands Amendment Act, 1896, the first seven years being held at a peppercorn rental. Five sales by auction were held during the year, when 49,387 square miles were offered (620 square miles at 1s. 6d. per square mile, 29,517 square miles at 1s., and 19,250 at 6d.). The areas offered at 1s. 6d. and 6d. were taken up after the sales. The area thrown up during 1899 was 24,145 square miles, of which 3,214 square miles were surrendered and cancelled, and 20,931 square miles cancelled for non-payment of rent. The principal localities of the abandoned areas are as follows:—Near Lake Amadeus, 18,000 square miles; Daly River, 1,390 square miles; Alligator River, 998 square miles; Alice Springs district, 971 square miles; West of Herbert River, 620 square miles. In November, 1899, an Act was passed to amend the Northern Territory land laws, dealing principally with pastoral leases. The special feature of the Act is with regard to improvements on pastoral leases and payment therefor by an incoming tenant. Clause 86, which allows a surrendering lessee to nominate another lessee for the unexpired term of his lease, will probably be availed of by many lessees. Part IX. of the Act—"Tenants' Relief Board"—in which stipulation is made that no Crown lease shall be forfeited until after the expiration of three months' notice to a lessee, and allowing application to the board for relief against forfeiture, is also an important feature of the Act."

Geological Formation.—The rocks composing the table-land, according to Mr. James Wilson, are of the class termed palæozoic, and (with the exception of beds of trap and an occasional prominence of granite) belong to the carboniferous era. They may be divided into four series of strata. The uppermost of these is a thick bed of red sandstone in thin strata, and generally topped with iron ore in various stages of oxydation. Under this lies a thick compact bed of siliceous sandstone, scarcely showing a trace of stratification, and generally exceeding 100 ft. in thickness. It is sometimes (as at Sea Range) divided into two beds, and between the two is a space of about 100 ft., occupied by softer whitish stratified sandstone. The third rock in the descending order is shale or clay slate, that decomposes rapidly when exposed to atmospheric influences. It is generally of a bluish colour, but when decomposed forms a reddish clay, which becomes a very productive soil. Underneath, the shale limestone appears; its thickness is unknown. It is frequently covered with a stratum of jasper, varying from a few inches to 60ft. in thickness, and often has the appearance of a silicified coral bed.

The soil on the jasper plains of the Upper Victoria is a rich clay, frequently very deep, and is derived from the decomposition of the shale rock, after being left bare by the removal of the sandstone. The limestone frequently protrudes, and in such localities the soil is calcareous. Trap plains occur in the higher part of the table land. This rock is of more recent date than the sandstone, and seems to have flowed over depressions or hollows worn out of the latter.

Mr. A. C. Gregory, who in 1856 explored this part of the country, describes it as a "table land of sandstone. Rising abruptly from the low level land on the coast, it attains an average level of 700ft. on the banks of the Victoria, in lat. 15°, 900ft. in lat. 16°, and 1,600ft. in lat. 18°, which is the maximum, as the country falls to 1,300ft. in lat. 19°, and 1,100ft. in lat. 20°."

"The upper bed of sandstone is about 300ft. thick, and rests on soft white, green, and red shales, which are superincumbent on a coarse, cherty limestone and jasper. Large tracts of these two upper strata have been removed, and left large valleys and plains, through which the rivers run. South of lat. 16° 30′ trap or basalt has been poured out into those valleys and plains, and table-topped hills occur, sometimes isolated, but more commonly grouped together."

"The limestones, which occupy a large extent of the valleys, are generally covered by a light loamy soil, producing abundance of grass, but the richest soil results from the top rocks, which are so largely developed in the upper valleys of the Victoria that at a moderate computation they occupy a million of acres."

Mr. McMinn, the senior surveyor in the territory, thus describes the country:—"The land bounding the coast is in a great measure low and uninteresting, in very few instances being more than 100ft. above the sea-level; wherever the coast is high, it is generally in the form of cliffs composed of sandstone and ironstone; the lower portions are partly sandy beaches, but chiefly mud flats, thickly fringed with mangroves. The country inland is, generally speaking, of a very level character. At a distance of from 30 to 100 miles from the coast a table-land is met with, varying in height from 300 to 900 feet (less than 600ft. would be more correct), and near the Victoria River it attains a height of 1,700 feet."

The following description was taken from the Rev. J. E. Tenison Woods' report:—The whole of the geology of the Northern Territory is of a simple kind. The formations are few in number. There are no fossils, and the exposed sections are numerous and clear. The most conspicuous, as well as the most common, is mica slate. It is not crystalline, and therefore I do not call it metamorphic. The stratification is frequently perpendicular, but it is inclined at almost every angle. It is jointed into so many lines of fracture that it falls to small angular pieces when quarried. This has been from pressure, and this, combined with the way in which the strata are crumpled and folded, makes it probable that we have in this formation a series of anticlinal and synclinal folds, as if the horizontal strata were crushed together by lateral pressure. Nearly all the upper curves have been subsequently removed by denudation. The rock is in places highly ferruginous, and also contains large portions of magnesia, occasionally chlorite and mica. The latter is very common in the mineral form of muscovite. Near mineral odes, and near these only, it becomes exceedingly large and abundant. At Talc Head, Port Darwin, the brilliant show of mica which there occurs marks the occurrence of five or six mineral lodes; also at Snadden's Creek, McKinlay Mine, and Mount Shoobridge. The whole of this formation is palæozoic, and probably, from its mineral character, of the same age as the auriferous slates and schists of Victoria, New South Wales, &c. In those colonies it is called "lower silurian," but, in justice to Professor Sedgwick, should be named "upper Cambrian," or (as proposed as a compromise) "Ordoecian." There are no fossils to verify this identification. Plant impressions are certainly found in the slates at Pine Creek, but they cannot be identified as yet; but the whole

character of the formation is such as to leave little doubt on the mind of the geologist as to the identity in age with the auriferous deposits elsewhere.

Dykes.—In every part of these deposits there are dykes, mineral lodes, and faults. Near Port Darwin camp there has been a considerable overflow of ancient lava, which now consists of diorite, a volcanic rock of deep blackish-green colour and waxy lustre. It consists of crystals of hornblende, mixed with felspar, triclinic in small quantities. Until more carefully examined the rock at Port Darwin camp may be called "diorite." There are also diorite dykes in many laces especially where the gold has been abundant, such as at Margaret Creek and other places. In addition, the country is interlaced in abundance with dykes or veins of a greyish-blue flaggy rock of volcanic character and extraordinary hardness.

These dykes are narrow and of great length—sometimes several miles. Throughout their course they stand out like flagstones, often 10 feet above the ground. The stone is fine grained, and not vesicular. It resembles pholonite, but I must defer any decision as to its character until I have had sections examined. What are the relations of these dykes to the auriferous rocks is hard to say, but they always accompany them. That diorite dykes are accompanied with singularly rich shoots of gold, is what experience throughout the colonies has borne out. These dykes of phonolite (?) appear to be more modern. There are many instances where they accompany a white barren quartz. Probably they are not connected with gold in one way or the other. The quartz veins generally, though not always, run along the summits of the ranges, as their existence has preserved the ridge from decay. This gives rise to a peculiar aspect to the hills, which are a series of sharp ridges, with saddles between. Of course the quartz lodes run parallel with the hills, as they are in fact the nucleus of the ranges.

The strata around the reefs are frequently metamorphosed for a short distance. At the Eleanor mine, Pine Creek, the casing is crystalline with crystals of staurolite. At the McKinlay mine the walls are pink granite and much mica. At Springhill mine the ground is faulted in successive steps as it were. At the Eleanor reef the country is mixed up, crushed, and faulted, in much confusion, yet not sufficient to prevent the lodes being followed. The lodes or quartz reefs vary in their mineral contents. For the most part they are gold veins of the usual character, but they are also mineral lodes of silver, copper, lead, tin, and probably nickel, graphite, iron, and manganese. I have seen no antimony.

The term generally used by the miners for the outcrops of the heads of a vein is a "blow," and the idea of their origin is connected with the action of fire. Whatever may be the origin of veins, it is certain that the burnt red and black appearance is the result of exposure to the action of air and water, which has rusted the iron ores and decomposed the other minerals. For a long time past the miners have had a prejudice against what are called "iron stone blows," or caps of lodes in which there was a great development of per oxides of iron. They have often been tried and found poor in gold, or destitute of it, so that even prospecting them has been generally abandoned. There are a good many throughout the district, and the majority have been untouched. They are the heads of true mineral lodes, the mineral character of which will not be determined until the water-level is reached. Silver, copper, and lead are the principal minerals to be expected in them, with, probably, a little gold. I think they are rich ores, but not suited for ordinary methods of treatment, or the battery appliances in use here. New and patent methods for the separation of the ores will have to be adopted. The experience of the Ravenswood (Queensland) miners will be found of service in the Northern Territory. There is in most respects a close similarity between the two mining districts.

Granite.—The peculiarities of the metals will be dealt with presently. The rest of the geology of the country may be dismissed in a few paragraphs. All round the mining area there is a belt of granite. I infer that it is a complete ring, though I have not traced it in every part. Thus, granite is found on the west side all along the telegraph line, and on the east side all along the valley of the Mary, on the north side from the Fergusson to within four miles of Pine Creek, and on the south about the neighbourhood of the Finniss river. On the north-west and south sides of this belt the granite is pink in colour, coarse grained with large crystals of orthoclase felspar, often two inches and more in length. Usually this coarse kind of granite is termed granite porphyry. On the west side it is partly of this kind, but on the east its place is almost entirely taken by blue, close grained granite—a valuable stone. On all sides this granite crops up into hills of 100 feet and more in height, but never quite so high as the metalliferous slates.

The existence of this belt of granite round the mineral deposits is of the greatest importance. It is a state of things which all experience has taught to be the most favourable for mineral deposits. Usually the greatest richness is found at the edges of these formations, or rather at the junction of the slates with the eruptive granite, and from what I have seen this locality seems to be no exception. All along the east side of the ranges, or the valley of the Mary river, there is a continuous outcrop of mineral veins almost upon the junction. The Eveleen silver mine is actually upon the extreme edge of the latter, but the section is not visible, as it is overlaid by a small outlier of ancient limestone. This is one instance, but there are many more which have never been prospected to the north and south along the valley of the Mary.

It would seem as if silver, lead, copper, and tin were the metals developed on the edges of this junction, while gold exists generally throughout the slates. But the district is hardly sufficiently prospected to form safe conclusions. The width of this ring of granite varies as far as it is known. On the south of Pine Creek it is at least fifteen miles wide, and in some parts of the valley of the Mary it must be nearly as much ; as well as on the north. On the west it is overlaid by sandstone and magnesite rocks. An accurate geological survey of this line of junction would lead to the discovery of many mineral lodes.

As far as I have seen the minerals are found in the slate country only. There are quartz lodes and other lodes in the granite, but they have proved barren as yet. Not that gold and other minerals may not be found in granite, as they are in Charters Towers and in Victoria, but there are few exceptions to the following rule: Where mineral veins pass from one formation to another they change their character. Thus, if they have been rich in slate country and pass into granite, they will become poor and barren, and *vice versâ*. When the belt of granite is traversed we find that the metalliferous formation again crops out on the north and south—thus the whole country between Southport and Port Darwin consists of that formation capped here and there with a little magnesite. There are many quartz lodes, and I am of opinion that the outcrop of ironstone in ridges of black nodular limonite marks the locality of mineral lodes. There is every reason to suppose that the junction between the granite and slates on the outside of the granitic ring should be as rich in mineral lodes as the inside line of junction. Mineral lodes, which become barren in passing from one country to another, become metalliferous in returning to the country from which they took their origin. Thus then the edge of the granite country on the outside of the belt to the westward of the telegraph line to the south of the Fergusson and north of the Finniss should be prospected, and may prove to be rich in minerals.

Limestone.—Next in succession to the granite and the folded and contorted slate strata come a small outlier of ancient crystalline limestone, which occupies a small area of a few hundred acres at the Eveleen mine. The strata are contorted, and even bent and folded into rude circles. Besides presenting the usual weathered appearance of limestone, of fantastic pinnacles, &c., this formation has a most peculiar aspect from the nature of the rock. The area is composed of alternate layers of hard flaggy chert or flint and blue limestone. The latter, of course, weather much quicker than the siliceous rocks, which stand out in ridges and curves like heaps of tiles or fanciful shapes in pottery. This curious feature and the heaps of boulders with which the granite is weathered, give the neighbourhood of the Eveleen mine a somewhat bold scenery.

In the absence of fossils no decision can be given as to the age of these beds. They are extremely like the mineral limestones of Queensland. A similar stone occurs as an outlier in the Malay peninsula, Borneo, China, and the Philippines. It is devonian or lower carboniferous, and so, perhaps, is the limestone at the Eveleen. The peculiar way in which the strata alternate with quartzites or chert is exceedingly interesting, and unless deposited in connection with mineral springs is difficult of explanation. The carboniferous limestones of Europe often contain bands and nodules of chert. Under the microscope the limestone is seen to be perfectly crystalline. This metamorphism may be due to the contact of the eruptive granite, or the slow infiltration of water. The mineral lode of the Eveleen has broken through these strata. Therefore the filling in of the silver-lead lodes is of later age than the carboniferous period.

Magnesite and Sandstone.—Above the slates there is a complete absence of any fossiliferous rocks, and almost a complete absence of lime except in some places on the Katherine river and the Eveleen. The inference, therefore, is strong that there never has been any subsidence into the sea or upheaval from it within what geologists call more recent times.

What we find wherever a good section is exposed is this.—A layer of loose white or red decomposed rock or rubble, some 3 feet or 4 feet thick, lies on the upturned edges of the slates. Above this a layer, some 2 feet thick, of loamy earth, which has been surface soil. Above this from 14 feet to 120 feet of magnesite or carbonate of magnesia, more or less impure, with silicates of alumina and iron, and mere traces of lime. Not often is it pure white, for the stains of brown, red, and purple, from iron oxide, permeate the whole.

There are also bands and strata, a foot and more in thickness, of yellowish-brown limonite or hydrated peroxide of iron. In many cases it appears to be of the same mineral composition as the slates, and though this is more apparent than real, there is no doubt that they closely approximate in character, but the magnesite is horizontally stratified, is never contorted, it has no uniform dip, but its strata follow the inequalities of the surface on which they rest. The whole rock is essentially a decomposition product ; it has not been placed there by the sea, or it would contain some marine remains. I believe it to be a decomposed ash containing olivine, or a fragmentary deposit carried into the air, when the extinct volcanoes of the south broke through the metalliferous slates. The extent and thickness of the deposit need not deter us from this explanation. When in Java, during the eruption of Krakatoa, I have seen deposits of ash several feet in thickness, at more than a hundred mile distance from the volcano.

There is one important fact in connection with these rocks, and that is that the mineral lodes do not crop out above them unless where it is very thin : there is an interesting and instructive section visible at Talc Head, Port Darwin, which shows this. Five or six mineral veins of considerable hardness crop out from the slates which here dip in various directions, at an angle of about 30°. The slates have been eaten away considerably by the action of the sea, so that the lodes stand out like walls. But the magnesite formation covers them on the top. From this we learn that the deposit is one which took place long after the

lodes were filled in. I say long after, because the magnesite formation is geologically a modern one. Similar volcanic emanations are clearly of miocene age in Southern Australia; and so I think it is highly probable that they are in this area.

Cretaceous Formation.—I have seen no trace of the cretaceous formation which is so extensively developed in the western plains of Northern Queensland. But in that colony it is reduced by denudation to a few fossiliferous nodules on the summits of the divide—and on the Hodkingson and Tate rivers. There the slates are of same age and much the same character as the slates here. If, then, the cretaceous sea once covered that area, it is highly probable that it covered this too, though every trace of the formation has been swept away.

Red Sandstone.—As much as 80 feet of highly ferruginous sandstone, horizontally stratified, is found resting on the granite, and even forming small flat-topped hills on the slate hills. Magnesite also covers a few of the slate ridges. The instances are especially about Mount Shoobridge. I believe that these sandstones are of volcanic origin also, but the evidence is too long and too technical to be entered into here.

Volcanic Rocks.—About 10 miles north of the Katherine river, on the telegraph line, there is a volcanic area of several hundred square miles. It would take some time to examine it closely and to find what remains there are of the ancient craters from which so much lava has been poured forth. The volcanic hills are rugged and confused, rising to a height of 400 feet, and perhaps more. This is insignificant for volcanic peaks, but all the volcanic centres in Australia are of moderate elevation, and when they have been exposed to much weathering mere mounds of dolerites are the result. Here probably the mountains are more rugged. The lavas are vesicular, and in many of the specimens that I have seen every fragment of rock was incrusted with green, glossy crystals of olivine.

I had already concluded that there must be some volcanic centres which had sent forth such quantities of magnesium ash which I found on the ranges, and this olivine rock was a remarkable confirmation of the theory. I do not think that any valuable minerals will be found in connection with the volcanic area.

Porphyry Rocks.—Beyond the sources of the River Mary the metalliferous slates do not reappear south of the magnesite tableland; neither does the granite, but in its place a red porphyry rock of a very barren and arid character. It is a crystalline mixture of quartz and felspar, the crystals being plagioclase and small. This rock rises into small hills of broken and angular character, never weathering into rounded masses like the granite. It is grouped into hills of 200 or 300 feet in height, and forms ranges about the junction of Kekwick's Creek with the River Katherine. It also covers the plains with heaps of angular fragments a foot or so in diameter incredibly difficult for horses to travel over.

In a few places we found in this porphyry dykes of basalt, very hard, and like the phonolite already described, except that it does not stand up in slabs. The porphyry occupies a large extent of country always of the most worthless character. It is lightly timbered, covered with coarse, reed-like grasses of the dry country. It is utterly destitute of minerals.

Fluviatile Sandstone Conglomerates.—These have already been described. They lie on the banks of the Katherine, covering the porphyry, but a few water-worn fragments of that rock were visible in the conglomerate. The majority of pebbles are white quartz, of which, strange to say, there are no veins in the porphyry rock. This sandstone forms tablelands on both sides of the river, and a mile or two in width for some ten miles or so. Then the metalliferous slates reappear with tin and alluvial gold. This is on Maude Creek, where gold is reported, but the country does not appear to me to be very promising.

Limestone.—About the telegraph station at the Katherine River the banks form a tableland some 60 feet to 100 feet above the stream. It is covered with an outcrop of grey limestone which has weathered into boulders and pinnacles of a very rough character. It forms low ranges about five or six miles from the north bank of the stream. These ranges are very rough, and quite inaccessible to horses.

Flora.—The general character of the Botany of the Northern Territory is in keeping with that of the rest of Australia, that is to say, the prevailing tree and shrub vegetation is composed of Eucalypts and Acacias. But still there is an element of a tropical character and of a predominance of certain trees, which makes the aspect of the country differ somewhat from other parts of the continent. This is seen in such trees as Ironwood, a leguminous tree of African affinities (Erythrophlæum) Buchannania, an Anacardiaceous tree with fine broad leaves and an edible fruit, Gardenia, Megasperma Grevillea, Calythrix, Sterculia, and Cochlospermum.

The Sterculia is remarkable for its beautiful bell-shaped scarlet flowers. The Cochlospermum has large showy yellow flowers; it is called the cotton tree and is very common throughout the Territory. The Gardenia has fine showy scented flowers and a pear shaped fruit. The Grevillea has conspicuous golden leaves and an abundance of woody fruit containing a nut which is rarely edible. Calythrix is a kind of broom like the heathy tea trees, but with very showy pink flowers and small leaves like a conifer.

There is nothing peculiar about the Acacias, except that they are very abundant, and as usual covered at certain seasons with a profusion of sweet smelling yellow downy flowers.

The Eucalypts do not abound as fine trees; near the coast they are largest and gradually get smaller as they are followed inland. At a distance of 100 miles from the coast the average timber is poor and stunted, yet there is plenty of it, so that the whole interior may be called open forest. One remarkable feature about many of the Eucalypts is the possession of very large seed vessels one or two inches in length, and mostly urn or pitcher-shaped. On the tops of the stony ranges there is a stringy bark (E. Acmenioides). On the plains a very common Eucalypt is E. Platyphylla which goes by the name of the Nankeen Gum, because of the peculiar yellow brown colour of the bark, this is the same tree which occurs so abundantly in the southern tropical swampy districts of Queensland. There the bark is cream white, and the general character of the tree different. A singular characteristic of this tree is that in its young state the leaves are of enormous size—a foot and more in length and breadth—this gives a peculiar aspect to the shrubby undergrowth of the Northern Territory, the young gums looking more like cabbages than Eucalypts.

E. Miniata has a lovely profusion of large carmine blossoms; there are other species conspicuous for their flowers. Near the coast and near water there are abundance of pandanus or screw palms, other fine and graceful palms of the genera Ptychosperma and Seaforthia, &c., are found in the gorges and rocky valleys of the Upper Mary. A small palm named Livistonia Humilis is abundant throughout the Territory in the open forest. A beautiful Cycas, like a tree fern, with bright green fronds, is also common especially near the coast. Plants that require shade, such as ferns, mosses, lichens, orchids, and fungi, are very poorly represented. The fresh water lagoons are covered with gigantic waterlilies (nymphæa).

The grasses and sedges are of the usual tropical character with an absence of the better kind of fodder grass on the poor lands. Andropogon Refractus is the common grass of the country; near the river it grows in tangled thickets so as to meet over the saddle and form a real difficulty in riding through much of it.

The mangroves on the coast are of the usual character, but seldom possessing good timber. The tea tree found lining all the rivers, and scattered through much of the low-lying ground, is the paper bark tree of the colonists—"Melaleuca Leucadendron" of botanists; there is no difference between this and the same tree from which the cajeput oil is derived, so extensively distributed throughout the Eastern Archipelago. It forms impenetrable thickets for hundreds of miles on the banks of the Mary Katherine, Adelaide, Daly, and Alligator rivers.

Petalostigma quadriloculare, a euphorbiaceous tree, which extends through all tropical Australia within a moderate distance of the sea-coast, is a common tree in the Northern Territory. It goes by the name of the quinine tree. It produces abundance of small fruit about the size of a crab apple, intensely bitter, which is the character of the whole tree. Cups and other vessels are made from the wood of the tree, and impart a bitter flavour to liquids resting in them. The tree, however, labours under a grave suspicion of being poisonous, and should be used with some caution.

Bamboo is found on a few of the smaller rivers emptying on the Northern Coast, such as the McKinley, Adelaide, and the Mary. It is much valued by the Aborigines who barter it from one tribe to another, so that it reaches into the interior far beyond the limits of its growth.

As a rule, there is no jungle in the Northern Territory such as may be found on the North-East Coast of Australia, but there are a few jungles with tropical trees among them more characteristic of the Indian Archipelago than of the Australian continent. Such jungles are only known near the coast containing fig trees, wild nutmegs, laurels, etc., but the banana thickets with "Achras Aleurites," such as are found in Queensland, are never seen in the Territory.

Fauna.—Generally the same as other parts of Australia, with the addition of the crocodile, and with the exception of the Wombat, which do not come so far north.

Beside the Crocodilus porcatus (same as the Indian species) there is a smaller kind, called Gavial (phyllas johnsonii); it is not so voracious as the larger crocodile, the natives bathing near it without fear. Most of the fresh-water rivers abound in fish, such as blackfish (lates colonorum), barramundi (osteoglossum Leichhardtii), perch (therapon), and the garfish, the affinities of which have not been ascertained. Scorpions (urodacus) are common in the grass, while centipedes are very numerous at Palmerston in the rainy season. Their bite is extremely painful, but an external application of laudanum is a perfect antidote. The snakes are not numerous, and are generally of the kind common to the rest of Australia, with some of probably larger size.

The birds are much the same as in other parts of the continent, the cockatoos being well represented, and of different species to those of the southern colonies. Pigeons are extraordinarily abundant, especially the flock pigeon and the squatter, both are found in large numbers even in the poorest country. Quails are also abundant. The commonest bird is a small ground dove (geophila humilis). There is a laughing jackass (dacelo), but it is quite different from its southern congener. Duck, teal, swan, and water bird are very common on the Daly River and elsewhere during the rainy season. Predaceous birds differ little from those to be found in other parts of Australia, but are not so numerous. Kites (milvus) are the most common. The Emu is occasionally to be seen.

Butterflies are not so varied or so rich in colour as those in Queensland, but include a small number of Oriental rarities. The insect fauna generally may be said to be poor in species, but with rarities and many novelties which are but as yet little known.

The country about Burrundie is much infested with a small venomous spider (Lathrodectus), black in colour, with a red patch on the back; in other places its bite has proved fatal, but there is no record of any evil consequences having been experienced in the Northern Territory.

Railway.—During 1878 a survey was made for a railway

between Port Darwin and Pine Creek, and it was opened for traffic on October 1, 1889. There are stations at Palmerston, McMinn's Lagoon, Southport Road, Darwin's River, Rum Jungle, Adelaide River, Goodilla, Howley River, Brock's Creek, Fountain Head, Grove Hill, Burrundie, Boomlerra, Union, and Pine Creek. It is 145¼ miles long, the gauge being 3 ft. 6 in. The revenue for the year ended June 30, 1900, was £14,799, and the working expenses £24,340 (working expenses exceptionally heavy, owing to floods and rebuilding jetty). The number of passengers carried was 3,374; goods, 3,009 tons (excluding "on service.") The train miles run was 31,012. The total expenditure to June 30, 1900, amounted to £1,162,870, from loans. There were 79 persons employed on the line during the year.

Intercommunication.—A mail twice a week connects Palmerston with the gold-fields, which extend to Pine Creek, distant 146 miles S. A good bush road also connects with the same place, and all the dangerous creeks have been substantially bridged. Hotels and houses of accommodation have been erected at suitable places along the road.

Charitable Institutions, &c.—During 1899 71 cases were admitted into the Palmerston Hospital. At the gaol there were 63 admissions, the average per day being about 39½. There is not much actual destitution in the Northern Territory.

Marine.—During the year ending December 31st, 1899, 71 vessels (70 steam, 1 sail) of 94,899 tons were entered inwards, and 73 vessels (71 steam, 2 sailing) of 94,922 tons cleared outwards. The revenue of the Marine Board for 1899 was £1,342. The Point Charles light continues to give satisfaction.

Mail Service.—In 1884 a contract was entered into between the Government and the Eastern and Australian Steamship Company for a Northern Territory mail service. The contract was for five years, which has since been twice renewed, the Company reserving the right to call at Melbourne, Sydney, and Brisbane. The subsidy was one penny per trip. This contract was terminated and another entered into, under which they are to receive a fixed subsidy of £1,400 per annum from 1st May, 1894. A joint contract has been let to the Eastern and Australian Steamship Company and the China Steam Navigation Company, dating from 1st May, 1897, at an annual subsidy of £1,400, which practically gives a fortnightly mail service. During 1897 a contract has been let for a mail service between Port Darwin and Wyndham, W.A., which joins on to the Western service, thus making the circuit of Australia complete. The service is carried out by the ss. *Koonookarra*. A mail service is also extant between Port Darwin and Borroloola, Macarthur River, in the Gulf of Carpentaria. The trip is made by the steamer *Koonookarra* four times a year at equi-distant dates. A mail for Port Darwin is made up at Adelaide every Tuesday and Friday for despatch to Sydney, thence to destination per first vessel.

Imports for the year ended December 31st, 1899: From the United Kingdom, £33,214; from South Australia, £28,706; Victoria, £1,541; New South Wales, £28,392; Queensland, £1,397; Western Australia, £673; Hong Kong, £28,750; Singapore, £4,683; Germany, £547; Macassar, £240; Japan £135; Macao, £3,600. Total value of imports £131,880.

Exports for the year ended December 31st, 1899: To the United Kingdom, £31,484; to South Australia, £15,257; Victoria, £53,906; New South Wales, £2,609; Queensland, £42,880; Western Australia, £70; New Zealand, £10; Hong Kong, £8,898; Singapore, £355; Macassar, £2,850; Manila, £330. Total value of exports, £158,618, which was made up as follows:—Staple produce of the Northern Territory: gold bullion, 19,292⅛ ounces, value £63,459; gold ore concentrates, 5⅝ tons, value £106; tin ore, 1⅜ tons, value £106; mother-of-pearl shell, 211½ tons, value £29,509; bêche-de-mer (Trepang), 104½ tons, value £3,515; dried fish, 51,196 lbs., value £603; horned cattle, 11,604 in number, value £40,826; horses, 545 in number, value £2,644; sheep, 5,000 in number, value £2,500; wool, 253,458 lbs., value £8,439; hides, horns, &c., value £3,010; sundries, value £1,271; total value of staple produce, £156,062. Sundries, British, foreign, and other colonial produce, value £2,556. Total value of exports, £158,618, a decrease of £24,215.

Cattle Export Service.—The Government Resident, in his report for 1899, says: "The removal of the prohibition in the importation of Northern Territory stock into Western Australia has materially altered the prospects of our stockholders, and though, owing to the dryness of the season, they have not been able to take full advantage of this opening, there is no doubt it will afford a much needed outlet for our fat stock, particularly on the runs north of the quarantine line, which since the stoppage of the export of cattle to the East have had to depend entirely on the local market for the disposal of their surplus stock. There is every reason to expect that this market will greatly expand in the future. In my last report I referred to the trade with cattle and horses which might be done by the Northern Territory with the Philippine Islands. Since then I understand a contract has been made by the American Government with the China Navigation Company for the supply at Manila of frozen meat from New South Wales. There seems to me little doubt that practically the whole of the meat supplied for these islands must eventually come from Australia, and if so, considering that Port Darwin is within seven days' sail of the port of Manila, their supplies, whether in the shape of frozen meat or live cattle, should undoubtedly go from the Northern Territory; and I feel sure that this trade, once established, would prove more satisfactory to producers than the prices realized by the shipment of their stock to meat-preserving and boiling-down works in Queensland."

As the remount service is likely to have close attention in the near future, and with the facts before the world of the wonderful endurance of the Australian-bred horse on the battlefield of South Africa, the India and Home Governments have been communicated with, their attention being drawn to the advantages offered under the Northern Territory Crown Lands Amendment Act of 1896, for the establishment of horse-breeding stations for the remount service.

During the year 1899 the total cattle exported was 14,871, valued at £52,259.

Revenue.—The revenue for the year ending December 31, 1899, was £33,492 19s. 5d., less drawbacks, repayments, and exchange, £60 6s., the total net revenue being £33,432 13s. 5d.

Land Sales.—Two auction sales of township allotments were held—the first on the 22nd June, when the allotments in the township of Playford (Pine Creek) were offered, and one lot disposed of, realising £10 2s. 6d. The township of Brock's Creek having been proclaimed on the 13th April, 1898, a second sale of allotments in that township was held on the 31st August, 1899. One lot was sold, realising £9 10s. At both the auctions referred to the upset price was £20 an acre. There were no sales of suburban lots. The amount of purchase money received during the year was £19 12s. 6d.

Population.—By the census of 1891 the population was returned at 4,898, of whom 338 only were females. Europeans, 1,159; Chinese, 3,626—3,530 males, 96 females; 113 domesticated aboriginals. There are 1,145 dwellings, of which 1,102 are inhabited, principally of iron, wood, and canvas.

In 1899 the estimated population was 4,903 persons; 1,449 Europeans, 3,496 Asiatics (chiefly Chinese) and others.

Roman Catholic Mission.—A missionary station was established by the Jesuits of South Australia at Rapid Creek, 7 miles from Palmerston, but is now abandoned. The mission have transferred their labours to a more suitable site, on the Lower Daly river, on the aboriginal reserve granted by the Government. The Superior of the Mission is the Rev. J. F. O'Brien, S.J. The Mission is supported by voluntary contributions, and a Government subsidy of £100 per annum. There are six missionary fathers in the Territory, one of whom has compiled a grammar of the language of the Port Darwin natives. There are 20 school children on the list.

Immigration and Emigration.—The arrivals for the year ending December, 1899, were 198 Europeans, 223 Chinese; others, 40; total 461. Departures, 207 Europeans, 117 Chinese; others, 48; total 372. Excess of immigration over emigration, 89.

Government.—The settlement is presided over by a Resident, who receives his authority from Adelaide, 2,000 miles from Palmerston. He is assisted by a small staff. The Minister controlling the Northern Territory is the Hon. the Treasurer. The Secretary and Accountant to the Minister is Mr. F. E. Benda. Messrs. W. Griffiths and V. L. Solomon represent the territory in the South Australian Parliament.

NORTHERN TERRITORY TARIFF.

NOTE.—In all cases where duty is charged at per gallon, one dozen reputed quart bottles will be taken as two gallons, and one dozen reputed pint bottles as one gallon.

	Rate. £ s. d.
Acetic acid; cordials, non spirituous; syrups per lb. or pint	0 0 3
Ale, porter, spruce, or other beer, cider and perry; limejuice aerated, and limejuice cordials, not spirituous ... ... per gallon	0 1 0
Arrowroot; fish, dried preserved, and salted (except in pickle or brine); milk, (preserved) and compounds thereof; paraffin and mineral wax; pearl and patent barley; patent groats; sago; stearine; tapioca; vegetables, preserved ... ... per lb.	0 0 1
Bacon; candied fruits; cheese; chocolate, cocoa, manufactured; coffee (raw); confectionery; fruit, dried (except dates, currants, raisins); gunpowder, sporting; hams; honey; jams; jellies; mustard; nuts (except cocoanuts); pork (in pickle); preserves, per lb.	0 0 3
Barley ... ... per bushel	0 0 9
Butter; cornflour; maizena; peaflour; and split peas ... ...per lb.	0 0 1
Biscuits; blue; candles; currants; raisins; dates; fish (paste); fruit (pulp); glue; macaroni and vermicelli; meat preserved; pepper; spices; starch per lb.	0 0 0
Cards, playing ... ... per dozen packs	0 6 2
Cement ... ... per barrel	0 2 0
Chicory, including kiln dried (except green root) per lb.	0 0 6
Chicory, green root ... ... per ton	3 0 0
Coffee, roast or ground ... ... per lb.	0 0 4
Coffee, and substitutes therefor mixed with chicory or coffee ... ... per lb.	0 0 6

	Rate. £ s. d.
Cordage, viz., Coir rope ... ... per cwt.	0 4 0
,, Hemp, being bolt rope, Europe rope, fishing lines (other than cotton or fancy), log lines, marline, manila jute and flax (when tarred), rattlins, spun yarn, whale lines, and all other hempen cordage (except galvanized and other iron and steel cordage) ... per cwt.	0 8 0
,, Manila jute and flax, except when tarred, and all other white lines ... ... per cwt.	0 8 0
,, Galvanized and iron ... ... per cwt.	0 3 0
Cordage, Steel wire, not being fencing wire ...per ton	1 0 0
Doors and frames (except iron doors) ... ... each	0 4 0
Fruit bottled; Oil, salad; pickles; sauces per doz. qts.	0 3 0

FIFTEEN PER CENTUM AD VALOREM.

Air bricks; albums; apparel and slops (except mole clothing and imitations thereof); archery materials; basketware; bedsteads; beer-engines; bellows (except bellows with forges); bells (all kinds); blacking (including boot gloss, harness dressing and black lead); bent wood and joinery; blocks and pulleys, except sheaves; boots and shoes (excepting women's and children's lasting and stuff); boot and slipper uppers; boot laces; bolts and nuts over ¼in. diameter; boring rods; bread cutters; bricks (except Bath) bright wireware; Britannia metalware; British plate; brooms and brushware; buckets and tubs (all kinds of); bird cages; candle moulds; candlesticks; carpets and carpeting; carpet bags and portmanteaux; carriages, carts, wagons, and all vehicles; castings not enumerated (except plough and scarifier shares); chaffcutters; chemicals, drugs and druggistware, unenumerated; china, stone, and earthenware; clocks; copying and embossing presses; corncrushers; couplings for shaftings; crab winches; drapery including laces, fringes and embroideries, haberdashery; small wares, unenumerated, hoisery, gloves, hats, caps, and wool (Berlin and knitting), except cloths, tweeds, estamenes, serges, and woollen piece goods; dumb bells; engines and parts, except gas engines and pressure gauges; fancy goods; fancy soaps and perfumery; feathers and flowers (artificial); felloes; fenders and fireirons; fireworks: floor and oilcloth; furniture; furs; gelatine; gilt mouldings; glass; glassware; grates, stoves, and ovens, and parts thereof (except campovens); harness and saddlery, made up (except saddler's housings, bindings, gilt mounting in sets; harness furniture plated, in sets, and whip sockets); haypresses; horsepowers and parts; instruments, musical; iron brackets; doors, gates, and galvanized iron manufactures; iron lasts and iron kibbles; Japannedware; lamps, lampware and gasaliers, or parts thereof; leather, unenumerated; leggings; machines, washing, and mangles; mandrels (blacksmiths'); mantelpieces; marble, slate, stone (wrought); mats and matting; metal services, spoons, and forks (except steel table forks); millbands (leather); millinery; Nevada and nickel silverware; oil, medicinal and perfumed; picture frames; plate and platedware (except gilt mountings for saddlery, and harness furniture, plated, in sets); plummer blocks and brasses; refrigerators - sails (new); safes, iron; quilts (other than cotton) and rugs; sash weights; scrapers; silks, and manufactures thereof, containing 5 per cent. of silks (except mill and sewing); stationery, manufactured; labels, posting and handbills, and printed paper bags; shafting, cold rolled or turned; tarpaulins and tents; tiles; tinware; tiring plates; tobacconistsware; troughing; umbrellas and parasols; velvets (silk); watches; wheels; wickerware; woodware: wringers; weighbridges, over 20 cwt.; woolpresses; whim bows; wine presses; whim mountings.

Jewellery ... ... 20 per centum *ad valorem*.

FREE LIST.

Acid, citric, muriatic, tartaric; American leather cloth; anchors of every description; animals, living; antifouling composition; antimony, in ingots; anvils; arsenic; artists' colours, canvas, and pallet knives; asphalt; atlases.

Backs, wooden, for brushes; bagging, Forfar and Hessians; bags, sacks, and woolpacks; ballast, not being stone, enumerated; bark, for tanning; bass, hair, and bristles, and other material for brushmaking; black sand; blasting powder, dynamite, and lithofracteur; block and pulley sheaves; boneblack; bones; bone manure; bookbinding cloth; books, printed; boot elastic; boot hooks; bottles, ordinary and pickle; bottles, indiarubber; brass, sheet and rolled; bricks, Bath; brimstone, crude, and flour of sulphur; buckles, not plated; bulbs and seeds, garden; bunting, in the piece.

Camera, photographic; campovens and covers; cane; canvas; canvas hose; capsules, bottle; cardboards, strawboards, and millboards (plain); carriage trimmings; casks and cases for dry goods and packages in which goods are ordinarily imported, and empty returns; chains, cables, and traces, not galvanized; chalk; charts; coal, lignite, and coke; cocoa nibs; coin, specie, and bullion; coir yarn; combined mower and binder; currycombs; copper and yellow metal sheathing, and nails for same; copper wire, thread-covered; copperas; corks cut, and cork; cotton, raw, waste, and wick; cotton goods, in the piece (except velvets and velveteens, to be considered as unenumerated articles); cotton thread, sewing; cream of tartar; crucibles.

Demonstration chalk; detonators; diamonds, glazier's and mining; door knobs, brass, glass, and china; dyestuffs, being aniline dyes, bichrome, dyewoods, dyewood extracts, indigo, and spirits of salts.

Earth scoops; eggs; emery cloth, powder, and paper; engineers' machine tools; engines, gas, portable, and traction; eyeglasses and spectacles (except gold and silver), and scientific instruments; eyelets, eyelet punches, and webbing.

Fish, fresh; felt, sheathing and paper, roofing; fibre, cocoa; fireclay; flannels, and Crimean and Union shirtings, in the piece; flax; flock, cotton, and woollen; forks, hay and digging; use.

Ginger, green; glass stoppers, ordinary; glycerine; gold leaf; grain, viz.—flour, gram, beans, peas, bran, pollard, wheat, maize, and grain, unenumerated (except by sea); grindstones; guano and other manures; gum arabic; gutta percha.

Hair, seating and unmanufactured; hames, not plated and part plated; hardware, not enumerated; harness, minor articles and mountings (except plated); harvest twines; hatters' materials; hemp and hemp packing; hides and skins, raw; holystones; hollow ware; hooks, butchers', reaping, and shark; horseshoes; hose, indiarubber; imitation cane; indiarubber stamps, erasers, anti-rattlers, and buffers; ink and ink powders; iron, bar and rod, galvanized sheet, plain, girder-plates, unmanufactured, hoop, ore, pig, plates, rails for rail and tramways, scrap, sheet, tubing cased with brass, wire, wire galvanized, wire netting of all kinds, and wrought-iron tubes and pipes, under 6in. diameter, iron and steel fencing and standards (except fancy fencing and standards, fringes, friezes, and balustrading); irons, hatters', Italian, smoothing, cloth manufacturers' and tailors'.

Ivory.

Jacks, lifting; jute.

Knife powder and sharpeners; knives, putty, shoemakers', hay, and saddlers'.

Lead ore, pig and scrap; leather, patent, enamelled, kid, hogskin, levant, morocco, roans, skivers, and imitations thereof; limejuice; linen goods, in the piece; linseed; lint; lithographic stones.

Machinery (except engines and shafting) for carding, spinning, weaving, and finishing manufactures of fibrous material, and cards for such machinery; machinery used in manufacture of

paper and for felting ; and roller machinery and machinery connected therewith, not enumerated, for flour-milling purposes ; and hydraulic presses ; magnets ; maps ; measuring tapes ; meat, fresh, except pork ; metal picture cords ; metal lustre ; millbands, except leather ; mill silk ; millstones ; moleskin clothing, and imitations ; mops ; Muntz metal ; music ; myrobalans.

Needles, packing, sail, and upholsterers' ; nets, fishing ; newspapers, printed ; nuts, viz., cocoanuts.

Oakum and junk ; oars ; oilcloth ; oil, cod, whale, seal ; oil of rhodium ; oilbaize ; oilcake ; oil of lemon ; oil of peppermint ; ores ; osiers.

Paint boxes, toy ; paintings and engravings for public institutions ; paper, viz., copying, felt, marble, red glazed, plaid, printing, and writing, except faint lined ; paper fasteners ; patent roller composition ; pencils, carpenters' and slate ; penelope canvas ; phosphorus ; picture cards, school ; pitch, tar and resin ; plants and trees ; potash, Canadian ; precious stones (unset) ; printing presses and machines ; punching machinery ; putty.

Quicksilver ; quinine.

Rabbit traps ; raddle ; rattans ; razor strops ; royal cord.

Saddlers' ironmongery, not plated ; sal ammoniac ; salt, rock : saltpetre ; scales, balances, and weights ; scythes and handles ; seeds, grass ; sewing-machines and slabs ; sewing twine and silk, shop and cord ; shears ; sheep ear labels ; sheep dip ; shoemakers' nails, sparrow-bill, wrought and cast tips, bright and black mal. hobs, wrought hobs, nuggets, Hungarians, cut sprigs, steel bills, and brass rivets ; shoe pegs and pegwood ; shovels and spades ; sickles ; sieves ; slates, schools ; sock lining ; soda, caustic, nitrate, silicate, carbonate, and bi-carbonate ; solder ; specimens of Natural History ; spirit levels ; steel, bar, rod, sheet, and fencing wire, and plough and scarifier shares ; strychnine ; sulphate of ammonia ; sumach and valonia ; surveyors' chains ; sulphate of magnesia ; sulphate of copper,

Tanks, iron, except galvanized ; telephones ; timber—balks, logs, posts and rails, sleepers (railway), square over 4in. thick, trenails and spokes in the rough, clear pines, staves in the rough, sawn hickory ; tin—block, ingot, sheet, plates, and tin plates, decorated ; tinfoil ; tools and tool handles ; transfers ; tubing, metal, except iron ; type.

Umbrella parts.

Vegetables, fresh ; vegetable wax ; veneers, wood.

Washers, raw hide ; webbing (boot) ; whiting ; wire of all kinds, except gold, silver, and plated ; wire strainers ; wooden hoops for casks ; wooden rims for sieves ; wool, washed and greasy ; works of art for public institutions.

Yarn, angora, wool, and cotton.

Zinc—sheet, ingot, and perforated.

On all imported goods not included in the foregoing Schedules an *ad valorem* duty of ... Ten per centum

OFFICIAL.

Government Resident and Judge, C. J. Dashwood, S.M. £1,000, and allowances £100.

Secretary and Accountant, also Secretary to Palmerston Hospital, &c., Nicholas Holtze. £280, and allowances £60 15s.

Inspector of Police and Special Magistrate, Paul Foelsche. £500, and allowances £64 15s.

Curator of Botanic Garden, N. Holtze. £50.

Chief Warden of Goldfields, E. C. Playford. £280, and allowances £60 15s.

Teacher of the Palmerston Public School, Mrs. Catherine Pett. £200.

Teacher Pine Creek Public School, Miss M. Bell. £100.

Telegraph Station and Postmaster, and Inspecting Officer, J. A. G. Little. £425, and allowances

Medical Officer, also District Registrar of Births, Deaths and Marriages for Palmerston, Health Officer at Port Darwin and Protector of Aborigines, F. Goldsmith, M.B., Ch.B. £500, and allowances £64 15s.; also allowed private practice.

Sub-Collector of Customs, Harbour Master, and Superintendent Mercantile Marine (Registrar of Shipping and Assistant Health Officer Port Darwin), W. G. Stretton. £365, and allowances £62 15s.

Landing Waiter, H. Pinder. £270, and allowances £60 15s.

Custom Officer (also Police Officer, Borroloola, McArthur River), C. Power. £20.

Head Keeper, Point Charles Lighthouse, H. W. Christie. £200, and allowances, £54 15s.

Keeper, Palmerston Gaol, G. W. H. Norcock. £270, and allowances £60 15s.

Acting Resident Engineer of Railways, J. C. Craig. £650.

Surveyor (also Chief Warden), E. C. Playford.

Chief Clerk and Draughtsman, Randle T. Green. £270.

TOWNS IN THE NORTHERN TERRITORY.

ADELAIDE RIVER (12° 15′ S. lat., 131° 17′ E. long.), a railway station, 77 miles from Palmerston, with a few scattered houses, and a police station. The township is backed by stony ranges, but to the south there is an immense plain, inundated in the rainy season. To the north and west, traces of gold have been found. Land is poor.

ARLTUNGA (22° 56′ S. lat., 134° 28′ E. long.), a goldfield with post-office, on Giles Creek, 60 miles E. of Alice Springs and 1,201¾ postal miles N. of Adelaide. It is reached by train to Oodnadatta, every fortnight and from Oodnadatta to Arltunga, per mail conveyance, every fortnight, or on camels frequently travelling between the two places Coach takes about 11 days, camels about three weeks. Government Battery and Cyanide works are working. Since November, 1898, this battery has treated 1,039 tons 13 cwt. 3 ozs. of ore for 1,074 ozs. 1 dwt. 7 grs., valued at £4,041 19s. 6d. Mining and pastoral district. Thirty miles north large deposits of mica have been found, also Australian rubies. Water from wells. Formation : Metamorphic and igneous rocks (Archæan). Population about 70.

BOOMLEERA (TWELVE MILE), 97 miles from Southport, a reef diggings. There is a collection of Chinese huts, but nothing is doing.

BORROLOOLA, a postal township, on the Macarthur River, 16° 5′ S. lat., 136° 10′ E. long., distant about 900 miles from Port Darwin by water, and 650 by land. It is the forwarding depot for all the interior country. A steamer carrying mails plies quarterly between township and Port Darwin and Adelaide. Monthly mail communication with Brisbane and Sydney, *viâ* Camooweal and Cloncurry, Queensland. Climate fair, but better inland. May, June, July, August quite cool. Rainy season from November to April. Average rainfall for ten years, 35 inches. It has one hotel, court-house, gaol, and store, a post-office, and custom house. The country around is described as splendid, and has the advantage of being well watered and stocked with cattle and horses as far as the Queensland border, about 500 miles, and it is good sheep country with the exception of first 100 miles from township, but to carry sheep, country must be prospected for water. Inland mail every fortnight *viâ* Anthony Lagoon, 140 miles from Powell's Creek on overland telegraph.

BRIDGE CREEK, an alluvial gold digging, 61 miles from Southport, having a few houses. Much gold has been taken from this locality, but it is now nearly abandoned by Europeans. The mines have been extensively taken up by the Chinese, and there is a large shifting population. The sinking is very shallow, extending about 7 miles N.

BROCK'S CREEK (13° 28′ S. lat., 131° 26′ 30″ E long.) co. Knutsford, has a post, money-order, parcels post offices, telegraph and railway station, 104 miles S.S.E. from Port Darwin. Douglas hot springs about 20 miles S.W. ; a station, on the Pine Creek railway, is growing in importance as a gold mining locality, the chief companies being the Northern Territories Goldfields of Australia and Brock's Goldfields of Australia (late the Zapopan Gold Mining Company), owned by English syndicates ; there are also Howley, John Bull, Faded Lily, Great Northern, and Great Western. One hotel, resident doctor, hospital. Water from wells and tanks. A mining and pastoral district, with vegetable gardens by Chinese. Scattered population of about 70 Europeans, and 1,000 Chinese, Japanese, Cingalese, and Javanese.

BURRUNDIE (13° 30′ S. lat., 131° 30′ E. long.), a township, situated at a bend of the McKinley River, 91 miles from Palmerston (124 miles by rail). It is the Government headquarters at the Reefs, having police station, warden's office, post, telegraph, and money-order office, and railway station, with train service twice a week to Port Darwin. Mining district. Population about 12.

EVELEEN MINE is situate about 30 miles SE. from the Union. It has been formed around a celebrated silver lode in a small patch of limestone country, about four miles west of

the upper reaches of the River Mary. The ore consists of silver, lead, and copper, cropping out in five or six very large lodes.

GLENCOE (12° 40′ S. lat., 130° 31′ E. long.) is the name of a cattle and horse station 4 miles from Fountain Head Railway Station. The home station is built on the site of an important billabong, probably part of a creek. Formation: Granite, diorite, and quartzite.

GROVE HILL, is situate on the Pine Creek railway, 2 miles from Port Darwin Camp, and 78 miles from Southport. From this centre extends a fine tract of agricultural country of volcanic character along Margaret Creek. On this creek are numerous farms, worked by Chinese, who supply all the maize and much of the vegetables, fruit, &c., grown in the country. Margaret Creek and Sandy Creek, close by, were formerly distinguished for rich alluvial diggings. These mines are entirely in the hands of the N.T.G.M. Co., who are vigorously pushing on the development of same. Yam Creek is considered to be a very valuable one—a 20-head mill is being erected.

KNUT FORD (Howley) (13° 13′ S. lat., 151° 22′ E. long.), a township, 66 miles from Southport, the centre of a small mining district for tin and gold; is a station on the Pine Creek railway. With the exception of what is being done by the Chinese there is very little work going on, in consequence of the high price of labour and cartage.

PALMERSTON (12° 27′ 45″ S. lat., 130° 50′ 45″ E. long.), Port Darwin, the metropolis of the South Australian settlement in the Northern Territory, is situated on the eastern side of Port Darwin, on the peninsula dividing the main portion of the harbour from Fannie Bay, and terminating at Fort Point. It is in the county and police district of the same name, hundred of Bagot, and electoral district of the Northern Territory; lying about 2,000 miles NNW. of Adelaide, from which there is a mail service by the vessels of the Eastern Australian Steam Navigation Company, and the China Navigation Company, the steamer leaving Port Adelaide calling at Melbourne Sydney, Cooktown and Thursday Island, arriving at Port Darwin in about three weeks from starting, and proceeding on from Port Darwin to Hong Kong, returning by the same route. Hotels: Palmerston Club, Terminus, and Hotel Victoria. The site of the city is a most eligible and healthy one for a tropical climate, being about sixty feet above the level of the sea, and almost surrounded by it. From the nature of the ground the heavy rains of the wet season run off into the harbour immediately after falling, and so lessen the danger of malaria. Cool breezes blow almost constantly throughout the year, and temper an otherwise unbearable climate. The town, which is admirably laid out, possesses some fine streets, which are kept in good order, and are being gradually improved by the Local District Council. Plain substantial buildings and stores, composed of wood and iron, abound, and are occupied by tradesmen and others; the South Australian Government has also erected a few good stone buildings for public purposes, comprising court-house, post-office, land and survey office, and the Government House or Residency, of stone, which was completed in 1879. The place contains branches of the English and Scottish, and Commercial Bank of Australia, superior buildings; a Town Hall (opened in March, 1883), a Wesleyan chapel and parsonage, Roman Catholic chapel, an Institute with Library, a public hospital, masonic lodge, literary, dramatic, and other social and sporting clubs, postal, telegraph, and money-order office, local police-court, a gaol, school, racing club, literary, musical and dramatic clubs and several brick and stone stores and houses. Large mining interests have been acquired by English syndicates. Circuit session of the Supreme Court held twice a year. The entire area of the township is 800 acres, including roads and reserves. It embraces 946 allotments, each being half an acre. About one mile distant, an experimental nursery of about 30 acres has been formed by the Government, for the purpose of raising plants of commercial value and distributing them over the inhabited portion of the country. Communication with country districts is by train running twice a week as far as Pine Creek, 146 miles from Palmerston. Palmerston has many advantages as the site of a large town. It is accessible to ocean going vessels of the largest draught; a natural site exists for a dry dock, and the projections of the coast are admirably suited for the erection of lighthouses and forts. A lighthouse, with revolving light visible 30 miles, is erected on Charles Point on western side of harbour entrance; and at Emery Point, on the eastern side of the harbour, a light has also been installed. Population of district, Europeans about 600, Chinese and other Asiatics about 2,000. There is a large number of Chinamen, who live in a separate quarter of the town exclusively, in which have been erected some substantial buildings. A terrific cyclone struck the town on January 6, 1897, and did a considerable amount of damage, but few traces are now visible. Weekly newspaper, the *Northern Territory Times and Gazette*.

PLAYFORD (Pine Creek) (13° 48′ S. lat., 131° 51′ E. long.), the terminus of the railway, about 8 miles S. of the Union, and 110 miles from Southport, a small township with a police station, a post, money-order and telegraph office. A coach mail leaves here every week for the Katherine (65 miles) in the dry season, pack horses in the wet; fare £3. It is 146 miles from Port Darwin, fares single), £2 8s. 8d., £1 16s. 6d.; return(£3 13s. and £2 14s. 9d. Train every Tuesday and Friday, return every Wednesday and Saturday. Two miles south is the rich mining district known as the Pine Creek diggings. Much valuable gold has been got from this locality. Wandi is 30 miles E., Driffield 32 miles NE., and Woolugie 22 miles NW. The Cosmopolitan Gold Mining Company's battery and Yet Loong Chan's battery are at work. Has hotel and State school. There are about 30 Europeans and about 400 Chinese.

PORT DARWIN CAMP, 79 miles from Southport, is the centre of a mining area, and is one of the properties lately acquired by the N.T. Goldfields of Australia, Limited.

PORT ESSINGTON, to the north-east of Port Darwin; is a remarkably fine harbour. It was formerly a military and penal settlement, being founded in 1831 by Sir Gordon Bremer (H.M.S. *Alligator* and *Britomart*), but was abandoned on account of its supposed unhealthiness in 1850. Remains of the old settlement are still in existence. The name of Port Victoria was given to the intended capital. Dr. Salvado was appointed the Roman Catholic Bishop (though resident in West Australia he is under the jurisdiction of Archbishop Dunne, of Brisbane). Leichhardt made the coast here on December 17, 1845, on his Overland expedition.

Melville Island (11° 30′ S. lat., 131° 0′ E. long.), lies about 34 miles N. of Port Darwin. It is separated from the mainland by Clarence Straits, 14 miles wide, and is divided from Bathurst Island by Apsley Strait, about a mile broad. The area is believed to be about the same as Kangaroo Island. In 1824 the military post of Fort Dundas was established on King Cove, by Capt. Bremer of H.M.S. *Tamar*, but was abandoned sixteen years afterwards, principally, it is said, on account of the constant trouble which was given by the blacks, who have the reputation of being very fierce. Since then no European has resided on the island. The trees are reported to be different from those that grow in the Territory, being more umbrageous. H. M. S. *Flying Fish* was last here engaged in surveying Van Diemen's Gulf, and Dundas and Clarence Straits (June to December, 1886). She had previously been employed in surveying the whole of the ocean line between Port Darwin and Hong Kong. The Rev. E. Tenison Woods accompanied the vessel as naturalist, and much information was obtained about the geology and botany of the whole of the regions visited. Unfortunately all attempts to put beacons or land-marks on Melville Island were ineffectual in consequence of the hostility of the natives, who destroyed every beacon as soon as erected. Once only was communication established with the aborigines by Lieutenant Howard. This being the first intercourse had with them since 1824. The character of these natives stands in strong contrast with the Port Essington natives, who are remarkably docile and tractable.

RUM JUNGLE, 57¾ miles from Palmerston, on Ungalacubaum Creek, is the centre of a large area of very good agricultural land. There is a railway station 1½ miles away The Finniss river is about 3 miles away; and in it crocodiles, alligators, and turtles abound. In the tropical forest surrounding are wild pigs, emus, and kangaroos, and a few buffalo, also a great variety of winged game. Coffee and tobacco plantations closed.

SOUTHPORT (14° 45′ S. lat., 131° 0′ E. long.), a station on the Pine Creek railway, 1,949 miles N. of Adelaide, but now deserted

STUART (Alice Springs) (24° S. lat., 133° 37′ E. long.), post and telegraph station, 1,036 miles S. of Port Darwin, on Todd Creek. Principal repeating station on Adelaide and Port Darwin Telegraph line. Access by means of rail to Oodnadatta, thence by coach. Has one hotel and local court. This town must be passed through, en route to Arltunga goldfields, 65 to 70 miles distant, and mica fields, 100 miles east. Mining and pastoral district. Formation: Granite and quartzite ranges running E. and W. 400 miles, with large plains N. and S. Population, about 80.

UNION TOWN, a station on the Pine Creek railway, called after a Mining Company (the Union). It is a postal centre in a very large mining district in the heart of the mineral ranges on the McKinley river. A large number of gold-bearing reefs have been taken up all around the neighbourhood, and on tribute by English companies and by Chinese (three batteries are worked by them), who form the bulk of the population, in fact there are only a few Europeans in the place. There are hotel, five Chinese stores, one European store, blacksmith's and wheelwright's shop, two butchers and two tailors. Population about 400, mostly Chinese.

WANDIE is the name of a new gold-field, and is situated on the Fergusson river, on the head-waters of the River Fergusson, about 28 miles east of Pine Creek. There are about 70 diggers on the field, which is only slowly being developed.

THE STATE (LATE THE COLONY) OF WESTERN AUSTRALIA.

Western Australia includes all that portion of the Australian continent situated to the westward of 129° East longitude, between the parallels of 13° 30′ and 35° 8′ South. The greatest length of this territory, from Cape Londonderry in the North, to Peak Head (S. of King George's Sound) in the South, is 1,490 miles, and its breadth from Steep Point at the base of Dirk Hartog's Island on the West to the 129th meridian on the East about 850 miles. Inclusive of the contiguous islands, it contains an estimated area of about 975,876 square miles, being more than eight times the size of the United Kingdom. Thus it is the largest of the Australian colonies; and it is also the nearest of any to England, the distance being 10,950 miles. Western Australia was originally known as the "Swan River Settlement": that settlement, however, was only the south-west corner of the colony, or that portion lying to the S. of the 30th parallel, and W. of the 120th meridian. The occupied portion of the colony is comprised in an area of about 1,200 miles in length, from north to south, by about 150 miles in average breadth, lying between Albany (King George's Sound) in the South, and Wyndham, East Kimberley, in the North, between the 15th and 35th parallels of south latitude. Inland settlement is being rapidly extended to the eastward of York, the locality of the Yilgarn gold-fields, and the quartz reefing at Kimberley has induced increased and more permanent settlement of that portion of the colony. There are important pastoral settlements along and at the head of the Ashburton, Gascoyne, and Murchison rivers. An important settlement has been formed in the neighbourhood of Sharks' Bay, a large inlet, situated in longitude 114° E., latitude 26° S. In the neighbourhood of the small islands which abound in this locality extensive banks, covered with the true pearl oyster (*avicula margaritifera*) have been discovered, and have afforded employment to a small fleet of boats. On the extreme north-west coast, east, west, and south of Roebourne, the country is also being settled. Alluvial gold has also been found at Pilbarra, 80 miles east of Roebourne, and at the head of the Oakover River, 300 miles north-east of Roebourne; in fact gold is now discovered all over this district. In 1887 gold was found by Mr. Anstey on the Yilgarn Hills, about 200 miles east of Perth, which led to that region being largely prospected, and to the discovery of a belt of country extending for about 80 miles in a southerly direction, rich in gold-bearing quartz reefs. Many companies are at work in different divisions of this field, the chief of which are Golden Valley in the North, Southern Cross next, and Parker's Find to the South; while to the East of Southern Cross is the now famous Coolgardie. The great difficulty in this as in most other fields has been the scarcity of water, but the Government is making great efforts to overcome this. Exploration north of Esperance Bay (on the south coast) has resulted in the discovery of beautifully grassed country in the neighbourhood of Frazer's Range, about 150 miles from Esperance. The exploration of the country between the De Grey and Port Darwin, by Mr. A. Forrest, F.R.G.S., led to the discovery of magnificent country lying north of the 19th parallel of south latitude. He reported that the river Fitzroy flows through over 200 miles of richly grassed plains, and that this splendid stream is navigable, during a portion of the year, throughout the whole of this distance. This tract of country has been considered of sufficient importance to demand special legislation. It has accordingly been separated from the "North District," of which it was a part, and has been formed into two districts, East and West Kimberley. The land regulations of this district, called the "Kimberley Division" in the new land regulations, have been specially prepared, with the view to encourage settlement and check speculation, and in many respects differ materially from the regulations of the other districts. During 1886 this part of the colony became of importance, owing to the discovery of gold. In consequence of the favourable reports brought down by the first prospectors, a rush set in from Queensland, Victoria, and New Zealand; no great finds occurred, and many who joined the rush returned disappointed. During 1889 a great deal was done in the way of opening up the most promising of the many auriferous reefs found in this district, and a quantity of quartz-crushing machinery was imported to Kimberley. In the words of the Government Geologist, Kimberley was settling down into a reefing district, and some very rich discoveries were being made. Of the prospects of Western Australia as a gold-producing country more will be said later on, but it may here be mentioned that the discoveries of richly auriferous quartz at Kimberley, and to the eastward of Roebourne, and especially at Golden Valley and Southern Cross (about 150 miles east of York), and at Coolgardie, is proving that Western Australia is one of the richest provinces of the continent. In addition to its fisheries, the north-west coast of Western Australia—formerly known as the Victoria or Port Gregory District, discovered by Captain (afterwards Sir George) Grey, and lying between the Murchison and Irwin rivers—has been found to possess extensive tracts of land, containing minerals especially copper, lead, and tin. There are also large areas of land admirably adapted for pastoral purposes.

In the year 1527 the shores of what is now called Western Australia were touched upon by a Portuguese navigator of the name of Menezes, who gave the name of Abrolhos to the group of rocky islands lying westward of Champion Bay. These were subsequently sighted in 1598 by Houtman, who added his own name to them; in 1629 Francis Pelsart, in the frigate *Batavia*, suffered shipwreck on them. In 1616 Sharks' Bay was entered by the *Endraght*, of Amsterdam, and the island now known as Dorre (more correctly Doore) was named after her pilot, Peter Doore. The commander of the vessel *Dirk Hartog* named both the Island forming its western boundary and the Bay after himself, but the name of Sharks, given by Dampier, has superseded his own. Cape Leeuwin was first seen in 1622. In 1627 the southern coast to the eastward of Cape Leeuwin was sighted by the *Gulde Zeepaard*, and named after one of its passengers Nuyt's Land. In 1628 De Witt's Land was named by De Witt, the commander of the *Karien*. Dampier, in 1688-9, in the *Roebuck*, sailed along the NW. coast, entering and naming Sharks' Bay, also giving his own name to Dampier's Land and Archipelago, and naming many other parts of the coast and islands. In 1697 the entrance to the Swan River was discovered by Vlaming, in the *Geelvink*, and in 1826 was examined by Captain (afterwards Sir James) Stirling. In 1791 Captain Vancouver discovered King George's Sound. In 1801 Flinders, in the *Investigator*, sailed along the southern coast on his voyage from England, and took his vessel into King George's Island. From here eastward a number of bays—Fowler's, Smoky, Streaky, and others—were discovered and named. In the same year the western coast was visited by the French corvettes *Geographe* and *Naturaliste*, and many places still bear the names given by their officers. From 1820 to 1824 the Northern coasts were explored and surveyed by Captain King. In 1828 Captain Stirling, of H.M.S. *Success*, surveyed the coast from King George's Sound to Swan River, reporting favourably of the country. His report decided the Home Government to colonise it.

The Colony was first permanently settled from Sydney in 1826 by Major Lockyer, who landed with his party, consisting of a detachment of the 39th Regiment and a number of convicts, about 75 persons in all, at Albany. His stay was but a brief one, the settlement in 1831 being transferred to a part of the sandy shore, since called Rockingham, situated about 14 miles S. of Fremantle. In 1829 Captain Fremantle, commanding H.M.S. *Challenger*, hoisted the British flag near the mouth of the Swan River, on the spot where the town of Fremantle, named after him, now stands. Captain (afterwards Sir James) Stirling arrived from England in the *Parmelia* on June 1st, 1829, on which date the Swan River Settlement was established (the colony completing its jubilee in 1879. Captain Stirling became the first Governor. His party on landing comprised a staff of eight persons, ten artisans and mechanics, with their wives, and families, and servants; also 51 head of cattle, 200 sheep, 33 horses, and pigs and poultry. Of the officials, Peter Brown was colonial secretary; Lieut. J. S. Rowe, R.N., surveyor; C. Sutherland, assistant surveyor; H. Morgan, storekeeper; J. Drummond, agriculturist. In July the Rev. J. B. Wittenoom, the first colonial chaplain, arrived. On August 5, the first emigrant vessel, the *Calista*, arrived. During 1829-30 thirty-nine immigrant ships arrived, bringing 1,125 passengers, and cargo to the value of £144,277, this influx being mainly induced by the liberal offers made by the Home Government of large grants of land in proportion to such property introduced. Among these settlers were three of the sons of Mr. Thomas Henty, of West Tarring, in Sussex, who brought with them (in the barque *Caroline*) stock, a large outfit, and forty servants; but disappointed with the country left for Tasmania in 1832, ultimately settling at Portland, in the western district of Victoria. In 1829 (August 12) Perth was founded, and the first assignment of land was made on September 27 of the same year. In 1830 the first attack of the natives was made at the Murray river, resulting in the murder of Mr. Mackenzie. In 1831 the first overland journey from Perth to King George's Sound was effected by Captain Bannister and party. In December, 1832, the first printing press was landed from England.

The third Annual Report of the Agricultural Society in 1835 first noted progress, the population being about 2,000, the numbers of stock and area of land under cultivation being computed at: Horses 84, mares 78, cows 307, working cattle 96, bulls and steers 97, sheep 3,545, goats 492, pigs 374. The acreage of wheat was given as 564, barley 100, oats 116. Kaffir corn and maize 29, potatoes 15, other crops 94, fallow 118, vines ½ an acre. The clip of wool for the above year was 5,884 lbs., the revenue £5,884, which, if compared with the returns of 1899, will show the progress the Colony has made during the 65 years.

Under the governorship of Mr. John Hutt (January 2, 1839, to December, 1845) the colony steadily increased in the elements of prosperity. Colonel Clark succeeded Mr. Hutt; he held office for twelve months only (February, 1846, to February, 1847), and was followed by Lieutenant-Colonel Irwin, who administered the government to July, 1848. In this year the population was returned at 4,622; the land under cultivation at 7,047 acres, of which 3,316 were wheat, 1,411 barley, oats, and other grain, and 2,320 green crops. The number of horned cattle was 10,919; of sheep, 141,123; of horses, 2,095; of pigs, 2,287; and of goats, 1,431. The imports were estimated at £45,411, the exports at £29,598; and the inward shipping at 15,494 tons. In 1840 the *Perth Inquirer* was first published; in May, 1841, the Bank of Australasia first began operations; in the following month of June the Western Australian Bank commenced business. In November, 1848, the Bishop of Adelaide made his first pastoral visit.

The history of Western Australia up to the year 1850, however, contains little of interest, for it is but the account of a

settlement struggling for bare existence, as up to that period it presented the aspect of a colony without sufficient capital to render available its natural resources, and with a scanty population. Shortly after this period the colonists petitioned the Home Government to make Swan River a convict settlement; this request was promptly acceded to, and shiploads of these enforced exiles were landed in the colony, the first party arriving in June 1850, in the *Scindian*, under Captain (afterwards Sir) Edmund Henderson as comptroller-general.

In 1856 the colony was constituted a Bishop's see, the first Bishop being Dr. Mathew Blagden Hale, late Bishop of Brisbane, whose episcopate lasted till 1875. In February, 1862, Mr. J. S. Hampton, formerly Comptroller-General of Convicts at Tasmania, became Governor, administering the government to November, 1868; being followed on September 30, 1869, by Mr. (afterwards Sir) Frederick Aloysius Weld, who held office to December, 1874. During the interval between Mr. Hampton's retirement and Mr. Weld's arrival, Lieutenant-Colonel Bruce was the Acting Governor. During Mr. Weld's governorship the colony made a decided advance; telegraphic communication was established between the leading centres of population, which is now extended to South Australia, placing Western Australia in instant communication with the other colonies and the mother country. In 1870 the colony was divided into electoral districts, and the election of members to the Legislative Council took place.

Mr. Weld was succeeded by Sir W. C. F. Robinson, who was gazetted Governor on November 14, 1874, and assumed office on January 11 of the following year, holding the appointment to September 6, 1877, being succeeded on November 12, 1877, by Sir Harry St. George Ord, K.C.M.G. Governor Ord resigned, and left the colony in January, 1880. During his term of service the railway system was initiated by the opening of the Northern Railway from Geraldton to Northampton, a distance of 54 miles. Governor Ord was succeeded by Sir W. C. F. Robinson, who returned to the colony from the Straits Settlements in April, 1880. On the transfer of Governor Robinson to South Australia, in 1882, he was succeeded by Sir F. Napier Broome, K.C.M.G., who was sworn in on June 5, 1883, and knighted in June, 1884. His tenure of office was in a few respects a prosperous one. It witnessed a considerable increase in the revenues of the colony, an extension of the railway mileage and the inauguration of some useful measures. Sir F. N. Broome's administration closed in 1890, when he was succeeded by Sir W. C. F. Robinson, who administered the Government till 1895, when he resigned and the position was accepted by Col. Sir G. Smith on October 5, 1895. Sir Gerard Smith returned to England on March 22, 1900, and the Government of the colony was then administered by Sir Alexander Onslow, who was sworn in on March 23.

The proclamation of Responsible Government took place on October 21st, 1890.

The depression existing during the latter part of 1897 and 1898 passed away in 1899-1900, and the trade of the colony is now in a highly satisfactory condition; so much so that never before in its history has the total of imports and exports assumed such a large dimension. To a great extent this is accounted for by the export of gold won from the soil. The falling off in imports is due primarily to the effects of over-trading in the "boom" years (1896-97), which left, at the commencement of the year, very large stocks on hand, thus causing extreme caution in indenting; in fact, initiating a system of hand-to-mouth trading. Secondly, to greater activity in local factories, a notable sign that any commodities the colony is capable of producing and manufacturing on the spot are slowly but surely taking the place of the imported articles.

Natural Features.—The south-western portion of the Colony was traversed in 1835 by Surveyor-General Roe, who reports of it:—"Fully one-fourth, after leaving the immediate vicinity of the Sound, may be pronounced good, very good, and excellent; one third tolerable and available for some useful purposes; and the remainder poor, bad, and useless. The country is well watered. The great extent of good grassy lands passed over well adapts it to the depasturage of either horses, cattle, or sheep, while good soil, of a good loamy character, capable of bearing wheat or any other crop, is to be met with in sufficient quantity for all agricultural purposes in a country essentially pastoral."

A former Governor (Sir F. A. Weld) thus describes the principal features of the country:—

"The whole of the settled district, nearly the size of France, is usually level, often undulating, but never mountainous. The western seaboard is generally comparatively flat country, of a sandy character, composed chiefly of the detritus of old coral reefs, which has been again deposited by the action of water: more inland, a formation, which is here called ironstone, is met with: it appears to be chiefly a conglomerate of disintegrated granite, stained with iron: granite, slates, quartz, pipeclay, and, in places, trap, are all found in this country. The Darling Range, for instance, presents these characteristics; it runs from north to south in the central district inland of Perth, and appears once to have formed the coast line. The whole country, from north to south, excepting the spots cleared for cultivation, may be described as one vast forest, in the sense of being heavily timbered; sometimes, but comparatively seldom, the traveller comes upon an open sand plain, covered with shrubs and flowering plants in infinite variety and exquisite beauty, and often, especially in the northern and eastern districts, low scrubby trees and bushes fill the place of timber; but, taking the word 'forest' in its widest sense—as wild, woody, and bushy country—Western Australia, as far as I have seen, is covered with one vast forest, stretching far away into regions yet unexplored. A very large proportion of this is heavy timber country. The jarrah, sometimes erroneously called mahogany, a tree of the Eucalyptus tribe, covers immense tracts of land; its timber is extraordinarily durable, and as it resists the 'Teredo navalis,' it is admirably adapted for piles for bridges and harbour works and for railway sleepers. This timber, when properly selected and seasoned, has stood the severest tests, and no term has yet been discovered to its durability. It is believed that, with increased facilities for transport, the trade in jarrah may be indefinitely increased. The sandalwood already affords an export. The tuart and kari, both Eucalypti of enormous size, are valuable timber trees." Governor Weld further says, when speaking of a tour made by him in the southern districts. "I have ridden for miles amongst kari trees, some of which, lying on the ground, I have ascertained, by actual measurement, to reach 150 feet to the lowest branch; many, I estimate, when standing, to attain nearly double that height from the ground to the topmost branch, thus emulating the great Californian 'Wellingtonia,' the kauri (*Dammara Australis*) of New Zealand, or the great Eucalyptus purpurea of Tasmania, a kindred tree, reported on by Sir W. Denison; the difference being that there they are instances of rare and exceptional growth, whilst in parts of this country there are forests of these giants of the vegetable world." During the latter part of 1883 Governor Broome travelled through some 2,000 miles of the colony. He remarks that he should call Western Australia a country of good roads. Except the Darling Range and some other inequalities rather than hills, he considers the whole country as a plain; swamps and marshes being scarcely ever met with. He found, too, nearly everywhere very good bridges. He describes the forests as of great variety, ranging from scrub and thicket, or the small "jam" wood of the Champion Bay districts, to the gigantic "karri" of the South, most beautiful of Eucalypti, the aristocracy of the forest, whose clear, straight, cream-coloured trunks, smooth to the hand, spring a hundred feet to the first branch. He considers that the agricultural land available for settlement is limited, yet capable of sustaining a much larger population than the colony at present possesses, though farming did not appear to him to be a very remunerative occupation. On the whole he found that the colony during the past ten years had made substantial advance, and that its progress had not been more rapid was owing principally to the smallness of the population, inferior soil, poisonous plants, the denseness of the forests, and the deficiency or absence of water. Of the country and people he says, "The more one sees and knows of Western Australia and its people the more they win upon the new comer." In later speeches Governor Broome set a still higher value on the colony, its resources and capabilities, as well as the energy of its "handful of inhabitants."

The country between York and King George's Sound having been roughly surveyed in 1882 to ascertain its fitness for railway construction, was thus reported of:—"The section of the country under review is a plateau having a mean surface level of about one thousand feet above the sea, though in places the river beds and valleys below and above this general level, are found cropping up ranges and peaks, which, however, with the exception of the Stirling Range, are not of any considerable height. From this plateau flow all the principal storm water channels of the southern part of the colony, including the Swan River, the upper portion of which is called the Avon, and its branches. The Murray River, with the Hotham, the Williams and affluents, break through the Darling Range by a series of gorges and cañons, and empty themselves into the sea on the western coast. The Blackwood River, with the Arthur, the Beaufort, and the Balgarrup, find the sea east of Cape Leeuwin, at Flinders Bay. The Frankland, with the Gordon as its main tributary, finds a mouth at Nornalup Inlet, near King George's Sound. The physical geography on this side of the Australian Continent, in respect to the condition of its rivers or storm water channels, shows a reverse to those of the Eastern side and which are found existing in most other parts of the globe. The so-called rivers merely serve to bear away seawards the surplus storm waters from the by no means unfertile interior which they drain, which is a belt extending in different parts fifty miles in width up to a distance of two hundred miles from the sea coast. The best land is high up away from the coast, whilst in other countries the rivers have made the lowlands fertile by what they have borne from the highlands." Mr. Forrest says, "There cannot be a doubt but that the whole of the country between Beverley and King George's Sound is capable of being more beneficially utilised than it is at present, and that as population increases and cultivation is more common a larger number of people will reside upon the land." The extension of the Eastern Railway to Beverley, the terminus of the Government line, and the northern starting point of the late Mr. Anthony Hordern's line, was opened for general traffic on the 29th of June, 1886, and Mr. Hordern's, or the Great Southern Line was completed in the early part of 1889, and opened on June 1st of the same year. Professor Laurie, of Kelain, inspected the land along the Beverley-Albany railway, and reported on it most favourably, especially for fruit and viticulture.

Of the interior of the colony there is yet much to be learned, though the labours of explorers are fast making known its features. In 1874, Colonel Warburton, after an arduous journey, attended with much privation and danger, successfully traversed the colony from Alice Springs, a station on the overland telegraph line, to Roebourne, on the sea-coast. The country is described as being an alternation of ridges and hollows, sandy, without grass, and clothed with bushes and scrubby timber, with no trace of a watercourse; though, as the party were sustained by

water obtained from native wells, it is believed probable that this drawback and obstacle to its settlement may not be quite so serious as might at first be supposed. Later on Mr. John Forrest at the head of a small exploring party, fitted out by the Government, succeeded in crossing the continent into South Australia. No good land was discovered within a practicable distance. This was the second time Mr. John Forrest had penetrated into the southern colonies, having successfully traversed the southern seaboard from Albany to Adelaide in 1870. Beyond the country lying on the lines of route of the various explorations comparatively little s known of the territory of Western Australia outside the seaboard and the settled districts.

Besides J. Forrest's two journeys across to South Australia, he, in 1869, starting from Champion Bay, forced his way eastward to a distance of 620 miles, diverging frequently from the straight track, but finding only little available country. As Deputy Surveyor-General, Mr. Forrest was occupied from April to October, 1878, in making a trigonometrical survey of the whole of the settled portions of the North-Western settlements, from the De Grey to the Ashburton Rivers, an area of from 20,000 to 30,000 miles, and in 1882 he was engaged in making a trigonometrical survey of the Gascoyne district. In 1871, Mr. A. Forrest, brother to Mr. J. Forrest, also started from a point S. of Fremantle, and traversed the desert country on the E. side of the ranges to a point about 600 miles inland, and lying in about 30° 30′ S. lat., 124° E. long., his general course having been NE. Thence he struck south to his brother's coast track, and so returned to Perth. Beyond a chain of lakes, or rather salt lagoons, and a number of isolated hills, he found, however, but little to repay his toil. The geological formation of the part of the country traversed by the two brothers shows little, except a vast stretch of granite country, with tertiary desert sand beyond. Mr. A. Forrest, accompanied by Mr. Hill, as geologist, and six others, of whom two were natives, with 26 horses, and provisions for five months, set out in February, 1879, to explore the N. and NE. parts of the territory, from the upper waters of the De Grey across the continent to the trans-continental line, giving the Rivers Fitzroy, Glenelg, Prince Regent, and other large watercourses special attention. Important results accrued from this exploration, in the finding of good pastoral country nowise inferior to the fertile downs of Northern Queensland; in all an area of upwards of 20 millions of acres of good well-watered country, suitable for grazing purposes, a wide extent of auriferous country, besides a large area adapted for the culture of sugar, coffee, and rice, was discovered. The expedition reached Port Darwin in September. Regulations have since been framed for the settlement of this territory, now known as the Kimberley District. Mr. Ernest Favenc, a well-known Australian explorer, accompanied by Mr. Cuthbertson, who had explored the interior of New Guinea, examined a large extent of hitherto unknown country beyond the head of the Gascoyne river, with a view to its pastoral settlement. They reported having found extensive grassy and salt bush plains, well adapted for sheep and cattle, and with most encouraging mineral indications, especially in the direction of gold.

Staff-Commander J. E. Coghlan, R.N., in his Report upon the work carried out by the Joint Admiralty and Colonial Marine Survey Department, has given very valuable information regarding the north-west coast of Australia and the capabilities of Cambridge Gulf as a port. The climate in August was pleasant, but after the middle of September it became trying and the heat oppressive, the thermometer reaching 96° F. The dry season is from May to September, and the wet season from October to April. In October and November heavy thunderstorms (bull's-eye squalls) occur, in violence resembling tornadoes. The annual rainfall in Cambridge Gulf may be estimated at 63 inches. If sugar-cane be one day grown on the banks of the Ord River its immunity from hurricanes should tell greatly in favour of the district. The climate is healthy, and gold has been found near the shores; a port and a magistracy has been established at Wyndham, Cambridge Gulf. Cambridge Gulf is the most picturesque inlet of the sea on the coast of the colony, and, adjacent to the town of Wyndham, forms one of the finest harbours on the continent. H.M.S. *Myrmidon* made a careful survey of the Gulf, and Staff-Commander Russell, R.N., chief harbour master of the colony, visited the Gulf and laid down buoys for the guidance of vessels in 1889. The town site of Wyndham is picturesquely situated on the Bastion Hills, and has been carefully laid out by officers of the Survey Department. The following distances may be acceptable:—Lacrosse Island, at the mouth of Cambridge Gulf, is distant by steamer track from Port Darwin, about 210 sea miles; King Sound (Derby), 480 Cossack, 930; Fremantle, 1,850; Batavia (by Sunda Strait), 450; Singapore 1,950; Hong Kong, 3,300; Colombo, 3,200; Mauritius (Port Louis), 4,000.

Aborigines.—The Aborigines of this Colony were originally under the protection of a Board constituted by Act in 1886, which existed as an irresponsible independent body, a position forced on the colony by the Imperial Government before granting responsible government. The Aborigines are now entrusted to a Department constituted by an Act in 1897 (61 Vic. No. 5), which provides for a sum of £5,000 (at least) being devoted to their use. The Department is placed under the Rt. Hon. the Premier. In 1899-1900, £9,802 16s. 8d. was expended, including cost of 1,987 blankets distributed. The number of natives supported was about 620, and 125 others were relieved for short periods. The sum of £1,335 was contributed by various institutions for the support and education of native and half-caste children. The department consists of a Chief Protector, one clerk, and one travelling inspector, assisted by the police department throughout the colony.

Area. — According to the latest computation, Western Australia contains about 975,876 square miles or 624,560,640 acres.

Boundaries.—The boundaries of the colony are, on the north and west, the Indian Ocean; on the south, the South Pacific Ocean; and on the east, an imaginary line dividing it from South Australia. The coast-line of Western Australia extends for a distance of about 3,500 miles, and is indented by many bays, creeks, and rivers, and fringed by numerous small islands. A line of coral reefs girds a considerable portion of the coast, and protects it from the Indian Ocean. Between these reefs and the land there is in many places safe anchorage.

Geographical Features.—Mr. H. Page Woodward, F.G.S., F.R.G.S., F.I.Inst., gives the following geographical configuration:—Mountains. — The mountains are not remarkable for their height, though many of them, rising abruptly from plains little above sea-level, present a rather striking appearance. The principal ranges in the south-west are the Darling, Roe, and Blackwood Ranges. The Darling Range is the most important, extending almost due north and south for about 300 miles, at a distance of 18 to 20 miles from the sea, towards which it presents a steep face, and although it has no peaks over 1,500 feet in height, yet it has a more imposing appearance than the Roe Range, which runs parallel to it, but further east, of which the highest peak, Mount William, reaches 3,000 feet above sea-level. The Blackwood, which is situated near Bridgetown, has the greatest average elevation, although it does not anywhere attain a greater height than 2,000 feet. Near Albany on the south coast is the Stirling Range, which is the loftiest range in the settled districts, and being perfectly isolated and rising from a dead level plain it is visible for an immense distance. Its chief peaks are Mount Kyenerup 3,500, Toolbrunup 3,341, and Ellen's Peak 3,420. Some of the highest hills and ranges in the colony are said to exist in the northern portion of the interior, at the sources and upper part of the basins of the large rivers. They have not yet been accurately measured. No active volcanoes exist in the colony, and the general appearance of the country throughout indicates a condition of remarkable quiescence even as far back as the carboniferous epoch.

Rivers.—The principal rivers are the Ord, Prince Regent, Panton, Fitzroy (in the Kimberley division), De Grey, Harding (on the north-west coast), Fortescue, Ashburton, Lyons, Gascoyne, Murchison, Greenough, Swan, Irwin, Murray, Collie, Preston (on the west coast), Blackwood, Warren, Gordon, and Pallinup (on the south coast). For the most part they are simply storm-water channels, which carry off the floods during the rainy season, and very few are navigable for any distance even for small boats.

Lakes.—The lake district may be considered to be confined to the westward of the Darling Range; within this area there are numerous salt and fresh water lakes and lagoons; but many of them are nothing more than swamps during the dry season. The lakes in the interior of the colony, except after heavy rain, when they are covered with a few inches of water, are mostly dry, being in reality only immense salt marshes or clay pans.

Bays, Gulfs, and Inlets. — The coast line extends for about 3,500 miles, and is very deficient in good harbours; the only ones deserving mention are King George's Sound-Shark's Bay, King Sound, Champion Bay, Vansittart Bay, Esperance Bay, Bremer Bay, and Cambridge Gulf; the remainder being of little value, owing to the direction of prevalent winds, currents, shallowness, or bars.

Capes.—The capes are Londonderry, the most northerly point of the colony; Lévêque, at the south entrance to King Sound; North-West Cape, at the mouth of Exmouth Gulf; Steep Point, at the entrance to Sharks' Bay; Naturaliste, by Geographe Bay; Leeuwin, the SW. point of the colony; Howe, to the W. of Torbay; Peak Head, south of King George's Sound; and Cape Arid, at the W. of the Great Australian Bight, and Point D'Entrecasteaux on the South-west coast.

Islands.—There are a great many small islands around the coast, but the only two of importance are Dirk Hartog's Island in Sharks' Bay, and Rottnest, off Fremantle. Guano is found on the islands comprised in Houtman's Abrolhos, off Champion Bay, and various islands to the north, including the Lacepedes.

Tides.—Considerable variation is to be found in the rise and fall of the tides. On the South and South-West Coast and as far north as Sharks Bay the tide is unimportant, but to the North and East of North West Cape it is very marked, being 18 ft. at Cossack, 36 ft. 6 in. at Roebuck Bay, 46 ft. at King Sound, and 20ft. at Cambridge Gulf.

Municipalities.—There are thirty-seven municipalities, which have power to levy general rates not exceeding 1s. 6d. in the £ on the ratable value of all property within their boundaries; also to borrow money upon debentures for construction of permanent works, and to levy special annual rates not exceeding 1s. 6d. in the £ to pay the interest of money borrowed. The Government give a subsidy in proportion to the amount raised by the general rate. The Municipalities have also the control of licenses, markets, and other matters pertaining to municipalities. The City of Perth, and Fremantle, the principal port of the colony, North Fremantle, also Albany, Geraldton, Guildford, Helena Vale, York, Bunbury, Northam, Newcastle, Busselton or Vasse, Beverley, Cossack, Carnarvon, Cue, Roebourne, Gingin, Coolgardie, Day Dawn, Esperance, Kalgoorlie, Menzies, Southern Cross, Kanowna, Leederville, Mount Magnet, Nannine, Norseman, Boulder, Broad Arrow, Bulong, East Fremantle, Subiaco, Victoria Park, Claremont, and Leonora, have all been proclaimed municipalities. Thirty-six of the municipalities have been brought under the provisions of "The Health Act, 1898."

District Road Boards. — At the beginning of 1900 there were 85 Road Boards, which have charge of

the formation, construction, and maintenance of the public roads throughout the colony, excepting those within the boundaries of municipalities.

Divisions.—For various purposes the colony is divided into districts, having separate and different boundaries. There are six land districts, viz., the South-West Division, Western, North-West, Kimberley, Eucla, and Eastern; fifty constituencies [see Governmental]; thirty-seven magisterial and police districts: in addition to which large sections are parcelled out into educational and road board districts. In the South-West Division there are 77,980 square miles; the climate is very good, the average temperature being 63° and the rainfall 23·24 inches. In the Western Division there are 133,000 square miles; it contains the Murchison gold field; the climate is hot. The Murchison and Gascoyne rivers drain this important district. Average temperature 72°, rainfall 7·2 in. The North-West Division contains 81,000 square miles, and is a very rich pastoral district; the Pilbarra gold-field is in this district. Average temperature 76°, rainfall 11·62 in. The Kimberley Division has 144,000 square miles; it contains the Kimberley gold-fields, and has also some splendid pastoral land. Average temperature 83°, rainfall 24·01in. In the Eucla Division there are 50,880 square miles; it has good grass in some places, but is badly watered. In the Eastern Division there are 489,060 square miles, and it comprises the interior of the colony, with the famous Yilgarn, Dundas, East Murchison and Coolgardie gold-fields.

Climate.—The following description of the climate of the colony was supplied by Mr. W. E. Cooke, the Government Astronomer of Western Australia. There are three distinct climates in West Australia, northern, intermediate, and southern. The northern is truly tropical, consisting of a wet season lasting from about November to March or April, and a dry season from April to November. In the wet season thunderstorms are of frequent occurrence, the air being hot and humid, and the slightest exertion causes profuse perspiration. Access to inland districts is then difficult owing to extensive floods. The monthly means of the maximum and minimum daily temperature at Derby from November, 1899 to April, 1900, were as follows:—

November, 86·6; December, 87·2; January, 90·0; February, 88·9; March, 85·0; April, 85·2.

The highest temperature recorded during this season at any place in the Far North was 111·0 at Wyndham on January 16th, and 111·0 at Broome on November 25th, and the lowest 33·1 at Hall's Creek on June 29th.

When the rains are over and the dry season starts the climate is delightful. The average maximum and minimum temperature at Derby from May to October, 1899, were:—

May, 73·5; June, 71·0; July, 68·2; August, 72·9; September, 79·6; October, 82·0.

Inland the nights are often quite cold.

The mean annual rainfall varies from 28 inches at Wyndham to 11 inches at Cossack.

In the southern, and especially the south-west portions of the colony, we find a climate which for agricultural, horticultural, or ordinary living purposes is probably unsurpassed in the world. Instead of the usual four seasons there are practically only two—summer and winter. In the summer (November to April) the temperature is often over 90°, but usually at about mid-day the hot easterly wind veers to the SW., and a delicious cool sea-breeze, locally known as the "doctor," sets in all along the coast, and penetrates some distance inland. The most unpleasant months are January, February, and March, and it occasionally happens that the "doctor" fails to put in an appearance for three or four days consecutively. Under these circumstances the weather is certainly very disagreeable, but this rarely occurs. With suitable clothing, the dry heat of 90° to 100° is not at all distressing. Along the southern coast, and especially at Albany, the weather throughout the summer months is beautifully cool and fresh, a hot day being exceptional and a spell of hot weather almost unknown. After March the climate is truly delightful and extremely healthy. A large quantity of rain falls during the winter months, but it comes mainly in heavy showers, and principally at night. Along the south coast the rain seems to hang about all the time, but elsewhere it clears off rapidly, and the weather is calm, frosty, and clear, with magnificent blue skies, such as are rarely if ever seen in England. The most enjoyable months in the year are September and October, which correspond to a fine English summer. Open-air life during these months, amongst the blaze of wild flowers for which this country is celebrated, constitutes an almost ideal state of existence.

The average annual rainfall can be gauged from the following figures for a few selected districts, each district comprising one degree "square" in which the locality mentioned is situated.

Coastal.—Geraldton, 19 inches; Perth, 31 inches; Jarrahdale, 34 inches; Bunbury, 34 inches; Albany, 30 inches. *Inland.*—Newcastle, 21 inches; C. Leeuwin, 38 inches; Esperance, 24 inches; Doongin, 12 inches; Southern Cross, 9 inches; Wandering, 21 inches; Pingelly, 17 inches; Broomehill, 18 inches. Snow has occasionally been reported as having fallen on some of the mountain ranges, and frosts are not uncommon inland during the winter months.

The intermediate climate is a compromise, and a poor one. It embraces the North-west and the Eastern Divisions. In these districts nothing is certain, except the summer heat. They may be favoured at times with heavy tropical downpours on the one hand, or with an extension northwards and eastwards of the bountiful rains which visit the south-west portions in the winter, but frequently they receive neither one nor the other. The average annual fall is from 5 to 12 inches, but in some years there may be next to nothing, whilst in others heavy floods may be experienced. For instance, Onslow, on the NW. coast, had only 73 points (¾ of an inch) during the whole of 1896, whereas Whim Creek, in the same district, recorded 36 inches in one storm in April, 1898. The season for 1900 was probably the best on record, as these districts participated in both tropical and southern rains. Occasionally, very severe tornadoes visit the NW. coastal districts. They come in from the ocean and wreck everything in their path. Residents find it necessary to chain their houses down to the ground with strong iron cables, but even these precautions are often useless. One of the most violent of these storms occurred on April 2nd, 1898. The barometer fell to 28·226 at 3 p.m. on that date at Cossack, and the amount of damage done was very great. These are evidently true tropical tornadoes, and need be feared, as a rule, only between Christmas and Easter.

The summer heat, especially in the eastern districts, is very severe. The average maximum temperature at Cue, the centre of the Murchison Goldfields, for January, 1900, was 97·4 Fah.; for February, 103·7, and for March, 88·9. The highest temperature recorded anywhere in the colony last summer (1899-1900) was 115·5 at Onslow, on the NW. coast.

Perth Observatory.—An astronomical and meteorological observatory has been established on the top of Mount Eliza, a small hill with an elevation of about 200 feet overlooking the city; the foundation-stone was laid on September 29th, 1896. Standardised instruments are mounted in a Stevenson Screen, and similar sets similarly mounted give records at 33 stations ranging from Wyndham in the extreme North, to Cape Leeuwin in the extreme South, and Eyre in the Far East. All these instruments have been carefully compared with the Kew standards, and are from time to time re-compared with one another by an inspector, who makes periodical visits to see that the instruments are in good order and the observer doing his work well. The Observatory is also furnished with a set of "platinum resistance" thermometers, and thus possesses an independent method of standardising the ordinary mercurial instruments. Daily returns are received from all the meteorological stations; and the wind, weather, and rainfall are reported from almost every telegraph station in the colony. Telegraphic reports are also daily received from a number of selected stations in the neighbouring colonies, and from these complete weather maps, showing isobars or lines of equal atmospheric pressure, are constructed and exhibited in the vestibule of the General Post Office and various other places in Perth and Fremantle. The Astronomical Equipment comprises an astrographic equatorial, a transit circle, a coelostat, a parabolic reflecting telescope, a sidereal and a standard time clock, with chronograph, spectroscope, &c. A Time Ball has been erected at Fremantle, and it is dropped at 1 P.M. daily. At present the Observatory gives a time signal by telephone every morning to the Railway Department, and the standard time clock automatically regulates a timepiece exposed at the principal entrance; also several clocks in the General Post Office, from which place and from the railway station correct time is telegraphed or telephoned to all the railway and telegraph stations in the colony. Some 30 meteorological stations are connected with the Observatory.

Soil.—In Western Australia there is as good and as great a variety of soils as in any part of the world. In 1888 the area of land under cultivation totalled 65,701 acres. This acreage has increased by leaps and bounds till in 1900 the total area under crop was 186,396 acres. Of these, 84,516 were under wheat, and 78,880 under hay of all kinds. Cereals are grown as far north as latitude 29°, and on the hills to the east of Perth nothing is thought of a crop of 20 to 30 bushels to the acre. There are extensive areas that will yet become available for the growth of the sugar-cane and other tropical productions. The eastern side of the Roe and Darling Ranges is especially suitable for the grazier and farmer. In the north, too, there are extensive grassy downs, capable of depasturing vast numbers of sheep and cattle. The presence of poisonous plants, which was formerly one of the greatest drawbacks in some parts of the country to stock raising, is now a very minor evil, and a large area of so-called "poison lands" has been taken up by the Land Company of West Australia, Limited, by the late Mr. Anthony Hordern, and is being turned to profitable account, the poison being easily and economically exterminated. With regard to the alleged barrenness of the sand-plains, experience has long since proved that they will grow almost anything with a little irrigation. In the words of a former governor, Sir Frederick Weld, "West Australian sand is the most fertile in the world. The greater extent of the seaboard is separated from the interior by low ranges of hills, running parallel to it, and covered with forests, principally of jarrah. The fertile land exists in patches, and some of it is of a very rich character. On the whole, the soil may be said to possess immense productive powers under unfavourable circumstances." It was proposed some years ago to introduce the Buffalo grass, in order to utilize gradually the sandy tracts, but this has only been done in a few localities. Couch (or Doob) grass has been largely introduced for paddocks. It thrives abundantly, grows upon the poorest of soils, and in the hottest and driest weather affords substantial pasturage. In many parts of the bush it is now growing without the intervention of artificial culture. The Registrar-General, in the "Western Australian Year Book," says:—"Most of the European grains, fruits, and vegetables can be cultivated and brought to a high state of perfection in the Southern part of the Colony. The soil in parts is sandy, but this sand when irrigated is highly productive. There is a large extent of light friable soil suitable for all kinds of crops. The climate,

as regards agriculture, is favourable, although at times subject to bad seasons. The shortest day is in June, and midsummer comes in December; with August commences the spring, and the winter begins in April. Sheep, horses, and cattle thrive well throughout the Colony, more especially in the Northern parts, where the pasturage is extensive and very nourishing."

Much of the south-western portion of the colony is admirably suited for dairying, being well watered and having a good rainfall. The factory system was introduced in 1898 by the establishment of a modern butter factory at Busselton on the Vasse river. Dairying, pig-raising, and poultry-keeping offer great inducements, as the bulk of these consumed is now imported to the value of nearly £600,000.

Geology.—The following description of the geological features of the colony was written by Mr. H. P. Woodward, F.G.S., F.R.G.S., F.I.Inst., ex-Government Geologist.

Western Australia as a whole may be described as a large sandy table-land, rising to an elevation of from 1,000 to 2,000 feet above the sea level; upon this table-land there are areas of depression in which the so-called lakes are situated. These lakes are in reality large salt clay flats draining one into another, and so eventually into the upper courses of the rivers, but as the rainfall is so small, and the extent of almost dead level so great, they rarely discharge themselves, the water evaporating upon the surface, leaving its deposits of mud, salt, and gypsum.

Around these lakes the granitic and schistose rocks outcrop (as the overlying hills of desert sandstone have been removed), and it is associated with these formations that the rich gold discoveries have been made. These older rocks in the western portion of the colony may be divided into six belts, having a general north-westerly strike.

1st, the western, or copper, lead, and zinc belt, which consists of slate, schists, quartzites, &c., extending from the Murchison River to Cape Leeuwin. It is mostly covered by the coastal sand plains, but outcrops at Northampton, south of the Irwin, and here and there along the foot of the Darling range, and forms a small range between Capes Naturaliste and Leeuwin.

2nd, or ferruginous, auriferous pyrites, and tin belt, forms the bold escarpment known as the Darling range, which extends from the Gascoyne River to the south coast. It is about 50 miles in width, consisting for the most part of hard gneissic and schistose rocks, with numerous dioritc dykes which, as well as the quartz reefs, carry auriferous pyrites.

3rd, or first granite belt, is about 100 miles in width, consisting of bold base outcrop of gneissic granite where the overlying sandstones have been removed.

4th, or first auriferous belt, is from 15 to 20 miles in width, extending from the Ashburton to the south coast, consisting of metamorphic and schistose rocks, and it is upon this belt that the Ashburton, Murchison, and Yilgarn gold-fields are situated.

5th, or second granite belt, is about 100 miles in width, extending from the north-west to the south coast, being similar in every respect to the first belt.

6th, or second auriferous belt, extends from the north-west coast to the Dundas hills, being very similar to the first auriferous belt, the only difference being that the rocks are much more faulted and the lodes as a rule richer. The width of this belt is at present unknown, but gold has been found along its entire length whenever it has been prospected, and it is upon this belt that the Pilbarra, Coolgardie, and Dundas gold-fields are situated, with the new discovery at Lake Carey, east of the Murchison gold-field.

In the Kimberley these rocks again outcrop in the form of a horse-shoe belt, the toe of which points south, the hard crystalline schists forming the King Leopold ranges, &c., with a granite belt encircling them to the south, whilst yet further south and east, at the heads of the Ord and Fitzroy Rivers, the auriferous schistose rocks outcrop, and it is here that the Kimberley gold-field is situated.

Northward of the King Leopold Ranges to the north coast is a table-land of carboniferous and Devonian limestone, sandstone, quartzites, and shales, which present bold vertical cliffs to the sea.

Southward of the Kimberley district stretch the Dorset sandstone table-land of the interior, which here extends westward to the coast, forming the 90 miles beach south of Roebuck Bay. South of the Pilbarra gold-field is a palæozoic table-land of magnesian limestone which extends to the head of the Lyons River, from beneath which the auriferous rocks outcrop in the Ashburton Valley.

From the north-west cape south nearly to Perth a series of mesozoic rocks outcrop, forming flat-topped or tent hills of limestone, sandstone, &c., whilst around the coast at Shark's Bay large deposits of tertiary sandstones occur.

The limestone cliffs of the Great Australian Bight are also of this age, whilst at their base and all round the south and west coast are recent sandy and swampy flats and raised beaches, proving that the coast is rising. True coal measures exist on the Collie River in the Darling range, about 30 miles eastward of Bunbury, and seams of considerable size have been discovered, but the extent of the basin is at present unknown. Coal measures also exist on the Irwin River, whilst the carboniferous formation extends northward to the Fortescue River, and is also met with in the Kimberley district.

Mr. A. Gibb Maitland, F.G.S., Government Geologist, has published, under the title of "The Mineral Wealth of Western Australia," a most valuable book on this important subject.

Water Supply.—The South Western portions of the colony are well watered, and the principal towns of this quarter are already, or are in course of being, supplied with reticulation works.

The Eastern goldfields wherein the question of water supply has become one of paramount importance, are now receiving considerable attention in this respect. The goldfields water supply scheme has been designed by the engineer-in-chief (Mr. C. Y. O'Connor, C.M.G.) to supply the fields with water from the South Western coastal ranges. A sum of £2,500,000 devoted to its execution has been voted by Parliament. The principal feature of this scheme is the pumping of 5,000,000 gallons of water per diem through a steel conduit along 200 miles of water main into a distributing high-level reservoir near Coolgardie, and the distribution thence by gravitation to Coolgardie, Kalgoorlie, and other mining centres. The preliminary works were begun in April, 1898, and considerable progress was made during 1898-1899 with the work at the Helena Weir, about 21 miles from Perth and 330 miles from Coolgardie; the area of catchment basin is about 360,000 acres.

In addition to this, works involving an expenditure of about £200,000 in reservoirs, tanks, bores, and wells are being pushed forward.

Numerous bores have been completed, and hundreds of thousands of gallons of fresh water are being discharged daily.

The Murchison Fields and the North Western Districts generally, are fairly well supplied with underground fresh water, and considerable expenditure is now going forward in these districts in the provision of wells, tanks, and bores.

Upon the whole, the question of water supply, to all except the South Western district, is likely to give trouble for some time to come, for whilst the average rainfall is unduly small, ranging in different districts from 4 to 11 inches per annum, on the other hand the surface evaporation is unduly great, ranging as it does from 70 to 90 inches per annum, and at the same time the natural features of the country, which is in the main flat and porous in character, are not readily conducive to the conservation and storage of such rainfall as may be expected.

Coolgardie and Eastern Goldfields.—Not including tanks, &c., for railway purposes, there are now 19 tanks and reservoirs for general water supply purposes, having an aggregate capacity of about 90,000,000 gallons, at a total cost of about £170,000. Besides these tanks there are numerous wells and condensers, both Government and private, from which a fairly copious supply of water is maintained.

Dundas Field.—There are several condensers between Esperance Bay and Dundas, and the demand for water has been fairly met.

Murchison Field.—Water is readily obtainable from wells which are very numerous and well maintained by the Government. There are only four centres on this field—Cue, Day Dawn, and Lawler's Mount Magnet—at which water is not free.

Pilbarra Goldfields.—The water supply on this far northern field is wholly from wells; most of which have been sunk by the Government. In general these wells are not deep, and have fairly good supplies of fresh water.

Metropolitan Water-Works.—The Government acquired the Perth Water-Works for the sum of £220,000, and they are now managed by a Board whose duties are to "manage, maintain, and improve the waterworks, and from time to time, with the approval of the Government, to extend them as required." The Board is further empowered to issue debentures for £400,000, payable in not more than forty years from issue, and bearing interest at 4 per cent. The works are intended to supply the city of Perth and suburbs with water for domestic use. A sum of over £405,000 has been spent on maintenance and construction. A new reservoir is in contemplation at Mount Eliza.

Fremantle Water-Works.—Fremantle and its suburbs are supplied from wells located in the Prison Reserve; the two service reservoirs have a joint capacity of over 1,300,000 gallons. The works are completed, with the exception of further reticulation.

Sewerage.—During 1895-6 an extensive and important survey in connection with the proposal to properly sewer the city of Perth was completed. The whole of the city and suburban area proper was covered and about 90 square miles of the outlying district. A similar survey at Fremantle has been completed. A scheme of surface drainage is being carried out both in Perth and Fremantle.

Products.—Flowers and fruits from all parts of the world flourish luxuriantly. The vegetables of England grow to great perfection, and may be cultivated at almost any season of the year. In summer, oranges, apples, pears, peaches, nectarines, apricots, plums, figs, almonds, bananas, and pomegranates grow abundantly. Strawberries, also, grow well in the southern districts and many other fruits could be cultivated in the southern parts of the Colony and others in the Northern. Both climate and soil are admirably adapted for the cultivation of the grape, and the number of vineyards is increasing yearly, as is also the amount of colonial-made wine consumed in the colony, though at present but little is exported. The olive, wherever cultivated, grows luxuriantly; and during the last few years seri-culture has been successfully and profitably attempted. Bees thrive, and produce honey in astonishing quantities. The increase of the swarms which from time to time have escaped from tame hives has peopled the uncultivated bush with numerous colonies, whose treasures afford to the aborigines an aid to subsistence. The agricultural capabilities of the colony are extensive, and the breadth of land under crop has within recent years greatly increased. Portions of the country, especially in the east and northern districts, are admirably adapted for wheat-growing. Amongst native scent plants Boronia megastigma stands pre-eminent, being quite famous for its peculiarly aromatic fragrance. There are also many useful medicinal plants.

The dairying industry is receiving much attention, and every

facility is given by the Government to intending dairymen. The market is a large one, as is proved by the fact that in 1898 4,102,312 lbs. of butter, valued at £195,467, and 1,026,943 dozen eggs, valued at £52,667: in 1899, 4,428,820 lbs., valued at £184,239, and 1,199,562 dozen, valued at £50,682, were imported.

The wool produced and exported in 1895 amounted to 8,290,805 lbs., value £183,510; in 1896, 10,995,659 lbs., valued at £267,506; in 1897, 12,374,881 lbs., valued at £295,646; in 1898 10,126,306 lbs., valued at £287,731; in 1899, 9,948,417 lbs., £423,296. The gold raised in 1895 amounted to 231,513 ozs., value £879,748; in 1896, 281,265 ozs., valued at £1,068,808; in 1897, 674,933 ozs., valued at £2,564,976; in 1898, 1,050,183 oz. 11 dwts. 23 grs., valued at £3,990,698; in 1899 1,434,570·48 ozs., valued at £5,451,368.

Considerable quantities of gum, resin, mother-of-pearl, and tortoise-shell are annually exported. The Hawksbill turtle, from which the last-named article is procured, is found on all the islands of the coast.

Sandalwood, 3,851 tons, valued at £30,863, was exported in 1895; in 1896 the export was valued at £65,800; in 1897 exported value was £49,480; in 1898, £31,812; in 1899, £29,719. The principal market for sandalwood is China, where it is used for incense purposes.

The Jarrah, a species of Eucalyptus, best known as the West Australian mahogany, has been before alluded to. It is in great demand for railway sleepers, for building purposes, and for all kinds of marine constructions, and it has also been extensively used for paving the streets of London and other large cities. When properly seasoned it has the valuable property of resisting the *teredo navalis* at sea. To jarrah and karri are assigned twelve years by English Lloyd's for use in shipbuilding, being the next highest classification to teak (fourteen years). 25,106 loads of timber, valued at £88,146, were exported from the colony in 1895; in 1896, 30,912 loads, valued at £116,420; in 1897, 47,866 loads, valued at £192,451; in 1898 the value was £326,195; in 1899, £553,198.

Guano.—Extensive deposits of Guano have been discovered at the Lacepede Islands, situate in 17° S. lat. and 122° E. long.; at Browse Island, and especially at the Houtman's Rocks or Abrolhos Islands, and the manure exported in 1895 amounted to 100 tons, valued at £200; in 1896, 1,660 tons valued at £4,506; in 1897, 1,496 tons, valued at £3.250; in 1898, 3,950 tons, valued at £9,386; in 1899, 2,045 tons, valued at £5,165.

Woods and Forests.—The indigenous trees comprise the jarrah (*Eucalyptus marginata*), tuart, or tooart, (*Eucalyptus gomphocephala*), sandalwood (*Santalum cygnorum*), karri (*Eucalyptus diversicolor*), white gum (*Eucalyptus redunca*), red gum (*Eucalyptus calophylla*), York gum (*Eucalyptus loxophleba*), a species of acacia (*Acacia acuminata*) known as the raspberry-jam tree, from its peculiar scent, the red and blue gum and kindred trees, casuarina, various kinds of banksia, she-oak, and wattle, the bark of the latter possessing good tanning properties. The late Mr. J. Ednie-Brown, Conservator of Forests for Western Australia, has estimated that the principal forest surface of Western Australia occupies 20,400,000 acres, distributed as follows:—Jarrah (with blackbutt and red gum), 8,000,000 acres; Karri, 1,200,000 acres; Tuart, 200,000 acres; Wandoo, 7,000,000 acres; York gum, Yate, Sandalwood, and Jam, 4,000,000 acres. Mr. Ednie-Brown also estimated that there are in the forests of Western Australia over 62,300,00 loads of round matured timber, at a present marketable value of £124,000,000. Mr. Ednie-Brown's "Report on the Forests of Western Australia" is a valuable contribution to the timber question of the west. Excellent works on the forest resources of the Colony have been written by Sir Malcolm Fraser, and by the late Baron von Mueller, the latter stating that the forest regions of extra-tropic West Australia occupy an area equal to the whole territory of Great Britain, it being singularly fortunate for the colony that over this vast extent of wooded country a species of eucalyptus (the jarrah) prevails, which, for the durability of its timber, is unsurpassed by any kind of tree in any portion of the globe. The forest country from which timber for export is obtained occupies an area of about 30,000 square miles at the south-weste xtremity of the colony. The colony, however, is barren in respect to timbers known as soft wood, used so extensively in the building trade.

Timber Industry.—There are 35 forest saw-mills at work in the colony, employing about 3,000 men, and over 1,000,000 acres are held under timber licenses, the approximate daily output being 800 loads. The opinion is expressed that it would take three times the number of mills to exhaust the present timber resources of the colony within 300 or 400 years. During 1899-1900 trade was not very brisk, but there is no doubt that the demand for West Australian hardwoods, for railway sleepers, street paving blocks and piles for wharves and piers, is increasing rapidly.
